ATTEMPTED SUICIDE

Mazie Campbell-Johnston of Nicola Takes Carbolic Acid To End Her Life.

Miss Mazie Campbell-Johnston, daughter of R. C. Campbell-Johnston, M. E., of Nicola, attempted to take her life on Monday last by swallowing a dose of carbolic acid, according to report. It appears the young lady had been keeping the company of a gentleman named Jack Chapman, much against her father's wishes. Report even says that the irate father threatened to puncture young Chapman's hide if he persisted in paying attention to his daughter. Not to be outdone the two fond hearts that were desirous to beat as one decided to take the matter in their own hands, it is said, and planned to elope. Becoming acquainted with these facts the parental head had the police put on their trail and the erring one was brought home. Preferring death to separation from the man of her choice, Miss Mazie partook of the contents of a bottle of carbolic acid, but before the deadly poison had time to fulfil its ghastly mission medical aid was summoned and her life was saved. Nicola is greatly stirred up over the incident.

SANTA'S PROCLAMATION.

Faithful to his promise, Canta Claus sent a wireless to the Star this week, authorizing the publication of the following official document, under date of Dreamland, Dec. 8, 1906:

PROCLAMATION!

To all Good Children of Princeton and Surrounding District—

You are all hereby requested to be present with your parents and friends at the Court House, Princeton, on Friday evening, Dec. 21st, 1906, at seven of the clock, when I shall be pleased to meet you and hear report of your conduct during the past year and award Xmas gifts according to merit. Take heed therefore of your conduct during the short time before my arrival, and fail not to be at tho above mentioned place on Friday, Dec. 21st, 1906, to meet your old friend, ST. NICHOLAS.

The executive of the Similkameen District Liberal Association will meet in Hedley on Dec. 18th, when matters of importance will be brought up for consideration.

D. A. Carmichael passed through town on Monday on his way home to Fairview, having been summoned home on account of the illness of his wife.

Drop in and see us these cold evenings. A good warm fire always going and we are always glad to see you at the A. E. Howse Co. Ltd.

FEW TARIFF CHANGES

To Meet Wishes of British Columbia Mining Interests Announced.

In accordance with recommendations made to the Tariff Commission during the visit to British Columbia, by mining men, several changes have been made in the tariff as introduced in the budget speech by Hon. Mr. Fielding, last week. The following articles are dropped from the free list and will become dutiable as machinery, or as manufactured iron or steel, as the case may be: Coal washing machinery, coke making machinery, charcoal making machinery ore drying machinery ore refining machinery, ball and rock emery grinding machinery, jigs, classifiers, separators, blast furnaces, water jackets, monitors, and giants.

The following have been added to the free list and are free of duty: Parts of monitors, safety lamps and accessories for cleaning filling and testing such lamps; blast furnaces for the smelting of copper and all integral parts of all machinery specified in the items. The diameter of the tubing covered by the items has been increased from 2½ to 4 inches. Briquetting plants are also on the free list and the duty on giant powder is reduced from three cents to two and a half cents per pound. Slag trucks used at copper smelters are admitted free.

A COAL HOLDUP.

A Portland, Ore., late despatch says that town after town in Washington and Oregon is stopping trains forcibly, weighing out coal at eight dollars per ton, depositing money to repay the railroad. The fuel famine is accentuated by the unusual cold snap. Wilbur, Garfield, and Winona, Wash., Ontario, Ore., and Nyssa and Payett, Idaho, have boldly held up conductors and raided cars. The Ontario people forced the trainmen to sidetrack four cars. The railroad has asked the prosecuting attorney of Whitman county to issue warrants against Winona citizens. He has refused. The car shortage is largely responsible for the famine.

A colored baby has been born in Paducah, Ky., with the initials "D. M." on its forehead, and the people out there don't know what "D. M." means. But the people of British Columbia know. The baby is a natural born prophet. It found out that the Provincial elections were looming up, and wanted to boost for Dick McBride from birth. It's a great thing to be a precocious infant.—Province. McBride's chances at the coming election certainly do resemble a nigger baby.

The big store's stock of Xmas goods will arrive next week. Better wait and look it over before buying your Xmas goods. The A. E. Howse Co. Ltd.

$11,500 IN REWARDS

For Capture of Bill Miner Apportioned Last Week at Vancouver.

The apportioning of the reward of $11,500 offered for the capture and conviction of Bill Miner, Shorty Dunn and Colquhoun, the men who held up and robbed a C. P. R. west-bound express between Kamloops and Ducks last May, was completed on Saturday last in Vancouver.

Of the total reward offered the Dominion Government gave $5,000, the C.P R. an equal amount, and the Provincial Government $1,500. The division of the reward was as follows: Each of the five members of the Northwest Mounted Police (Sergt. J. J. Wilson, Corp. T. M. Shoebotham, Corp. J. T. Browning, Private James Stewart, and Private C. T. Peters), $1350; Provincial Constable Fernie, $1350; Provincial Constable Pearse, $800; F. E. Parker (who was with Constable Pearse), $500; each of three Indians who assisted in the chase, $700.

ST. ANDREW'S DAY.

The anniversary of St. Andrew's day was duly celebrated on Friday evening, Nov. 30th in most every city and village throughout the Province. Princeton's sons of the land where the heather grows did not make merry in their own town, but those who could manage to make the trip joined their Hedley brethren in singing—

No nation, no nation,
My envy e'er could raise;
A Scot still—I know no higher praise.

The Hedley St. Andrew's Society did themselves proud on the occasion, and feasted and toasted their patron saint in truely Scottish fashion. Some forty guests sat down to a sumptuous repast, after which the braw lads and lassies danced to the enchanting strains of Scottish airs until the wee sma' hours of the day after.

Lots of fresh eggs, guaranteed absolutely A1 at the A. E. Howse Co. Ltd.

In an interview with a coast paper recently, Mr. Voigt is reported as saying that he has bonded No. 14 group on Copper mountain to a large corporation now operating in the Boundary and that work would be commenced at once.

Last week saw the grading on the V.V. & E. completed as far as Keremeos. Whether work will be continued from Keremeos Princetonwards this winter is a question that most people in this valley would like to have answered.

The Prospector's Club of Hedley propose giving a dance on the 13th inst.

THE SUNSET GROUP

On Copper Discussed by R. A. Brown of Grand Forks.

Under date of Grand Forks, Nov. 25, the Spokesman-Review publishes an interview with R. A. Brown, the original locator of the Sunset group of mines on Copper mountain. Mr. Brown is reported as saying: "The South Yale Copper Co. and Jim Hill's experts have turned down the Sunset group, the biggest copper property in the world. When the South Yale Copper Co.'s experts went over to the Sunset group last spring I followed them over, knowing that I could help them if they would only listen to my practical experience on Copper mountain. I had a long talk with Mr. Underhill of New York, president of the company. I met him at Princeton after he came from Copper mountain, and told him about my experience in doing work on the Sunset. I showed him the average assays from the surface down the shaft to the 100 and 150 foot levels and the assays from the 190 foot depth, which went .598 per cent in copper and 80 cts. in gold to the ton. I advised him to put on machinery and sink a shaft down to the 300 foot level and crosscut east and west across the metals, which would be 500 feet one way and 600 feet the other way, which would cross the metals at that depth.

"Mr. Underhill agreed with all I said. He then went to Greenwood and to New York, but he left implicit instructions with a Mr. Morrison at Eholt regarding the work on the Sunset. I saw Mr. Morrison and he told me that his orders were to go to the Sunset group and get the water as low as possible and then drift along the metal deposits. I told him that they wanted to spend $20,000 on what I already knew. This company expended $16,000 in useless work and contrary to my instructions, it taking four months to do the work. I told the South Yale Copper Co. officials to take note of my report and see if it did not prove itself just as I had stated.

"At this time Jim Hill's experts came along and inspected Copper mountain and 'turned it down.' It was then that the supt. of the South Yale Co. finally concluded that my report and way of prospecting the Sunset was correct, and he wanted to spend another $4,000 in diamond drill work following the plans that I had laid out. But when we figured that it would cost $10,000 to prospect the group we made the company the offer that if they would put up the next payment of $10,000 we would let them have the stock at the same price they had been paying for it. They refused to do this and we shut down the mine after this company had spent $16,000 in doing useless work on the group."

Mr. Brown concludes by stating "that 90 per cent. of the mining experts have entirely mistaken their calling and should be following the plow."

Great Northern stockholders will have as a Xmas gift one of the largest financial "melons" ever cut in Wall street. James J. Hill has announced officially that a distribution of approximately of $150,000,000 gratis in securities will occur on December 8th.

PROVINCIAL NOMINATIONS.

Taking into consideration the fact that a Provincial election is liable to be brought on at any time now by the McBride-Socialist Government, nominations for political honors are taking place in the different electoral districts of the Province on both sides and an opportunity is thus afforded to "size up" and compare some of the men so far brought out.

At the Liberal convention held last week for Kamloops district, J. D. Swanson, barrister, was unanimously chosen to uphold the Liberal standard in opposition to the Conservative candidate, Hon. F. J. Fulton. Referring to the selection of Mr. Swanson the Kamloops Sentinel says: "By the selection of Mr. Swanson, the Liberals have given their cause into the hands of a man who has been identified with the Liberal party all his life and who, since taking up his residence in Kamloops, has persistently, vigorously, and with his whole soul and strength, fought the party's battles. Mr. Swanson is eminently qualified to sit in the Legislature. He is thoroughly conversant with both Dominion and Provincial politics; is an earnest student, scholarly, a good debater and a man of whose intrinsic worth, honesty and integrity there is no question. In him his political opponent will find no mean antagonist, and with a united Liberal party in the city of Kamloops, hitherto the one weak spot in the district, there is every reason to believe that the confidence the Liberals now have of winning this seat at the next election is well founded."

The Hon. Mr. Fulton's political standing is too well known to require extensive notice. Like the majority of McBride's supporters, he was selected, not on account of his ability, but merely as a voting machine to assist the Government in carrying out its schemes to rob the Province at the expense of the already overburdened taxpayer. Mr. Fulton dresses well, lives well, and looks well. Goes to Victoria, draws his pay, votes to keep himself and party in power, and to perdition with the country.

The Liberals of Okanagan electoral district assembled in convention on Nov. 20th at Vernon and unanimously agreed on Dr. Mac-Donald to carry them to victory at the forthcoming election. In commenting on the convention's choice, the Okanagan says: "In Dr. MacDonald, who was nominated Tuesday as Liberal candidate for this riding, the party has a strong, clean man, a man whom all can respect, a man who does not consider that honor and decency should be laid aside in an election campaign. With such a man as this, and considering the present political conditions in the Province, there need be but little doubt, if patriotic electors but half do their duty, of his election when polling day comes round, which it probably will sometime between now and the last of January."

In saying that Mr. Ellison, the present holder of seat, is a popular gentleman, you say all that can be said in his favor. True he did show faint signs of life when the Government robbed the Okanagan of the Midway & Vernon Railway, but he has since been whipped into line by his political masters, and is apparently willing to continue as a political tool of the McBride bosses.

Coming to the Premier's own constituency—Dewdney—which enjoys the reputation of being the most corrupt in the Province, the Liberals have brought out Mr. R. Jardine, late manager of the Royal City Mills at New Westminster. Mr. Jardine has assisted in many a hard fought political battle and is well acquainted with the methods used to elect Dewdney Dick. He is a worker from the word go and will make McBride and his henchmen hustle.

The Premier's political history is so well known that it hardly necessary to refer to it. From his first session in the House to the present he has allied himself with the graft element. By a political fluke he became Premier, a position he has since dragged through the mire and made a by-word of. Birds of a weather flock together 'tis said, so when McBride formed his Cabinet he gathered about him for the most part men of his own stamp. At the head of what is probably the most important department of the Government, that of Chief Commissioner of Lands and Works, he placed "Bob" Green. How his bosom friend Green has brought disgrace to this department and to the Province at large is fresh in the minds of the public in connection with that scandalous Kaien Island-Mrs. Anderson deal. Had the Premier not been more or less mixed up with that deal he surely would have purged the Government of such a Minister. About the only real man of ability in the Cabinet at that time was Attorney-General Wilson. But Mr. Wilson evidently couldn't stand for Green and his associates and resigned his portfolio. This then is the Premier who will shortly ask the people for a renewal of his political life. Another four years of McBride administration and all the grafters, male and female, in the Province will be living on the fat of the land, at the expense of the honest, industrious, hard working taxpayers.

In the constituency of Delta, represented by John Oliver, the man who has been instrumental in bringing to the light some of the misdeeds of the Government, and who has shown himself to be a stalwart champion of the people's rights, the Conservative - Socialist gang have induced Frank McKenzie, a druggist of Ladner, to offer himself as a sacrifice. Mr. McKenzie, is a real nice young man, with a well groomed pate of curly locks of the auburn hue, parted dangerously near the center. He'd make a strong favorite at a picnic, but a parliamentarian never. Just the kind of clay to be moulded into a McBride voting machine.

Coming to the constituency in which the people of this district are chiefly interested what do we find? Although the Liberals have not as yet placed their candidate in the field, it is more than likely that the choice will fall on Smith Curtis. At the time of writing Mr. Curtis is not a resident of the Similkameen but it is his intention to make his permanent home amongst us in the near future. Mr. Curtis will be no stranger to the legislative halls at Victoria, where has made his voice heard on more than one occasion on behalf of the people. He is a keen student of political affairs in this Province, a man who has the courage of his convictions, one who believes in the elevation of political life, as shown by his own unsmirched public career, and is one of the most forcible and ablest debaters in the Province. Just such a personality that is required at the present time to represent the Similkameen. There is one important point in connection with Mr. Curtis' candidature that should be borne in mind. Should he consent to represent us in the coming political battle, and the Liberals are returned to power, which is a foregone conclusion, Mr. Curtis will be one of the first to be invited into the Macdonald Cabinet. The importance of having us represented by a Cabinet Minister can hardly be overestimated.

Of course L. W. Shatford will seek re - election, but on what grounds we are unable to say. Has Shatford's voice ever been heard on the floor of the House since his election? Has he ever done anything for the good of the country to warrant the support and confidence of the electorate? Has he done anything worth mentioning for his own constituency? We venture an emphatic NO! One thing he did do, to his everlasting discredit, was to SHIRK THE VOTE ON THE EIGHT-HOUR BILL FOR MINERS during the session of 1906. What has he done for L. W. Shatford? That's another question. Politically he is a nonentity.

$5.00 Silver

FAIRVIEW NOTES.

(From Our Own Correspondent.)

The Stemwinder Gold and Coal Mining Co. will soon be able to run their forty-six stamp mill with water, a large flume being now built for that purpose. The new 10-drill compressor will be ready to start up in ten days, when the mine will be pumped out. The working shaft will then be sunk three hundred feet deeper which will give a total depth of seven hundred feet.

H. and C. Jones have now a corner on beef and all other kinds of meat in this locality. They have established a large up-to-date meat market next door to the Golden Gate Hotel and are doing the thing up in style.

Our town had a great shock a few days ago. Someone happened to look south and a smoke was seen. After several pairs of field glasses had been brought to bear on the spot it was discovered that it was caused by the train six miles from Oroville laying track. It was about 18 miles away, but even at that distance it looked good to some of us who had never seen one before. Horses have gone away down in price since.

We regret to hear that Miss Alice Cook, who has had charge of the school here for the past two years, is leaving, as she has made herself very popular with all. She has accepted an offer of a school near her home in Victoria.

It is reported that the Southern Okanagan Land Co. intend to put surveyors in the field at once to locate their half a million dollar ditch to put water on the Fairview flats, and that before spring they will have lots to sell that will produce all kinds of fruit.

The roads were never known to be in better condition at this time of the year in this district thanks to the weather, and if the Government would only spend a few dollars occasionally down this end we might feel inclined to sell our saddle horses and invest in good stout rigs.

George Sproule, who has lately been appointed Provincial constable and chief license inspector, has moved into his new quarters at Osoyoos. As there is no postoffice or telephone within twelve miles of his office, his lot ought to be a happy one. Why the powers that be do not station him here, where it is possible to find out what is going on, no one seems to know unless it is to pay the people of our town a compliment.

We are glad to know that Mrs. Peterson, who some months ago fell and broke her leg, is again able to be around with the aid of a stick.

Arrangements are being made to have an Xmas tree entertainment for the children. As there are nearly 100 youngsters to look after it is not going to be any small affair, and it is a case of dig down and dig up for the men. The ladies are going to run it themselves this year, so it will be all right. It is also reported that the ladies' annual dance will be held on or about Jan. 4th, 1907.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2 000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

THE

COPPER HANDBOOK

(New edition issued Nov. 15th, 1906.)

Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry

It lists and describes 4626 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

World's Standard Reference Book on Copper

The mining man needs the book for the facts it gives him about mines, mining and the metal.

The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is $5 in Buckram with gilt top; $7 50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.
