LIBERALS IN SESSION

Local Liberals Receive Assurance that Platinum Expert Will Investigate.

Daily Mail to Keremeos and Direct Service to Boundary and Spokane. Ore Exhibit.

At the Liberal Association meeting held last night there were several communications read, some of which are of public interest and merit publication.

Dr. Mathison, president of Greenwood Liberal Association, was present and on introduction by President Campbell gave a short speech full of that sound sense and optimism for which he is noted. Mr. N. Bangs, of Spokane, also gave the Association a pleasant call. He is enthusiastic regarding the founding of a permanent exhibit of Similkameen ores at Spokane, a matter which the Association is heartily in sympathy with but which possibly does not come within the purview of its constitution.

Touching a communication from Chairman Smith of the Yale-Cariboo District Liberal Association asking for opinion of the Princeton Association as to date of nominating convention for Dominion elections, it was resolved: "That the Princeton Liberal Association is of unanimous opinion that the interests of the Liberal party of Yale-Cariboo will be best conserved by choosing a date of nominating convention at least five months ahead, say during the Easter vacation of Parliament. That the names of prospective candidates be in the hands of the secretary at least one week before date of convention and that the same be published in the newspapers of the riding. That to secure absolute fairness and justice to all candidates at the convention a committee shall be appointed to see that no tampering is done with delegates after proceedings have begun and that only one vote or ballot be taken."

The Association dealt with the problem of road communication in this district and resolved: "That the Princeton Liberal Association begs to express their earnest appreciation of the successful efforts of L. W. Shatford, M. P. P., in improving the main highways in Princeton district. In furtherance of this progressive policy this Association takes the liberty to respectfully suggest to him the necessity for early completing a wagon road to Roche river and the construction of promisek sidewalks in Princeton. The importance of the lumbering, as well as the mining industry, now demands that good roads be built along the rivers to assist in the development of the varied resources of this section."

Resolution sent to Mr. Shatford.

The Association also passed a resolution addressed to the Hon. Rodolphe Lemieux, Postmaster General, intimating the need of a daily mail from Keremeos, the present terminus of the V., V. & E., to Princeton and pointing out the advantages to business men and the public generally in having prompt and quick communication with the Boundary and Spokane by this route, where under the present P.O. service it takes two weeks to get a letter reply. A daily mail and stage will greatly encourage travellers to come to Princeton and now that railway construction is under way its need is doubly apparent.

A motion was passed advising Superintendent Stevens of the telephone line of the necessity for a wire connection with the V., V. & E. at Keremeos.

After the transaction of some private business the Association adjourned to meet a month hence for the election of officers.

PLATINUM EXPERT PROMISED.

Realizing the advisability of having a thorough examination made of the platinum fields of the Tulameen district by the Dominion Geological Department, and the placing in the hands of the public reliable data concerning this valuable metal and its existence in this field, the Princeton Liberal Association, ever elert in matters pertaining to and in the interests of the public, petitioned the Dominion Minister of Mines, Hon. Wm. Templeman, to have Mr. Chas. Camsell, Dominion geologist, examine and report on the platinum prospects in the Tulameen district, where platinum has been known to exist for some time. The Hon. Minister of Mines replies as follows:

Victoria, B. C., Oct., 14, 1907.

B. S. Kennedy, Esq.,

Sec'y. Princeton Liberal Association,

Dear Sir,—I am in receipt of yours of September 23, conveying a resolution passed by the Princeton Liberal Association, recommending that a report be made by the Department of Mines on the platinum deposits of the Tulameen distrsct.

I will be glad to refer your request to the officers of the department and I may say that an effort will be made to meet the wishes of the Association.

W. TEMPLEMAN.

COUNTY COURT.

Judge Brown held County Court on Saturday morning and disposed of the cases on the slate by noon. The case of D. O. Day vs. C. O. French, for a settlement of several old standing accounts, occupied some time as it was a somewhat of a tangle, and the judge straightened it out by finding for the plaintiff in the sum of $69.08.

The other case, A. E. Howse Co., Ltd., vs. J. A. Bombard for debt, was disposed of by Bombard being ordered to pay $15 per month until the debt is wiped out.

LOCAL AND GENERAL

Long Spell of Indian Summer and Promise of Mild Open Winter.

Rightful Heirs of Haynes Estate Sue for Compensation—C.P.R. Survey Party.

Mr. Bloomfield and family arrived in town lately from the Old Country and they are so much taken up with Princeton that they have decided to make it their home.

W. J. Henderson, the well known hotelman of Tulameen City, was in town yesterday on business, Mrs. Henderson accompanying him. Mr. Henderson reports prospects bright in his town. He says a C. P. R. survey camp is established at Dan McKay's ranch at the mouth of the big canyon, and the woods are full of surveyors and their assistants.

There will be a big Thanksgiving turkey shoot on Thursday, Oct. 31st, conducted by George Wardle. Get your guns out and practice and make sure of a bird.

Fred. Richardson, representing Ames, Holden & Co., Vancouver, paid a business visit to town on Saturday last.

Mr. and Mrs. Jas. McL. Muirhead, of Victoria, passed through town on Monday on their way to Keremeos, where Mrs. Muirhead goes to visit her mother, Mrs. Lowe.

N. Bangs returned from Spokane on Sunday night.

Mr. Jackson, proprietor of the New Zealand Hotel, Hedley, accompanied by Mrs. Jackson, visited friends in Princeton last week.

On Thursday last Indian Steve appeared before E. Waterman, J. P., charged with being drunk and disorderly and pleading guilty to the charge was fined $15 and costs.

A. E. Jackson and bride are expected to arrive home this week.

Dr. Mathison, of Greenwood, arrived in town on Friday and opened an office in the Howse block where he will attend to those requiring dental aid. As his time here is limited you had better see him at once and get those teeth fixed. "Doc" is an old typo and still has a fondness for the print shop, where he had the reputation of being an artist.

J. J. O. Leary, of Baker City, Oregon, is a visitor to Princeton this week.

Sam Lung, a Chinese resident of Princeton for some time back, was taken out to Vernon yesterday morning to become an inmate of the asylum for the insane. Lung has taken leave of his senses and tried to burn the town up on several occasions lately. He was examined by Dr. Schon and pronounced of unsound mind. the cause being too much "dope" between meals. Mr. Scruby had the unfortunate fellow in charge on the trip out.

Next week Lyall & Macdonell will advertise underwear for winter weather. See them.

FATAL SHOOTING AFFAIR.

A serious shooting affair occurred at Keremeos on Sunday night as the result of a dispute over a game of cards. From meagre details received it appears two men, one of them a Mr. Chance, a well known plasterer in the Similkameen valley, gambled at cards and got mixed up in a dispute with the result that Mr. Chance received the contents of a pistol the shot taking effect in the stomach and he lies in a precarious condition. The other man, said to be a railroad employee, was arrested.

Since the above was in print, word was received from Keremeos stating that Mr. Chance had succumbed to his injuries.

LUCKY ESCAPE.

If Kit Summers hadn't been born under a lucky star he certainly would have met his death on Monday last. At noon of Monday Kit went into his stable to water and feed a couple of steeds and, as he was proceeding with a bucket of water to one of the stalls he slipped and fell under the horse's feet. The splashing of water and the noise made by the fall of the bucket frightened the horse and he did as any horse would do under similar circumstances—kicked, and it was nothing short of miraculous that Kit was not kicked to dealth. As it was he received a badly bruised arm and a bump on the face. Kit's many friends are congratulating him on his lucky escape.

AN IMPORTAET CASE.

Heirs of Late Judge Haynes Bring Suit to Recover Estate Said to have been Illegally Sold.

The heirs of the late T. C. Haynes have brought suit in the Supreme Court of British Columbia against the British Columbia Land & Investment Agency, A. E. McPhillips, Thomas D. Galpin and Cryler A. Holland, all of Victoria, B. C. The case was to have come up yesterday before His Honor Justice Clements at Greenwood. Joseph Martin, K. C., appeared for the plaintiffs, and E. P. Davis for the defendants. This snit is one of considerable importance in as much as it involves many acres of valuable lands and a very large sum of money, which the heirs of T. C. Haynes claim to be entitled to on account of the wrongful sale of the real and personal property of their father.

T. C. Haynes, it will be remembered,

NOTES AND COMMENTS.

The provincial press and provincial politicians have just about exhausted themselves on the question of the Japanese menace in British Columbia and while waiting for Ottawa's action in the matter they are busy "scrapping" among themselves for first place in the public eye as champions for a "white man's" country. Saturday Sunset, a Vancouver weekly built on the plan of Toronto Saturday Night, and edited by J. P. McConnell (well known in the Similkameen) who writes under the name of "Bruce," and prefaces all his remarks with a capital I, has been loud in its burning accusations against both Dominion and Provincial Governments for their laxity in dealing a solar plexus to the subjects of the Mikado and checking their invasion. It is a wonder both Governments have not gone out of business long ago. It is also a wonder the "I's" don't go on strike for more pay and shorter hours. "Bruce" couldn't do business without them. When you first glance at an article written by "Bruce" you kind of take notice that there is an "I" or two here and there, and the more closely you read the more numerous the "I's" become, until everything else is lost sight of and there stands out before you an army of "I's" defiant in their "glorious isolation." The Vancouver Province takes occasion to rebuke the Sunset for its fiery utterances and says: "In all kindness we should advise the editor of the Sunset not to fly at the administrations of the country in the way he does. He will only injure himself by doing so. * * * He is young and rash and no doubt wants fiery copy for his paper. But he will simply exhaust himself if he screams too loudly."

The Midway Star is down and out. In its issue of Oct 4th, the last breath was drawn and with the following farewell it went the way of a host of other journalistic enterprises: "This will be the last issue of the Star. During the twenty-six months of its existence it has not developed into so much as a tin mine, but it has given us a considerable amount of experience in one or two hitherto untraveled directions and quite a lot of robust health, and it has recently occurred to us that had we figured more on the health-giving possibilities of the undertaking we would probably have come out a little further ahead. However, we have no very great kick coming, and expect to sink into a temporary condition of blissful repose without so much as a suspicion of angony and without even a groan."

That those who live and enjoy the many advantages of 20th century civilization are better off than those who inhabited the earth in the days of old, "when knights were bold and barons held their sway," is open to argument. We enjoy many things, or think we do, that had no place in the minds of those long since dead, and there are several things our forefathers enjoyed that we of to-day would be the better for. What was known as the "ducking-stool" is something that would be a great blessing in these days. For those who are not conversant with the "ducking-stool" and its use we will explain: The "ducking-stool" is an apparatus introduced in the 15th century in Britain for the punishment of women who went among their neighbors carrying idle gossip and trying to cause trouble with their malicious and wayward tongues. It consisted of a rough strong chair attached to one end of a beam, which worked on a pivot on a post bedded into the ground at the edge of a dam or river (for instance, the deep pool at the Similkameen river end of Bridge street would be a real nice place for one.) The woman was placed in the chair with her arms drawn backwards; a bar was placed across her back and in front of her elbows; another bar held her upright, and there were cords to tie her securely in. The executors o the punishment then took hold of a chain at the opposite end and gave her a ducking on the "see-saw" principle. It is said this worked wonders in putting a stop to a public nuisance, a nuisance that is hard to combat—the wagging of an evil minded and malicious woman's tongue

Hamilton Fyfe in the London Daily Mail asks: "Why are the forests of British Columbia being cut down for American profit? Why are the most important mining interests in Canada falling into the hands of the Guggenheims and other American firms? Why is nearly all the ore mined in Ontario sent to be smelted in the United States? Why are American factories on Canadian soil supplying many of the Dominion's needs? Because here at home we know so little about Canada and are too lazy to learn. In the eighteenth century no young man was thought to be fully educated until he had made

Catarrh
To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. surely call for Dr. Shoop's Restorative.
For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but
Dr. Shoop's Catarrh Cure

AN IMPORTANT CASE.

(Continued from page 1.)

was one of the real pioneers of the Okanagan, Similkameen and Kootenay districts. He came to Osoyoos, B. C., in the service of the Imperial Government in 1860. For many years he was the sole representative of the Government in these large districts, and many were the hardships he endured travelling over an unbroken country in the discharge of his duties. Realizing the favorable conditions of the Okanagan district for cattle raising, T. C. Haynes, or rather Judge Haynes, as he was called and known by all, went into the stock raising business and for this purpose, from time to time, purchased immense tracts of land till in 1888, date of his untimely death on the Dewdney trail, he had 21,000 acres over which nearly 4,000 cattle and a large bunch of horses roamed at will. In July, 1888, Judge Haynes, while returning from Victoria, B. C., over the Hope trail, succumbed to an attack of appendicitis at Princeton, B. C. As there were no wagon roads in those days, Jack Neil suggested taking the body in a canoe down the Similkameen river to the old Custom Fort. This was done, but not without many difficulties. From there to Osoyoos a wagon was used to convey the body to its last resting place—on the shores of a lake which he so dearly loved.

CHINA'S AWAKENING.

The historian of a hundred years from now will probably quite confidently tell his class that the most remarkable woman of the early part of the twentieth century was Tsu Hsi, dowager Empress and real ruler of China, and that the greatest event of the period in world politics was her proclamation announcing the changing of the form of Government from a despotism to a constitutional monarchy. China has for a week or so had a responsible Cabinet. She is to have a Parliament as soon as the necessary machinery can be provided. Compulsory education has been provided for and local self government is a part of the great plan of reformation. When Tsu Hsi, after abetting the Boxer movement, in the hope of expelling the white man from the empire, had to flee from Pekin and seek refuge in the far interior, she evidently made up her mind that the white man held the better cards She proposes now to maintain the integrity of China by bringing her people up to western standards of civilization, instead of exterminating the "foreign devils." The new way is distinctly an improvement on the old. Tsu Hsi is now almost seventy-four, and in her case wisdom has accompanied old age.

NOTES AND COMMENTS.

(Continued from page 2.)

the grand tour of Europe. It would be an immense gain both to Canada and to England if no Englishman was considered to be qualified for any important commercial, financial or political position until he had travelled through the Dominion and studied on the spot the problems to which an answer must be given within the next 25 years."

What strikes the London Spectator as being among the things that are most extremely funny are Mark Twain's stories of his editing an agricultural paper; of how, in the columns of that paper he advised that "turnips should never be pulled: it injures them. It is is better to send a boy up and let him shake the tree"; and of his putting forth the information that "the guano is fine bird, but great care is necessary in rearing it."

Stomach troubles, heart and kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its restorative action upon the controlling nerves of the stomach, etc.

Trial catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's catarrh remedy. Sold by J. R. Campbell.

TIMBER NOTICES.

YALE LAND DISTRICT.

DISTRICT OF YALE, B. C.

Take notice that J. A. Mohr, of Enderby, Province of British Columbia, occupation, rancher intends to apply for a special timber license over the following described lands:

1. Commencing at a post planted at the N.W. cor. of lot 509 and about 10 chains north of China creek, thence north 80 chains; west 80 chains; south 80 chains; east 80 chains to point of commencement, containing 640 acres more or less.

Located Aug. 24, 1907.

2. Commencing at a post planted about 10 chains south of China creek and about 2 miles from Princeton, thence west 80 chains; south 80 chains; east 80 chains; north 80 chains to point of commencement, containing 640 acres.

Located Aug. 24, 1907

3. Commencing at a post planted at the N.W. cor. of lot 1514, thence east 80 chains; north 80 chains; west 80 chains; south 80 chains to point of commencement, containing 640 acres more or less

Located Aug. 24, 1907.

4. Commencing at a post planted 40 chains north of the S.W. cor. of lot 2122, thence north 80 chains; west 80 chains; south 80 chains; east 80 chains to point of commencement, containing 640 acres more or less

Located Aug. 24 1907

5. Commencing at a post planted about 20 chains west of the N.E. cor. of lot 1506, thence east 40 chains; north 160 chains; west 40 chains; south 160 chains to point of commencement, containing 640 acres more or less.

Located Aug. 24, 1907.

6. Commencing at a post planted at J. A. Mohr's S.W. cor. of claim No. 5, thence north 80 chains; west 80 chains; south 80 chains; east 80 chains to point of commencement, containing 640 acres more or less.

Located Aug. 24, 1907.

7. Commencing at a post planted about 20 chains from Tulameen river north of the S.E. side of wagon road and seven miles up the river from Princeton, thence north 40 chains; east 160 chains; south 40 chains; west 160 chains to point of commencement, containing 640 acres more or less.

Located Aug. 24, 1907.

8. Commencing at a post planted about 10 chains north of the S.E. cor. of lot 1511, thence east 80 chains; north 80 chains; west 80 chains; south 00 chains, containing 640 acres more or less.

Located Aug. 24, 1907

9. Commencing at a post planted at the N.E. cor. of 412, thence north 160 chains; east 40 chains; south 160 chains; west 40 chains to point of commencement, containing 640 acres more or less

Located Aug. 24, 1907.

Branch Office, 625 F St., Washington, D. C.

Synopsis of Canadian Northwest Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2 If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,

Deputy of the Minister of the Interior.

Pain everywhere, pain in the head, painful periods, neuralgia, toothache, all pains can be promptly stopped by a thoroughly safe little pink candy tablet, known by druggists everywhere as Dr. Shoop's headache tablets. Pain simply means congestion—undue blood pressure at the point where pain exists. Dr. Shoop's headache tablets quickly equalize this unnatural blood pressure, and pain immediately departs. Write Dr. Shoop, Racine, Wis., and get a free trial package. Large box 25 cts.

To check a cold quickly, get from your druggist some little candy cold tablets called Preventics. Druggists everywhere are now dispensing Preventics, for they are not only safe, but decidedly certain and prompt. Preventics contain no quinine, no laxative, nothing harsh nor sickening. Taken at the "sneeze stage" Preventics will prevent pneumonia, bronchitis, la grippe, etc. Hence the name, Preventics. Good for feverish children, 48 Preventics 25 cents. Trial boxes 5 cts. Sold by J. R. Campbell.
