A LIBERAL MEETING

Largest Political Meeting in Princeton Addressed by Smith Curtis.

Masterly Exposure of Graft and Corruption and Audience Visibly Much Impressed.

The first shot in the political battle in Princeton was fired on Wednesday evening, when Smith Curtis, Labor-Liberal candidate, held forth. Mr. Curtis fired the shots in thick in fast, scoring bulls' eyes at every turn. The meeting on Wednesday evening proved one of the largest and most enthusiastic political gatherings ever held here, and considering the unfavorable weather, with the mercury 40 or so below zero, goes to show that the electors are taking a keen interest in political affairs and are desirous of becoming posted on the burning questions of the hour. The ladies too showed they are anxious to keep abreast of the times and turned out to hear the discussion.

The chair was occupied by Mr. J. M. Wright who, in a few well chosen words, explained the object of the meeting and at the same time invited Mr. Shatford or any of his friends who wished to speak on behalf of the Government, to take a seat on the platform. The chairman then introduced Mr. Greigor to address the meeting.

Mr. Grigor spoke for some half hour, and ably exposed many of the McBride Government s wrong doings, and pointed out the necessity for turning them out of power and saving the country from ruin by electing the Liberal Government. He referred in eulogistic terms to Mr. Curtis the Labor-Liberal candidate for this riding, and pointed out that he had a public record in this country which was above reproach. He closed by asking the electors to vote for Mr. Curtis and thus help to turn out of power the worst Government British Columbia ever had.

The chair then introduced the speaker of the evening. Mr. Curtis in coming forward was received with applause. Mr. Curtis spoke for an hour and a half during which time there was not a dull moment, and the audience showed its appreciation by paying strict attention and liberally applauding the speaker's telling points. Mr. Curtis denounced the rotten grafting policy of the McBride Government and explained how the majority of them, Shatford included, were owned body and soul by the big Conservative frenzied financiers, the C. P. R He proved the shocking grafting measures used in the Kaien Island steal, and finally when the Conservative party, in an attempt to save themselves, dismissed Chief Commissioner Green, they admitted the guilt of robbing the people of B.C. of both money and lands, for the Indians received $5 per acre for land adjoining Kaien while Green sold government land through the Andersons and Bodwell at $1 per acre. In coming closer home Mr. Curtis showed how Mr. Shatford had laid himself open to lose his seat in parliament by acting as trustee for the people and buying and selling through Shatfords Limited. It was pointed out that over $10,000 had been expended on and in the immediate neighborhood of his townsite. Mr. Shatford has dominating interests in the Hedley townsite, the Hedley Gazette and Shatfords Limited, the latter enjoying the goverenment patronage. The Twenty-Mile creek wagon road was shown to be a great graft, where over $1,500 have been expended and still it is unfit for use for a mile. Farmers and miners petitioned for a wagon road to the top of the mountain two miles west of Hedley to haul their produce and develop their properties but not one cent was given for this necessary road until the near approach of elections. This road could be built for one-twentieth of the cost of the long Twenty Mile creek road, but this mountain road does not pass by the doors of Shatfords, Limited. Mr. Curtis dwelt at length on the unbusinesslike deals of the McBride government. He asked: Why are C.P.R. timber lands bringing $1.50 per thousand stumpage when the provincial government receives only 50c. for its timber? Why are the hard working people of British Columbia overburdened with taxes while the big corporations, the C.P.R. and the millionaires who own some of the McBride ministers and Shatford are not paying one dollar on many hundreds of thousands of acres of land? Mr. Curtis then outlined his progressive platform which is in harmony with Liberal principles and doctrine and which has the endorsation of the party. He expressed disappointment at not being able to get either Mr. McBride or Mr. Shatford to agree to joint meetings.

W. C. McDougall spoke in defense of the McBride government and made the best of a very bad case. It is to be regretted that a gentleman of Mr. McDougall's standing should have the wool pulled over his eyes by crafty politicians in the McBride government. Mr. McDougall rather aided Mr. Curtis's case, his remarks on "better terms" being far fetched and impressionless. The meeting broke up at 11:30 with cheers for the King and Mr. Curtis and a vote of thanks to the chairman.

The various merchants have agreed to close their places of business at 6:30 p.m until further notice, every evening except Wednesdays and Saturdays. This is a move in the right direction.

MR. WINKLER'S VIEWS

Editor Star—Sir: In your issue of Dec. 22nd you have placed me in a false position before the public regarding Hawthornthwaite and the Columbia & Western land grant—a mistake which I am sure you will be pleased to rectify when your attention is called to the facts relating to the matter.

As every reader of the Star knows I have always been an uncompromising opponent of subsidies in every form and when Hawthornthwaite supported the alienation of 800,000 acres of public lands to the C. P. R. last March, I introduced a resolution at a meeting of our Socialist local repudiating his course. I do not acknowledge Hawthornthwaite as my leader and if elected to represent the Similkameen, I will be guided by my own judgment and the wishes of my constituent as far as they can be ascertained. Yours, etc.

GEO. E. WINKLER.

[There are several more paragraphs to the letter, but as they deal only with Socialistic history, which is of no public interest they are left out.—ED].

POLITICAL POINTERS.

It is no use to appeal to the reason of voters who say: "My father and grandfather were Conservatives, therefore, I am one," or, "I was a Tory in the old country, so, I must be one here." Men who are wilfully blind to their own interests will offer any old reason for slavish adherence to party—they are suicides. Intelligence must be at a low ebb when a man has to fall back on his living or dead ancestors for guidance in voting at the present elections. When the country is being robbed and plundered under the Andersonian regime and our lands given to a gigantic monopoly it is of little moment what ancestors did or what political faith the voter had in the old country. The thing is to put down corruption and robbery wherever it crops up by voting the rascals out.

The Week of Victoria is said to be run and edited by the Andersons and W. Blakemore, all of whom are widely known in Princeton. About a month ago the Week was full of praises for W. W. B. McInnes, but now it vomits all kinds of filth at him because he dares to enter the Liberal arena of politics. Such is the calibre and consistency of persons whose only aim is to make an easy living off the public by "working" men like Green and McBride.

Mr. Neil Huston has taken over the general livery business of Mr. Thos. Hunter, and in future this establishment will be known as the Princeton Feed Stables. Neil is a hustler and anyone having business in his line will find him Johnny on the spot. His adv. will be found on page 3.

Mrs. Perry and Miss Violet Perry, of Napanee, Ont., arrived by Wednesday's stage, on an extended visit to Mrs. Barn-Hall.

THE V. V. & E. RY.

Shatford's Connection Therewith Shown Up by Duncan Ross.

This Railway Secured Through the Efforts of Our Dominion Member.

The Hedley Joke has made several attempts to make the people of this section believe that L. W. Shatford was the chief factor in securing the construction of the V. V & E. At a public meeting held in Hedley last week, in the interests of the Liberal party, this little fairy story was properly exposed by Duncan Ross, M. P. As is the custom at Liberal meetings, an invitation was extended to Mr. Shatford or any of his followers to come forward and defend their case. Mr. Shatford not being present, it fell to the lot of Major A. Megraw, editor of the Shatford organ, to do the talking for his master. And now the man who deserted the sword to wrestle with the pen, is a wiser but a sadder man. In support of the claim that Shatford was the whole thing in securing the railroad, the all-wise ex-soldier man produced from his inside coat pocket a letter (evidently secured for the purpose) signed by one J. D. Farrel, at one time western representative of the Great Northern Railway. In this letter Mr. Farrell thanks Mr. Shatford for so ably assisting him in his work at Victoria.

Duncan Ross followed the Major and now the Major is sorry he spoke. Mr. Ross showed the part played by this man Farrell. During the time the V. V. & E. charter was before the Dominion House the C. P. R. spent thousands of dollars in an endeavor to defeat it. J. D. Farrell, who was supposed to be representing G. R. interests in the west, was in Victoria working in connection with E. V. Bodwell and the C. P. R. in an endeavor to induce Louis B. Hill to seek his charter under Provincial laws. Had they succeeded, of course the C. P. R. would have won the day, and the V. V. & E. would have been killed. J. J. Hill, president of the G. R. got wind of what was going on and promptly dismissed Mr. Farrell. So it will readily be seen what Mr. Shatford did in the way of securing the V. V. & E. According to this letter he was assisting a man whose object was to defeat this railway, and while in the employ of the Great Northern, he was playing into the hands of the C. P. R. and the McBride Government. It was through the great fight put up by Duncan Ross that the Similkameen Valley will shortly enjoy railway communication. Shatford had nothing whatever to do with it.

NOTES AND COMMENTS.

At Nanaimo on Sunday night last Mr. Hawthornthwaite defended the Kaien Island transaction and the C. and W. grab. This defence is in the face of Mr. Green's effacement because of his connection with the Kaien Island deal. For once Mr. Hawthornthwaite is not in accord with his Premier and leader. —World.

Bob Green died of political gangrene, the disease which is now gnawing away at the remnant of the McBcBride administration. Had Green been put in quarantine a year ago some hope of the McBride administration might have been entertained, but now an ignominious tomb awaits them on Feb. 2nd. Alas! poor Green, a bleedling martyr for the great god of graft and a warning to all political boodlers.

Speaking in Vancouver, on the evening of Jan. 9th, Mr. McInnis referred to the Conservative rumor that he was working for the leadership of the Liberals, and in no uncertain manner dispelled that campaign lie. He said: "These gentlemen (the Conservatives) express grave fears of a conflict between Mr. Macdonald and myself. I can assure them and all Liberals as well that there is no such conflict. I am Mr. Macdonald's lieutenant. I am proud to work under his directions and I will be proud to become a Cabinet Minister under him." Continuing, Mr. McInnis said: "The Tories wonder why I quit a $12,000 job to accept a $4,800 one. I wonder why Bob Green resigned a $4,800 position to accept—nothing. Stranger than ever—where is Wilson. He was a Cabinet Minister. He is now away to the wilds of Cariboo to avoid questions as to why he resigned. Let him keep the secret. After February 2nd it won't make any difference to anyone." And: "McBride never intended to appeal to the country. I know that he had actually sent out notices to convene the House to some of the members two days before the inexplicable resignation of Green. The House was no doubt dissolved to prevent inquiry into some scandal in the Lands and Works Department."

The Victoria Times, speaking of Mr. J. A. Macdonald, Liberal leader, says: "Those who have had the privilege of hearing Mr. Macdonald on the floor of the Legislature will not dispute the statement that as a debater he ranks as the peer of any public man who has ever occupied a seat in the House. It is true the leader of the Opposition is "not an orator as McBride is"—he does not rant and ramp and roar and smite his desk in the "mock heroics of declamation." In style he is calm, cool, logical, precise and convincing. What he says is not forgotten immediately the sound of the words dies away. It stays with the auditor and by the very force of its reasoning convinces him of the sincerity of the speaker and the soundness of the cause he advocates. Mr. Macdonald wields a very keen weapon, and to those who revel in the merciless dissection of an opponent and a complete exposure of his case he furnishes a feast of the highest political satisfaction."

"I count on six wins at least," replied Mr. Macdonald, in an interview at the coast recently, "to be recorded from the Interior. Our organization is in excellent shape, and reports of a most encouraging nature are coming in constantly. We shall gain eight, if not more, seats in the coming contest."

Elsewhere we publish a letter from Geo. E. Winkler, Socialist candidate in this riding. Mr. Winkler says he is opposed to subsidies in any form, and condemns Hawthornthwaite, the Socialist leader, for supporting the give-away of 800,000 acres of land to the C. R. R. Further than that, he does not acknowledge Hawthornthwaite as his leader and is apparently a party all by himself. Does Mr. Winkler also condemn the Kaien Island deal and the exemption from taxation of large tracts of land owned by pets of the Government? Not doubt he does. The stand taken on these important questions by Mr. Winkler is exactly that of the Liberals, and there would appear to be little excuse for this gentleman being in the field at all.

The Liberals of Fernie are determined to carry that seat on the 2nd of February and avenge the ballot box outrage of last election when their candidate was robbed of his seat Last week the Liberals of Fernie nominated William Dicken as their standard-bearer, and his election is an assured fact. Mr. Dicken is a coal miner, a man who has educated himself by careful reading and is a speaker who carries conviction with every word.

STRAYED

ON to these premises or or about Dec. 15, one light buckskin colt, branded O [squre] on left shoulder; one sorrel colt, branded double OO (the letters being on top of one another] on right hip; one dark buckskin mare, with colt, no brands visible. Owner may have same by proving property and paying expenses. If not removed within 30 days will be sold.

POLITICAL ADDRESS

Of Smith Curtis' to the Electors of Similkameen Riding.

TO THE ELECTORS OF THE SIMILKAMEEN DISTRICT:—

GENTLEMEN:

Having been unanimously nominated by the Liberal convention held at Keremeos on the 8th inst. to contest this Riding at the general provincial elections to be held on the 2nd February next I ask your votes and active support. In accepting the nomination I stipulated that I must be permitted to run as a Labor-Liberal. My claim to run as a Labor candidate is founded on my standing for Labor in the House in 1900-3 when I initiated or aided in passing far more beneficial measures for Labor than all the labor legislation previously or since enacted in British Columbia, and is also founded on the many labor planks contained in my platform which is as follows:

No boodling or grafting. An Anti-Lobbying Act. Making it a criminal offence for corporations to contribute to election funds or give free transport to the polls.

New voters' lists within six months previous to a general election. New stringent provisions against personation at the polls and bribery.

No member to be interested financially in any charter or subsidy he proposes or votes for, or to furnish large supplies to the government through any trading company he controls or is largely interested in.

Crown lands for the settler, i.e., for use, not for the speculator.

No cash bonuses or land grants to railways.

Exploit our natural resources to produce largest revenue and so greatly reduce taxation on farmers and industry.

Assess wild lands at the price asked for them by their speculator-owners.

Assess railways five years after construction at their fair value.

Protect, examine and map forests. Publicly sell timber as needed by mill men, the main idea being sale to offerer of largest stumpage royalty, thus eliminating the speculator and obtaining millions of dollars lost to the people by the stupid system now in vogue. Reforesting timber lands unfit for agricultural use.

More equitable taxation and insisting on all corporations paying their full proportion. Putting the ore tax on the net profits.

Repeal of the recent School Amendments, which put taxation on rural communities.

Relieving bona fide prospectors who are free miners from poll tax and protecting their claims from lapse during serious illness.

Amending laws as to contributory negligence and common employment so as to make them fair to injured workmen as well as to employers.

Establishing a Labor Arbitration Act on the lines of the New Zealand Act, thus doing away with strikes and lockouts, enabling a living white man's wage to be established, thus driving out Chinese, Hindus, &c., and encouraging without peril to labor the immigration of desirable white settlers; enabling shorter hours to be got when right in any trade, and tending to unionize all wage earners and make them the political power their numbers entitle them to be.

Enact the Initiative and Referendum.

Amend the Interpretation Act by declaring that no exemption of taxation or gift of privilege given by any Legislature shall be binding after the lapse of a generation.

Public ownership of public utilities where possible. The telephone system to be acquired immediately.

The immediate reservation of a portion of every Crown coal area to enable when necessary state owned coal mines to be operated.

Providing that in all future grants of coal lands that the maximum price to be charged for coal to B. C. purchasers shall be fixed by the Government.

The immediate setting aside of a large area of Crown lands to aid public schools, establish technical and mining schools with cheap correspondence courses for all citizens and to establish experimental farm and other stations.

Free compulsory education for all children under 14 years. Free school books.

The immediate setting aside of a sufficient area of Crown lands to provide insurance against illness, accident and old age in the case of the deserving poor.

Reorganization of the moribund Mines Department with a capable staff large enough to make it a real aid to prospectors and mine owners.

Appoint an Irrigation Expert and revise the Water Acts Foster irrigation.

Immediately survey and describe Crown lands easily accessible to settlers.

Simplification of Supreme and County Courts, greatly reducing costs of litigation.

Establishment of a Provincial Exchequer Court, enabling Provincial Government to be sued without first getting its consent by fiat.

Establish a Board of Fire Insurance Underwriters that will fix maximum rates to be charged insurers.

Appoint a Railway Rate Expert to examine into the excessive rates charged in this Province and to get redress if necessary by contesting the rates before the Railway Commission at the expense of the Province.

Open Indian Reserves to mining and have portions of reserves not used or needed by Indians open to set lement.

Provide needed bridges, roads and trails impartially.

Leaving nothing undone to secure Better Terms for the Province.

The McBride Government has never initiated a single progressive measure, and the recent lengthy written appeal of the Premier for support is very barren in this respect. The length of the platform given above, most of whose planks will I believe appeal strongly to most electors, indicates the opportunity the Government has had to pass reform measures and proves its sluggish incapacity in that direction.

I am in entire accord with the terse and progressive platform enunciated by the Liberal leader, Mr. J. A. Macdonald, who has my hearty support. He is an able, energetic man, whose private and public record is without a stain. I honestly believe that when he becomes Premier he will give the Province an honest, capable, sane and progressive Government. The suggestion that the Liberals desire to change the leadership is foundationless.

Yours faithfully,

SMITH CURTIS.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2 000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.
