ENGINEER HOGELAND

Makes Statement re V. V. & E.---Gives Encouraging Account of Work.

Warns Public not to Take Notice of Rumors—Hampered by Unforeseen Circumstances.

To be or not to be, that's the question! Whether we are to have railway construction to Princeton this year, or whether we shall have to calmly sit down and wait for another year for the long promised and long deferred blessings of railway transportation, is the problem that makes men grow weary and clogs the wheels of progress. If one were to believe half the conflicting rumors, rumors that are more numerous than the flowers in May, a mixup would in all probability take place.

Chief Engineer Hogeland, while in Seattle recently, is reported as saying that his company had no intention whatever of delaying the work on the V. V. & E. Delays he said had occurred and were likely to occur, as the result of unforeseen difficulties, but notwithstanding these it was the intention of his company to push on the work as fast as circumstances would permit, and that the public would do well to pay no attention to any rumors to the contrary.

This statement coming as it does from one in authority, is good news to the people in the Similkameen, who have been anxiously watching the progress made on this road. Slow headway has certainly been made, but when it is taken into consideration that delays have occurred that were entirely beyond the company's control, as scarcity of labor, lack of material, and want of fuel owing to the coal miners' strikes, it will be seen that all possible progress has been made.

The track reached the Armstrong bridge Saturday night and on Monday the piledriver got to work driving piles for the approach. Barring accidents the bridge should be completed in three or four weeks, and Keremeos reached by June 15. Whether construction will then be proceeded with to Princeton remains to be seen, but there is no good reason as yet advanced why it will not. In the meantime let us believe it will.

SALE OF COAL LANDS.

Since January 4th of the present year coal lands, chiefly in the province of Alberta, aggregating 100,000 acres, have been disposed of by the Dominion Government. The number of parcels sold has been 327, the price in each case being $7 an acre. The majority of parcels consist of 320 acres although there are some of smaller dimensions.

LOCAL AND GENERAL.

Mrs R. W. Turner, of Idaho, is on a visit to her mother, Mrs. W. H. Hagerman.

Sam Cassidy was in town for a few days last week from the Independence mine Bear Creek. He reports development work on the Independence progressing steadily and satisfactorily with a good showing in sight.

Messrs. Lynn and Peterson, proprietors of the Great Northern Hotel, Hedley, paid Princeton a visit last week, accompanied by their families.

Chas. Lambert was in town on Wednesday from Granite Creek purchasing lumber for flume construction in connection with his mining operations on the creek.

W. E Welby, of Penticton, proprietor of the stage line from the lake town to Hedley and Princeton, was in town on Friday on a short visit. Mr. Welby returned a fortnight ago from the coast where he underwent an operation for appendicitis at the Jubilee Hospital, Victoria, and is taking a short holiday before resuming business.

On page two will be noticed an advertisement of the Penticton livery, feed and mail stage stables. W. E Welby, prop., in which special mention is made of the facilities for carrying pianos, and all perishable goods.

Manager Jackson of the Princeton branch of the Canadian Bank of Commerce states that hereafter the bank will close on Saturday afternoon, instead of Friday, as previously.

Doc Bowsher came up from Hedley on Monday on business.

Mr. Robert Stevenson arrived home on Sunday evening, after an absence of several months. Mr. Stevenson, although he went through a long siege of sickness last winter in Spokane, is looking hale and hearty again and expects to be able to tackle mountain climbing in the near when he will visit his different mining properties.

Mr. J. A. Rennie, accountant for the A. E. Howse Co., arrived in town to-day from Nicola on business in connection with his firm.

Mr. C. C. Brown, representing Wood, Vallance & Leggat, and Mr Rawson, of the McClary Mfg. Co., Vancouver, were in town on Monday in the interests of their respective firms.

Bert Irwin has returned to town after an extended visit in the Boundary country.

When in Vernon stay at the Coldstream Hotel, just opposite the railway station. First class service; rates right. *tc

The Holland Mining Co., of Spokane are said to have bonded the Reco on Copper mountain. The Reco is situated in what is known as Combination camp and is a very promising property.

TELEGRAPHIC NEWS

Coal Miners' Strike About Settled---Chinese Lepers Sent Home.

United States Imposes Immigration Tax of Four Dollars—Canadians Exempt.

Fernie, May 7.—Although a vote of the district showed a majority of the miners willing to accept the proposed agreement, no contract has yet been signed by the miners, but the operators have already signed.

G. C. S. Lindsay, general manager of the Crow's Nest Pass Coal Co., left for Toronto on Saturday, to consult with the board of directors. This is taken locally as a sign that everything has been amicably settled.

President Sherman of the mine workers arrived in Fernie on Saturday, and board member Patterson on Sunday morning. Secretary McDonald had not then arrived and it is understood that it is for his signature the agreement waits.

Lepers Sent Home.

Victoria, May 7.—Yesterday morning the entire colony of Chinese lepers hitherto located on an island in the gulf, were shipped to China by the Dominion Government. This is the outcome of an arrangement between the Governments of Canada and China that in future all Chinese lepers found in the Dominion will be shipped home.

U. S Immigration Tax.

Montreal, May 7.—Wm. Stitt, general passenger agent C. P. R., and D. McBrowh, general passenger agent Canadian Atlantic steamship line, have returned to Montreal from Washington, where they have been in connection with a change in the United States immigration law. Under the new measure a tax of $4 per head is imposed on immigrants entering the States, and transportation companies are responsible for its payment, all residents in the Dominion over one year admitted free.

Longshoremen Strike.

New York, May 7.—A longshoremen's strike has been in progress for more than a week, affecting not only coastwise but Atlantic steamers. The situation took a more serious turn yesterday when the men employed on five more Atlantic liners joined the movement. The men on strike number 5,000.

Lyall & Macdonell, general merchants, have an advertisement on page 4 of this issue, which deserves attention.

Alexander Bell, the inventor of the telephone, says the problem of aeril navigation has been solved and soon it will be possible to dinner in America and breakfast the next morning in England.

TULAMEEN NOTES.

P. Devine, foreman of the Similkameen Mining and Smelting Co., came down from Bear Creek and registered at the Hotel Otter Flat, first of the month.

N. Johnson and F. Poulson returned to town last month. Mr. Johnson has been the winter in Sweden at his old home.

H. L. Roberts, of Nicola, has leased the old store from Eastwood & Co. and will open up a general store, with C. Henderson temporarily in charge.

B. Bonthrone, of Vancouver, and Mr. McNeil, of Denver, Colorado, came in by special rig from Nicola and have been examining the coal fields of Collin's Gulch.

LAURIER IN LONDON.

Sir Wilfrid Laurier, addressing the Canadian Club in London on May 1st, said he had no fear that Canada would be Americanized. The American immigrants in Canada were a practical people who had left the United States for Canada because they believed in a better country with better laws which were administered tenfold better than the laws of the United States. He was a great admirer of the American republic, he said, but the American who crossed the border knew that his property and life were more secure in Canada than in his own country.

INCREASE IN IMMIGRATION.

There was an increase of over 40 per cent. in the immigration to Canada for the nine months ending with March, as compared with the same time in the previous year. The total number of immigrants was 126,667, an increase of 37,859 for the corresponding period in 1905-06.

FAVORABLY IMPRESSED.

Peter Gordon, engineer in charge of the grading for the V. V. & E. from the boundary line to Keremeos, was in Princeton last week, accompanied by Mr. J. McDonald, a real estate broker of Moosejaw. Mr. Gordon stated as his opinion that construction would be carried on to Princeton this year, despite the ever occurring rumors to the contrary, as he saw no good reason why the work should not go on. This was Mr. Gordon's first visit to Princeton and he expressed himself as greatly taken with the appearance of the town and prophesized a great future for it.

Mr. McDonald has purchased for outside parties the Ricter property at Osoyoos and further deals are pending.

The pedigreed Clydesdale stallion Vandyke, owned by Dan Munro, is advertised on page four of this issue to stand for the season at Munro's ranch, Aspen Grove. Horse breeders will do well to read the announcement.

Mr. James McMahon returned to-day from Otter Flat and vicinity.

OUR CANADIAN PREMIER.

The following article, taken from the Rossland Miner, a Conservative paper, is worthy of reproduction, voicing as it does the opinion of a political opponent of Canada's Premier, Sir Wilfrid Laurier. The Miner's glowing tribute (curtailed somewhat for want of space) will meet with the approval of every one, be he friend or foe, politically, of Canada's first citizen :

Canadians have reason to be proud of the Hon. Sir Wilfrid Laurier. It would be an honor to any country to have such a man. The subjects of this self-governing British dependency feel a deep pride in seeing one of their fellow citizens, of French extraction, display such conspicuous ability, and through his talents attain to one of the highest positions in the gift of the British crown.

Sir Wilfrid Laurier undoubtedly is the most striking and forcible man in public life in Canada today. He is a man whose reputation, although he has been for many years connected with public affairs, is unsullied. He unquestionably, too, is a loyal Canadian, loyal to the flag and loyal to the country.

"Though he loves the land he lives in now,
He ever bears in heart and brow
That where his fathers died."

And all honor to him that reverences the land of his forefathers, good old France.

When in opposition he never acted as a mere partizan, and his intervention in debate was all the more influential, as it was always understood that he advocated a policy because he believed it to be right, and not because of any effect it might have in bringing himself and his colleagues into power.

As the leader of the House he stands head and shoulders above his colleagues, pleasing in debate, of scholarly diction, and with a fluency of English and beauty of expression that might bring the blush of shame to many an Englishman At times displaying the highest gifts of oratory he ever commands a respectful hearing. He never disdains to take the advice or profit by the criticism of those in opposition.

When the word goes round that Laurier is about to speak, the library and committee rooms are soon deserted. Everybody wants to hear him becaase they know that he has something to say which will be interesting, entertaining and instructive; or that he will give the subject under discussion a new coloring.

There can be hardly a higher tribute to a man's abilities as a debater than the fact that his rising to address the House should create such an effect. This command over the House he has ever held since he became one of its members, and no one can hold a more honorable or desirable position.

* * * He has a striking personalty, an individuality that stamp him as a person of high qualities.

The career of Laurier can be held up to the ambitious young as an example of what may be achieved by Canadian strength with ordinary advantages. Schools gave him nothing; society gave him nothing; but he had a firm resolution, a moral character and a good intelligence and by these alone he has attained distinction. But the mainspring of his power and the truest evidence of his greatness lies in the nobility of his aims, in the fervor of his convictions, in the stainless rectitude which guides his action and which has won for him the confidence of all Canadians.

Although opposed to him politically we can not but pay this tribute to his sterling character and abilities.

Canadians, irrespective of politics, will view his course in the present conference of Colonial Premiers with the greatest interest and pride, and well they may, for he is unquestionably the ablest and most conspicuous figure in that assembly of able and gallent men.

TIMBER LICENSE.

Thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situated in the Yale district.

Commencing at a post on the south side of Kennedy mountain on the west bank of Similkameen river marked northeast corner post, thence 80 chains west; thence 80 chains south; thence 80 chains east; thence 80 chains north to point of commencement, containing 640 acres.

ERNEST WATERMAN, Locator.

P. JOHNSON, Agent.

Dated April 21st, 1907. 17-21

Synopsis of Canadian Northwest Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26 not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.
