Princeton coal is the best; ussd once, used always.

SIMILKAMEEN STAR

No man can be great unless truthful.

Opportunity shakes every man by the hand and bids him welcome to the bounties of nature in Princeton district—Undoubtedly the time is fast approaching when development will prove all that has been said in favor of this country—Now, is investing time.

Vol. XI. No. 36. PRINCETON, B. C., WEDNESDAY, AUGUST 31, 1910. $2 a Year in Advance

MINES AND MINING

Silver-Lead Properties Wanted in Developing Stage at Present.

Whipsaw Camp Offers Good Inducements for Capital—Work at United Empire.

Owing to the low price of copper there is today a strong demand for silver-lead properties partially developed and requiring big capital.

The Hedley Gold Mines Co. employ about 150 miners. What would Princeton do with such a big payroll?

Leo McMullen returned from the Boundary Tuesday and reports favorably on mining conditions in that section. His samples of ore from the Glacier Peak country, Skagit, were eagerly viewed by mining men, the native silver showing plainly. The assay gave 23 ozs silver. ½ oz. gold, and 30 p.c. lead. All that the owners McMullen and Snowden, want now is a wagon road, the ore will do the rest.

Chas. Graham, superintendent of the Princeton Coal aud Land Co's mine, will leave tomorrow for Nanaimo, having re signed his position here. During his term much improvement and development were carried out underground. As an official he was both popular and efficient and carries away with him the esteem and good wishes of citizens.

Sam Spencer and wife came in from Whipsaw Monday and speaks glowingly of his mineral property there. He expects to put in the winter at work in the camp. Some very fine specimens of zinc ore, very high grade, from his property, will be sent to the Nelson Expo and from there to the Spokane Fair.

Billy Knight found gold in his well while cleaning it out the other day. No use in talking, if a man's luck runs that way, he will find gold and silver any old place. Up in Whipsaw Knight & Day have found the real thing and all they want is a road to begin hauling to Princeton for shipment to the smelter.

Jack Crowley is down from Whipsaw the first time in months, and is enthusiastic over the prospects of that camp.

James Holden, of Hosmer, arrived yesterday to assume the duties of superintendent of the Princeton Coal and Land Co's mine, made vacant by Mr. Graham's resignation.

COLD WAVE IS GENERAL.

This seems to be an off year all over the western half of the continent, insofar as climate and crops are affected. The recent sudden drop in temperature in Princeton was general all over the west. In Denver, Col., a thousand miles south of Princeton, the temperature iowered 13 degrees in 10 minutes, and 49 in 7 hours. According to United States Weather Forecaster Brandenburg, the sudden change in temperature was caused by atmospheric disturbances resulting from the contest between the hot air from the fire-swept districts and the snow covered mountains of the continental divide. At 6 p.m. in Cheyenne, Wyo., the thermom eter registered 38, the lowest on the weather map. In view of the foregoing it is not at all surprising that frost was felt at Princeton, but this is not the normal condition of the climate here, as some would try to make out.

THE UNITED EMPIRE.

Railway Spur to be Laid for Cement Works and Coal Mine.

The United Empire is running three shifts every 24 hours on the new tunnel, the old one having been abandoned on account of the dangerous nature of the soil in caving. The United Empire will be ready to ship coal as soon as the spur is laid from the main line of the V.,V. & E. to the mine. The coal will be mined at a depth of about 200 feet and is of a splendid quality, being similar to the Princeton fuel.

The cement works to be constructed are located near the coal mine and will consume some fifty tons of its product each day for roasting and steaming purposes. While the cement works is a separate proposition and will operate under a Dominion company charter yet some of the United Empire people are identified with its inception and will further the scheme vigorously.

In connection with these two large undertakings of mining and manufacturing a townsite will be laid out and thus the foundation begun on which to rear a large frontier—city. All the adjuncts of a real live town will be introduced and its proximity to Princeton instead of being a detriment will act as a wholesome incentive to development and activity, the citizens of both places dwelling in harmony and unity of purpose, building up the country generally, thus aiding individual prosperity and progress.

Grand Forks Gazette: When you hear a man sneering at the local paper because it is not big, cheap and newsy as the city papers, you can safely bet he is either in debt to the paper or he does not squander any of his wealth in assisting to make it better and that generally the paper has done more for him than he has for it. The man who cannot appreciate the local newspaper at its worth in boosting alone is about as much value to a town as a delinquent tax list.

Bridge street sidewalks are being built by the yard to be worn out by the foot.

LOCAL AND GENERAL

Labor Day is next on Annual Program—Forest Fires Die Down.

Waterworks Construction in Full Swing—Hospital Building is Fine Structure.

Labor Day will be celebrated next Monday in Hedley and an inviting program of sports has been issued. A number of Princetonians are going as spec tators, while a shooting and football contingent will go down to show how it is done.

Forest fires that turned the heavens black with smoke have died out and the atmosphere is again normal.

Mr. and Mrs. Henry of Vancouver arrived last Saturday over the Hope trail on a visit to Mr. and Mrs. McDougall. They met with two or three inches of fresh snow on the summit. Mr. Henry is one of the faculty of McGill.

It is a subject of repeated query why there should be any difference in the rent of telephone instruments along the government line. In some towns it is said that the rent is as low as $1 per month. Why this discrimination?

J. R. Campbell has gone to Ft. George and expects to start up in the drug business there.

H. Massonat, still ill in a Spokane hospital from the effects of a second surgical operation, has not made as good progress as was hoped and Mrs. Massonat has re turned from his bedside to conduct the jewelry and watchmaking business.

Podunk Davis has re-covered the bridges at Twelve and Fourteen mile creeks on the Hope trail, which makes good going to the Summit. He is now putting up a bridge at the '23' on the Sumallow.

Board of trade regular meeting will be postponed on account of Labor Day from next Monday evening to the following Monday at 8 o'clock.

Tony Ditzio, the Italian who stabbed his compatriot, Dominic Motia, at Madden's No. 2 camp two weeks ago, is still held on remand by Magistrate Thomas, pending the recovery of the wounded man. Special Constable Martin arrested the prisoner.

Constable Ewart has under surveillance a horse thief who, it is believed, ran off a horse in a band being driven toward Ashcroft.

The civic waterworks being laid down by the Princeton Coal & Land Co., will soon have the pipe distributed throughout the business center. The reservoir tanks have the substructure in place and the receiving and distributing mains will shortly be connected. The pumping machinery and tanks remain to be installed.

R. G. Belvidere left yesterday for Penticton, where he has a good position. He reports that town quite lively and prosperous owing to the railway possibilities of the near future.

Some persons spend minutes in charity and months advertising it.

Miss Manly, teacher, returned today from her vacation trip to Edmonton, Alberta and Clinton.

Bert Irwin is making good headway on the hospital and will have it ready well within the specified time.

Superintendent Morgan of the Great Northern accompanied by other officials and mining men, was in town Saturday in his private car and took a look over the Princeton Coal and Land Co's coal mine.

GAME REGULATIONS.

The following regulations for shooting and hunting game will be of interest to local sportsmen:

Blue and willow grouse and ptarmigan may be killed between the 1st of September and 31st of December. Prairie chicken during the month of October, only.

Duck, geese and snipe may be killed between the 1st of September and the 28th of February.

The above fowl may be offered for sale during the months of October and November only.

Deer may be killed between the 1st of September and the 15th of December.

Deer may be sold between the 1st of September and November 15th.

No boy under 16 years of age is allowed to carry firearms unaccompanied by parent or guardian.

'PIERRE OF THE PLAINS.'

The play, 'Pierre of the Plains,' rendered before a large audience last Friday night, was full of interest, especially to those who are familiar with the halfbreed of the plains, the naked walls of the roadhouse, the riders and the usual characters one would find hanging around an outpost or fort of some twenty and five years ago. The author comes very near to drawing the real life of all his impersonations. Pierre is probably higher minded than the typical halfbreed, for the commingling of the redskin and paleface usually produced in their progeny the worst features of both. Harold Nelson made a very real and effective halfbreed in language and manner, and Grace Johnson was a capital 'Jen.' The author of 'Pierre of the Plains,' Sir Gilbert Parker, should be able to find material for a good breezy play depicting the simple, western, life in the Similkameen, where Rattlesnake Pete, Bill Miner and Major this and Colonel that, have made history. Altogether the show was exceptionally good.

The Similkameen Star.

NOTES AND COMMENTS.

Independent of every shade of political belief a hearty reception is given everywhere to Premier Laurier, now the guest of this province. That is at it should be, and further, it is due him as a faithful, eminent and competent statesman. He has devoted a long life to the service of his country in which he has been singularly free from any personal taint. His conduct has been exemplary for the army of public servants under him.

How unlike Sir Wilfrid the mass of those in service of the Dominion? What exposures of graft and thieving in the departments at Ottawa, of which everyone has read. And if it occurs under the very nose of ministers at the capital, where the leaven of corruption seems to be centralized, what must the rottenness and incompetency be in public offices far away from the seat of government? In some of the departments the ministers are powerless to check evils and the public have to suffer.

One instance out of many may be cited where officialism dominates and the minister has to obey. The superintendent of the Dominion telephone line, Mr. Stevens, holds two positions, one for the government and the other for a private line, drawing pay from both. How can this man serve two masters? Naturally, where his affections are, that is where his money is invested, he will render the best service. The public know how well their interests and convenience have been served.

Sir Wilfrid laid great stress on the Oriental qucstion in his Vancouver speech indicating that it was the cause of Liberal losses in B.C. The Oriental question is important and the restrictive law as it now is gives general satisfaction in B.C. The 'question' was not an issue in last general election. But Sir Wilfrid is statesman enough to now make it an issue, so as not to disclose the real cause of Liberals falling away. That 'real cause' is graft, bossism, favoritism, poor public service resulting from incompetent servants, 'coarse work' of the previous Liberal M P's, etc. And there will be a greater falling away if the Augean stables are not cleaned out before next election.

FARMING AND FRUIT GROWING AT HIGH ALTITUDES.

Some complaining ones in and around Princeton who declare fruit and vegetables cannot be grown here owing to the altitude should not speak unadvisedly or unknowingly. No one but a 'freak' would condemn the country that has been kind to him because the frost nipped his spuds in a 2x4 garden or played havoc with a tender vine. The Nelson Daily News of the 25th inst. has the following about farming in high altitudes. (The altitude of Princeton is about 2000 feet.):

'The experience of ranchers near Rossland indicates that improved lands situated 3500 feet above sea level and over are already demonstrating their value as revenue producers in a remarkable way. A few miles from Rossland Mr. Peters has a farm of 250 acres of which 50 are improved. From this 50 he has sold 125 tons of hay at $26 per ton, and from a raspberry patch he has sold 300 crates of the fruit at $3 per crate. Some weeks ago his apple trees were so laden with fruit that 50 per cent of the crop had to be picked green in order to prevent the trees from breaking under the strain. Mr. Peters purchased this land from the

LICENCE TO AN EXTRA-PROVINCIAL COMPANY.

COMPANIES ACT, 1897.

CANADA:
Province of British Columbia.
No. 585.

THIS IS TO CERTIFY that the 'Princeton Coal and Land Company, Limited,' is authorised and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at No. 15, Great Saint Helens, City of London, England.

The amount of the capital of the Company is two hundred thousand pounds, divided into two hundred thousand shares of ono pound each.

The head office of the Comyany in this Province is situate at Princeton, and Ernest Waterman, Agent, whose address is Princeton aforesaid, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia. this twenty-third day of May, one thousand nine hundred and ten.

[L.S.] J. P. McLEOD,
Acing Registrar of Joint Stock Companies.

The objects for which this Company has been established and licensed are:

To carry on in British Columbia and elsewhere in any part of the world, the trades or businesses of land owners, landed proprietors and agents, coal masters, coke manufacturers, miners, smelters, engineers, steel converters, iron founders, brick and tile manufacturers, proprietors of works for the supply of water, gas, electricity (either for power or lighting) or other power (in all their respective branches), ship owners iron masters, and to undertake the purchase or sale of lands of every description (either improved or unimproved), or agents for the same, and to lend money on the same by way of mortgage or otherwise, and to act as mortgage or discount brokers, bankers, financiers, capitalists, and to make, purchase, hire, let and sell railway or other plant, fittings, machinery, and rolling stock, or any portions or parts of such articles, and to carry on any other operations or business which the Company may from time to time deem expedient in connection with its main business for the time being, and with a view thereto to enter into the agreement referred to in article 3 of the company's articles of association.

To purchase, take on lease or in exchange, hire or otherwise acquire, (either with or without the surface), and to make sale or otherwise dispose of the same from time to time any lands, forests, coal mines, iron mines and other mines, mining properties or rights, water rights, patents or other rights or claims (whether absolute, exclusive, optional, conditional or limited) and any lands, buildings, or other kind of property whatsoever, which the company may think necessary or convenient for the purposes of its business, and minerals, clay, brick-earth, sand, and any lands or other property necessary to the advantageous possession and use of the railway, mines or works for the time being owned or worked by the company, or any interest therein respectively, and to search for, get, work, raise, win. mine, quarry, convert and manufacture, use, crush, wash, smelt, reduce, refine, or otherwise treat, and render marketable and sell, dispose of, and otherwise deal in coal, ironstone, clay, brick earth, sand and other ores. metals, minerals and mineral substances of the earth whatsoever, and to carry on any other metallurgical operations which may seem conducive to any of the Company's objects.

To purchase and sell, as merchants, timber, coal, ironstone metals, bricks, tiles and any other materials, articles, or things relating to any of the above businesses, either on commission or otherwise, and to sell, improve, manage, develop, or otherwise turn to account or deal with all or any of the property and rights of the company.

To purchase, take in exchange, or on lease, hire or otherwise acquire in any part of the world, for any estate or interest, any lands, buildings, easements, rights, privileges, minerals, machinery, plant, implements, conveniences, provisions and other things, stock-in-trade utensils capable of being used in connection with the operations of, or by workmen and others employed by the company, and real and personal property of any kind necessary or convenient for the company's business.

To construct, erect, establish, maintain and improve or aid in and subscribe towards the construction, erection, maintenance, and improvement of railways, tramways, roads, shafts, wharves, canals, harbours, buildings, machinery, and other works and appliances which may be necessary or convenient for the purposes of the company.

To promote, make, provide, acquire, take on lease or agreement, lease, let, grant running powers over, work, use and dispose of railways, tramways, and other roads, ways and means of access to any part or parts of the property of the company, and to contribute to the expense of promoting making, providing, acquiring, working and using the same.

To make build, purchase. acquire, lease, sell, exchange, hire, charter, use, or let, piers, harbours, steamers, ships, tugs and other shipping appliances, or contribute to the cost of the making or repairs thereof for any of the purposes of the company.

To make and carry into effect arrangements with land owners, railway companies, shipping companies, carriers, and other companies and persons, for any of the purposes of the company.

To acquire any concessions, grants, rights, licenses, powers, privileges, or contracts from any Government, authority, company, firm or person in any part of the world which may seem to the company capable of being turned to account in connection with the business of the company, and to work, develop, carry out, exercise and turn to account the same.

To carry on and transact the trades or businesses of merchants, contractors, carriers by land or water, farmers, graziers, traders in and manufacturers of all kinds of merchandise, goods, provisions, and articles, managers of estates, farms, mines, railways or other properties, commercial, and financial agents and brokers in all their respective branches, and the businesses of engineers, builders, miners, and any other businesses directly or indirectly connected with or capable of being conveniently carried on in connection with any of the businesses for the time being or objects of the company.

To establish and regulate, whether in the United Kingdom or abroad, agencies for all or any purposes of the company, and to establish and support, or aid in the establishment and support, of associations, institutions, funds, trusts and conveniences calculated to benefit employees or ex-employees of the company or the dependents or connections of such persons, and to grant pensions and allowances and to make payments towards insurance, and to subscribe or guarantee money for charitable or beneficial objects or for any exhibition, or for any public, general or useful object, and generally to pay any sum or sums of money, whether the same be paid for good consideration or not as may seem directly or indirectly calculated to benefit his company.

To establish, form and subsidise or otherwise assist in the establishment promotion or formation of any other companies having for their objects, or some of them, any of the objects mentioned in this memorandum, or the prosecution of any other undertakings or enterprises of any description having objects which may advance directly or indirectly the objects of this company and to secure, by underwriting or otherwise, the subscription of all or any part of the share or loan capital o any such company, and may or receive any commission brokerages, or other remunerat on in connection therewith

To purchase or otherwise acquire and undertake all or any part of the business, property and liabilities of any person or company carrying on any business which the company is authorized to carry on, or possessed of property suitable for the purpose of the company.

To amalgamate with or enter into partnership or any joint purse arrangement or any arrangement for sharing profits, union of interests or cooperation with any company, firm, or person carrying on or proposing to carry on any business within the objects of the company, and to acquire the goodwill of, or any interest in any business similar to any business which the company is authorised to carry on.

To sell, exchange, let on rent or royalty, share of profits or otherwise grant licenses, easements, and other rights of and over: and in any manner dispose of the whole or any part of the undertaking, business, and property of the company, and in consideration to accept cash or shares, stock debentures or securities of any company whose objects are to include objects similar to those of the company.

To cultivate lands and property, whether belonging to the company or not. and develop the resources thereof by building, reclaiming, clearing, draining damming. ditching, farming and planting, upon such terms, system or systems as may be considered advisable, and to stock, cultivate and farm lands, and to breed, grow and deal in all kinds of stock, cattle, sheep, horses and produce.

To contract with or aid any sovereign or other power, government or state, or any municipal or other body, politic or corporate, or company or persons for or in relation to capital, credit, means or resources, for the prosecution of any works, undertakings, projects or enterprises; also to contract for and act as agents or otherwise in relation to loans or securities issued or proposed to be issued by any government or state, on municipal or other authority, or company or corporation, or persons or person.

To lend or advance money on the security of any kind of property, rights, stocks, shares bonds debenture stock, mortgages debentures obligations, bills, notes, or other instruments or securities, or on the undertaking of any company or any part thereof

To negotiate loans of all descriptions either alone or jointly with any other company or person, to any state, country, municipality, railway company or any other company, or corporate or other body or any person or persons and to act as trustee or trustees for any such loans.

To advance money for or otherwise assist in making explorations and surveys of every kind and in promoting immigration into any country, colony or state.

To guarantee the performance of any contracts or engagements, and to become liable or responsible for money, or for the fulfilment of contracts entered into by others

To pay all expenses of, or incident to the formation, registration, and advertising of the company, and the issu of its capital, including brokerage and commission for obtaining applications for or placing shares.

To buy, sell, enter into contracts, either absolute or conditional, issue on commission or receive brokerage, or other remuneration or consideration, upon the issue or re-issue, or for guaranteeing the issue of, or the payment of interest on any stocks, shares, debentures, debenture stock, bonds, obligations, or other securities of any company or public or local authority.

To borrow or raise money with or without any security, and to secure the payment of money borrowed or raised, and in particular by the issue of debentures or debenture stock, perpetual or terminal, bonds, mortgages or any other security upon such terms as to priority or discount or otherwise, as shall be thought fit, and to secure the same if thought fit by mortgage or charge upon the undertaking of the company and any or all of its real and personal property, present and future, and all or any of its uncalled capital, or in any other manner, and to purchase or redeem, at a premium if deemed expedient, any debentures, debenture stock or securities of the company.

To sell, lease, charter, or otherwise dispose of, absolutely, conditionally or for any limited interest, the whole or any part of the undertaking, property rights, concessions or privileges of the company for such consideration in cash, shares, royalties, or otherwise, as the company may think fit, and to abandon any part of the business for the time being of the company, and to carry on any of the objects mentioned in this clause, to the exclusion of the others, and to acquire or institute any new business, falling within the objects of the company, or any of such objects

To subscribe for, purchase, or otherwise acquire the shares or stock, whether ordinary, preferred or deferred or the debentures, bonds, or other securities of any company, and to accept the same in payment of any property sold, or business undertaken, or services rendered by this company, and to hold, sell, or otherwise deal with the same.

To pay for any rights or property acquired by the company or any services rendered to the company, in fully or partly paid shares or stock, debentures or other securities of the company, and to make such payments or gifts by way of bonus or otherwise, and either in money or in any other value as may from time to time be deemed expedient for information or advice given or for services of any kind rendered to the company, or in connection with which the company may be directly or indirectly interested, and generally to make any payments or agree to pay any commissions with or without any consideration moving to the company. if it is considered by the directors in the interests or directly or indirectly to the benefit of the company to do so.

To promote any company for the purpose of acquiring all or any part of the undertaking, property and liabilities of the company. Also to acquire the undertaking and assets, and undertake the liabilities of any now existing or future company, and to conduct, liquidate, or wind up the business of any such company.

To enter into partnership or into any arrangements for sharing profits, cooperation, reciprocal concession, or otherwise, with any person or company and to remunerate any person or persons, joint-stock or other company, by fixed salary or specified remuneration, or by a share of profits present past or future, or part one way and part the other.

To make and carry into effect or determine arrangements with British, Colonial or foreign manufacturers, railway and shipping companies, proprietors or charterers of shipping, carriers, proprietors of steam, electric, petrol propelled or other mechanical power, and other persons or company.

To carry on, work or develop any property or business of any kind, either as principals or agents, or to concur with others in so doing, or employ others to do so, as may be found expedient

To pay any commission or brokerage for the purpose of securing the subscription of any part of the share or loan capital of this company, or of any company promoted by this company, or in which this company is or intends to be interested, provided such commission shall not exceed 75 per cent., and generally to remunerate any persons for underwriting such capital, or for services rendered in placing, or assisting to place, or guaranteeing the placing, of any shares, debentures or other securities of the company, or for promoting or guaranteeing the raising of capital for any other company, and to underwrite or otherwise guarantee the subscription for or placing of the share or other capital of any other company.

To procure this comdany to be legalised, domiciled or recognised in any foreign country or colony, and to procure its incorporation in a like character, or as a Societe Anonyme in any foreign country, and to carry on the business of the company or any part thereof, in any foreign country or colony. or dependency of the United Kingdom or in any part of the world, under any other style or name.

To draw, accept, make, indorse, discount, and negotiate bills or exchange, promissory notes, warrants and other negotiable instruments other than bank notes.

To distribute among the members in specie any property of the company, or any proceeds of sale or disposal of any property of the company, but so that no distribution amounting to a reduction of capital be made except with the sanction. if any, for the time being required by law. To issre any shares of the company at par or at a premium or as fully or in part paid up, and to transfer to or otherwise cause to be vested in any company, person or persons, all or any of the lands, mines and property of the company, to be held in trust for the company, or on such trusts for working, developing, or disposing of the same as may be considered expedient.

To exercise the powers given by Sections 24, 25 and 79 of 'The Companies Consolidation Act, 1908.'

To do all such acts and things as are incidental or conducive to the above objects.

EXCELSIOR L.O.L., No. 2102, MEETS TUESDAY on or before the Full Moon of each month. Sojourning brethren cordially invited.

C. L. CUMMINGS, W.M.
P. RUSSELL, R.S.

From 4th page.

Great Northern railway at a small figure and it is probable that $100 an acre would not buy it now. Other farmers are doing as well.

Fruit growers in Rossland district are making preparations to send a splendid exhibit of fruit grown at high elevations to the Vancouver apple show. Last Sunday the sum of $200 was raised in a few minutes as a contribntion towards the expenses in connection with this event.'

The knocker of Princeton and district will see that there are good chances for fruit growing here, as there are in other high altitudes.
