Princeton coal gives good results in stove or furnace.

SIMILKAMEEN STAR

Time is a great adjuster of wrongs and misunderstandings.

This year opens up with a new era of development for Princeton and district; it is the most important year in the history of the Similkameen—The transforming power of the railway is already apparent—Coal, ore and coke produced—Invest in time.

Vol. XI. No. 7. PRINCETON, B. C., WEDNESDAY, FEBRUARY 9, 1910. $2 a Year in Advance

THE BOARD OF TRADE

Annual Election of Officers and New Members Added to Roll.

Hospital Question to the Fore, and Petition for Dominion Office Building Mooted.

The annual general meeting of the Board of Trade which should have been held first Monday in January took place on Monday night last, the president W C. McDougall, being in the chair. Following members were present, Messrs. Soutter, Marlow, Lazier, Avery, Brown, Campbell, Wardle, Thurburn-Conn, Murdoch, Wilson, Lumsden, Waterman, Bell, McDougall and Wright. Minutes of last meeting read and adopted.

It having been decided to receive new members before the annual election of officers, the following names were added to the roll: Messrs. Groffman, Kirkpatrick, Graham. Russell, Heinecky, Massolat and Wilson.

The following officers were elected unanimously for the year 1910: President J. M. Wright, (late Vice-President); J. D. Lumsden, Vice-President; Secretary-Treasurer, H. H. Avery. Executive Committee, Messrs. Wardle, Thomas, Campbell, Brown, Waterman, Marlow, Murdoch, Graham and Bell; the officers being members ex-officio

The following members were appointen a committee to draft rules of procedure and regulations for the governance of the Board, Messrs. Avery, Thomas, Waterman, McDougall and Campbell. Committee to provide same and report at next meeting.

The committee appointed at a former meeting to take initial steps toward the establishment of a general hospital in Princeton reported that the Vermillion Forks Co. had generously donated six lots, valued at $1,500, in a very appropriate location, as a beginning for this very necessary institution; that the committee had received through a member a communication from L. W. Shatford, M.P.P., urging immediate action that a sum might be placed in the government estimates in assistance; that the committee had replied furnishing Mr. Shatford with information for his guidance. In the discussion which followed receipt of this report the committee received authority from the Board to convene a public meeting as soon as possible of the residents of Princeton and district for the purpose of appointing a Board of Trustees in accordance with the terms of the Hospital Act and for the consideration of ways and means necessary toward immediate construction of a hospital building.

The Executive Committee of the Board were instructed to draft a resolution re making Princeton a customs port of entry or sub port and recommending the proper housing of all Dominion Government offices here in a public owned building suitable for the accommodation and convenience of the public, said resolution to be forwarded to Martin Burrell, M.P., and to Senator Bostock.

Communication from F. H. French, Secretary of Hedley General Hospital Society. suggesting the co-operation of Princeton Board of Trade in support of the hospital at Hedley and offering representation on the board of directors, if suggestion be accepted. Secretary to reply.

Communications from "Westward Ho" and the "Mail" Publishing Co, re descriptive articles of Princeton and district for insertion in these publications. Secretary will reply.

Board adjourned.

GRANITE CREEK NEWS.

(From Our Special Correspondent.)

Granite Greek, Feb. 5.—Things are booming in Granite Creek. The Columbia Coal & Coke Co., who recently acquired the coal deposits stretching from this place to Collins's Gulch and the North Fork, will lose no time in opening up the property. As an earnest of their intentions G. L. Fraser has been engaged as manager. It was he who so successfully opened up and operated the International Coal & Coke Co. at Coleman, Alberta, and which he was chiefly instrumental in making one of the greatest coal producers in western Canada. He also opened up the Royal Collieries at Lethbridge.

Mr. Fraser has been engaged in the mining business for the past 25 years, and as his long suit is opening up coal mines and making a success of them, we all look to him with confidence for the rejuvenation of Granite Creek. He is accompanied by W. G. Norrie, who served under him at the International and later was engaged as engineer to the McGillivray Creek Coal & Coke Co., with which he was connected from the start.

To show that he means business Mr. Fraser has also along with him a first class mechanical engineer in the person of Arthur Jacobs, who has spent nearly all his life in Just such work as he is here for. Mr. Jacobs has been connected with such big companies as the Granby Consolidated, International Coal & Coke Co. and the Royal Collieries.

Mr. Fraser states that as soon as the preliminary surveys of the property are completed, so as to gain the necessary information as to altitudes, distances, etc., work will be pushed with energy at the mine to enable shipping to be done the moment the railway reaches here. Granite Creek is certainly 'looking up'

Continued on 3rd page.

RAILWAY IS BUILDING

Men, Supplies and Equipment Arrive and Camps Made Ready.

Construction Simultaneous all Along the Line and Work to be Pushed Ahead.

Since the arrival last week of A. Kellett, general manager for Welch, Stewart & Co, railway circles have been astir. Many tons of rails and contractors supplies are moving up the line before the good sleighing is gone. Contractors Madden, Hankinson and McDonald are ready with men and material to begin actual construction.

The tunnel west of town will present a busy spectacle in a day or two when the steam shovel flings dirt into ceaseless reloading cars. The large commissary building is now receiving supplies for tha hungering hundreds to be employed on construction.

Mr. Kellett will push work ahead with vigor. The eighteen miles now under contract is heavy grading but is expected to be finished in about a year.

THE SMOKER.

Boxing Made Good Fun, Fine Singing, Dancing and Music.

If anyone had any doubt about the success of the smoker given by the Orangemen last Friday night it was only necessary to see it to have that doubt dispelled. The character of the entertainment and the manner in which it was carried out could not offend the most exacting, and the financial results were encouraging for future smokers.

In the boxing contests H. H. Avery acted as timekeeper and ringmaster and J. R. Campbell and Mr. McAdams were referees. Some of the bouts were 'fast and furious,' making good sport for the spectators and affording excellent practise for the contestants. Following are the contests:

Lavalley vs. Blair, (lightweights)—This contest was exceptionally fast from the tap of the gong in the first round until the finish of the fourth and last round. Lavalley was aggressive and in better condition than his opponent, besides his style was more 'classy.' Blair, with training, has an assured career. Referee decided a draw.

McAdams, of Hedley, vs. Tway of Princeton, (middleweights).—This contest, although rather onesided, proved to be good sport for the spectators, McAdams leading in all four rounds. However, Tway must be given credit for his gameness. Decision, draw.

Lavalley vs. Smith (featherweights).—This four-round contest was full of snappy sparring, but the reach and weight of Lavalley gave him a slight lead towards the finish. The referee's decision, a draw, was received with applause from the audience.

Brock vs. Upton (heavyweights)—Pretty work was observed in this contest, both contestants being evenly matched. Decision, a draw.

'Red Paddy' vs, McAdams (middleweights).—This contest went three ruunds to a draw and furnished a lot of amusement for the crowd.

Tway vs. Martin, (heavyweights).—This contest wound up the smoker and was declared a draw after four rounds of hard milling, in which both contestants got in some piledriver blows.

The program was varied with songs by Mr. Etchell, who rendered very effectively: 'In the Churchyard Across the Way,' 'My Old New Hampshire Home,' and 'In the City of Sighs and Tears,' also excellent songs by Jim Cameron, C. Semerad, Mr. Upton, W. C. Brown, Mr. McAdams, Mr. McGinty, Edward Wheadon, and a qnartette by Messrs. Brock, Brown, Etchell, and Thomas, piano accompanist, Mr. Thomas; violin, W. Garrison, and the bagpipes by Mr. Forsyth. Step dancing by Dunc Donley was much appreciated, also that of Mr Upton. The smoker was brought to a close about midnight. The committee of management desire to thank all those who contributed to the success of the smoker by their assistance and by presence, Hedley brethren being fraternally remembered.—Com.

AN IMPORTANT YEAR.

The keen interest taken in the first meeting this year of the Board of Trade is evidence of the importance and need of such an institution in dealing with public matters. Little progress can be made in any community without organization of some kind. The Board of Trade can be made a power for the general welfare of citizens; it is such only when a representative membership of the whole Princeton district attend and patronize its meetings. Every taxpayer and resident is vitally concerned in the progress of Princeton now emerging from its chrysalis state to that of a full grown town. In the absence of municipal organization the Board is the recognized mouthpiece of the people, hence the importance of becoming a member. Any person with an idea or a proposition of public interest will receive courteous hearing from the Board, the end and aim of which is to promote the development of resources, encourage enterprise, induce investment and inculcate unity and harmony among citizens generally on all public questions. Having such a Board of Trade the interests of every individual or company will be properly safeguarded and advanced.

Dr. Jackson, dentist, will be here on the 16th instant.

The Similkameen Star.

CONSERVATION AND PRESERVATION.

Considerable effort is now being made toward the conservation and preservation of our great natural resources. Both the local and federal governments have already done much to carry out the various schemes devised for the husbanding of nature's wealth. In doing this they are laying the foundations broad and deep for present and future generations to benefit thereby and are wiping out the national sins of waste and destructiveness. Nature economizes and is frugal in all her ways, but man, ruthless, thoughtless, destroys what she would be pleased to bestow with generous hand. How many millions of dollars in timber alone are destroyed every year, all through the carelessness or criminal neglect of some individual or railroad company. Every summer season there are forest fires in Princeton district destroying valuable timber and the young saplings, yet it seems to be impossible to convict anyone for having originated the fire. A rigid enforcement of the law now provided for checking forest fires is needed, which can only be done by the faithful performance of duty by those who are entrusted with the guardianship of the timber and the magistrates. The protection of fish and game and the making of a large provincial park for the preservation and propagation of wild animals, song and game birds, is something in the line of conservation that should give our legislators thought. Then there is a great waste of water power going on which might be utilized in a thousand ways for manufacturing purposes and in the reclamation of many millions of acres of high lands now useless and barren. Premier McBride is on record as in favor of conservation and the sentiment of the people is behind him in any reasonable scheme he may propose.

NOTES AND COMMENTS.

Sir Wilfrid Laurier will live in the hearts of Canadians long after his earthly career is over for his patriotic speech on the Naval Bill in the hoase of commons. He is first, a Canadian, then an Imperialist. His policy is a Canadian built, owned and controlled navy. A business and patriotic proposition such as any sensible man would suggest. But there are those who make a great display of their so called loyalty and would dump into the British treasury millions of dollars every year for a fleet that might in these changeable times be used to wallop the free and independent Canadian. Further, the average Briton is too proud to accept any money contribution from the colonial. He thinks he can take care of himself and so he may.

John Houston is evidently making good up in Fort George. His last issue of the Tribune contained 140 land notices, which returned him $700 in five weeks, and this sort of thing has been going on for more than fifty weeks. He has started more newspapers than any other man in the business and has a record for long distance tramping in the early days of the west which is hard to beat. The writer has had the pleasure of crossing his trails many years ago and while John was living mainly on peanuts in Texas the other man was bucking yellow fever with a dying pard in Memphis. Always beating to windward and an unfavorable tide 'Old John' has been considerably in the limelight. It is too soon to write his biography, as he is still busy making history and will continue to do so until '30' is called and he is wafted to the place reserved for worn out journalists and all other good people.

The government is doing good work in reducing the taxes and thus lightening the burdens of the people. Man is such a selfish creature that he welcomes anything that will relieve the strain upon his purse. In a new country like B.C. it is good business to keep taxes down to a minimum. It not only adds to the resources available for improvements and the development of the country by the citizen but it encourages individual enterprise and thriftiness. Any student of economics well knows that the subject is better fitted for expending his money than a government with its elaborate official system and consequent leakages, together with the noneffective portion spent in salaries and management. A new country with low taxation is always inviting. And here let it be urged upon the government to abolish the poll tax as soon as possible. If there were no other reasons, it would be sufficient to abolish it on account of its mean characteristics, extorting and holding up every man in the country, whether he be subject or foreigner, resident for a day or a year—it is undignified. It discourages workingmen from coming to the country and it certainly disgusts them after arrival to be pounced upon for $5. This tax is the subject of more curses and imprecations than all other taxes combined.

GRANITE CREEK NEWS.

From First Page.

at present.

W. Sanvidge, contractor, of Lethbridge, Alberta, came in on Monday last and is looking over the locality with a view to settling in the valley.

Contractors Madden, Hankinson and McDonald visited Granite on Thursday last, returning to Princeton Friday, after having inspected the rightofway.

Dan Monroe came in from Merritt last week bringing in sawmill machinery to Tulameen for H. Brookes. After noloading it he came to Granite and removed the remainder of the dredging outfit belonging to Weeks & Adams.

A camp for rightofway clearers has been started on Welldo and clearing will begin immediately.

LOCAL AND GENERAL.

D. O. Day has written his brother T. M. stating that he is improving in health and is longing for the dry belt again and Similkameen sunshine.

Numerous friends of Mrs. Summers will be pained to learn that she is not mending as hoped for, her age making recovery very doubtful.

H. Massonat has returned much better in health, though not yet able to endure much hard work. He may now be found at his usual place of business.

P.F.E. at the manse Friday evening at 7. All welcome.

Messrs. Willarson & Johnson are having their premises in the Britton block fitted up for gents furnishings and clothing. These young men of unimpeachable record will no doubt prosper in this enterprise.

Avery & Avery received their first large consignment of flour and feed yesterday.

C. M. Snowden has taken over the billiard parlor and will run it in future.

A host of friends will regret to hear that W. C. McDougall suffered a severe accident by a cave in at a tunnel on the United Empire. Dr. Lazier is in attendance. His collar bone and a rib are broken and may have received internal injuries.

F. E. Groffman, returned from Spokane yesterday.

D. G. Shier, of Hedley, was in town yesterday.

Rev. Mr. Cameron, of Keremeos, was a guest at Maplehurst recently.

Mr. and Mrs. Sproule of Hedley are guests of Mr. and Mrs. Marlow.

Mrs. Hagerman left yesterday on a visit to Rossland.

J. O. Madden, railroad contractor, returned from St. Paul recently.

Divine service (Presbyterian) Sunday, 11 a.m. and 7:30 p.m.

Don't forget the Box Social Monday evening in the court house at 8.

NOTICE.

Thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a licence to prospect for coal on the following described land.

Commencing at the north east corner of lot 1823, group 1, thence west 80 chains along the south boundary line of lot 43, to the south west corner of lot 989, thence south 80 chains, thence east down the Tulameen river to the south east corner of lot 1823, thence north 34 chains more or less to point of commencement.

GENERAL NEWS.

A bill has been introduced in the commons at Ottawa to do away with all trnsts and combines that unduly enhance prices.

Another community has seen fit to reward the editor of its home paper for his services in boosting the community. The Chesaw Commercial Club recently extended a vote of thanks and gave $25 to the News for its good work in attracting attention to the opportunities of that locality. Such expressions are so rare that it is deemed worth while calling attention to them.—Greenwood Ledge.

In Portland, Oregon, 51 years ago, Pete Severson bought a lot for a week's wages. Last week he sold it for $250,000. It is an illustration of what may yet occur in Princeton in much less time.

COPPER HANDBOOK

(New Edition issued March, 1908.)

SIZE: Octavo.

PAGES: 1228.

CHAPTERS: 25.

SCOPE: The copper industry of the world.

COVERING: Copper history, geology, geography, chemistry, mineralogy, mining, milling, leaching, smelting, refining, brands, grades, impurities, alloys, uses, substitutes, terminology, deposits by districts, states, countries and continents, mines in detail, statistics of production, consumption, imports, exports, finances, dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The miner needs the book for the facts it gives him regarding geology, mining, copper deposits and copper mines.

The metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

The copper consumer needs the book for every chapter it contains. It tells what, and explains how and why.

The investor in copper shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

PRICE: $5 in buokram with gilt top, or $7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

MINES AND MINING.

The Guggenheims have abandoned 27 mining leases in Cariboo. J. B. Hobson has relocated most of them.

Copper is expected to take a leap upwards as the result of strikes and shutdowns in mines and smelters.
