High in fixed carbon Princeton coal warms the home.

SIMILKAMEEN

STAR

If we are intolerant we are also intolerable.

Vast water power and steam coal will make Princeton a cheap manufacturing center—Gold and platinum dredging, hydraulic mining are among our immediate possibilities—Cement industry assured—Coking coal in the district—Ore in variety for smelter.

Vol. XI. No. 47. PRINCETON, B. C., WEDNESDAY, NOVEMBER 16, 1910. $2 a Year in Advance

MINES AND MINING

Company to Supply Hydro-Electrie Power from the River.

Important Mining Deal in Process—Railway Projected to Steamboat Mountain Camp.

T. J. Corwin, of Vancouver, who is interested in the gold-platinum placers of this district left Monday after an examination of the field for mining. His company will prospect here during the winter and study the best method of recovering the precious metals.

E. P. Galliac recently sold a quarter interest in his coal property on Onemile for $12,500.

The Granite-Poorman, one of the oldest mines in the Kootenays, is about to resume shipping after a long shut-down.

One of the largest miniug deals in the Similkameen, in which the Gnggenheims are principals, is reported to be about completed.

Steamboat Mountain gold camp is the drawing card for Vancouver capital.

Whipsaw is active among mining men, and enquiries are coming freely.

I. N. Dally, coal expert, of Seattle, was in town last week and made inspection of some coal propositions in this section.

A. H. Kelly, of Nelson, a well known mining man in the Kootenay country, is a visitor to Princeton and is being chaperoned over different mining propositions by W. C. McLean. Mr. Kelly is very much impressed with our vast mineral resources.

The mining town of Florence, N.S., was recently flame swept, doing damage to the Nova Scotia Steel and Coal Co. amounting to $100,000.

Col. Stevenson, the veteran prospector, goldhunter and pioneer, returned Monday from Hedley hospital feeling fit and skookum, as of yore.

POWER FROM 'WHITE COAL.'

Another enterprise of great value to Princeton is shortly to be launched in this section, the preliminary stages of which are now being advanced. It has long been a well known fact that the Similkameen river affords the finest water facilities in the country for the development of power The natural fall of the river and its large volume will give power sufficient to supply all requirements. At first, the development of 3000 horse power is all that will be provided. Hydro-electric power is the handiest, cheapest, safest and most reliable. W. C. McDougall is at the head of the project and is already applying for water rights. The awakening into business activity caused by the generation of power from 'white coal' is a welcome feature wherever it has been introduced and Princeton will not, in all likelihood, prove an exception.

KING IS COMING.

King Keunedy, the renowned conjuror and ventriloquist, will give one of his unique exhibitions in Princeton on Wednesday, Nov. 30. Many thousands of feet of new moving picture films will be a part of the show. King makes the rather pathetic announcement that this will probably be his last appearance, as he 'is not so young as he used to be.' His show is clean and interesting and cannot fail to please. See him on this his goodbye tour and you will always have something pleasant to think about. Aduits 50c; children 25c.

EXCESSIVE COAL TARIFF.

The Nelson board of trade has taken up the question of freight rates on coal from the producing points. Galt coal costs Nelson dealers at the mine $3 55 and adding $3 10 freight and 35c. for hauling, the actual cost at the bunkers at Nelson is $7 per ton. Retailed in less than carload lots at $8.25 per ton delivered, there is a margin of $1.25. out of which comes the cost of delivery and the profit. In the case of the Ashcroft mine at Lethbridge, the original cost is $3 75 per ton, the other charges being the same the dealer has $1.05 for profit and delivery. Coal from Bankhead on the main line retails at $10.50 in Nelson, costing $5.50 at the mine, the freight rate being $3 50 aud handling charges as usual. The rate from Lethbridge bore no relation whatever to the competitive rate from Princeton, for, under the present tariff, when Princeton coal begins to come in by the Great Northern it will be carried for $2.50 per ton. The coal tariff is to be made the subject of investigation by the railway commission.

ENERGETIC BUSINESS MEN.

R. Cross and J. H. Tillsley have recently been added to the personnel composing the officials of the United Empire Co. Both gentlemen are prominent business men of Spokane and are financially interested in enterprises which will beneficially affect Princeton and the whole district. It is the intention of the U.E. Co. to develop its copper property on Onemile, next its coal mine, and Mr. Cross will superintend the work. It now looks as if Onemile would shortly become a bnsy spot with the operations of the U.E. and subsidiary companies. There is room enough for all.

O H. Carle, the grocer, received an immense supply of fruit and vegetables the other day from Keremeos. No order too big for him to fill.

LOCAL AND GENERAL

Ladies' Hospital Auxiliary Organize, give Social and Grand Hop.

Kettle Valley Railway Applies for Extension of the Road to Princeton.

The first of a series of entertainments, socials and dances to be given by the Ladies' Auxiliary will be held tonight, [Wednesday] at Mrs. Marlow's home. A good time is promised. Adults 25c., children 15c.

With commendable promptitude the Ladies Auxiliary has under consideration various schemes for providing financial aid to the hospital, among which is a grand masquerade ball to be held New Year's Eve.

Little more than five weeks to Christmas.

Read the list of special values offered by the A. E. Howse Co., L'd Watch for the list of bargains to appear in Star and be prepared to profit by them.

P. Guinan, better known as 'Red Paddy,' was seriously scalded last week while doing some housework in his cabin on Tiperrary ranch. He was brought to town by his neighbor, Percy Rowlands, and received medical attention. Paddy's numerous friends will be glad to see him in harness again.

The Rev. A. E. and Mrs. Bruce have taken apartments and will make their home here.

Born—On the 3rd inst., the wife of F. R. Prosser, of a son.

Alexander Lucas is the new member for Yale in the provincial legislature. The Liberals will not oppose his election.

The Y.M.C.A. of Vancouver raised $500,000 in less than a week. Lord Strathcona contributed $25,000.

The surplus in the postoffice department for the year ending last June, by the annual report just issued, is $73,210. Not quite so much surplus and better service would be more satisfactory to the public, who pay for it.

Tink French and Podunk Davis are lucky Nimrods. They just take a nanitch up the hills and back again and lo! a quartet of plump mowitch appears in their rig. Simple when you know where to find them and how to aim.

Mr. and Mrs. Lumsden returned from their extended honeymoon trip last week and were received with the usual congratulations by friends, the boys attending to the salutations in the evening, for which they obtained their reward.

Application for incorporation has been received at Ottawa from the Kettle River Valley Railway Co. and for its extension to Allison or Princeton and from Coldwater to the Fraser River and to Steamboat Mountain mining camp.

R Cross, of Spokane, arrived last week and will become a resident of Princeton,

Pickled pigs feet and sauetkraut at the P. Burns Co., L'd.

A social under the auspices of the Ladies' Auxiliary will be held at the home of Mrs. Marlow this evening, (Wednesday). A charge of 25c. will be made for adults, 15c for children. The management specially invites men. Go to the social and be happy.

A. T. Anthony, district deputy of the Modern Woodmen, organized a local camp last Thursday with 24 charter members, assisted by Walter Davies, assistant deputy. Anyone wishing information may call on Mr. Davies, or P. Russell. Officers elected are: W. Davies, consul; Chas. Cummings, adviser; W. White, banker; P. Rnssell. clerk. The lodge has a strong membership to begin with.

The sidewalk to the station is now being completed.

FOR CHARITY'S SAKE.

The Ladies' Hospital Auxiliary was organized last Thursday under very favorable auguries as to its future usefulness and success, those present entering into the work with an enthnsiasm that cannot fail to inspire others with a desire to help in the charitable and noble cause. As the name implies, the organization is for the purpose of helping to furnish and provide the many necessary articles required for the proper equipment of the hospital. The officers elected are: President, Mrs. McDougall; Vice-President, Mrs. Waddell; Secretary-Treasurer, Mrs. Marlow; the other ladies present being Mesdames Howse, Nelson, Hall, Huston, and Miss Schisler. It is expected that a large membership will accrue to the Auxiliary as all ladies are invited to take part in this philanthropic work.

MINING NEWS WANTED.

E, Jacobs, the well known mining editor and reviewer asks Star to state that he will be pleased to receive any information relative to the progress and development of mines and of the prospect for mining operations. The information given will have wide pnblicity. He asks that mining men give him all the information possible so that due prominence may be given to this important district. Communications should be addressed to E. Jacobs, Nelson, B.C. and ought to reach him not later than the 1st of December. This is a good opportunity to advertise this country and possibly be the means of introducing much needed capital.

The Similkameen Star.

UNIVERSAL FREE TRADE.

Free trade is natural trade. Protected trade is unnatural, fictitious, forced. Free trade puts everyone on equal footing; protection favors some to the disadvantage of others, it is class legislation. No man, nor law, should say: Thou shalt not, under penalty of a tariff, trade with the Americans, the French, Germans or British. A man's privilege to buy where he pleases is his birthright and any interference with it by the state destroys his liberty and makes of him a vassal. What man would suffer dictation as to where he shall buy his goods in a given town? Protection is destructive of healthy competition. It fosters combines, trusts and gigantic mergers which swallow all within reach of its monopolistic tentacles. At the rate which Sir Wilfrid Laurier has travelled toward his promised goal of free trade during the last fourteen years of his premiership, no man now living can hope to see free trade consummated. It remains for the Conservatives to adopt the new and winning battle cry: Universal Free Trade, and wrest Canada from the grip of unfaithful servants. In the ordinary course of progress and enlightenment Universal Free Trade must come. In the world's politics no other question has the stupendous benefits to bestow upon the human race. It is the one way in which to settle the mania for huge, impoverishing armaments and to bring about that universal peace which all right hearted persons look forward to, hope and pray for. Star commends free trade to Conservative leaders, for its importance completely overshadows the politician's toy—reciprocity, and will effectually dispose of naval, conscription and all present military or warlike problems.

NOTES AND COMMENTS.

It is not necessary to resort to tabulated statistics to show that Princeton is moving onward in the march of progress which is so strikingly evident throughout the country as a whole. Other towns less ripe in years are probably more advanced through the influence of booming tactics. A casual survey of the town is only necessary to prove that the spirit of progress is not dormant in citizens. Without boasting, it is believed that no other town of its size will stand comparison with Princeton in the matter of cleanliness. The system of sanitation, which includes scavenging, is carried out on prescribed statutory lines and with the recent addition of waterworks the town has the necessary equipment for maintaining the cleanliness and health of the community. The result of building operations at the close of the year will be found much in advance of any previous year, this, in itself being conclusive proof that the town is coming into its own by right of its industrial and commercial advantages.

The census of all Canada to be taken next June will give British Columbia a population of at least 300,000 or more. The basis of representation being 25,000 that number will in proportion to population give this province a representation of 12 members in the House of Commons. Yale-Cariboo will, in all probability, be divided into two natural ridings, Yale and Cariboo. With the increased membership it ought to be made clear at Ottawa that our equal and fair rights as a province should no longer be denied. Per capita, B, C. contributes more than the other provinces to the Dominion's revenue and this is one of the matters requiring adjustment along with a fairer proportion of expenditure on public buildings and works.

In Britain under free trade the development of its commerce has been by leaps and bounds. That ought to be answer enough to those little Canadians who see nothing but dire results from the operation of free trade in this country. The protective tariff rut is hard for the 'slow coaches' to get out of.

Ralph Smith, M P., in an interview at Merritt, promised that the town would have the federal buildings which had been urgently asked for. Mr. Smith is the Liberal organizer and he knows a thing or two. Come this way, Mr. Smith, Princeton wants federal buildings too.

The postoffice service in Canada is honeycombed with inefficiency, says the Greenwood Ledge. Yes, it is fast losing all the honey, soon there will be nothing left but the comb, some bee bread and the slow old drones buzzing around.

Canadian peaches are selling at two bits each in London, England. Is it proper to say that the Cockneys are being impeached.

Teddy the Strenuous may now go away back, sit down in an African jungle, and talk to the pollywogs.

Canada has now got a navy. Just what the b(u)oys want.

WATER NOTICE.

Notice is hereby given that an application will be made under Part II. of the 'Water Clauses Consolidation Act, 1897,' to record the right to take, divert, convey and use water in Similkameen Division of Yale District, for ordinary, domestic and agricultural purposes:

A. The name of the applicant is W. C McDougall, Free Miner's Certificate No. 38720B.

B. The name of the lake, stream or sonrce is Similkameen River.

C. The point of diversion or intended ditch head is near the southern boundary of lot 3030, about two miles above the town of Princeton.

The point where it is returned is about the center of lot 3030 on the northern boundary of said lot, at the Similkameen river.

The difference in altitnde between the point of diversion and the point where it is to be returned one hundred and thirteen feet.

D. The means by which it is intended to store and divert the water is by small dam or weir in river and ditch and flume.

E. The number of inches applied for is [3000] thirty thousand inches per minute, [500 inches per second].

F The water is required for power purposes.

G. The land or mine on which the water is to be used is portion of lot 3030, Similkameen Division of Yale District.

H. This notice was posted on the 11th day of November, 1910, and application will be made to the Commissioner on the 11th day of December, 1910.

LONG ROAD FOR TOURISTS.

A recent telegram from Winnipeg says: A beginning has been made in the movement to establish Manitoba's section of the proposed western highway, but beyond informal discussions of the project little action has been taken. The idea is to construct a first class highway from the great lakes to the Pacific coast and it is understood here that the scheme is already under way in Alberta and British Columbia. Automobile enthusiasts are, of course, deeply interested and it is proposed to call a conference of various public bodies to push the scheme along.

WATER NOTICE.

Notice is hereby given that an application will be made under Part II. of the 'Water Clauses Consolidation Act, 1897,' to record the right to take, divert, convey and use water in the Yale Division of Yale District, for ordinary, domestic and agricultural purposes:

A The name of the applicant is the Princeton Coal and Land Co., Limited.

B. The name of the lake, stream or source is an unnamed stream or spring flowing out of a small lake situated about one hundred yards from the south boundary of Lot 157, Yale Division of Yale District.

C. The point of diversion or intended ditch head is at the northerly end of the small lake described above.

D. The means by which it is intended to store and divert the water is dam, flume and ditch.

E The number of cubic feet per second applied for is one cubic foot.

F. The water is required for agricultural and domestic purposes.

G. The land on which the water is to be used is Lot 157, Yale division, Yale district.

H. This notice was posted on the 6th of October, 1910, and application will be made to the Commissioner on the 5th day of November, 1910.

GENERAL NEWS.

American farmers with capital totalling $1,500,000 passed through the Dominion government immigration offices in St. Paul, Minn , bound for northwestern Canada, most of them for Alberta, during the month of June last.

A continuous highway from the Mexican border to Vanconver, together with good roads to all parts of the province was the snbject discussed by the Victoria board of trade recently. A resolution asking the provincial government to push to completion as soon as possible its contemplated system of roads throughout British Columbia was passed.
