

Princeton Coal, fine for domestic and steam purposes

SIMILKAMEEN

Set no standard for others; do your own duty and never fret.

Princeton is known the world over as the center of a district famed for its vast natural resources—Coal, Copper, Gold, Iron, Paint and Timber—Almost unlimited water power—Coking coal for smelters—Manufacturing facilities unexcelled—Railway building.

Vol. X. No. 24.

PRINCETON, B. C., WEDNESDAY, JUNE 9, 1909.

\$2 a Year in Advance

IT IS DOMINION DAY

Princeton Celebrates and Invites Neighbors to See the Sport.

Program Embraces all Usual Features with Good Prize Money for Various Events.

At the public meeting Tuesday night it was unanimously decided to celebrate Dominion Day, following the custom of Princetonians since the town had an existence. C. E. Thomas was elected chairman and explained the object of the meeting.

The appointment of a Soliciting Committee resulted in liberal subscriptions from those present. It was figured out that no difficulty would be experienced in obtaining \$500 for the celebration.

Printing and General Committees were appointed, reserve being made for special committees to be named later who will work out the details.

The leading features of the celebration are horse racing, baseball and grand ball. About \$350 will be devoted to horse racing. In the 600 yards freeforall \$100 is first money and \$35 second, other races proportionate.

Baseball prize, \$100, open to alleomers. This event will probably draw out the best talent to be found in many miles around.

Caledonian games and children's sports will afford everyone a chance to compete.

Everybody invited and a good time promised. Come and see some of the scenic beauty and natural resources of Coalopolis.

For further information see poster-programmes and watch the Star for special announcements.

This Dominion Day will witness the last of the old order of celebrations, the railway affording cheap transit, cayuse transportation will be abandoned next year.

TOWN AND DISTRICT.

Another Bank, the Eastern Townships, will open here in a few months.

High water last Wednesday washed out a piece of cribbing near Holmes' Flat.

L. W. Shatford, M.P.P., has written that a bridge will be built at Ashnola.

Crops are all in fine condition, which makes Hodge sing and smile, and all nature smiles with him. The birds, the flowers and the everlasting hills clothed in beautiful green help over the steep grades along life's rugged way.

F. Pyman is not only a Mason but he is a fine artificer in gold. Get the gold and see what a pretty ring he can make for you.

THE BOARD OF TRADE

Voluminous Correspondence is Read from the High, and the Humble.

Gold Commissioner Appointed for the Similkameen—More Publicity is Required.

The regular meeting of the Board of Trade was held Monday night. Members present: Messrs. McDougall, Marlow, Waterman, Lumsden, Thurburn-Conn, Avery, Pyman, Murdoch and Wright. After routine communications were read as follows:

Two letters from L. W. Shatford, M. P. P., re establishment of land recording office, appointment of gold commissioner and assistant commissioner of lands and works, enclosing letters from Premier McBride and F. J. Fulton, Chief Commissioner of Lands, regarding the same. Mr. Shatford expressed regret that the Chief Commissioner could not at present establish a land office as suggested by the

(Continued on 3rd page.)

WANTS THE NAME.

Correspondent Denies Statements in Okanagan Falls Notes.

EDITOR STAR—Sir: I notice in your issue of May 19th that you seem to have a correspondent at Okanagan Falls, that handles the truth rather carelessly. I have no American citizens working here with me, but I have a so called 'Bluenose' who is a British subject and an intending settler. I was not aware that such were prohibited from work here in B.C.

I will further state that all settlers in the neighborhood that have inquired for work have been able to obtain same. Therefore, I trust that in future your correspondent will allow his name to be printed with his notes or give up the job to someone that will take the trouble to find out the real facts of the case.

NEIL MCLEAN.

Okanagan Falls, May 28, 1909.

[The writer of the above letter has requested the Star to give him the name of our correspondent. It is a rule in well conducted newspaper offices not to publish the names of news correspondents, the reasons for which are various and obvious. The Star and the London Times have invariably adhered to this rule, the latter disclosing names only when obliged to in the high courts of the land. In the case of the Star it has always managed to keep out of court either from action of libel or debt, and if some subscribers would only pay up arrearages this nightmare of debt would never amount to anything more than a bad dream, if that.—Ed.]

FREEMASONS EN FETE

Lodge Instituted and Brethren Foregather Around the Banquet Table.

Prince of Wales, Supreme Grand Master—Masonry Hundreds of Years Old.

Princeton has another fraternal society, the Ancient, Free and Accepted Masons having instituted Similkameen Lodge, last Friday night, June 4th, in the Masonic Hall, Britton block, working under jurisdiction of the Grand Lodge of B.C. Some months ago steps were taken by local Freemasons to establish a lodge in Princeton, a dispensation having been granted by the Grand Lodge. The D.D. G.M., A. Megraw, Hedley, of No 9 Masonic District, embracing the lodges of the Similkameen and Okanagan as far north as Enderby, performed the rites and ceremonies of institution.

The history of Freemasonry dates from mediaeval times beyond which there is little authentic matter on which to base reliability for statements alleging its origin to have been at the time of building Solomon's Temple, the Tower of Babel or the Hanging Gardens of Babylon. Unquestionably it is the oldest fraternal society in existence, numbering among its members distinguished men of all ranks from rulers to the humble artisan, only one female freemason having been enrolled. It is founded in the practice of 'moral and social virtue,' its distinguishing characteristic is charity in its most extended sense, and brotherly love, relief and truth are inculcated by its precepts. The oldest lodges in existence are York, England, A.D. 926, and Kilwinning Lodge, Scotland, A.D. 1150; in America the first Grand Lodge was instituted about 1730, although prior to this Masons met in lodges without charters. The order is prohibited in some countries where the Greek and Latin religions prevail but it may be practically considered a world-wide organization, its membership in Canada and the United States alone numbering in 1903, 962,438. Knights Templar, Scottish Rite and the Mystic Shrine are Masonic, the latter developing the social side of the Craft in entertainment.

Similkameen Lodge begins under favorable auspices both of present and prospective membership. Its first officers are as follows: W.M., F. Pyman; S.W., Dr. Lazier; J.W., C. A. Saunders; Treas., Geo. Nathan; Sec., Perley Russell; S.D., Thos. Day; J.D., W. J. Kirkpatrick; S.S., R. Cramer; J.S., W. McLean; D. of C., R. Stevenson; I.G., J. M. Smith;

(Continued on 5th page.)

RUMBLE OF THE RAILS

Steel, Bridging, Ties, Track Machine and Men at Keremeos.

Four Bridges Across Similkameen, One at 20-Mile—Rails Here on October 15th.

Patience is one of the cardinal virtues and perfection in it can only be attained by constant practice. Every time the Star receives one of those exasperating wireless and liarless statements about tracklaying it digests it as mere food for patience. Those of us who have patiently waited for remittances that never came are now prepared to wait for the snort of the iron horse until we turn into Egyptian or Canadian mummies.

The latest authoritative report re tracklaying is that it will begin on the 1st of July and the first crossing of the Similkameen River will be made on the 10th; second crossing on the 15th, third crossing on 1st August, reaching Princeton on the 15th October. Ballasting will be completed on 1st November, the road immediately thereafter being turned over to the operating department of the Great Northern and Princeton put in touch with the rest of the great, throbbing, pulsating world.

It is beyond doubt that the tracklaying outfit is at Keremeos and that the gangs of bridge and trackmen are all ready to begin work. The Chronicle of that place is a good guesser and usually reliable on railway matters. It says: 'A large

(Continued on page 3.)

THE GAME ACT.

No Person Exempt from its Operation During Close Season.

Constable Hewat, in answer to many inquirers regarding the alleged right of prospectors or free miners to kill game out of season, has handed the Star the following letter from the Provincial Game Warden:

"R. Hewat, Esq., Provincial Constable, Princeton, B. C. Sir: With regard to your enquiry re free miners being allowed to kill game at any time of the year in an organized district I geg to inform you that the Game Act distinctly limits their privileges to unorganized districts.

"Should you happen to hear of any infringements of the Game Act by any free miner in an organized district I beg to instruct you to prosecute immediately and to continue to do so unless you hear from me to the contrary. I am, Sir, your obedient servant, A. Bryan Williams, J.P., Provincial Game and Forest Warden."

The Similkameen Star.

J. M. Wright.

SUBSCRIPTION RATE: One Year, Payable in Advance. \$2.00

NOTES AND COMMENTS.

Dominion Day is rapidly drawing nigh and as this is the day Princeton celebrates every citizen should do something to make the occasion successful and worthy of the town.

The Star's advocacy of the University and Mining School being located in Princeton has evoked considerable knocking from some of the 'know-it-alls.'

Gipsy Smith, the evangelist, has been preaching to immense audiences in Toronto, filling and running over the largest auditorium in the city with an eager, gospel hungry crowd.

ignores conversion should be burnt, and preaching without conversion in it is a useless thing. Smith was in deadly earnest and preached the whole gospel, no matter who got hurt.

In this age of free education and special schools for preparing people for all sorts of occupations, it is certainly queer that the most important business of all is so thoroughly neglected.

Water power is the cheapest of all motive powers for manufacturing or generating purposes and this district has an unlimited supply.

Certificate of Improvements.

Brooklyn, Lela and Key West mineral claims, situated in the Similkameen mining division of Yale district. Where located: Kennedy Mountain.

PRINCETON EN FETE.

From 1st Page.

Tyler, C. O. French.

At the close of the ceremony of institution the brethren sat down to a splendid repast at the Hotel Tulameen, after which the usual toasts pertaining to the fourth degree were honored.

BOARD OF TRADE.

From 1st page.

Board, concluding as follows: 'I will, however, keep this matter in mind, and just so soon as the land business in your section increases I will take the matter up again.'

From the Monetary Times, asking for information re financial conditions, outlook of mining, crops, building, labor supply and demand and what debentures are likely to be issued, also requesting names of officers of the Board.

From L. G. Barron, Walla-Walla, Wash., asking for writup of Princeton and district for himself and others who intend coming here when the railway is operating.

From R. L. Broadbent, Seattle, A.Y.P. Exposition, re ore display, saying: 'Canada would be second to none.'

From M. Burrell M.P., stating that the amount necessary for establishing the Princeton telephone exchange had been passed.

From Chas. Train, Red Deer, Alta., asking for information re opening a merchant tailor business in Princeton.

W. C. Brown was proposed and received as member of the Board.

Report of committee re ore exhibit stated that four boxes of samples had been shipped to the A.Y.P. and that a fine specimen was expected from Bonhiver & Pouwels as soon as the trail was in condition.

In the discussion regarding more booklets about the district it was pointed out that in other places the people generally subscribed toward the expense, as in Penticton, where \$250 was handed over to the Board for expenditure in advertising the town.

Board adjourned.

See Celebration ad. next week.

Two days' sports? Of course.

RUMBLE OF THE RAILS.

From 1st Page.

shipment of material, including full equipment for tracklaying, arrived in Keremeos on Tuesday, together with 20 more men, including foremen for the tracking and bridge gangs and a force of carpenters to build boarding cars and put up false work for the first bridge, which is scheduled to be completed by July 1. * * It is figured that the road can now be completed to Princeton by October 15.'

TOWN AND DISTRICT.

A. Megraw, of the Hedley Gazette, was in town last week, on Masonic business. He paid a friendly call to his brother slave and was quite reminiscent. The 'Major' is looking more comfortable and prosperous than for years, probably reflecting the facts that delinquents are doing the right thing and hard times a thing of the buried past in rich Camp Hedley.

H. V. O. Chatterton, representing Rithet & Co., was in town last week. He is the same evergenial.

W. Wilson arrived from the coast last week.

Tennis season is fully on and some fine play may be seen on club days. Increased membership invited, the fees being: Ladies, \$3; gentlemen \$5.

Trap shooting cup presented by L. W. Shatford, M.P.P., is for competition between Hedley, Keremeos and Princeton on celebration days. 'Git yer gun.'

What about a monster procession of societies, tradesmen, tillicums and citizens generally on Dominion Day? A clown or two and some character performers would make fun for all.

Podunk Davis reports 7 feet of snow in Hope mountains and lots of it on the creeks. He thinks that there may be very high water yet.

W. Britton went to Seattle last week as witness in a legal case.

Mrs. Semerad is recovering nicely from a painful burn on her hand.

Ladies Aid meets at Mrs. Pyman's on Thursday at 3 p m.

Mr. and Mrs. McRae and Mr. and Mrs. McDonald arrived yesterday from Hedley.

J. B. Woods has built a cosy cottage on Endcliffe Av. Next, congratulations.

PRINCETON LODGE I.O.O.F. No. 52. Regular meetings, 8 p m., Thursdays. Sojourning brethren welcome. Hall situated in Thomas Block, "Oddfellows Hall."

J. L. HUSTON, Noble Grand. H. COWAN, Secretary.

THE PHILOSOPHY OF LIFE.

Envy is almost the only vice that is practical at all times and in every place, the only passion that can never lie quiet for want of irritation: its effects, therefore, are everywhere discoverable, and its attempts always to be dreaded.—Dr. Johnston.

It is easy to run a business or anything else on jawbone, but there comes a day when the creditor must be paid and then friendship ceases. Pay as you go, thus avoiding strained relations and preserving independence.

You find yourself refreshed by the presence of cheerful people; why not make an earnest effort to confer that pleasure on others. Refrain from saying 'cutting' or gloomy things and the result will be pleasure and happiness.

Give us, O give us the man or woman who sings at work.

Remember that Saul was the biggest knocker recorded in scripture and he was so disgusted with himself that he committed suicide. Boost those who are earnestly trying. Boost, and be happy.

COPPER HANDBOOK

(New Edition issued March, 1908.) SIZE: Octavo. PAGES: 1228. CHAPTERS: 25. SCOPE: The copper industry of the world.

COVERING: Copper history, geology, geography, chemistry, mineralogy, mining, milling, leaching, smelting, refining, brands, grades, impurities, alloys, uses, substitutes, terminology, deposits by districts, states, countries and continents, mines in detail, statistics of production, consumption, imports, exports, finances, dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The miner needs the book for the facts it gives him regarding geology, mining, copper deposits and copper mines.

The metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

The copper consumer needs the book for every chapter it contains. It tells what, and explains how and why.

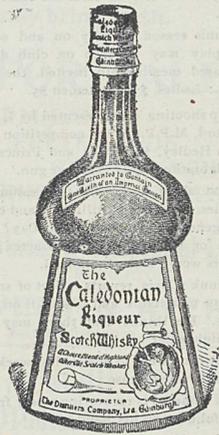

The investor in copper shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

PRICE: \$5 in book form with gilt top, or \$7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?
