No choked or dirty stovepipes from Princeton coal

SIMILKAMEEN

STAR

Sin causes disease, therefore the same remedy applies to both.

With the completion of the railway, now building, to Vancouver there will be a demand for country homes in the salubrious Similkameen; this is a pointer to remember—Portland Cement works on large scale already plann d; smelter and coke ovens in near future.

Vol. XI. No. 27. PRINCETON, B. C., WEDNESDAY, JUNE 29, 1910. $2 a Year in Advance

RAILWAY RUMBLINGS

Largest Electric Railway Plan. in Canada to be Built near Chilliwack.

Vast Water Powers in Similkameen Running Waste—V.,V. & E. is Forging Ahead.

Work will soon be started on what will be the largest and most expensive power plant in Canada by the British Columbia Electric Railway Co in the Chilliwack district. The work will involve an expenditure of $10,000,000 and the plant will produce over 110,000 horse power of electrical energy. The site of the proposed plant is a 100-acre tract located a short distance northeast of the Popcum Indian reserve, and the sources of power to be tapped are Jones lake and Chilliwack lake. Engineers are now at work in the Jones lake district. The entire work will take two and a half years to construct.

Immense water powers are available in the Princeton district for all purposes. It is up to manufacturers and others to harness the rivers and streams here and save the millions of horse power now running waste.

J. H. Kennedy, construction engineer of the V.,V. & E., came up from Vancouver last Friday and is looking over the work in progress. Everything points to early completion of the line as far as contracted for. Though short of timber on the tunnel now this work will not delay the ultimate finishing of the road to Otter Flat. Later on the tunnel may concreted. Construction is going on in the vicinity of Sumas lake, but considerable porrions of that country are under water. Mr Kennedy thinks that construction will continne right along until the whole road is completed.

President Warren of the Kettle Valley railway has stated that work begins at once on the line and that Penticton will be a divisional point.

BASEBALL, DOMINION DAY.

The baseball tournament is, of course, the leading feature of the day, and with that becoming pride which every citizen takes in the Princeton team it is confidently expected that the $100 purse will be placed to their credit at the end of the series. Pitcher Farrell is in the pink of condition and Catcher Clute never lets anything withih reach pass his mitt. Johnny Campbell is not expected to be present and his loss, though serious, is not altogether irreparable. All the members will give a creditable account of themselves and if no professionals are 'wrung in' on them by the visitors there is no doubt about the 'mon.'

BROTHERS MEET AFTER LONG PARTING.

D. S. Wilson of Los Angeles, Cal., brother of William and Maxwell Wilson, arrived on last week's Nicola stage. This is the first time the three brothers have been together in twenty-two years. The Wilson brothers hail from the far famed county of Bruce, Ont., where their father, who was one of its pioneers, still resides. Mr. Wilson has been visiting friends on the coast and in the Fraser vylley. He much prefers the upper country with its dry climate and unlimited resources, and predicts a prosperous future for Princeton. He will return here with his family after a visit to the prairie provinces.

THE DAY WE CELEBRATE.

Big Crowds Coming from District and 'Uncle Sam' Also.

The Dominion Day celebration committees are working like beavers and the general results are most gratifying and encouraging.

They are coming! Wives, sweethearts and tillicums. From end to end of the Jimhilkameen valley they are coming to smoke the pipe of peace and jubilate generally, also see the 'elephant.'

It is a good idea to begin the cclebration early in the morning and to do this a loud salvo should be fired at 5 o'clock a m. This is the official announcement for everyone to get ready, also it answers as a salute to the national flag, without which a country's birthday is tame.

The cleaning of the streets is a good move and when the sidewalks are completed no finer thoroughfares can be found.

Decorations are essential and every private and public building should receive some attention along this line.

Secretary Carmichael is doing herculean service in promoting and arranging the day's doings.

The races are expected to attract some swift steeds and good sport is anticipated among horsemen.

The ball will be a fitting climax to the day's sport. 'Ladies bow; gents bow-wow; swing 'em as hard as ye can!'

On behalf of Publicity Committee Star thanks the Hedley Gazette and the Oroville Gazette for their boostful references to our celebration. Brethren, your compliments are fully appreciated.

The excursion train will arrive at one o'clock and will be held over until the evening, the time of departure being yet unfixed by railway officials.

When a bachelor rents a family house and furnishes it, what is the inference?

LOCAL AND GENERAL

Need of Convenient Court Sittings—Improving Roads Makes Good.

Crops Promise Abundant Yield and 'Hodge' is Happy—Stock Lakes With Fish.

Hear 'em Sing—The cool and balmy days are grand, and now with tireless skill, the 'skeeto levies tribute and, presents his bloody bill.

Gordon Murdock has finished the road along the Tulameen river as far as the proposed waterworks of the V.F.M. Co. This road will, no doubt, be extended to the ranchers beyond, affording not only a very pleasant river drive but a convenient means of traffic.

The regnlar meeting of the board of trade will be held next Monday evening at 8.

A fire was discovered in Welldo on Sunday last which, though not endangering the principal building there, threatened to destroy valuable timber. Warden Coulthard has gone to the scene and upon investigation will have the lawbreakers punished. An outbreak of fire during the dry season is a heavy expense on the government to control, besides the great loss of timber and the danger to life and homes. An example should be made of offenders.

The road improvements going on under supervision of G. Murdock and H. Thomas are well advanced and ereditable to the government and all concerned. With all the road construction in this vicinity and consequent employment of a large number of men, and no election in sight, Mr. Shatford, M.P.P., shows a real desire to forward the interests of his constituents.

The latesi subscription to the hospital fund was received too late to be put under the regular head and is from W. C. McDougall, $15.

Billy Knight came down from Whipsaw camp yesterday, it being his first holiday since last New Year. The tunnel on the Lucky Pair is now driven about 200 feet. It is hard going, but the indications are favorable for striking the lead anywhere in the next 25 or 30 feet. Knight & Day are undaunted in their labors, and no doubt their foudest hopes will soon be realized.

Miss Hill has opened millinery and dressmaking parlors on the second flat of the Howse Co's block, Bridge street, where she may be professionally consulted. Coming from such centers of fashion as Paris and London Miss Hill is a modiste of exceptional qualifications, which the ladies of Princeton and district are sure to appreciate.

Dr. Blair, of Spokane, Wash., was in town Thursday, and was pleased with the evidences of progress. He is largely interested in mining here.

Groffman & Rose have concluded the sale of the Piggott ranch on One-Mile to Dr. Robert McCaffery of Chilliwack. The same firm recently sold also Lot 5, Block 22, Princeton townsite.

POLICE PROTECTION WANTED.

A fight on the Bank of Commerce corner yesterday drew a crowd of eager onlookers. The mill, while it lasted, was fast and furious, and but for the timely intervention of Magistrate Waterman the garments of the combatants would not be sufficient to make a shroud for a dead crow. If men must fight why not choose some place where ladies and children cannot observe it? There is no proper police protection in Princeton and respectable citizens are tired of asking 'Who is responsible?'

FIAT JUSTITIA.

The necessity for quarterly sittings of the county court and the expense in attending the assizes at Kamloops are matters of grievance which should be remedied as soon as possible. The Similkameen district is important enough now to have more convenient and less expensive justice dispensed. Moreover, many people suffer wrong and injustice knowing the tardiness and expense in reaching the proper court. Could the board of trade do anything to solve the difficulty?

COAL IS GOOD FOR RAILWAY.

One important reason why Princeton coal will be generally used on railways and especially on passenger trains is owing to its clean and almost smokeless qualities. Riding behind a locomotive consuming dirty coal a passenger soon becomes grimy and takes on the complexion of a stoker in hades. This filthy and unhealthy condition can be obviated by burning Princeton coal, high in thermal qualities, low in refuse.

PROMOTED AND REMEMBERED.

Constable Hewat and family left on Saturday last for Fairview where they will in future reside, owing to his appointment as mining recorder and deputy assessor for that district, duties to begin from 1st July. Mr. Hewat has been constable here for five years, during which time he has been prominent in church work and a respected citizen, this being recognized by the presentation of a case of solid silver knives and forks by friends here. The good wishes of the community follow Mr. and Mrs. Hewat and children to their new home in the peach belt.

DOMINION DAY.

Friday next, July 1st, is the day we celebrate. By tacit consent of sister towns throughout the Similkameen Dominion Day is conceded to Princeton as a sort of birthright, the custom being to unite with it in loyal celebration of the day. This year the railroad, lacking in former years, affords easy access for all in the southeastern parts of the valley and also our good neighbors in the state of Washington. All things considered, there is every indication of a most successful celebration. It will be a pleasure, no doubt, for every citizen to constitute himself or herself a committee of one to welcome visitors and in every possible way help the various committees and celebration officials in the discharge of their onerous duties.

When the first Dominion Day was celebrated in Canada forty-two years ago, there was a population of little over three millions of people and the increase for many years was trifling, the young men and thousands of families being attracted to the United States by the wonderful expansion and development of the states west of the Mississippi river. Now, the tide of immigration is rolling back into our last and best west and what was a few years ago a great lone land is now alive with the greatest trek of humanity ever known. The census to be taken next year is expected to reach seven and a half millions, which, at the present rate of increase may easily reach fifteen millions of people in the next ten years. If the ratio of increase be maintained for another twenty-five years there will be a population of fifty millions, which, owing to climatic conditions, will be the hardiest and brainiest of races.

The Dominion opens its gates to all nations and peoples, giving to all desirable immigrants a free homestead and the rights of citizenship in the best governed and freeest country in the world. Not yet more than one per cent. of the available wheat lands under cultivation and a vast unknown hinterland stretching out into Arctic seas to the very pole itself, give one a faint idea of the room for innumerable millions yet to come and make homes in this western Canaan. The problem of assimilating and Canadianizing the white and swarthy foreign races which come to the great west has already been solved. Canadian ideals of education, progress, government, socialism, civil and religious liberty have leavened the whole lump and a new nation is about to take its place among the others of earth.

And while every Canadian is proud of his national birthday he nevertheless looks forward to that greater day when the present system of disjointed empire will give place to one solid and united Anglo-Saxondom, with one imperial or central government, welding the whole into a grand, world embracing confederation. Our American cousins are included in this proposition, thus solving the question of universal peace and possibly of universal free trade. In working out this destiny the colonies must each do their part without hampering suggestions from any source and if they want a homemade navy it is their business, since they pay for it. It remains for some broad-minded Beaconsfield, Lincoln, Laurier, Roosevelt or the late Goldwin Smith to work out this great problem of the unification of the now scattered Anglo-Saxon race.

Every loyal son and daughter of the Empire as well as intelligent alien citizens within our borders will join in due observance of Dominion Day and an earnest 'God Save the King.'

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the 'Water Act, 1909,' to obtain a license in the Similkameen water division of Yale district.

A. The name, address and occupation of the applicant: John C. Budd, of Princeton, in the District of Yale, rancher.

B. The name of the lake, stream, or source is a lake situated on the applicant's lands. Lot 967s.

C. The point of diversion, at the edge of said lake.

D. The quantity of water applied for (in cubic feet per second) four.

E. The character of the proposed works: Ditches, pipes, syphon and pumps.

F. The premises on which the water is to be used (describe same) the applicant's preemption, Record No. 3167, surveyed as Lot 967s.

G. The purposes for which the water is to be used, irrigation.

H. If for irrigation describe the land intended to be irrigated, giving acreage: Lot 967s, containing 320 acres.

I. Area of Crown land intended to be occupied by the proposed works: Not any.

J. This notice was posted on the 9th day of June 1910, and application will be made to the Commissioner on the 28th of July, 1910.

K. Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet, None.

(Signature.) JOHN C. BUDD.
(P.O. Address) Princeton, B.C.

TENDERS WANTED.

Tenders will be received by the undersigned up to noon of the 30th inst. for the erection of a hospital building.

Plans and specifications can be obtained from the Treasurer, Chas. Graham.

Lowest or any tender not necessarily accepted.

A. J. MARLOW,
Secretary.

Princeton, June 8, 1910.

NOTICE.

Take notice that I, T. Warren, of Evanston, Ill., intend to apply for a licence to prospect for coal and petroleum under the following described lands:

Commencing at a post planted at the S.W corner of lot 364 and marked T. Warren's N. E. corner, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains to point of commencement.

GENERAL NEWS.

Bert Irwin returned yesterday from the Boundary and reports many inquiries about Princeton and district. He says a large contingent from Oroville is coming to the celebration.

Regarding the stocking of some of the lakes in this section with game fish it is interesting to know that near Summerland, in the Okanagan, young brook trout in thousands have been deposited there and a consignment of rainbow trout will shortly be added. The two eastern fish adapted to our lakes are Lake Superior whitefish and brook trout; bass are said to be dangerous.

Dell Young has graded his Kenley Av property and it is now ready to be built upon.

Mr. and Mrs. R. Hewat beg to thank the friends who so kindly remembered them on their departure from Princeton by the handsome presentation, which they will ever treasure.

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the 'Water Act, 1909,' to obtain a license in the Yale Division of Yale District.

A. The name of company in full: The Tulameen Power Company, Limited. The head office, 1006 Government St., Victoria, B.C. The capital, how divided thowing amount paid up: $10,000, divided into 200 shares of $50 each, of which $4000 is paid up.

B. The name of the lake, stream or source, South Fork of the Tulameen river.

C. The point of diversion, a short distance above the head of the falls and about a mile from the mouth of the said South Fork.

D. The quantity of water applied for thirty cubic feet per second.

E. The character of the proposed works: Dams, flumes, pipes, penstocks and necessary power stations.

F. The premises on which the water is to be used: Land immediately surrounding the falls on South Fork of Tulameen river.

G. The purposes for which the water is to be used: Power purposes.

I. If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return: Below falls at a point about 100 feet lower than point of diversion.

J. Area of crown land intended to be occupied by the proposed works, 160 acres.

K. This notice was posted on the 6th day of June, 1910, and application will be made to the Commissioner thirty days after said date.

L. Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet. None.

NOTICE

Take notice that I, Margaret Anne Johnston, of Vancouver, B.C., occupation broker's wife, intend to apply for permission to purchase the following described lands:

Commencing at a post planted at the SE corner of lot 104 on the west bank of Otter Lake, Yale division of Yale district, thence running south about 70 chains more or less to the north bank of the Tulameen river, thence running west along the river bank 40 chains, thence running north about 70 chains more or less to the southern boundary of lot 104, thence running east along this line 40 chains to the point of commencement, containing about 280 acres

MARGARET ANNE JOHNSTON,
By her agent, G. L. Fraser.

Located May 2nd, 1910.

NOTICE.

Notice is hereby given that, 30 days after date, I intend to apply to the Department of Lands, Victoria, B.C., for a license to prospect for coal on the following described lands:

Commencing at a post planted 35 chains south of the N.E. corner of Lot 257, Yale Division of Yale District, thence south 35 chains, more or less, to the Tulameen river, thence following said river south 35 chains, more or less, to the N.E. corner of coal license 3444, thence west to the east boundary of coal license 3442, thence north along the east boundaries of coal licenses 3442 and 3438 80 chains, thence east 20 chains more or less to the point of commencement.

PERCY H. ROBERTS.
A. C. Gahan, Agent.

April 11, 1910.

NOTICE.

Take nctice that I intend to apply to the Commissioner of Lands for permission to purchase second class land in Kamloops division, Yale district, described as follows.

Commencing at the N.W. corner of lot 1514, thence east 80 chains, north 20 chains to lot 1523, west 80 chains, south 20 chains to point of commencement, containing 160 acres more or less.

HARRY J. GIBSON.

April 18th, 1910.

NOTICE.
