Industries and the payroll are needed: Splendid openings here

BIG MINING CONCERNS WISTFULLY LOOK THIS WAY

Fred Keffer, consulting engineer and geologist for the B. C. Copper Co., was in town recently and visited Copper and Kennedy mountains.

Reports, more or less mysterious and secret, have been going around to the effect that two large mining and smelting companies would operate in Princeton district and that already their agents and experts had been here for the purpose of acquiring mineral properties. It is well known that the Consolidated Mining & Smelting Co. with smelter at Trail, have mining claims here. This compauy is controlled by C P.R. stockholders wtth head office in Toronto and capitalized at $7 500,000. The Amalgamated Copper Co. of Montana. head office, New York, capital $155,000,000, although not a mining concern, it examines and buys, sent an expert and agent here recently. This company is controlled by Great Northern stockholders. There is room for all in this section and a welcome awaits any mining company that means business.

W. A. Clark says: The copper situation is no worse than the condition prevails in other like industries. All securities have gone down a little in the past week or two, probably caused by the unrest which seemed to prevail in many different parts of the world al present. The last report of the Copper Producersj Association, showing an increase of 18,000,000 pounds over comsupmtion laet month, throws something of a damper on the situation, although there is really no occasion for this Copper reserves amount to 200,000-000 pounds only a six weeks' supply for the entire world. If the increase in production over consumption should be maintained at the rate of last month, it would take two years to affect the copper market seriously.

The deal for Voigt camp mineral properties, numbering some sixty claims, still lacks consummation It is reported that some modifications in the original deal are in progress. A total disbursement of a half million dollars for Voigt camp, Copper and Kennedy mountain mineral properties, together with smelter and development costs, will be made. There is no longer any doubt as to the general intentions of the B.C. Copper Co. They are here for permanent business and will be an important factor in the mining industry of this district.

A. B. W. Hodges, formerly manager for the Granby at Grand Forks, and more recently engaged in Peru, S. A., for a mining company at a yearly salary of $50,000, will locate in Vancouver as a consulting engineer. Mr. Hodges will be of much service as an expert in the province.

Copper is firm and steady in the metal markets and is quoted 14:15 to 14:75. Silver, 56 ⅞. Lead £15, 1s7., 6d.

TRAPPERS RETURN.

Gordon Bros., trappers. finished for the season and came down from Roche river on Monday. The snow was about six ft. deep near the head of Cambie creek, on Dec. 28, in Muddy pass at the falls at the same time of the year it measured about 5 feet, 8 inches. The catch of fur is under average but of good quality. They got a big black bear in his winter den something unusual. Coyote are as plentiful as any year previous. There is few congar as only a band of four were located Rabbits are plentiful but deer are thining out seemingly.

THE WIDE WORLD.

The U. S. government favors free sugar, free lumber and free farm products.

The blockade is raised in the house of commons at Ottawa and estimates amounting to $5,000,000 have been voted.

King of Greece assassinated by demented man while walking with a friend.

More than two million cubic yards of earth and rock are in motian along the Panama canal. In addition to the slides, which will involve additional work before the water is turned into the canal, there stili remains about four million yards of excavation before the work is completed. On or about Oct. 1, the water will be turned into the bed.

European powers demand peace between Turkey and Bulgaria.

The total productiou in the shipyards of Great Britain the past year, inc uding warships built in the royal dockyards, amounted to 2,108,230 tons. About one fourth of the total were for foreign and colonial owners.

Archdeacon Pentreath died on Wednesday at Pose Robles, Cal.

KETTLE VALLEY LINE TO PUSH ON TO THE COAST

Twohy Bros., contractors, will employ a large force of men on the K. V., beginning construction with vigor as soon as the sprlng opens. Fourteen cars of steel rails have been received at the end of the track at Coldwater.

J, H. Kennedy, construction engineer of the V. V. & E., was in town Monday on his way to Coalmont and Tulameen. He said the company would continue to build on the old location line without regard to any other competing road.

E. E. Coley is locating the K. V. from Smelter lake to Princeton.

The new stations at Rock Creek, Westbridge, Beaveredell and Carmi on the Kettle Valley line have been completed, while the steel is now laid a short dis- west of Carmi. From this point to the hydraulic summit, 76 miles from Midway the grading which is being done by the contracting firm of L. M. Rice & Co. is 77 per cent completed. Between that point and Penticton, 58 miles futher west, Grant Smith & Co.'s 77 per cent sub-contractors, have over 1600 men at work, and the grading is over 25 per cent completed.

On the Hope mountain section Twohy brothers have the contract for 13 miles. So far no contaacts have been let for the section between Osprey lake and Princeton as it appears hard to make a decision among the different routes that can be used. It is said the route which will take the road by the way of Aspen Grove has been abandoned for the located line via Princeton.

Chief Engineer McCulloch states that in all probability it will be 18 months before the road is completed.

From Penticton to Trout Creek the steel has been laid for some time, and ballasting is almost finished. The trestles approching the Trout Creek bridge on either side have been completed, and everything in now in readiness for the steel work and span. A represeutative of an eastern foundry firm is now on the ground arranging for the assembling of the material. It is expected that this bridge will be completed by the end of Jnne and then tracklaying will be proceeded with as far as Osprey lake, as the grading on this section is now 90 per cent completed.

K. G. Hankinson expects to take a contract on the V. V. & E. Mr. Hankinson was formerly a contractor on the grade below Princeton.

Seven thousand laborers will be employed on the uncompleted gap of the G. T. P. this summer.

LOCAL AND GENERAL.

J. C. Wilson, of the P. Burns Co., Limited, was in town Monday coming from the Okanogan district. Farmers are get ting ready for spring ploughing and seeding in that section and the season is early and favorable.

Chas. E. Mink, agent for the Canada Explosives Co. and the Dominion Cartridge Co., was in town Saturday. Mr. Mink is a champion shot and gives exhibitions of plain and fancy shooting which are very interesting to gunmen.

G. H. Whiteman, of the Princeton Coal and Land Co., returned from the coast aud Boundary points this week.

H O. Johnson of Nighthawk has been in Princeton looking over the building situation expecting to get some lathing contracts as he did last year.

W. R. Just, painter, has been in town for some time engaged in his calling and may locate here permanetly.

Constable Rogers is still in the hospital, improving. Const. Sproule of Hedley is relieving.

The Great Northern train service is changed to arrive at 11:30 a.m. departing for Coalmont at 11:45. It leaves for Oroville ai 1:30 p.m.

The Knights of Pythias ball on Monday, March 24 is going to be a hummer.

Born—On Saturday, 15th inst., the wife of E. Barr Hall of a daughter.

Born—On Friday 14th inst., the wife of L. Youug of a daughter.

F. P. Cook has sailed from England and is expected to arrive home any day.

Next Monday evening is going to be the best ever and a good turnout is certain—the Knights of Pythias ball, that is all.

F. E. Chitty, spent Wednesday and Thursday at the hospital.

The moving picture show will exhibit in future all week day nights a change of program being given three times weekly. An usually good selection of pictures ir now shown and large audiences are the rule.

Ben Baker went to Spokane last week to have his molars atteuded to and will spend some time visiting among old acquaintances.

Born.—On the 19th inst., the wife of S. R. Gibson of a son.

The Ladies Hospital Auxiliary will entertain and interest you on the occasion of their April Fool party in the courthouse on Tuesday, April 1st. Go and help a good cause.

Today is Good Friday and a statutory holiday.

School closed for Easter holidays yesterday and will not reopen again until Monday March 31.

John E. Pascoe has opened a bakery and confectionery business in the Thomas block.

KETTLE VALLEY RAILWAY.

Fred Demuth, superintendent of the Kettle Valley railway, arrived in Rossland recently from Grand Forks and stated to the Miner that good progress was being made with the construction of the extension of the Kettle Valley railway westward toward the coast. Three thousand men are engaged on construction work. Steel is now laid from Midway to Carmi, a distance of 50 miles. Track is now peing put down from Carmi to Penticton, a distance of 90 miles, and it is expected that tae connections between these two places will be completed some time this year. Forty miles of grading is completsd from Penticton west. Seven miles of steel has been laid from Penticton west, and this will be continued soon the 250 foot steel bridge is finished across Trout creek. Mr. Demuth says that they are waiting for the steel to arrive and it will not be long afterwards before the bridge will be completed. A contract was recently let for a section of the road from Coldwater summit down the west slope along the Coquihalla river. It will be seen from the above that work on the extension of the Kettle Valley railway will make considerable progress towards the coast during the year 1913.

PRINTERS HIGH COST.

The printing business has fallen prey to the high cost troubles and is being hit hard by the raise in prices of everything used Type that cost 48 cents a pound three months ago is today selling for 60 cents a pound; inks have advanced 15 per cent; envelopes 20 per cent; papers of all kinds 15 per cent

THE WIDE WORLD.

From Page 1.

ture of about forty-one million dollars, has been undertaken by the three Canadian railroad systems, according to the programs of construction announced. This will establish a new record, the total for 1912 being new mileage 1,875, and expenditures thirty million dollars. A major part of the new mileage will be in the prairie provinces, although a larger proportion of the expenditures, will be on the expensive main line extensions which the Canadian Northern and Grand Trunk Pacific are making through the the mountains.

Sir Charles Tupper, now in his 92nd year will leave Vanconver in May, where he has been staying with his son, and go to England to reside with his daughter.

Ducan S. Lothian a well known pioneer lumberman of B. C., is dead at Vancouver. He was a native of Glengarry, a county that has given birth to more pioneers, of the west probably, than any other in Canada.

C L Gordon, news editor of the Province newsepaper has been appointed moving picture censor and will pass on all films and inspect buildings for shows and report on their safety.

Deadlock on Canadian naval policy continues in house of commons, Ottawa Two weeks have been already occupied on discussing, and no sign of weariness of either party.

The Balkan Turkish war continues with reports of hideous massacres and pitched battles Turkey has decided to continue the war to the bitter end.

Chiropractic--Neuropath

is a modern scientific Drugless and Knifeless System by which the hands have as much to do as the mind.

It does not include Hypnotism, Swedish movements, Osteopathy, Massage, Electricity or Bath Ovens, but is strictly a scientific uptodate method of restoring the diseased body to a normal state. All we ask, is a chance to demonstrate to you our wonderful method, and if we accept your case, you can feel assured results will follow.

We do not treat symptoms but apply ourselves strictly to the cause of the disorder. A Chiropractor-Neuropath has marvelous results in all acute disorders, such as Headaches Facial Neuralgia, Intercostal Neuralgia, Lumbago, Sciatica Rheumatism and Myalgia

We also treat Stomach Liver. Kidney and Bladder disorders.

CAMP McKINNEY BONDED.

J. W. Osborn, J. J. Moak and other Spokane men have taken a bond on the Waterloo and Fotenoy group of claims at Camp McKinney, B C., for the consideration of $50,000 form C. K. Merriam ann P. C. Shine. The Waterloo under the management of Dennis Clark produced about $40,000 in gold. The mine has been idle for years, however, it was discovered that the vein dipped into the Fontenoy property. The mines are equipped with a 10 stamp mill and adequate hoisting machinery, costing about $16,000 which are driven by water power. A three mile flume has recently been constructed. There are about 500 tons of ore on the dump ready for treatment. A large number of men will be employed so as to push the development as rapidly as possible.

By a large majority in both chambers, the Victorian Parliament of Australia has decided in favor of the electrification of the metropolitan railway system of Melbourne, and steps have already been taken for the acceptance of tenders for the plant and material, the supply of which will take up the greater part of 1913 and will cost at least three hundred thousand pounds.

SPECIALS.

SITUATION AS COOK WANTED—Apply Mrs. B. Kirk, cook, Straitor, B. C

FOR SALE—A reading or music lamp, adjustable. Price, $1.50. Apply Star office.

AUCTION SALE—will be held in the Howse block on Saturday, March 29, when the bedroom furnishings, &c., owned by Mrs. Nelson will be sold at 2:30 p.m. by H. H. Avery, jr., Auctioneer.

FOR SALE.—Tulameen property. Two lots with 100 feet frontage on Otter Avenue, almost opposite Britton's new block, $250 each, cash. Apply Star office; Princeton, B. C.

A PARISIAN NOVELTY.—In Europe it is used this year as a little Easter present or rather a mark of courtesy to friends and relatives Its value as a token lies more in the novel idea than in the price of the article. It is arranged so that it can ce sent jnst like a postcard, for one cent or two, to any place in Canada or the United States. The endearing idea about it, is the embedded Luminous Cross, which will shine all night long (or in any dark room) in a Glorious, Mystic Blue Light, after you expose it to daylight for a few minutes. The price is so low that anyone is enabled to be convinced of its real nature. It is indeed an article which is held in high esteem by any Christian family or person. The shining Cross is made of a stone, which is found only near Jerusalem and of which already the Bible speaks as the Luminous Stone in picturing Solomon's temple. Prices are: 15 cents each, 2 for 25c, 5 for 50c and 12 for $1.00. A. Netkow, 832 Younge St., Toronto, Ont. Sole Agt. for Canada and U. S.

BREAD—Good homemade bread supplied at J. Knudsons, Tapton avenue. Try it and be convinced.

PUBLIC ROADS.

Compared with new countries and even some old ones British Columbia stands in a very favorable light regarding its public roads. A governmental policy that builds roads for development and intercommunication purposes cannot fail of approval by all who make even a pretense toward progress. In the Similkameen district there has been appropriated the magnificent sum of $375,000 for public works and contingencies, probably 75 per cent of which will be expended on roads, streets and bridges. There may be some who are slow to perceive the necessity for roads which do not pass their own particular doors or camp and it is this class who are drags on the desired unanimity necessary for carrying out any public project. A superintendent of roads will scarcely reject a proposition of real merit if united opinion prevails but once loud mouthed dissension takes bitter root he is apt to dismiss the question, saying, 'those people do not know what they want.' The transprovincial trunk road, the Onemile road and other through roads have been delayed by arbitrary and selfish rivalry of opposing sections. As the time approaches for the road superintendent to allocate the season's appropriations for construction it would be wisdom for all concerned to assist and encourage him in his task. An early start is desired and the completion of roads to certain mining camps is very necessary.

The transprovincial road will be pushed on from both Hope and Princeton ends. The completion of this link in the great national highway will not only encourage and promote a lucrative tourist traffic but it will afford mining camps west of Princeton the transportation they have been hoping for. The benefits to be derived from this road are vast. In its crossing of Hope mountains one of the most picturesque regions in the world is observed ; the fishing grounds and game resorts being among the best in B.C. The Onemile road now completed by Mr. Shatford to the boundaries of his constituency is awaiting the somewhat tardy finishing strokes of Mr. Lucas through his electoral district. This road will give the choice of divergent routes to common points in Nicola, Okanagan and the Kootenay districts. As directness is the first consideration to be given a through trunk road no reasonable objection can be offered if it does not meander through the various glens draws and streets tributary to the direct route. Let no action or word interfere with those in authority, who are charged with the express duty of expending public money for the general good and welfare of the people as a whole and not for the special benefit of a select few or section.

NOTES AND COMMENTS.

With every nation in Europe arming and the hellhounds of war already yelping and tearing each other into pieces there is small prospect of that universal peace the peacelovers desired. However the very madness of the destructive war parties may cause a revulsion of public opinion and be the means of choking off the thirsty gore hunters. When these regain their mental balance and the scared public quit 'seeing things' in the air business will be relieved of that panicky, nervous state which now characterizes it. Here, in the Similkameen, 'far from the madding crowd,' comment is often heard on the 'tightness of money' and attributing it to the Balkan war. The war is made the scapegoat for a lot of delinquencies and some welcome it as a handy excuse for nonpayment of bills. End the war and all warlike preparations and there will be money in abundance for legitimate and reproductive industries.

Citizens of Vancouver are eminently practical ; they are also loyal to their city in a business and commercial sense. The other day, by an overwhelming majority, a bylaw was carried ratifying the city's agreement with the Canadian Northern ceding certain rights to the False Creek tide flats for railway terminal purposes. The arguments against the railway company were somewhat ludicrous. For instance: It was urged by some who had an 'eye' for the aesthetic rather than the useful that it would injure that portion of the city to allow the hum and smoke of railroad traffic to disturb the residents adjoining. Others thought the ground should be retained for a park or for sports. The voters in the proportion of about two to one emphatically decided for the railway terminal and the payroll along with a large expenditure of millions of money. Common sense again prevailed in Vancouver and the city receives a big boost forward.

B.C. Portland Cement Co.
East Princeton, B. C.

B.C. Portland Cement Co. now constructing large plant for manufacture of Cement ; first unit of 500 barrels per day capacity will be in operation within a few months

Townsite is prettily situated and will afford homes for a large number of residents when cement making, coal mining and allied industries are in full operation

The natural growth of the district and progress of the country alone will make an investment in East Princeton profitable. No better time than now to buy

Thiessen; an installment of "A Canoe Trip 1854, and other articles of Outdoor life both East and West The issue is attractively illustrated and should be read by all sportsmen and lovers of outdoor life.

SMILES.

"Casey," said Pat, how do yez tell th' age of a tu u rkey?"

"Oi can always tell by the teeth," said Casey.

"By the teeth!" exclaimed Pat. "But a tu-u-rkey has no teeth."

"No," admitted Casey, "but Oi have."

A young sport, very loudly dressed, went into a cafe and ordered a veal cutlet. The waiter brought the order.

"Say," bawled the sport, in a loud voice, "do you call this a veal cutlet? Why it's an insult to a calf to call that a veal cutlet."

"Beg pardon," said the waiter, politely. "I didn't mean to insult you, sir."

The Learned Professor—You know, Mrs. Bloogs, it seems a shame to take your boy away from school at such an early age. I myself didn't finish my school education until I was nineteen.

PROVINCIAL ELECTIONS ACT

Notice is hereby given that the List of Voters for the Similkameen Elcctoral District has been cancelled and that applications to be placed on the Voters' List will be received at my office at Fairview where printed forms of affidavit to be used in support of an application to vote will be supplied.

The list of persons claiming to vote will be suspended from and after the 7th day of April, 1913, and a Court of Revision will be held on the 19th day of May, 1913, and notice of objections to the insertion of any name on the Register of Voters must be given to me 30 clear days before the holding of the Court of Revision.

Dated this 3rd day of March, 1913, at Fairview, B.C.

(Signed) JAS. R. BROWN
Registrar of Voters, Similkameen Electoral District.

NOTICE.

Notice is hereby given that thirty days after date I intend to apply to the Minister of Lands for a license to prospect for coal and petroleum on the following described lands situate in the Similkameen land division of Yale district: Commencing at a post planted at the northwest corner of lot 1041, being also the northeast corner of lot for coal license number 6568, thence east 80 chains, south 80 chains, west 80 chains, north 80 chains to point of commencement and containing 640 acres.

Dated March 5, 1913.

W. HOMER McLEAN, Locator.
H. D Russell, Agent.

NOTICE.

Argentine Fraction mineral claim, situate in the Similkameen mining division of Yale district. Where located: Voigt mountain.

Take notice that I, George W. Aldous, Free Miner's Certificate, No. 60892B, intend, sixty days from date hereof, to apply to the Mining Recorder for a certificate of improvements for the purpose of obtaining a crown grant of the above claim. And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 20th day of March, 1913.

NOTICE.

Yale land district, district of Yale.

Take notice that Alfred Thomas Collis of Rossland, B. C., occupation, printer, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the S.E. corner of Lot 281, thence north 60 chains, east 40 chains, south 60 chains, west 40 chains to point of commencement, containing 240 acres.

ALFRED THOMAS COLLIS.

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1. an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applitcant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-division of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicatcn must be accompanied by a fee of $5. which wtll be refnuded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five per cent per ton

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quanity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands

W. W. CORY
Deputy Minister of the Interior.

RE PURE SEEDS.

This is the season when farmers are securing their seed supply for the coming spring. The importance of using seed of high vitality and free from weed seeds cannot be too strongly emphasized. Very often in the past, farmers, through ignorance of the quality of the seed they were using or for some other reason, have sown weed seeds.

During the past few years the Dominion Seed Branch has been endeavoring to effect improvements in the seed trade by educational work with the farmers and seed dealers, supplemented by the enforcement of the Seed Control Act. This Act defines the Commercial grades of seeds. All timothy, red clover, alsike and alfalfa seed offered for sale by either wholesaler or retail merchant must be graded and marked Extra No. 1, No. 2, or No. 3, according to quality. Seed that will grade No. 3 cannot legally be sold except for export or for cleaning. This latter clause applies to farmers as well as seed dealers.

Farmers selling seed that is below grade No 3 to their neighbors, for seeding or to dealers on the understanding that it is to be retailed for seeding without recleaning, are liable to prosecution, and every effort will be made to apply the Act to farmers as strictly as to Seed Merchants.

Paper packets of vegetable and flower seed must be marked, showing the year in which they are filled, and farmers and others purchasing such seed should see that all packets are marked before purchasing.

Seed grain, and grass seed, as well as root and vegetable seeds, whether in sealed packets or in bulk, must be capable of germinating in the proportion of at least two thirds of the legal Standard for good seed of the kind. Seed that will not germinate in this proportion must be plainly marked showing the actual percentage of seeds capable of germinating. Farmers having, or purchasing seed, the vitality of which they have reasons to suspect, should have a germination test made of a sample of it.

Seed grain, flax, white clover, grasses and all other forage plant seeds must be free from noxious weed seeds, or be labelled showing the names of the noxious weed seeds present. The above are the outstanding features of the Seed Control Act of Canada, and, if persons purchasing seed insist on the observance of the above rules, they will not only obtain a seed of superior quality but will do much to ward off an investation of their farms by noxions weeds. All persons so wishing it may have their seeds tested free of cost at the Seed Laboratory, Calgary, Alta.

Our Second Great Clearance Sale

Will Begin On March 24th 1913 And Will Last Only Two Short Weeks Until Saturday April 5 Inclusive

Those who have attended our last Clearance Sale in August 1912 will welcome the present Sale as a ***Money Saving Opportunity*** not to be passed by. In fact a great many of our customers are eagerly awaiting this event now, for ***It Is*** an event a ***Big*** and ***Helpful Event*** for the people of Princeton and vicinity. ***It Means Dollars Into Their Pockets.*** At the same time it means a great deal to us. In the first place the eagerness with which this Sale is being looked forward to is ***Proof Positive*** that our patrons have confidence in what we say in our advertisements. ***They Know*** that a ***Reduction Sale*** in this store is always ***Bona Fide.***

But that is not all. It means Progress to us, for our aim is to advance, For weeks we have been striving to make this event a distinct and masterful triumph over our last Sale. But we know that we can accomplish nothing without your help. Watch for our Big Poster, read the prices carefully and decide for yourself whether it will pay you to help us make this Sale an ever bigger success than our last one. In our Big Poster we are quoting only a few hundred of the many exceptional Bargains surprises in store for you. Hundreds of more of similar offerings will stand out with diamond like brilliancy when you pay us a visit and examine the goods.

Of Course, Sale Prices Are Always Spot Cash, and we follow this rule closely also in this Sale.

Yours for better service
