

Coal is the main vertebra of Princeton.

SIMILKAMEEN

What one really is somehow or other will come out.

Land of sunshine and blue sky, land of a thousand hills and hoary peaks, land of the deer, bear, trout and wildfowl, land of beautiful scene and rippling streams, land of coal, iron, copper, gold, silver, lead, platinum, cement, fireclay, jasper and limestone, land of promise, Similkameen valley.

GRAND TRUNK ROAD

Route now Being Located over Hope Mountains for Wagon Road.

Last Connecting Link in Interprovincial Road—Routes of Great Scenic Grandeur.

L. W. Shatford, M.P.P., and Road Superintendent Turner arrived in town Friday on an official visit to Princeton district. There have been large expenditures on roads in this section and it was to satisfy a very natural desire of the member to see that all was going well that the trip was made. Needless to say he found everything highly satisfactory. The roads are in fine condition and with the improvements in progress, together with new roads under construction and in contemplation, there is no doubt about the wagon and trail transportation interests of this section being thoroughly and efficiently managed.

The interprovincial trunk road is an undertaking in which Mr. Shatford is very much interested. The last remaining link to be located in this 300-mile road lies between Princeton and Hope. In the selection of a route over Hope mountains such considerations as snowfall, grade, mining, agricultural and other interests to be served, have all to be carefully weighed and advisedly thought out. As now contemplated the road will be wide enough at the narrowest point to permit of wagons or autos passing. It will need to be as direct as possible to avoid the possibility of any expensive straightening afterwards and to evade the competition of a possible shorter route through Washington state. The road must be as nearly perfect as is possible in a mountainous country, the tributary or tap roads being adapted to the uses of mining camps principally.

The location of the trunk road is very likely to pass through the mountains at the lowest elevation. According to railway authorities the lowest pass is found along the old boundary trail thence down Silver Creek to the Fraser river. One feature of this route that must not be minimized is the remarkable scenic grandeur of the sierra mountain range, clad in everlasting white, with glacier fed streams and lakelets teeming with the toothsome trout.

The government has engaged E. Cleveland, C.E., who has had large experience in location of roads throughout the province, to report on the feasibility of the routes under consideration. He, in company with Luke Gibson, who has a thorough knowledge of the trails and mountains passes, arrived in Princeton

Sunday from Hope and is now engaged examining routes. The government will not be satisfied with anything short of the very best route to be obtained and Mr. Cleveland, with his acknowledged ability, will secure the very best route available.

SETTLERS FILLING UP FIVEMILE DISTRICT.

As a sure indication of the growth of Fivemile district a movement has begun looking toward the early establishment of a school house and postoffice there. One of those deeply interested in the movement, S. R. Gibson, has received a letter from the Department of Education asking for data, thus lending encouragement to the hope of settlers for obtaining one. There are some sixteen children of school age, enough to enlist the department's favorable consideration for a school building. A petition accompanied by the usual information will doubtless be sent to Ottawa for a postoffice. The filling up of Fivemile section with settlers and also along the line of the Kettle Valley railway is a fitting and all sufficient answer to the statement of the rabid Saturday Sunset during election time that this country was of little or no account. The Fivemile district is full of resources and must yet contain a large population.

TEN YEARS AGO.

[From Similkameen Star of 1900.]

A late report from Rossland states that Hewitt Bostock, M.P., has announced his intention of retiring from public life. [He is now senator with a salary of \$2500 yearly, for life.—ED.]

B. Stone Kennedy, late of the New Westminster Columbian, arrived on Wednesday, stage. He will be connected with the Star office, and expects to identify himself with Princeton's future history.—[He identified all right, and is now living on a princely income from the proceeds of real estate sales.—ED.]

Mrs. James has lately taken over the Granite Creek hotel and gave a supper and dance to celebrate the event. The music was supplied by Dan Coutenay and P. Prendergrast and was excellent.

LIKES THE COUNTRY.

L. B. Howard, land examiner for a syndicate of owners, returned from the Roche river country last week and is thoroughly pleased with the character of the land he inspected. He found large areas of good cultivable soil, other portions being suitable for grazing. He is pleased with all that he saw and will report accordingly. Mr. Howard is much impressed with the beauty of Princeton and the vast resources of the country tributary to it.

Louis Marcotte, of Granite, has very kindly subscribed \$15 to hospital fund.

LOCAL AND GENERAL

Osoyoos Coal Co. Developing Property with Big Coal Showing.

R.C. Sunday School Campaign—New Sanatorium for Consumptives is Opened.

The British Columbia Sunday School Association proposes to conduct a campaign of house-to-house visitation and give repeated Christian invitation to every man, woman and child, thus to win 10,000 more students into the Bible schools in the next three years.

A letter addressed to the literary editor of Star from the secretary of the University of Cambridge, England, inviting the attention of the public to the fact that the University has acquired the copyright of the Encyclopaedia Britannica, and is about to publish an entirely new edition of this well known work at the University Press, bringing it right up to date in its survey of human knowledge.

Messrs. Fowler & Nelson have finished the Avery block, which now presents a neat and businesslike appearance and is ready for occupation.

The Osoyoos Coal Co. has been doing some development work on their coal holdings at Ashnola and are pleased with the showings made a large seam being uncovered and made available for production. As soon as railway transportation is given this company will become one of the large shippers and add its quota to the general development and prosperity of the whole country.

Mrs. P. Swanson writes that she was enjoying London, England, having come down from Dundee to the capital for a short stay. Her hosts of friends in Princeton district will be pleased to hear of her enjoyable visit and soon return.

Mrs. Perry, of Napanee, Ont., is visiting her daughter, Mrs. E. B. Hall.

Born—On the 13th inst., the wife of C. V. Semerad, of a daughter.

P. Farrell, father of J. J. in the commissary department of Stewart & Welch, railway contractors, has been appointed judge of horses at the New Westminster Expo to be held first week of October.

E. O. DeLong is now holding down the forge at Cardiff, wearing that winning smile that can't come off.

J. R. Campbell has opened up a drug store in south Fort George and is doing splendidly.

L. C. Barnes of Penticton is on a business visit here.

Mrs. R. H. Carmichael and daughter

returned Monday from a visit to parents at Keremeos.

Some people are so big, in their own opinion, that they cannot keep out of their own way.

H. Snibley and John Reece, pioneer ranchers of upper Fivemile, report settlers arriving in that section. They are quite enthusiastic over the prospects.

A band of Indians passed through on Saturday on their way to Hope and will return with their winter's supply of coho salmon.

The A. E. Howse Co. recently received a large consignment of beautiful china-ware and brass goods, which certainly are rich in artistic merit and attractive to the eye, being both ornamental and useful. The goods are specially adapted for holiday and Christmas gifts, wedding and birthday presents, thanksgiving mementoes, remembrancers, presentation tea sets, etc. Call and see them. *

The new sanatorium at Tranquille, B. C., was officially opened last Wednesday. An invitation to the ceremony was sent to all of the Star staff, which is now thankfully acknowledged. The institution is designed to meet, more especially, the needs of tuberculous patients.

Persons who pose as purists and have entree into the company of the pure should not throw stones at others. The old adage about people living in glass houses is verified every day.

Two thousand feet of 8-inch wire wound wooden pipe is being laid in Grand Forks, taking the place of metal pipe.

GRANITE CREEK NEWS.

From Our Own Correspondent.

Granite Creek, Sept. 19.—The diamond drill started to work last week on the C.C. & C. Co's property, in charge of O. L. Knight, of Rossland.

Frank Garrison and Gus Clerf brought in 7 or 8 tons of machinery from Merritt on Saturday for the C.C. & C. Co. There are yet about 50 tons to be hauled.

Manager Fraser has placed a 21-foot gasoline launch on Otter Lake, capable of making 15 miles an hour.

L. W. Shatford, M.P.P., and Mr. Turner paid Granite a visit on Saturday last, visiting the mine while here.

H. Garrison and F. Riley are hauling lumber from the mill at Tulameen recently purchased by the Coal Co.

Two of the station gangs employed by Madden & Hankinson have finished in the last week.

Welldo with its gently receding slopes, looks beautiful clad in its resplendent, autumn tinted foliage. There is some talk of it being subdivided into fruit acreage.

Dan Ross returned on Monday from a visit to Nicola and vicinity. He says Merritt is quite lively but Granite still looks good to him.

The Similkameen Star.

NOTES AND COMMENTS.

Regarding the suggestion made in these columns a short time ago that the Board of Trade exercise its influence in securing the completion of the V., V. & E. at as early a date as possible, the Westminster Columbian in endorsing the idea urges that all the Fraser Valley boards of trade should take a hand in the matter.

Lord Strathcona, ever doing some kind and noble deed, and always alert to promote love of country among the young has again shown his sincere attachment for Canada by presenting a Nelson shield to each of the public schools for competition among the scholars writing an essay on some sailor subject.

above mentioned copper to all contributing friends of the society. The souvenirs are made up in brooches, pendants and medals and donors will receive specimens according to their gift.

The four western provinces of Canada and nearly every state west of the Missouri river will have exhibits of dry land products at the Dry Farming Expo and Interstate Fair to be held at Spokane, October 3 to 9.

The date of the next census for Mortality, Disability and Compensation is 1st June next year, which is the same as the date for Population. It is a record for one year, and gives the information concerning all persons to whom the schedule relates for the year counting to the hour of midnight of 31st May, 1911.

The curfew law is being enforced in Revelstoke and will shortly be in force in Enderby. What Princeton wants is a law to stop the unearthy howls and yells of dogs and cats in the 'wee sma hours.'

THE PHILOSOPHY OF LIFE.

Some people so much dislike paying an honest bill that they become your enemy when it is paid.

All our services have their moral and spiritual efficacy determined by faith in divine Spirit.

Did you ever notice how many foolish opinions you hear expressed every day?

If there be sacrifice in the giver there will be spiritual power in the gift.

The character of the giver and his motive determines the momentum of the gift.

True religion is not a theory but a practise.

The emperor of Japan has thirty physicians—of course he does not believe in Christian Science.

The successful person is always envied by inferiors.

NOTICE.
