SIMILKAMEEN STAR

Speech is silvern, silence is golden when applied to boys or girls

14th Year No. 29 PRINCETON, B.C., FRIDAY, JULY 18, 1913. PER YEAR: $2 Cash, Single Copy 5c.

INDUSTRIAL OPPORTUNITIES ARE ABUNDANT HERE

B.C. COPPER COMPANY ACTIVE: 5 DRILLS BIG PAYROLL

MINES AND MINING

Five drills are busily employed by the B. C. Copper Co. on Copper Mountain and 110 men are on the payroll. A large amount of open cutting or trenching has been made besides a lot of underground work in tunnels and cross cuts. The work of exploring and estimating the ore bodies is being pushed, when completed railway construction will be proceeded with from Princeton. The advertisement of this company appearing on another page indicates extensive water power development on the Whipsaw. The permanency of the B. C. Copper in these parts is beyond the doubtful stage.

T. J. Corwin arrived from the coast this week and is engaged on his placer leases.

W. C. Fry, of Vancouver, was in town this week on placer mining business.

Mrs. Robertson of New York City has been a visitor to Princeton for the past month and is much pleased with the town. As first lady in the camp of Messrs. Robertson and Connell at Summit she has won a distinguished victory over the difficulties of the trail between Tulameen and the above camp. She has valuable mining interests at the Summit.

E. E. Emmons took a party of placer experts up the Similkameen on Wednesday.

Two picture samples of ore from the famous Red Star at Roche river have been received, one of which will be sent to the Vancouver exhibition.

Jos. Hill of Los Angeles, Cal., has been in Princeton for a few days on mining business. Possibilities of the country impressed Mr. Hill very much and he will come again.

There are fourteen miners at work at the Summit Camp, and it is likely the number will be considerably increased with the coming of the warmer weather.

The Vancouver Chamber of Mines has set up an exhibit of Provincial minerals in its new headquarters and will show collections from nearly every mineral camp in the Province.

E P. Galliac shipped a car of gypsum taken from Welldo to the B. C. Portland Cement Co.'s works at E. Princeton last Monday. About fifty tons per month will be required for the manufacture of cement. The Welldo gypsum is of a fine quality and is not far from the Soup Springs.

Ben Baker was taken seriously ill at Whipsaw last Saturday where he had been working near the Knight & Day property. Exposure to inclement weather is thought to have an influence in producing the painful condition with which he is suffering.

The B. C. Copper Co. is giving notice of application to store in a reservoir 150,000,000 gallons of water to be used for power purposes on Whipsaw Creek, near Ashnola.

Oscar Lachmund, manager for the B. C. Copper Co. at Greenwood, was in town Monday and, accompanied by Mr. Keffer and F. R. Weekes, went to Princess camp Copper Mountain.

J. W. Bartlett, of Incheleum, Wash., a relative of S. R. Gibson, is in town on mining business. He was in this section some fourteen years ago and he has never lost his first impressions of it as a mineral country.

Fred Keffer, mining engineer for the B. C Copper Co, arrived on Sunday from Greenwood.

RAILWAY POINTS.

Construction on the V. V. & E. is proceeding at a very slow rate. There is little hope of steel reaching the Merritt branch of the Kettle Valley this fall at Coldwater Junctiod No one knows the reason for this dallying with time by the V. V. & E. Probably Jim is on one of his fishing exhibitions down where the salmonbelly grows.

There have been repeated rumors that something was about to happen regarding construction toward Princeton on the Kettle Valley. Probably the greatest shock one could receive would be the announcement of contracts let and dirt aflying Tom is as slow as Jim, while Bill and Dan are 'making hay.'

Twohy Broa., railway contractors have been employing all the men they could get on their ten mile stretch extending to Coquihalla pass on the K. V. Their orders read 'push' 'rush' any old way to get there on time.

If rumors may even half be relied on Princeton district will resemble a Balkan battlefield with the network of railway earthworks to be thrown up in all directions by Thomas, king of the C. P. R. Down Fivemile, up Onemile, back to Coalmont, up to Ashnola, through Princeton, round Welldo, touching the high spots at Granite then a straight shoot to Vancouver, meanwhile everybody wants the coast connection.

There is no truth in the report that the Gt Northern has shut down construction work on the V. V. & E. There are two wheelbarrows, a mule, two dagoes, a bohunk and a squad of bilious bulgars in full commission.

The financial editor is informed by wireless that the C.P.R. is soon to own the V..V. & E. Deal is progressing.

Camps have been established at Rogers Pass in preparation for the gigantic boring project. The whole work is to be finished in 42 months.

'GLORIOUS TWELFTH' CELEBRATION WAS BIG SUCCESS

GOOD CROWD, WEATHER FINE

The celebration of the 12th of July was successfully carried out by a large number of local Orangemen and strong delegations from Hedley and Keremeos In spite of rain and threatening weather in the morning together with a delayed train, delightful sunshine and a merry crowd made the afternoon sports a real pleasure. Owing to the train arriving 1½ hours late the usual address was omitted.

During the sports the Princeton band played national and patriotic airs and added much to the pleasure of the occasion. The baseball and athletic sports as well as all the arrangements reflect the highest credit on Committees among whom were J. A. Osborne, W. J. Kirkpatrick, H. H. Avery, jr., W. Wilson, L. Marston, P. Russell, C. V. Prosser, J. F. Knudson and many others.

Following is a list of the events:—

Baseball—Princeton L. O. L, v. Hedley and Keremeos L. O. L, 19-6 in favor of Princeton.

Fat Men,s Race—B. A. Peck, 1st; J. A Osborne, 2nd.

Ladies' Race—Mrs. Gillam; Mrs. Turner.

Boys' Race—Bruce McLean; W. Alguard, W. Hamilton.

Girls, Race—Martha Lee; Mary Young.

100 yards dash—Len Marston; M. M. Peacock.

220 yards dash—Len Marston; M M. Peacock.

Rock drilling contest was won by Hamilton and Lyons of Hedley, 27¾ inches. The Copper Mountain team, Fraser and Larsen, drilled 20 inches and unfortunately fouled a drill hole causing their drill to stick.

The tugowar and the broncho bucking contests were cancelled for lack of entries.

The dance in the evening was thoroughly enjoyed by sixty couples, which started at 8:30 and closed at 12 o'clock sharp.

CAMPBELL—PIERCE

Pharmacist J. R. Campbell of South Fort George, stole a march on the watchful boys of that district by getting quietly married May 26, so qnietly in fact that it was a whole week before tne news leaked out and the whole gang promptly marched to Pharmacist-Jnstice of-the-Peace Campbell's headquarters and charivaried him right royally as is the custom. The marriage took place in the English Church (St. Stephen's) at 10 p.m., Rev. Isaac Williams officiating. The bride, Miss Fannie Pierce, was attended by Mrs. A. L. Johnsou as matron of honour, while the groom was supported by J. B. Daniell, Editor of the Fort George Herald. Dr. D. B. Lazier gave the bride away. Mr Malcolm McNevin was the only other witness.—B. C. Pharmaceutical Record.

[The above interesting event is doubly so to the many friends of the groom who knew him as a progressive and staunch citizen of Princeton Star extends, with many others, heartfelt congratulations.—Ed.]

BANK MANAGER TRANSFERRED

It will be learned with keen regret that the present manager of the Bank of Montreal, B. L. Smith, is about to be transferred to the large and important city of St. Catharines, Ontario, thus severing formally the social and business ties formed during his residence of some sixteen months. Mr Smith has always been identified with any move tending to the welfare of the town and his removal is a distinct loss to our citizenship. The one relieving feature, however, is the appreciation in which he is held by the bank authorities and his consequent marked promotion. Star joins a legion of friends in wishing Mr Smith continuous happiness and prosperity. Mr. Smith will be succeeded by R. M. Mansfield, a popular young bachelor, now chief accountant at Nelson. The change will take place about the 1st August.

PROGRESSIVE PIONEER

Richard Cawstou, manager of the Similkameen Fruit Lands Co., of Keremeos, was in town on business in the early part of the week. His company own the Lowe ranch which is being brought into a high state of cultivation and cleared of scrub growth by means of a large traction engine hauling a steel plough weighing a half ton. Tobacco and semi-tropical fruits are being experimented with, the results so far indicating possibilities beyond expectation. Mr. Cawston is one of the earliest pioneers of the Similkameen and along with "Lord O'Kanagin" and the late Frank Richter established the fame of this country for fruit, cattle and horse raising.

H. B. Brown arrived from the coast via Hope and Ashnola on Wednesday. He brings the encouraging information that land and mining investors are looking toward the Similkameen and Boundary districts. Many of them could not be enticed this way two years ago owing to the fortunes in real estate at the coast, now they want to escape the temporary depression and get some ground floor investments or buy improved properties

J. H. Jackson, one of the earliest residents of Princeton, was in town this week.

TOWN AND DISTRICT

J. C. Wilson, inspector for P. Burns Co., was in town this week on an official visit. He speaks very hopefully of a general financial revival before long in B. C.

Miss E. Kerr, of Toronto, representing a number of Canadian journals and a pictorial children's magazine was in Princeton this weeking material for the journals and scenes for her magazine. She was very pleased with the scenic beauty of this section which she says is of more artistic value than the Rockies. Her impressions of the town generally and of the hotel accomodation were most favorable.

A. Megraw, editor of the Hedley Gazette, was in town la t Saturday on a combined business and holiday visit. If Jim Hill had held over the train for the Orange celebrants the 'Major' would gladly have taken in the sports and told his poor confrere about the latest stroke in golf. Come again, brother, and come in your own car as other Hedley millionaires do.

The New Westminster lacrosse boys who played in the Hope team here on Dominion Day have been excommunicated for their non-amateur play. Serves 'em right.

Spiritualism:-Mrs. Laura E. Hill, from Fort Wayne Ind., is conducting spiritual meetings at the home of Mr. Elie Levalley and is intending to put the work before the public soon.

F. H. French, the Hedley merchant and mining man, with his father and ladies, paid a flying visit in his car to Princeton on Wednesday.

At the annual school meeting held last Saturday J. D. Andras was elected trustee and the tender of King & Gibson to paint the school house was accepted,

J. Martin, foreman of the Hedley Gazette composing room, was in town last week on a well earned holiday.

Jno. Gersing has returned from Coldwater summitt where he has been building cars for railway contractors.

Card of Thanks

To all those who by their sympathy and kindly acts have helped to relieve my sorrow and lighten the burden of bereavement I wish to convey my sincere thanks.

MRS L. MITCHELL.

PRINCETON LODGE I.O.O.F. No. 52.
Regular meetings, 8 p m., Thursdays. Sojourning brethren welcome. Hall situate in Howse Bldgs cor. Bridge St. and Vermilion Ave.
C. VILLARSON, Noble Grand
D. G. MCCURDY, Secretary.

Sealed tenders to be sent to the undersigned and received not later than 1st day of August.

No pledge is given to accept the lowest or any tender.

McLEAN & RUSSELL
Princeton, B. C. Architects. 29-2

TENDERS.

Tenders will be received up to the 18th inst for the following :

500 fir posts, 9 feet long and not less than 8 inches at the small end.

Price to include immediate delivery at the mine.

Lowest or any tender not necessarily accepted.

Apply PRINCETON COAL & LAND Co.
Princeton, B. C.

NOTICE
TO DELINQUENT CO OWNER

TO GEORGE B. COWAN—Take notice that unless you do pay, within 91 days from the date hereof, the sum of $300 being your proportion of the expenditure required for the years 1901, 1902, 1903 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, by Section 24 of the Mineral Act, upon the Celtic Chief and Empress mineral claims, situate at Summitt Camp in the Similkameen mining division, Yale District, B. C., together with interest and all costs of this notice, to the undersigned, your co-partner in the said mineral claims, your interest in the said claims shall become vested in the undersigned who has made the required expenditure.

CHARLES CONNELI
Dated this 16th day of July, 1913.

WATER NOTICE.
For a licence to store or pen back water.

Notice is hereby given that The British Columbia Copper Co Ltd. of Greenwood, B. C will apply for a licence to store or pen back 150,000,000 gallons of water from Whipsaw Creek, a stream flowing in an easterly direction and emptying into Similkameen River near Ashnola, B C. The water will be stored in a reservoir of 150,000,000 gallons capacity built or to be built at a point about 3300 feet west of Similkameen river and will be used for power purposes, as authorized under notice of application for a licence to take and use water posted herewith on the land described as lot 148, Yale Division, Yale District.

This notice was posted on the ground on the 14th day of July, 1913. The application will be filed in the office of the Water Recorder at Ashcroft, B. C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

LOCAL AND GENERAL.

Tenders for the erection of a building, 50 x 100, two storeys, are called by McLean & Russell for the Oddfellows. The building will be located on the northeasterly corner of Bridge street and Fenchurch Av. and is considered one of the best sites in the town.

The death of J. A. Mitchell, a resident of Princeton for the past few years, took place on Monday at his residence. The funeral service was conducted by Rev. S. J. Green while the local lodge of Orangemen bore the remains to their last resting place in the cemetery. Deceased leaves a wife to mourn his departure to whom general sympathy will go out.

Born—On the 29th ult., the wife of Lewis Cooper, E. Princeton, of a son.

Rev. S. J. Green, of Armstrong, is visiting this portion of the Methodist disttict, of which he is chairman, and will be pulpit supply next Sunday. The service conducted by him last Sunday evening in the court-house was well attended.

Mrs. J. Riddell and daughter, mother and sister of Mas. H. T. Rainbow, are visiting with her on Kenley Av.

J. D. Leechman, for the past eighteen months editor of the Merritt Herald, is now employed on the Star. He arrived in town on Sunday evening and is too busy taking in the natural beauties and innumerable resources of our district to express his opinion of it. He anticipates staying here some time.

There is some hitch somewhere in the mail service between this place and Princeton. Bro. Wright, of the Princeton Star, has considerable type for his paper set on the linotype in this office and he mails down his copy every Tuesday morning so that the slugs can be returned at the earliest possible date. Last Tuesday he sent in his copy as usual and it reached this office Friday morning This necessitated remaining up most of Friday night to get up the type, and the Star in consequence was two or three days late in getting out.—Oroville Gazette.

SOME POINTERS

With a pinched money market and the resultant depression in commercial and industrial centers, a gleam of refreshing light and encouragement may be observed in the fact that investors are turning from a satiety of speculation in real estate to the more solid and less refractory field for investment offered in lands and mines. From wildcat city lots and tall buildings capital has turned to the inviting country whose resources are still in a state of virginity. A year or two ago people were tumbling over each other in a mad scramble for city property. Keen-eyed and sharp scouts went up and down the country hawking city property and crying 'buy of me and getrichquick.' Now the scout is no more. In his place a tide of enquiries, by letter and personal visitation of the genuine investor, have been features of the inevitable reaction. Do you know of any good investment? is a frequent question addressed to residents of the interior towns and country.

While the eager speculator of a year or two ago is surfeited with real estate and has regained normal reasoning power now is the time to induce him to come our way and partake of the genuine bargains offering. He cannot fail in his quest no matter what town or part of the Similkameen he may select for investment. Owners of lands, mining property or real estate in this district have had no booms to upset the logical basis upon which present prices rest. To any investor this condition must appeal with the force of a challenge 'to do it now!' And for variety of investment there can be no possible ground for complaint. Town and country present scope for the widest choice in lands and industries. Coal, lode and placer mining and a field for prospecting for minerals cannot be surpassed in any country for variety or extent.

A duty devolves upon every citizen and resident to induce and encourage by all legitimate means the inflow of investors and homeseekers now turning their thoughts and footsteps away from the cities. When a stranger arrives within the gates inform him with a candor that will win his confidence of the opportunities that await him in this new and naturally rich country. Give him honest and straightforward advice. Above all do not sicken him with praise of your own property and denounce or condemn your neighbors'. Visitors have frequently complained of that spirit of knock and inharmony which they have found in and around this section. If it is not possible to speak the good word or praise another's property, be it mineral or other, refrain from any depreciating remark and probable lie. Nothing more quickly disgusts a stranger than a rehearsal of ill feeling and jealous knocking on the part of a resident. One optimist is worth a hundred grouchers in building up a city or country and inducing those who come to remain or invest. An effectual way to prevent a second visit from persons who come to spy out the land is to hound them with a long hard-luck story and paint everybody black. The old, hackneyed phrase: 'if you can't boost don't knock' contains a lot of wisdom and sound advice.

A merchant who does not exhibit, display or advertise his goods would be considered out of date. That is no less true of the farmer, the miner or prospector, who does not exhibit his vegetables, fruit and grain or minerals. In the Princeton disirict there are minerals of almost every kind yet there has never been a collection of them placed on permanent exhibition which was thoroughly representative. No organized effort worthy of the fame of this district for its minerals has been made toward a permanent exhibit. If the resonrces of the district are not disylayed we are, as a community, woefully handicapped in competition for capital with the districts that specialize with ore and other displays. It is a necessary undertaking to at once place on exhibition here and at Vancouver a comprehensive exhibit of every ore, coals, clay, paint, etc., native to these parts. Geologists from every part of the world are now gathering in Toronto, some of whom will visit Princeton. The impressions and opinions that these gentlemen will form of a district as a mineral field and probable producer, if favorable, will be invaluable used in recommending to the consideration of capitalists and mining men. Every resident should assist in the collection of a mineral exhibit for all will benefit by the development of the mining industry.

NOTES AND COMMENTS.

Near Fairview recently the body

B.C. Portland Cement Co.
United Empire Coal Mining Co.

These Companies will Shortly Operate on Extensive Scale and Establish Permanent Payroll.

EAST PRINCETON

The manufacture of cement will begin in a few weeks. A permanent payroll and a growing town with electric light system, waterworks and cement paved streets, will result from the industries now in formative stages. According to the history of progress in this province investments made now in East Princeton real estate must double and treble in a short space of time. This is the experience in other towns, why not the same in East Princeton? Two railways will serve transportation.

of an Oxford graduate was found by the roadside death resulting from starvation and exposure. The big schools cram students with Greek and Hebrew for the sake of mere 'culchaw.' When these poor fellows land in hundreds on the prairies and the frontier they starve to death in a land of plenty or fill its charitable institutions. The curricula of the universities and theological colleges need revising badly.

From butchering the unspeakable Turk and driving him where he belongs the ferocious Balkanese have fell to devouring each othrr. Shame upon the bigger European nations because they do not end this blot on civilization. Where are the peacemakers?.

THE WIDE WORLD.

A parliamentary return recently issued gives particulars of all deer forests and lands exclusively devoted to sport in the various counties of Scotland. The total acreage is given as 3,599,744 and the rental as £183,788.

Twenty thousand dollars damage was done last week by rain storms at Vancouver when the flood descended at the rate of three inches per hour. The Vancouver Drug Company lost five thousand dollars by the flooding of a basement and Fletcher Brothers. music store basement was so badly drenched that nearly ten thousand dollars worth of gramaphone records were lost.

Harry Lauder the Scotch comedian, appeared in a new role in a church at Bristol, England recently. He preached a sermon and sung several hymns as solos. The 1,200 admission tickets were rapidly bought up and many people who were anxious to attend were disappointed.

The whole of the J. P. Morgan estate has a value of about $100,000,000, according to an unofficial estimate credited to Thomas E. Rush counsel to State Comptroller Sohmer, who has been in Europe the last month examining the books of the Morgan houses in London and Paris, to determine the value of the late financier's holdings.

RELIGIOUS SERVICES.

Christian Science lesson sermon subject next Sunday: 'Life.' Thou wilt shew me the path of life: in thy presence is fulness of joy; at thy right hand there are pleasures for evermore. Psalms 16:11.

There will be service in the courthouse next Sunday at 7.30 p. m. and at East Princeton at 3 p. m. Rev S. J. Green chairman of the district will preach.

SPECIALS.

SURE TO BE SAFE

When You Select

Maple Leaf Paints & Varnishes

for your painting and finishing Do not select them for their excellence of color alone, nor merely because they cover better and wear longer than other paints and varnishes. Choose them because they protect the best, and preserve property longest. That is why they pay. That is why their use means service and money saved.

Your choice will be safe, your investment sure if you ask your dealer for the Maple Leaf Brands.

Let our M L. Decorative Aid Department send you helpful suggestions for the decoration of your home.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Vancouver, B. C." will be received at this office until 4.00 P. M., on Thursday, August 21, 1913 for the construction of a Wharf at Vancouver, B. C.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq, District Engineer, New Westminster, B. C.; J. S. MacLachlan, Esq., District Engineer, Victoria, B. C., The District Engineer's Office, Confederation Life Building, Toronto, Ont., J. L. Michaud, Esq., District Engineer, Post Office Building, Montreal Que. and on application to the Postmaster at Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to five per cent. (5 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, July 8, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—4961.

MINES AND MINING

The following have been appointed the B. C. honorary councillors and members of the finance committee in connection with the International Geological Congress gathering and excursions: Sir Richard McBride, W. Fleet Robertson, A. C. Flumerfelt, R. P. Buchart, of Victoria; Robt. Kelly of Vancouver; R. H. Stewart of Trail; Fred Keffer, of Greenwood. The meetings of Congress will begin at Toronto on August 7th and terminate 14th. After the meeting the excursions to the Western provinces and the Yukon will be undertaken.

How many mines are there in the United States? This is a question that is often asked. As nearly as can be determined there are 6,500 coal mines. Of metal mines there are about 6,000, producing and developing. With respect to the metalurgical works we can speak more accurately. There are nine copper refineries and 45 smelters. There are 28 lead smelting works, 28 zinc and 314 iron.

The occurence of vanadium in the ash of coal and other carbonaceous deposits in Peru has been known for some time. A. Jorissen now announces (Bull. de la Soc. Chim. Belge No. 21, 1913) that molybdenum is found in the cinders of certain Belgian coals, and that it exists in water soluble form. The moral seems to be that ashes from coal from diversely mineralized districts should be examined for rare and precious metals.

A shaft is being sunk on the coal property of the Midway Coal Co., at Midway, and they report the finding of some very good grade coal.

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1. an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applitcant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-division of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5. which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five per cent per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quanity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY
Deputy Minister of the Interior.

Cheap Footwear

¶ is rather an expensive economy, for as a rule you not only suffer in comfort, but in appearance as well.

¶ Wearing qualities also are inferior to the better shoe and you seldom feel that you have had just returns for the original cost.

¶ ***INVICTUS*** shoes are not cheap shoes. They are made from selected leathers, by skilled workmen, on foot-form lasts. Their style is distinctive and their comfort so perfect that your feet are forgotten.

¶ They give the utmost of wear and are worth many times their cost in the satisfaction you receive.

§ A better shoe man never wore.

§ The best good shoe, ***Invictus.***

WATER ACT

Notice of Application for the Approval of Plans and Petition for Approval of Undertaking:

TAKE NOTICE that ASHAWOTA POWER COMPANY, Limited, will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from Similkameen River, which the applicant is, by Water Permit No. 28 authorized to take and use for power purposes.

Petition for the approval of the undertaking will also be made to the Honorable the Minister of Lands.

The plans and particulars required by subsection (1) of section 70 of the "Water Act" as amended and the petition and plans for approval of undertaking as required by Section 89, have been filed with the Comptroller of Water Rights at Victoria and with the Water Recorder ta Fairview and Nicola.

Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria.

Dated at Vancouver, B. C. this 29th day of May, 1913.

SMILES

The drummer had been bragging about his achievments for a goodly time and finaly the meek little man in the corner piped up.

"Excuse me" he said, "but perhaps you can tell me why you gentlemen are called drummers."

"Well, why shouldn't we be so called? We drum up trade, don't we?" was the retort.

"I know," said the meek little man, "but the drum is not a wind instrument."

Sammy was not prone to over-exertion in the classroom; therefore, his mother was both surprised and delighted when he came home one noon with the announcement: "I got one 'rithmetic morning." "That's lovely, Sammy!" exclaimed his proud mother. "What was it in?" "Fifty in reading and fifty in 'rithmetic!' was Sammy's prompt reply.

"Dr. Billups, I'd rather hear you preach than anybody I know of; your sermons are so full of jokes and funny stories."

"I tell you, old man there's always room at the top," said Jimpsonberry. "I haven't a doubt of it" said Languish. "But the worst of it is there's never any elevator to take you up."

Lady of the House (inspecting the kitchen)—Why, Bridget, how untidy you are! See here, I can actually write my name on the dust on top of this stove!

Bridget—Shure, an' what a fine thing it is to have an education.

"It's awfully good of you to drop in Mrs. Jipes. I'm feeling so dull today that I'm ready to welcome almost anybody."

"Your pitching suits me, old boy, all right; I've won many a fiver by betting on the other club when you were in the box for the home team."

"Your complexion is so marvelous, dearie, that you always look to me as if you painted and powdered"

REWARD

$100.00 REWARD is hereby offered for each and every conviction of anyone that has been known or found taking or carrying any article, tools or supplies from McCauley's camp from October 25, 1911, until May 1, 1913.
