All roads, rivers and trails converge at Princeton,

SIMILKAMEEN

STAR

No sentiment, however beautiful, can match a lovely deed.

Gold and platinum dredging is an industry now being tested by placer drill on Similkameen and Tulameen rivers—Coal and Lode mining.

This is glorious Spring: The wild duck and the goose, trout and big black bear, lure the sportsman to our Elysian wilds fragrant of the pine.

Vol. XII. No. 10. PRINCETON, B.C., WEDNESDAY, MARCH 1, 1911. $2 a Year in Advance

MINES AND MINING

Manager Predicts Boom Times in Princeton District this Year.

Very Probable Deal for Osoyoos Coal Co's Property with Spokane Mining Men.

E. Waterman, general manager of the Princeton Coal and Land company, has been paying a visit to Rossland, and in an interview with a Miner representative spoke of the coming boom in the Princeton district. The company owns the townsite of Princeton and coal fields around the town. They have been shipping steadily all winter, about 100 tons a day, and he was full of hope that they were going to have a paticularly good time over there. A number of new industries would be started and a dredging lease had been taken up to dredge the the river. He believed the results would justify the steps taken. A large company was formed to put up big cement works with a capacity for 500 barrels per day. The completion of the V.,V. & E. to the coast would be a vast incentive to business.

Millions in Mines.

Wayne Darling, mining engineer of note from Philadelphia, is in Vancouver on behalf of large mining interests who will probably invest millions in mines in the province on his reports. He says: 'The outlook for lode mining in this province during the next few years is very encouraging. The eyes of operators and large corporations are directed towards British Columbia and I shonld not be surprised to see a good deal of money expended in development work. Your mineral resources are vast and have deeply impressed the outside world. The psychological moment for the revival of mining has arrived. In a professioual way I have gotten acquainted with a portion of the Kootenays and Princeton district and a portion of Vancouver Island. A good deal of preliminary work has been done during the past six months by my assistant, C. S. Verrill, whose reports are of a most encouraging character.'

CAPITAL WANTS OUR COAL.

That a deal is in progress for the sale of the Osoyoos mining company's coal properties near Princeton, involving a sum of $250,000 was the statement made last night by William Gosnell, president of the company, and I. G. Nelson.

This property which has already commenced to ship coal to Nelson and is also distributing the black fuel at the various points along the Similkameen branch of the Great Northern railway, is almost entirely owned by Nelson capital. It is located right in the midst of the great coal fields around Princeton and is remarkable for the size of its seams and the value of its coal for domestic purposes.—Nelson Daily News.

THE HOSPITAL.

Although the Princeton general hospital has been open for a month, no formal opening has as yet taken place. It is proposed by the hospital board and the ladies' auxiliary to invite the public generally to attend at the hospital Friday night when the building and equipment will be thrown open for inspection and addresses with financial statements made by the chairman of the board and the president of the auxiliary. The hospital board has served its term of one year and a new board will be elected. The institution is for the public good and thanks to general prosperity there is no one so poor in Princeton district who is not able to contribute some amount toward it.

FIRE DESTROYED HOUSE.

A serious fire occurred on Fivemile last Thursday morning by which the house belonging to A. Watson was totally destroyed, together with all the contents. The fire is supposed to have originated from the cooking stove and as the house was paper lined it was impossible to save it when the flames feeding on most inflammable material gained headway. Mr. and Mrs. Watson had only recently occupied the house having bought the ranch from Harry Allison.

SWIFT AS PEGASUS.

A regular automobile stage service between Kamloops, Merritt and Princeton will be inaugurated as soon as the snow disappears this spring. The trip from Kamloops to Merritt will take five hours including all stops at intermediate points. To Princeton via Aspen Grove, the trip from Merritt will be made in six hours Four large automobiles from 40 to 90 horse power, will make up the equipment for the srvice.

OPERA COMIQUE.

The musical comedy, 'Managing Mildred' is announced for next Monday night at the I.O.O.F. hall. The famous English Opera Singers are featured in this comedy and will introduce the last two scenes of Verdi's 'Il Trovatore' in costume. The remarkable duet, 'Le Miserere,' as sung by Juanita Rush and Chas. Picquet has invariably been encored five or six times. There are some 20 song hits in Managing Mildred. Special orchestra and solo musicians. Reserved seats at Willarson & Co's.

J. Schubert of Hedley will open a store at Coalmont.

Today begins Lent and the forty days of fasting.

THE WEEKLY GRIST

Over $170,000 the Total Estimates for the District of Similkameen.

Work on Railway Bridge to Cement Property—Building Season to Be Brisk.

In the supplementary estimates passed yesterday at Victoria Mr. Shatford secured an additional vote of $24,000 for bridges, which brings the total appropriations for the Similkameen up to the magnificent sum of over $170,000. Well done, Shatford!

T. Guinan has purchased the ranch belonging to J. D. McDonald, Fivemile.

Owing to a general desire of members to attend the grand opera on Monday night the regular meeting of the board of trade is postponed until the following night at the court room, 8 o'clock. Full attendance is requested. Matters of interest to all in the district will be acted upon. Members delinquent will please pay and help in the general boost.

C. O. French, when last heard from, was heading for Washington to try and get that bunch of Uncle Sammies in the senate to stop howling against reciprocity. He wants free peanuts and yams, believing that they tend to sociability, a quality which is quite extinct at Welldo.

J. Stewart, railway bridge builder is in town and work on the spur bridge at East Princeton will commence soon.

P. Swanson arrived home recently and will soon begin large addition to the Great Northern hotel.

The 17th of 'Ould Ireland' will be observed in Princeton with a grand ball.

COALMONT NEWS.

Bridge Over Tulameen—Houses Building—Gospel Reaches Coalmont.

Coalmont, Feb. 27.—T. W. Mills, of the Presbyterian Home Mission field, preached the first sermon at the Coalmont Presbyterian church last Sunday. Messrs. Boucher, Dickson, Fraser, Heimbecker and Johnston constitute the board of managers with Mr. Heimbecker as treasurer. Mr. Mills preached from Num. 13:30. Service will be held every Sabbath at 11 a.m.

The thousand-dollar team of horses formerly owned by Mr. Barcelo of Keremeos, now belongs to Coalmont. If their equal exists they will probably be found at the World's fair.

The following were among the visitors who called on us lately: Mr. Schubert, merchant, Hedley; Mr. McCauley, butcher, Keremeos. Mr. McTavish, merchant, Vancouver, and the congenial Government Agent, Princeton.

Mr. Rabbitt has moved to his commodious residence. We believe he intends to have a hop shortly.

Did the Princeton hockey team win again? We don't think so. The game was played near Tulameen last Saturday and ended in favor of the Coalmont-Granite Creek-Tulameen team, who delighted in putting the bankers over the (snow) banks. Up to the close of the second half there were no goals scored and it was decided to play another ten minutes. Heimbecker then broke the silence by scoring the first goal, which was followed by one shot by Austin Henderson. The dance in the evening was a success. Messrs. Rabbitt and Brooks played the violin and Curley thumped the piano.

Al Johnson has logged about 200,000 feet for the Tulameen sawmill, having completed about one-fifth of his contract. A million feet of lumber will be consumed at Coalmont.

The 300 foot bridge across the Tulameen river is now under construction and new buildings make their appearance daily.

PLAY AND DANCE.

On Wednesday last the highly amusing farce, 'Pepperbox, or the Area Belle,' was presented by local talent at the Oddfellows' hall. There was a fair attendance, though by no means as large as the play deserved. The caste was as follows: Penelope, or the Area Belle, Mrs. Howse; Mrs. Croaker, Miss Gladys Lyall; Tosser a soldier, Mr. Lyall; Pitcher, a policeman, Mr. Stevens; Walker Chalks, a milkman, Mr. Geddie. The acting was excellent and provoked considerable applause. Particular mention should be made of the splendid acting of Mrs. Howse, who gave evidence of great histrionic ability. A short program preceded the play, Mrs. Carmichael acting as accompanist and rendering a very pretty pianoforte solo. Mr. Stevens gave a most admirable rendition of Drummond's 'Habitant,' and Mr. Groffman sang in his usual felicitous style. A dance concluded the affair which was as usual much appreciated.—Com.

Star has received inquiries about West Princeton, where it is located, &c. All that can be said now in reply is: that it is strictly on paper as yet, but that anyone having a knowledge of the facts in connection therewith does not doubt the early survey and laying out of a proper townsite. Meantime, wait.

Geo. Aldous and Victor Voigt are about to sell their claims on Steamboat mountain. Vancouver capital is taking hold of a bunch of claims in that section.

Claud Snowden and Sam Moore have recently seen a bunch of 200 big horn.

The Similkameen Star.

NOTES AND COMMENTS.

The argument is used in opposition to reciprocity that wages will be reduced with the cheapening of food. Did wages advance proportionately with the rise in food cost? If they did, ordinary logic indicates a fall with reduction in the cost of living. Wages automatically respond to food prices and conditions of supply and demand: of this every labor unionist is aware.

Free trade and its correlative, reciprocity, do not appeal to the monopolist, the manufacturing millionaires, or the army of schemers, trust promoters and operators who dislike competition. These people and all friends of monopoly do not appreciate the fact that honorable competition is the very essence, incentive and life of trade. They prefer to ally themselves with the protectionists whose regard for the prosperity and welfare of fellow subjects is on a par with that of the lion for the lamb. Protection fosters get-rich-quick methods, making prey of the poor and many to enrich the few. The principle of free trade affords the widest liberty to the subject and where it operates reciprocally the tendency is toward widespread contentment, prosperity and peace. Wherever reciprocity or free trade has been tried the increase of imports and exports is marvellous: an argument that defies the stoutest protectionist.

Free trade ought to be welcome with the industrial class and also to that class of thinker whose dream is to revolutionize the condition of the poor and give to every man a competency. The differences between labor and capital are minimized by free trade inasmuch as it knows no distinction between them and is not prejudicial to either. The science of economics in its application to labor difficulties will always find a willing helpmeet in free trade principles, but to offer any final solution of the troubles arising from riches and poverty through the media of politics or the communal system is hopeless. The ideal state can only be attained by the operations of divine science, in the elimination of selfishness, greed and the dollarlust which pervades politics and much of the orthodox religion of today.

It was all right for that Tory high priest, Sir John A. Macdonald, to advocate reciprocity and its implied sequence, annexation, but it is all wrong for Sir Wilfrid Laurier, the Liberal leader, to even breathe the word, 'reciprocity.' Consistency, thou art a——fraud.
