Coal & coke need the wider market—Reciprocity helps

SIMILKAMEEN

Measures, not men. country, not party; the people, not a class.

The measure of a country's wealth is in its raw resources, without these it is 'no man's land'—Princeton and district are not excelled in variety or abundance of minerals—A smelter is an immediate necessity—Large gold and platinum dredging proposition in progress.

Vol. XII. No. 38.

PRINCETON, B.C., WEDNESDAY, SEPTEMBER 10, 1911.

\$2 a Year in Advance

BIG COAL MEASURES

An Interesting Report on Coal Lands Owned by the Princeton Collieries.

Three Mining Engineers Examine the Property and Favorably Report Thereon.

Following is a summary of report made by A. Faulds, M.E., Member of Institute of Mining Engineers, for the Princeton Collieries, Limited, owning some 18,000 acres of coal lands adjoining Princeton townsite and the coal lands of the Princeton Coal & Land Co. The report may be considered as representative of the whole Princeton coal basin, which is owned by several companies in various stages of development and operation.

The Princeton Collieries, Limited, is composed of well-known financiers in Spokane, Vancouver and Montreal, large interests in it being held by certain officials of a large transcontinental line of railway. The land is suitable for agricultural purposes and is well timbered. The Great Northern now has track laid through the property of the company on which the prospective town of West Princeton will be built. Nature has abundantly supplied every want for economic mining, and the Star is informed that the early production of coal is intended by this company. The Princeton Collieries, Limited, has for its president A. Laidlaw, of Spokane, who has other large investments in this district.

Historical and Introductory.

Introductory to Mr. Faulds' report, he says:

"Being requested to furnish you with a report on the coal lands near Princeton, taken up by the Princeton Collieries, Limited, and which embraced originally an area of 12,294 acres to which have been added since 5,900 acres, making a total aggregate area of 18,194 acres or thereby; and having traversed and carefully examined the topography and stratigraphy of those lands south of Princeton, with which the reporter has become familiar, enabling him to submit to you the following:

"The first geological work in the district was from 1859 to 1861 by Mr. Baderman. In 1887 Dr. G. M. Dawson spent the season in geological exploration, and again in 1888. In 1901 boring for coal began. Six bore holes have been put down by the Vermilion Forks Mining and Development Company, two by the Similkameen Valley Coal Co., by William Blakemore, M.E., and one by Alexander Sharp, Mining Expert for P. Burns & Company. The same year Provincial Mineralogist W. F. Robertson, examined and reported on the Princeton district, making no re-

ference to the general geology, and the International Boundary Commission Survey with Dr. A. Daly, Canadian Geologist, mapping the district.

"The following mining engineers examined and reported on the same district: Wm. Blakemore in 1901, the reporter in July, 1907, and August, 1909, R. H. Morris in May, 1910, and A. R. Larson in September, 1910.

"The general topography of the Princeton coal basin is of a rolling character, with numerous and beautiful plateaux, well timbered and watered with excellent farming bottom and good mountain pasture lands, about 2,500 feet above sea level, Princeton being 2,100 feet, with an absence of heavy glacial drift of the Pleistocene or Quaternary Age of formation or deposits of the Post Tertiary Period on the higher lands.

"The pasture is exceedingly heavy and good, 6,000 head of cattle pasturing annually.

"The climate is considered pleasant, with light rain fall in summer and considerable snow in winter. With proper precautions against frost and snow colliery operations can be carried on continuously.

"The property is in latitude 49 degrees 22 feet north, and longitude 120 degrees 30 feet west, in the Kamloops, Osoyoos and Yale Divisions of British Columbia, adjoining the town of Princeton, which is located at the confluence of the Tulameen and Similkameen rivers, and by the V.V. & E. Railway, presently being constructed, will be about 150 miles from Vancouver, and is 307 miles from Spokane.

(To be continued in next issue.)

TULAMEEN LABOR DAY SPORTS

The celebration at Tulameen on Labor Day was a pronounced success and a credit to this rising town by the lake. Following is the result of the sports:

Hop, Step and Jump—Victor Ryder, first, 39ft. 1in.; Wm. McDougal, second, 38ft. 5in.

Broad Jump—Victor Ryder, first, 17ft. 7½in.; Wm. McDougal, second, 17ft. 4½in.

High Jump—Victor Ryder and Wm. McDougal, tie, 5ft.

Tug-of-War—Princeton vs. Tulameen, Princeton won.

220 Yards' Dash—Len. Marstan, first; A. Miller, second.

100 Yards' Dash—Len. Marstan, first; A. Miller, second.

Putting Shot—Wm. McDougal, first, 42ft. 2in.; Victor Ryder, second, 36ft 4in.

Base Ball—Tulameen vs. Princeton—Score, 7-3 in favor of Tulameen.

Swimming Race—Jess Rash, first; Ben Barlow, second.

Greasy Pole—Jess Rash, first; Ben Barlow, second.

Greasy Pig—Caught by Elmo Henderson.

Girls' Race, 50 Yards' Dash—Miss Pellis, first.

POLITICAL MEETING

Liberal Candidate Expatriates on Virtues of Lower Tariff Wall.

Forceful Speech Enlivens Audience to Punctuate Periods with Generous Applause.

The meeting last Thursday night, addressed by Dr. K. C. McDonald, was well attended by electors and a fair sprinkling of ladies. A. M. McIvor presided, and with him on the platform was George Kirby of Keremeos, who spoke on the general benefits to be derived from reciprocity and urging electors to study their own interests and support this measure, which gave another large market to Canada. As an Englishman and loyal to his King and country, he entertained no fear of annexation or loss of patriotism through adoption of reciprocity.

Dr. McDonald gave one of the best political speeches ever given in Princeton, and was heard with pleasure and profit throughout, being frequently applauded when, with telling effect, he nailed the fallacies of opponents to reciprocity. He traced the history of reciprocity from its birth down to the latest minute of its existence. He asked those who had doubt regarding the loyalty of those making the reciprocity agreement on behalf of Canada, if Ambassador Bryce, who watched the proceedings for Britain, could reasonably be accused of disloyalty. He said the Liberals were charged with treason, but if it was treason for them to advocate reciprocity it must also have been treason for the great Tory leader, Sir John A. McDonald, to warmly support reciprocity. When supported by both political parties, reciprocity must be right. It was the Liberals who gave the preferential tariff of 33 per cent., thus demonstrating their loyalty to the mother country. He said that reciprocity would benefit the great mass of consumers by removing the tax on food, hence the opposition of the food trusts, the pork packers and millionaire manufacturers. He said no province in the whole of Canada would benefit more from the pact than British Columbia; its lumber, fruit growing, fishing, coal mining and coke industries all stand to be greatly benefitted because of the door being opened to a market of ninety millions of people. He said he was a fruit grower and he saw nothing but good to be derived from reciprocity, because it gave the apple grower access to the choice markets and big prices. B. C. apples were the best in the world, as borne out by prizes won at American exhibitions and in London, England. He referred to the pamphlets issued by the Penticton and several other Okanagan

boards of trade, emphasizing the large profits to be made from fruit growing, as high as \$10,875 being made per year from a 20-acre orchard. Such large profits, he said, did not require to be protected with a high tariff. Eighteen millionaire Liberals, including Jack Eaton, of the T. Eaton Co., had bolted from their party because of their fear that reciprocity would benefit the great masses of the people too much and thus diffuse wealth and make prosperity more widespread. Referring to the article in the Vernon News in which he was accused of sanctioning an anti-reciprocity resolution in the board of trade, Dr. McDonald said it was false and utterly without foundation, as he would prove before a Vernon audience. The meeting closed by singing God Save the King.

THE POLITICAL PARTIES.

The standing of the parties in the House of Commons at dissolution was as follows: Ontario—Libs., 35; Cons., 51. Quebec—Libs., 53; Cons., 12. New Brunswick—Libs., 11; Cons. 12. Nova Scotia—Libs., 12; Cons., 6. Prince Ed. Island—Libs., 3; Cons., 1. Manitoba—Libs., 2; Cons., 8. British Columbia—Libs., 2; Cons., 5. Saskatchewan—Libs., 9; Cons., 1. Alberta—Libs., 4; Cons., 3. Yukon—Lib., 1.

EAST PRINCETON NOTES.

East Princeton, Sept. 12.—The graders on the G.N. spur have reached the cement works and are now preparing the side-track for the steel.

W. Ritchie and party, of Summerland, were in town last week, and, before leaving, visited the B. C. Portland Cement Co.'s works and the United Empire coal mine.

The contract for the railway bridge across the Similkameen river has been let to J. McDonald, Victoria, B.C., who arrived today.

TOWN AND DISTRICT.

The Princeton Coal & Land Co. have a large number of men at work enlarging the facilities for producing and shipping coal from their mine.

Section 143, Dominion Election Act, says: Where there is a voters' list, each elector shall be entitled to vote at the polling station of the polling division or one of the polling divisions upon the list of voters for which his name is entered as such voter, and at no other.

The B.C. Cement Co. will shortly produce building brick and are experimenting with a fire clay from Roanie Camp.

Totty Irwin, sister of Bert Irwin, is a visitor and is giving music lessons with Mrs. Waddell.

Has anyone ever heard of the cost of living being increased by removing the taxes levied on food?

Copy for publication as reading matter exclusively or for advertising should be delivered not later than Monday. Address all communications and make cheques payable to J. M. WRIGHT.

LET THE PEOPLE RULE.

Never in the history of Canada has there been a question of greater moment before the electors than the one which will be decided in the ballot box Thursday, 21st inst. Never has any elector had the responsibility of a serious national question borne on him with such force as the present one. On him rests the triumph or defeat of a great principal. Reciprocity, or free trade, means more than the mere momentary benefit to be derived from the free interchange of trade between two friendly nations—it means the emancipation of the people from the dominating influence of concentrated wealth in huge trusts, corporations and millionaire monopolists, all which thrive under the fostering care of protection. The triumph of democracy over aristocracy and despotic wealth has been recently obtained in Britain through the defeat of the lords and the passage of the veto and old age pension bills. In the United States the courts have decided that the principle of protection, or high tariff, is opposed to the welfare of the people as a whole, and the trusts have been forced to disgorge and disband. The president and congress have made it plain that the American people must rule, and we see budding free trade in a measure of reciprocity with Canada. It remains for the voters of the Similkameen and the whole Dominion to accept the proffered hand of friendship from our great neighbor. The United States and Great Britain have just completed a peace treaty in which they are sworn friends. Will Canadians endeavor to annul that treaty of peace between members of the great Anglo-Saxon family by spurning the extended hand of reciprocity? Never!

OUR COURSE DEFINED.

Referring to the necessarily brief announcement in last week's Star regarding the change of ownership of this paper, it may be stated that the policy governing it can be summed up as follows: To at all times advocate and promote the general

good of Princeton and district in the encouragement of enterprise and development of our great natural wealth; to assist in the furtherance of any legitimate movement which will tend to give greater publicity to the inducements offered for the investment of capital and the establishment of large industrial works in the district; to support the principal of 'land for the people and people for the land,' impressing upon the governments and owners of large tracts of coal and grazing lands the necessity for affording opportunities to the small cultivator and homesteader; to revive the Board of Trade and with it to endeavor to obtain a school of mines for the initial purpose of teaching the fundamentals of mining and prospecting; to encourage the moral health of the country by assisting in the due enforcement of the laws controlling vice and the preservation of order; to aid all effort in the judicious conservation of our vast natural resources and wild animal life, and by humble endeavor assist in the promotion of peace and amity between nations, races and creeds, and, finally, exert at least some small influence, through clean, uplifting journalism, to bring about that happy consummation, the brotherhood of man and universal peace.

Politically, the Star has no cause to change its attitude towards the provincial government, knowing that the administration of Premier McBride has been one of progress and abounding development. His masterful railway policy has resulted in the expenditure of many millions of dollars in building lines unthought of by his predecessors in office and which have spurred the province into new life and prosperity. In our local representative, Mr. Shatford, his works will remain a monument to his splendid services and devotion to the welfare of his constituency. No newspaper, unless blind to the interests of the community it serves, could oppose a member who has shown in word and deed that the interests of the people are his also. In Princeton and district improvements in roads, trails, streets and bridges, together with the construction of new highways, are evidences that no partisan, however bigoted, can ignore. Star will not cultivate opposition merely for its sake. On the other hand it will preserve that independence which makes for clean, public life, and its criticisms, tempered with moderation, will be honest and sincere. This paper has nothing to retract regarding reciprocity, standing foursquare in its favor. Stripped of all sentimentality, reciprocity, commends itself to Star purely and simply as a business proposition, and as it has begun so will it end in the greatest campaign ever witnessed in Canada.

Rich Resources

SURROUNDING

EAST PRINCETON

The New City With The Payroll

Give you the opportunity for one of the

SOUNDEST INVESTMENTS

In British Columbia.

CITY LOTS ARE BEING OFFERED FOR SALE FOR THE FIRST TIME.

IT IS INEVITABLE THAT THE VALUE OF THESE LANDS WILL GREATLY INCREASE

Here are some of the Reasons:

East Princeton is surrounded by huge deposits of Coal, Cement, Copper, Gold, and other important Minerals.

The British Columbia Portland Cement Co. is erecting a half a million dollar plant, which will employ between 300 and 400 men.

The United Empire Co. is shipping a lignite coal of the best quality and is developing immense copper deposits, requiring large reduction works and several hundred employees. The Princeton Coal & Land Co. is increasing its daily shipments to 300 tons of coal, providing employment to about 150 men. Other coal companies are spending over \$2,000,000 in development, and will give work to at least 1,000 men.

For transportation, East Princeton will have, in the near future, the Great Northern and the Kettle Valley lines, both of which, will pass through the townsite.

East Princeton is beautifully situated on the Similkameen River, with an abundance of water power available. The new city has every factor for growth into a big industrial centre.

It presents a rare opportunity for investment. Get full particulars immediately.

D. G. McCURDY

RESIDENT AGENT.

Or write RAYMOND E. WARD, Pacific blk, Vancouver.

Sam Spencer and wife and H. Campbell have every reason to be satisfied with development of their mineral properties on Whipsaw, and show some very fine specimens of ore.

Disguised as peddlers or agents a house-to-house political canvass is being made on behalf of food trusts and monopolies. Beware of them, as they report to the head centre.

A novel and unique entertainment is being arranged for Friday, the 29th, by the ladies of the Anglican congregation for the church building fund.

No ribbons, banners or favors to be displayed on election day or eight days previous. All bars to be closed during the whole of polling day. Poll shall be open from 9 a.m. to 5 p.m.

The farmer will get a better price for everything he raises by reason of the ninety million market of reciprocity.

A week from tomorrow, Thursday, 21st September, is election day.

R. Fitzgerald has made a new strike of arsenical sulphides on Whipsaw, which he is having assayed. The samples are very promising.
