

Development of Princeton includes a smelter nearby.

# SIMILKAMEEN

Think no evil, then actions will be right, bearing lovely fruit.

Construction of the B.C. Portland Cement works in full swing—Coalmont, with its immense deposits of coking coal, is a town of great possibilities—Hedley, world-renowned for gold, and Keremeos unexcelled for fruit, the Similkameen is indeed a land of plenty.

PRINCETON, B.C., WEDNESDAY, MAY 10, 1911.

\$2 a Year in Advance

## DIAMONDS ARE PURE

Olivine Diamonds of Excellent Quality; Size Remains for Proof.

Many Claims Staked Already—Ground Requires Prospecting for Larger Gems.

The Canadian diamond has been tested by the greatest gem experts in the world and pronounced equal in quality to the famous product of South Africa, said R. A. A. Johnston, mineralogist and curator of the geological survey, at Ottawa recently according to a press dispatch.

In January last diamonds were discovered on the Olivine mountain in British Columbia. It was the first discovery of its kind made in Canada and Mr. Johnston naturally became greatly interested and sent for specimens of the glittering gems. The discovery soon became noised about and other mineralogist in different parts of the world also became interested.

Among those in whom the discovery awakened a keen interest was Dr. Kunz, the Tiffany gem expert, and one of the foremost authorities on precious stones in the world. He wrote Mr. Johnston from New York and asked him to send specimens of the Canadian diamonds for the purpose of having them tested. Instead of sending specimens, however, Mr. Johnston went to New York himself and took a quantity of the gems with him.

### As Good as the Best.

Dr. Kunz and others were greatly surprised at the beauty of the Canadian diamond and they are now enthusiastically singing its praises. Dr. Kunz made tests with radium in a dark room. The Canadian diamond was placed alongside the South African product and showed itself to be its equal. It phosphoresced the same as any well ordered diamond should.

This particular occurrence is regarded as likely to throw more light on the origin of the diamond than any other occurrence elsewhere. We have been searching through the rock and with the aid of microscopic slides have been able to see the diamond in the rock. This is the first occasion on which this has been done.

While in New York Mr. Johnston gave an address on the Canadian diamond before the New York Mineralogical club at the American Museum of Natural History. He exhibited the diamond and all were enthusiastic about it.

'The quality of the diamond is beyond dispute,' said Mr. Johnston. 'The only uncertain thing about it now is the size.'

J. D. Andras is expected home with his bride on Friday.

## PLATINUM AND GOLD

Dredge will Operate on River Placers to Recover the Precious Metals.

Values in Gold and Platinum Found Running at \$1.00 Per Cubic Yard.

The importance of Princeton district in the eyes of the mining world finds expression in the wide publicity given the discovery of diamonds, and in the successful tests made last winter for platinum and gold in the placers of the Tulameen and Similkameen rivers. It is quite probable that no other section of mineral country in the world of similar area can produce anything like the value or variety of the precious metals and stones found here. The following is from the Victoria Colonist:

The completion by the Great Northern of its line to Princeton is reviving interest in the rich placer grounds in the Similkameen and Tulameen rivers. Princeton is 150 miles east of Vancouver. It was about 15 years ago that placer mining on these rivers ceased. The miners had worked down as far as they could by hand, and it was impossible to transport dredges into the country because of the absence of railway facilities. Last winter several Vancouver men acquired fifteen miles on both rivers and proved some 6000 feet with a Keystone drill. The average taken from the drill holes shows the value of the ground to be more than \$1 a cubic yard in gold and platinum.

### Platinum in Big Demand.

As the Ural mountains in Russia contain virtually the sole known supply of the world's platinum deposits, mining experts attach great importance to the work now in process at Princeton. The Platinum-Gold Fields Co., Ltd., whose personnel includes John McLeod, David B. Boyd, W. C. Brown, John F. Tener, supervising engineer on the ground at Princeton, has purchased an open bucket New Zealand-California dredge with a capacity of 2,500 cubic yards a day, and this dredge will be shipped into Princeton this summer.

In the 6,000 feet already blocked out, the actual value in gold and platinum is estimated at \$1,160,000. The life of the ground blocked out is placed at from five to six years. The scene of present operations is just above the Nickel Plate mines at Hedley, which last year yielded a net profit of \$200,000.

J. E. McCauley returned from Spokane Monday and will start work on the Reco and other mining properties on Copper mountain.

## ROADS AND TRAILS

Member Visits Princeton District and Consults Needs of People.

Trunk Road Has Difficult Link; Trail to Steamboat and Other Mining Camps.

L. W. Shatford, M.P.P., and Road Superintendent Turner are now making a tour of inquisition and inspection of Princeton district, inquiring into the needs of the people and recommending road and trail improvements and construction wherever needed. Mr. Shatford is himself a living example of that progress and thrift which follows personal honor and business energy; he has made good, very good, for the Similkameen district and his name will be written on an unsullied page of history as 'L. W., the promise keeper.'

The trunk road to connect Alberta with the Pacific coast is of deep concern to the member and the difficult link to locate and construct lies between Princeton and the west slope of Hope mountains, most in his constituency. The Fivemile route is being located now by R. H. Parkinson, P.I.S., and will eventually connect with Summerland and Penticton.

### Some of the Public Works.

Of the roads trails and bridges receiving immediate attention the following may be named: Trail to Steamboat, J. Snowden, foreman; Hope trail, S. Spencer; Whipsaw trail, Day & Knight; road to be completed up Tulameen river to West Princeton collieries; extension of Fivemile road, S. R. Gibson; road to Holmes mountain via Deer valley, J. Budd; Wolf Creek road, W. A. Davis and Onemile road, J. Hedley. Extension of sidewalks begun last year, Bridge street crossing at junction of Vermilion av. and other improvements will be carried out.

Mr. Shatford reports the country prosperous and progressive, due largely to the railway policy of the government. He is building a fine country residence on Lake Skaha, a central part of his constituency, from whence he may reach by auto the outlying parts of the Similkameen in a few hours. Being a man of affairs he transacts a large amount of public and private business and is a very busy man, which latter fact caused him to refuse notable invitations to the coronation ceremonies in London. He left for Hedley today on Jim Hill's limited.

J. C. Wilson, representing P. Burns & Co., arrived from Nelson today.

Direct mail from Merritt to Princeton will leave Tuesday mornings, from Princeton on Thursdays.

## THE WEEKLY GRIST

Concert in Aid of Hospital will be Event of Season; Everybody Come!

B.C. Cement Co. Making Superior Quality of Lime—The Band is Organized.

What promises to be both excellent in quality and varied in character is one of those popular entertainments given by the Ladies' Hospital Auxiliary on Friday evening next in the I.O.O.F. hall. The program is of wide range, to suit all lovers of good entertainment. Music, instrumental and vocal, will be presented by new exponents of the art that charms and soothes besides our well known and popular local talent. Recitations, solos, duets, quartets and choruses, dumb-bells, bagpipes, step dancing and orchestra, will be heard and seen with pleasure. The cause appeals to everyone. Come!

Mrs. F. A. Howse returned from a short visit to Nicola last Monday.

W. J. Budd of the B.C. Cement Co., arrived yesterday.

The excellent quality of the lime now being burned by the B.C. Cement Co. is proven by actual use in the masonry for the cellar of the building being erected by Bert Irwin. The masons say that the bond of this lime is much stronger than any other they have used and it slakes in five minutes, other limes taking as many hours. It is a great benefit to Princeton and district to have such a splendid building material nearby.

Rev. J. Williams will officiate morning and evening in the school house, next Sunday, May 14th. A meeting of the Church of England congregation will be held immediately after the evening service.

R. Peterson, coal expert, arrived from Montana yesterday and will examine the coal lands owned by the Great Northern Railway Co.

### LIBELLOUS BRUCE.

The Sunset man again calls the Star a lot of defamatory and libellous names, although nothing but the truth was said in our reply to his column of abuse. He whines like a cuffed poodle because the Star and Hedley Gazette did not endorse his tinpot railway scheme and which the people of this province turned down so unmercifully. No, the Sunset man won't be decent only as he is made to be by men like Mr. Emerson, to whom now he is quite respectful. That seems to be the only course, in which Star is encouraged, by many commendations verbal and written.

The Similkameen Star.

A. E. Howse. SUBSCRIPTION RATE: One Year, \$2.00 Payable in Advance. Subscribers will confer a favor on this office by promptly reporting any change in address or irregularity in receipt of their paper.

NOTES AND COMMENTS.

It will be a matter for congratulation all around if the conciliation board in the big strike of coal miners succeed in bringing about an early settlement of the difficulty between the owners and employees. Taken in the abstract there is never a good reason for a strike or lock-out.

The Senate at Ottawa has taken into consideration the eight hour bill, a measure to make legal and define a working day as consisting of eight hours. There are three natural divisions of the twenty-four hours: work, sleep and play.

Some legislator or government will earn undying fame and the gratitude of millions of people if the tipping system so prevalent in hotels, railway dining and sleeping cars, steamers, and among the various public services, were abolished entirely.

or grafting prevails which is ruinous to the independence, efficiency and character of the employee. It is generally known that a tip works wonders with a waiter, securing prompt and obeisant service—the same applies to all who accept tips.

The Boston News, after eulogizing the resources, climate and people of Canada, says: 'In twenty years the Canadian northwest will be growing more wheat and raising more hogs and cattle than either the United States or Russia, and Canada will be a nation of 20,000,000.'

Princeton board of trade has had a precarious existence during all the past years of depression caused by a dilatory railway construction policy. The board has accomplished all that could reasonably be expected considering its limited membership.

NOTICE.

Similkameen land district, Yale district. Take notice that David Leggett of Princeton, B. C., occupation prospector, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 2 1/2 miles south of the SE corner of lot 911, on east side of the south fork of the Ashnola river, thence north 80 chains, east 80 chains, south 80 chains, west 80 chains, 640 acres more or less.

DAVID LEGGETT. Feb. 21, 1911. C. M. Snowden, agt. Similkameen land district, Yale district. Take notice that Frank Frost, of Vancouver, B. C., occupation inspector, intends to apply for permission to purchase the following described lands: Commencing at a post planted on Crater mountain about 2 miles north of the west fork of the Ashnola river and about three quarters of a mile above the mouth of Cathedral creek, thence west 80 chains, north 80 chains, east 80 chains, south 80 chains to point of commencement, 640 acres more or less.

FRANK FROST. Feb. 23, 1911. C. M. Snowden, agt. Similkameen land district, Yale district. Take notice that Thomas Dixon of Vancouver, B. C., occupation stenographer, intends to apply for permission to purchase the following described lands: Commencing at a post planted on Crater mountain about 2 miles north of the west fork of Ashnola river and about three quarters of a mile above the mouth of Cathedral creek, thence east 80 chains, south 80 chains, west 80 chains, north 80 chains, 640 acres more or less.

THOMAS DICKSON. Feb. 23, 1911. C. M. Snowden, agent. Similkameen land district, Yale district. Take notice that Munroe Charles Wiggins of Vancouver, B. C., occupation broker, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 2 miles north of the west fork of Ashnola river and about 1 1/4 miles below mouth of Cathedral creek, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains, 640 acres more or less.

MUNROE CHARLES WIGGINS. Feb. 23, 1911. C. M. Snowden, agt. Similkameen land district, Yale district. Take notice that Persis Frost of Vancouver, B.C., occupation married woman, intends to apply for permission to purchase the following described lands: Commencing at a post planted on Crater mountain about 2 miles north of the west fork of Ashnola river and about three quarters of a mile above the mouth of Cathedral creek, thence west 80 chains, south 80 chains, east 80 chains, north 80 chains, 640 acres more or less.

PERISIS FROST. Feb. 23, 1911. C. M. Snowden, agt. Similkameen land district, Yale district. Take notice that James Drysdale Lumsden, of Princeton, B.C., occupation bookkeeper, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 2 miles east of the south fork of Ashnola river, 3 miles from its junction with the west fork, thence west 80 chains, south 80 chains, east 80 chains, north 80 chains, 640 acres more or less.

JAMES DRYSDALE LUMSDEN. Feb. 21, 1911. C. M. Snowden, agt. Similkameen land district, Yale district. Take notice that James Rogerson of New York, N.Y., occupation broker, intends to apply for permission to purchase the following described lands: Commencing at a post planted 20 chains north of the west fork of Ashnola river, about 18 miles from its mouth by government road survey, thence west 80 chains, south 80 chains, east 80 chains, north 80 chains, 640 acres more or less.

LOCAL AND GENERAL.

The organization of the Princeton band has been accomplished, the following being officers: H. T. Rainbow, manager; Wm. Knight, leader; S. R. Gibson, assistant leader; G. G. Lyall, sec-treas. Instruments have been sent for and the subscriptions are now due and payable to the secretary treasurer.

Real estate men from Penticton were in town last week taking note of the real estate bargains to be had here and real is expected from their visit.

Knight & Day have struck out for Whipsaw camp and will clean out the trail en route. They expect to work on the Lucky Pair continuously.

The baseball team has been put into playing shape for the season with L. Petrie as temporary manager. A game was played last Sunday with Coalmont resulting in a very decisive victory for the home team.

Don't forget the concert Friday night—a treat is in store for all. Pay at the door. Popular prices, 50 and 25 cents.

The bicycle is speedy, useful, a pleasure to ride and much safer than an aeroplane. Try White's for a bike.

Jas. Reith, brother of Arthur Reith, died at El Paso, Tex., Friday, 5th inst, and will be buried in Vancouver.

G. Murdoch and family left for Enderby today, where he has had an option on some land. Mr. and Mrs. Murdoch are among the earliest residents of Princeton and have many friends who regret their departure.

Summers & Wardle have opened up a butcher shop in the building between Prosser's harness shop and Garrison's livery stable.

Col. Stevenson is expected here soon in connection with the bonding of the Stevenson lost mine.

Wm. Gosnell, of Nelson is in town on a business visit.

Sam Peers is back from Spokane looking much improved in health.

L. Marcotte has sold the Granite Creek hotel to Herbert Goodison who will take possession shortly. The hotel as conducted by Mr. Marcotte during the past three years has been a great convenience to travellers.

Tents for all the people and all purposes at White's. Be in fashion and wear a Panama hat. Onion sets 25c. per lb. at the A. E. Howse Co's.
