SIMILKAMEEN STAR

Measures, not men; country, not party; the people, not a class.

The measure of a country's wealth is in its raw resources, without these it is 'no man's land'—Princeton and district are not excelled in variety or abundance of minerals—A smelter is an immediate necessity—Large gold and platinum dredging propositon in progress.

Vol. XII. PRINCETON, B.C., WEDNESDAY, SEPTEMBER 20, 1911. No. 39.

MINES AND MINING

Activity in all Camps Evidence of Revival of Mining in District.

Voigt Camp Deal Progressing—Prospecting for Platinum-Gold on Rivers.

The deal for Voigt camp is practically complete. Some legal formalities remain to be carried out, Judge Hallett being retained for the purpose. This deal is the subject of much public interest and favorable comment. It means the expenditure of big sums of money and the employment of a large number of men. The proposition embraces a smelter, the location of which will be determined by the railway and other facilities for shipping and operation.

W. C. Fry, of the Platinum Goldfields, Ltd., is superintending the sinking of shafts on their placer lease on the forks of the Tulameen and Similkameen. C. M. Snowden and Sam Moore are carrying out the work, the shafts being timbered and sunk to bedrock. The work is expected to last for several months. Although there is little information to give out to the public, yet it is known that the values recovered are eminently satisfactory. Mr. Fry is an old placerman and knows how to lure the yellow and gray stuff from their hiding places.

It is possible that the Guggenheims, the largest placer miners in the world, will become interested in a big dredging proposition in this section. The 'Guggs' are synonymous with success.

Wm. Murray has left a couple of samples of fine hematite ore at the Star taken from his claims on Onemile He says there is a vast body of this ore and it is

Continued on page 2.

SERIOUS ACCIDENT.

While driving home Friday night in their buggy, Mrs. J. A. Freeman, her son, and Percy W. Gregory were thrown from the carriage which was partially upset by the frightened horse. An engine on the railway near the tunnel caused the mishap. Here the railway and wagon road run closely together until the crossing is reached at the mouth of the cut entering the tunnel. The unprotected condition of the crossing and the railway line being unfenced, make the highway dangerous to travel upon. Precautions against further accidents should be taken at once by those responsible. Mrs. Freeman is seriously injured and confined to her bed and Mr. Gregory suffered contusions which were very painful. Many friends will be glad to see the patients fully recovered.

HAMMER AND SPIKE

Tracklaying on V., V. & E. Winding its Way in Canyons.

Kettle Valley Line, C.P.R., Probably Parallel V.V. Route Along the Tulameen

Tracklaying on the V., V. & E. is progressing as well as could be expected through the Tulameen canyons, where a succession of three bridges across the river retards the railhead. About five miles of steel are now laid. Much difficulty is found in construction of false work, the piles striking bedrock too soon to hold. It is not probable steel will reach Coalmont before November.

As soon as the bridges are laid, five between Princeton and Coalmont, 14 miles, the bridge gang will tackle the spur bridge over the Similkameen, just west of Maplehurst. The B. C. Cement Co. will have the grade ready for the bridge.

The annual general meeting of the Penticton Railway Co. is called for October 18, in Vancouver. This is a branch of the Great Northern running from Chopaca on the V., V. & E. to Penticton.

Although no confirmation can be obtained officially, there is good ground for the general belief that the Kettle Valley line will parallel the V., V. & E. down Otter valley and the Tulameen river to Princeton. It seems there is some insurmountable difficulty in following the original survey from Aspen Grove across country direct to Okanagan Lake. As a tonnage producing route, that via Coalmont and Princeton is probably more inviting.

H. L. P. Chiene & Son have a heavy contract on the Canadian Northern, near Yale.

It is estimated that one hundred million dollars' worth of railway contracts are now let in this province.

EAST PRINCETON NOTES.

East Princeton, Sept. 19.—A general store will be opened in East Princeton in three or four weeks.

Hans Lof is hauling piles for the bridge across the Similkameen on spur.

The main building at the cement works will be completed in about six weeks.

The greater part of the machinery for the cement plant has been ordered and delivery expected in six weeks.

For Sale.—Improved resident property in Greenwood, B.C., or will exchange for improved property in Princeton, B.C. Address A. L. White, Greenwood, B.C.

COALMONT COLLIERY

Tunnel to Tap Coal Making Good Progress; 1600 Feet Entered.

Manager Returns from East After Purchase of Coal Tipple and Mine Equipment.

Coalmont, Sept. 19.—A. S. Williamson, of Williamson & Turner, agents for the Coalmont Townsite, arrived in town on Wednesday week from Vancouver. He is spending a few days making an inspection of the Columbia Coal & Coke Co.'s properties here, and is more than surprized at the great amount of work which has been done by the company in so short a time.

Geo. L. Fraser, general manager of the Columbia Coal & Coke Co., has been absent in Chicago and eastern cities for the past thirty days, where he has been completing the final arrangements for the installation of the company's plant with Messrs. Roberts & Schaffer, of Chicago. While in the east Mr. Fraser also visited some of the largest coal mines in Pennsylvania. He arrived home on Wednesday, being accompanied by Mrs. Fraser.

Excellent progress is being made on Coalmont's first hostlery. This building is being erected for Messrs. Ryan and Marcotte at a cost of about $30,000, and, when completed, will be one of the most palatial hotel buildings in the interior. This structure is 55 x 76 feet in size, three stories and full stone basement. The cost of the heating and lighting plant will be $6,000. It is expected that the building will be ready for occupancy inside of 60 days. The electricians are now busy with the light wiring. The plumbing fixtures arrived in Coalmont last Monday by four-horse team from Merritt, and the work of installation will be proceeded with immediately.

Quite a few other buildings are in course of construction, and contractors are now busy figuring on a number of others to be erected in the near future.

An order for 50,000 feet of lumber has been placed for the erection of a large livery and feed stables.

Six teams are now at work on the first street-grading contract,

D. Deane is to proceed immediately with the erection of an up-to-date hotel building in the centre of the business district, having purchased four lots on Main street for this purpose.

A shipment of 8 tons of Coalmont coal was made on Saturday to Princeton to the order of the B.C. Portland Cement Co., to be used for blacksmithing purposes. This

BIG COAL MEASURES

An Interesting Report on Coal Lands Owned by the Princeton Collieries.

Three Mining Engineers Examine the Property and Favorably Report Thereon.

(Continued from last issue)

"The following are the segregated and aggregate areas:

Kamloops	2,880
Osoyoos	5,680
Yale	9,634
Total	18,194

acres or thereby, which is more than half of the whole area of the coal basin.

"Prospecting on the Similkameen and Tulameen rivers is more difficult than in districts where the strenglh of glacial erosion has been greater, the thickness and widespread mantled drift being from 12 feet to 30 feet wherever proved by drilling operations, and may in some locations exceed this.

"The sedimentary and coal-bearing measures of the Princeton coal basin cover an area of about 50 square miles, or about 30,000 acres, being about 13 miles long by about 4 miles broad at northern end; about 2 miles broad about a mile north of Princeton, Princeton being nearly in the centre; about 6 miles broad about 3 miles south of Princeton and about 3 miles broad at southern end, the southern portion of your property being within the broadest part in which the majority of the coal outcrops and the best of them occur.

The limiting boundary of the coal-basin occurs where the coal measures contact with the crystalline or volcanic rocks which form the hills. These measures show evidences of upheaval forces having occurred greater wherever these contact with the volcanics tilting the coal seams from slight to greater angles, from their primordial depositions, changing their analytical compositions to some extent, forming a very irregular boundary, which in development may be found to debouchement more or less.

The coal-basin consists of several anticlinals and synclinals or foldings and the lowest part of these synclinals, or basin, will very probably be found within one mile south of the Similkameen Valley Coal Co.'s No. 2 Bore by Blakemore.

These coal-bearing measures consist of thick beds of sandstone with fire clays, shales and several seams of coal all of Oligocene Age of the Tertiary Period, with apparently a base of course grained sandstone containing many large rounded white feldspar in a matrix of calcareous

MINES AND MINING.

From First Page.

handy to the proposed Kettle Valley line of railway. Anybody interested in iron would be well repaid by a visit to the claims.

Knight & Day have begun work on the main lead of the Lucky Pair in Camp Whipsaw, and expect to continue all winter producing ore. The large bin has been completed and is the beginning of what may be classed as the operation of a first-class mine.

J. O. Coulthard and Jack O'Neil are engaged on a hydraulic proposition near the old time Hogg property. They have found both platinum and gold and are sanguine of making good cleanups Mr. Coulthard will also begin development work on the Roanie after 1st October.

About 200 tons of coal are being shipped daily by the Princeton Coal & Land Co. Extensive improvements at this mine will double the capacity.

A lot of development work is going on in the various camps, following being some of those who have either proved their properties or are proving them: J. E. McCauley, Copper mountain; Powels & Bonniver, Roche river; Uhler & Cox, Fivemile; Sam Spencer and Hugh Campbell, Whipsaw, and Ernest Rice, Coquihalla Pass.

J. C. Edwards, recently arrived from a trip to Boston, Mass., has engaged a pack train to take in a lot of supplies to Summit Camp. He will be there most of the winter. developing the silver-lead property he has under bond there.

Col. Robert Stevenson returned last week from the Big Plateau and this week he goes to the Coquihalla Pass to find, if possible, a claim he located there some 40 years ago. The veteran is hale and hearty and just as ambitious as when a young man.

Geo. Aldous and P. Larson are prospecting and developing their properties along the Hope range.

Mr. Bateman, of the Camsell geological party, visited the Lucky Pair and said it was a promising proposition. He said there was a highly mineralized zone and the lead was a true ficsure with the possibility of others being found in the zone He camped at the Lucky Pair and examined as much of Whipsaw as time permitted.

RELIGIOUS SERVICES.

No Anglican church service in Princeton next Sunday, 24th inst. The Rev. J. Williams holds monthly service at Hedley.

Methodist, church service, Sunday, Sept 24. In Oddfellows' hall, at 7:30 p.m. Service at the cement works at 3 p.m.

Presbyterian church services —Sunday school, 11 a.m. Evening service in the court house, 7:30. Coalmont—Morning service, 11 a.m.

Christian Science lesson-sermon subject, Sept. 17: 'Reality.' Happy is the man that findeth wisdom, and the man that getteth understanding. She is a tree of life to them that lay hold upon her: and happy is everyone that retaineth her. —Proverbs 3: 13, 18.

BUNGLALOW BUILDINGS.

T. C. Brooke is building a house 30 x 32 on his acreage adjoining that of Dr. Westwood and which has been planted with fruit trees. He intends raising poultry on a large scale and will erect ten colony houses for that purpose. He will also erect a barn in which to house a fine crop of oats and other farm products. It is his plan to flume water from the river for irrigating purposes. Dr. Westwood will also build a house for his own use on the flat next spring.

TOWN AND DISTRICT.

Prof. Brownell is on a professional visit to Princeton tuning the king of instruments.

For Exchange.—Five pieces of resident property in Greenwood, B.C., that brings owner approximately $1,000 per year, for improved property or ranch in the Similkameen district. Address A. L. White, Greenwood, B.C.

Neil Houston has a beautiful pair of buck horns with five tines in the velvet, which are attracting the admiration of hunters and connoisseurs. Not many trophies from the mountains have been brought in thus early in the season. Deer and sheep are said to be plentiful this year.

Mr. Turner, of Williamson & Turner, the well-known Coalmont and Vancouver real estate firm, was in town this week and reports a bright outlook at both places. With large mining and coke works at Coalmont, the prosperous future of that town is assured. Mr. Turner was a number of years at Phoenix and other parts of the Boundary.

ROD AND GUN.

The best sporting journal published in Canada is undoubtedly Rod and Gun, i s every issue presents something new and of interest to all lovers of sport. It is hoped one of its specialists will be able to visit the Similkameen and see for himself the big game to be found in the mountains and give the readers of this excellent magazine the benefit of his observations. Rod and Gun is published by W. J. Tayloa, Ltd., Woodstock, Ont.

STAR.

Readers are respectfully asked to bear with Star while it reasons a little on that unpleasant subject 'shop.' With this issue the paper is enlarged and improved. Reading matter of this issue, although not up to the standard aimed at, affords an idea of the amount of space to be devoted to this department. A specialty will be made of local and mining news, which, with the help of those interested, will be made a source of profitable information for all. As Star is prospered it will add new features, embracing an up-to-the-last-minute telegraphic summary of the world's events, special illustrated and descriptive articles and a digest of current thought in the realms of science, sport, religion, sociology and invention. As a newspaper it will admit of nothing yellow in its pages. The recital of crime in all its sensational horrors, brutal sports and the exposure of unfortunates to public gaze will not be tolerated in these columns. Correspondence is invited from anyone who desires to put his or her opinions on any subject of public interest in print and in printable language. Whether a real or fictitious name is appended to the articles matters not, that is purely a question of taste for the writer to decide, but the author's real name must be given to the editor as a condition of good faith and honesty of purpose. In politics the Star will not be hidebound, reserving the right to change its creed to accord with the rights of the people and as intelligent consideration of legislative acts seem to demand.

In business Star will urge a return to the cash system, and, by example and precept, endeavor to bring about that happy condition laid down in the great law: 'Owe no man anything.' The grinding misery and hardships caused by debt, fills the prison cells with all kinds of criminals, makes the bookkeeper tear his hair and pushes not a few over life's cliff. The government, railway corporations and trusts do business on the cash basis, and there is no reason why lesser companies and individuals may not enjoy the comforts afforded by king cash. Everybody admits that cash is the proper principle, and once it is established it will be popular with all merchants and customers generally.

Today ends the most strenuous political campaign in Canada. Tomorrow and tomorrow will be all the brighter and better for the pending victory for reciprocity. No word now will have any influence for or against it. The die is cast and the proverbial handwriting is on the wall. Canada will immensely add to her already good reputation among the nations of the world by the adoption of a principle that stands for equality, justice and freedom.

LOCAL AND GENERAL.

Election of school trustee on Saturday. This has nothing to do with reciprocity.

Len Huston is nursing a swollen arm and hand as the result of probable blood poisoning resulting from cleaning some machinery at the waterworks pump.

Victor Voigt, in a talk with the dramatic critic of the Star, emphasized the necessity for producing a play early in the season and the formation of a club. Vic has a long roll of stage achievements to his credit, and, as actor-poet-writer, was a star among the alumni of his college. A dramatic club is all right.

A. M. McIvor, Presbyterian student missioner, who has so successfully filled the pulpits here and at Coalmont, will leave shortly to resume his studies in theology at Vancouver college. He has made many friends who will wish him success in his high calling. He will be succeeded by Mr. Gibson, a graduate of the above college.

R. L. Cawston, a prominent cattleman and oldtimer of Kersmeos, was shaking hands with pioneers here last week. He is largely interested in the deal which disposed of the Lowe ranch. It is proposed to use this ranch for cattle raising purposes, an industry for which it is well adapted.

Mrs. F X. Richter, of Keremeos, was a visitor last week, and inspected her large land holdings here.

A heavy frost Sunday night has put much of the garden stuff out of business.

Born—On the 8th inst, the wige of F. Darragh, a danghter.

The father of Mrs. C. Saunders, at one time resident of Princeton, passed away yesterday at Dunkirk, Indiana.

C. J. Wilson, inspector for P. Burns Co., was in town last Thursday.

R. E. Ward, the energetic real estate agent for East Princeton, was in town a few days recently, leaving for Vancouver today He is very pleased with the outlook here.

F. A. Howse and wife returned from a visit to the coast last week, travelling via the great scenic route over the Hope mountains.

K. C. Brown returned from New Westminster last Saturday, where he was visiting relatives.

R. H. Carmichael enjoyed holidays at the coast recently and took in the great lacrosse match, when the 'bellies' went down to defeat with honor.

Vote for protection and a restricted market. Vote for reciprocity and buy where you can buy the cheapest in the unrestricted market.

Rich Resources

SURROUNDING

EAST PRINCETON

The New City With The Payroll

Give you the opportunity for one of the

SOUNDEST INVESTMENTS

In British Columbia.

CITY LOTS ARE BEING OFFERED FOR SALE FOR THE FIRST TIME.

IT IS INEVITABLE THAT THE VALUE OF THESE LANDS WILL GREATLY INCREASE

Here are some of the Reasons:

East Princeton is surrounded by huge deposits of Coal, Cement, Copper, Gold, and other important Minerals.

The British Columbia Portland Cement Co. is erecting a half a million dollar plant, which will employ between 300 and 400 men.

The United Empire Co. is shipping a lignite coal of the besl quality and is developing immense copper deposits, requiring large reduction works and several hundred employees. The Princeton Coal & Land Co. is increasing its daily shipments to 300 tons of coal, providing employment to about 150 men. Other coal companies are spending over $2,000,000 in development, and will give work to at least 1,000 men.

For transportation, East Princeton will have, in the near future, the Great Northern and the Kettle Valley lines, both of which, will pass through the townsite.

East Princeton is beautifully situated on the Similkameen River, with an abundance of water power available. The new city has every facter for growth into a big industrial centre.

It presents a rare opportunity for investment. Get full particulars immediately.

D. G. McCURDY

RESIDENT AGENT.

Or write RAYMOND E. WARD, Pacific blk, Vancouver.

COALMONT NEWS.

From First Page.

consignment was taken from the Columbia Coal and Coke Co.'s No. 3 tunnel, which is situated a few hundred feet above the town.

The Coal Company's working tunnel is now in 1,600 feet, and is being driven at the rate of 250 feet per month. Inside of the next thirty days there will be between 100 and 150 extra men put to work on the company's tramline and tipple. The plant will be rushed in as soon as rail connection is made with Princeton.

Dr. Johnston, of Regina, who has been spending the summer as the guest of his brother, J. T. Johnston, vice-president of the Columbia Coal & Coke Co., left for the coast to-day. Mrs. Johnston and children preceded him a few days ago. The doctor has been recovering from a severe attack of typhoid, contracted in Regina, and, under the influence of the delightful climate of the Similkameen, his convalescence has been rapid.

Geo. D. Turner, of the firm of Williamson & Turner, real estate agents, of Vancouver, has been spending a week in town in the interests of his firm, who opened a brance office here some time ago for the purpose of handling the sale of the townsite. He will leave in a day or so for a trip through the Similkameen valley.

On Saturday evening last, Miss Marjorie Fraser entertained at cards. About twenty of her friends spent a very enjoyable evening at progressive whist.

On Monday evening last H O. Heimbecker celebrated the completion of the the first business block in Coalmont by holding a dance for his friends in the new building. It will be occupied in a few days by Fred Lawney, who is opening a pool room and tobacco shop.

After the summer holidays the Coalmont public school opened in a temporary building under the charge of Miss McQueen, a graduate of McGill university. There is already a good attendance and steps are being taken to hurry along the erection of an adequate building, as the number of pupils is bound to increase very rapidly.

FIVEMILE NOTES.

Fivemile, Sept. 18.—Engineer Cooley, of the Kettle Valley line, has made several reconnaisances for a lower grade between here and Aspen Grove. He has little to say, but showed your correspondent a fine specimen of ore from the summit.

Hank Snibley is building a house for Percy Wright at the Meadows.

C. V. Semerad is having his house constructed quickly by John Lodge, foreman, who has with him J. McDonald, Hugh Finnegan and H Daly. The building will serve as a road house and will be known as the Fivemile House.

Everything looks prosperous around Fivemile. New settlers and improvements are in evidence everywhere. All that is needed is the Kettle Valley to make prosperity hum. The railway is expected here next year.

B.C. MAGAZINE.

The one monthly publication which takes pride in telling of the industries and resources as well as the natural beauties of this province is the B.C. Magazine, edited by Pollough Pogue. From cover to cover it is a mine of information and profitable entertainment. No British Columbian, be he oldtimer or newcomer, can afford to be without this magazine, now that the reading season has come again with its perennial precision. See the September number and subscribe.

Coalmont

A legitimate Investment Today

MOST PEOPLE want to invest their money where they are reasonably sure of a good return. If the investment is to be made in real estate there are several things to be considered: The situation of the town, climatic conditions, transportation facilities, and primarily the amount of the monthly payroll. When these questions are asked regarding Coalmont they may all be answered to the credit of the town. The situation and climatic conditions are ideal; the main line of the V.,V. & E. railway runs through the town on its way to Vancouver.

The Columbia Coal & Coke Co. operating here have practically an inexhaustible supply of a pure bituminous coal.

They are installing immediately a plant which will handle 2000 tons of coal in 8 hours—this means employment for between 800 and 900 men all told.

Figure out this payroll and see how many coal mining towns in B C. can beat it.

In a very short time Coalmont will necessarily have a population of from 2000 to 2500 people. Will this cause real estate to rise? We all know the answer. Then take the opportunity that presents itself now—buy first hand and reap the benefit of this increase.

The prices and terms are such that anyone can afford to invest to the extent of one or two lots. They range from $175 to $550, on terms of ¼ cash, balance over 18 months.

The Similkameen Star

Oldest Established Paper in the District

HISTORICAL

On March 31st, 1900, the light of the Star first reached the earth. That will be 12 years ago next birthday. It was at first issued as an eight-page paper by Jas. Anderson, who, owing to the delay in railway construction and the consequent lack of progress, transferred his interests to A. E. Howse, on March 1st, 1902. For nearly nine years Mr. Howse has been owner of the Star, excepting one year when B. Stone Kennedy operated it. Mr. Kennedy transferred his interests to Mr. Howse and the paper has remained in his ownership until recently transferred to J. M. Wright, who is managing editor of the Princeton Printing and Publishing Co. The Star is now printed in eight-page form, affording all the space for news and advertising that the town requires. It is intended to keep the Star fully abreast of the times, both in the mechanical and editorial departments. A new office building, linotype machine, jobbing plant and presses are proposed. To accomplish all in the program laid down the patronage of the public is vital. Send along your subscriptions, advertisements, and job printing. No newspaper can live without them. The interests of Princeton and district will be maintained and defended by the Star to the best of its humble ability—your patronage is courteously invited.

J. M. WRIGHT,

P.S.—It is intended to run the Star on a Cash basis, a system that is in vogue with successful newspapers. The necessarily small amounts for subscriptions entail too much labor to render bills, and, in future they must be prepaid.

BIG COAL MEASURES.

From First Page.

material.

The Similkameen river flows in a northerly direction and the Tulameen practically in an easterly course through the northern portion of the coal-basin to their confluences at Princeton and thereafter still easterly.

These two rivers with their tributaries, One-mile or Grave yard, Summers, Empire, China, Findlay, Bromley, Stevenson, Nine-mile, and Whipsaw Creeks, by their erosions, and with denudation show numerous exposures of the sedimentary or coal-bearing measures containing several excellent coal outcrops.

Mr. Dawson ascribes the metamorphism and color of the rocks at the Vermilion bluffs to the combustion of an underlying bed of lignite. Some of the beds of lignite have been completely destroyed by combustion.

No 1 Tunnel several 100 feet into, No. 1 Coal-seam (2100 feet altitude) 20 feet thick with fire clay parting 1ft: 10in. on on top, is being worked by the Vermilion Forks Mining & Development Co., at Princeton (2,100ft). The slope 6½ x 9½ x 600ft and aircourses have been driven in upper bench of coal, having a vertical shaft 8ft. x 8ft. x 62ft. and main tunnel 6ft. x 7ft., with about 2,000ft. of underground workings. They have a plant capable of producing and handling about 200 tons daily.

No. 2 Tunnel 90ft. into No. 2 Coal-seam (2,140ft.) outcrop 9ft. thick was found about 40ft. above No. 1 Coal-seam on the east side of the Similkameen river directly above the waggon bridge which crosses the river for supplying coal to Princeton for domestic use.

No. 3 Tunnel 80ft. into No. 2 Coal-seam (2,120ft) cutcrop 9ft. thick on the west bank of the Tulameen river above the waggon bridge which crosses the river. Dip S 20 degrees W 18 degrees.

No. 4 Tunnel 30ft. into and diagonally across No. 2 Coal-seam (3,050ft) outerop 12ft. thick, in the north east corner of Lot 87 on the south fork of Findlay Creek Dip E 60 degrees.

About one mile south of No. 4 Tunnel is a large outcrop of coal and shale (2,950 ft.) similar to that on Findlay Creek, on Bromley Creek in the south-east corner of Lot 385.

No 5 Tunnel 35ft. into No. 3 Coal seam (2,100ft) 3ft. 4in. thick at face of tunnel with fire-clay pavement o. floo in south west corner of Lot 1822 on east bank of the Similkameen river, about one mile southwest of tunnel No. 1 at Princeton. Dip S 25 degrees and appears disturbed.

No. 6 Tunnel 45ft. into No. 3 Coal-seam (2,100ft) 3ft. 4in. thick at face of tunnel near the northern boundary of Lot 243 on the east bank of the Tulameen river. Dip S 20 degrees E 20 degrees.

No. 7 Tunnel, east end of Great Northern Railway Company 1,000ft. long, No. 3 Coal seam [2,115ft] has been cut over 4ft. thick. Dip same as V. F. M. & D Co. coal-workings. S 10 degrees W 9 degrees. The pavement or floor of this seam is a coarse grained sandstone. On Findlay Creek this same sandstone is a coarse grained sandstone. On Findlay Greek this same sandstone is found, above which the same coal-seam may probably be found.

No. 7 Tunnel west end of Great Northern Railway Company 1,000ft. long, 150 ft. in upper bench of No. 4 Coal-seam [2154ft] showing 7ft. part of seam only. Dip S 10 degrees W 14 degrees.

No 8 Tunnel 80ft. into No. 4 Coal-seam [2,300ft.] 8ft. thick near the centre of southern boundary on south bank of Tulameen river of Lot 244 Dip S 9 degrees. Roof shale carrying fern fossils.

(To be continued in next issue.)

NOTICE.

Yale land division, Yale district.

Take notice that Lydia L. French, of Evanston, Ills., occupation wife of C. O. French intends to apply for permission to purchase the following described lands: Commencing at a post planted about one mile west of the south west corner of Charles Bonniviers' pre emption on Roche river and marked Lydia L. French's S E corner, thence 80 chains west. 40 chains north, 80 chains east, 40 chains south to the point of commencement, and containing 320 acres, more or less. LYDIA L FRENCH,

July 29, 1911. Chas. O. French, agent

Yale land division, Yale district.

Take notice that Chas. O. French, of Princeton, B. C., occupation tinsmith intends to apply for permission to purchase the following described lands: Commencing at a post planted at the south west corner of Chas Bonnivier's pre-emption on Roche river marked C. O French's n w corner thence 80 chains east, 40 chains south, 80 chains west, 40 chains north to the point of commencement and containing 320 acres more or less. CHARLES O. FRENCH,

July 29, 1911.

Yale land division, Yale district.

Take notice that Nicholas Codd, of Colfax, Wash., occupation farmer intends to apply for permission to purchase the following described lands. Commencing at a post planted at the southeast corner of Gus. Powell's pre emption and marked Nicholas Codd's s w corner thence 80 chains east, 80 chains north, 80 chains west, 80 chains south to the point of commencement and containing 640 acres more or less. NICHOLAS CODD,

July 26, 1911. Charles O. French, agent

Yale land division, Yale district.

Take notice that Susan Nokes, of Spokane, Wash., occupation wife of Aaron Nokes intends to apply for permission to purchase the following described lands. Commencing at a post planted on the northwest bank of Roche river about two miles from the mouth of Cambie creek and marked Susan Noke's n e corner, thence 80 chains west, 80 chains south, 80 chains east, 80 chains north to the point of commencement and containing 640 acres more or less.

SUSAN NOKES,

Aug. 4, 1911 Charles O. French, agent.

Yale land division, Yale district.

Take notice that John Gifford, of Spokane, Wash., occupation cattleman, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the mouth of Cambie creek on the northwest bank thereof and marked John Gifford's n e corner thence 80 chains west, 80 chains south, 80 chains east, 80 chains north to the point of commencement and containing 640 acres more or less.

JOHN GIFFORD,

Aug 2, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Nettie Laird, of Spokane, Wash., occupation musician intends to apply for permission to purchase the following described lands: Commencing at a post planted at the mouth of Cambie creek on the northwest bank thereof and marked Nettie Laird's s w corner thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to the point of commencement and containing 640 acres more or less,

NETTIE LAIRD,

Aug. 2, 1911. Charles O. French, agent

Yale land division, Yale district.

Take notice that Bridget McGovern, of Spokane, Wash., occupation housekeeper intends to apply for permission to purchase the following described lands. Commencing at a post planted about 8 miles west of the mouth of Copper creek marked Bridget McGovern's n w corner thence 80 chains south, 80 chains east, 80 chains north, 80 chains west to the point of commencement and containing 640 acres more or less.

BRIDGET McGOVERN,

Aug. 1, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Edward A. Nokes, of Spokane, Wash., occupation coachman, intends to apply for permission to purchase the following described lands: Commencing at a post planted about two miles northwest of the mouth of Cambie creek about 40 chains northeast of said creek and marked E A Nokes' n e corner thence 80 chains south, 80 chains west, 80 chains north, 80 chains east to the point of commencement and containing 640 acres more or less.

EDWARD A. NOKES,

Aug. 4, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Henry Magee, of Spokane, Wash., occupation clerk, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 8 miles west of the mouth of Copper creek marked Henry Magee's n e corner thence 80 chains south, 80 chains west, 80 chains north, 80 chains east to the point of commencement and containing 640 acres more or less. HENRY MAGEE,

Aug. 1, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Margaret Durgan, of Spokane, Wash., occupation wife of Michael Durgan, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 8 miles west of the mouth of Copper creek marked Margaret Durgan's s w corner, thence 80 chains east, 80 chains north, 80 chains west 80 chains south to the point of commencement and containing 640 acres more or less.

MARGARET DURGAN,

Aug 1, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Tessie Warren, of Evanston, Ill., occupation stenographer intends to apply for permission to purchase the following described lands: Commencing at a post planted on the northwest bank of Roche river about two miles from the mouth of Cambie creek and marked Tessie Warren's s w corner thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to the point of commencement and containing 640 acres more or less.

TESSIE WARREN,

Aug. 4 1911. Charles O French, agent.

Yale land division, Yale district.

Take notice that Mary Kelly, of Spokane, Wash., occupation married woman intends to apply for permission to purchase the following described lands: Commencing at a post planted on the northwest bank of Roche river about two miles from the mouth of Cambie creek and marked Mary Kelly's s e corner, thence 80 chains north, 80 chains west, 80 chains south, 80 chains east to the point of commencement and containing 640 acres, more or less.

MARY KELLY,

Aug. 4, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Horace Gifford, of Spokane, Wash., occupation cattleman intends to apply for permission to purchase the following described lands: Commencing at a post planted at the mouth of Cambie creek on the northwest bank thereof and marked Horace Gifford's n w corner, thence 80 chains south, 80 chains east, 80 chains north, 80 chains west to the point of commencement and containing 640 acres more or less.

HORACE GIFFORD,

Aug. 2, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that William H. Bell, of Chicago, Ills., occupation electrician intends to apply for permission to purchase the following described lands: Commencing at a post planted about seven miles up the Roche river from its mouth and about ten chains north of said river and marked W. H. Bell's n w corner thence 80 chains east, 80 chains south, 80 chains west, 80 chains north to the point of commencement and containing 640 acres more or less.

WILLIAM H. BELL,

Aug. 4, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Mary Laird, of Spokane, Wash., occupation wife of F. C. Laird, intends to apply for permission to purchase the following described lands Commencing at a post planted about 3½ miles up the Roche river from its mouth and about ten chains northwest of said river and marked Mary Laird's n e corner thence 80 chains south, 80 chains east to the point of commencement and containing 160 acres more or less.

MARY LAIRD,

Aug. 4, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Ella Warren, of Evanston, Ill., occupation clerk, intends to apply for permission to purchase the following described lands: Commencing at a post planted about six miles up the Roche river from its mouth and about 40 chains northwest of said river and marked Ella Warren's SW corner thence 80 chains east, 80 chains north, 80 chains west, 80 chains south to the point of commencement and containing 640 acres more or less. ELLA WARREN,

Aug. 4, 1911. Charles O French agent.

Yale land division, Yale district.

Take notice that Andrew Laidlaw, of Spokane Wash., occupation mining broker, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the west bank of the Similkameen river about 60 chains north of the mouth of Roche river marked Andrew Laidlaw's NE corner thence 40 chains west, 80 chains south, 40 chains east, 80 north to the point of commencement and containing 320 acres more or less

ANDREW LAIDLAW,

July 28, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Jeffrey R. Short, of Spokane, Wash., occupation clerk intends to apply for permission to purchase the following described lands Commencing at a post planted at the southwest corner of timber limit No. 3686 and marked J R. Shor.'s NE corner thence 80 chains south, 80 chains west, 80 chains north, 80 chains east to the point of commencement and containing 640 acres more or less. JEFFREY R. SHORT,

July 27, 1911. Charles O French, agent.

Yale land division, Yale district.

Take notice that Lee Bell, of Spokane, Wash., occupation stenographer intends to apply for permission to purchase the following described lands: Commencing at a post planted about one mile up the Roche river from its mouth and on the north bank thereof and marked Lee Bell's SW corner thence 40 chains north, 40 chains east 40 chains south 40 chains west to the point of commencement and containing 160 acres more or less. LEE BELL,

July 28, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Elizabeth C Laird, of Spokane, Wash., occupation widow intends to apply for permission to purchase the following described lands: Commencing at a post planted about 2½ miles up the Roche river from its mouth on the northwest bank thereof and marked E C Laird's SE corder thence 80 chains north, 80 chains west, 80 chains south, 80 chains east to the point of commencement and containing 640 acres more or less.

ELIZABETH C. LAIRD,

July 29, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Frederick C. Laird, of Spokane, Wash., occupation broker, intends to apply for permission to purchase the following describe lands: Commencing at a post planted about 2½ miles up the Roche river from its mouth and on the northwest bank thereof and marked F. C. Laird's NE corner thence 80 chains west, 80 chains south, 80 chains east, 80 chains north to the point of commencement and containing 640 acres more or less.

FREDERICK C. LAIRD,

July 29 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Clara G. Laidlaw, of Spokane, Wash., occupation wife of Andrew Laidlaw, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 2½ miles up the Roche river from the mouth of said river on the northwest bank thereof and marked C. G. Laidlaw's NW corner thence 80 chains east, 80 chains south, 80 chains west, 80 chains north to the point of commencement and containing 640 acres more or less

CLARA G. LAIDLAW,

July 29, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that Jennie O'Laughlin, of Spokane, Wash., occupation teacher intends to apply for permission to purchase the following described lands: Commencing at a post planted about three miles south of the mouth of Pasayton river and about ten chains west of said river marked J. O'Laughlin's SW corner thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to the point of commencement and containing 640 acres more or less.

JENNIE O'LAUGHLIN,

July 29, 1911. Charles O. French, agent.

Yale land division, Yale district.

Take notice that William A. Nicholas, of Spokane, Wash., occupation broker, intends to apply for permission to purchase the following described lands. Commencing at a post planted about two miles north of the mouth of Roche river and one mile west of the Similkameen river and marked W. A. Nicholas' SW corner thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to the point of commencement and containing 640 acres more or less.
