No choked pipes or flues if Princeton coal is used.

SIMILKAMEEN STAR

The Bible is the salt that preserves men from savagery.

Two railroads will serve Princeton and district in the near future; the Great Northern (V., V. & E.), is already here and the C P.R., (K.R.V.), is building—Investments made now will increase rapidly—Large industrial enterprises will be established.

Vol. XII. PRINCETON, B.C., WEDNESDAY, NOVEMBER 15, 1911. No. 46.

RAILS TO COALMONT

Another Short Stretch of Line Completed Toward the Coast.

Construction on the Kettle Valley is Active at Penticton—Survey Coquihalla Pass.

Chief engineer of construction on the V.V., & E., J. H. Kennedy, recently inspected the survey of Coquihalla Pass and it s reported that still another route will be surveyed to obtain better grades.

Rails were laid to Coalmont last Friday completing the section from Princeton and adding 14 miles in two years to the completed V.V. in the Similkameen. This is not very swift railroad construction and is evidence of nature slowing down in Jim's old age—quite different now to the days when he used to slide the gang plank out on a Missouri flat boat and hustle the hoboes ashore. But the people are glad to have another short stretch of rails and hope for the early completion of the line to the coast.

J. G. McLean, contractor on the east end of the Kettle River Valley railway, was in town this week and reports progress on construction. He will probably take a large slice of grading between Penticton and Princeton and will make the latter base of supplies. He looks forward to great railway construction activities next spring. A race is expected between the K.V. and V.V. through Coquihalla pass. Mr. McLean is a brother of the 'laird of Ashnola,' the future smelter town.

M. Irwin, relief agent on the Great Northern, was at the station here for a few days recently. The freight business and passenger traffic have increased at such a rate that a larger staff of clerks is urgently needed.

Superintendent Morgan, Trainmaster Doyle, District Freight and Passenger Agent Smith, all of the Great Northern, were here last week sizing up the growing importance of Princeton. Nothing definit could be elicited from them regarding the disjointed train service now in vogue between here and Spokane.

KETTLE VALLEY RAILWAY.

Construction Begins From Penticton Toward Princeton.

The contractors for the first five mile stretch of track for the Kettle River Valley Railroad, out of Penticton, arrived in town this week. They are L. M. Rice and Alfred Anderson, of the firm of Rice & Company, Vancouver and Spokane, and Gus Beck, who will practically have charge of the work. Four cars of material arrived about the same time at Keremeos, and are being hauled to Penticton by road. Almost the whole of the material was shipped from Spokane through Keremeos, but in future it will be sent through Vancouver and down the lake, thus saving considerable time and haulage.

Only five miles of the road have been let on the west side, as the question of running into Summerland, or not, has not yet been settled. The contractors have not, therefore, brought in any large machinery for the present, and will proceed with the work by manual labor, pending the decision of the directors.

It is estimated that at least 250 men will be employed, the contract calling for the section to be finished early in the spring. The contractors are endeavoring to get permission from the agent to form a camp on the Indian Resrve Little difficulty is expected, in obtaining his consent. All the necessaries for the camp will be purchased in town, and contracts have already been made, with several of the storekeepers, for groceries and other goods.

In a statement made to the Herald representative, Mr. Rice said his firm had the contracts on the east and west sides of the lake, about 75 miles in all. That towards Merritt will be proceeded with as soon as the Summerland grades are ascertained. Mr. Rice has covered the district around Penticton, and estimates by the time the railway is ready to handle the fruit crop of 1913, the production will amount to 12^ cars.

The station, freight sheds and roundhouses will be built by the K. R V. R. Co., under the supervision or Mr. Kierstead.—Penticton Herald

TOOK FIRST ON 'SPUDS.'

By winning the Stillwell trophy and $1,000 at the Great Pan-American Exhibition at New York Saturday, British Columbia has earned the reputation of growing the best potatoes on the North American continent. The exhibit which gained this reward consisted of 101 varieries drawn from all sections of the province, aggregating in weight about one and a half tons. The credit for the display rests entirely with the Department of Agriculture. The entire province was scoured to secure the finest specimens and W. E. Scott, Deputy Minister of Agriculture and those who assisted him in the task deserve the highest praise for the new honor which they have won for the province. The exhibit was in charge of Mr. Ashahel Smith, the "Potatoe King." of British Columbia.

The annaul hospital benefit ball at Hedley will be given Friday, Jan. 19, 1912, the announcement being made early to avoid any conflict of dates. It will be masquerade and the committee will spare no effort to make it an enjoyable occasion.

MINES AND MINING

Coal, Ore and Placer Mining Basis of Wealth in this District.

Friday Creek Mining Property Inspected in Behalf of Large Metal Companies.

The Princeton Coal & Land Co. have a large force of miners and surfacemen employed. Details of the work done will be referred to in extenso in a subsequent issue.

Fred Keffer, E. P. Wheeler and H. H. Shallenberger, general manager of the International Iron and Steel Co., were here last week and went to Friday Creek to inspect Mr. Wheeler's mineral property. A large number of ore samples were taken. It is twenty years since Mr. Wheeler located his claims at Friday Creek. the only drawback to their becoming producing mines being lack of transportation. He is pleased to know that the government in running its direct transprovincial wagon road has touched Friday Creek, giving him much needed freight transportation. The party rode to Ashnola in the first automobile to reach farthest up the Similkameen river. Mr. Wheeler will winter in Los Angeles, returning here in the spring.

The B.C. Copper Co. is pushing development and exploratory work at Voigt camp with a strong force of men. Machinery has been installed and work is well advanced.

Wm. Wilson is working on the Virginia group of mineral claims near Whipsaw Creek and expect to strike the ore body in a tunnel he is driving. He has had some very good assays. The conutry formation is of schist and granite contact.

The city of Winnepeg will in future confiscate coal and wood short in measure or weight and will prosecut all guilty dealers with the object of giving them a term in the penitentiary.

THE WINTRY BLAST.

A touch of real winter weather broke into the fine fall last week and now the ground is covered with beautiful, white—of course, fluffy snow. Ah, the snow. How it cheers, and brightens the face of nature. And the kids, old and young, just revel in it. The present fall of 15 inches is the earliest on record for sleighing. And the thermometer dropped below zero so suddenly that a man was caught with his potatoes undug in his garden. They will be planted 'all right' for next year's crop. Since the snap the weather has moderated and predictions are freely made that an open winter will result from the unprecedented cold, 17 below, and great snowfall. At the coast, on the prairies and far east there was a succession of blizzards causing damage and hardship. The pranks of Jack Frost in the Similkameen will cause some loss in bitten vegetables, but no very serious damage has been reported. The weather today is superb and mild with prospects of a gentle winter.

EAST PRINCETON NOTES.

East Princeton, Nov. 13.—W. C. Reeve and W. W. Robson, of Vernon, B. C., were in town last week on business.

The pile driver is at work driving piles on the south bank of the river for the bridge approach.

The United Empire Mining Co. has struck a new seam of coal of excellant quality with sandstone roof and foot wall.

The masons have finished the walls of the coal drying house at the cement plant and have commenced work on the large stock house.

Plans are being prepared for the Methodist church on the corner of 7th ave. and Portland street on which work will be started at once.

THOMPSON—WILLIAMS.

The marriage of Neil Thompson, of Princeton, to Miss Clementine Williams, of Riverside, Wash., was solemnized on the 8th inst. at the residence of C. L. Cummings, Kenley ave. by the Rev. A. H. Cameron, of Keremeos, assisted by the Rev. T. A. Osborne, of Princeton. Miss E. Lyall was bridesmaid and Dr. McCaffery assisted the groom throughout the trying ordeal, the pretty ceremony being witnessed by a number of intimate friends of the contracting parties. STAR bids the happy couple a fair voyage over life's solemn main in which it is joined by congratulations of many friends.

COALMONT NEWS.

Coalmont, Nov. 10.—The tracklaying gang of Guthrie & Co., finally arrived at Coalmont today, and the toot of the locomotive was heard for the first time in this vicinity. The arrival of the rails at Coalmont marks another step in the progress of the V. V. & E. R'y towards Vancouver. There is every reason to believe now that this line will be pushed on to completion in the shortest possible period, and when finished will bring Coalmont to within 152 miles of the coast metropolis, a matter of a few hours ride.

That building operations will continue during the winter is vouched for by the fact that tenders are being called for the erection of several business blocks. Mr. McTavish, the pioneer merchant of the town is receiving tenders for the immediate construction of a two story building

Continued on page 4.

IN-COW-MAS-KET.

The following tale of Indian life by Stratton Moir, (Mrs. S. L. Allison) entitled 'In-cow-mas-ket,' will, no doubt, be read with interest and pleasure by residents of the Similkameen generally many of whom are acquainted with the gifted author. The setting of the poem is laid in the Similkameen and depicts in beautiful and familiar measure the romantic life of the early braves and Indian maids. Mrs. Allison has spent a third of a century in the Similkameen valley and is a pioneer of pioneers in the wilds of this section, forming an important link in the history of the past with the present. Her contributions to the literature of the country will have an archival value which must not be lost sight of. Mrs. Allison has contributed a paper to a London society dealing with the anthropology of the Similkameen Indians, tracing the origin of these aboriginal inhabitants and adding to the scattered legendary lore of the various tribes of the province. Star hopes to publish excerpts from these works from time to time :

By a rapid flowing river
In-cow-mas-ket built his dwelling,
Called it by the name Chu-chu-e-waa;
There his kinsmen dwelt beside him,
In their circular mat houses,
Made from bark of fragrant cedar.
With him dwelt his aged grandsire.
Now sightless, helpless and infirm;
But his mental eyes were opened.
Things he saw which others see not,—
And men loved him for his wisdom
In the lodge of In-cow mas-ket
Lived his first wife Sem min-at coe;
She was plain in face and figure,
She had borne him many children,
And she was now no longer young;
In-cow-mas-ket's aged grandsire
Tenderly she loved and cherished,
When the men had gone a hunting,—
When the young men left the village,
Then she would lay him in the sun,
On a pile of soft warm bear skins.
She would sit and work beside him,
While he told her wondrous stories
Of the men and of the creatures
That lived in days long past and gone;
Stories told him by his father,
Old even then, when he was young;
How the rapid flowing river
Once but a tiny brook had been;
How the earth once shook and trembled
When the Father in stern anger
Reft the solid rock in twain,—then
The deep lake pent in the mountains,
Down—downward dashed to join the stream,
Tore its way on through the valley

NOTICE—The above court is postponed until Friday, December 1st, 1911.
HUGH HUNTER.

Indigestion
Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.
It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.
For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

IN COW MAS-KET.
From 2nd page.

And formed the great Similk-ameen.
Madly dashing, like a wild horse,
That hath broke its curbing rein, it
Rushes swiftly, tearing downward,
Swells Columbia, joins the main.
How one time upon the mountain,
Where he had gone to hunt the deer,
He had lost his band of horses,
Amidst the mountain's summer snow.
For though warm and bright the weather,
Without a warning rose a storm.
Suddenly across the mountains
There swept a gust of freezing wind,
Driving lead-grey clouds before it;
Then suddenly the snow came down
Burying the men and horses;
Vainly did he try to save them.
He tried himself to make a road,
With his snow-shoes went before them,
Sinking—still sinking deeply down;
Ever wallowing before them,
Weaken'd, starving, stumbling after,
On came his poor dejected band,
Ever getting weaker, fewer—
Until at last but one remained;
He, a sturdy dark gray stallion.
The grandsire sang of Chippaco.
"Once upon the Mount Chippaco
There lived a monster grim and dread,
Awful as that dreadful mountain
When thunder clouds enveil its head.
Awful was his devilish laughter
And fierce and scornful was his ire,
When he found men on his mountain
Where he hides 'midst clouds and fire.
Women had he taken captive
And kept them on that mountain lone;
Men he mocked with fiendish laughter
Who sought to take the women home."
Sem-min-at-coe smiling listened
To all the wondrous tales he told.

SPECIALS.

Strayed from Chas. Asp's pasture, one bay filly branded with an inverted anchor on left shoulder. Finder please notify GEORGE & BLAISDELL, Coalmont, B.C

Just received a carload of No. 1 shingles, $3.50 per M Reduction for large orders. A. E Irwin, Kenley Av.

For Sale.—Lot 636S, lying about half a mile south of Allison, 205 acres. Price $1,800.—Apply J. M. Wright, Princeton.

Wanted.—By young man, position. two years' experience in store, good teamster —Apply Star office.

Grain and timothy hay for sale by F. F. George. Inquire at the harness shop of Thompson & Prosser.

Owners of lots on Bridge street and Vermilion avenue, desiring to sell, will please communicate with J. M. Wright, Princeton, B.C. State lowest price.

Max Wilson has laid the foundation for a paint shop on the lot purchased from Dr. G. R. Philp, of Toronto, situated on Vermilion av. The building will be 14x60 and will include oil storage.

J. W. Kansky is building a cottage near the Hope road and has the frame in position.

Owing to the past week of storm and cold building operations are at a standstill. In the fair weather to come all urgent work will be pressed to a finish and new structures will probably be held over.

NOTES AND COMMENTS.

The 'spoils system' of government has many good points which commend it to the peoble—the taxpayers. It affords a quick and efficacious remedy for ihe fungi which have accumulated and fastened onto the public service during a political party's term at the helm of state. In the east heads are falling as the party guillotine is put into action. The Liberals cannot consistently complain if the Conservatives decapitate employees for they did the same thing when they came into power and authority at Ottawa.

It is perhaps a little too soon to suggest universal peace while the political sky is red dyed with almost universal war. Turkey and Italy at each other's throat, China bleeding from every pore is not a spectacle to inspire hope for abiding peace. Other and more highly civilized nations, if not christian, are pouring millions of money into arsenals and dockyards in preparation for some great Armageddon. It is mere mockery to cry 'peace' when all the world is either fighting or arming. What is the solution of all this unrest bloodshed and poverty producing expenditure? It puzzles statesmen and ecclesiastics. The reign of peace will come only through every man being in harmony with his Creator, thus demonstrating the power of Love and Truth.

TOWN AND DISTRICT.

Dr. Jackson, dentist, may be consulted at the Similkameen hotel for a few days.

Geo. Cawston, at one time confidential advisor to Lord O'Kanagin, was in town last week.

Hon. Martin Burrell, Federal Minister of Agriculture, was re-elected last Friday by acclamation.

Miss Dillard has accepted a position with the A. E. Howse Co.

J. D. Lumsden arrived from Vancouver today and states Mrs. Lumsden is improving in health. He expects to take her to California to recuperate.

Deer are coming down from the mountains, a procession of twelve mooching along, were observed by the missionary, Mr. Craig, while on his way to Coalmont. He also saw the footprints of what was evidently a big cougar and he now thinks that discretion prompts some means for self defence, probably a sixshooter. Why not be a Daniel?

C. O. French arrived from Spokane recently and leaves soon via the Okanagan and Ashcroft for the coast and Washington points. Incidentally, Mr. French is showing some fine apples grown on his fruit farm at Greenacres, Wash. Reciprocity or no reciprocity he will ship Jonathans to Princeton for local consumers.

Mrs. Moore, of Manitoba, sister of Mrs. Carmichael, visited last week, leaving for Keremeos later where her parents re side.

The election returns for Yale-Cariboo are now complete. Burrell received 4102, McDonald 2061, Johnston 251. Dr. McDonald will therefore not lose his deposit, having secured 10 more votes than half the number cast for the Conservative candidate.

The committe of the Princeton Tennis Club are giving a dance on Friday next the 17th inst., in the I. O. O. F. hall, for the purpose of obtaining funds to help to lay out a new court. It is hoped that there will be a large turnout. The lady members have very kindly offered to give a light supper. Tickets to be had from C. Willarson, the drug store, or from the secretary, J. H. Morrison.

Jack Wilson, on the Star staff for the past few weeks, left for his home, Rossland, last week.

A moving picture show will be one of the attractions for the coming winter. Arrangements have been made for a triweekly exhibition of entertaining film.

COALMONT NEWS.

From First Page.

25 x 50 feet to be occupied by himself when completed. Another contract is about to be let by S. R. Tilson, of Oroville, Wash., for a building of practically the same dimensions. Mr. Tilson has purchased a lot on Main street for this purpose and when the the building is reaey for occupation, Mr. Tilson will open up with a complete line of gent's furnishings and shoes.

F. P. Cook, who for the last 25 years, has engaged in business in Granite Creek has a choice location on Main St. and lumber is already on the ground for the erection of his building, which he will occupy as soon as completed.

The Coal Company expect to be cutting lumber at their new mill in less than three weeks time. This will be of great advantage to builders, account of the close proximity of the mill, the company will be able to deliver their product in the town at practically coast prices. About thirty men or more will be employed in and around the mill.

Mr. Doyle, Asst. Supt. of the Spokane Falls and Northern Ry. system arrived in town Wednesday evening, being accompanied on his trip by R. J. Smith, Dist. Frt. and Psgr. agent for the same road and a representative of the Burlingline. These gentlemen spent all day Thursday in an inspection of the Columbia Coal & Coke Company's property, leaving for Spokane in the evening.

John Hall, of Aberdeen, Scotland, arrived direct from the land of the heather early this week, on a visit to his brother Wm. Hall, who is foreman for the Columbia Coal & Coke Company.

John Isbister, of Vancouaer, arrived from that city via Merritt, on Wednesday lass, having accepted a position with Williamson & Turner, the townsite agents.

Rich Resources

SURROUNDING

EAST PRINCETON

The New City With The Payroll

Give you the opportunity for one of the

SOUNDEST INVESTMENTS

In British Columbia.

CITY LOTS ARE BEING OFFERED FOR SALE FOR THE FIRST TIME.

IT IS INEVITABLE THAT THE VALUE OF THESE LANDS WILL GREATLY INCREASE

Here are some of the Reasons:

East Princeton is surrounded by huge deposits of Coal, Cement, Copper, Gold, and other important Minerals.

The British Columbia Portland Cement Co. is erecting a half a million dollar plant, which will employ between 300 and 400 men.

The United Empire Co. is shipping a lignite coal of the best quality and is developing immense copper deposits, requiring large reduction works and several hundred employees. The Princeton Coal & Land Co. is increasing its daily shipments to 300 tons of coal, providing employment to about 150 men. Other coal companies are spending over $2,000,000 in development, and will give work to at least 1,000 men.

For transportation, East Princeton will have, in the near future, the Great Northern and the Kettle Valley lines, both of which, will pass through the townsite.

East Princeton is beautifully situated on the Similkameen River, with an abundance of water power available. The new city has every facter for growth into a big industrial centre.

It presents a rare opportunity for investment. Get full particulars immediately.

D. G. McCURDY
RESIDENT AGENT.
Or write C. R. BRIGGS, 615 Hastings W., Vancouver.

SCIENCE AND INVENTION.

CANADIAN ASBESTOS.—About 82 per cent of the world's supply of asbestos comes from Canada, according to an account of this industry published in the Chamber of Commerce Journal. The Canadian output has increased from 380 tons in 1880 to 64,300 tons in 1909. The qvarries and factories are capitalized to the amount of $24,290,000. In the Black Lake quarries, Province of Quebec, there are 45,000,000 of asbestos in sight. The asbestos slate or shingle industry, a development of the last five years, has grown to such an extent that it is predicted that within a short time 75 per cent of all the asbestos produced in Canada will be used in making this new roofing material.

CARRYING MAIL BY AEROPLANE.—According to the report of the post office inspectors to the Postmaster General, no less than 43,247 pieces of mail matter were despatched by aeroplane between September 23rd and October 1st. So enthusiasiic has the Postmaster General become as to the possibility of saving time and money in delivering mail in certain districts by aeroplanes, that he has asked for an appropriation of $50,000 to enable the Postoffice Depaitment to experiment thoroughly along the lines. Just as the automobile is at the present day rapidly replacing the horse in city mail delivery, so the aeroplain will no doubt displase the fast express before many years have passed.

WATER NOTICE

The Similkameen Power Company, Limited, of Vancouver, B.C., give notice that we intend, on the 10th day of November next, at eleven o'clock in the forenoon, to apply to the Water Commissioner at his office at Nicola, for a license to take and use 20 cubic feet of water per second from Red Creek, a tributary of Fivemile Creek, near Princeton.

The water will be used at Fivemile Creek, about ¼ of a mile below Red Creek, for power purposes.

We intend to apply at the same time for permission to store 4,000 acre-feet, more or less, of the said water in a reservoir at head of falls on Red Creek.

SIMILKAMEEN POWER COMPANY, Ltd.
Dated this 27th day of September, 1911.

NOTICE.

Yale land division, Yale district.

Take notice that I, J. B. Wood, of Princeton, B.C., intend to apply to the Chief Commissioner of Lands for a license to prospect for coal and petroleum under the following described lands, to wit:—Commencing at a post planted at the N.W. corner of Lot 388, and marked J. B. Wood's N.E. corner, thence 80 chains south, thence 80 chains west, thence 80 chains north, thence 80 chains east, to point of commencement.

Located 14th September, 1911.

COALMONT

The Town of Opportunity

The rails have been laid into the town and Coalmont is now the new terminus, the base of operations for the next forty miles of railway building.

Before six months have passed there should be a payroll in Coalmont of between 350 and 400 men.
This means population, which naturally means good business.

If you are wise
YOU WILL INVEST IN A LITTLE COALMONT REAL ESTATE NOW while the choice is still good.

Don't let this Opportunity Slip
Along with the others which have got past you.

Write for our circular and price list--A post card will bring it to you.

There are still some 50-foot lots left
Two Blocks from the centre of town at Only $225.00, $55.00 cash
And balance spread over 18 months to suit.
Write us today

FACTS ABOUT YOURSELF.

The average number of teeth 32.

The weight of the circulating blood is 29 lbs.

The average age of an adult is 150 lbs 6 oz.

The brain of a man exceeds twice that of any other animal.

A man breathes about twenty times a minute, or 1,200 times an hour.

The average weight of the brain of a man is 3½ lbs.; of a woman 2 lbs. 11 oz.

Five hundred and forty pounds, or one hogshead and one and a quarter pints, of blood pass through the heart in one hour.

The average height of an Englishman is 5 ft. 9 in.; of a Frenchman 5 ft. 4 in.; of a Belgian 5 ft. 6¾ in.

The heart sends nearly 10 lbs of blood through the veins and arteries each beat. and makes four beats while we breathe once.

One hundred and seventy-five million cells are in the lungs, which would cover a surface thirty times greater than the human body.

The average of the pulse in infancy is 120 per minute; in manhood, 80; at sixty years, 60. The pulse of females is more rapid than that of males.

SAFETY IN COAL MINING.

The coal mine, with its explosions and attendant loss of life, was for a long time a source of annoyance and having become tired of listening to the opinions of coroner's juries as to the probable causes of accidents, the government of the United States started a model mine to ascertain several things. They wanted to know principally if coal mining could be made a safe occupation without increasing the cost of production beyond the commercial value of the product of the mine. By experimenting in a none too favorable vein at Williston, N. D., they have found out that they can produce coal at $1.60 per ton, while the selling price in that locality by private concerns is $2.50 per ton, leaving a margin of 90 cents per ton profit. Briefly the conditions in the government mine are:

No boys are employed.

Every needed safety device is used.

No one has been killed or seriously hurt.

The air in tunnels 2080 feet under ground is pure and fresh.

Exits are arranged so that entombing is impossible.

The work day is 8 hours, six days a week.

Miners make an average $5 per day.
