

Coal & coke need the wider market—Reciprocity helps

SIMILKAMEEN

Free trade within the empire and with United States is the goal.

The effects of high Protective Duties are seen in huge trusts, mergers and multi-millionaires in Canada and the United States—Protection makes the rich richer, the poor poorer—Reciprocity or free trade permits one to buy in the cheapest and sell in best markets—Protection fosters food trusts

Vol. XII. No. 36.

PRINCETON, B.C., WEDNESDAY, AUGUST 30, 1911.

\$2 a Year in Advance

CEMENT CITY GROWS

Industrial Works Pushed in Construction in Busy East Princeton.

Large Expenditure in Improvements and Brisk Demand for Real Estate.

East Princeton, Aug. 29.—Superintendent Morgan of the Great Northern, inspected the cement works Tuesday and was impressed with the progress made.

E. P. Galliac, manager of the United Empire coal mine, returned from Spokane yesterday.

Lots in East Princeton have been sold within the past four weeks totalling \$20,000. The lots bring a higher price than improved lots in much older towns. This is due entirely to the fact that the owner is making it a model town from the start and giving good values with the property.

Grading on the spur is being rushed to completion night and day.

Let anyone investigate the cement manufacturing towns of Blairmore, B.C., Metline Falls and Boncrete, Wash., and compare them with the opportunities offered at East Princeton. It will prove an eyeopener to them. An ideal town is sure to spring up. East Princeton will have all the accessories of a modern town, morally and physically clean, inviting to the homeseeker and a climate unsurpassed in the world. Buy while ground floor prices prevail.

W. J. Budd is expected back from Calgary in a few days.

Improvements and outlay on the town-site will represent a large expenditure which the purchaser will derive an immediate benefit from. Permanent resident workmen in connection with the cement works will soon be here in large numbers, the temporary laborers being employed on railway construction principally.

A church, school and opera house are planned for construction.

POLITICAL MEETING HELD.

Martin Burrell, ex-M.P., arrived in Princeton last Thursday and delivered a political address to an average size audience, presided over by E. Waterman. Ladies were in attendance and the speaker was heard attentively. Mr. Burrell did not arouse enthusiasm, speaking in a monotone which lacked inspiring force. It is safe to state that Mr. Burrell did not make a single convert to anti reciprocity. With a large majority over a weak opponent and without any national issue in the election of 1908 there is little to base

Mr. Burrell's prediction that he will be elected with an increased majority. The meeting closed with cheers for the candidate and 'God Save the King.'

CANDIDATE ENROUTE.

Following is the itinerary of the Liberal Candidate, K. C. McDonald: Lytton, Aug. 23, afternoon; North Bend, Aug. 23; Lillocet, Aug. 24; Ashcroft, Aug. 25; Notch Hill, Aug. 26; Greenwood, Aug. 28; Phoenix, Aug. 29; Grand Forks, Aug. 30; Midway, Aug. 31, afternoon; Rock Creek, Aug. 31; Bridesville, Sept. 1; Pentiction, Sept. 2; Summerland, Sept. 4; Keremeos, Sept. 5; Hedley, Sept. 6; Princeton, Sept. 7; Merritt, Sept. 8; Kamloops, Sept. 9; Barkerville, Sept. 11; Quesnel, Sept. 12; 150 mile house Sept. 13; Chase, Sept. 14; Kelowna, Sept. 15; Vernon, Sept. 16; Salmon Arm, Sept. 18; Mara, Sept. 19, afternoon; Enderby, Sept. 19; Armstrong, Sept. 20.

TULAMEEN CELEBRATES.

Labor Day celebration at Tulameen is giving promise of attracting a large number of merrymakers. To many the novelty of seeing picturesque Tulameen and its beautiful lake for the first time will prove a strong inducement. Those who have already visited Tulameen will willingly succumb to the seductive scenic beauty and the pleasure afforded by a day's sport and grand hop. The ambition of Tulameen to celebrate for the first time is admirable and worthy of the patronage of its neighbor towns. Advance, Tulameen!

TO INCREASE COAL OUTPUT.

The Princeton Coal and Land Co., as will be observed by advertisement, is inviting tenders for three buildings, the larger one being 100x30, to be erected at the pithead. These buildings will house the large and up-to-date plant now to be installed for the mining of coal on a large scale. The present plant is totally inadequate for the growing demands made upon it, Princeton coal having fairly won its way into the markets. When the V.V. & E. is completed, coast cities now anxiously waiting for this superior domestic coal, will be supplied by the pioneer Princeton Coal and Land Co. The shipments now amount to about 120 tons daily.

HEDLEY AND LABOR DAY.

Hedley, with her usual hospitality, has made big preparations for her annual celebration on Labor Day. Citizens of Hedley and Princeton believe in and practise reciprocity on their annual fete days and it generates a feeling of amity among the two peoples—it has the same mollifying effect in all cases. The Princeton band under Prof. Coulthard's leadership, and a holiday crowd, will go down and assist in crowning labor king of earth and the Similkameen. Hedley, the golden, long may you prosper!

RECIPROCITY RECIPES

Will Make Good Times Better by Expanding Our Foreign Trade.

Laurier Must Finish His Work: Free Trade In Empire and with United States.

Conservatives say that the times have changed since their political saint, Sir John A. Macdonald, offered reciprocity to the United States. But they forget that the principle of reciprocity never changes. Sir John wanted the wider market for the farmers, coal owners and producers generally, so does Sir Wilfrid. What was all right for Sir John is all wrong for Laurier, the Liberal. The intelligent voter sees the inconsistency of Tory leaders who love party more than country and he will vote for reciprocity.

'Fighting' Joe Martin, English M.P., like the itch, is with us again. He says: 'Reciprocity will undoubtedly mean more money for Canada and more money for Canadians.' But he hates Laurier and like Sifton, Bourassa & Co., will try to throw him. Here is a man full of lowest revenge, ready to sacrifice his country's welfare that he may work off a personal grudge. Martin is a renegade Liberal and Canadian representing St. Pancakes in the British parliament. If he would stay where he is put and attend to the wants of his poor constituents in East London instead of looking for trouble in B.C. he might accomplish some good.

The Liberal candidate, Dr. McDonald, will be in Princeton on Thursday, 7th Sept., in the I.O.O.F. hall. Every elector should hear him, as well as the public generally.

Let Laurier finish his work: Free trade within the empire and with the United States.

Bourassa, the French Canadian Nationalist, condemns Laurier for his Imperialism and loyalty to British institutions. Yet we see the Conservative leader, R. L. Borden, Dr. Sproule, Senator Bowell and Sifton making a political bedfellow of Bourassa, the red revolutionist and rank Romanist. To what extremes will not the Tories bend in order to defeat Sir Wilfrid?

Mr. Burrell and his party favor a gift of \$25,000,000 cash to the old country to build dreadnoughts for its navy. K. C. McDonald and the Liberal party favor building a navy in Canada, thereby developing our own resources and establishing the shipbuilding industry. It does not seem just that a young and struggling country should donate a huge sum to the old, and wealthiest country in

the world. Canada can build her own navy and it is an insult to the intelligence of Canadians to say they cannot. Of course, the money to build with will have to be borrowed from J. Bull, Esq., the world's moneylender, and that is why he likes colonies—they are safe and profitable for investment and afford homes for his teeming population.

TOWN AND DISTRICT.

Chief Engineer Hogeland, J. H. Kennedy and A. Guthrie arrived on Great Northern special and went to Coalton Tuesday. The railhead is now at the second crossing of the Tulameen, four miles west of Princeton.

Mr. and Mrs. Lamson and Miss McTavish, matron of the Prince Rupert hospital, arrived from the coast last week.

W. S. Cleveland, recently in the hospital with an axe wound on the knee, expresses sincere thanks to the hospital matron, Miss Thomas, and to many friends for kindnesses received. Mr. Cleveland is well on the way to recovery.

J. G. Geddie, of the Bank of Commerce, now holidaying with the 'laird of Tullahard' up Onemile, on his return will leave for Pentiction, there to occupy a prominent position in the agency of that city. Mr. Geddie is courteous and capable and will be much missed in social circles. He is succeeded by J. Morrison.

Hon. Price Ellison, minister of finance, was in town Saturday, going to Merritt.

Several rounders tried to break into jail this week with the result that a motley bunch of six were landed by Constable Sproule and special Bill Martin.

T. C. King left a fine sample of green corn at the Star, perfect in ear and stalk six feet high. It was grown in his garden and is proof that even in high altitudes the soil and climate are productive of many kinds of table vegetables.

C. V. Semerad has gone to Edmonton and will dispose of some valuable property which he and Mrs. Semerad were fortunate in acquiring in the early days of that wonderful city. Mr. Semerad will sell his bakery and restaurant business in Princeton and will move to Orangeville, on Fivemile, where he expects to engage in hotelkeeping and farming.

Now is your opportunity to procure good photos from Priest the Photographer. Films developed. *Open the wood!*

Eighty-five per cent. of all headaches are the result of eye strain. Are you troubled that way? If so, consult S. L. Taube (of the Taube Optical Co., of Calgary) who will be at the Princeton Drug Store on Friday afternoon Sept. 8, and Sat. morning, Sept. 9.

Auction sale of household furniture will be held in the Avery block, Saturday, at 2 p.m. H. H. Avery, the auctioneer, has received instructions from E. B. Hall to sell household effects.—Big bargains may be expected.

The Similkameen Star.

A. E. Howse.

SUBSCRIPTION RATE: One Year, \$2.00 Payable in Advance. Subscribers will confer a favor on this office by promptly reporting any change in address or irregularity in receipt of their paper.

RECIPROCITY AND COAL.

Perhaps in no other article of commerce will the benefits of reciprocity be more marked than in that of coal. Where the United States formerly levied a duty of 45 cents on slack coal, by the terms of reciprocity it is reduced to 15 cents. A very large amount of slack coal is shipped across the border to U. S. factories and a still greater trade is expected under the new tariff and the reclassification of this coal.

NOTES AND COMMENTS.

After repeated efforts to obtain reciprocity with the United States Sir Wilfrid Laurier avowed that he would not ask that government or the President again to accept it. He kept his word and presently U.S. commissioners ask him to resume negotiations for reciprocity.

Loyalty in action is worth more than volumes of lip loyalty. That subject is most truly loyal who votes for the general good of his country and the toiling masses as opposed to the so called classes, trusts, millionaire monopolists and combines.

flourishes and in Germany where despotism rides on the necks of the poor.

The Gazette is not fair. The horse raisers of Ontario are in favor of reciprocity because they get better prices in Buffalo than in Toronto. Teams worth \$500 in Toronto quickly bring \$800 in Buffalo. This on the authority of A. Yeager, the largest exporter and raiser in the province. Thanks, Gazette, for the opportunity of correcting you.

Conservatives never tire of boosting protection as the great antidote for hard times and the empty dinner pail. Let us see how it works with our highly protected Uncle Sam. Last week the News-Advertiser had an editorial comment on the discharge of six thousand employees by the Southern Pacific railway line and emphasized the generally depressed condition of the labor market at Seattle and all over the States.

Martin Burrell's speech against reciprocity last Thursday night was heard by about 150 people. He followed the line of argument his leader adopts and deprecates all Sir Wilfrid's political acts. He said the Prime Minister was anti-imperialistic although he gave preferential tariff to Britain, penny postage within the empire and now offers empire free trade; he ridiculed Canada's navy, although as with every other country it must begin small; he said Canada's raw resources would be hauled to the U.S. and there manufactured, forgetting that every manufacturer must establish nigh his raw stuff if he desires to compete; he feared annexation if reciprocity carried, although his great leader, Sir John A. Macdonald, never thought of such a dire thing as annexation, and so on to the end of his labored speech.

Regular meeting of the board of trade will be held on Monday next at 8 p.m. in the court house. New members solicited and large attendance invited.

The Tulameen Stage Co. will erect a stable at Coalmont and ply a daily stage to Merritt.

H. A. Turner, road superintendent, was a visitor this week.

THE NEW TOWN EAST PRINCETON A Payroll City Manufacturing is the Backbone of GREAT CITIES

The British Columbia Portland Cement Co's Plant represents an expenditure of a Half Million Dollars and will manufacture Portland Cement of the highest quality, Shale Brick, Lime, and Vitrified Clay Products.

The United Empire Co. is now producing a Sub-Bituminous Coal of first quality for domestic use. This Company is also opening up immense Copper deposits which will require a large reduction plant.

Other mining companies operating near East Princeton are spending large sums in development and will employ many men.

Do You Realize what Industrial Works and Payrolls mean to a city?

EAST PRINCETON, A MODEL CITY, PARKS, CEMENT SIDEWALKS, WATER

Invest now and watch your investment grow with the town. For full particulars see

D. G. McCURDY

RESIDENT AGENT.

Or write RAYMOND E. WARD, Pacific blk, Vancouver.

A typographical error in the Tulameen labor day posters makes the baseball prize read '\$80' instead of \$30. Fans and tans will please note the error and charge it to the 'devil.'

Some fine oats grown on Fivemile and six-rowed beardless barley grown on the Nicholson ranch, near Copper Mountain, were shown the agricultural editor of the Star recently and pronounced No. 1.

Coalmont A legitimate Investment Today

MOST PEOPLE want to invest their money where they are reasonably sure of a good return. If the investment is to be made in real estate there are several things to be considered: The situation of the town, climatic conditions, transportation facilities, and primarily the amount of the monthly payroll.

The Columbia Coal & Coke Co. operating here have practically an inexhaustible supply of a pure bituminous coal.

They are installing immediately a plant which will handle 2000 tons of coal in 8 hours—this means employment for between 800 and 900 men all told.

Figure out this payroll and see how many coal mining towns in B.C. can beat it.

In a very short time Coalmont will necessarily have a population of from 2000 to 2500 people. Will this cause real estate to rise? We all know the answer. Then take the opportunity that presents itself now—buy first hand and reap the benefit of this increase.

The prices and terms are such that anyone can afford to invest to the extent of one or two lots. They range from \$175 to \$550, on terms of 1/4 cash, balance over 18 months.

Address all communications and remittances to WILLIAMSON & TURNER, SOLE AGENTS, COALMONT, B.C.

THE CANADIAN BANK OF COMMERCE

SIR EDMUND WALKER, C.V.O., LL.D., D.C.L., PRESIDENT ALEXANDER LAIRD, GENERAL MANAGER

CAPITAL, - \$10,000,000 REST, - \$8,000,000

THE SAVINGS BANK DEPARTMENT

of The Canadian Bank of Commerce will receive deposits of \$1 and upwards, on which interest is allowed at current rates. There is no delay in withdrawing the whole or any portion of the deposit. Small deposits are welcomed.

Accounts may be opened in the names of two or more persons, to be operated by any one of the number or by the survivor. A joint account of this kind saves expense in establishing the ownership of the money after death, and is especially useful when a man desires to provide for his wife, or for others depending upon him, in the event of his death.
