ORE SAMPLES ARE URGENTLY NEEDED FOR SHOW

MINES AND MINERALS.

Fonr hundred coal miners have been killed at Cardiff by explosion. There were 900 in the mine at the time.

J. C. Edwards reports mining active at Summit camp. The Treasure mountain tunnel is making good progress.

The Hedley Gold Mining Company gave notice that a raise of 25 cents per day all round in pay would take effect from September 1. The Nickel Plate enjoys the distinction of being, as far as known, the only mine in Canada or the United States that, while producing no copper, gives its employees the benefit of the copper sliding wage scale.

Contrary to all expectations 19 of the union men charged with rioting in the recent labor troubles at Nanaimo pleaded guilty when they were brought before Judge Howey for trial. All of these were young men, mostly English miners, and none were officials of the union.

The Canadian Federation of Labor in session at Brockville has decided to appoint a paid organizer and to meet the expenses of his salary by a raise in the per capita tax to be outlined by the committee on ways and means. The question of publication of an official organ was left in abeyance. A resolution was passed calling upon the Dominion government to include all classes of employes of the government when dealing with matters of superannuation and retiring allowances. The meeting unanimously endorsed another resolution condemning the Industrial Workers of the World in its methods of strikes and called on the federal and provincial governments to prevent the establishment of the order in Canada as being opposed to the best industrial life of the Dominion.

California's metal production in 1912 was over 26 million dollars.

Ohio coal production in 1912 reached the record-breaking figure of 34,524,727 short tons, valued at the mines at $37,079,573, increases of 3,764,741 tons and $5,269,450 over the figures for 1911.

Ore Samples Requested

H. B. Brown, of the Mines and Forestry branch of the Vancouver exhibition writes Star stating that there is undoubtedly a revival in mining and capital is available for meritorious propositions. Geologists have freely stated that we have the greatest undeveloped bodies of mineral in the world. He says: 'We have the prospective mines in the province, let us secure the capital. Canadians are not all wheat growers, there is a goodly proportion of them mine makers and prospectors. Let us show capital, investors, that we have the ore. Send ore samples as under and make it a personal matter to send your own and induce your neighbor to send samples also. The success of mining will build up the home town. Send a brief description of the property from whence the ore comes.'

'I wish to call the attention of your readers who are owners of mining property that we desire to secure an exhibit for 1914 that will be the most complete of any gathered in the province.

'We want ores that would attract attention to your district. The showing on blocks of ore has proved very popular and each season we are able to trace capital coming in on some of them.

'From this collection we shall select the ores we will send to the London and San Francisco exhibition in 1915.

'A feature we have worked out that will be of much value to the visitor is that analyses will be made of the ores and we will answer the question so often asked: What are the contents of this ore?

'We shall have made working tests of 100 samples of 200 pounds. These will be selected so as to well cover the province, and will be of value to the owner who desires to place his property with capital.

'Samples are to be mailed to me at 424 Pacific block, Vancouver, as soon as convenient, so they can be given to the chemists for analysis during slack times. From these selections will be made for the mill test lots. We shall have these tests run through the year so as to give those who make discoveries during the coming year a chance.'

Copper Market.

Copper metal prices are holding firmly on the basis of 16¾ at 16⅞ cents for electrolytic and 16⅝ cents for casting.

Now that consumers generally have supplied their requirements for the remainder of the year, dealers look for lower prices before the next buying movement begins.

Cable advices show a reduction of nearly 15,000,000 pounds in the foreign visible supply of copper in September, a reduction of more than 40,000,000 pounds in the past six months.

Exports of copper from the United states in September 34,314 tons, an average of 1144 tons a day against an average of 1120 tons a day in August, and an average of 938 tons a day in July.

KEREMEOS FRUIT BEST.

J. J. Armstrong of Keremeos was in Princeton on a business visit recently and speaks in reassuring terms of the prosperity of his district. The returns for fruit have been satisfactory this year and the crop was one of the best ever grown. Some $1500 worth of fruit was shipped to Princeton in September to be distributed to the camps and homes in this section. Keremeos fruit growers are alive to the importance of the market presented here and as this market expands year by year they will be prepared to cater to it. Keremeos peaches are the finest grown in any part of the world, other kinds of fruit being equally delectable in flavor, size and beauty. Mr. Armstrong's brother has built a $20,000 residence at Keremeos which is equipped with swimming pools, Roman baths, etc., and which he will occupy for week-end visits from Vancouver.

A reform league has been started in Grand Forks to combat certain evils.

THE MOVING THRONG AND EVENTS OF THE WEEK

LOCAL AND GENERAL.

Work is in progress now on tne K.V R. line for a distance of about 19 miles from Hope, starting from McDonald's ranch From the summit the work is opened for seven miles. The unbroken gap between is eight miles in length. Throughout the winter the work at the two ends wi l be kept separate but at both progress will be made as fast as possible.

Edwin Pavey, of St. Thomas, Ont., formerly engaged in the carriage business there, is a visitor to Princeton, having arrived with his daughter, Mrs. M. S. Wilson, who has recently spent some months at her home in the east visiting relatives. Mr. Pavey will spend the winter here and then will visit other of his children in the west.

Rev. G. D. Griffiths, B. A., and wife arrived Wednesday and will reside here. After fourteen months' work in the Indian mission field, Mr. Griffiths was at Cardiff, Wales, from there coming to B. C.

Charlie Saunders, one of the original owners of the Helen H. Gardner mineral claim, Copper mountain, left this week for the Rio Grande country, Texas, going first to Victoria on a pleasure visit. The Gardner has been pronounced one of the greatest copper propositions of the world by a reliable mining engineer and Mr. Saunders is under bond with the B. C. Copper Co. to deliver his right on completion of payment, a certain percentage having already been paid. Both Mr. and Mrs. Saunders will be absent for six months.

Prof. Wirt, conductor of the Princess orchestra, gives a respectful general invitation to all to attend the Thanksgiving dance next Monday evening, Oct. 20. Make arrangements accordingly and come to the dance.

Frank Bailey, M. E., arrived from Merritt last week where he had been on a business visit.

Water in the Tulameen river has risen recently but not enough to delay bridge construction.

A copy of the St. Helens Newspaper and Advertiser, England, to hand, gives some interesting reminiscenes of the marriage of Mr. B. Glover fifty years ago, the celebration of the occasion being marked with the time honored 'golden wedding.' The marriage was blessed with ten children among whom is Mr. Francis Glover, superintendent of the Princeton Coal and Land Co.'s mine. Star sends congratulations to the aged couple and wishes them many years to come of health and happiness.

Miss Thomas was 'at home' last Saturday for a party of about 15 young boys and girls and a most pleasant time was passed. The youngsters all agree that Miss Thomas is a lovely lady and they express thanks for her kindly reception.

A sidewalk on the north side of Fenchwish avenue to Lime street will be much appreciated. It will be laid this fall along with other sections.

R. A. Brown, of Volcanic, is credited with killing one of the largest black bears ever bagged in the Boundary. Its weight is said to have been about 600 pounds.

Phoenix, Nelson and Rossland hockey clubs have each reorganized for the approaching season and there promises to be great enthusiasm in games for the McBride cup.

THE WIDE WORLD.

The tenth annual convention of the British Columbia Association of School Trustees will take place in Victoria October 21 to 24.

Work on Canadian harbors that will cost no less than $30,000,000 is now under way. The harbors being improved are St. John, Montreal, Toronto, Hamilton, Vancouver and Victoria.

One uniform naturalization law for the whole British empire is soon to be put in force.

The railroads of the United States use about 150,000,000 wooden ties each year.

The Duke and Dutchess of Cannaught sail today for Canada and will finish the term of governor general at Ottawa.

With the tariff bill practically out of the way, President Wilson has taken up the currency situation and insists that it be disposed of as soon as possible. The bankers oppose any reform.

The world is just beginning to learn t' mineral wealth of British Columbia, is the opinion of Harry Crosswell, a surveyor, prospector and newspaper writer of Toronto. 'I believe there are millions upon millions of dollars in gold, copper, lead, iron and zinc locked in Canada's farthest west province. When the railways and other means of transportation replace the rough trails over the mountains and tumbling rivers, untold wealth will be taken from the earth.'

During the period from January 1st to October 7th of this year the Granby has smelted a total of 956,421 tons of ore, of which amount 945,529 tons were from the Granby mines and 10,892 tons from other properties. In the same period Granby has made and shipped a total of 16,609,997 pounds of blister copper.

In Dawson good work dogs are selling at from $40 to $100. They are in great demand to draw supplies to the new placer camp at Chisina.

The Philadelphia Athletics won the world's baseball championship for 1913 at the Polo grounds by defeating the New York Giants, 3 to 1.

BOARD OF TRADE

The board of trade reorganization meeting was largely attended Tuesday evening. The resignations of president, E. Waterman, and J. D. Andras, secretary, were received and accepted. R W. Morean was voted chairman and H. D. Russell secretary of the meeting. A committee of five was appointed to solicit members and call a general meeting, at which new officers would be elected and the rate of membership fee fixed. Committee : Messrs. Russell, Moeran, Huston, Waterman, Mansfield. Meeting adjourned sine die.

SCIENTIFIC.

The fact that several species of ...tish plants, including some of par...ular beauty and renown, are in ...nger of extinction owing to ruthless ...thering on the part of the public in ...neral and nurserymen in particular, ...s recently formed the subject of ...any communications to the British ...ientific journals and newspapers, ...d was actively discussed at the last ...eeting of the British association.

The 'Seeandbee,' a new side-wheel ...ssenger steamer placed in service ...is summer between Cleveland and ...uffalo, is the largest side-wheel ...eamer in existence. Five hundred ...et in length over all, she has an ex...eme beam over the guards of 98.6 ...nd a depth of hull at the stem of 30 ...et 4 inches. The 'Seeandbee' has ...ix decks, and provides over five hun...red staterooms. She is driven by ...ngines of 12,000 horsepower at a ...peed of 22 miles an hour. The crank ...haft of her inclined reciprocating ...ngine weighs 120 tons. She has state...room accommodations for 1,500 peo...ple, and carries a permit for 6,000 peo...ple. Her freight capacity is 1,500 tons.

'Metcalf's Comet,' which was dis...covered on Sept. 1st, is now heading for the earth at tremendous speed. The comet was first observed by the Rev. Joel Metcalf while he was at work in the observatory at South Hero, Vt. In appearance the comet is a round fuzzy patch.

Periodically there is a discussion of the proposal to build a tunnel be...neath the English Channel between Dover and Calais. There are no in...superable engineering difficulties in the way of doing this, and the tunnel would lie throughout its length in a bed of firm, impervious chalk. Whether the scheme would be financially prita...able is perhaps an open question, although statistics seem to show tha... there would be sufficient freight an... passenger business to show a profit. Political and military objections, on the ground that such a tunnel would deprive England of its insular posi...tion, are losing weight, and prejudice on that score is disappearing.

British newspapers report that on June 19th, while violent thunder...storms were being experienced in var...ious parts of Scotland, a dense pall settled over Glasgow, and at noon the city was plunged in midnight dark...ness. Heavy rain fell soon after.

A meteorological station in Green...land was maintained all last winter by Drs. Stolberg and Jost, of the Swiss trans-Greenland expedition, in the vicinity of Godhaven on the west coast (latitude 70). The observers report remarkable alternations of tempera...ture through the winter, occasional fohn winds from the east giving tem...perature as high as 59 deg. Fahren...heit.

VIOLATION OF SEED ACT

A case of general interest to farmers and others throughout British Columbia was recently brought under this Act when the Sylvester Feed Company of Victoria was convicted of selling cabbage seed of low vitality without indicating the percentage of germination of the same. Under Section 10 of the Dominion Seed Control Act all farm and vegetable seeds which germinate lower than two thirds the standard vitality for good seed for that particular variety must be labelled with the percentage of germina...tion

TOWN AND DISTRICT

Church of England service, next Sunday, Oct. 19: Holy Communion, 8 a. m.; morning prayer and sermon, 11 a. m.; evening prayer, 7.30. Rev. G. D. Griffiths B. A. An earnest call is made to all church people to come to the reopening services.

Constable Pritchard goes to Kamloops with six witnesses in the case Rex. v. Ryan and Bartlett, bogus check men. Court sits on the 21st.

Ashnola real estate is in demand now that the erection of a dam and power house is very probable on Whipsaw creek.

Court of revision of voters list will be held at Fairview on Monday, Nov. 17. Are you a voter?

A. Megraw, Hedley, has been made coroner.

J. W. Bartlett and wife of Inchelium, Wash., are visitors to Princeton for a week or two.

There is a certain briskness in the air about Coalmont, caused by the activity on the tramway construction to the coal mine. J. T. Ryan, one of the pioneer residents there, states that the payroll is increasing every day and the hotel and lodging places are full. A cable bridge has been swung across the Tulameen and improvements are noticeable in several places.

The public censor of moving picture shows in B. C., Mr Gordon, gives notice to all constables and proprietors of shows that children under fourteen years of age cannot be permitted to enter the building unless accompanied by parents.

F. Williamson, J. Ramsay and Homer McLean came in a Case from Penticton on Wednesday. Mr. Ramsay is representative of the jewelry firm. Eggert & Co., at Penticton and Homer is our own hustling real estate and mining broker of this live community. They all say that the roads in the Similkameen are fine and much better than those in the Okanagan.

Thanksgiving Day will be observed in some of the usual holiday events chief of which will be the 'Turkey shoot' to be held on the range nearby. Further particulars may be had at Len Huston's cigar and news stand.

Geo. Unsoeld has gone to Kelowna where he will be manager of a departmental store.

The Royal Commission on Indian affairs after holding sittings at Vernon, Penticton and Hedley came to Princeton, remaiutng overnight, and then went to Nicola on Wednesday. No sitting was held here. The commission is investigating conditions of the Indians throughout the Dominion and it will take them two years to complete the work.

Sweet peas and pansies still survive the ravages of 'Jack Frost,' who is prowling around these chilly nights. So far there has been a lovely fall. Snow, which soon disappeared, has fallen on the higher hills near town, but the valleys have not yet received more than a few flakes of the 'beautiful.'

W. Kynock returned last week from a three weeks enjoyable visit to Nelson and other Kootenay points. He saw no place that could be compared to Princeton in beauty and location and he now thinks this is the town for a man to spend the rest of his natural life in.

Ben Baker arrived from Soap Lake, Wash., last week, where he had been taking the cure for rheumatism. He is feeling and looking much better.

Billy Knight left last Friday for southern California where he will spend the winter. He has had a long spell of sickness and goes south hoping the milder climate will prove beneficial. A large number of friends here will be glad to hear of his restoration to health and vigor. He wishes to express thanks to all for many kindnesses received during his illness memory of which he will cherish and retain all his life.

Walter B. Bailey, brother of Frank, and who was here in the early days, is principal in a firm of expert accountants retained by the Southern Pacific Railway company and who also enjoy a large private practise in San Francisco. He still holds an interest in the Similkameen.

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1. an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-division of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5. which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five per cent per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secrtary of the Departmeut of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY
Deputy Minister of the Interior.

MINING IN SIMILKAMEEN.

Mining must always be the leading industry and backbone of the Similkameen. In saying this no thought of minimizing the importance of other industries is held for a moment. But it is to impress probable investors in mineral properties here that emphasis is laid on the mining industry. For, it is a singular fact that any mining enterprise conducted on sound business lines in this district has been a success, either in production or development. Not a single failure can be recalled of the many mining enterprises undertaken. This is a record of which justifiable pride is a reasonable sequence. It proves that minerals are plentiful, and yet not in such promiscuous abundance that the removal of a shovel full of placer anywhere will reveal gold, platinum and diamonds, nor the blasting of rock always uncover pay ore. In this no attempt is made to mislead, but simply to point out the opportunities and inducements for discovery and development of mineral ground.

Some excellent mining companies and individual owners have invested heavily in the district, and although progress has been slow through lack of transportation and other minor discouragements, none of them have any but optimistic reports as to assay values and body. With a virgin mineral field of great extent and containing almost every variety of precious and base metals, coal, etc., and with prospective smelteries, gold dredges and coking works, what more could an investor wish for? Here, in Princeton, is a producing coal mine and some forty businesses, including three of the most powerful banks in America, a large cement factory turning out a first class article at East Princeton and at Copper mountain extensive mining operations are in progress. Other projects and commercial enterprises, yet in their embryonic stage, will leap into full life and activity as soon as the direct routes to the coast via the transprovincial motor road and the railway are ready for traffic. Next year, or early in 1915, should see these direct routes completed. Then the whole Similkameen may be expected to prosper to that degree to which position and resources entitle her. Meanwhile, the time for investment and prospecting is most inviting.

NOTES AND COMMENTS.

Bravo! Lloyd George. Keep right on with the landlords. The land belongs to the people.

The royal commission on agriculture which has held hearings in every part of the province will soon begin work on its report to be presented to the legislature this winter. In addition to the testimony it has secured, it desires expressions from the Boards of Trade and other civic bodies on the question of public lands, roads, markets, cooperation, agricultural credits and agricultural education. The Princeton board may now 'get busy.'

Star is in receipt of Bulletin No. 23, issued by the Provincial Bureau of Information. It is a handbook of British Columbia and contains the latest information concerning the resources and industries of the province. The lake area of B. C. is 1,560,000 acres, the coal measures are sufficient to supply the world for centuries, the mines have produced $400,000,000 and the fisheries are worth $10,000,000 annually, Copies may be obtained from the government.

The militarism being sown broadcast through pamphlet and newspaper can do no good to the people of Canada or any other nation. What are the effects of war and what does militarism produce? Look at the bloody pages of history: see their misery, woe, murder, rapine, hunger, disease, butchery of women and children and the nation impoverished with debt. Militarism would make the young men of the country obedient, not to their ruler, but to a lot of military snobs in buttons and boots and incur heavy burdens for standing armies and idle men. Canada has not an enemy and has about as much need of a standing army and squatting navy as a dog would have for two tails.

The sword, gun and powder are giving place to that peace and goodwill proclaimed nearly 2000 years ago. International peace courts and arbitration tribunals are recognized among sane people as the better way. Able bodied men are required to grow wheat and open up our vast hinterland, not to don blaize uniforms and be very obedient to a lot of swaggering officers who pant for 'glorious' war. Teach our children no mimic war or the use of murderous weapons, they may learn discipline and honorable obedience without them.

COME ACROSS, YOU.

If you like the old town best,
Tell 'em so.
If you'd have her lead the rest,
Help her grow.
When there's anything to do,
Let the fellows count on you,
You'll feel better when it's through,
Don't you know?

If you want to make a hit,
Get a name.
If the other fellow's it,
Who's to blame?
Spend your money in the town
Where you pull the shekels down,
Give the man that kicks a frown—
That's the game.

If you're used to giving knocks,
Change your style.
Throw bouquets instead of rocks
For a while.
Let the other fellow roast,
Shun him as you would a ghost,
Meet him hemmer with a boast,
And a smile.

When a stranger from afar
Comes along,
Tell him who and what we are—
Make it strong.
Needn't flatter, needn't bluff,
Tell the truth and that's enough,
Join the Boosters—that's the stuff,
We belong.

FRUIT PACKING SCHOOLS.

The provincial department of agriculture, through its horticultural branch, will continue this year its policy of conducting practical schools of instruction in fruit packing throughout the fruit districts of the province. The work begun four years ago in a small way has been very much extended each year to meet the requirements. The results in the improvements of the fruit-packing methods throughout the province have been very gratifying and amply justify the continuation of the work. At the present time over 80 per cent of the fruit packed commercially and for fruit exhibits in this province, is packed by pupils of government packing schools.

A letter without the name of the writer has been received from Copper Mountain. It contains the information that Pete DeCoux received in his new home a number of invited Wall street friends on Monday night and had plenty of smoke and other enjoyments. The letter further states that the big Copper Mountain mineral deal will go through.

WATER NOTICE

For a licence to take and use water.

Notice is hereby given that Thomas P. White of Princeton, B. C., will apply for a licence to take and use 3 cubic feet per second of water out of Findley Creek, which flows in a southerly direction through lot 387 and empties into Bromley Creek near lot 387.

The water will be diverted a mile and a half from mouth and will be used for irrigation purposes on the land described as lot 387 in Yale Land Division Yale District.

This notice was posted on the ground on the 18th day of Sept. 1913. The application will be filed in the office of the Water Recorder at Princeton.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

WEALTH OF NATIONS

Karl Helfferich, director of the Deutsche Bank, has completed his report to the Kaiser of the wealth of the German nation. It will be published a few weeks hence and will be sold for $30.

From proof sheets it appears that Dr. Helffrich estimates the aggregate total wealth of Germany at from $75,000,000,000 to $78,000,000,000. The wealth of France is placed at $60,000,000,000, that of England from $57,000,000,000 to $65,000,000,000 and that of the United States at $124,000,000,000. The German per capita wealth is placed at from $1,100 to $1,200, that of France, $1,425; England from $1,250 to $1,385, and the United States $1,360.

The annual income of the German people is placed at between $9,000,000,000 and $10,000,000,000, of which about one-sixth is used for public purposes. The amount used for private purposes could not be ascertained definitely, but is estimated approximately at $6,000,000,000.

From the deposits in German commercial and savings banks it is deduced that the Germans save $1,000,000,000 a year. Adding the automatic increase in values to the estimates the annual increase in the aggregate wealth is $2,500,000,000.

The government has issued a map in colors which shows where aviators may and where they may not fly. They must not go within twelve to fifteen miles of Metz or the surrounding fortresses. A similar prohibition, which varies in distances, applies to all fortified places.

IMPROVE YOUR STOCK.

As announced early in the season, the Dominion Live Stock Branch has this year undertaken a distribution of pure bred male animals throughout Canada on a somewhat extensive scale. In inaugurating this policy the aim has been to aid sections where pure bred sires were lacking and to encourage new communities in following an intelligent system in breeding. This form of assistance has proven very popular and during the past few months a large number of bulls and stallions have been placed in various parts of the country in the hands of local associations formed specially for the purpose of handling and maintaining them. All animals placed remain the property of the Department of Agriculture, the local associations assuming the responsibility for their maintenance and management under the general supervision of officers of the Live Stock Branch.

The distribution of bulls and stallions having been brought to a close for this year the opportunity is now open to deal with applications for boars and rams. Full information regarding the rules governing the distribution and the procedure to be followed in forming the necessary organization may be had upon application to the Live Stock Commissioner, Ottawa. As it is the intention to consider only such requests as are forwarded before October 20th, it will be necessary for districts desiring to take advantage of this offer to act promptly.

RELIGIOUS SERVICES.

Presbyterian church—Services in the court house at 7:30 p.m. Rev. J. A. Gillam pastor. Sunday school at 10 a m. All are cordially invited.

Christian Science lesson sermon subject next Sunday: 'Doctrine of Atonement.' The glory which thou gavest me I have given them; that they may be one, even as we are one John 17. 22.

SMILES

An old Scottish golfer was asked to lay two to one on a match in which he was likely to be much the better. 'Na, na, my man,' was the reply; 'gowf isn't a game to be degraded by the vice of gamblin', like your horse racin', your pigeon shootin', and the rest. It is to be played for the pure love of the game. Besides,' he concluded, 'there's nae twa to ane about it—but I'll lay ye sax to fower.'

An Irishman was once travelling in a train with a friend, when two very stout ladies entered the carriage. They placed themselves one on each side of Pat. 'Are you sure you are comfortable, Pat?' the friend asked. 'Sure I haven't much room to grumble,' was the reply.

An American motoring through a small Scotch town was pulled up for excessive speed. "Didn't you see that notice, 'Dead Slow?'" inquired the policeman, "'Course I did," returned the Yankee, "but I thought that referred to your durned little town!"

Tommy, after going to bed, became thirsty, or thought he did. He called out, 'Ma, I want a drink.' The mother's voice answered back, 'Tommy, you go to sleep.' Tommy grunted, turned over and was silent for ten minntes. Then again, 'Ma, I want a drink.'

'Tommy, you go right to sleep,' was the reply. Intense silence again for ten minutes. Then, 'Say, ma, I want a drink.'

'Tommy, if you don't go to sleep I'll come and spank you.'

More silence, this time for about two minutes. And then, 'Say, ma, when you come to spank me won't you bring me a drink?'

He was new to a certain railway run in Wales, this guard. Came a station which rejoiced in the appalling name, Llanfairfechaupwilgyllgogerych.

For a few moments he stood looking at the signboard in mute helplessness. Then pointing to the board. and waving his other arm toward the carriages, he bellowed:

If there's anybody there for here, this is it!'
