Diamonds, platinum and gold in Princeton district.

SIMILKAMEEN STAR

The emptiest life is that which knows not God.

Princeton district belongs to that best and last west which is attracting the attention of the world—Unlimited mineral resources, ideal climate and home of big game, fish and fowl—Best route to Steamboat mining camp; prospector's paradise—Cement works building.

Vol. XII. No. 21. PRINCETON, B.C., WEDNESDAY, MAY 17, 1911. $2 a Year in Advance

WEALTH OF MINERAL

Geologist Describes Resources of District and Traces Their Origin.

Placers Contain Rich Platinum and Gold Deposits—Silver and Lead Ores.

From the Journal of the Canadian Mining Institute the subjoined extracts have been made from data compiled by Chas. Camsell, Dominion geologist, of the mineral resources of this district and published by the permission of the Director of the Geological Survey of Canada:

Previous Platinum Product.

Gold is the principal valuable metal of the placers; but in a few localities some native copper and silver have been found The Tulameen district, however, contains placers which hold much platinum in association with the gold. The resources are not yet exhausted. The platinum output of the Tulameen district to date has been variously estimated at from 11,000 to 20,000 ounces. Within recent years there has been a gradual decrease in yield; but a revival of activity may be expected as a result of improved communication facilities following railway building. The productive area covers about 18 miles of the Tulameen river between Champion Creek and Granite Creek, and includes most of the tributaries of the Tulameen between these two points

Free milling gold ores have been found and to some extent, have been worked at Granite Creek in the Tulameen district, at Fairview, near Osoyoos Lake, at Roche river and at the Golden Zone camp, near the head of Twentymile Creek.

Rich Veins of Gold.

On the eastern side of Granite Creek and on the divide, between this and Nine Mile Creek, some very rich veins of gold bearing quartz cut the green schists of the Nicola series. The veins are, however, narrow and the gold is not evenly distributed. Veins of this character are partly at least the source of the rich placers of Granite Creek.

Near the mouth of Roche river, a branch of the Similkameen, south of Princeton, a few small gold bearing quartz veins cut chlorite and hornblende schists. These veins are only a few inches wide, and carry pyrite, chalcopyrite and tetrahedrite as the ore minerals. Gold tullerides are also stated to be found in these veins. The region is at present accessible only by pack trail, but in spite of this a small shipment of ore was made a few years ago, and is stated to have given excellent returns in gold.

Silver and Lead Ore.

Although there are a number of localities in this district in which rich silver ores and lower grade silver-lead ores have been found, they have not been exploited. The most important of these localities are Summit Camp on the head waters of the Tulameen River; Silver Creek, near Hope; Skagit River and Stump Lake. The deposits, however, have not been developed on account of the present lack of transportation facilities. Native silver has also been found at several points in the district.

A discovery of silver bearing galena is reported to have been made recently on Whipsaw Creek about 25 miles from Princeton. Some importance is attached to the discovery; but no technical examination of it has yet been made.

Copper ores are the most abundant and widespread of all the metalic ores in the district. Their geological distribution covers virtually every known formation of rocks. At Copper Mountain ores are found occurring on the contact of monzonite with limestones. The ores appear in the limestone as ill defined bodies near the contact of the monzonite, or else in fissures traversing both the limestone and the monzonite.

[To be continued.]

ROD AND GUN.

"In the land of Moose Bird," the story of a trip eleven hundred miles by canoe and portage from the north shore of Lake Superior to Hudson's Bay, via the Albany river, forms the attractive feature of the May issue of Rod and Gun in Canada, published by W. J. Taylor, Limited, of Woodstock, Ontario. The narriator is Mr. W. J. Malone, one of the many visitors from the states, who finds in the wilds of Canada advantages, from the holiday point of view, impossible to obtain elsewhere.

ANDRAS—KNIGHT.

At Lachine, Quebec, on 22nd ult., the marriage of Angela, daughter of St. George Knight, to John Donald Andras, was solemnized in St. Paul's church, Rev. Mr. Hewton officiating. The happy couple went to New York and other eastern cities on a honeymoon trip, returning to Princeton by automobile via the great scenic route from Penticton. Mr. and Mrs. Andras are now cosily ensconced in their happy home, the recipients of many congratulations in which Star heartily joins

Alex McKay was brought down from his ranch at Ninemile suffering from hallucination and dementia, caused, no doubt, by his lonely life and habits. Special constable C. Snowden took him in charge and he was examined by Dr. McCaffery, who pronounced him insane and he was taken to the asylum.

LOCAL AND GENERAL

Beautiful Hills Clad in Velvety Green; May Showers Boost Crops.

Miners' Licenses Renewable—Deer Wintered Badly—Rivers are Rising.

E. O. DeLong has bought the barber shop from the Cowan estate and has secured the services of a first class tonsorial artist, Ed. Fetterley, who has been for the past 8 years in Penticton.

A grand ball will be given by the local Orange Lodge on King George's birthday, June 2nd, in the I.O.O.F. hall. See posters.

J. N. Nelson, of the Similkameen hotel, reports increasing travel and patronage this season, notwithstanding he conducts a dry house. With a convenient location this house is bound to command a large trade.

Large herds of deer have been seen recently on Hope trail in poor condition.

Eben Vans was in town last week saying goodbye to many friends before going to the coast, Lulu island, where he owns some acreage which he will cultivate and in all probability begin housekeeping in the good old fashioned way.

Miners' licenses are renewable before the end of this month. Don't forget it.

THE HOSPITAL CONCERT.

Everyone in any manner connected with the concert given under the ægis of the Ladies' Hospiial Auxiliary last Friday night has reason to be gratified over the success achieved both from a financial and an entertainment viewpoint. The gross receipts were $61 and the net amount for hospital aid $57.25. The Auxiliary has again proven its great usefulness and influence for good in the philanthropic work in which it is so nobly engaged.

Of the concert it may be said, without fear of reasonable contradiction, that it was the best yet heard in Princeton. The avoidance of the classic in music; the spontaneous and sometimes exuberant applause, the cause and the low prices, 50c., 25c., all combined to make the entertainment delightful from the first to the last number.

Where all did so well and encores so profuse yet merited it would be invidious to criticize or compare. If Star may be permitted to specialize somewhat mention may be made of Miss Lumsden who sang in clear and sweet voice, winning the audience with perfect control of voice and self and proving her to be a finished vocalist. Mrs. Howse in two character readings immensely pleased everybody and is destined to be a favorite with audiences here. Miss Coulthard and Mr. Gregory with mandolin and guitar and little Miss Cunningham were accorded deafening encores and Mr. Wright captivated the audience with comic songs. Mr. Thomas in a splendid baritone and Mr. Lumsden were well received, as also were the selections on the bagpipes by Messrs. Gordon and Forsyth and by the orchestra under the leadership of Prof. Coulthard. Mr. Stevens read distinctly a selection from Dr. Drummond. Miss Freeman very acceptably accompanied on the piano. The program follows:

Selection		Orchestra
Song, Love Me and the World Is Mine,		Mr. Thomas
Highland Dance,		Annie Cunningham
Duet, The Crookit Bawbee,		Mr. and Miss Lumsden
Reading, Mancie Wancles First Play,		Mrs. Howse
Song,	Angus McDonald,	Miss Lumsden
Instrumental duet,	Mr. Gregory and	G. Coulthard
Song,	Good Company	Mr. Lumsden
	Intermission.	
Selection		Orchestra
Reading	Bateese	Mr. Stevens
Song	The Holy City	Mr. Thomas
Bagpipe selection		Mr. Gordon
Song	The Little Dutch Tile	Miss Lumsden
Highland dance		Annie Cunningham
Song	Phil, the Fluters' Ball	Mr. Wright
Instrumental duet	Mr. Gregory and	G. Coulthard
Song	Mary	Mr. Lumsden
Selection		Orchestra
	God Save the King.	

The national anthem was on the program but was omitted, something that should not be repeated. Some suggestions: Could about four bits worth of paint or paper be used on the back of the stage? Youths without guardians and even some adults should not disturb by conversation both performers and audience.

V.V., & E. SHOULD BE BUILT.

Ernest Waterman, of Princeton, who has been at the Hotel Vancouver the past week, brings the information that the Provincial government has made an appropriation for the construction of a pack trail from the town of Princeton, to Steamboat Mountain Camp, a distance of 55 miles. Work on the trail has commenced. This will obviate a roundabout journey to Hope Mountain. This new route will be of immense service to the parties living in the Kootenays and Similkameen districts.

The Similkameen district is enjoying quite a boom owing to the activity in the coal fields. The output at Princeton is in the neighborhood of 100 tons daily, and this is to be increased in the near future to 500 tons Gold is another factor in the make-up of the district. A syndicate which has been testing the ground along the Similkameen and Tulameen rivers reports very favorably. Bars in the river are credited with an average of from 75 cents to $1.00 gold per cubic yard, a very good average, considering that gravel in California paying five cents per cubic yard is worked at a profit.

In speaking of the lack of direct railway communication between the Similkameen district and Vancouver, Mr. Waterman states that a great deal of trade is diverted to the United States.—Province.

The Similkameen Star.

NOTES AND COMMENTS.

Truly paternal legislation is that by which the Dominion parliament has made it possible for every person to provide against want in old age. Taking one phase alone of the dire effects of poverty and the despondency it creates, a large proportion of the suicides, no doubt, have their origin in the want which stares some poor middle-aged people in the face. The alleviation of distress and want is a matter which has haunted governments in all countries and our own is not a whit behind in discovering means that will, if taken advantage of, reduce the probabilities of want and penury to the least common multiple of a chance or accident. In the new westland, particularly in the Similkameen, there are no evidences of want and every person is well provided for out of the bounties of nature. But it is the part of wisdom to provide for the rainy day, although it may never come. By the payment of $1, 50c. or 25c. per week into the Canadian Government Annuities, Ottawa, provision is made for a comforting income in old days of the annuitant. For all particulars apply to S. T. Bastedo, Government Superintendent, Ottawa, to whom letters go free of postage.

Star has no apology to offer for again referring to the splendid location offered here for a mining school. With almost every kind of mineral found hereabouts and coal, lode and placer mining, and the manufacture of cement soon to be accomplished, there is a wide field for research and prospecting presented to the student. The location of a mining school here would afford an unrivalled field for practical demonstration among the various ores and placers, clays, mineral waters, lime rocks, coal, diamonds, jasper, &c. Added to these inducements is the beautiful, healthy climate adapted particularly for the necessities of young student life. It has been hinted that the government is disposed to have the mining school near the university to be built at Point Grey, near Vancouver. With all deference to the minister responsible for the suggestion Star does not think that the proposed location would be wise or in the interests of the public who pay for it or to the best advantage of a mining education for young students.

A large majority of newspaper readers in this province favor the clean journal as compared with the abusive, libellous, name-calling sheet that depends on notoriety rather than real merit for its circulation. The daily press and all the weeklies published in British Columbia, with the one notable exception of the Sunset printed in Vancouver, are clean and fit for any person's perusal. It is that exception which proves the rule. The newspapers reflect the current opinion and thought of the people in clean and wholesome language and it is only when a newspaper descends to low invective and scurrility, degrading the profession of journalism, that public attention is directed to the necessity for its reform. A low state of morals and manners must result from an unbridled tongue or pen. The law prohibits obscenity or profanity in public hearing and it is equally pronounced in regard to lying defamations printed in vulgar and demoralizing billingsgate. Both constitute public nuisances and menace the well-being of the social fabric. Rude and uncouth names, printed as one frequently observes in the paper mentioned, are not in the vocabulary of the gentleman. In behalf of decency and clean journalism the foul newspaper should be avoided as a pest and if it is not prohibited through the mails it can be debarred admittance into respectable company. The character of the home and the individual is known by the literature taken. If clean journalism is appreciated only clean journals will be patronized and encouragement given to that respectful, courteous social intercourse which exalts a community and also the nation.

There is a very welcome report in circulation that a through passenger train will be operated from Spokane to Princeton beginning 1st of June. It is almost too good to be true. It is now over a year and a half since the first regular train arrived here and there have been a dozen rumors about this same old push-and-pull train which takes a day and a night and half a day to crawl up the Jimhilkameen valley to its destination. The slowest train service in the world is said to be down in Mexico where all hands have been known to go to sleep between stations and the train would have to be cancelled. The train hands on the Great Northern take a snooze at Oroville and not a wheel turns until they get well rested up and then they pull up to Princeton, fifty miles or so, and then they pull back again. Now, if Jim Hill can't give a through quick run between Spokane and Princeton he should get the Mexicans to manage the line.

Notice is hereby given that all vacant crown lands not already under reserve, situated within the boundaries of the Land Recording Districts of Cariboo and Lillooet, and the Kamloops Division of Yale Land Recording District, are reserved from any alienation under the "Land Act" except by pre-emption.

ROBT. A. RENWICK,
Deputy Minister of Lands

Department of Lands,
Victoria, B. C., April 3, 1911.

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation has been approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at $10 and $5 per acre respectively.

This regulation further provides that the prices fixed therein shall apply to all lands with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occured in the consid ration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provisions of sections 34 or 35 of the "Land Act" and who are not willing to complete such purchases under the prices fixed by the aforesaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications

WILLIAM R ROSS,
Minister of Lands.

Department of Lands,
Victoria, B. C., April 3, 1911.
