THE PRINCETON STAR

21st Year No. 12 — PRINCETON, B C., FRIDAY, MARCH 19, 1920. — PER YEAR : $2.50 Cash Single Copy 5c.

PROPOSITION TO ELIMINATE FEES

Hospital Board Adjourns Annual Meeting to Wednesday, March 31st.

In an effort to arouse more enthusiasm in hospital matters, the annual meeting of the board of management was adjourned from last Wednesday for a period of two weeks, toWednesday, March 31st,and a resolution was passed rescinding clause 2 of the Articles of Incorporation This is the clause that provides that members of the institution shall be subscribers to the amount of $5 annually. As a matter of fact for several years this amount has been paid only by the 12 men constituting the board of management, and amounted to only about $60 in all. The payment of this fee in oder to have a voice in the hospital affairs seemed to be a stumbbling block, and it was thought best to remove it Now the qualifications proposed are merely that a person be a resident of six months in the Similkameen valley, and that his or her name be on the provincial voters' list.

The annual meeting called for last Wednesday was poorely attended. Chairman Ernest Waterman gave a detailed account of the hospital affairs, and commented on the lack of interest that was being taken. To him it appeared to be a case of "Let George do it." The board has some $1400 in the bank with which to pay off an indebtedness of $25000 . Some of the outstanding accounts were large one alone amounting to $500 . The meeting favored the payment of 50 cents on the dollar for the present—reserving a f ew hundred dollars for the payment of current sxpenses.

O the other hand large amounts are owing the hospital, the outstanding book accounts alone for 1919 being $1592. This was evidence that many took advantage of treatment at the hospital and then neglected to pay their bills. Some of these accounts are good of course, but in many cases the parties have left the country.

PRINCETON GENERAL HOSPITAL

At the annual meeting of the Princeton General Hospital held on Wednesday March 17th, the following resolutoins were carried:

1. That clause A2 relating to the annual subscription required to give voting power and to become eligable to the Board, be eliminated; and that, in future, any resident of six months in the Similkameen Valley, who is on the Povincial voters list, shall be entitled to one vote and qualified to act as a memebr of the Board.
2. That the meeting adjorn until two weeks from tonight, March 31, at 8 o'clock and insert in the local paper the above resolutions.

A. E. WILSON,
Secretary.

Freshets Do Damage on Five Mile Roads

(By the Star Correspondent)

Five Mile, March 18—The recent thaw has played havoc with the roads and made them almost impassable for vehicular traffic. ,(

D. J.Garrison has returned from his brief visit to Washington, whither he took Mrs. Garrison for rest and change of scene.

T. M. Dillard has also returned from a visit with relatives across the line

In connection with the recent decision of Farmers' Institutes and United Farmers to amalgamate, a director and organizer are expected to visit Princeton shortly. Membership in the new organization is not confined to farmers. All who hold the view that present conditions are capable of improvement will be invited to lend their assistance towards bringing about that desirable end.

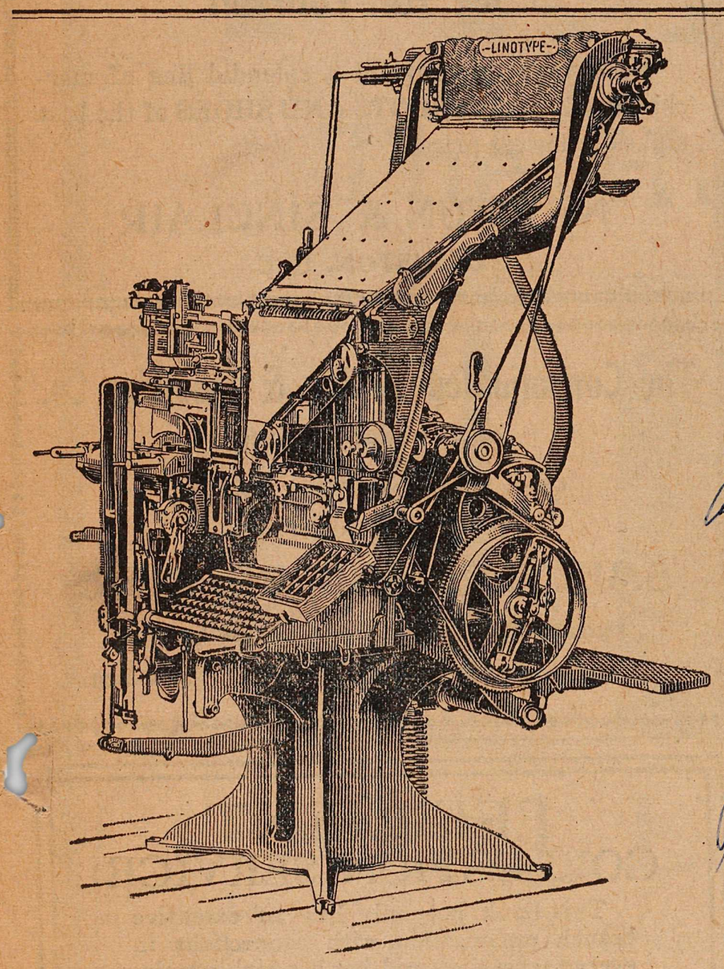
The recent appointment by the government of F. W. Trehearne to the position in the government office, rendered vacant through the death of Judge Wood, has given universal satisfaction in the district. The Civil Service Commissioner, it is felt, used good judgement, and certainly cannot be justly charged in having been governed by partizanship in the matter.

J. A. Long is expected to arrive from Laidlaw this week with his family. Mr. Long is a progressive farmer of the right type, and an acquisition to the district.

Car Overturns and Driver is Crushed

R. G. Turnour, who came to Princeton recently to have charge of the government telephone lines, is lying at the point of death at the hospital as a result of an automobile acident on the Hedley road last Monday about fivee miles below Princeton. The car went over an embankment and rolled over a time or two, and Mr. Turnour was found lying on the ice, where he had been for an hour or more. He was alone at the time. His wife is on her way from Prince Albert, Sask. and is expected tomorrow. Mr. Turnour is a member of the Masonic order at Prince Albert, and the Masons of Princeton are loking after the affairs of the unfortunate man.

A. J. Clotworthy was operated on at the Vancouver general hospital last Sunday for an absess on the brain, and at last acounts he was making favorable progress towards recovery. Recently Mr. Clotworthy has been teaching school at Nelson. He lived at Coalmont for some time, and had charge of the school at Copper Mountain for a term or two. His wife was formerly a Miss Cook, of Coalmont.



Linotype Machine in "Star" Offiee

The above is a good reproduction of the typesetting machine recently installed in The Star office. The Linotype is the most practical and efficient machine yet invented for the printer's use. It is operated from a keyboard similar to an elaborate typewriter, having three banks of keysfor capitals, lowercase, and also characters. The letters are cast from separate brass moulds which drop from their channels at the touch of the keys and assemble themselves in a slot the length of the line. Between each word a wedge of stel called a "spaceband" is dropped and automatically the machine presses the wedges to space out the line to make it exactly full.

The line now goes into the mould where the moulten metal is forced by a piston operating in the bottom of the metal pot. Round goes the wheel and out comes a slug, which is the printer"s name for the cast line of type all ready to go into the column in the form being made ready for the press. Each line in the newspaper thus consists of a solid bar of metal with the type running along the top edge. When these lines are once used they are dumped into the pot and are melted up again.

Princeton Paragraphs

W. M. Trautman is recovering from a severe attack of the flu.

Mrs. R. Boyd is up from Hedley on a visit at the home of Mr. and Mrs. D. Muir.

Alf. Sorenson, the jeweler, was over at Vancouver on business the first of the week.

Mrs. Chas. O. Sterling is up from Spokane on a visit with Mr. and Mrs. Geo. G. Lyall.

J. Horrocks, local secretary of the G. W. V. A., was over at the coast the first of the week.

Constable J. E. Dean, of the Royal Northweest Mounted Police, was in town Wednesday.

W. H. Stevens, of the government telephone system, was in town from Kamleeps last Wedn..day.

The Harvard Coal Company at East Princeton expects to commence next week taking out coal for shipment.

Born—At the Princeton General Hospital on Wednesday, March 17th, to Mr. and Mrs. R. J. Muir, of Allenby, a son.

Lawyer Patten was up from Keremeos last week on professional business.

Last Wednesday (St. Patick's Day) the local police did not arrest anyone on the charge of peddling the queer —Sham-rocks.

Constable Arden is at present in Vancouver and will go from there to Montreal to attend a convention of the G. W. V. A.

The children of Mr. and Mrs. P. W. Gregory, who have been quite seriosly ill, are now out of danger and making good recovery.

The death occured at Vancouver last week of Iris, the 12 year old daughter of Mr. and Mrs. Geo. Turner, formerly of Princeton. The little girl was a victim of the flu.

Posters are out announcing a strike on the contsruction work between Allenby and Princeton, and advising workers to keep away. The strike has been called by the O. B. U.

J. D. Drummond, who formerly lived in Princeton and Allenby, has sold out his grocery store at English Bay, Vancouver, and he and his family will leave this month for Scotland

The Right Rev. Bishop DePencier visited Princeton yesterday, held service at St. Cuthbert's church last evening and afterwards gave in interesting talk in the Parish Hall on his war experiences while overseas.

Last fall when the Hutton family moved from Princeeton to Mazama, on Osprey lake, coyotes in that vicinity killed 28 of their geese, 14 turkeys and 14 ducks. The marauders made the cleanup in one night.

Constable Wm. Spilleer, formerly in charge here but now located at Fernie, dropped off at Princeton for a day the first of the week on his way to the coast with a patient for the mental hospital.

Railway construction camps on the Copper Mountain branch are being broken up and the men laid off. By the first of April there will be only one tunnel and a few of the bridges left uncompleted.

Good progress is being made in the alterations in the Odd Fellows' building for the new quarters of C. Willarson & Co. The front is about ready for the large plate glas windows which will be installed, and from present indications the place will be ready to occupy about the first of April.

Messrs. Cawston & Eddie, of the Valley Meat Company, have moved their shop to the Avery Block, and now have a splendid location for their rapidly increasing business. The new quarters have been fitted up in splendid shape for a meat market.

W. H. Jones who conducts a job printing establishmeent in Nelson, was in Princeton for a day or two this week visiting with the Innes family, relatives, at Allenby. Mr. Jones was interested in the Kaml ops Sentinel 25 years ago, and later was in Rossland before going to Nelson.

Frank Trehearne has been appointed clerk to Hugh Hunter at the government office, taking the position held by the late "Judge" Wood. Mr. Trehearne saw service overseas,has lived in the district for several years and the appointment is generally considered an excellent one.

NOTICE

Take notice that I, Robert Schulli, section foreman of Princeton, British Columbia intend to apply to the Commissioner of Lands for a license to prospect for coal and petroleum under the following described land:

Commencing at the north east corner of Lot 88, Yale Division of Yale District, thence 80 chains south thence 80 chains west, thence 80 chains north, thence 80 chains east to point of commencement.

Located this 17th day of February, 1920.

ROBERT SCHULLI,
Locator.

GENERAL NEWS

The city council of Merritt estimates a revenue of $1,000 from the police court this year.

Thirty-six thousand cattle and horses and 5,000 sheep were grazed on public lands under permit in British Columbia last year.

Rube Hull, who was at one time editor of the Grand Forks Gazette, and later "dreamer" on the Vancouver Sun is now publisher of the Hyder Alaska Miner.

China is an automobile paradise. There is no speed limit in the Flowery Kingdom. In fact the government gives a prize to any one who breaks the record while joy riding.

The Chinese were the first to use paper for decorating or covering the walls of rooms. The Dutch are supposed to have introduced the use of wallpaper in Europe in the sixteenth century.

From the Nelson Daily News ten years ago: The body of John Houston, pioneer, journalist, statesman and "Father of Nelson" was laid to rest yesterday. The funeral was the largest in the history of the city.

Another telegraph cable will be laid between, Peru and Ecuador to give those countries, as well as Columbia and Central America, better service with the United States through Galveston.

At Santa Cruz, California, a few nights ago thieves entered a stable where William S. Hart, moving picture actor had stored a cowboy outfit for use in a picture and appropiated the whole outfit. An expensive saddle, bridle, hair ropes and other items made up the outfit.

Nicol Thompson of Vancouver is arranging to ship several hundreds of tone of Atlin hydro-magnesite to Mabor, Limited, at London, England. This hydro-magnesite is said to be altogether different from the hard rock material of Austria, California, Washington and Quebec. In addition to the deposit in Atlin there are large deposits in Cariboo within easy distance of the P. G. E., which, with the establishment of a steel works will become a valuable asset to the province.

Acting Mayor James Ramsay, of Vancouver, says that the number of automobile accidents in that city calls for the strongest possible effort of the police to enforce laws and bylaws designed for public safety. Furious and careless driving, leaving machines upon the streets without proper light at night, leaving machines standing with their engines running and a dozen other evidences of carelessness and disregard of the law are responsible for the accidents.

So far there have been only two or thre cases of real flu in Princeton during present epidemic This malady seems to travel in streaks. In the winter of 1918- 1919 Princeton had some 400 cases and over 30 deaths, while Pnticton, Kelowna and other Okanogan towns had only a few mild cases. At that time Hedley was also hard hit The present epidemic has struck the Okanagan hard, and up to the present has scarcely touched the Similkamen towns.

Division of opinion among the branches of the G. W. V. A. in the province is about equal on question of entering politics. The final figures on reports from the British Columbia locals have been compiled by President C. W. Whittaker and Secretary W. Drinnan of the provincial executive of the association. Small majorities were registered in favor of deleting the clause which prevents political discussions in the meeting of the G. W. V. A., and for the extension of the membership to include members of the Siberian forces, and those who served in Canada, being unable to proceed overseas.

Sugar Famine will Soon Be Ended

The British Columbia Sugar Refining Company is now in a position to practically guarantee the population of this province an adequate supply of sugar for the current year, according to the information given the legislative enquiry by Blythe Rogers at its session on Monday afternoon at Victoria. He was not in a position to name the maximum price it might be expected to reach, but pointed to a statement that his plant had given British Columbia people the cheapest sugar in the world during the shortage crisis as an indication that hte refinery might not be expected to exact an undue toll.

Mr. Rogers also swore that the refinery excercised no control over the retail price of sugar at the present time; and, incidently that the people of this province have had cheaper sugar than they deserve in the light of the disparaging rumors that have been circulated by the public in respect to alleged refinery practises.

The refinery price, he sid would be determinde by the various orders on contract, some of which were favorable and some rather high, and could not be figured until the delivery of all orders was assured.

After the session he stated that he could hardly concieve of its being higher than 20 cents and possibly much lower, at the refinery.

Bank will Transmit Orders for Food

Announcement is made by the local management of the Bank of Montreal of the completion of arrangements for a system of transmitting orders for food on behalf of the American Relief Associatoin to the food depots of that organization in Hamburg, Warsaw, Vienna, Prague and Budapest In view of the worthy cause and with the object of helping those who wish to send food drafts to friends and relations in Europe, the Bank of Montreal is co-operating with the American relief administration without making any charge whatever for the service renedred.

These food drafts when purchased here are transmitted by cable free of charge, to the benefictaries at any point in Europe which can be reached by the relief association at present. These four different classes of orders under two different prices, $10 and $50 One of the $10 orders provides for 24½ pounds of flour, 10 pounds of beans, 8 pounds of bacon and 8 cans of milk being turned over from the nearest food depot. A variation of that order at the same price can be made by substituting 7½ pounds of cottonseed oil and 12 cans of milk for the 8 pounds of bacon. One of the $50 orders provides for 140 pounds of flour, 50 pounds of beans, 15 pounds of lard, 16 pounds of bacon, 12 pounds of corned beef and 48 cans of milk, while as an alternative at the same price, 45 pounds of cottonseed oil can be substituted for the bacon and lard, leaving the same proportion of other foodstuffs.

Novel Social in Aid of Church Fund

Something novel and something new was the social last Friday evening held in the Parish Hall under the auspices of the Ladies' Aid of the Presbyterian church. There was a splendid program, and the sum of $40 was cleared, which will be added to the church building fund. Following is the invitation sent out, and the scheme worked to perfection:

This invitation is given to you
'Tis something novel, 'tis something new;
Enclosed you will find a little sack,
Please either send or bring it back
With as many cents as years you're old—
We promise the number will never be told!
Kind friends will give you something to eat,
While others will furnish a musical treat.
Thee Ladies' Aid with greetings most hearty,
Feel sure you'll attend your own birthday party!

SAFETY FIRST SLOGANS

The "safety first" movement has reached a stage of education through slogans. "Safety first" literature teems with them. The walls of workshops are coveredwith them.

Among the following, drawn from the Inland Steel Co., and other sources, employees might select an assortment:

"Keep out of debt and danger. Both are alluring yet poor friends to make.

"Peace, prosperity, and good health depend on the selection and proper preparation of normal food material.

"The difference between a wise man and a fool is the fools' mistakes never teach him anytheing.

"The thinker will not drink. The drinker cannot think.

"Any fool can take a chance. It takes brains to be careful.

"It takes only a moment of carelessness to cause a lifetime of suffering.

"When hurry interferes with safety cut out the hurry.

COURT JAILS MOTOR CAR

A California magristrate struck a new note recently when he jailed a motor car for speeding and allowed the speeder go free. There are great possibilities in this line of reasoning For a five day period at least that motor car was out of harm's way, and the owner, presumably not having a second car, would also be safe for a like period of time. On the second offense the magistrate might fine the car one tire, and if it still persisted in "hitting it up" a second tire might be pinched; and so on until finally His Honor woudl have a complete car at his disposal. These suggestions are not patented. Any Canadian police magistrate may adopt them without fear of infringement — Saturday Night.

Buys Purebred Cattle

J. Gellatly local manager for P. Burns & Co., attended the bull sale at Kamloops last week. He purchased a pure bred shorthorn bull, four cows of the milking strain, and a carload of stockers, cows and heifers, for himself. Then at the government experimental farm near Summerland he purchased a carload of beef cattle for P. Burns & Co. The bull sale at Kamloops was a big success, he says.

MINES DEPARTMENT ISSUES BULLETIN

Tells of Work Done at Allenby and Copper Mountain for Year 1919.

Recently the Department of Mines at Victoria issued Bulletin No. 1, giving a preliminary review and estimate the mineral production of the province for 1919. The following covering the development at Allenby and Copper Mountain is of particular interest just at this time:

SIMILKAMEEN MINING DIVISION

Caada Copper Corporation—Work on this company's property at Copper Mountain and Allenby near Princeton has been chiefly confined to the construction of surface plants, installation of machinery and equipment, preparatory to a commencement of operations. The work at Allenby comprises the following: Concentrating plant building has been completed and all machinery is intsalled with the exception of the power-transmission shafting and belting; a permanent pumping plant on the Similkameen river completed and ready for electric power, also additional water-lines for indutsrial, domestic, fire-protection systems; heating plant with a battery of four 100-horse-power boilers and assay office and laboratory buiding erected.

On February 6th, last year, a skeleton track was completed to Allenby, on the Kettle Valley branch line from Princeton, which permitted the delivery of about forty car-loads of machinery and material. Following this, and before the road was ballasted, a strike was called by the ralway construction employees on April 1st, and further deliveries did not take place until the end of August, at which time some thirty car-loads of machinery and equipment were waiting delivery in Princeton yards. Traffic has been maintained to Allenby since that time but completion of the railroad to Copper Mountain will be delayed until the early summer of 1920.

Copper Mountain Mine—Work at the mine has been carried forward throughout the year to December 1st, when the camp was closed down for the winter. The following is a resume of the work done: Timbering the main shaft and stations, enlarging haulage levels, and timbering where necessary; main ore-passage from the surface, 4,073-foot to 3,107 foot level, completed; Temporary power plant; head frame for shaft; temorary compressor plant dismantled and replaced with permanent plant; air-lines; hoisthouse and hoist; concrete powder-magazine; addition to dining hall; steel-sharpening shop; laundry building; extending telephone system; primary bins and crushing plant; trestle and trackage connecting with portal of 3,170-foot level complete, with foundatoins ready to receive crushers; conveyor house from crushing plant to shipping bins ready for installment of convvyor; main storage-bins of "straddle" type completed; surface tramway from railroad station site to 3,170-foot level for transportation of incoming supplies.

ALLENBY SCHOOL

Following is a list of those pupils at the Allenby school who stood first in their class for February:

Entrance class—Edna Williams; 3rd reader, Gladys Jewell; 2nd reader, Howard Baird; 1st primer; Edith Jewell; receiving class, Albert Wallman.

E. C. BUETTNER, Teacher.

ODDS AND ENDS

Famous affinities: Flu and pneu.

Put a low brow in a high hat and he'll fool lots of 'em.

Now is the time for all good hens to begin to think about starting to lay.

"Waiter, this coffee is nothing but mud." "Yes sir; it was ground this morning.'"

It causes a sensation when a girl of sixteen reads her birth notice in the items of twenty years ago.—Hamilton Herald.

"Why did you strike the telegraph operator?'" asked the magistrate of the man who was summoned for assault." "Well, sir, I gives him a telegram to send to my gal, an' he starts readin' it. So, of course, I ups and gives him one."

Mark Twain more than once bemoaned the fact that he was a man. Humanity, in his opinion, had few reasons to be proud of itself. Man's eyes are imperfect; his organism includes rudimentary structures that are always getting out of order; his very upright posture was recently acquired and is the cause of numberless defects and weaknesses. He has shed his original hair coat, so that his skin now imperfectly protects the body. His organ of smell, compared with that of some other animals is the seat of a sense only by courtesy. His jaws have lost their gripping power, and his teeth have degenerated. His alimeentary canal, including his appendix, has become more liable to disease.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

RAILWAY FACILITIES ARE BEING IMPROVED

Divisional Headquarters Moved Gives Closer Touch With Similkameen Valley

Keremeos, March 15.—From enquiries made at the local depot it is learned that the Great Northern railway company is moving in the matter of giving better facilities to this branch of their system. This division has formerly been handled from Spokane but the headquarters have now been moved to Marcus, Washington.

Mr. T. F. Dixon has been appointed divisional superintendent and he, together with Mr. J. M. Doyle, assistant general superintendent, made an itinerary of this division last week. While in Keremeos these gentlemen stated that the change in divisional headquarters would place Mr. Dixon in better touch with matters on this line. The bridge gang would be set to work on this division on Monday and a great deal of necessary work done. While in Keremeos the bridge gang will attend to the necessary alterations to the stock yards which will be changed from their present site to a site on the opposite side of the track.

"HIDDEN TREASURE" MINE

A Good Prospect Being Worked Near to Cawston

Cawston, March 13.—An interesting time can be spent visiting the "Hidden Treasure" group of mineral claims located about three miles from Cawston, half a mile east of the Fairview road. These prospects are being worked by an American syndicate under the management of Mr. J. M. Pitman.

The location of the property is an ideal one from a mining point of view. It is adjacent to the Nelson-Copper Mountain power line and served by the good wagon road from Fairview to Cawston. Only a small expenditure it is claimed, would be necessary to construct a wagon road with reasonably easy grades from the mine itself to the present road.

Work has been progressing steadily during the past eleven months and during that time about 200 feet of tunnelling has been done cutting an apparently large body of low grade ore which assays from $8.78 to $14.95 per ton in gold, silver and copper.

PLAN FOR VICTORY HALL

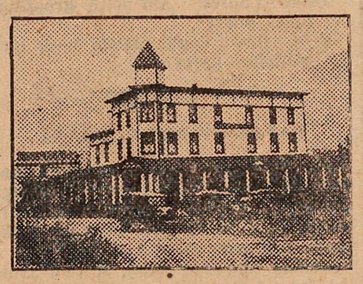
Keremos People Consider Memorial Proposal

Keremeos, March 10.—A meeting of the local citizens was called on Friday evening, March 5, at the town hall, for the purpose of further considering the erection of a Victory hall which has been considered for some months. A committee, consisting of Messrs. T. Daly, A. E. East, R. C. Clark, Wright and H. Armstrong was elected several months since for the purpose of trying to get funds, and start the ball rolling. This committee after succeeding in securing funds to the amount of about $800 by means of dances, etc., decided to put up the proposition to the members of the community to form a joint stock company and raise the necessary funds in this way. The local G.W.V.A. have offered to put up part of the funds necessary, and also take stock in the proposed company providing suitable rooms for their purposes as an association would be built.

Mr. R. C. Clark was elected chairman of the meeting and called on T. Daly to explain the purpose of the meeting and the plans proposed by the committee. Mr. Kennedy was elected secretary pro tem, and several resolutions were passed when a deadlock was encountered owing to such scarcity of light that the chairman could not determine the numbers voting for or against the then existing resolution.

Mr. E. Corbett then proposed that another meeting be called, and that proper lights be secured for such meeting, and suficient time be given by public notice of this proposed meeting. It was decided to meet again on Saturday evening, March 13. The meeting then adjourned to the B. C. Growers' packing house, whre the bright lights were to be found, and enjoyed the evening in the usual way.

HOTEL KEREMEOS



First rate accommodation. Special attention to tourists.

KEREMEOS, B. C.

Similkameen Farmers Institute

Electric light and full plumbing. All white help. Efficient service.

J. JACKSON, Proprietor. J. H. MARTIN, Manager.

BOTTLE OF LIQUOR IS FOUND UNDER SIDEWALK

Keremeos, B.C., March 9.—Whiskey is becoming so plentiful that it can now be found on the streets, or at all events a bottle of "Imperial" with unbroken seal was found under the sidewalk here on Sunday morning. In connection with this it is interesting to note whate the police records have to say regarding prohibition here. The liquor charges heard in the local court since 1914, were as follows: 1914, six; 1915, six; 1916, six; 1917, two; 1918, none; 1919, two charges of having liquor unlawfully in possession. In these two cases the fines were $50 and $57 with costs. The charges prior to 1918 were those of being "drunk," "drunk and disorderly" or "supplying liquor to Indians," but since prohibition came into force there have been no charges of this nature a indicated above.

Orangemen Hold Dance

Keremeos, B.C., March 13.—A dance and whist drive was held last night under the auspices of the local Orange lodge, in the store building recently moved onto a site in the main street, by Mr. E. Mills. This building has been remodelled and fitted out for two stores which will open for business shortly. The dance was held in one side and the whist drive in the other side of the building which was nicely decorated and adapted to the occasion. There were about 150 present. Music was supplied by Mrs. A. P. Thomas and Mr. Wm. Daly. A nice luncheon was served under the supervision of Messrs. Geo. Christie and R. W. Bigsworth. The committee responsible for the other arrangements of the evening were Messrs. J. Knudson, H. C. Etches, E. Mills and A. Pedy.

Are Driving Wells

Keremos, March 15.—Well-making has been engaging the attention of several here during the past fw days. Mr. W. M. Frith and Rev. W. C. Frank have both secured wells and Mr. E. Mills has driven a point nearly fifty feet at the back of the store building he is fitting out, but has not yet secured a sufficient supply of water.

Improving Roads to Keremeos

Keremeos, B. C., March 10.—The government road gang in the charge of Mr. C. D. Campbell, has been doing much needed work on the Keremeos Station roads. The section of the Hedley road under Mr. Campbel's jurisdiction has also been graded and some work done on the bench road near Similkameen.

Cars Are Increasing

Keremeos, B.C., Mar .10.—The number of automobiles in use in this district is rapidly ncreasing. Motor licenses taken out this year so far number forty and the jitney licenses seven.

Spray Material Obtained

Keremos, March 15.—The Similkameen Farmers' Institute has received a supply of spray for all ordering through the association and a mixed car of salt is expected to arrive at any time.

Plowing Is Underway

Keremeos, March 15.—The warm spell of the past week has driven the frost from the ground and plowing is general here and at Cawston.

Keremeos, B.C., March 10.—Mr. R. C. Clarke, of Keremeos, has been appointed jusice of the peace in and for the province of Brtish Columbia.

Mr. Lewtas Recovering

Cawston, March 15.—Mr. Wm. Lewtas, who has been very sick with pneumonia, is making progress toward recovery. The crisis was passed on Friday, and it is considered that he s now out of danger. Mrs. Lewtas, who was suffering from nervous prostration, is now able to be around.

They Like the Place

Cawston, March 12.—Mr., Mrs. and Miss Cox, of Portage la Prairie, are visiting here for a week or two. Mr. Cox came particularly in connection with business relatng to his lot, which adjoins that owned by Mr. H. W. Stebbins. Mr. Cox is very enthusiastic over the climatic conditions and the future prospects of the country.

Cawston, B. C., March 11.—Messrs. Frank McDonald and Thos. Swan have rented the lots owned by Messrs. L. V. Newton and F. M. Wright for the coming season and will plant them to tomatoes.

SOME POULTRY NOTES OF LOCAL INTEREST

Cure for Feather Pulling Habit Turning Incubator Eggs. Selecting Hatchers

Cawston, B.C., March 11.—It is reported by poultry keepers here that some of their birds have acqured the habit of pulling and eating feathers. It is a bad habit generaly noticed during the molting time or in the spring It is claimed by competent authorities that it is caused by insufficient exercise and improper rations. The latter is most generally the cause. The birds appear most partial to the young quills which are filled with blood. This would ndicate need of meat. Birds affected by parasites begin picking their feathers owing to the irritation and finding the blood in the quills meets their desire for meat they continue the vice until it becomes a habit. To cure or prevent this trouble the following suggestions will be found useful. First spray the poultry house and treat the birds for parasites. Second, smear powdered aloes mixed wth lard on the feathers as a deterrent; third, let their ration contain a good proportion of meat scrap, milk and grit. This should be fed in deep litters or, in summer, on clean loose earth. Make them scratch for their feed. This will keep them busy and their desire for meat being met they will forget the feather pulling.

The incubator season is at hand; in fact many machines have already been set in operation. Those who use the artificial hen are constantly on the alert to learn of methods of handling which will give the best results.

A great deal depends upon due care to turning the eggs but an over amount of turning is as disastrous as insufficient attention to this matter. The hatch is often delayed by the temperature of the incubator and eggs being kept low by removing the eggs too frequently for the purpose of turning. There is ample proof from many tests that the best results are obtained from eggs which are turned twice in every twenty-four hours. More turnings are unnecessary and result in uneven temperatures. Less than two movements in 24 hours provides insufficient exercise for the germs.

When turning the eggs it is not necessary that they be exactly turned half over as some have believed in the past, the frequency of motion is more important. Another point, however, needing care is in connection with the position of the eggs on the tray. If this is changed from one place to another the hatch will be kept even no matter if one portion of the incubator does not have quite the same temperature as other parts. Insufficient turning is indicated by the germs being grown fast to the shell. It is advisable always to see that the eggs lay with the large end slightly higher than the small end. The eggs should lay snugly on the tray when first put into the incubator, but overcrowding is not advantageous. The first turning should be made on the third day and the turning should be discontinued at the first sign of pipping.

A few comments on the selection of eggs to be used in the incubator would not be out of place here. These should all be uniform in size, shape and color, and should weigh not less than two ounces. The large eggs produce larger and stronger chicks who because of their better start in life are more profitable, being ready to market as broilers much sooner than would otherwise be the case. They also mature and commence to lay younger than the less forward ones. Too much is often expected of eggs for hatching bought from good breeders. All the eggs even in such a case should not be expected to hatch.

Will Add to House

Cawston, March 13.—Mr. John McD nald and family have now moved into their new home. Mr. McDonald will build onto the prsent house a little later in the year.

Dr. Ritchie at Cawston

Cawston, March 13.— Dr. Ritchie, of Princeton, visited Cawston today to meet several who have recently been under his care and who still require his attention. He made his headquarters at the home of Mr. and Mrs. R. W. Bigsworth, where he also performed a slight operation on little Miss Eva Bigsworth. Nurse Grey, of Keremeos, was in attendance. Miss Bigsworth is reported to be regaining her normal conditon of health rapidly.

Auxiliary Elects Officers

Cawston, March 13.—The Children's Auxiliary met at the home of Mr. and Mrs. R. W. Bigsworth yesterday afternoon, the occasion being the annual meeting for election of officers for the ensuing year. Dainty refreshments were served by Mrs. Bigsworth and an enjoyable time was spent by all. Miss Grace Silvester was elected president and Miss Millie MacKenzie vice-president. The other officers appointed were: Miss Greta Bigsworth, secretary-treasurer, and Miss Alma Sheridan, pianist. It was also decided to hold the meetings on the second Friday in every month.

To Have Loading Platform

Cawston, March 13.—It is understood as a result of enquiries made of officials of the Great Northern railway that the bridge gang is expected to arrive here shortly to make some of the necessary improvements in the way of a loading platform, etc.

Cawston, March 12.—A very enjoyable dance, arranged by several local ladies, was held last night in the new school room there being sufficient couples present to rightly fill the floor. The music was supplied by Messrs. F. M. Wright, F. L. Gimby and J. H. Martin.

Important Notice!

Department of Finance — Dominion of Canada

Your Income Tax Return Should be Filed at Once!!

All persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:

Every unmarried person, or widow, or widower, without dependents as defined by the Act, who during calendar year, 1919, received or earned $1,000 or more.

All other individuals, who during calendar year received or earned $2,000 or more.

Every corporation and joint stock company, whose profits exceeded $2,000 during the fiscal year ended in 1919.

CLASS 1

Forms to be used in filing returns on or before the **31st of March, 1920.**

Trustees, executors, adminstrators, agents and assignees must use **Form T 3.**

Employers making a return of the names and amounts paid to all directors, officials, agents or other employees must use **Form T 4.**

Corporations and Joint Stock companies making a return of all dividends and bonuses paid to shareholders and members during 1919, must use **Form T 5.**

NOTE.—Individuals comprising partnership must file returns in their individual capacity on Form T 1 or T 1 A.

PENALTY

Every person who is required to make this return, who fails to do so within the time limited, shall be subject to a penalty of $10.00 for each day during which the default continues—and all such penalties shall be assessed and collected from the person liable to make the return in the same manner in which taxes are assessed and collected.

Time Limit

All persons in Class 1, as shown hereon, must file on or before the **31st of March, 1920.**

All persons in Class 2, as shown hereon, must file on or before the **30th of April, 1920.**

General Instructions

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation, or from Postmasters.

Read carefully all instructions on Form before filling it in.

Pre-pay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly, and avoid penalties

CLASS 2

Forms to be used in filing returns on or before the 30th of April, 1920:

All individuals other than farmers and ranchers must use **Form T 1.**

Farmers and ranchers must use **Form T 1 A.**

Corporations and Joint Stock companies must use **Form T 2.**

PENALTY

Every person required to make a return, who fails to do so within the time limited, shall be subject to a penalty of twenty-five per centum of the amount of the tax payable.

Any person, whether taxable or otherwise, who fails to make a return or provide information duly required according to the provisions of the Act, shall be liable on summary conviction to a penalty of $100.00 for each day during which the default continues. Also that any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding $10,000, or to six months' imprisonment or to both fine and imprisonment.

Address of Inspector of Taxation for this District:
VANCOUVER, B.C.

1

R. W. BREADNER, *Commissioner of Taxation.*

AN INVESTMENT

WORTHY THE CONSIDERATION OF ANY PERSON HAVING MONEY TO INVEST--IN EITHER LARGE OR SMALL AMOUNTS

In the forefront of enterprise and commercial activity at the present time in Penticton is to be found The Penticton Development and Exploration Co., Ltd., (non-personal liability), which has started on an extensive campaign of development of its "Torpedo" group of mines, and the directors are a unit in asserting that when the necessary equipment is installed the ultimate goal of the company will spell "SUCCESS" in large letters. But money talks—and money is needed to equip the mines with modern machinery sufficient to carry on the work in a big way, thereby insuring big returns to the investor.

With this end in view the directors have increased the capital stock of the company from $25,000 to $100,000, and of this amount 60,400 shares of $1.00 each are now offered for public subscription. Faith in the prospect becomes stronger each day and on the strength of the assays and engineer's reports the directors to a man have invested capital and given of their time lavishly in an endeavor to further the best interests of the company.

Men who loom large in the mining interests of the province are watching closely the development of the Torpedo Group, where it is expected discoveries will be made that will dwarf the most glowing estimates made up to the present time, and will add much to the already enormous mineral wealth that is being mined in British Columbia today. The value of the ore mined in the Torpedo Group is assured and the development and improvement arranged by The Penticton Development and Exploration Co. for this coming season alone should make 1920 an epoch year.

Become a shareholder in this enterprise. We offer you the stock at $1.00 per share which should not remain long at that price. If you have $50, $100 or any amount to invest, we invite you to consider our proposition—and it may make you a fortune.

We recommend the purchase of these shares as a sound investment and solicit interviews regarding any details on which you require information. Our prospectus, containing a sketch map of the property and the engineer's report, together with actual photographs of the mine buildings and surrounding country will be sent to any address and enquiries given prompt attention.

Subscription lists are now open at our office. Take advantage of this meritorious investment and place your dollars where the returns are the greatest.

CHRISTIAN .SCIENCE .REVERSED

(By Dr. Frank Crane)

Whether or uot you believe in Christian Science, at least Reversed Christian Science is true. That is to say, if you want heart disease, lie awake of nights and listen to your pulse; if you want stomach trouble, inject your thought regularly into your stomach; if you want a bad looking mouth, keep fixing it and screwng at it; and if you want any member gland, or organ of your physical frame to go on a strike and begin to act up, give it a good dose of self-consciousness. So that I say that, whether or not your thought can cure anything, it can certainly give you something in the way of disease.

The way to ruin your watch is to tinker with its insides; the way to ruin your crop of beans is to dig them up every day to see how much they've grown, and the way to ruin your body and soul is to think about them. "He that saveth his life shall lose it."

If you want to see what you amount to, look at your work. The psychological function of work is to reveal a man to himself.

If you've never done anything in all probability you are nothing.

TRYING TO PLEASE ALL

A merchant opened up a fish shop and had a new sign painted. It read, "Fresh Fish Sold Here."

"What did you put the word 'fresh' in for?" said the first customer. "You wouldn't sell them if they weren't fresh, would you?"

He painted out the word, leaving just "Fish Sold Here."

"Why do you say here?" asked his second customer. "You're not selling them anywhere else, are you?"

So he rubbed out the word "here."

"Why use 'sold'?" asked the next customer. "You're not giving them away, are you."

So he rubbed out everything but the word "Fish" remarking: "Well nobody can find fault with that sign now, anyway."

A moment later another customer came in.

"I don't see the use of that sign 'Fish' up there," he said, "when you can smell them a mile away."

WE MUST EAT

We may live wihtout poetry, music and art;
We may live without conscience and and live without heart;
We may live without friends; we may live without books
But civilized man can not live without cooks.

He may live without books,—what is knowledge but grieving
He may live without hope—what is hope but deceiving?
He may live without love,—what is passion but pining?
But where is the man that can live without dining?

—Edward Lytton
