TREASURE MOUNTAIN COOK MISSING

REMAINED IN SUMMIT CAMP WHEN OTHER MEN LEFT—NOT THERE WHEN CAMP IS NEXT VISITED

A Star reader writes from Tulameen saying: "I wish you would draw the attention of your readers to the matter of a man being reported lost in the hills about four weeks ago and no action of any kind has been taken to ascertain whether he is alive or dead. Andy Jensen went up to the Summit camp about four weeks ago and when he returned home told his wife that the cook at the Treasure Mountain Mining Company's camp, who had been left alone about the first of March, was not to be found and that he had tracked him some distance on the trail coming out but could not follow the tracks further. It seems strange to me that no action has yet been taken to recover the body and find out how the missing man came to his end. He is supposed to have had on his person pay cheques to the value of between two and three hundred dollars."

Enquiry made by the Star would indicate that the local provincial constables have not been neglectful of duty in connection with the case. They have not the authority to engage men to go into the hills on what must prove at best somewhat of a forlorn hope so long as the snow is on the ground, but they have made all possible enquiries, even at Hope as it was thought the man might have attempted the trip out by way of Emancipation Mine.

John Carlson, who worked at the mine all winter states that when the gang left there on the 2nd of March they tried to induce the cook, whose name was Max Austin and who was of German nationality, to come with them, but he declined saying that he was used to staying alone. Carlson then warned him against trying to make the trip out alone and in the event of his doing so to be sure and follow down stream. He did not consider him to be quite normal mentally.

SELLS SPUDS AT $200 TON

(Chilliwack Progress)

"Spuds is spuds" is an old saying but the man who cannot find a market for his crop at $1 a sack, after keeping them all winter, is inclined to dispute the statement when he sees other varieties selling at $200 per ton. The latter is, however, the price some choice potatoes, grown by Mr. R. Walters of the Young road, are selling for in Vancouver, and at that each customer is limited to five pounds. The potatoes, the Marquis of Queensborough variety, were grown by Mr. Walters from special seed obtainer from Mr. McKay, of New Westminster, and are the result of six years' effort to produce in the perfect condition, shape, texture, firmness and weight, they grew to here.

The crop Mr. Walters grew averaged some nine tons to the acre, and after seeing the spuds Mr. Chris Spencer, of Spencer's Ltd., Vancouver, purchased the entire crop, and is now selling them in 5-lb. lots only in Vancouver at 10c per lb. Spencers are featuring the Marquis of Queensborough potato, grown in Chilliwack, in their 1923 seed catalogue as the finest seedling spud on the market.

KEREMEOS DAY
MAY 24th

—A FULL PROGRAM—

BASEBALL GAMES

ATHLETIC SPORTS AND TENNIS TOURNAMENTS

AFTERNOON—IN VICTORY HALL COMEDY ENTITLED

"Won by a Wager"

EVENING—GRAND BALL AND BANQUET SUPPER

COMING EVENTS

This (Friday) afternoon, tea by the Girls' Guild, Parish Hall.

* * * *

This (Friday) evening, Hospital Dance, Shatford's Hall, Hedley.

* * * *

Sunday, April 29th. Services in St. Cuthbert's Church. Holy Communion 11 a. m.; Children's service 3 p. m.; Evening service 7.30.

* * * *

Big Celebration—Keremeos May 24th. Baseball, tennis, dancing and entertainment.

* * * *

Dance—Oddfellows' hall, Friday, May 4. Under the auspices of the Princeton "Blue Birds."

* * * *

Lecture on psychology and self-healing. Parish Hall, Saturday evening, April 28, at 8.15. Collection to defray rent of hall. Any proceeds donated toward play ground for children. Mrs. Florence F. Walmsley.

The Revival of Hedley

JIM WALKER'S LATEST DISCOVERY MAKES IT QUITE PROBABLE

(By R. W. Northey.)

For the past few weeks the most prevalent, most absorbing and most interesting topic in this section of the Similkameen valley has been the discovery by Walker and McKinnon of high-grade gold ore a short distance from the little mining town of Hedley, the same little town that cut such a big swathe twenty years ago. Although only now being talked of and commented upon from one end of the valley to the other it is not exactly a new discovery. About two years ago James Walker, then something of a tenderfoot in the prospecting game, "stubbed his toe" against some white iron outcrop and dug out a nice-looking piece for assay. The ore was not as good as it looked. The returns gave $4 in gold, which was not very encouraging. But Jim and his partner, Dan McKinnon, did some work on it and sent another sample for assay. This went a little better, $9 in gold, more than double the first sample. Then they did some more work and sent another sample for assay, which went $20 in gold . This was going some, and very cheering, and as the values contained in the ore rose so did the hopes and expectations of the partners.

They did not keep steadily at work on this claim, as they had some copper claims close by, and thought it a much better proposition than the white iron. But copper dropped to a very low quotation and getting dissatisfied with the outlook in that direction they once more turned their attention to the white arsenical iron that carried the gold. Then after a lot more work, in which they opened up the ledge for its entire width, they had another sample assayed from ore taken for six feet across the lead, not a picked sample taken from the richest part of the paystreak, and they got a return of $60 in gold. And since then numerous samples have been assayed at the laboratory of the Hedley Gold Mining Co. as well as at the Government Assay Office at Victoria. Let me mention a few of them that I can vouch for, as I have the assay certificates before me as I write:

Government Assay Office, Victoria, March 24th, 1923.—Sample No. 1, 12.2 oz. per ton; No. 2, 6.2 oz.; No. 3, 0.8 oz.—D. E. Whittaker, Assist. Prov. Govt. Assayer.

Hedley Gold Mining Co., Ltd., April 9th, 1923.—Sample No. 1, from floor of tunnel, six feet, 5.13 oz. ($102.60) per ton; No. 2, from wall of tunnel, 1.52 oz. ($30.40).—Dedolphe, assayer.

Hedley Gold Mining Co., Ltd., April 14th, 1923.—Sample No. 1, 0.39 oz. ($7.80); No. 2, 3.44 oz. ($68.60; No. 3, 1.16 oz. ($33.30).—Dedolphe assayer.

Now then, having established the richness of the ore, let me give a description of the property as nearly as it is possible for one who was not able to visit it, although I had gone to Hedley for that very purpose last Thursday. Although within rifle shot of the town I was informed that it would take three hours of arduous climbing to reach it and that it was no joke, even to a man accustomed to mountain climbing every day. A flying machine could make the trip in five or six minutes, the location being just behind the hill at the north end of the town, but the "hill" is straight up for about 2,000 foot, with no foothold for even a mountain goat. To get there on foot one has to go west for about a mile and begin the ascent where the declivity is not so steep and so get up behind the precipitous bluff which almost overhangs the northern section of the town—what is known as the Ready Cash Addition. If it were possible to get up from the canyon through which Twenty-mile creek flows it would be much nearer, but no access can be had that way. However, that will be the best route for bringing the ore down.

I spent four or five strenuous hours in Hedley, and probably those of the inhabitants who saw me cutting around and across the streets hunting up the various parties I wanted to interview might have wondered whether I was a government sleuth on the search for contraband liquor or a would-be mining promotor seeking to make some "easy money" by cajoling the owners into giving me a fake bond on the famous property which had turned the limelight on quiet little Hedley once more. Indeed, one dear, quaint old lady did mistake me for one of that ilk and pitched into me quite vigorously, but later on she amply apologised for her suspicion and could no t do enough for me. But I gained my purpose. I caught everyone who could give me the information I needed, half a dozen of them, beginning with Dan McKinnon and ending with James Walker himself. Lucky Jim!

I also obtained some fine samples of the ore. It is very similar to that found by Jim McNulty on his claims on Independence Mountain, near the Apex mine, about five miles east of the Nickel plate in 1898, when M. K. Rogers bought it for the Marcus Daly people.

The claim on which the ore is located, or rather on which the work has been done, as it is very evident that the ledge runs through more than one of the group, is the Cyclone, one of a group of seven, the others being

(Continued on page two.)

Summer Schedule Kettle Valley Ry.

AFTER MAY 20TH FORTY-FIVE MINUTES WILL BE CLIPPED OFF RUNNING TIME BETWEEN MIDWAY AND VANCOUVER

While the summer time card for the K. V. R. has not yet been received at Princeton, the following, from the Penticton Herald, gives an idea of the change in time that may be expected:

"The new Kettle Valley time table, which is to go into effect on Sunday, May 20, will provide a considerable improvement in running time between the Kootenay and the Coast in that three quarters of an hour will be clipped off the time arriving in Vancouver. At present the arriving time at Vancouver is 11.15 p. m., but after May 20, it will be 10.30. The new time will give passengers to the Coast a better opportunity of making connections with the night boats for Seattle and Victoria. In addition, the earlier hour of arrival is of advantage to those who have any distance to go in the city.

"Under the new schedule the westbound train leaves Midway at the usual time of 5 a. m., but makes Penticton at 10.46, instead of 10.55, which is the present time. The new time at Hope is seven-twenty at night, instead of ten minutes to eight. The other fifteen minutes of schedule reduction is made between Hope and Vancouver.

"Eastbound,the Coast-Kootenay train will leave Vancouver at the usual night hour of seven fifteen, but gains fifteen minutes by the time Hope is reached. The arriving time at Penticton is seven-thirty-five in the morning instead of seven-forty-five. The same ten minute gain is preserved to Midway."

CANNERY RAISES PRICE TO CO-OP. TOM. GROWERS

Vancouver.—Following a conference of officials of the Dominion Canners Limited this morning, it was announced that the company would agree to pay the $17 per ton price asked by the Okanagan tomato growers this season. Mr. W. A. Blott, the production manager, who returned on Sunday from the Upper Country, detailed the latest developments at Kelowna. If the growers accept the new proposal, the movement of the growers to operate their own cannery this season will be stopped. There has been a deadlock in the deal for the last two or three weeks.

In making the announcement this afternoon, Mr. F. G. Evans, manager of the company, stated that the directors of the company in the East felt in the original stages of negotiations that the $15 which the company offered was the limit the company could pay especially in view of the fact that in Ontario, contracts for the coming season had already been signed on a basis of 35 cents a bushel or about $11.60 a ton.

After further consideration, however, Mr. Evans said his principals, in an effort to meet the growers and assist the fruit industry, bearing in mind the low prices returned the last couple of years, had agreed to pay the figure asked by the producers.

FOREST PROTECTION WEEK

This week, April 23rd to 28th, has been proclaimed as "National Forest Protection Week,, and throughout the entire Dominion addresses are being given in churches, in the press, before Boards of Trade, Rotary Clubs and other societies, and notices are posted in store windows, hotels, movies and other public places. An effort is also being made to reach all the schools, both city and rural, and short talks are given on the value of our forests and the need for care with fire. The schools in Princeton, Hedley, One Mile, Jura, East Princeton and Five Mile have been visited by the District Forester, A. E. Parlow, and Ranger Evan Thomas; the lower part of the valley being covered by Ranger H. Oldham, of Penticton. An essay competition is being held for all the schools in B. C. on the value of our forests, and why we should protect them from fire. There are three grades, High School, Senior Public School and Junior, and in each grade a first prize of a silver cup is offered, five second prizes consisting of gold medals and ten third prizes of silver medals. Full particulars may be obtained from the principal of your local school or from the Star office. There is no reason why some of these prizes should not be won in this valley.

Each year our valleys are filled with smoke and thousands of acres of trees are destroyed by fire. Loggers and mill owners are already forced to go farther back into the hills for logs and fifty years from now mills will be wanting the logs we now burn as "second growth." Blackened hill sides, covered with fallen trees attract no tourist and if we realized it, every forest fire in B. C. means a very direct loss to each of us. Nearly all fires are the result of somone's carelessness, therefore as a good Canadian citizen, in the public interest, and in your own interest "Be Careful With Fire."

Jackie Coogan, the kid himself, in "Peck's Bad Boy" and Charlie Chaplin in a double role in "The Idle Class" at the Princess this week.

Remains Discovered After Four Years

WHILE LOCATING MINERAL CLAIM WILLIAM BRITTON MAKES GRUESOME FIND NEAR COALMONT ROAD

The mountain wastes near here have yielded up the remains of another of their victims. While staking a mineral claim near the summit of the Princeton-Coalmont road, in the rough country between the road and the Tulameen river, William Britton discovered portions of a human skeleton and other evidence that would show that a man had perished there some time ago.

The find was immediately reported and on Wednesday Constable Fryer and Coroner Dr. McCaffrey visited the scene of the tragedy. According to the latter the condition of the bones would indicate that the man had been dead about four years. Judging from the length of the femur, or thigh bone, he would be a man about six feet tall. Remnants of clothing showed that he had been clad in a dark brown striped suit.

Many portions of the skeleton were missing and what were left were badly scattered around, indicating that the body had been molested by coyotes or other animals. A cheap Ingersoll watch and remains of small articles, such as a man travelling through the country would pack, were found. Also a small roll of bills which were so badly decomposed that they crumbled when touched, but which had evidently contained two $20 bills.

Enquiry around town fails to disclose any knowledge of the missing man. That he was a stranger passing through is also indicated by the articles which he had been carrying on his person.

ORGANIZING PROVINCIAL PARTY AT COALMONT

Coalmont, April 24.—A meeting advertised as a get-together meeting of supporters of the new Provincial party, was held in the Coalmont hotel on Friday evening, April 20.

Messrs. E. Waterman, H. R. Plommer, E. E. Hardwick, Gus Murchy, J. ... Brown, G. Prideaux and Ed. Burr attended as a delegation from the Princeton association. There was a large and enthusiastic crowd present.

R. V. Shaw occupied the chair and introduced the delegation, while J. Clotsworthy acted as secretary pro tem.

E. Waterman spoke in favor of the new party and read an article from a city paper commenting on the business career of Gen. MacRae. The trend of the article was to disprove some of the partizan statements made by his opponents and show that (on the contrary) the general was a thorough conscientious business man and could be trusted to administer the affairs of the province in a businesslike manner.

Mr. Plommer on rising to speak received quite an ovation. He warned those present that an election might be sprung upon us at any time, and therefore it was advisable to be organized and prepared. He scored the government for its lax method of conducting the affairs of the province and spoke scathingly of the ineptitude shown by the B. C. government in the administration of the P. G. E. railway. On account of the unbusinesslike methods of the government we were in the invidious position of having more indebtedness and higher taxation than any other province in the Dominion. Now was the time to give the Oliver government its quietus, for, if the present squandermania continued much longer the province would be in such a state financially that it would take years of sane government to bring it back to a normal financial condition.

E. E. Hardwick called attention to the fact that the platform of the Provincial Party as already formed was not necessarily the platform that would be adopted when the various local organizations got organized and delegates were appointed to attend a Provincial Party convention.

After further discussion it was decided to postpone actual organization till a later meeting, which has since been fixed for Thursday evening.

DOUKHOBOR LEADER REFUSES FOOD

Nelson, April 20.—Alexis Miskaoff, Doukhobor bishop of Grand Forks, who created a scene recently in the court house by attempting to disrobe as a protest against the incarceration of Sam Cherenkoff, awaiting trial on a charge of having set fire to a school, and who was arrested, has gone on hunger strike.

Although 75 years of age, Miskaoff has taken neither food nor drink during the past two days, despite efforts of the city police officers to have him eat.

Yesterday, he was examined for his sanity by Dr. W. O. Rose, and as a result it is understood that he will likely be sent to the asylum at New Westminster.

He was placed on trial in the police court on Monday, charged with committing an indecent act, and was remanded for a week.

A registry for both county and supreme court is to be established at Kelowna May 1st with G. A. Fraser as registrar.

SPORTS

BASEBALL

Baseball fans and players! Attention! The Princeton team will hold their first practice for the season this (Friday) evening at the ball park at five o'clock sharp. The first match booked is with Keremeos, at Keremeos on May 24th. Should the plans of Manager Doc. Smith and his lieutenant, Joe Wigmore, materialize the boys will appear in brand new uniforms for the opening game.

At a meeting held in the Hotel Princeton on Monday evening re-organization was completed as follows: President, J. A. Brown; vice-president, Dr. J. D. Butler; secretary, H. E. Hansen; manager and captain, Dr. Lee Smith; assistant manager, Joe Wigmore; executive committee, A. Butler, J. Waugh and Bert Hill.

According to the treasurer's report the club commences the season with the sum of $30 on the right side of the ledger. The suggestion that Princeton enter a league with Oroville, Penticton and Keremeos was not favorably received as it was considered impossible to finance such long journeys as that would necessitate. The possibility of a league within the valley, and possibly embracing Allenby and Copper Mountain, met with more favorable consideration.

All necessary work required to put the ball diamond in the pink of condition has already been done and it is doubtful if its equal is to be found in the interior. As far as equipment is concerned the club is fairly well fixed except for uniforms. These are essential if the team is to present the appearance on the field that a Princeton nine should, and a canvass to secure the necessary money is to be started at once. Have your contribution ready as a well equipped, well-managed, efficient baseball team is a credit to any town.

TENNIS

The committee of the Princeton Tennis club have their court at the depot in shape for playing, and beg to announce that the formal opening will take place on Saturday first, the 28th instant, at 2 p. m. It is hoped that the members will turn out 100% strong to give the club the send-off it deserves.

The ladies have very kindly consented to act as hostesses and will serve light refreshments during the afternoon.

The club boasts a membership of 36, of whom several have been down at the court during the past week getting into shape. Saturday will be the day for all budding "Tildens" and "Lenglens" to show their paces.

It is expected that the Princeton club will send a team to Keremeos to compete in the tournament to be held there on May 24th.

Blue Birds Tennis Club

Through the kindness of Mr. A. E. Howse, who donated the use of the grounds, and through the efforts of Mr. W. S. Garrison and Mr. E. Barr Hall, assisted by others, the Blue Birds Tennis court adjoining the Star office is rapidly approaching a finished shape. Few people realize the magnitude of the task of levelling, surfacing, enclosing and equipping a double-court tennis ground. If everything had to be paid for it would cost probably between five and six hundred dollars. That it bids fair to be accomplished at an early date through voluntary effort and funds raised by the efforts of our girls is a matter on which the town may well congratulate itself.

The wisdom of spending so much money and effort on grounds which may be sold at any time and required for other purposes, is questioned by some citizens, but the majority, appreciating the benefit to be attained, are lending a helping hand and trusting to the girls having the use of the grounds for such a period of time as would warrant the enterprise.

GOLF

Princeton golfers held a meeting last evening to complete all details in respect to improvements to be made on their links and to arrange a series of club competitions. With the increased membership it is the opinion of many of the members that the fees will provide sufficient funds to make all necessary improvements on the course for this year.

Mr. Robt. Bone, manager of the Montreal Trust Co., Vancouver, and golf champion for B. C. in 1922, was in Princeton on Wednesday but did not learn in time of the attractions of our local links. He stated his intention, however, of arranging his next trip so as to be here over the week-end so as to take advantage of the opportunity for a game over what is perhaps the best natural course in the whole interior.

NEW CAPITALIZATION OF FLORENCE MINE

Nelson, April 21.—An application on behalf of the Florence Silver Mining company at Ainsworth authorizing an increase in chambers at the court house yesterday by H. Clifford Irving, of O'Shea & Irving, barristers, and was granted.

The company increases its capital from $1,250,000 to $3,750,000, and will issue 2,500,000 new shares. Of these 500,000 are preference shares and 2,000,000 of common stock, the latter being issued as a bonus to the recipients of the new preferred.

CONSOLIDATED CO. HAD GOOD YEAR

SULLIVAN BREAKS RECORD—NEW MILL TO RANK FIRST IN WORLD — ROSSLAND TO RESUME

Net profits of $1,467,528 were earned by the Consolidated Mining and Smelting company of Canada in 1922, according to the report of the directors, James J. Warren, president. This is after taking care of current development, depreciation of plant and capital renewals, depletion of property and paying interest on bank loans. The sum is comparable with net profits of $570,043 in 1921. Smelter products were sold for $9,576,201. Ores in transit and on hand were $2,023,763 on December 31.

"After providing for bond interest the remainder, $1,228,329, was transferred to profit and loss account," says President Warren. "The year was the most favorable one for some time. The domestic demand was somewhat better and at higher prices. The surplus production was absorbed by foreign markets at fair prices.

"The output of lead, zinc and silver was quite satisfactory, both as to quantity and cost. Conditions at the Sullivan mine continue to be favorable. Virtually nothing was done in your copper and copper-gold properties. The improved copper position justifies the further development of these properties and it is planned to do so. Your plants have been well maintained.

"The demand for electrical energy in the district served by your power company have increased and are increasing to such an extent that further development, both hydraulic and electrical, is imperative. You will be asked at the annual meeting to authorize the guarantee of the securities being issued by the power company to provide the funds necessary for this additional development.

"Capital expenditure, including capital renewals, during the year amounted to $1,239,024, of which $110,340 was spent on property account and $1,128,684 on plant account. Among the items under plant accounts were $108,428 on the Sullivan mine, $630,790 on the Sullivan mill and $207,149 on an extension of the lead refinery at the Trail smelter. The extension of the lead refinery to a capacity of 150 tons of lead a day was completed early in the summer and works satisfactorily.

"Good progress was made in the construction of the mill at the mine for the treatment of Sullivan ore. It is expected that the mill will be turning over early in the summer, when the mill at the smelter will begin treating Rossland ores. The cost of the new mill will exceed the estimate considerably, but its capacity will be greater than intended originally. The additional machinery installed will improve the metal recovery.

Work on the Sullivan mill, also referred to as the Kimberley concentrator, was started on June 1 and should be completed about midsummer, says the report of S. G. Blaylock, general manager. "The mill will be one of the most up-to-date plants in the world,"he said. "Its capacity will vary largely with the grade of ore shipped, but it should probably be rated as a 2000-ton mill instead of a 1500-ton mill, originally intended. The process used is a new one which has been developed at the Tadanac (Trail) plant, selecting first the lead sulphide, then the zinc sulphide, leaving the iron sulphide as tailings."

Shipments from the Sullivan mine were the greatest in history, 349,830 tons of zinc-lead ore, 8926 tons of lead ore and 2088 tons of iron pyrites, according to the report of W. M. Archibald, manager of mines.

There has been considerable increase in customs ore business in the year, the value of ore purchased rising from $385,998 in 1921 to $1,194,389 in 1922, says the report of T. W. Bingay, comptroller.

An increase of more than 60 per cent. was made in the sale of lead and zinc for domestic consumption, says the report of W. S. Rugh, sales manager. The foreign demand was uniformly strong. The 1922 sales were as follows: Lead, 86,962,000 pounds; zinc, 61,632,000 pounds, and copper, 1,202,000 pounds.

The revenue producing load for 1921 was 28,065 horse power and for 1922 was 27,778 horsepower, a decrease of 287, says the report of Lorne A. Campbell, vice-president and general manager of the West Kootenay Power and Light Company, a subsidary. The decrease was due to unfortunate farm and fruit produce marketing conditions in the region served, but an attempt is being made to improve the selling organization. The gross consolidated revenue for the year was $746,441.

The following up of a clue left by the individual or individuals who recently broke into the Kiosk, on Lakeshore drive, and carried off a quantity of cigarettes, tobacco and chocolate bars, resulted in the arrest at Princeton on Thursday of Howard Britnell, who appeared this morning before Magistrate T. A. Pope, in the municipal police court, charged with this offence. He pleaded not guilty, claiming to know nothing of the matter and was remanded until Monday. It appears he has "beaten" his way here from Fort William.—Penticton Herald.

ORGANIZATION SCORES ITS FIRST SUCCESS

The success achieved by the tomato growers' association in B. C. in its effort to secure from the Dominion Canners, and other independent concerns of a similar nature, a fair price for the producer should prove a valuable object lesson to all tillers of the soil. It shows what can be accomplished by getting together and sticking together. It should prove a great incentive for the small percentage of fruit growers, who have not yet identified themselves with the big co-operative movement to get in line, stay in line and support it to the limit of their power.

The initial copy of The Kootenay Times has reached our desk. It is a six column, six page weekly and denies any party affiliations though it has been charged with being partial to the Liberal government. Friday, the 13th April, was selected as the day for the first issue and that it did not entirely escape "the jinx" is indicated by the fact that trouble with the motor caused delay in getting the first issue off the press.

THE REVIVAL OF HEDLEY

(Continued from page one.)

the Whirlwind, Jumbo, Peggy, Rawhide, Portland and R. A. This group is owned by James Walker, D. H. McKinnon, J. A. Robinson, Kirk Robinson and R. E. Baxter. Then there is an adjoining group of three claims—the Hobo, War Eagle and Tipperary—owned by Herbert Neil, in the same formation as the Cyclone group. The work on the Cyclone is an open cut, taking in the whole width of the ledge, and a drift tunnel being driven into the mountain between a footwall of crystalised lime and a hanging wall of diorite—a splendid contact. I could not get the exact trend or dip of the ledge, as Mr. McKinnon said he "got kind a turned around when up there." But he said there was a pronounced dip, and from the position of his hands when he tried to exemplify it I should say it was somewhere between 60 and 70 degrees. It will be remembered that crystalised lime as a contact is one of the best indications obtainable and was a prominent feature in the development of the Nickel Plate.

The Rawhide, Peggy and Portland are copper claims, and on the first named there has been exposed 32 feet of chalcopyrite which assays from 3 per cent. to 10 per cent. copper. When copper dropped to such a low price as ruled last year Walker and McKinnon stopped development work on the Rawhide and decided to just merely keep up the annual assessment, while for some time they had been looking for something more remunerative. Walker had already found it, but the $4 assay had put a damper on their hopes of making anything out of it. And so they started in on it again, to be rewarded by the richest thing found in the Similkameen for a long time. If it continues as rich as it is now and "goes down"—and at present there is nothing to lead one to believe that it will not—it will surely mean rebirth to Hedley, a revival of the busy, bustling life which was very much in evidence there for many years after the mill began operations.

There are two or three things that point to a deal being consummated for this property in the near future, and the first of these is the fact that Mr. Trites, who has been very prominent in the mining news of the northern coast of B. C. lately, and Col. Leckie have taken an option or working bond to begin exploration work right away, which, if satisfactory, will be replaced by a bond to pay a sum amounting to six figures to the lucky owners. Let us hope that it will turn out to be as good an investment as the Nickel Plate. Of course I did not care to ask what the actual sum was, but I was assured that it would represent six figures.

Another assuring fact, and one that cannot be too strongly emphasized, is the near proximity of a gold mine that has been working since 1898 and is still paying dividends, and so far as any ordinary outsider knows is likely to run another twenty years.

I must conclude now. I've done enough typing for one sitting. If all's well and nothing intervenes I will finish this article on Hedley next week.

James S. Birnie arrived in Princeton Tuesday, purchased a supply of provisions and then proceeded out to Mr. Kenedy's ranch where he will spend the next few weeks. After that he expects to have a position at Allenby with the Granby Company, with whom he has spent several years. For many years Mr. Birnie was an employee in the government office at Greenwood. Prior to that he spent 3 years with the mounted police and back in the nineties was engaged in southern Manitoba, on survey work under Mr. C. Æ. Shaw, now a resident of the lower valley. Mr. Birnie's arrival in our district, with the promise of a job from the Granby, is an indication that the company do not intend to waste any time in commencing operations after transfer of title to the property is completed.

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that The Kettle Valley Railway Company whose address is Penticton, B. C., will apply for a licence to take and use 30,000 gallons per day of water of Spring Creek, also known as Christina Creek which flows easterly and drains into Five Mile Creek near the S. E. corner of Lot 1506, Kamloops Division Yale District.

The water will be diverted from the stream at a point in Lot 1866, about 175 feet south of and 30 feet west of the S. W. corner of Lot 1506 and will be used for locomotive and railway purpose at a tank at Jura station on the Company's right of way in Lot 1402.

This notice was posted on the ground on the 18th day of April, 1923.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Princeton, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

THE KETTLE VALLEY RY. CO.,
Applicant.
By C. B. Gordon, Agent.

The date of the first publication of this notice is Friday, April 20, 1923. 22-4

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that The Kettle Valley Railway Company whose address is Penticton, B. C. will apply for a licence to take and use 60,000 gallons per day of water out of Pass Creek which flows north-westerly and drains into the Coldwater River about Mile 23 on Kettle Valley Railway south of Merritt.

The water will be diverted from the stream at a point in Lot 594 Yale Division Yale District; 2260 feet south of and 130 feet west of the N. W. corner of Lot 659 and will be used for locomotive and railway purpose upon the Company's right of way at Brookmere station in Lot 659.

This notice was posted on the ground on the 13th day of April, 1923.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Princeton, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first apeparance of this notice in a local newspaper.

THE KETTLE VALLEY RY. CO.,
Applicant.
By C. B. Gordon, Agent.

The date of the first publication of this notice is Friday, April 20, 1923. 22-4

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that William Thomson whose address is Keremeos, B.C., Box 14, will apply for a licence to take and use 140 acre feet and 500 gallons daily of water out of Stirling Creek, also known as East Fork of Stirling Creek which flows North and drains into Similkameen River about at Lot 1925, near Provincial Bridge.

The water will be diverted from the stream at a point about three quarters mile from the South East Corner of Lot 1587-s, as the creek flows and will be used for irrigation and domestic purpose upon the land described as Lot 2186-s, Similkameen Division of Yale District.

This notice was posted on the ground on the tenth day of April, 1923.

A copy of this notice and an applicant pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Princeton, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

WILLIAM THOMSON,
Applicant.

The date of the first publication of this notice is Friday, April 20, 1923. 22-4

CANCELLATION OF RESERVE

NOTICE IS HEREBY GIVEN that the reserve existing over the lands formerly covered by Lots 245, 247, 374, 380, 381, 382, 384, 385, 388, 697, 699, 700, all in Yale District; 1785 s, 1787 s, 1788 s, 1789 s, all in Similkameen District; Lots 3176 to 3181, inclusive, Osoyoos District, and also a strip of unsurveyed land bounded by Lots 1785 s, 1788 s, 2262 s, 3176, 3178 and 1838, Similkameen District, is cancelled.

G. R. NADEN,
Deputy Minister of Lands.

Lands Department, Victoria, B. C., 11th April, 1923. 22-8

OSOYOOS DIVISION OF YALE DISTRICT

NOTICE is hereby given that the under-mentioned tract of land, situated in the above-named district, has been surveyed, and that a plan of the same can be seen at the Department of Lands, Victoria, and at the office of the Government Agent, Vernon:—

N.W. ¼ Sec. 7, Tp. 4.—B.C. Government.

Persons considering their rights adversely affected by the above survey must furnish a statement of their contention to the Minister of Lands within sixty days from the date of this notice.

J. E. UMBACH,
Surveyor-General.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to $5 an acre: second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head

CAWSTON NOTES

(From our own correspondent.)

Mr. and Mrs. Dan McCurdy were in Penticton Thursday.

* * * *

R. Gillespie spent Sunday with friends in Penticton.

* * * *

Peter Bromley and son, Elwood, motored to Penticton last week.

* * * *

Chas. and Hans Richter were in Princeton on Thursday, Chas. Richter having just returned from the coast.

* * * *

Cawston is a very busy place at present, nearly the entire community is making cold frames and arranging for a big tomato crop.

* * * *

Mrs. John Lang, of Indian Head, Sask., who has been the guest of W. D. Lang and family, left for Kelowna.

* * * *

S. R. Manery, who has been ill for the past week, is able to be out again.

* * * *

Thos. Daly and R. Moulton, collector of customs, were in Loomis on Saturday.

* * * *

Mrs. John McDonald was taken suddenly ill last Friday and was in a serious condition for a time, but is much improved again.

* * * *

W. D. Lang motored to Penticton Monday.

* * * *

Mrs. H. Silvester and little daughter, Constance, were guests of friends in Penticton last week.

* * * *

Mr. and Mrs. W. J. Manery, of Penticton, are guests of C. Tickell and family.

* * * *

Newton Sinclair and Harold Wainwright motored to Penticton on Tuesday.

* * * *

Mr. and Mrs. W. J. Manery, of Penticton, and Mrs. S. R. Manery motored to Nighthawk Saturday, where they spent the day with W. C. Jones and family.

* * * *

The Great Northern bridge crew which has been stationed near the Newby ranch for some time, has completed its work and on Friday part of the crew were moved to Ashnola and the balance to Oroville.

* * * *

Last week four large trucks passed through Cawston, going from Berne Lake to Merritt, where they will be used in a logging camp.

* * * *

Phil. Morden, of Cabri, Sask., left for Salmon Arm after spending the past two weeks with John McDonald and family.

* * * *

The Cawston Women's Institute held a special meeting in the hall on Saturday afternoon. Mrs. R. L. Cawston and Mrs. T. Rooney were elected delegates to the convention which will be held at Summerland in May.

* * * *

The wedding of Mr. Arthur Binns and Miss Grace Silvester, daughter of Mr. and Mrs. H. Silvester, took place on Tuesday afternoon, April 10, at Silver Heights, the home of the brides parents, Rev. I. Page, of Penticton, officiating.

The bride looked charming in a gown of white voile, trimmed in white satin and wore a veil and orange blossoms. She carried a shower boquet of pink and white carnations, sweet peas and ferns. Miss Daisy Silvester, sister of the bride, acted as bridesmaid, and was dressed in pale blue voile trimmed in lace. The bride was given away by her father, and Gordon Silvester, brother of the bride, acted as best man. The home had been tastefully decorated with cedar, daffodils and spring flowers, while a huge wedding bell hung in the archway beneath which the wedding ceremony was performed.

The wedding presents were numerous and useful. After congratulations, a dainty luncheon was served to about thirty guests. Mr. and Mrs. Binns are both popular young people and have the good wishes of the entire community for a long and happy married life. They will make their home in Cawston, having leased the J. Martin residence.

WILL PUSH WORK ON POWER PLANT AT ELKO

Nelson, April 23.—Hydraulic power in the East Kootenay and the Crow's Nest Pass is to receive a tremendous boost this summer. The East Kootenay Power Co., who are now supplying the pass with hydraulic power from their plant at the Bull River Falls, are now busily engaged on another plant at Elk River Falls at Elko, twenty miles east of Fernie.

Winston Brothers company, of Minneapolis, Minn., who are working on contract for the East Kootenay Power company, announced this morning that their compressed air machinery for tunnel driving had arrived at Elko and that the work on the new plant would commence before May first.

A tunnel of 12 feet by 14 feet will be driven at a gradual slope through solid rock for a distance of 2,000 feet commencing at the proposed dam site just above the upper falls of the Elk river towards the lower falls. At this end of the tunnel a vertical steel pipe will be fitted so that the water from the dam will gravitate along the tunnel and then drop straight down upon the wheels of the turbine engine and thus the fullest head of water pressure will be exerted on the generators.

Up-to-date camps have been erected close to where the work is to be done to accommodate the company's employees. About forty men are already employed at the site, and it is believed that between two and three hundred men will be continuously employed during the summer. The cost of erecting the new plant will run to several hundred thousands of dollars.

Princeton Paragraphs

Mrs. D. Marino left on Thursday on a brief visit to the city.

Yesterday Mr. and Mrs. Frank Anderson left for Vancouver, where Mrs. Anderson will undergo an operation.

Mr. F. Glover, manager of the Princeton Coal & Land Company, has been spending the week at the coast. He is expected home this morning

Mr. Emil Voigt was in town on Thursday for the first time since last October. He is looking hale and hearty.

Mrs. Moore anounces that a traveller will be at her store on April 30 with a full line of coats, suits and dresses. 1-np

Miss Innis resumed her postion behind the dress goods department of the A. E. Howse Company's store on Monday after a few weeks' holiday with friends at her home in New Westminster.

The Rev. Mr. Hoodspith, of Langley Prairie, will hold services in St. Cuthbert's church of England on Sunday, April 29. Holy communion, 11 a. m.; children's service, 3 p. m.; evening service, 7:30 p. m.

Looks as if Coalmont was 100% strong for the new Provincial party. At least that is the impression gained by the delegates from the Princeton association who attended the "get together" meeting held in the coal town on Friday evening last.

With the approach of summer days the attention of the public is directed to the opportuniy for a seat in the shade in the park like space opposite the court house. The place was cleaned up and benches placed under the trees by Ed. Bemer last year for the benefit of the public.

Special display of millinery for the coming week at A. E. Howse Company's store. Large stock just arrived. 1p

Mr. L. Stocks, Penticton's enterprising photographer, paid the valley a visit this week going up as far as Coalmont. Mr. Stocks guarantees the development of films the same day as received. He was accompanied on his trip by Mr. Woods of the Bank of Montreal staff.

Mr. A. E. Howse has decided that business interests will not permit him to join the party of Vancouver business men on their trip to the old country this summer and wired them accordingly on Saturday in response to a message stating that they were making final arrangements.

Mr. Robt. Bone, manager of the Montreal Trusts Company, was in town this week winding up the affairs of the old cement works. Included with the buildings and other property is the bridge across the Similkameen river, which was built by the company. Mr. Bone is endeavoring to dispose of everything.

While the great majority of citizens of Princeton seem to take a pride in keeping the town clean and sanitary there are a few exceptions and for the benefit of these we might mention that on Wednesday in the local police court a fine of $5 and costs was imposed for dumping rotten vegetables on one of the back lanes. No explanations were accepted as fair warning had been given.

Similkameen Dairy

The undersigned beg to announce that they are now in the dairy business and prepared to supply all demands in that line.

Price of milk commencing May 1st, 12c per quart.

KEREMEOS NOTES

(From our own corresponden..)

W. J. Netherton, dentist, announces that he will be practising in Oliver for a month from May 1st.

* * * *

Mr. S. J. Castleman, the genial liquidator of the Keremeos Land Co., Ltd., went out on Monday's train to spend a few days at Vancouver.

* * * *

On Friday afternoon Keremeos presented a busy appearance, four large logging trucks coming in from Bridesville on their way to Merritt. Three were "Macks," one 7½ tons and two 5½, the fourth being a 3½ ton "Federal."

* * * *

The Women's Institute held a bridge-whist drive last Friday in the Victory hall. There were five tables of whist and three of bridge, and the small gathering spent an enjoyable evening.

* * * *

Mrs. Carrick entertained a few friends at bridge on Saturday evening.

* * * *

Messrs. Milne and Hood, budding financiers of the Canadian Bank of Commerce, journeyed over the week end to Summerland, where the latter's mother is spending a holiday.

* * * *

The second of the Saturday night dances was well attended. A capital programme was rendered by the Keremeos orchestra and everyone voted the evening a success.

* * * *

Mr. W. H. Tassell, of Vernon, arrived in Keremeos on Monday on a piano-tuning expedition. He will no doubt continue to assert in song that he is the "Bandolero."

* * * *

On Thursday, P. M. Mills, Knudson, McCurdy and Innis, accompanied by W. M. Park and F. S. Rotherham, of the L. O. L. 770, drove to West Summerland to participate in the quarterly County Lodge meeting. Keremeos was not reached until breakfast time the next morning.

* * * *

Mr. W. A. Blott, B. C. Production manager for the Dominion Canners Ltd., was in town last Saturday, accompanied by E. L. Cross, manager at Kelowna for the same concern, and we understand that only a few formalities remain to be gone through before the canners will give the growers $17 per ton this season.

* * * *

Mrs. Minnie, Keremeos hotel, gave birth last Thursday to quadruplets; both mother and children are doing well. The major domo of our well known local hostelry assures us that the only way to keep down such large families is to drown them one at a time, and that Mrs. Minnie appears to have no objections at all.

* * * *

The weekly services in St. John's church conducted by laymen of the parish are still being held. Everyone is cordially invited to attend and, as soon as the church is out of debt, the Bishop has promised to send an incumbent. The fine community spirit shown by the people who are still contributing to the support of the church reveals what can be done even in such a small district as ours.

* * * *

In your correspondent's wanderings through the district for material for his none too facile pen, he last Sunday aftenoon encountered a rattlesnake resting peacefully on the sunny side of the railway track, two miles below Keremeos. As the smallest stick around were ties and his experience with rattlers is rather limited, he declined to stay to argue the point, but viewed the reptile from a safe distance. When he says that it was fully four feet long, he does not apologise for living in a province which is not under prohibition.

* * * *

At a meeting of the Tennis Club on the 23rd, it was decided to ask Hedley and Princeton to send two gentlemen each to play a knockout tournament on the 24th May next. Should the two towns named consent to send players, Keremeos would play Hedley in the morning, and Princeton would meet the winners early in the afternoon, so that everyone would be able to see the senior baseball game. Two small cups will be given as prizes.

* * * *

We are glad to hear that Alan Barcelo is making good progress at Hedley after an operation following a bad attack of pleurisy.

* * * *

"Vancouver Welcomes B. P.," says a coast paper headline. Best procurable, we presume.

KEREMEOS WEATHER

Date.	Max.	Min.
April 17	64	34
April 18	59	40
April 19	58	36
April 20	50	38
April 21	56	40
April 22	67	35

COALMONT NEWS

(By "Jay Ell.")

Miss Lotta Peterson, of Penticton, is visiting friends in Coalmont.

* * * *

Mrs. A. B. Lloyd is a week-end visitor in Vancouver.

* * * *

Born.—At Coalmont, on April 19th, to Mr. and Mrs. Wes. Ramsay, a son.

* * * *

For Sale—Two thoroughbred Jersey cows and a heifer. Apply to John Boras, Coalmont, B. C. 23-1p

* * * *

Bill Waddell is the owner of a new Ford car, bought from the Ed. Burr agency at Princeton.

* * * *

The latest coast craze, "whistle"; also orange crush, coca cola and Thorpe's ginger ale, all on ice. A. O. Johnson, Coalmont pool hall. 23-1

* * * *

Mrs. B. R. Barlow, who has been visiting her daughter, Mrs. Dan Dollemore, returned to Penticton Wednesday morning.

* * * *

Al. Peterson left on Sunday morning for Nelson, where he has secured employment with the C. P. R.

* * * *

Geo. F. Nunan, an old time prospector, while working at the Swan placer claim, cut his hand with an axe and Dr. Sheffield had to put several stitches in it.

* * * *

Joe McMahon and O. Nelson, two old timers, are staying at the Coalmont hotel. They figure on doing their assessment work just as soon as weather conditions are favorable.

* * * *

Tom Carefoot drifted in the other day to renew acquaintances with old friends. Tom is on his way to visit Jack Thynne who he has not seen for several moons.

* * * *

All roads lead to pictures—the quiet lane, just as surely as the busy highway. With your kodak tucked beside you, you have only to pick and choose —and press the button. D. J. Buckley, druggist, Coalmont. 23-1

* * * *

Mr. and Mrs. R. A. Pearce and J. B. Webber were recent visitors from Seattle. Messrs. Pearce and Webber are interested in the Hematite Iron & Gold Production company, and after giving the property the once over they were satisfied that prospects looked good for a profitable return on their investments.

NEU-TONE

The Flat Oil Paint For Interior Decoration

For the walls and ceilings of any room in your house, most delicate and harmonious effects can be secured by the use of NEU-TONE. It is cheaper and more sanitary than wall paper and will last much longer because it can be washed without injury. It positively will not rub off.

NEU-TONE is made in eighteen shades, and by the use of various tints most pleasing combinations may be secured.

MARTIN-SENOUR

PAINTS AND VARNISHES

NEU-TONE is easy to apply. It covers well and leaves no brush marks, producing a dull, soft, velvety finish which will lend charm to any room in the house.

Any surface may be successfully treated with NEU-TONE—Plaster, wood, burlap or metal.

Call and let us explain the merits of this and other MARTIN-SENOUR finishes. For every purpose—For every surface. Our stock is complete and we can give you full information.
