PROTECT BIRDS IN SANCTUARY

Area at Vasseaux Lake May be Set Aside for This Purpose

(Penticton Herald.)

Mr. J. A. Munro, chief federal migratory bird officer, Okanagan Landing, was in Penticton last week in connection with the work of his department. One object of his visit was to attend to business connected with the establishment of a bird sanctuary at Vasseaux Lake.

There has been a strong popular demand that the area from the south end of Vasseaux Lake to Okanagan Falls, including the Okanagan river and 100 yards of land on all sides of the water, be set aside as a bird sanctuary. The matter is now in the hands of the department at Ottawa, and it is expected the request for this set forth in a petition signed by a large number of sportsmen will be favorably considered.

Mr. Munro states the notable increase in the migration of ducks and geese, following the ratification of the Migratory Bird Convention, has given an impetus to bird-protection which is apparent wherever sportsmen or nature-lovers gather together. In marked contrast to the pessimism rife in the five years preceding 1918 (which, at its worst, prophesied the end of water-fowl shooting in another decade, and at best looked for its survival only as an interest vested in the owners of large estates) is the present enthusiasm and confidence in the future.

This is manifested among sportsmen by the earnest discussion of protestive measures that would have been condemned as radical and visionary a few years ago. Measures for vermin control, plans for licensing that persistent enemy, the domestic cat, reduction of bag imits, etc., are questions brought up at every game association meeting.

Another expression of the popuar enthusiasm is the growing demand for Bird Sanctuaries. Unfortunately the supply of Dominion lands suitable for sanctuary purposes in this province is not equal to the demand —or the need. A number of property owners who control land of this type have requested, with characteristic western generosity, that such areas be created permanent Bird Sanctuaries under the Migratory Birds Convention Act, even though this restriction would mean the loss of their shooting privileges.

Among the recent arrivals in Princeton are Mr. and Mrs. Andrew George and two sons, who came in on Wednesday morning from Vancouver. Mr. George has been looking for a more suitable climate for the benefit of an invalid son, and thinks the Princeton district possesses it. They have taken the Freeman residence on the hill, formerly occupied by Rev. R. Herbison, and will move in at once.

NO WORK LIKELY ON HIGHWAY THIS YEAR

Lack of Funds Prevents Progress on Hope-Princeton Link

Victoria, May 10.—There seems little hope of any work being done on the transprovincial highway route from Hope to Princeton this year. A delegation was to wait upon the executive council today, but owing to the fire in the Arcade Building, copies of the resolutions passed by the Good Roads Association were destroyed, and these will be submitted at a later date.

H. Frank Bird, secretary of the Good Roads Association, stated this morning that Hon. Dr. W. H. Sutherland, minister of public works, said that nothing could be done this year on the Hope-Princeton road.

Hon. Dr. J. H. King, former minister of public works, had intended to commence construction from both ends this summer, with the hope of completing the link in two years. The Hope-Princeton route was chosen after careful investigation of the various routes suggested, but owing to shortage of funds it may be several years before this section of the transprovincial highway is compelted.

K. OF P. BALL TEAM WINS FROM SENIOR BOYS

Opening Game of Season Thursday at Race Track Diamond— Score 13-6

In the opening game of the season, the Knights of Pythias team scored a win over the Senior Boys to the tune of 13-6, on Thursday afternoon at the new diamond at the race track. There were good and bad plays made on both sides, but with a little more practise both teams will play faster and better ball. On Sunday afternoon at 2.30 the Masons and Knights will clash in the second game of the series.

The lineup on Thursday was as follows: K. of P.—E. B. Slevin, c.; L. Smith, 1st b.; H. Avery, 2nd b.; G. Lyall, r. f.; G. Farrar, p.; W. Hamilton c. f.; W. Almstrom, 3rd b.; E. L. Colton, s. s.; E. Almstrom and H. Hansen, l. f. Senior Boys — L. Prest, c.; I. Burr, 2nd b.; W. Mattin, r. f.; R. McKinnon, l. f.; M. Wright, 3rd b.; M. Prest, s. s.; D. Muir, c. f.; E. Meausette, p.; F. Schisler, 1st b.

The secretary of the Town League has received an offer of a trophy from the A. G. Spalding Co., for competition between the local teams.

QUEBEC MURDER CASE

Montreal, May 10.—That a decision in the case of the Rev. Adellard Delorme, in prison on a charge of murdering his half-brother Raoul, on January 6 last, will not be reached before September is the general view here. His trial is set for the June term of the Court of King's Bench, but so far no one in the case has made any application for an insanity commission to study the prisoner.

HIGHWAY CONTRACT

Victoria, May 10.—The contract for the construction of the first nine miles of the Nelson-Ymir highway, south from Nelson, has been let to Messrs. DeWolf and Ham, of Cranbrook, whose tender was $79,029.07, considerably lower than most of those filed with the government.

Hon W. H. Sutherland, minister of public works, states that the contractors would be called to Victoria to discuss the work, which will be commenced immediately.

PRAIRIE WORK WELL AHEAD

Weather from Growing Standpoint for Week Very Favorable

Winnipeg, May 9.—The seven-day period, from May 3 to 9, has been all growing standpoint all over the west-that could be wished for from a western provinces, stated the Grain Trade News' Weekly crop report issued tonight. Temperatures have ruled from a maximum of better than 70 to a low of very little below freezing. Precipitation has been somewhat plentiful and while it has proved very welcome in districts where the work was well forward, it has proved a hindrance in other districts where much of the land is too wet for seeding, the report states.

Many Manitoba points report wheat well above the ground and oat seeding advancing rapidly and from some of the better equipped farmers in the earlier districts, reports are being receivedl that a finish is in sight.

Southern Alberta points that sowed rye heavily last fall seem to have hit fine and the crop is said to be in fine condition.

Later reports from Saskatchewan covering the last four days are somewhat disquieting, the report continues, as, owing to the dull, drizzly weather, the land is not drying up and the wheat acreage may be reduced in consequence.

Princeton Paragraphs

A special "Mothers' Day" service will be held in the Presbyterian church on Sunday morning.

Mr. and Mrs. W. H. Houston and children are spending the week end with friends in Penticton.

Mrs. E. Berryman was a passenger out this morning for Rossland.

Mr. J. R. Campbell, the genial manager of the Kermeos Drug and Book store, was in Princeton between trains on Monday last.

Rev. R. Herbison returned on Sunday morning from Vancouver, where he had been in attendance at the conference of the Presbyterian Synod.

Some much needed improvement was effected this week by the Government road gang on the road up to Princeton Heights.

Mrs. Van H. Smith and baby are expected home from Vancouver on Sunday morning.

Mr. C. A. Butler, Ford dealer at Penticton, accompanied by Mrs. Butler, were motor visitors in Princeton yesterday, returning home today.

The Ladies' Aid of the Presbyterian church are planning to hold a garden festival during the first week in June. Further announcement will be made later.

Rev. E. E. Hardwick occupied the pulpit in the Presbyterian church last Sunday evening in the absence of Mr. Herbison at Coalmont.

Mr. J. J. Malone, of Tulameen, was a visitor in Princeton for a couple of days, returning yesterday.

Miss Cameron, a trained nurse from the Coast, arrived this week to take charge of Mr. H. McConnell's children.

A prize was recently offered by Mrs. A. E. Howse to the boy making the best bird's nest, and was won by Robert Herbison.

Rev. R. Herbison motored to Coalmont last Sunday afternoon and held service there in the evening. He was accompanied by Mrs. Herbison and children on the trip.

Mr. Sam Spencer, who has been living at Coalmont for the past few months, returned to Princeton on Sunday last and expects to remain here for a time.

The Bluebird Club participated in their first "hike," on Saturday last. They left town about 11 a. m. and spent an enjoyable afternoon in the One Mile district.

As we go to press, the "Hospital Day" tea being held by the ladies of the Hospital Auxiliary is in progress in the Hotel Princeton dining room. An energetic committee of the ladies spent yesterday afternoon decorating in preparation for the event; the color scheme was yellow and green.

ADDITIONAL KEREMEOS NOTES

There was a light frost on the bench lands Sunday and Monday but no damage is reported.

Billy Dure and Jack McQueen left Wednesday to seek their fortunes in the big rush at Cedar Creek.

Fruit trees are now in bloom and if present promises are fulfilled the district will have a record crop this year.

The department in charge of Indian affairs has admitted the right of Messrs. Colville and Fleming to the use of the water in Blind Creek, which has been a matter of controversy for some time. The boys are rapidly getting a large acreage of the finest land in the valley ready for planting tomatoes.

The regular monthly meeting of the Board of Trade was held in the Hotel Keremeos on Saturday. The principal matter under discussion was how to bring pressure to bear on the government for the building of the Hope-Princeton highway. It was decided that this could be best done by co-operation with other neighboring Boards of Trade, and the secretary was instructed to take the necessary steps. The old nuisance of stray horses and cows was again up for discussion and though it was decided against any drastic measures, it was felt that the owners of these stray animals should take a hint. The membership fee was reduced from $6.00 to $4.00 and a united effort is being made to increase the membership.

STOCK FEED STANDARDS

Results of an Investigation of Milling By-products

Many demands having been made upon the Department of Agriculture at Ottawa by the live stock organizations of the country for feeds of a more uniform and higher standard, as well as of greater suitability, especially for the feeding of young stock, inquiry was undertaken by the Dominion Deparment of Agriculture to determine the quality and composition of the milling by-products of wheat, bran, shorts, middlings, and feed flour, now on the Canadian market. The results were to be used, first, in ascertaining how far the present standards for these feeding stuffs, in respect to percentages of protein, fat and fibre, as set forth in the regulations of the Feeding Stuffs Act, are today strictly applicable, and, second, in determining the cause or causes of complaints constantly being received from farmers and stock raisers respecting the unsuitability of much of the present day shorts or middlings. A grave situation has arisen regarding these feeds, more particularly as affecting young pigs and other immature stock. Not only have the horts proved unpalatable and been refused by the animals to the point of starvation, but fatalities have been caused. The results of the inquiry and the recommendations based thereon are set forth in full in a bulletin entitled "Bran, Shorts, Middlings and Feed Flour" (new series) just issued by the Dominion Experimental Farms Branch. Samples of the feeding stuffs referred to, it should be explained, were gathered for examination from all parts of the country. The recommendations as regards bran are, that the present standard for protein should be raised from 14 per cent. to not less than 15; that the fat standard should be not less than 3.5 per cent. instead of 3 per cent. flat, and the fibre not more than 11.5 per cent. instead of 10 per cent. As regards shorts, the present 15 per cent. of protein should be made not less than 16 per cent; fat, at present 4 per cent., not less than 5 per cent., and fibre to remain unchanged at not more than 8 per cent. As regards middlings, the percentages of which at present required under the Act are the same as for shorts, the suggestions are that the protein should not be less than 16.5 per cent., the fat not less than 3.5 per cent., and the fibre not more than 4.5 per cent. Twenty samples of feed flour were examined and the analytical data reached are given in tabular form. It was not considered necessary or desirable to establish any precise standard at this time but the quality of the better class of feed flours is fairly represented in these figures: 18 per cent. protein, 3.5 per cent. fat, and 3.5 per cent. fibre. Tabular statistics are also supplied of the results of the examination of thirty samples of screenings, twenty-one whole and nine ground. The variable character of screenings is well illustrated in the tables, fat, and 6.68 per cent fibre.—Issued by the Director of Publicity, Department of Agriculture, Ottawa.

WHY SHOULD I ADVERTISE?

A press agent, travelling ahead of a circus, called on the owner of a general store, the only merchant in a little town.

"Brother," he said, "when the show gets in town we'll have the usual parade, and I want to sell you advertising space during the parade."

"Whereabout," the storekeeper asked.

"On the elephant. He's the greatest thing in the procession. I'll paint your name on each side of the elephant, and there won't be a man, woman or child for miles around who won't see your ad."

"There's not one of 'em don't know me already," the merchant replied, "and, what's more, they all trade here. Why should I advertise? I don't need it."

The circus man reflected. He looked up the street and decided that he was stumped. Then he looked down the street as far as the church. Then he turned to the storekeeper.

"Nice church down there," he said; "how long has that been there?"

"Forty years, I guess," said the merchant, "most everybody around here is a member."

"That church has been there forty years," said the circus man, "and most everybody in town belongs, and yet they ring the bell every Sunday morning."

GOALMONT NEWS

(From our own correspondent.)

Mine Manager McLean left for the Coast on Sunday's train.

Mr. Albert Lane left on Wednesday for Vancouver.

Mr. I. McTavish has returned from a short stay in Vancouver.

Our ball park has been put in elegant shape, and there will be practice by the ball team on Sunday.

Johnnie Huff returned on Monday's train from a short visit in Princeton.

Perley Russell motored up on Sunday, bringing with him some friends from Princeton.

Miss Myrtle Marcotte, who has been visiting her father, Louis Marcotte, here, returned to Princeton on Monday in time for school.

Mrs. R. Larkins and little daughter Leone, who have been visiting Mrs. Larkins' sister, Mrs. Marcotte here, left on Monday to reside in Hedley.

"Doc." Buckley is having the front of his drug store remodelled, putting in new windows and other alterations. When finished it will look swell. Mr. Prentice has charge of the work.

Mr. and Mrs. Wm. Nelson returned Wednesday from a motor trip of five days. They took in Penticton, Vernon, Kelowna and several other towns. Mr. Nelson has been under the weather and the trip was taken to brace him up a bit.

Rev. Mr. Herbison and family motored up from Princeton on Sunday. Mr. Herbison held services at the Presbyterian church in the evening. He will come here every other Sunday hereafter. Services will be held at two o'clock in the afternoon; Sunday school at three.

Mr. A. Holmes did a very clever stunt last week. He put his Ford car over the bank, below the "red bluffs" and hung it up on a stump, though by all the laws of gravitation it should have kept going until it struck bottom. Mr. Holmes was luckily not hurt, and a bent mud guard and twisted top was all the damage the car suffered. On Sunday they got the machine back on the road with the aid of Christensen's motor truck.

Keep your eye on Coalmont!

C. P. R. IS HELD TO BE BLAMELESS

Jury Clears Railroad at Inquest on Auto Accident at Mission

Mission City, May 10.—Exonerating the C.P.R. train crew from any blame whatever, the jury at this morning's inquest into the tragedy Sunday night near Nicomen gave its finding to Dr. A. J. Stuart, coroner, with a rider suggesting "that whistles of trains should be sounded when approaching all farm and private crossings, and also suggest all crossings be left clear of cars for a space of 100 feet on either side of the crossing."

A. S. Taulbot (foreman), Fred Bannister, A. B. Noble, W. G. Plumridge, Fred Wood and Richard Bird composed the jury.

George B. Govett, engineer; George Hatch, conductor; Harry Finney, fireman; Chas. Lovedale, section foreman; Chas. Lindberg, extra gang foreman; George Deroche and Clifford Morrison testified. J. R. Grant and Hamilton Read appeared for the Deroche and Pentland interests, respectively, while M. M. Greaves represented the C. P. R.

George Deroche told of hearing the horn of his brother's automobile, blowing for the crossing, a few moments before the crash.

C. P. R. GIVES EMPLOYMENT TO WHITE LABORERS

Sixty-Six Men Are Sent From Vancouver for Duty on Track in Revelstoke Division

Vancouver, May 10.—The C. P. R. took the lead today in employing white laborers in preference to Orientals, 66 men being sent to Revelstoke division for track work through the Provincial employment bureau at Vancouver.

This step was a result of a conference yesterday afternoon between J. H. McVety, superintendent of the employment bureau, and F. W. Peters, general superintendent of the C. P. R. western district.

RICH RESOURCES CAN BE TAPPED

Hon. Mr. Manson Speaks to Manufacturers on Capabilities of Northern Country

Vancouver, May 10.— Wonderful resources in the northern and central portions of British Columbia are awaiting transportation facilities before they can be developed, stated Hon. A. M. Manson, Attorney-General, last night to the members of the B. C. division of the Canadian Manufacturers' Association, at the annual meeting held in the Hotel Vancouver.

"Speaking as a North man, I think you started the P.G.E. railway at the wrong end," said the Attorney-General, "but if some way can be found to complete this railway the immense productive power of that country can be exploited."

The speaker asked for a more active sympathy with the farmer than had been shown in the past by the manufacturer.

"If you visited the country more you might find an opportunity to utilize your capital," he said.

Dealing with the liquor question briefly, the Attorney-General said it was the problem of the people of British Columbia and the municipalities, as well as of the Government, and he went on to say: "So long as I am Attorney-General for this province, I will not permit the municipalities to evade their duties as they are doing now. I will not tolerate the conditions that exist at the present time, and the municipalities will have to take their share of the problem. I see no reason why the Government cannot handle the liquor question, but it needs your help and co-operation in carrying out the law. The duty of a true prohibitionist now is to get behind the government and to support it in its efforts to carry out the mandate of the people."

Hon. Mr. Manson said it was the duty of the manufacturers to help the unemployment situation in every way they could, and paid a high compliment to F. W. Peters, general superintendent of the Western lines of the C. P. R., who, he said, had responded at once to his request to find work by securing men from the Government labor bureau and sending them up the line yesterday to replace Orientals.

HOPE ROAD TO BE CLEARED

The road between Chilliwack and Hope, of which complaints have been made by autoists as being impeded by willow brush, is to receive the attention of the authorities, according to a letter received by the Vancouver Automobile Club from P. Phillip, public works engineer, who states that the matter has been referred to the district engineer.

TORNADO RAGES NEAR WINNIPEG

Breaks Transmission Towers of Power Lines, and Does Much General Damage

Winnipeg, May 10.—Striking Manitoba at a point near Ginot, about 30 miles east of Winnipeg, a cyclone swept farm barns from their foundations, wrecked a number of houses, blew down transmission towers of the Winnipeg Electric Company and the city hydro system, causing Winnipeg to be entirely without electric power for two hours in the afternoon; took down telegraph wires on both the C. P. R. and the Canadian National system, isolating the city from Eastern Canada by telegraph communication for several hours, and caused damages generally which will run into many thousands of dollars.

Reports received tonight stated that several persons had been injured, but no fatalities were caused, so far as could be ascertained.

Street car service was halted in the afternoon for a couple of hours, and work in numerous industrial concerns was brought to a standstill.

The Forests Exhibits Car, which was scheduled to be in Princeton on Monday last, has been delayed, and it is now expected that it will arrive here next Monday.

DIFFICULTIES AT GENOA

The Genoa Conference has been productive of a series of crises. It seems sometimes as if Russia had accepted the invitation to attend with the primary object in view of discrediting European diplomacy and of precipitating differences between the nations. The Powers of Europe have exercised a wonderfu restraint in dealing with Russia, and are still doing everything possible to find a way to assist that country in her rehabilitation. Russia has not responded as she should have, or in a way which was expected from one in her position. There is yet time, provided that Russia is able to get from beneath the obession that she should be a law unto herself in international relationships.

Russia's position is thoroughly recognized in Germany, and, there, it is realized that the process of rehabilitation will be slow and that it cannot be brought about by Germany alone. The problem, according to one newspaper, is of credit at long sight and this Germany is only able to extend to a limited degree. The same newspaper describes Soviet Russia as one gigantic scrap heap and as the "greatest producer of rubbish, remnants and spoilage that the world has yet seen." For a nation in this condition it is ironical that so many attempts should be made to persist in the policy of rapine and ruin which borught Russia to her present pass. If the Genoa Conference fails it is Russia will be the greatest loser. The reconstruction of Europe would receive a setback, but Russia would go from bad to worse for the failure of her representatives to grasp the hand of Europe would indicate they do not want a policy of reconstruction, but prefer chaos and anarchy.

Mr. Lloyd George's task is a difficult one which he is striving, as only he can, to accomplish in the face of tremendous opposition. If he succeeds it will be the crowning episode of his career. If he fails the British people will still give him full credit for the honesty of his intentions and for the efforts he has made. Success will set the seal of fame on his career and failure cannot dim its lustre. The purpose he has in view is bound to succeed some day, though that result may not be attained at Genoa. The whole future of the world depends on the economic reconstruction of Europe, and that is the problem which will engage the attention of statesmen for many years to come.—Colonist.

A MISSION OF MERCY

The Canadian Committee of the Save the Children Fund has received so far a little over $300,000 in response to its appeal. This is indeed quite a splendid contribution to this worthy object, but it would be inhuman to relax our efforts while there are still many thousands of children to be saved. When one considers the immensity of the area which has been stricken by famine, and the dense population of that area, all that Canada could possibly do would not be sufficient to relieve all the actual distress. But it would help. And our national conscience would be clear.

The obligation of the people of Canada to their fellows is not by any means met when they have subscribed three hundred thousand dollars. Those who have not yet subscribed should remember that a few good Canadian dollars will go a long way in Russia. They will supply the bare necessities of life to a few children, which is all that the Russian people can expect until order is brought out of chaos and that great country gets back to its normal condition.

The people of Canada are concerned chiefly with the salvation of the little boys and girls, who are not accountable for the terrible condition of their country. The responsibility for the moral obliquity of the Soviet should not be held against the innocents. Send your dollars on a real mission of mercy. Send your subscription to Sir George Burn, Treasurer, Canadian Committee of the Save the Children Fund, or forward it through your local organization or bank.

No life is fully balanced without a hobby of some kind.—Lord Burnham.

SPRING AND SUMMER FOREST FIRES

There are usually two periods of fire-hazard in the Canadian forests, in early spring just after the snow disappears, and in late summer, when the vegetation has begun to get dry. Exceptional seasons vary these periods but the two classes of "spring fires" and "summer fires" remain. Many people understand why the dry, hot period of late summer is likely to be favorable to the starting of forest fires but they think that, after the heavy snowfall of winter, the woods ought to be safe till early summer at least. A little reflection, however, will show why the early spring period is particularly dangerous, in early spring there is often a short period of hot, bright days. The leaves have not yet come out and the sun shines down on the forest floor. The snow disappears as if by magic and the dead twigs and last year's leaves become dry as tinder. If a glowing match or cigarette stub is dropped among this material the forest floor is ablaze over a space of many yards in a moment. A few days at this period are always most critical. After the first spring rain the ground vegetation becomes green and damp, and the leaves come out and shade the forest floor. The worst danger is then over, until the hot days of late summer causes the vegetation to dry out, when a danger period ensues till the first autumn rains. The moral of it all is that Canadians ought always to be careful with fire in the forest and doubly careful during these danger periods.

An attempt to abolish, or reduce to the vanishing point, the Royal Canadian Mounted Police has failed in the Canadian House of Commons. This picturesque organization always has been a useful one and ought to be worth its salt now. It is on the job when trouble starts and nips many a disorder in its incipiency. As the years go on it is possible that the expenses of maintaining the force will be more than offset by the money saved by its making unnecessary the calling out of militia for strike duty and the like. Its mobility, the intelligence of the individual constables and the high traditions of the organization make it one of which any country might well be proud.—Buffalo Express.

CORRESPONDENCE

Editor Princeton Star,

Dear Sir:—Thanks for publishing the correspondence re the late Geo. Cook which appeared in your last issue. Since the writing of that article two prospectors, Dave Arnold and Joseph Diotte, made a trip up for the purpose of locating the body. They found where he had been apparently overtaken by a snow slide and carried down the mountain side to the bank of the Tulameen river, where they found his hat and a stick which he used when he wore snow shoes. These were on top of the snow and in all probability the body is lying nearby. Mr. Arnold reported the matter to the constable but there has been nothing done by the government up to the time of writing.

Andy Jensen returned from Vancouver last week after spending two months in the Terminal City. He reports that much activity in mining circles exist there and that if we could show up anything promising we could get capital invested. We have the promises all right. We have been living on promises for the past ten years. It is a difficult matter to open up a mining claim in these parts under the conditions existing when a prospector has to first provide himself with a $5.00 mining licence, then grubstake himself, hike into the mountains where there are no trails or roads. If he does find what he thinks a prospect he might work on it for years before he finds out whether he had anything and before he can get capital interested must provide some means of transportation. The question arises, have we a representative? Does the government know that we have a district full of prospects but no roads or trails to get at them? Only a few days ago Hon. John Oliver at a meeting in New Westminster stated that the paving of the Trunk road in that ristrict cost the government sixty thousand dollars per mile. We also note that South Vancouver has been alloted another fifty thousand dollars to assist the unemployed. Would it not be better to add fifty more and build a wagon road from Tulameen to Hope and give the unemployed work for the summer and the mining men a chance to develop the prospects and mines between these two places, the road could be built for that amount; and be used for the tourist traffic as well (which seems to be greatest concern of the government).

(sgd.) AN OLD PROSPECTOR.
Tulameen, B. C., May 2, 1922.

The Government of the Province of British Columbia

RE SPECIAL TIMBER LICENCES

The attention of Timber Licence holders who are taking advantage of the provisions of the 1921 Amendment to the FOREST ACT, whereby arrears of licence fees accrued prior to 31st December, 1920, have been funded and made payable in annual instalments, is specially directed to the fact that any renewal fee which became due in 1921 is not included in the instalments above mentioned, and such 1921 and all subsequent renewal fees must be paid within one year after the date of expiry of the licence in order to maintain the right of the holder to obtain a renewal of the Licence. 13-3m

"The Only Remedy" Says This Doctor

"The treatment of skin diseases (eczema) and diseases of the scalp is known to be difficult," writes Dr. W. L. Randolph. "However, there is one remedy that is known to be entirely dependable in this distressing and troublesome disease. I refer to D. D. D. Prescription."

If you have never tried D. D. D. for skin diseases, whether a small spot, or whether one of the dreaded forms—the torment of eczema or the hard scales of psoriasis—get a bottle at once on our guarantee that if it doesn't relieve you your money will be refunded. $1.00 a bottle. Try D. D. D. Soap, too.

RHEUMATISM

LUMBAGO NEURITIS SCIATICA vs. T.R.C.'s

Rheumatism and similar troubles invariably yield to this T.R.C.'s (Templeton's Rheumatic Capsules) treatment. Many doctors and many hundreds of druggists from coast to coast will confirm this truth. The hundreds of testimonial letters in our files show that T.R.C.'s have successfully treated Rheumatism, Lumbago, Neuritis, Sciatica and acute Neuralgia of all kinds. But the best evidence is your own experience. If you suffer we want you to try this guaranteed non-injurious remedy at our expense. Druggists sell T.R.C.'s $1.00 per box. Free trial write T.R.C. Co., 56 Colborne St., Toronto.

WHAT WAS DOING HERE

TWENTY YEARS AGO

From the Similkameen Star of May 10, 1902

Mr. J. A. Mohr and son, of Enderby, drove in on Thursday last, coming in via Salmon River and Douglas Lake.

D. R. Young, Managing Director of the Similkameen Valley Coal Co., Ltd., arrived in town yesterday, coming in by Keremeos.

The programme is out for the celebration at Keremeos on the 23rd and 24th inst. A good list of races has been arranged and an enjoyable time is assured all visitors. A football game between Princeton and Keremeos has been arranged for.

On Thursday, the 8th inst., at 3 p. m., at the residence of the bride's mother, Mr. Albert Johnson and Miss Louisa Allison were united in the holy bonds of matrimony, the Rev. E. Hardwick officiating. The wedding was very quiet, only a few of the most intimate friends of the bride and groom being present. The large number of costly gifts presented to the happy couple bore eloquent testimony to their wide popularity.

Mr. A. R. aBrrow, who is locating in Princeton for the following of his profession as a civil engineer, has ordered from England one of the latest types of motor bicycles which he purposes using for fast trips between this place and outside points. Gasoline will furnish the power. "Under favorable circumstances," Mr. Barrow says, "this machine will travel between 15 and 20 miles an hour." It will be possible for the operator to go from Princeton to Spence's Bridge or Kamloops in a day.

Mr. T. Graham and Mr. T. Robertson arrived in Princeton on Thursday last, having come in over the Hope trail. They report the snow to be from 6 to 8 feet deep on the summit, and it was necessary for them to use snowshoes in order to get through. The trip took eight days to make. Mr. Robertson was formerly connected with the Slocan Star mine as assayer and surveyor, and Mr. Graham was employed in the Ruth. They report business of all kinds very quiet in the Slocan on account of the low prices of silver and lead.

QUESTIONS ANSWERED FOR HOUSEWIVES

The following questions were submitted by a housewife of Oroville through the Oroville Gazette to the home economic department of the State College recently and the answers given come from Miss Lelia Hunt, head of the division of food and nutrition of that department:

1—Do potatoes add extra whiteness or lightness to bread when put into the sponge?

Answer—Potatoes do not add extra whiteness to the bread. Sometimes they make the bread darker, depending upon the kind of potatoes used, Bread can be made as light without potatoes as with them, but they do furnish good food for the yeast plant, and that is the main reason why potatoes are used in the setting of sponge for bread making.

2—Why is soda used in recipes which call for brown sugar even when no sour milk is used?

Answer—Soda is used in recipes which call for brown sugar when no sour milk is used, in order to neutralize the acid which is present in the brown sugar. The same thing is true when a recipe calls for molasses or fruits of any kind, like raisins, currants, etc. As a result of the union of soda and an acid we get carbon dioxide gas which is one of our most important leavening agents.

3—Are tea napkins necessary at every kind of afternoon affair?

Answer—Tea napkins are not necessary at every kind of afternoon affair. It all depends upon the formality of the occasion. I think the housewife of today should feel free to make any sort of an afternoon affair as simple as possible. In that case paper napkins could be used with perfect propriety.

In the making of veal, a calf to be profitable must be properly bred as well as properly fed. A good, strong, well developed sire will add from ten to twenty pounds to the weight of a calf at birth, and transmit the constitution and frame that will of themselves ensure the profitable preduction of veal. If such a calf is properly fed and handled for from three to six weeks, either by the breeder or by men who take up this business as a specialy, he can be made into a carcass fit for anybody to eat and for which there be an unlimited demand.

Bank of Montreal Issues Crop Report

FRUIT TREES WINTERED WELL; FROST DAMAGE SLIGHT

Below will be found a brief synopsis of telegraphic reports received at the head office of the Bank of Montreal from its branches. The branch managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all section of the districts mentioned:

General

Spring is about two weeks later than usual throughout the Dominion, but the absence of early growth minimizes the danger to crops from frost. The weather has been favorable for plowing and seeding and these operations are now general. Moisture is ample. While the acreage seeded to spring wheat in the prairie provinces may be somewhat smaller than last year, general conditions are encouraging. Fall grains in the west and fruit trees both in British Columbia and Eastern Canada have wintered well. Details follow:

Prairie Provinces

Alberta: Seeding has commenced and is general in the north, but is delayed in the south by snow and rain. There is sufficient moisture and conditions at present are good. The acreage, however, may be smaller than usual owing to the late spring and the unfavorable conditions for summer plowing last year. Fall rye has wintered well. Saskatchewan: While the season is backward, conditions otherwise throughout the provinces are favorable. Seeding is under way and should be general by the end of the week. The land is well supplied with moisture. Owing to the late spring the acreage seeded to wheat may be less than in 1921. The acreage in fall rye is larger. There is no shortage of labor. Average wages forty to fifty dollars per month. Manitoba: Seeding has been some what delayed by the late spring but will be general soon. There is ample moisture. The land is in good condition and labor is plentiful.

Province of Quebec

The spring is later than last year. Plowing is under way in most places, but only in a few districts is the ground ready for seed. Pasture is backward.

Province of Ontario

Season generally is backward. Fall wheat has suffered some damage from late frosts, but generally has wintered well. Spring wheat seeding in progress; oats average acreage, sowing under way; hay prospects favorable, grass pasturage new growth being retarded by cold weather. Fruit season late, but trees generally in good condition.

Maritime Provinces

Season in most localities is two weeks late and little seeding has been done. Grass pasture poor; fewer potatoes will be planted. The backward weather has improved apple prospects in the Annapolis Valley by retarding blossoms, thus reducing the danger from early frosts. Trees have wintered well.

Province of British Columbia

A late season following on long winter with unusually heavy snow has left ground in excellent condition. Plowing has not been completed, but seeding is general in most localities. It is too early to predict field crop prospects. Alfalfa in Ashcroft district has suffered serious damage through being winter-killed. Pasturage is good. Orchards have wintered well. Indications in Okanagan are for lighter crop than last year. Frost has damaged small fruits in Fraser Valley to some extent.

THE NAMING OF THE SIMILKAMEEN

In the days of Hiawatha,
When we white folks lived in trees,
And for us a new-plucked fig leaf
Made a suit of B. V. D.'s.
In those ancient days our river
Followed not its present bed;
Then its coruse was on the benches,
Benches now high, dry and dead.
Also there was cause to wonder
In the torrent rushing through;
Mi'k, not water, filled its channel!
Surely this was something new!
So, when Hiawatha, passing
Westward on his mission bent,
Naming all the lakes and rivers
In his travels as he went;
Hiawatha came to One Mile,
Camped and slept until sunrise;
From his lonely camp on One Mile
Saw this river with surprise.
Searching out a trail from One Mile,
Soon he stood upon the bank;
Gazed upon the mystic river,
Gazing, pondered, stooped and drank.
Drank and smi'ed and cried "S'milka!"
Smiled to think how pat it came;
"S'milkameenic," "milk for water,"
Thus our river got its name.

—Fred Stamper.

NOTICE TO CREDITORS

In the matter of the Estate of Charles Willarson, late of the Town of Princeton, Province of British Columbia, Deceased.

NOTICE is hereby given pursuant to the "Revised Statutes of British Columbia, 1911," Chapters 4 and 232, that all creditors and others having claims against the Estate of the said Charles Willarson who died on the 26th day of March, 1922, are required on or before 1st June, 1922, to send by post prepaid to Peter Johnson, Princeton, B. C., their addresses and descriptions, the full particulars of their claims, the statement of their accounts and the nature of the securities (if any) held by them;

And further take notice that after such last mentioned date the Executrix, Branch Willarson, will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which she shall then have had notice and that the said Executrix will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by her at the time of such distribution.

BRANCH WILLARSON.

Dated this 24th day of April, 1922.

NOTICE

TO DELINQUENT CO-OWNER

To W. Y. WILLIAMS—Take notice that unless you do pay within 90 days from the date hereof the sum of $100, being your proportion of the expenditure required for the year 1921 by section 24 of the Mineral Act, upon the Independence group of mineral claims, Bute, Boston Bank, Independence, situate at the head of Bear Creek, and also the Morning Sun mineral claim and the Bear Creek in Law Camp in the Similkameen mining division together with interest and all costs of this notice, to the undersigned, your co-partner in the said mineral claims, your interest in the said claim shall become vested in the undersigned who has made the required expenditure.

JOHN HOLM.

Dated this 1st day of May, 1922.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that Joseph R. Grant, whose address is New Westminster, B. C., will apply for a licence to take and use 300 acre-feet of water out of Hayes Creek and an unnamed tributary, also known as Five Mile Creek which flows Southerly and drains into the Similkameen River about seven miles below Princeton, B. C., and being 225 acre-feet out of Hayes Creek and 75 acre-feet out of the unnamed tributary.

The water will be diverted from the stream at a point about 490 yards northerly of its intersection with the North Boundary of Lot 937 in respect to Hayes Creek and about 400 yards from its mouth in respect to the unnamed tributary and will be used for irrigation and domestic purposes upon the land described as Lots 937 and 1660 Kamloops Division Yale District.

This notice was posted on the ground on the 25th day of April, 1922.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Princeton, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

JOSEPH R. GRANT, Applicant.
By P. W. Gregory, Agent.

The date of the first publication of this notice is April 28, 1922.

23-4

Lis Pendens in this action of Alfred Seymour Black on Parcel "B," Lot 402, and Lis Pendens of James Jameson.

Terms of sale, Cash.

WENTWORTH F. WOOD,
Sheriff of all that portion of the County of Yale not comprised within the Grand Forks and Greenwood Electoral District. 22-5

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stockowners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

PUBLIC NOTICE

"POUND DISTRICT ACT"

WHEREAS under the provisions of this Act application has been made to the Lieutenant-Governor in Council to constitute the Townsite of Hedley City, in the Similkameen Electoral District, comprising all lands and included streets and lanes more particularly described as Blocks 1 to 20 inclusive, those portions of Blocks 23 and 24 lying west of Twenty Mile Creek, Blocks 25 and 26 and the west half of Block 27 inclusive, as shewn on the plan of Hedley City; Blocks 1 to 16 inclusive, as shown on the plan of the "Ready Cash" Mineral Claim, addition to Hedley City; Blocks 1 to 10 inclusive, as shown on the plan of the Eastern Addition to Hedley City and Blocks 1 to 18, inclusive, as shown on the plan of the Warremoo Addition to Hedley City, a pound district.

NOTICE IS HEREBY GIVEN that, thirty days after the publication of this notice, the Lieutenant-Governor in Council will proceed to comply with the application, unless within the said time objection is made by eight proprietors within such proposed pound district, in Form A of the Schedule to the said Act, to the undersigned.

E. D. BARROW,
Minister of Agriculture.

KEREMEOS NOTES

(From our own correspondent.)

If the bloom on the fruit trees are not injured, Keremeos will have the largest fruit crop that has ever been seen here.

* * *

The baseball club is fixing up a new diamond for the season.

* * *

Born to Mr. and Mrs. John Milloy on Friday, May 5th, a girl, both doing well.

* * *

Dr. McEwen, of Hedley, accompanied by his family, was in town on Saturday.

* * *

Mr. T. W. Coleman motored to Princeton on Sunday, returning on Wednesday's train.

* * *

Mr. Bruce Rolls and family, of Hedley, were visitors in town on Saturday.

* * *

Mr. J. A. Brown, of Princeton, was in town during the week.

* * *

Mr. S. Bligh, who has been on the sick list for a few days, is now able to be around again.

* * *

Mr. W. Fechter has several teams at work levelling his land this week and getting ready to set out his fruit trees.

* * *

Mr. H. B. Armstrong was a business visitor to Vancouver this week.

* * *

Mr. Crowder has the lumber ready for building an addition to his residence on Bridge street.

* * *

Rev. Mr. Currie left for Kelowna this morning, where he will attend the district convention.

* * *

Mr. Ewart Woolliams, who has been attending the B. C. University, is home for the summer holidays.

* * *

Mr. McLaughlin, of Vancouver, was in town on Tuesday on business for the firm of McLellan and McFeeley.

* * *

Rev. E. C. Currie has purchased a Dodge car which he finds much more satisfactory for his trips to Hedley every other Sunday.

* * *

Messrs. H. Innis and A. Freeman, of Hedley, were guests in town on Sunday.

* * *

Mr. and Mrs. McGuffie and daughter, Peggy, of Fairview, were guests of Mrs. McGuffie's mother, Mrs. R. C. Clarke, "Urba Villa," over the week-end.

* * *

Mr. MacDonald, the barber who settled here some time ago has moved to Oliver, where he thinks he will have more to do.

* * *

Mr. B. Carmen, was in town over the week-end, the guest of Mr. and Mrs. James Ramsay.

* * *

Mr and Mrs. Cadwell have visiting with them for a few weeks, Mr. Cadwell's sister.

* * *

Mr. A. J. King, of Hedley, was a business visitor in Keremeos on Tuesday.

* * *

Mr. Gray, who has been visiting his daughter, Mrs. B. E. Williams, left on Sunday via Penticton for his old home in England. He was very much taken with the valley while here.

* * *

The Junior ball team of Keremeos are doing some great practicing these days getting ready for the season. With the help of the citizens they are getting new suits and new mits.

* * *

Mr. Elwood Bromley, of the Horn Silver mine, motored through Keremeos on Monday to Princeton where he was looking for men to work in the mine.

* * *

Mr. H. H. Cameron's brother, who lives in Saskatoon, is leaving on the fifteenth of May by auto, going to Wisconsin, then to Chicago, from there to Keremeos and back home via Seattle, Portland, Los Angeles.

* * *

Mrs. Mark Pike and daughter, of Nezperce, Idaho, wife of Rev. Dr. Mark Pike, who was one time pastor of the Methodist church here, is visiting with Mrs. O. H. Carle for a month.

* * *

A freak of some kind passed through Keremeos on a bicycle this week and said he was travelling to Montreal. "It was of course a man" and said he was David, the son of Peter. Perhaps the man in Penticton who was giving the correspondent of Keremeos a calling down some time ago through the columns of the Star might say he was a Russelite, as he looked like one who was supposed to be living but was now dead.

CAWSTON NOTES

R. W. Sheridan left for Kelowna, where he has accepted a position with the Jenkins Co.

* * *

Mrs. Sam Manery spent Wednesday with friends in Keremeos.

* * *

P. B. Freeland, of Grand Forks, visited Cawston on Thursday en route to Princeton.

* * *

Silas Newton, of Vancouver, is here to assist in the store during the absence of his brother, L. V. Newton, who will spend the summer in Crystal City, Man.

* * *

George Cawston has returned to Princeton, after spending the winter with his brother R. L. Cawston, Sr.

* * *

Mr. Havin and family of Marron Valley spent the day with W. J. Hammill.

* * *

R. B. Sheridan is helping Murdock McIntyre erect buildings at the saw mill on the Fairview road.

* * *

The Cawston Board of Trade will hold a dance in the Community Hall on Friday, May 12. Music by the Daly orchestra.

* * *

Miss Dorothy V. St. Clair left for her home in Montana after spending the past few weeks the guest of Mrs. R. J. Armstrong.

* * *

W. J. Manery, of Penticton, was the guest of his daughter, Mrs. Chris. Tickell. Little Miss Eileen Tickell accompanied him to Penticton for a short visit.

* * *

Mrs. L. V. Newton entertained her Sunday school class at a picnic dinner on Friday.

* * *

Newton and Sinclair were Hedley visitors on Monday.

* * *

D. Campbell, road foreman, has a crew of men working on the road near the W. D. Long residence.

* * *

F. M. Wright and family, and Mrs. A. Prentice motored to Summerland on Saturday.

* * *

J. H. Newton, of Merritt, arrived on Friday and will act as millwright for M. McIntyre.

* * *

Ross Fleming and wife are now living the Lutas house.

* * *

H. W. Silvester made several trips to Penticton with his truck the past week delivering potatoes.

* * *

Newton Sinclair was in Penticton on Saturday.

* * *

W. D. Lang was a Keremeos visitor Friday.

* * *

Mr. Schemilt and family, of Penticton, moved into the Ritchie house. Mr. Schemilt expects to purchase land here, being most favorably impressed with our valley.

* * *

Mrs. Geo. Sproule and Mrs. E. M. Crooker, of Keremeos, were guests of Mrs. R. B. Sheridan on Friday.

* * *

Messrs. Lang and Dunnett will have charge of the Fred Wright place during Mr. Wright's absence in Manitoba.

* * *

Mr. Johnson, of Merritt, is here to act as sawyer at the McIntyre saw mill.

* * *

R. L. Cawston Sr. will have charge of the Taylor orchard this year.

* * *

J. M. Pitman moved to his mineral claims on the Fairview road. Mr. Pitman expects to do considerable development work on his claims during the summer.

* * *

Miss Eva Dye is the guest of her mother, while recovering from a recent operation for appendicitis.

* * *

F. M. Wright finished painting his new home, adding greatly to its appearance.

* * *

Nurse Purcell made her regular visit to the Cawston school this week.

* * *

Mrs. H. C. N. Etches and daughter, of Keremeos, are guests of C. Tickell and family.

* * *

Mrs. D. McCurdy and Mrs. and Mrs. Henry Madding of the Horn Silver, visited friends in Cawston Monday.

* * *

Mr. and Mrs. G. G. Keeler and son Carl, Misses Gladys and Mary Ring, of Keremeos, spent Sunday with Sam Manery and family.

* * *

Messrs. Fleming and Calwell now have their tomatoes in the cold frames. They expect to put out several acres of tomatoes on the bench land.

* * *

Mr. and Mrs. L. V. Newton, Mr. and Mrs. F. M. Wright and daughter, Bernice, will leave about May 15 for Crystal City, Man., where they will spend the summer with relatives.

* * *

Jack McQueen arrived in Cawston Monday. Jack expects to leave soon for the big gold strike in the Cariboo country.

* * *

Mrs. Cochrane and sons, of Vancouver Island, are here to spend the summer with Major and Mrs. Shaw.

* * *

* * *

R. L. Cawston, Jr., turned his cattle on the range Monday.

* * *

The regular meeting of the Cawston Women's Institute was held in the Community hall on Thursday, May 4. Twenty members and two visitors were present. After the regular business was attended to Mrs. E. M. Daly read a paper on her trip over the Hope trail in early days, which was very interesting; Miss Purcell, nurse, read a most interesting paper on "Teeth and their effect on general health." Mrs. Tom Daly rendered a solo in her usual pleasing manner, and Mrs. McKenzie gave Current Events. Tea was served by Mrs. E. Gordon, Mrs. L. A. Newton and Mrs. M. Chamberlin.
