## Prize List of Keremeos Annual Flower Show

### EXHIBITS AT THE SHOW WERE NOT SO NUMEROUS AS LAST YEAR BUT OF EXCELLENT QUALITY

The annual flower show was held in the Victory Hall, Keremeos, on Wednesday, Sept. 3rd, under the auspices of the Women's Institute and the Board of Trade. Mr. Mann, assistant superintendent Summerland experimental station, was again judge for the flowers. Mr. Tait and Mr. Travis judged the fruit and vegetables, Mrs. Cawston and Mrs. Felhauer the home cooking, Mrs. Lloyd Armstrong the basketry and Miss Dunnett, Mrs. McIntyre and Mrs. Pettipiece the needlework. While the show was not nearly as large this year as it has been in former years, the judges expressed the opinion that the exhibits shown were all of excellent quality. $27.50 was paid out in prizes to the school children. A list of the other prize winners appears below.

**Class A**

Best Dahlias—1 Mrs. J. W. Lewis, 2 Mrs. Christie.
Best Sweet Peas—1 Mrs. H. B. Armstrong
Best Decorated Basket—1 Mrs. Christie.
Best Carnations—1 Mrs. Sorge, 2 Mrs. Pedy.
Best Table Decoration—1 Mrs. J. W. Armstrong, 2 Mrs. J. W. Lewis.
Best Collection of Annuals—1 Mrs. Sorge.
Best Institute Bouquet—1 Mrs. Cawston.
Best Roses—1 Mrs. Tweddle.
Best Gladoli—1 Mrs. Ramsay, 2 Mrs. Sorge.
Best Pansies—1 Mrs. Sorge, 2 Mrs H. B. Armstrong.
Best Asters—1 Mrs. J. W. Armstrong, 2 Mrs. Tweddle.
Best Stocks—1 Mrs. J. Campbell
Best Nasturtiums—1 Mrs. Lintott, 2 Mrs. H. B. Armstrong.
Best Petunias—1 Mrs. Sorge, 2 Mrs. Christian.
Best Verbena—1 Mrs. Sorge, 2 Mrs. Tweddle.
Best Phlox—1 Mrs. Christie, 2 Mrs. J. W. Armstrong.
Best Snapdragon—1 Mrs. McCallum, 2 Mrs. H. B. Armstrong.
Best Salpighosses—1 Mrs. Cameron (highly commended by Mrs. Christie.)
Best Cosmos—1 Mrs. McCallum.
Best Marigolds—1 Mrs. H. B. Armstrong, (highly commended by Mrs E. M. Daly.)
Best Zinnia—1 Mrs. Sorge, 2 Mrs. R. L. Cawston.
Best Window Box—1 Mrs. Cameron, 2 Mrs. J. W. Armstrong.
Best Hanging Basket—1 Mrs. J. W. Armstrong, 2 Mrs. Cameron (highly commeded by Mrs. Sorge.)
Highly commended for Hyrdangeas Mrs. Christie.
Largest number of entries in classes A, B, C, and D.—Mrs. Christie.

**Class B**

Best Layer Cake—1 Miss Daisy, 2 Mrs. Wheeler.
Best Loaf Bread (Five Roses flour) 1 Mrs. J. W. Armstrong.
Best Loaf Bread (Royal Household flour)—1 Mrs. Cameron, 2 Mrs. McCallum.
Best Loaf Bread (Maple Leaf flour)—1 Mrs. Christie 2 Mrs. Derry.
Best Fruit Cake—1 Mrs. Cameron, 2 Mrs. Dommett.
Best Potato Flour Cake—2 Mrs Derry.
Best Lemon Pie—2 Mrs. Houghton.
Best Pie (2 crusts)—1 Mrs. Wheeler, 2 Mrs. Kerr.
Best Brown Bread—1 Mrs. Crooker, 2 Mrs. Derry.
Best Boston Brown Bread—1 Mrs. Derry.
Best Cookies—1 Mrs. Cameron, 2 Mrs. Crooker.
Best Scones— 2 Mrs. Wheeler.
Best Nut Bread—1 Mrs Wheeler, 2 Mrs. Kerr.
Best Oatmeal Cookies—1 Mrs. Kerr, 2 Mrs. Houghton.
Best Collection Canned Vegetables—1 Mrs. J. W. Armstrong.
Best Collection Pickles—1 Mrs. Cameron, 2 Mrs. E. M. Daly.
Best Print Butter—1 Mrs. Cameron, 2 Mrs. Crooker.
Best Specimen Soup — 1 Mrs. Derry.

**Class C**

Best Knitted Woollen Sweather—1 Miss Leask, 2 Miss Leask.
Best Solid Embroidery Cloth—1 Mrs. Ramsay, 2 Mrs. Cargill Armstrong.
Best Embroidered Child's Dress—1 Mrs. Lintott.
Best Men's Knitted Socks—1 Mrs. S. Smith.
Best Handmade Garment—1 Mrs. Robertson, 2 Mrs. Knowles.
Best Table Runner—1 Mrs. E. M. Daly, 2 Mrs. Ramsay.
Best Applique Work—1 Mrs. H. B. Armstrong, 2 Mrs. Wirth.
Best Crochet Work (extra)—1 Mrs. Donnett.
Best Embroidered Cushion (extra)—1 Mrs. Wirth, 2 Mrs. H. B. Armstrong.

**Class D**

Best Pine-needle Basket—1 Miss L. Leonard.
Best Pine-needle Tray—1 Mrs. S. Smith.
Best Reed Basket—1 Mrs. Tom Daly, 2 Mrs. Carrick.
Best Reed Tray—1 Mrs. Madore.
Best Willow Basket—1 Mrs. Willis.

**Class E**

Best Dried Beans—1 J. L. Mattice, 2 Mrs. Derry.
Best Beets—1 Mrs. Derry, 2 J. W Armstrong.
Best Carrots—1 Mrs. Derry, 2 J. W. Armstrong.
Best Sweet Corn—1 J. L. Mattice.
Best Celery—1 Mrs. Derry
Best Onions—1 Mrs. Sorge.
Best Parsnip—1 Mrs. Derry.
Best Peppers.—1 Mrs. Sorge, 2 Mrs. Cameron.
Best Tomatoes—1 C. W. Lintott, 2 J. L. Mattice.
Best Cabbage—1 C. W. Lintott.
Best Cucumbers—1 Mrs. Derry.
Best Pumpkin—1 Mrs. Derry, 2 J. L. Mattice.
Best Early Potatoes—1 Mr. Parsons.
Best Main Crop Potatoes—1 Mr. Parsons, 2 Mrs. Derry.
Best Vegetable Marrow—1 Mrs. Derry, 2 Mrs. Campbell.
Best Musk Melons—1 J. W. Armstrong, 2 Mrs. Cameron.

**Class F**

Best Bartlett Pears—1 J. L. Mattice, 2 Mrs. E. M. Daly.
Best Flemish Beauty—1 J. L. Mattice, 2 J. L. Mattice.
Best Anjou Pears—1 J. L. Mattice, 2 G. Christie.
Best Spitz Apples—1 J. L. Mattice, 2 Wm. Pilkington.
Best Delicious Apples—1 Mrs. Innes, 2 Wm. Pilkington.
Best Newton Apples—1 G. Christie, 2 H. C. N. Etches.
Best Winesap Apples—1 H. C. N. Etches, 2 G. Christie.
Best Hayman Winesaps—1 G. Christie.
Best McIntosh Apples—1 Mr. Wheeler, 2 J. L. Mattice.
Best Jonathan Apples—1 G. Christie, 2 Mr. Wheeler.
Best Wealthies—1 Mrs. Innes.
Best Snows—1 Mr. Wheeler, 2 Mrs. Innes.
Best Prunes—1 J. L. Mattice, 2 J. W. Armstrong.
Best Greengages—1 Mr. Parsons.
Best Box Packed McIntosh Apples—1 Mrs. Dpndas, 2 Mr. Honeywell.
Largest number of Prizes taken in Fruit and Vegetables—1 J. L. Mattice.

## CITY MAY GET CABINET SEAT

### This Is Impression Given to Young Liberals by Premier Oliver

Vancouver, Sept. 10.—That a reshuffling of cabinet seats will take place in the near future to give Vancouver a portfolio was the impression given President G. L. Fraser and Mr. W. A. MacDonald when they interviewed Premier Oliver on behalf of the Young Liberal Association of this city.

In reply to the claims advanced by the Young Liberals, the Premier stated that he was fully in agreement with the propriety and justice of cabinet representation for Vancouver, and clearly remembered his pre-election promise in connection with it, adding:

"I am just as anxious to see Vancouver represented in the cabinet as anyone, and you may depend upon it, the city shall have cabinet representation at the earliest possible moment."

Pressed for a definite promise that representation would be given the city in the cabinet in time for the next session of the Legislature, the Premier stated that he would be in a better position to answer on his return from Ottawa at the end of the month.

It is understood that the Premier told the delegates that the presidency of the executive council was Vancouver's for the asking. If the city members and party leaders wanted ...

## NEITHER PARTY WANTS SAW-OFF

### Dr. Tolmie and Hon. W. Sloan Give Views on By-election

Vancouver, Sept. 10.—A suggestion that there be a political "saw-off" in connection with the campaign of Hon. K. C. McDonald, North Okanagan, who was recently appointed provincial secretary, does not meet with favor in either Conservative or Liberal ranks.

Hon. Dr. S. F. Tolmie, M.P., national organizer for the Conservative party, states the suggestion that the Conservatives give Dr. McDonald an acclamation in the provincial by-election in trade for a similar courtesy in the federal by-election which is icoming up, had not been made, "and if it should be it will be rejected, I am sure."

The question was also put to Hon. William Sloan, minister of mines, who is over from Victoria. "As to that," said Mr. Sloan, "I think it would meet strenuous objection from the Liberals from the federal point of view."

Regarding a report that there is a probability of the early resignation of Hon. E. D. Barrow, minister of agriculture in the provincial government, on account of ill-health or anything else, Mr. Sloan said he had heard nothing of it.

The minister is here on departmental business, and expects to visit the New Westminster Exhibition before he returns to Victoria.

Premier Oliver, following his formal opening of the New Westminster Exhibition on Monday, returned to Victoria on the night boat.

Hon. T. D. Pattullo, minister of lands, has arrived from Victoria.

## OLALLA NUGGETS

By R. W. N.

Dan McEachern is recovering from an attack of pleurisy which came on while he was at work in the tunnel up on the Golconda last week.

* * * *

Bert Irwin and family of Princeton came in the family auto yesterday (Sunday) for a short visit to Miss Hall, leaving again last evening before dark.

* * * *

School began on Tuesday the 2nd inst., with Miss Dorothy Horton as teacher. Miss Horton, her mother and brother are now domiciled in the house built by P. T. Williamson last year.

* * * *

Arthur Smitheram and wife came down from the Nickel Plate mine via the scenic mountain road on horseback the day before Labor Day and returned to the mine by the same route the day after Labor Day. Arthur says it is a most enjoyable trip and there are half a dozen auto owners up at the mine who will be keeping the road in good condition by constant use.

* * * *

The gentle rain began falling softly and silently this (Monday) morning and quickly the vegetable world underwent a transformation. It did a lot of good, although in a very, very short time—a few days more or less—vegetation will be in the sere and yellow of decay. But rain, be it ever so little, is always welcome in these parts known as the Dry Belt, where Jupiter Pluvius so rarely visits with his watering can.

* * * *

The leaning tower of Pisa is one of the famous attractions of Southern Europe and great numbers of foreign tourists visit it every year. If leaning towers can be counted on as infallible attractions to draw tourists, what's the matter with Keremeos making the most of the fine example now to be seen in the yard at the Tweddle ranch? It is close to the road and everybody can see it free, gratis and for nothing. It is leaning more and more every day and those who wish to view it before it overbalances should lose no time in visiting a spectacle that is probably "just as good"—in some respects at least—as the one at Pisa.

* * * *

I have heard a good many stories concerning the newly-opened scenic mountain road. It is in fine condition as far as Northey's Camp, about half a mile this side of the summit and from there to the Nickel Plate mine—six miles of nearly level ground—there are very few obstructions to be overcome. There was a car from California on its way home after a long trip through the interior of B. C. But hearing of the new scenic road and Stray Horse Lake with its big trout the tourists went up at the switchback just to see what it was like. They called at LeLievre's afterwards and said they wished they had known of the many attractions of this place before so that they could have spent a week or two up there. It was during the hot weather when the thermometer touched 100 deg. in the shade down here, but up there the ladies of the party wore sweaters all the time. It certainly is a nice cool place in the dog days, and at over 6,000 feet altitude the hot breath of the lower valleys cannot reach up. The Californian party said they would come again next year if all's well.

Mrs. LeLievre says she spent four days up at the lake, but wished she could have had four weeks of it. She said the boys had a great time up on the summit of Red Mountain when they found the moon rising below them. She said the air was very exhilarating, and instanced a young friend of hers who was with her. The four days seemed to put new life into the girl and more than doubled her appetite. I can vouch for that statement. It has the same effect on all who live up there for a few days. It sure does enlarge the appetite and the first to kick against such enlargement is always the cook. It doubles his work. The only trouble about conditions up there is the uncertainty of the weather. This season has been ideal for mountain touring, not only here, but all over the province. Next season may not be so propitious. When a few inches of snow covers the ground and the fine views are obscured by fog the pleasure-seeker is up against a proposition that to say the least is unpleasant, and if the unpleasantness continues for a day or two, why, he quits.

* * * *

I do not care to butt in on your Keremeos correspondent's perquisites but I am devoting a par to the Keremeos Flower Show held last Wednesday. And as Olalla had three entries and won three prizes—two firsts and a second—I think I am entitled to a few remarks of my own. I was not able to get a list of the prize winners, although I tried and walked down on Saturday for that very purpose. So I am obliged to confine myself to the two or three most conspicuous exhibits that captured my attention while at the show. And I hope those other prize-winners whom I do not mention will not feel any jealousy at being omitted. No doubt your Keremeos correspondent will give them all their full honor.

First of all let me say that although the exhibition was somewhat small in quantity the quality of nearly all the exhibits was above par and would have done credit to many of the larger and more pretentious shows now being held all over the province. One of the exhibits was a 30-lb. pumpkin shown by W. Derry, who, bye the bye, captured seven firsts and four seconds. Another of his firsts was a plate of five Flemish Beauty pears, the top one weighing one pound exactly. J. L. Mattice also took seven firsts and four seconds, his ears of corn being immense. Five boxes of Mackintosh Reds made a splendid showing, in which Mrs. A. Dundas took first and W. C. Honeywell second.

Of the Olalla entries Miss Beatrice Bolivar was awarded first prize for flower painting from nature. The subject was a beautifully colored African marigold and it certainly was an exact copy of the original. The warm velvety colors of the flower and the deep,vivid green of the leaves were as natural as nature itself. Beatrice will go far in the line of artistic painting if she continues, as she seems to be gifted with the power of true delineation. Mrs Clara J. Christian won second prize for flowers (I forget the name of the flower and there is no time for me to it now, as the mail leaves in the morning) and would probably have had a first if the exhibit had not been somewhat damaged by the jolting of transportation. A new apple grown from seed planted by R. W. Northey several years ago and named by him Olalla Pippin won first prize. It is a large apple, finely colored, evenly shaped, juicy and a splendid cooker. One favorable feature, and perhaps the most valuable in any kind of tree fruit, is that it bears heavily every year. Many apple trees bear alternately, but that word does not seem to be in the vocabulary of the Olalla Pippin.

* * * *

Sunday night the citizens of Olalla had quite a unique and interesting pyrotechnic display exhibited before them. Looking due south about six miles as the crow flies they saw the top of the high range across the river from Keremeos all ablaze for its whole length east and west for about two miles or more, with the half moon smiling redly above the dense smoke which had obscured the flames all through the day, but which now shone vividly through the darkness, or rather semi-darkness, as the moonlight was only just a little bit dimmed by the thin smoke cloud which rose that high. And later on rosy-cheeked Mars, who has been creating such a stir lately, wended his way along almost exactly the same trail. The fire was first discovered on Sunday morning and it was fanned into activity during the day by a rollocking, boisterous wind, so that it had spread all over the deep hollow or ravine that lies behind the ridge, and had also reached the summit of the ridge itself. This perpendicular rock bluff is said to be 4,000 feet high and in the early days of the Similkameen was noted as a fine hunting ground for mountain sheep and goats. Fire Warden Reynolds came in from Penticton Sunday evening and went on to Keremeos.

Monday Night.—Today's rain has squelched the fire, although there are still small spirals of smoke ascending from the basin behind the ridge. A few specks of fire are seen to light up now then on the rocky and precipitous face of the mountain, so that it seems that the drizzling rain which fell all morning did not quite put the extinguisher on the blaze. The fire warden went up with a crew of men this afternoon, two of them—Jack Cassidy and Charley Jordan—being from Olalla. I suppose they are up there now. Maybe. Tonight the sky is clear of smoke and clouds and the only hint of fire is just one bright spot just a little below the summit—may be hundreds of feet—and although from here it appears no bigger than the head of a match it may be and probably is, as big as the top of a No. 8 Brandon cook stove. If present conditions of weather continue there will be no danger of the fire spreading any further. There was considerable summer lightning away down south in a clear sky one or two evenings late in the past week, and it is the current opinion that a bolt from the blue originated the fire, especially as everything was as dry as tinder from the long-extended drouth. No campers or hunters would be up there, as the hunting season has not yet commenced and the scene of the fire is perhaps one of the most inaccessible in the province.

Finis. 10 p. m.

## PICNIC BALANCE WILL START PRIZE FUND

The generosity of the citizens in subscribing to the children's community picnic is responsible for the inauguration of a prize fund in the public school. Acting on behalf of the contributors to the picnic and the Sunday school staffs, Rev. Mr. Levason and Rev. Dr. Unsworth handed Principal Dyson thirteen dollars to be used for rewards to those who make the best general progress during the month. Four awards will be made monthly, beginning with October, to the four senior grades of the public school, under the direction of Miss Keele and Mrs. Everton. It is hoped that further contributions to the fund will permit an extension of the awards to other pupils

## MOTOR ACCIDENT ON ONE MILE ROAD

This week we have to add another to the list of motor car accidents we published last week. It occurred on the One Mile road on Sunday afternoon, when H. A. Miller, employed at DeMuth's saw mill capsized his Ford bug with the result that Miss Phyllis Thomas, who was riding with him at the time, received quite serious injury and is still in the hospital here, though progressing favorably.

James Harrison of Kaleden, who was making a trip of what is called the circular route, via Vernon, Kamloops, Princeton and Penticton, was an eye witness of the accident. In conversation with the Star representative he stated that while in the vicinity of the Hazelton ranch near Blue Lake, he saw a car approaching at a pretty rapid rate and realizing that it would be impossible to pass on the narrow road, stopped his own car.

The driver of the other appeared to have no control but while still 50 or 60 feet distant attempted to stop by mean of heading into the bank with the result that the car turned turtle. Mr. Harrison had some difficulty in getting by the capsized bug but managed to do so and brought Miss Thomas into the hospital here, where her injuries were attended to by Dr. Lee Smith.

## MR. WOODWARD IN EARNEST

### M.L.A. Sends Second Message to Oliver on Resignation

Vancouver, Sept. 11.—Mr. Charles Woodward, M. L. A., stated this morning that he had received a wire from Premier Oliver and as a result had extended the time for his resignation as a Liberal member for Vancouver twenty-four hours, in order to give the Premier an opportunity of replying to a second telegram which had been despatched to him.

"I can not wait for any action by the cabinet," declared Mr. Woodward. "My position in regard to the sale of timber on the Capilano watershed is clear and a definite assurance now that the timber will not be sold is the only thing that will cause me to withdraw my decision to resign."

Mr. Woodward stated that Hon. J. D. MacLean, minister of finance, was in the city and would probably hold a conference with local members. If an invitation is sent to him he will attend, but he has no intention of forcing himself on any caucus.

"I believe the whole of the crown lands on the Capilano watershed should be conveyed to the city," Mr Woodward continued, "and in that I will be supported by Gen. Odlum and Mr. Chris MacRae, two of the other members for Vancouver. The property owners and the city council are in favor of the move, and it would settle the question for all time. I am not, however, making that an issue at the present time."

Answering a question, Mr. Woodward stated that in the event of no agreement being reached with the Premier, he would publish all the correspondence that had passed between them, and this would allow the electors of the city to see for themselves all the grounds upon which he had taken his stand, as he had stated them to the Premier.

The two other members opposing the sale of timber, Mr. Chris MacRae, M.L.A., and General V. Odlum, M.L.A., have stated they are agreeable to having the matter laid over for consideration by the cabinet, and this had been promised.

From other sources today there came news of a possible compromise being talked of. It is along the line of a proposal that the government agree to convey all the Capilano lands to the city after they are logged off.

Mr. and Mrs. H. Lair of Penticton were registered at the Hotel Princeton on Thursday.

PRINCESS THEATRE

Come along and follow "Pied Piper Malone" through love and adventure on land and sea. Lois Wilson as leading lady, and a flock of the cutest kids ever seen on the screen.

COMEDY

'Over the Fence'

## Initial Performances Are Well Attended

### CHAUTAUQUA ARTISTS ARE ACCORDED A CAPACITY HOUSE AND THE VARIOUS NUMBERS ARE MUCH APPRECIATED

Whatever difference of opinion there may be in respect to guaranteeing Chautaqua companies a profitable engagement when they favor us with their presence, citizens of Princeton are displaying an inclination to get behind the movement, since it has been launched, and are giving it their best support.

Capacity houses greeted the opening performances of the artists in the Oddfellows' Hall on Thursday and everyone appeared satisfied that they had received their money's worth. The committee scarcely hope to sell enough season tickets to enable them to break even but with the support of the public are making the best of it.

We would direct attention to the fact that it is only the sale of season tickets that benefits the committee and goes toward meeting the sum guaranteed. For this reason and also because it is more economical citizens should purchase season tickets rather than pay for individual performances.

## GAME REGULATIONS 1924

Game regulations for 1924 have now been published. Following is a brief summary of clauses of interest in the Similkameen:

Open season for Mountain Goat Sept. 15 to Dec. 15, bag limit 2. Bear Sept. 15 to June 30, 1925; bag limit 3 of any species, one grizzly. Deer, bucks only (excepting white tail) over one year old, Sept. 15 to Dec. 15; bag limit 2. Mountain Sheep may be hunted in the electoral districts of Fernie, Cranbrook and Columbia; bag limit one ram only.

There is no open season for the trapping of fur-bearing animals in the Eastern district.

Grouse and ptarmigan, 6 of one species or 12 of all species in one day and 50 for the season (Prairie Chicken excepted) Sept. 15 to Oct. 15. Quail bag limit 10 in one day and 100 for the season, Oct. 18 to Nov. 15. Pheasant, (except in the vicinity of Princeton) cocks only, Oct. 15. to Nov. 15, bag limit, 4 in one day and 15 for the season. Ducks, geese and Wilson snipe, Sept. 15 to Dec. 30.

Game may be kept for two weeks after any open season is ended. A synopsis of the Migratory Birds Convention Act, prohibiting the shooting of non-game birds, recently appeared in these columns.

## WHAT WAS DOING HERE TWENTY YEARS AGO

From the Similkameen Star of Saturday, September 10, 1904

The Similkameen and Tulameen rivers are lower than ever known by the oldest resident. The conditions for bar and other placer diggings are very favorable owing to the low water. Chinamen are gold washing but "John" is too cunning to tell what luck he is having.

Claude Snowden fears nothing that crawls or walks and is a man of many parts. He usually follows prospecting but he will tackle any job with a day's wage in it. In the recent rush he was head waiter in the Jackson. The mineral instinct, always strong, got him into some funny plights when repeating the bill of fare. Thus he would get bacon, ham and eggs interlarded with diorite, andesite or apatite and he invariably accompanied hot cakes with float. But zinc soup paralyzed everybody. Claude is so highly mineralized that his very breath assays largely in sulphurets when he is mad. He is never more at home, however, than when roaming the hills on his thick Corinthian legs or in nightly bivouac, 'joshed' to sleep he stretches himself out with nothing but mountain dew for pillow or cover.

Fine weather prevailed during the sports at Hedley on Labor Day. The Hedley baseball team again proved their superiority by defeating the Enderby team by a score of 21 to 6. Although the game was so one-sided as to leave no doubt as to the result yet the Enderby boys, with the hearts of true sportsmen, pluckily held on until the last. In horse racing Bert Allson's Jess easily won the first and principal race and he also won the saddle horse race with his horse Johnnie. The cowboy race went to Hans Richter's Gray, with P. Green's horse a close second. In athletic sports the ¼-mile and 100 yards races, also the broad jump went to Manuel. The high jump and the hop-step-and-jump were won by Vic Ryder. The other athletic events were keenly contested and the prizes captured by well known residents of Hedley and the surrounding country. The drilling contest was the most exciting event on the programme. Three teams were entered, made up of well known miners from the hill. The first money was won by Borhman and Berks with a record of 31⅜ inches, the second by Wilson and Sherwood with a record of 29⅞ inches. McKinnon Bros., made a very creditable showing of 27 inches.

## RECKLESS MOTOR DRIVING

It has been suggested to us that we should protest against the reckless driving of certain car owners, which has recently resulted in a number of serious accidents, on the grounds that it endangers the safety of more careful drivers who may be using the roads. The accidents we have had to report have, however, resulted only in the undoing of the reckless drivers themselves. As long as they are bent on suicide let them go to it. When a case occurs where their recklessness or carelessness results in property damage or personal injury to others we shall not be slow in commenting on it.

## GET TOGETHER

During the week J. R. Colley, mayor of Kamloops and recently elected member of the local legislature, with a number of lesser lights from our neighboring town, paid Princeton a brief visit on their way home from the convention of the Good Roads' League and the Union of Municipalities held in Penticton. Speaking with the Star man Mr. Colley gave expression to the hesitation they had had in entering our town with their Kamloops pennant displayed.

The idea is entirely wrong. If the citizens of the two towns would rub shoulders more frequently and try to get the view point of each other it could only result in mutual benefit. The useless conflict between the two places in regard to the route for a highway that will connect the coast with the populous districts of the interior is only supplying a dilatory government with an excuse for delaying construction of such a road.

It must be apparent to anyone that eventually roads will be built by both the Canyon and Hope-Princeton routes. The idea should be to get immediate action. It would also appear to be reasonable to expect that the first road to be built would be the most direct and least expensive. Let the government decide which that is but let us get together in insisting the job be started at once.

## The Pedlar's Pack

By AUTOLYCUS

"A Snapper up of Unconsidered Trifles."

### SEEKING PEACE

In conversation with a veteran officer of the Boer war I happened to mention James Grant once famous novel, "The Romance of War." That's all past," said he, "there is no romance left in modern warfare—it is just dreary butchery. In the last war most of the men never saw an enemy—they stood in dirty, wet trenches, being wounded or killed by shells out of guns hidden miles away, and the only chance of actual fighting they got was when they were sent over the top to rush a trench a little way ahead." If we except the work of the air forces, this seems to be a fair description of conditions, and it is possible that the elimination of the martial pomp and glory formerly inseparable from war will eventually be a leading factor in its discouragement. The pages of Grant and Lever are full of the romance of war, and their readers are entranced by vivid pictures of dashing charges, heroic forlorn hopes, unshakeable British squares, and all the blaze of scarlet and gold which fires the imagination of youth. Today the record is one of digging ditches for the shelter of men clad in sober khaki, and of a monotonous round of exchanging one ditch for another when the artillery has made that practicable. It is a sorry contrast, and one which is already doing its work.

Another factor which must of necessity enter into the matter is the enormous increase in the number of death dealing agencies. Unless a nation goes absolutely mad, it will soon have to bridle its longing for war by consideration of the danger of being literally and completely wiped out of existence by a victorious opponent. If it is so blindly possessed with the desire [illegible] disregard the risk, it will show itself as lacking in the sense shown in a colony of bees at swarming time. On these occasions it sometimes happens that two queen bees hatch simultaneously, and it being a law of the hive that only one queen can rule, a duel to the death is inevitable between the rivals. But it seems to be realized that the possible death of both would be a irreparable disaster to the colony, and accordingly it has been noted by observers that it, during the combat, the antagonists find themselves so locked together that the fatal sting may be simultaneously inflicted by both, they will separate, and renew hostilities from a different position. The welfare of the community is paramount, and the instinct to preserve it remains supreme even in the struggle for individual existence. It is an interesting object-lesson, and one which will probably have to be learned by the nations of the world in disputes of the future.

We read of gatherings of well meaning people to stake demonstrations in favor of no more war, there being apparently a notion that perpetual peace can be ensured by the passing of some resolutions to that effect by a few hundred persons assembled in a pleasant park for a Saturday afternoon's outing. It is a beautiful exhibition of childlike faith. The church has for centuries past prayed "Give peace in our time, O Lord," but so far the world seems to be quite indifferent as to putting the petition into practical effect. The peoples of the earth need not fight unless they choose, but man is a fighting animal, and when he loses the will to fight, he will also have lost certain other attributes more or less necessary to his very existence under present conditions. He will be a very different being to the man of today and will need a different world to live in. Meanetime the best prospect of reasonable peace in the earth appears to lie in a League of Nations which has the will and the power to enforce order.

* * * *

### CRIMES OF VIOLENCE

In England and Wales in 1923 there occurred two hundred deaths from homicide, more commonly called murder—in the same period in the United States, an American judge gives a conservative estimate of ten thousand! The same authority also states that the life insurance companies are becoming alarmed at the percentage of violent deaths, since it has reached a pitch which has an appreciable effect on their business. We can easily understand this when we note that last year more than seven per cent. of every hundred thousand of their industrial policy holders died from violence, instead of from natural causes. The American judge rather curiously claims that the fault does not lie in the lax enforcement of the criminal law, but rather with the apathetic attitude of the people todwards strict enforcement, coupled with their own willingness to obey the law of the land, and to train their children in obedience to it. He may be quite right in the latter conclusion, but it seems arguing wide of the mark to absolve the courts in the face of what is reported from them almost daily. It is not very long since an American chief of police resigned because he was unable to secure prompt convictions in the cases he brought before the court, and it is notorious that the parole system in vogue across the line is responsible for the release of many criminals who are not fit to be at large. Of course all this is primarily the business of the United States, but we are interested by reason of the fact that certain of our cities are being exploited by some of the gentlemen who follow the profession of robbery with violence, as witness some recent cases in Vancouver. And if we may judge from recent turn overs in that city, we have reason to suspect that a little of the apathy or laxity from across the line has been spreading in our direction.

It is interesting to try to decide how far our neighbors have advanced from the spirit of lawless license which Charles Dickens noticed in the America of the forties and which he satirized in "Martin Chuzzlewit." Mr. Hannibal Chollop "was usually described by his friends as 'a splendid sample of our native raw material sir,' and was much esteemed for his devotion to rational Liberty; for the better propagation whereof he usually carried a brace of revolving pistols in his coat pocket." After a lapse of eighty years we note that in not other country in the world is the revolver in such common use as in the United States, a circumstance which seems to show that the spirit of "rational Liberty" of Mr. Chollop is not yet altogether smothered under the tide of advancing civilization.

### FOUR MINISTERS TO ACCOMPANY PREMIER

**Mackenzie King Includes Several B. C. Cities on Western Programme**

Ottawa, Sept. 9.—Premier King leaves on September 29 on his tour of the West. He will be accompanied by Hon. P. J. A. Cardin, Senator Hayden and probably H. B. McGivern, M.P., of Ottawa, and in the West will be joined by Messrs. Motherwell, Stewart, King and McMurray.

The dates of the itinerary have not been definitely settled, but the first meeting will be held at Fort William and then Winnipeg, Brandon, Saskatoon, Prince Albert, Battleford, Lloydminster, Edmonton, Prince Rupert, Victoria, Vancouver, New Westminster, Penticton, Calgary, Medicine Hat, Moose Jaw and Regina.

The final meeting will be at Cochrane, Ont. The trip will occupy a period of six weeks.

**The attention of sportsmen in this district is drawn to the fact that there is no open season for pheasant in this immediate vicinity. A couple of years ago some two dozen birds were liberated near Percy Rowlands' ranch and it is with an idea of giving them an opportunity to increase that the restriction is made.**

## Synopsis of Land Act Amendments

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subject over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i. e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a compnay.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

## Princeton Paragraphs

This week's issue of the Star is unavoidably delayed owing to an overhauling of the type setting machine which was necessary.

Miss L. Innis returned last Sunday morning after a very pleasant trip, occupying the last three months, which took her over into Europe. She is remaining in town until the end of the week when she will go to the coast.

Step in to the store today and get that new Simmons' bed spring and mattress, it's a winner. I have grouped several beds, springs and matresses at a price that cannot be obtained anywhere else today. Come in and let us show you how you can sleep better. A. L. White.

The weather man has sure been mixing things up lately. After treating us, during the closing days of August, to a suggestion of frost and a brief glimpse of snow on the higher hills; an earlier date than has ever been recorded since the local weather bureau has been operating, we are now enjoying mid-summer weather and temperatures that make one seek the shady side of the house.

The wedding of William J. Woods and Evelyn R. Stewart of Blakeburn took place at the residence of Mr and Mrs. Chas. de Pfyffer on Tuesday last. Sept. 9th. The ceremony was performed by the Rev. Dr. Unsworth and the bridal couple left on their honeymoon trip to Penticton and other points the same day. Returning they will take up their residence at Barnes' Camp, Blakeburn.

Dr. Toimie, whose many friends in B. C. appear anxious that he should accept the leadership of the Conservative party here, passed through Princeton on Saturday on his way to the coast from Penticton, where he had attended a meeting of Conservatives in connection with the bye-election shortly to be held for this constituency. He had no information to give in respect to political matters, either local or general.

Many readers of the Star are acquainted with Charley Stirling, who for a number of years has been conductor on the G. N. railway between here and Oroville. They will regret to learn that, according to a custom that prevails in the railway service, he has been "bumped" from the job and may have to revert to the position of brakeman. Mr. Collins, an older man in the service of the company is the new conductor.

Mayor Colley of Kamloops, who is also the representative of that city in the local legislature, passed through town on Friday. He had been attending the Good Roads' League, Union of Municipalities and Liberal conventions, all of which were held in Penticton last week. He stated that the Liberal nomination in connection with the approaching bye-election in Yale would be held on the 19th inst. and that Dr. Knox of Kelowna was prominently mentioned as the Liberal candidate.

Mr. A. E. Howse, who returned on Friday from a trip through the Okanagan from Penticton to Tonasket (on the American side) and who attended the convention of the Good Roads League in the former town, is by no means downhearted over the prospect of the Hope-Princeton highway. He has always been one of the most energetic workers in this cause and now that he has retired from mercantile life feels that he will be in a position to give the matter even more attention.

Mrs. J. A. Brown, who has been spending the past month with friends at Alert Bay arriveo, in Vancouver on Friday of last week and is spending a few days with friends there. Saturday evening next between the hours of 8:30 and 9:30, she will assist in the Vancouver Province radio broadcast. There has always been difficulty in Princeton getting results from Vancouver on the radio, owing to either geographical or atmospheric conditions, but Mr. Knighton, manager of the Princess Theatre, will if possible arrange to receive the selections broadcasted by the Province between numbers of his program.

Mr. A. H. Borland of Vancouver, agent for Doctors Champion and Dunbar, who are establishing a fox farm on One Mile, was in town during the week. Mr. Borland has promised to contribute us a series of articles on fox farming but under pressure of business has not been able as yet to give it the required time. We have his assurance however that the initial article will not be much longer delayed. At present he is busy with an exhibit of foxes at the provincial fair. He also states that Dr. Champion is at present in the east in connection with the purchase of some choice stock for the farm here, which they expect to have stocked and in operation about the middle of October.

## COALMONT NEWS

(By "Jay Ell.")

M. McLeod is in the General Hospital, Vancouver.

* * * *

Mr. and Mrs. W. Oxley are in Vancouver where Mr. Oxley is an outdoor patient at the General Hospital

* * * *

Percy Boyd, the genial mayor of Merritt, was in town Sunday.

* * * *

Some of our local sport enthusiasts are endeavoring to form a golf club.

* * * *

Ivor Hoff, Keeport, Wash., known to many of our residents, camped at Tulameen last week.

* * * *

A casual remark about a case of calf love made by a visitor to Tulameen raised a discussion as to the true meaning of the term. No one could give an exact definition so it was decided to put it up to the Coalmont column, which is flattering to this column, maybe? Without hesitation, the enquirers were informed that this column considers it infra dig. to discuss love matters, bovine or otherwise.

* * * *

The following excerpt was taken from a letter which recently arrived from Ireland. "Your reference to the great number of blind pigs in B. C. is rather puzzling because you do not mention any reason for the poor things becoming blinds. Is it a contagious disease? Why do you not be more explicit when writing about matters with which we are not familiar." Probably if the Canadian correspondent had called them "sheleens" the Irish lady would have understood. But, what if he had called them "blind tigers."

* * * *

It is hard for an outsider to get the right slant on the labor situation at Blakeburn. It seems that the new scale submitted by the Coal Company to the men does not meet with their approval and they have appointed a committee to draw up another scale to fill the bill. This scale is to be submitted to a mass meeting of the men to be held at Blakeburn on Sunday, Sept. 14th.

That is the dope being handed around by some of the men from the mine but there may be another slant to it.

* * * *

Although the mine is busy and there are more men than ever employed at Blakeburn, the village of Coalmont is very quiet these days. It is possible that the Yale by-election coming on next month may stir up some of the somnolent citizens but, at that, it is doubtful, as most of us seem to have grown apathetic in so far as politics is concerned.

There is one "voice crying in the wilderness' however. During the last election he was a keen supporter of one of the political parties and was admittedly after a certain political job. The other day this same job hunter had the temerity to condemn the patronage system on account of its rottenness. Yea, verily "consistency thou art a jewel."

* * * *

The Coalmont Gun Club held its final shoot of the season on Sunday morning. There was a good turnout of members, besides which several members of the Blakeburn Gun Club were entertained. In the first shoot, 15 birds, for Coalmont members, Mason Pye was high gun with 14, James Smart and Dr. Sheffield tied for second place with 11 each, C. R. Malcolm hit 10, Jno. Bootle 9, Wm. McKay 8, Jack Rhodes jr and Dan McDonald 7 each. In the free for all sweepstake, 10 birds, Smart of Coalmont and Miller of Blakeburn tied with 9 each, Smart won the shoot off at the fifteenth bird. Duncan Fraser and Fred Miller of the Blakeburn Club challenged any two men of the Coalmont Club to a shoot, fifteen birds each. Smart and Pye were put up against them, the Blakeburn couple won out, hitting 21 to their opponents' 20. This match caused considerable interest. The trapshooting season now being closed the members of the two clubs should be in good practice for the more serious sport of grouse and duck shooting which will commence shortly.

* * * *

### Golden Wedding

The fiftieth anniversary of the wedding of Mr. and Mrs. John Holdsworth was celebrated in a quiet way at their home in Coalmont on Thursday evening. Those present were Mr. and Mrs. Neil MacMillan, Nanaimo, daughter and son-in-law; Mr. and Mrs. W. Holdsworth, Blakeburn, son and daughter-in-law and Mr. and Mrs. Reg Morrison of Coalmont.

Two daughters, Mrs. Geo. Crawford, Toronto, and Mrs. J. Sneddon, Australia, sent their congratulations. Mr. and Mrs. Holdsworth were the recipients of many beautiful presents from friends in Nanaimo, Merritt, Blakeburn, Coalmont and overseas places. The happy couple are both natives of Scotland, having been born in Hurlford, a village near Kilmarnock. They were married at Crookedholm on Sept. 4, 1874. They have three grand children in Australia, six in Toronto, five in Nanaimo, two in Blakeburn and two in Scotland. They have also three great grand children in Australia and three in Scotland. Mr. and Mrs. Holdsworth have many friends in this district and the Coalmont column joins with those friends in wishing them many more years of married life.

Mr. Kenneth McKenzie of Penticton, his sister Mrs. Beatty and her daughter, were visitors in Princeton the first of the week. On their return home they were accompanied by Miss Crissie McGraw, also of Penticton, who has been spending a week with Miss Muriel Wagenhauser.

## KEREMEOS NOTES

(Our regular correspondent.)

Mr. and Mrs. Brown are in from Vancouver visiting Mrs. Brown's parents, Mr. and Mrs. J. W. Armstrong.

* * * *

Miss Lucy Corbet arrived from Seattle during the week, leaving on Tuesday morning with her brother, Mr. E. F. Corbet, by auto, for Vernon, B. C.

* * * *

Mr. Ross Fleming, accompanied by Messrs. Ager, J. W. Lewis, G. H. Morton and Lloyd Armstrong, motored to Kelowna on Wednesday last in the interests of the tomato growers' association.

* * * *

Mr. "Curley" Mattice entertained a number of his friends on Monday evening last before leaving for Vancouver to resume his studies at the U.B.C.

* * * *

Mr. J. W. Lewis has purchased the house and property which has been vacated by Mr. Corbet and expects to occupy the same shortly.

* * * *

From the beginning of September until further notice the services of St. John's Church, Keremeos, will be as announced on the printed card. The anniversary of the dedication of the church is on September 10 and the following Sunday, September 14 and will therefore be kept as a dedication festival service. The service will be at 7:30 and special music will be sung.

* * * *

The magnet of Keremeos, or the supreme will of the management of the Canadian Bank of Commerce has kept our friend Mr. Purvis vxacillating between this point and the outside world for some months. He has twice been allowed out on suspended sentence, but we understand that he has again been sent back to serve out his full time. Cheer up "Pervy" there are worse places than Keremeos and your friends will at least be glad to see you back.

* * * *

On Monday evening last a large number of people, especially those who may be classed as "old timers," met in the Victory Hall to bid farewell to Mr. E. F. Corbet, who has been manager of the local branch of the Canadian Bank of Commerce. Mr. Corbet came to the valley in November 1915 and during the long period that he has held the position in the bank, he has been closely identified with nearly all important movements for the advancement and welfare of the community. At times he has held the position of president of the Board of Trade, an active member of the Victory Hall Society, a member of the Community Club, also active in church work. He has at various times taken up and gone thoroughly into possible industries, which might advance the business prospects of the district both in Keremeos and Cawston, at which point the bank for a time, gave a weekly service.

During the evening a short but very pleasing progamme of vocal and instrumental music was rendered, after which refreshments were served. Before the evening was brought to a close, Mr. A. E. East made a short address, voicing the sentiments of the entire community in expressing their regrets at Mr. Corbet's departure and presented him with a club bag as a small token of the esteem in which he is held. After the singing of "Auld Lang Syne" and the national anthem, the evening was brought to a close.

* * * *

The trustees appointed to take care of the park are arranging to carry out the work attempted by the Board of Trade, that is to make the park an attractive camp site for tourists. The park will be cleaned up and Mr. Evans and Mr. Cottrell have volunteered to build toilets and make a concrete fire place suitable for cooking. It is the intention of the board to hold a community picnic at which a small fee or a collection will be taken to defray the expenses. This will give all the residents of the valley a chance to get together and have a pow-wow, which is a very desirable thing and one which might be made an annual occasion to finish up the summer season. Getting together under free and easy circumstances, such as a picnic permits, is good for everybody and it is hoped as many as possible will avail themselves of the opportunity. In connection with this movement, we have been asked to draw the attention of parents to the necessity of impressing upon their children, the object of the improvements in the park and the desirability of keeping any equipment placed there in good order. Recently a stove top was placed there for the use of tourists but was completely destroyed. While it is known by the board by whom this was done and also that it is an offense punishable by law, no one wishes to be forced to take such steps unless compelled to do so to protect the property. It might be well for the leaders of the Boy Scouts and Beavers to impress this upon their troops or even appoint committees of boys who will make it a point to protect such public property.

* * * *

Are our beneficent governments going to insist on a fair deal to the farmers or will the efforts now being made only result in a spasmodic attempt. A recent coast paper reports that the Labor government in England has appointed a commission to inquire into the working of what is known as the "fruit ring" in that country and to ascertain the reason that fruit, which nets the growers little or nothing per pound, costs the consumer in England the large sum of 9d per pound. The fruit growers of B. C. know to their cost, that upward of 200 per cent is being made on apples which they are forced to part with often at less than the cost of laying them down in England by this all powerful ring, and some hope of betterment may be expected if the government will take a hand getting us a fair deal. Again our provincial government has taken steps to bring to justice one of our largest fruit handlers, for handling is all that they do in the many steps necessary for the produce to reach the consumer in what appears to be a straight steal. Perhaps the strangest thing is the attempt of the heads of the association which has suffered, to protect the company who have committed the crime. They state that as the company has agreed to refund the amount taken from them, they do not wish the matter followed up owing to their fear that it might disrupt the trade. In other words, because they get a few thousand dollars back they are willing to let what has no doubt been going on for a long period in past years, go by, but also to let the system remain as it is in spite of the probability that it will be resumed as soon as the present disturbance has quieted down. The government has refused to permit it to pass in the face of this, nor in face of the attempt by the company to |go the extent of $10,000 to keep it out of the courts. This too often is the farmers' weakness, in that he will not stand a temporary loss, that he may make a final gain and get justice. Better that they stand together, and if possible assist the government in carrying the matter to a full inquiry along all branches of produce. We know, and it is well known throughout the country, that the consumer is paying quite enough for the produce he is buying to remunerate the farmer amply, but we are also painfully aware that the largest portion of what he pays goes into the hands or the pockets of the purveyor and the producer goes short. It's a long fight, this fight to get our own and only by sticking together, fighting it to a finish and being willing to take a possible temporary loss, will we ever win out.

## CAWSTON NOTES

(From our own correspondent.)

T. G. Wanless of Penticton was in Cawston Monday.

* * * *

Mrs. R. B. Sheridan was in Hedley Monday.

* * * *

The Cawston Women's Institute held their regular meeting in the Community Hall on Thursday afternoon. Mrs. R. J. Roblin and Mrs. A. Prentice acted as hostesses.

* * * *

Norman Shaw and a crew of fire fighters left for the mountains Sunday to fight the fire in the mountains east of Cawston.

* * * *

Mr. Havens and family of Marron Valley are occupying the Gimby house for the winter.

* * * *

Mr. McLean is building a garage on his lot.

* * * *

Mrs. M. R. Smith of Similkameen returned from Vancouver Monday.

* * * *

W. D. Lang was over from Penticton Monday.

* * * *

John Pearson and Elwood Bromley went to the Horn Silver mine to work Monday.

* * * *

Mrs. Elwood Bromley is the guest of her sister Mrs. C. Tickell.

* * * *

Two Holstein milch cows belonging to A. Felhauer were shot with a shot gun by some unkonw person, one cow being quite badly injured. Two other parties complained earlier in the season of having stock shot.

## Here and There

**Although Alberta only became a province eighteen years ago, its population has increased fourfold, while the grain yield has increased twentyfold. The total agricultural products of Alberta in 1923 were worth $223,000,000.**

**The scheme for the settlement of British emigrants in Canada may assume a new aspect as a result of the presence in London, England, of the Hon. J. A. Robb, Canadian Minister of Immigration. Canada favors the movement of entire families to Canada from Great Britain, rather than that of single men.**

**Among the biggest muscalunges caught this year was one landed at the Canadian Pacific Railway's French River (Ont.) Bungalow Camp, by Samuel Franklin, Southern Sales Manager of Claflins, Inc., New York City. Mr. Franklin had a light tackle and had never hooked a lunge before. He had a hard fight to secure the fish, which tipped the scale at 38½ pounds.**

**A total of 13,743 Canadians, most of them native-born, has been repatriated from the United States during the months of April, May and June, according to figures announced by the Department of Immigration. During these three months 53,425 persons immigrated to Canada, which represented an increase of 12,292 over the same period of last year.**
