Merritt Basketballers To Invade Princeton for Games With Local High Students

BOYS AND GIRLS WILL CLASH WITH LOCAL TEAMS SATURDAY NIGHT; GOOD SENIOR GAME ALSO ARRAGNED; DANCE TO FOLLOW

Tonight's Games

7:30—Burr Motors vs. Tulameen (junior boys).
8:00—A. L. White vs. Cook Estate senior girls).
8:30—Dept. Store vs. Coles (intermediate).
9:00—Hotel vs. Garage (senior).

Saturday's Card

8:00—Princeton H.S. vs. Merrit H.S. (girls).
8:30—Princeton H.S. vs. Merritt H.S. (boys).
9:00—Select senior teams.
10:00—Dancing.

Thursday's Results

Coles 17, Peg White 12.
Princess 8, Burns 5.
Select team 58, Seconds 14.

Merritt basketballers will be Princeton's first visitors for the 1928 season. Two teams, boys and girls, representing Merritt high school, will be here Saturday night to meet local high school teams.

Merritt has been playing basketball practically all summer, and should have something pretty hard to beat. Princeton, however, need not apologize for the season here is already over a month old, and some good work has been put in. While there have not actually been high school teams here, the players have all played together many times, and Tuesday's practice showed that they blend quite well.

This, so far as is known, will be the first time high school teams have represented Princeton at basketball, and in fact at any sport. Princeton has made a real effort this fall, and "Princeton" is without exaggeration the talk of the interior basketball world. There are several teams waiting for an invitation to come here.

Support has not been what it should, however, and it is to be hoped that the local public will show its appreciation of the splendid advertising given the town by conducting the sport on ambitious and efficient lines. It will be a pleasant surprise to see just what Princeton has this year, from juniors to seniors. The Thursday night programs are well worth while, and unless they are better patronized the association cannot venture far in bringing in outside teams. What happens Saturday night may have a good deal of significance.

Dance and Senior Game

As an added attraction a senior game is being staged. Two strong teams have been selected from the best local talent, and these have been made as even as possible. Princeton has an unusual amount of good senoir talent. The floor will be cleared for dancing at 10 o'clock.

Selected Teams

PRINCETON H.S. GIRLS—M. Avery, A. Mitchell, L. Mitchell, guards; A. Hall, center; M. Garrison, M. Hughes, M. Gellatly and M. Oreskovich, forwards.

PRINCETON H.S. BOYS—T. Lindsay, W. Dodd and E. Cook, guards; K. Garrison, center; A. Dodd, G. Burr, A. Vaydo, J. McDiarmid, forwards.

REDS — Madore, Taylor, Wilson, Bontain, Broderick, Pope, Garrison.

BLUES—Lucas, D. Muir, Callahan, Coles, McAlpine, Clark, Alwyn.

Coles Spring Surprise

Peg White's ambitious basketballers were shoved into the cellar berth of the city league, intermediate section, when Coles' aggregation triumphed 17-12.

White's men were favorite, and at first ran up a substantial lead, but Coles' improved greatly towards the end of the first half, and with tempers getting ruffled on both sides, worked the breaks in their favor. They had a two point margin at the interval, and managed to increase it

WEATHER INVIGORATING ON HOPE SUMMIT

The weather on the Hope summit is grand, reports George Allison who returned this week from a prospecting trip to the Coquihalla. Out nearly two weeks, his party encountered very little bad weather, and were not delayed at all on this account.

There was no rain to speak of, and very little wind. There was no snow whatever, and only a very little snow is to be found on the higher points, though there have been slight general falls.

Game is not very plentiful, he reports. Deer were unusually scarce, but a few mountain goats were encountered. Several big hunters are already in that country on expeditions.

It is unlikely, however, that much prospecting be done in that section from now on, as winter is liable to strike at any time, and already the nights are cold. This country, not difficult to those who know it, is not very inviting in the winter months, when snows are generally heavy.

W. R. Foster Resigns As Lynden Mine Manager

SAM MOTTISHAW SUCCEEDS, CHANGE TAKING EFFECT WEDNESDAY MORNING

W. R. Foster, general manager of the Lynden Coal Mine, Nine Mile, has resigned, effective Wednesday Oct. 24. Sam Mottishaw, a coal mining man from the coast, has been named his successor and assumed duties Wednesday morning.

Mr. Foster has been in charge of operations at Nine Mile mine since it was opened last fall. No man could have been set a task more difficult under circumstances so trying and Mr. Foster has conscientiously devoted his whole-hearted attention to his task.

The Lynden Company has made a remarkable fight since taking over the local property, and has often been discouraged, but has never faltered. It is now hoping by a little reorganization to venture on to a more successful period.

Mr. Foster's plans are not known. He has considerable mine experience and his services will no doubt be in demand. While here he has taken an active interest in local affairs. He is president of the football club, vice-president of the local Liberal Association and a member of the choir of St. Paul's Church.

ARMISTICE DAY WILL BE OBSERVED IN PRINCETON

Plans for the observance of Armistice Day were introduced at an executive meeting of the Princeton Post Canadian Legion, B.E.S.L., in the Hotel Princeton Friday night. A general meeting will be held Friday when these will be discussed and put into action.

It is proposed to hold a special Armistice Day service the Sunday nearest to Armistice Day, and both local ministers will be asked to cooperate. Details will be announced later.

The annual Armistice Day smoker will again be held this year. It is planned to use the Princess Theatre if it is available, and a good program will be arranged, probably including boxing. With her usual generosity, Mrs. Garrison has set about making arrangements for the cancellation of the picture Monday night in order to accommodate the legion, though an anonuncement is not yet possible.

P. Schofield was named secretary pro-tem, F. J. Willway, former secretary, having removed to Copper Mountain. The legion plans to establish a thoroughly active branch here.

Mrs. E. Doerflinger, who recently underwent a serious operation, was able to leave the hospital Tuesday and is convalescing at home. She is making a very satisfactory recovery.

INCORPORATION OR BUST!

Princeton Star Launches Educational Campaign in Interests of Local Self Government

One of our regular advertiser, who has been more or less consistently using a portion of his space to knock village incorporation, this week takes a slam at the Princeton Star.

"What is the matter with the The Princeton Star?" he asks. "It is a well known fact that the newspapers elected the present mayor of Vancouver. The Star, after three years of propaganda, backed by the large taxpayers and some who do not pay taxes, has failed to make any impression on the majority of the voters." Immediately following this announcement, is one to the effect that the firm carries a select range of headstones, implying that the question of incorporation is now a dead issue.

After successfully fighting incorporation for a period of six years (not three) we can scracely blame our friend for doing a little boasting; in fact we would heartily congratulate him but for the very serious loss being suffered by the town.

We crave his pardon for not accepting his suggestion of the headstone, and hasten to assure him that so long as The Star remains under the present management we shall continue, year in and year out, to advocate self government for Princeton, in the hope that our efforts may sometime prove not quite as futile as he implies and that a majority of the ratepayers of our town may eventually be led to see the advantages of incorporation.

Some Figures

With this object in view we herewith present figures to show the amount of money which would annually be available to spend on improvements in our town under village incorporation. The figures for general taxes are from the assessment roll for Princeton, and those for trades licenses from the collector's records. The other figures are estimates, (but on a very conservative basis, and, we feel confident would likely exceed rather than fall short of those quoted.

General tax as per assessment roll 1923	$4306.20
General tax paid by corporations	530.00
Share of liquor profits	4500.00
Trades licenses (collected during 1928)	890.00
Share of motor licenses	1000.00
Pari-mutuel	250.00
Poll tax	500.00
Dog tax	250.00
Peddlars' licenses, travelling shows, etc.	200.00
Total	$12,426.20

Under the head of corporations is included the taxes paid by the railways, waterworks and electric light and power companies. This tax is collected by the province and turned over to the municipality. For the purpose of assessment in the case of railway companies, main and branch lines are valued at $10,000 per mile; side tracks, switches, etc., at $3,000. Each municipality is entitled to the taxes on the mileage contained within the area incorporated.

The substantial increase in the estimates for liquor profits and motor licenses over previous years' estimates is due the fact that these are distributed according to school attendance, and that within the past few years the enrollment in our public and high school has almost doubled. It now stands at slightly over 250 with every likelihood of further increase.

Costs Are Small

So much for revenue. How about costs of administration? In the annual financial report for 1927 of the village of Creston, which would appear to offer a fair basis for comparison, we find the salaries and office expenses given as $1,213. Accepting these figures for Princeton, we would have approximately $11,000 to spend on public improvements or utilities.

How much is being spent in town under present arrangement? Absolutely nothing that would not be spent under incorporation, excepting a few tit-bits such as a small section of board walk, built just prior to the election; a portion of the cost of one section of cement walk and the promise (as yet unfulfilled) of a portion of the cost of another.

Under village incorporation the government continues ot take care of schools and the administration of law and order. It also contributes towards the upkeep of the arterial highways, but absolutely recognizes no obligation in respect to sidewalks, side streets, fire service or other civic affairs.

What is the condition of our sidewalks in town today? They are an absolute disgrace, and what will they be like in a few more years to come? Delaying incorporation is letting slip over $10,000 a year that might be spent in improvements without an added cent of cost to anyone. It is also storing up a heap of trouble for the time we do undertake the management of our own affairs.

CONSERVATIVES WOULD KEEP ROADS OPEN THIS WINTER

The keeping of local roads open during the winter months and the adoption of the Allison Pass route for the Hope-Princeton road were recommended at a well attended special general meeting of the Princeton Conservative Association held in the Hotel Princeton Monday night.

A resolution was passed urging upon the minister of public works to make provisions for the care of local roads in the winter months, so that these could be kept open to traffic. It was urged that the snow plow be used when necessary.

The Conservative Association backed up the recent decision of Princeton board of trade in favor of the Allison Pass for the Hope-Princeton road, for the reasons that this route would be open longer and would serve more valuable territory. They propose that the road enter the Fraser Canyon at Houe.

A committee of six was appointed to press this view on the minister of public works when he visits Princeton. They were Geo. Allison, H. C. McGuffie, J. A. Brown, Ed. E. Burr, P. W. Gregory and H. H. Thomas.

EASTERN STAR DANCE

Undoubtedly one of the outstanding events of the social year, the fifth annual dance of the local lodge Order of the Eastern Star held in the Orrange Hall Friday night drew a record crowd representing not only Princeton but the entire district. The hall was artisticaly decorated for the occasion, and the function was bright throughout. Princeton Orchestra provided the music.

MASKED BALL AT HEDLEY

A grand masquerade ball has been announced for November 8th in Shatford Hall, Hedley, in aid of Hedley hospital. Five prizes will be awarded, namely, best dressed lady, best dressed gentleman, best comic lady, best comic gentleman, and most original costume.

HINTERLAND IS CRYING FOR THE HOPE-PRINCETON ROAD

A mining camp of considerable proportions is springing up at "23" Mountain, 23 miles from Hope on the proposed Hope-Princeton road, reports Geo. Allison, recently returned from a prospecting trip. George waxed enthusiastic over the Hope-Princeton road.

Tractors are running from the new camp to Hope, and considerable development work is being done under Mr. Johnson, he reports. This is only one of the many properties that would and should be served by the road, George says.

There are many promising prospects held back for wants of transportation facilities. There is a valley which would be served that would rival the Keremeos sector as a fruit growing center once the country were opened up. The timbered areas of the Skagit are far superior to any local areas, he says.

George is all in favor of the old Cleveland route, which, he thinks, would tap more valuable territory. Access would be given to Hope via Silver Creek. This road would have gy far the best grades, and a good part of it would be almost level. It would be open considerably longer than would either the other two proposed routes. George believes the building of the road would be an easy feat.

MRS. CAMPBELL HONORED

On the eve of her departure for Merritt, Mrs. Angus Campbell was pleasantly surprised Monday night by her many friends when she was inveigled into the home of Mrs. W. S. Garrison, where a score of guests were assembled. They were members of St. Paul's Ladies' Aid, of which Mrs. Campbell has been a most enthusiastic worker. Mrs. Gorsulowsky, on behalf of the Aid, presented the honored guest with a beautiful vase, expressing appreciation of her efforts, and regret at her departure. Mrs. Campbell replied appropriately. Tea was served and a pleasant social evening enjoyed.

LARGE NIGGERHEAD FOUND IN NEW MINE

A large "nigger-head" was recently unearthed by workmen in driving the tunnel of the new Pleasant Valley Coal mine, on the Tulamen about a mile up from Princeton.

The strange formation was encountered in the rock face, at a depth of some 400 feet, and was removed intact. It was unusually large, and quite curious.

Jack McAlpine, superintendent in the tunnel explains that it is not uncommon to run against such curiosities, but this one was unusually large. While the origin of a "nigger head" is not well understood, it is known that it is formed as a result of vegetable matter being enveloped by some eruption of the earth's surface, and greatly compressed. A nigger head may be many millions of years old.

Power Dispute Likely To Go to Privy Council

PRESENT APPEAL HEARING BEING CAREFULLY WATCHED BY PROVINCIAL GOVERNMENT

That the Granby-West Kootenay power dispute will be carried to the highest possible court, the Imperial Privy council, irrespective of the findings of the present court of appeal, now appears highly probable. The provincial government is represented at the hearing, and is watching every dvelopment closely. The cabinetn will take on action on the Grand Forks petition for intervention pending the outcome of the appeal. Hon. R. L. Maitland represents the government.

That the Granby company is in the wrong is the argument advanced by A. H. McNeill, K.C., defending the West Kootenay Company in opposing the appeal from the judgment of Mr. Justice Murphy refusing the aplication of the Granby Company for a mandamus to compel the West Kootenay to supply power to Copper Mountain and Allenby. The proper course, Mr. McNeill holds, would have been to have accepted the jurisdiction of the water board, and from its decision appealed to the minister of lands.

When the West Kootenay Power and Light Company acquired the franchise of the Okanagan Power Co. it became bound to supply electricity within its predecessor's area, is the argument of E. C. Meyers, K.C., who, with C. H. Locke, is representing the Granby company.

It was incumbent on the Okanagan company to supply the Granby company, and in absorbing this company the West Kootenay automatically assumed its obligations, he holds. Since 1919 the West Kootenay company has supplied power to places outside its own immediate area such as Penticton, Kelowna, and Summerland.

History of the Case

The Granby Company's contract for power, originally made with the Okanagan Power Company, expired Aug. 31. No doubt scenting the Granby people's intention to ship concentrates to Tacoma, the West Kootenay Company, which had absorbed the Okanagan Power Company after the said contract was made, and which is a subsidiary of the Consolidated Mining and Smelting Company, deferred in the matter of rates.

The first step had been made by the Granby people and the City of Grand Forks, who sought, last summer to have the Granby Company file a rates schedule with the water board. At first refusing, the West Kootenay people at last filed a schedule, but later withdrew it. The rates were increased, and the Granby Company and City of Grand Forks immediately filed protests. There was a session of the board in Ross-

(Continued on page eight).

WEDNESDAY NEXT IS HALLOWE'EN

Wednesday next is hallowe'en. This colorful day has come down to us from a superstitious age, our venerable forefathers to whom spirits and witches and pickaninnies were more than myths and rag dolls.

Hallowe'en has lost a good of its novelty, as have so many ancient festivals now observed in name only. While not suggesting a revival of witchcraft, some of the good old customs like apple-bobbing and masking are too picturesque and too genuinely pleasurable to lose, even by our sophisticated civilization.

Of course, the element of mischief survives. Thank goodness. Unfortunately, however, this has been distorted too, and has come to mean for many an opportunity for open destruction. Genuine mischief we should never want to lose, but it is sheer evidence of a civilization fundamentally more barbarous than that superstitious life of our forefathers when we resort to wanton destruction.

Found Dead in Jura School House; Verdict Of Death by Exposure

NICK CEREVOLA, ITALIAN SECTION WORKER EKES OUT MISERABLE END WITH CHECKS IN POCKET; WAS IN PRINCETON FRIDAY

The funeral of the late Nick Cerevola was held Monday afternoon without ceremony. Wm. Hazzard had charge of arrangements.

Evidently having lain there for some time, wet, cold, and want-food, the body of Nick Cerevola, Italian, about 40, was found stiff and stark in Jura school house about 10:30 Friday night. A coroner's jury Monday atfernoon decided that death was due to exposure.

Details are lacking concerning the man's demise. It is evident that he had not eaten for at least a day; his clothes were wet to the waist; and when found his socks were frozen to his boots.

William Lucas, Jura school teacher, first noticed the man's prostrate form while coming to Princeton Saturday night about 7:30, when he went to close the school door, which he had been told was open. He decided the man was sleeping off a jag, and did not investigate. Returning about 10:30 he found the man still there, and summoned S. R. Gibson, with whom he was riding. Mr. Gibson quickly ascertained that the man was dead and notified Princeton police by telephone from Jura station.

Constable Wm. J. Thomson of the local detachment provincial police and Wm. Hazzard, local undertaker, proceeded to the the spot, and, after investigating, removed the body to the local morgue, where an autopsy was conducted by Dr. Lee Smith.

Two Kettle Valley cheques were found on the dead man's person. He had been in Princeton Friday, without funds, and had said he was quitting the section, and would go to Penticton to get his wages, and then go on to Vancouver. He had evidently gone to Penticton and obtained his cheques, though just what were his movements is uncertain.

While a Jura boy is said to have heard a noise in the school about 2 o'clock Saturday afternoon, evidence presented concerning the state of the man's body makes it highly improbable that he had been alive at that time.

Deceased was aged about forty, had lived intermittently in these parts some time. He was about 4 feet 6 inches tall, and sparsely built. So far as is known he has no relatives near.

Inquest Held

A coroner's jury empannelled under Dr. Daniel McCaffrey at an inquest held in the local police office Monday afternoon returned the following verdict:

"We the jury decided that his death was caused by exposure at Jura school between the 19th and 20th of October 1928."

The jury was Edward Brown, foreman; Frank Anderson, John Winters, Robert Campbell, Thos. A. Booth and Alex Hill. Five witnesses testified.

That death was caused by exposure was the theory submitted by Dr. Lee Smith, who conducted the post mortem. Dr. Smith otld of examining the body and finding it very cold, life evidently having been extinct some time. There were no marks on the body to suggest violence. There was a mark on the nose, evidently caused by a fall and a few scratches on the legs which probably suggested that the man had been travelling through brush. There was no food in the stomach, though there was water. Death had not been caused by starvation.

Startled at finding a man's body huddled in the doorway when he went to close the door, William Earle Lucas related how he had found the corpse. Driving to Princeton with S. R. Gibson Saturday night he stopped at the school to close the door, which, he had been informed by Gordon Gibson, was open. By the beam of a flashlight he saw the body on the porch and drew back startled. Mr. Gibson thought it was likely a drunk, and they came on.

Returning about 10:30 they decided to investigate. Both went in, and found the body still there. Mr. Gibson decided the man was dead. They proceeded to Jura station and phoned Princeton depot, asking Miss Wanless, then on duty, to notify the police that there was a dead man in Jura school house.

No Violence

The room was not much upset. There was a pail and a basin in the middle of the floor, and water had been spilt on the floor, the man having apparently tried to take a drink. There was a stick of cordwood on the floor, but the sweepings

MINING NOTES

Granby's Big Dividend

A quarterly dividend of $449,998 will be distributed Nov. 1 by the Granby Consolidated Mining, Smelting and Power C mpany to stockholders on record Oct. 13, says an eastern report. This will, it is said, be at the rate of $1 per share, and will increase the grand total of dividends paid to $11,672,916.

Granby reported deficits each of last eight years, after deductions had been made for depletion and depreciation. This item has totalled to $1,800,000 each year for the last eight years. In 1927 the net income before these deductions was $1,429,000.

The profit and loss item on the balance sheet is given as $4,017,702. In the first half of the year the net earnings were $1,301,200 before depletion and depreciation reductions. This is comparable with $907,500 for the same period of the preceding year.

* * * *

Copper stocks are soaring with rumors of a big U. S. merger. There is a possible effect on the industry.

* * * *

Nickle at Olalla?

Nickle has been discovered at Olalla, is the report. A sample carrying 6 per cent of the metal has been analysed by the department of mines, Victoria. If found in quantity, this could be profitably worked, say the department officials.

Olalla thus may return to prominence in the mining world. Olalla was the center of considerable excitement a number of years ago, when full page advertisements were displayed in New York papers relating the riches of this camp. The values at that time were not nickel, however.

* * * *

Work at Red Buck

Fred Foster evidently contemplates doing further work at the Red Buck, Kennedy Mountain, one of the most promising properties in the district. It is reported that he has a man at work.

* * * *

Another 35 claims were staked on the Coquihalla range by Geo. Allison and Bill Daly, local prospectors, a sequel to the recent discovery of rich gold bearing ore in that section. They recently staked 36 claims, and, after a few days in town, returned once more. They came into town Sunday again. Podunk Davis accompanide them as guide.

The showings are promising, they report. The gold is found in layers of slate and greenstone, and in the same area the Tribes' interests have ore which recently assayed at $35,000 a ton. The local men's claims are not bunched, but are scattered over an area some fifteen miles square.

They intend to do some work on the property, though it is not likely they will return this season. They report that the Coquihalla discoveries have aroused a good deal of interest, and there has been quite a revival of prospecting in that area.

* * * *

STOP RAIL WORK

The Lynder Coal Company's railway project, to construct a line from Princeton to the mine, ten miles distant, has been abandoned for the year, it is authoritively announced from the local office. Work was suspended a fortnight ago, and it has been definitely decided to call a halt for the year.

The survey has been completed, and considerable grading done. The project has been shown to be quite feasible, and a good start has been made. By spring it is hoped that arrangements will be completed to finance the whole job.

* * * *

A thorough geographical survey of the "Lucky Todd" claims at Iron Mountain, Nicola Valley, is planned by the Vergelius interests, present owners. L. H. Moehring of Seattle states that surveyors will shortly be in from Anyox, and will endeavor to determine the location of the main lead and its direction and extent from the present workings.

In the meantime the working crew at the prospects has been reduced, but after the survey development will be vigorously carried out. An eight hundred foot tunnel, to be driven by contract, is planned among the winter work.

* * * *

Boundary mining is on the eve of developments of a magnitude that promises to outrival even the palmy days when the Granby Company and the B.C. Copper Co. were at the height of their activities, says a boundary dispatch. Grand Forks, Greenwood, and deserted Phoenix are swinging back into the picture in a way that will be little short of sensational. A score of engineers representing at least four big companies are scouring the hills, and significant announcements are expected.

* * * *

Progress at Wilson

Good progress is reported at the Wilson mine. The tunnel work is progressing favorably, and surface work is also going ahead. The tunnel is now in about 450 feet, and while certain small seams have been encountered, the main seam has not yet been tapped. Grading is in progress on the railway and the timble is nearing completion. W. R. Wilson, president of the Pleasant Valley and Fernie interests, and son R. W. are in Princeton.

* * * *

Henry Browning Resigns

Secretary of the British Columbia Chamber of Mines since 1922 and chiefly responsible for the success of that organization in late years, Henry Browning has resigned to enter the service of Leonard, Poisson and Wagstaffe, Ltd. H. N. Freeman, assistant secretary, has been appointed secretary pro-tem. Mr. Browning has had a wide experience in various branches of the mining industry in many parts of the world. He was at one time manager of the B.C. Copper Company at Greenwood.

* * * *

Trail Shipments

Once again Allenby was not represented among the shippers to trail smelter for the week ending Oct. 14. Total recsipts were 13,083 tons of which company mines sent 10,665 tons.

* * * *

Winter Work Planned

A vigorous winter campaign is planed for Aberdeen mine, where approximately 30 men will be employed. A new camp will be opened at Ten Mile, where prospects are encouraging. In the tunnel the recently struck twelve foot lead will be followed. The main shaft will be sunk to 300 feet and ore shoots and drifts will be opened east and west. Nice showings, containing iron, have been noted in No. 2 shaft. J. D. Galloway, provincial mineralogist, recently examined the property and his report has been presented to the minister of mines, as will also the report of H. G. Nicholls, resident government mining engineer.

* * * *

Change at Lynden

Sam Mottishaw, new manager of the Lynden Mine, assumed duties Wednesday morning. The mine is running at capcity, and is at a critical stage. In spite of various handicaps, the company has made a splendid beginning, and is now at the point where it has become no longer a venture but an established mine.

M. C. Duval, president, Bellingham, and Jas. Dyke, Lynden director, were visitors this week. Mr. Dyke, it is understood, will return shortly to take charge of construction work.

* * * *

Bunkers Nearly Ready

The switch has been completed for the new bunkers on the K.V. side-tracks above Princeton, but a few alterations will have to be made to the bunkers before they can be put into service. When this is possible a considerable saving will be possible, in that over a mile of difficult road will be cut off in the trucking of coal for shipment. A road has ben built from the Nine Mile road to the bunkers.

* * * *

Two Mines Resume

Operations are being continued at the Providence mine, near Greenwood. E. C. Allen, Wallace, Idaho, and Fred W. Callaway, consulting engineer, Kellogg, Idaho, owners in the lease, are at the property.

R. Lee of Greenwood is developing the Defiance, and recently encountered a new lead which looks very promising.

* * * *

Mining Conference

The annual general western meeting of the Canadian Institute of Mining and Metallurgy will be held in Vancouver Nov. 21-23. The sessions of this institution annually arouse considerable interest, and the papers this year promise well. J. D. Galloway, provincial mineralogist, will review mining developments in the province. The coal situation, pulverized fuel, copper production, Turner Valley oil fields and placer mining are among the subjects listed. Representatives of the chief mining companies, as the Consolidated, Britannia, Premier, and Granby will give addresses.

* * * *

Big Boundary Deal

A mining deal of great importance was consummated Saturday when R. Crowe Swords and associates of Vancouver acquired 15 crown granted claims between Phoenix and Greenwood, on the side of the old tramway tunnel, and practically including all the mining property between the Crescent mine and Phoenix, a distance of three miles from the Tidewater company and the R. R. Hedley interests also recently entered this field. Plans for development will be anounced shortly. Development work started immediately at the Crescent, with J. H. DuHamel in charge. There are several good showings of high grade ore.

An immense new power plant is to be built at Elk River Falls, East Kootenay, by the East Kootenay Power and Light Company, preliminary arrangements having been made, and the approval of F. L. Burden, minister of lands obtained.

Phillip B. Freeland, district mining engineer, is inspecting local properties, with headquarters temporarily in Princeton.

FOUND DEAD IN JURA SCHOOL HOUSE; VERDICT OF DEATH BY EXPOSURE

(Continued from page one.)

of Friday night were undisturbed in the stove. There were plenty of matches in the cupboard, but none were found on the man's person. A girl's sweater, left there Friday night had been rolled up on the floor.

There is a small porch about 7 feet wide in front of the classroom. The body was found near the door, lying across the entrance. There are about six steps from the porch to the ground, a short step between the porch and the classroom.

Samuel Robert Gibson, Jura rancher, corroborated Lucas' evidence. After leaving the man he said he felt a little uneasy, as there were about 15 degrees of frost that night. Hasty examination revealed that life had departed, and he did not disturb the body. It lay prone, the face on the floor, arms folded under, as if the man had fallen off a school seat. The hat was clutched in one hand. The head was against the door, which was ajar. He flashed the light on the man's face but could not recognize him. The body was five feet from the door. The only blood discernable was a ltitle on the floor below the nose. The front of the room appeared to have been undisturbed. Hhe phoned Princeton police about 11:30. Mr. Gibson said he had been to Princeton Friday night, returning about 3:15 a.m. Saturday when there was about 15 degrees of frost also. He did not observe whether the door was open. The body would have been visible from one road. It would likely have been in the shade all day.

Constable Thomson found the body as described. He did not believe the man had moved since falling. There were no signs of violence or of a struggle. The clothes were wet to the waist. There was frost in the boots, and one sock had to be taken off with the boot.

On the person were found two pay checks, from the Kettle Valley Railway Company, in favor of N. Cerevola. Both were dated Oct. 19, the amount $19.20 and $3.80, totalling $23.00. They were issued from Penticton. There were no other marks of identification. A man who did not give evidence found the letters "nick" punched in the sweat band of the hat.

In Princeton Friday

Complications as to how the man got to Penticton and returned were presented through the evidence of Phillips Cuicitti, better known as C. Phillip, proprietor of the L.D. Cafe here. Witness had known deceased some eight years. He last saw him in the L.D. cafe Friday forenooon about 10 o'clock. He seemed a bit childish.

He said he was quitting the section and going to Vancouver. He was going to Penticton by freight, as he had no cash. (The only freight to Penticton Saturday left early in the morning). Cerevola had been at Phil's Thursday night and wanted to stay all night, but Phil told him to go and sit the Princeton Hotel lobby. He left about 2 a.m. He was at the door at 9 o'clock when the cafe opened. He had a meal Friday morning. Witness did not know of any relatives.

In instructing the jury Dr. McCaffrey explained that it was easy to conceive what would happen to a man without food, wet, and without a fire on such a night.

It is puzzling how the man could have got so wet. The only water that deep near Jura is Separation Lake.

What is the matter with the Princeton Star? It is a well known fact that the newspapers elected the present mayor of Vancouver. The Star, after three year of propaganda, backed by the large taxpayers, and some who do not pay taxes, has failed to make any impression on the majority of the voters.

WATER NOTICE

Use and Storage

TAKE NOTICE that VANCOUVER POWER COMPANY, LIMITED, whose address is 425 Carrall Street, Vancouver, B.C., will apply for a licence to take and use 930 C.F.S., and to store 196,500 acre-feet of water out of Coquitlam Lake, also known as Coquitlam River, which flows Southerly and drains into Fraser River, about five miles East of New Westminster, B.C.

The storage-dam will be located at outlet of Coquitlam Lake.

The capacity of the reservoir to be created is about 196,500 acre-feet, and it will flood about 722.85 acres of land. The water will be diverted from the stream at a point about 800 ft. Northeasterly from the S.W. corner of Lot 11, Section 7, Township 5, Range 6, West of the 7th Meridian, and will be used for power purposes at Power Houses located in Section 10, Township 5, Range 7, West of the 7th Meridian.

This notice was posted on the ground on the 10th day of October, 1928.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at New Westminster, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The territory within which its powers in respect of the undertaking are to be exercised is within a radius of 100 miles of the aforesaid power-houses.

A petition for approval of the undertaking will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller, any interested person may file an objection thereto in the office of the Comptroller or of the said Water Recorder.

VANCOUVER POWER COMPANY, LIMITED.
(SEAL).

George Kidd, E. H. Adams, Directors.
J. V. Armstrong, Secretary.

The date of the first publication of this notice is 23rd October, 1928.

WATER NOTICE

Use and Storage

TAKE NOTICE that VANCOUVER POWER COMPANY, LIMITED, whose address is 425 Carrall Street, Vancouver, B.C., will apply for a licence to take and use 360 C.F.S., and to store 10 600 acre-feet of water out of Buntzen Lake also known as Trout Lake which flows Northwesterly and drains into North Arm of Burrard Inlet about twelve miles Northeast of Vancouver, B.C.

The storage-dam will be located at the outlet of Lake Buntzen in the S.E. ¼ Section 10 Township 5, Range 7, West 7th Meridian.

The capacity of the reservoir to be created is about 10,600 acre feet, and it will flood about 152.2 acres of land. The water will be diverted from the stream at points about 1800 ft. and 2300 ft. respectively, from the N.E. corner Section 3 Township 5, Range 7, West 7th Meridian, and will be used for power purposes at Power Houses located in Section 10, Township 5, Range 7, West 7th Meridian.

This notice was posted on the ground on the 10th day of October, 1928.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Vancouver, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The territory within which its powers in respect of the undertaking are to be exercised is within a radius of 100 miles of the aforesaid power-houses.

A petition for approval of the undertaking will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller, any interseted person may file an objection thereto in the office of the Comptroller or of the said Water Recorder.

PENTICTON'S POPULATION GREATER THAN IN 1921?

Is Penticton's population greater now than it was in the boom year of 1921. Municipal Clerk Bracewell believes it is. In conjunction with the government's suggested taking of the census in connection with revision in distribution of liquor, parimutuel and other taxes, a number of towns are considering this task, with Wrigley's directories having made a flat rate offer of ten cents per name. If the population is not greater than in 1921, and other towns have increased, Penticton will suffer proportionately. On the other hand, if it is greater, they stand due for an increase.

In 1921 the figure was 4,000. School population was then 732. It is now 837. Light connections are 1449 compared with 956.

PARLIAMENTARY JOTTINGS

Judge Grant Retired

Judge David Grant, for many years president of Vancouver county court circuit, has bene retired. He celebrated his 75th birthday Oct. 12, and shortly afterwards received notice of superannuation. Outspoken in his views Judge Grant has taken a pride in his work, and leaves the bench with reluctance. J. N. Ellis, K.C., has been named his successor.

* * * *

What's This?

First, let it be understood, that this is from a Liberal paper. Only his own reluctance to enter federal politics can keep W. J. Bowser from securing the Conservative nomination in the Victoria by-election, but it is not unlikely that the once great figure has his eye on a return to provincial politics. There is a rumor that R. H. Pooley will go to London to represent the province as agent general, in which case Mr. Bowser, it is held, would jump at the Esquimalt seat, and his inclusion in Dr. Tolmie's cabinet, the hypothesis is, would naturally follow.

* * * *

Nominate Oct. 30

Liberals of Victoria will nominate Oct. 30, it was announced following a meeting of the executive of Victoria Liberal Association.

* * * *

Hart Possible?

John Hart, former minister of finance, is likely to be a strong contender for the Victoria Liberal nomination, it is reported. Dr. J. D. McLean, ex-premier, with whom Mr. Hart is said to have formed a partnership in a financial firm, is another likely candidate.

* * * *

Surplus or Quit

British Columbia's "reformed" government evidently means to try to bear out its election promises. We have the "survey" system now in vogue and have noted a real reorganization in the department of mines. Now Hon. W. C. Shelly comes out and says that unless he province can show a balance on the right side of the ledger next year he will resign. He is pondering over his first budget already, and promises to show a surplus when he presents his second.

* * * *

Favors Game Separation

Hon. R. H. Pooley, Doc. Tolmie's bad boy, agrees with most hunters that the game board and the police should be separate bodies. He recently stated at a complimentary dinner that he would recommend the carrying out of game laws by individuals not members of the provincial police, and would also encourage the raising of game birds by the establishment of suitable game farms.

* * * *

A Surprise Visit

Hon. W. A. McKenzie paid a visit to Keremoes Saturday last, just when we all thought the cabinet was wrapped up in official matters. It was confidently expected that Mr. McKenzie would have Hon. Nels Lougheed in tow when he next came to these parts.

MAN KILLED WHEN RUN-AWAY HORSE CRASHES INTO CAR

A terrible tragedy occurred on the Vernon-Enderby road about one mile out of Vernon when a runaway racing horse plunged madly into an automobile causing the death of Peter Binder, pioneer resident, and serious injury to three boys. The horse, terribly lacerated, also died. The car was badly wrecked.

The animal had been ridden by F. H. Watson, but, frightened, threw its mount and careered off in a mad gallop. It ran blindly into the machine at a sharp curve, and the impact was tremendous. Both horse and auto turned over in a heap.

The impact threw the horse bodily into the auto, immediately killing the aged driver. Floyd Gillett, 11, was seriously injured, and unconscious for some time. Two brothers, Milton and Clare, were also taken to hospital. Two other men in the car were slightly injured.

The impact snapped off both the horse's front legs, and inflicted a terrible gash in the breast.

WITHDRAWS PROCEEDINGS

Proceedings against Norman J. DeGraves of the customs preventative force, started over a year ago by the late Dominic Marino of Princeton were withdrawn proir to the latter's sudden demise, according to a statement from a Vancouver court.

On July 5, 1927, Marino issued a writ out of supreme court against De Graves for having caused Marino's arrest on Oct. 13, 1926, on charges of breach of the Narcotic Drug Act. The department of justice at Ottawa signified intentions of defending the case, and named J. N. Ellis, K.C., recently elevated to the bench, its attorney. The case never came to trial and on Oct. 5 Marino filed notice in the supreme court, Vancouver, that he wholly discontinued the action, and so instructed his solicitor, H. S. Wood, K.C. He died Oct. 9.

PENTICTON LEGION ELECTS

W. G. Wilkins was named president of Penticton branch Canadian Legion at the annual election. Other officers: first vice, M. Pott; second vice, J. Robertson; executive, F. Trehearn, E. A. Fitchmarsh, F. Tily; auditor, M. Moody; treasurer, A. Gilley; secretary, H. Venus. The new legion hall will be opened with a special function Nov. 12.

LAND REGISTRY ACT
(Section 160)

In the Matter of Lot 2261 "S" Similkamen Division Yale District.

PROOF having been filed in my office of the loss of Certifice of Title No. 38112F to the above-mentioned lands in the name of Hugh Gillespie and bearing date the 14th. July 1924 I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication thereof to issue to the said Hugh Gillespie a provisional certificate of title in lieu of such lost certificate. Any person having any information with reference to such lost certificate of title is requested to communicate with the undersigned.

DATED at the Land Registry Office, Kamloops, B.C., this 19th day of October, 1928.

E. S. STOKES,
Registrar.

Date of first publication October 25th, 1928. 50-5

Synopsis of Land Act Amendments

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subject over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i. e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a compnay.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

PRINCETON DRUG & BOOK STORE

DAM CONTRACT AWARDED

The Nakusp firm of L. H. Rawlings and Perry Leake has been awarded the contract for the construction of the new Dominion Government control dam at Penticton. The dam will comprise a main wing 111 feet in length with an upstream slope of 2 to 1, and a downstream slope of 3 to 1.

It is supported on a pile bent foundation with a course of triple Wakefield piling along the upstream face and a coat of double Wakefield piling along the second bent, with a clap puddle filler key between these courses.

In addition to this work $18,000 will be spent on dredging the river.

FINED FOR JIGGING

For "jigging" salmon, which under the game laws constitutes an offense but is mighty good sport, a Penticton lad was haled before the magistrate and given what for. The fine was $2.50. The boy didn't savvy that part of the law, he said.

M. W. JACKSON

I will service any make of set, repair any make of set, either in A.C. or D.C. Bring in your old tubes and have them re-activated, or if gone too far, let us supply you with new ones.

Have your batteries tested. If you need new ones, we have them in stock. Tubes in stock for A.C. and D.C. sets.

ALL WORK GUARANTEED

What I mean by "guaranteed" is that I make the set work, or there is no charge. The minimum charge for a call is $1.00 per hour.

Get the best out of your radio. Radio time is coming on. It is in the air. Get it and get it good.

DAD QUICK'S CAKE HAS 108 CANDLES

"Dad" Quick, Vancouver's most colorful veteran, is 108 years young. The familiar old harness-maker celebrated his birthday with due ceremony October 22, at a party arranged by the Devon and Cornwall association.

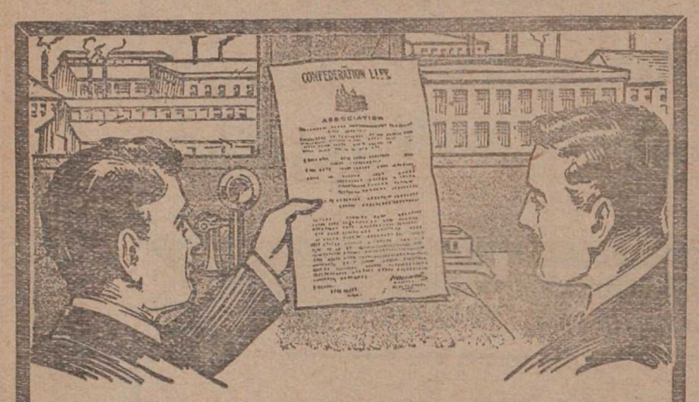
Four other centenarians were guests, namely Mrs. Carnatia Kafouray, 110, a Syrian; J. McIntosh, 109, Kamloops; Solomon Mutch, 101, Burnaby, and Wm. Higgins, 101, Marpole. Archie Aberdeen, our own evergreen, will soon be able to qualify. There actually was a birthday cake with 108 candles.

RADIO TIPS

If your's is a battery set, have your batteries tested frequently. Keep your A battery up always. A B battery below 35-37 will gave a snap and crackle just as bad as static.

A loose high tension cord on a wet night will cause noise like static in a receiver.

If you have a regenerative set keep it tuned down where it doesn't whistle. It doesn't help you any, and it causes interference in any other set within a radius of from one to three miles.



"Here is our Partnership Policy"

"NOW we have some real protection against the loss the business would suffer if either of us died," said Brown. "This is a good investment. Your capital and my experience are responsible for our success. If either of us die the other will have $10,000 with which to carry on the business. I will need the money to finance. You will need the money to get an experienced man to take my place. It protects both our interests. Our heirs may not want to remain in the business; then the surviving partners can buy their share. It is the best protection against the unknown factor that we can have."

If you and your Business Associates are not protected by a Partnership Policy see an agent of the—

C.P.R. President Visits Wheat Champion.

Herman Trelle is one of the men of foreign birth who is doing things for Canada. Born in Germany, he is now the owner of a fine farm in the Peace River country near the town of Spirit River. At the Chicago Live Stock Exhibition of 1926 he won the prize for the world's best wheat, and he is working on the development of a new early-ripening wheat which, he says, will revolutionize farming throughout northern Canada. When E. W. Beatty, and his party of Canadian Pacific directors were in the Peace River country recently they visited Mr. Trelle's farm where the important work of threshing was interrupted long enough to have the above photograph taken. Mr. and Mrs. Trelle are in the center, on the right is Mr. Beatty, and on the left is Sir Herbert Holt.

Teachers in Convention At Penticton Last Week

155 MEMBERS OF TEACHING PROFESSION ATTEND TENTH ANNUAL GATHERING OF OKANAGAN ASSOCIATION

Problems of teachers and teaching were frankly aired at the tenth annual convention of the Okanagan valley school teachers association which met last week in Penticton. Addresses and group discussions served to give those teachers attending valuable information.

The work of an association aiming primarily to help the teachers with any problems that may occur was outlined by H. Charlesworth of the B.C. Teachers' Association.

A superannuation bill to be introduced at the next session of the legislature, whereby teachers will be assessed from 4 to 8 per cent of their wages according to age, was discussed. Should a teacher withdraw from school work all payments save the first three will be returnable.

There should be as few interruptions in the spring term from Easter to June as possible, was Mr. Charlesworth's opinion The J. A. Ferguson memorial fund, providing $3000 for a scholarship was outlined. The association voted $100.

Many Addresses

"Some thoughts on the Teaching of History," delivered by Prof. W. N. Bage of the University of British Columbia, was the feature address. Other addresses included "Individual Methods of Teaching Beginners," by Miss Fisher of Vancouver Normal; "Primary Grade Seat Work," by Miss Gertrude Smith, Vernon; "New Geography," by A. R. Lord of Vancouver Normal; "Teaching Literature," by Inspector P. H. Sheffield, Nelson; "Educational Psychology," by C. E. Wood of Victoria Normal; "Essentials of a Teaching Process," by Inspector T. R. Hall of Kelowna.

Inspector J. B. DeLong presided over a round table group of high school teachers. Primary, intermediate, senior, junior, and high school group discussions were held. Mrs. Wilcox of Vernon and Miss Page of Penticton gave a demonstration of primary teaching.

Officers elected for the year are: President, A. S. Towell; first vice-president, C. G. Fredrickson; second vice president, Miss M. W. Wood; corresponding secretary, Miss Nettie Swanson; recording secretary, Miss M. F. Chapin; treasurer, M. T. Marriage.

Next year's convention will be held in Kelowna. The attendance was 155 a record. Princeton was unrepresented.

PENTICTON "UP IN THE AIR" WHEN YUKON PLANE VISITS

A good proportion of Penticton's population was "up in the air" last week-end, literally, too. Some seventy-five citizens took advantage of the visit of the "Northern Light" biplane of the Yukon Airways and Exploration Co. to see Penticton from "on top."

When the big bird moved on to Kelowna on the next loop of its itinerary, Miss Morrison, a Kelowna teacher, was aboard, but her bliss did not last long, as the whole trip was made in 25 minutes.

The "Northern Light" is an Alexwith a Eagerlock biplane, equipped with a Wright Whirlwind 220 horsepower motor and standard steel propeller. It has a cruising power of 100 m.p.h., and is so equipped as to be able to land at 35 m.p.h. Its carrying capacity of gas is 53 gallons, giving it a cruising radius of 550 miles. It is piloted by J. M. Patterson, one of the youngest air mail carriers in the U.S. service, but with already 1000 hours flying experience. The plane is bound for the northern country where it covers the air mail routes in northern British Columbia and the Yukon. It flies over territory where no white man has set foot, and makes a trip in four hours that takes the dog-sleigh 14 days. Besides providing means of communication, it does considerable exploration work. It is equipped with wheels in summer and skis in winter.

It has flown from Cheyenne, Wyoming, to Pueblo, Colorado, and is touring the Okanagan. It will touch at Vernon, Kamloops, Williams Lake, Quesnel, Prince George, Hazelton, Smithers, Telegraph Creek, Atlin and White Horse. Reaching there about Nov. 1, it will enter the Yukon via Mayo, Keno, Wernicke and Dawson.

The "Northern Light" will for the time being take the place of the "Queen of the Yukon" plane which smashed a wing tip last season. It is expected to the Queen ready for duty by January.

AIR FIELD FOR KELOWNA

Kelowna city council is considering the advisability of setting aside some area for he purposes of an aviation field. A plane which recently visited could not find a suitable landing place closer than Rutland.

FINISH KAMLOOPS-MERRITT LINE

Stringing of wire was completed last week on the new long distance telephone line between Merritt and Kamloops, under the B.C. Telephone Co. Tests were made and perfect telephonic connections observed as the last length was spliced.

CREAM AND BLACK IS 1929 LICENCE COLOR

Black and cream is the color scheme for the B.C. 1929 licences now being distributed to local police offices from Victoria. The design is unchanged, the figures going black on a cream background, giving an attractive appearance.

Two men were injured and their car badly damaged in a spill near Dog's Leg, Colletville Bridge, Merritt. W. Paterson, the driver, and W. Morrison, accompanying him, were pinned under the car, a sedan. Morrison was found unconscious.

ABERDEEN MINES 1928 LIMITED, N.P.L.

Notice is hereby given that the Resident Engineer, No. 3, Central Mineral Survey District, British Columbia, upon receiving notice of an advertised and solicited sale of shares in a certain Company, viz., the Aberdeen Mines 1928 Limited (N.P.L.), upon statements or terms not in accordance with the actual facts and conditions has notified the undersigned, the Minister of Mines, who upon investigation and in pursuance of Section 16 "Mineral Survey and Development Act," Chapter 160, R.S., B.C., 1924, finds it necessary to prevent injury to investors to give the following notice:

That the said Resident Engineer, under date of 15th October, 1928, has submitted to the Minister of Mines a detailed report and comment on statements contained in advertisements appearing in certain publications circulated in the Province of British Columbia, and composed in terms which solicit the sale of shares in the said Aberdeen Mines 1928 Limited (N.P.L.).

That leading paragraphs of said advertisements read:—

"Over 30,000 tons of ore have been uncovered on the 250-foot level. Conservative estimates place it at $10 per ton. . . . further development work is proving daily the existence of the main ore body over a greater area."

"A new ore body of considerable worth is expected to be uncovered shortly below the depth of 265 feet in the main shaft. This will prove conclusively tonnage values so far estimated betwen 200 and 250-foot levels."

The said Resident Engineer's comment on the foregoing follows:

"The mine has not been developed to a depth of 250 feet. No commercial ore has been developed as a result of the present operations.

"In amplification of the above summarized statement I beg to report in detail as follows:

"The lowest level in the mine is at a depth of 200 feet below the collar of the shaft at surface; it was driven sevreal years ago by the first operators. Some further work was carried out on this level in a second unsuccessful attempt to locate ore bodies at this depth, by Merritt Mines, Ltd., who abandoned the property.

"No work has been done on this level by the present operators who did about 100 feet of work on an upper 150 foot level, under the impression that they were working on the lowest level of the mine. This 150 foot level was named by the present operators as the 200 foot level and has been so described by them even after their discovery of the real 200 foot level which has been described by them as the 250 foot level.

"The lowest point to which commercial ore was found to extend by previous operators is in a small stope that was worked to within a few feet of the 150 foot level; below this point the material that has been described as ore is of the character of a basaltic dyke matter in which small amount of native copper and associated copper minerals are found to occur sporadically. This material cannot be considered as a source of commercial ore and it is therefore apparent that there is no appreciable developed tonnage of ore in the mine.

"The extension of the tunnel on the 150 foot level carried out by the present operators failed to show any alteration in the conditions affecting ore deposition, while the two compartment shaft that is being sunk below the 200 foot level is going down in straight fractured granite that presents no encouragement for expectation of betterment.

"In regard to further activities, a tunnel has been commenced at a distance of approximately 1¼ miles from the mine workings in a crushed area that is assumed to be in continuation of the mineralized zone but this failed to disclose any ore.

"A double compartment shaft is being sunk at a point about 1400 feet distant from the workings and several hundred feet from the line of possible continuation of the zone towards the southeast.

"The sinking of this shaft is understood to have been conceived in connection with the delivery of ore to a mill site and to have been sited as a result of dip needle observations that would be entirely unreliable under the condition.

"These latter mentioned (tunnel and new shaft) activties represent expenditures that are unwarranted in the name of mining."

W. A. McKENZIE,
Minister of Mines.

50-1

LADS STEAL TIRES

Caught in the act of stealing tires from an Oroville garage, three boys were given five-day sentences. They visited the garage early in the afternoon and enquired about the price of tires, but did not buy. That night an employee caught them removing the tires.

TWO ACCIDENTS IN ONE

Mildred Robinson and James Wells of Pateros, Wash., escaped death by a fraction when their roodster nosedived off the approach to a wooden bridge east of Pateros and plunged down the bank, wrecking a part of the Pateros Irrigation District flume against which it lodged. The girl at the time was being rushed to a doctor to receive treatment for crushed fingers sustained in an accident in the cannery.

Mickey McKay did not turn out with Chicago Blackhawks when they held their first practice in preparation for the 1928 season. Mickey said that he was held up by snow in Canada on his trip from the Boundary country. Now for a new version of the famous poem.

Princeton Paragraphs

Alex Adams is confined to his home with a bad cold.

Bill Dailey and Joe Miller made a trip to Keremeos Sunday.

W. Mills of Blakeburn was a visitor to Princeton last night.

Mrs. J. S. Cadden has been relieving at the hospital.

Joe Delprato of Coalmont was a visitor to town Saturday.

Mr. Ben Williams was up from Keremeos Wednesday evening.

S. Freeman was the guest of his brother, H. Freeman, Wednesday.

Jas. Kerr, provincial assessor, was in otwn on business Thursday last.

Mrs. A. Lucey left this week to join her husband at Likely, in the Cariboo country.

P. W. Gregory returned Sunday from a business trip to Beaverdell and the Boundary country.

Rev. W. Zersen of Kelowna is paying a periodical visit in the interests of the Lutheran Church.

Miss L. Simmons, Kamloops, telephone supervisor, paid a business visit to Princeton Wednesday.

W. R. Wilson, Fernie, and son R. W. Wilson, Great Falls ,Montana, are Princeton visitors this week.

Miss Becky Bell has taken a position as junior clerk in the local branch Bank of Montreal.

H. H. Newton of Vancouver and L. Belcher of Penticton, of the Union Oil Company, are Princeton visitors.

You'll be surprised how easily and satisfactorily the Radiola and Marconi machines operate. Burr Motors

Frank Glover, who is opening up coal property near Merritt, was a visitor to town early this week.

Why delay? Let us demonstrate the Marconi radio to you for one evening. Burr Motors Ltd. 50-1

A Radiola right in your own home. Let us demonstrate just what it would mean to have a set of your own. Burr Motors Ltd. 50-1

The lower valley is still attracting a large number of sportsmen. Birds are falling occasionally, though they seem none too plentiful.

S. G. Thomas of Vancouver, a partner of W. A. Wagenhauser, was in Princeton early this week in connection with his business interests.

Earl Nowell ,formerly with the local branch Bank of Montreal, has returned to town and expects to spend some time here.

Kelly Callahan has changed his abode from Princeton Copper Mountain, where he has accepted a position with the Granby Company.

S. A. Parker of Vancouver and F. Koch, representing the Giant Powder Corporation, were Princeton visitors this week.

M. C. DuVal and J. Dyke, officials of the Lynden Coal Company, were visitors early this week, leaving Wednesday noon.

Hon. W. A. McKenzie passed through Princeton Sunday on route to the coast from Penticton. He was accompanied by Hon. F. A. Burden, minister of lands.

Jack Dunn of Penticton is in town. He is attempting to interest some local organization in staging an educational picture sponsored by the Gyros.

The Campbells moved their goods to Merritt this week, but Mrs. Campbell and son Sandy are still in Princeton. Sandy will undergo an operation for removal of adenoids shortly.

"Curly" Pease has been experiencing the frown of fortune this week. Three trucks were "hors de combat" on the coal hauling contract Tuesday afternoon.

Mrs. Hugh Hunter is expected to return from her vacation at the coast Saturday. She will be accompanied by her daughter, Mrs. McGowan, and grandson, Hugh Hunter McGowan.

Mrs. Webb of Vancouver, nee Miss Gladys McCreithmum, is a Princeton visitor. She will be remembered by her many former Greenwood friends now residing here.

E. S. Miller and family are moving into the house vacated by Mrs. Gould, while Mr. Boone of the Union Oil Company and his family will occupy the house vaacted by the Campbells. The Toplinsky family of Merritt took up residence in Princeton this week.

Billy Hazzard is rejoicing in a victory over Dr. Smith on the links yesterday afternoon. They are old rivals. There was no competition for local golfers Sunday, and none is planned this week, but a number of members are still maikng use of the course

Campbell McAlpine returned to town Monday after one of his sudden flights. He did not return alone, but it's nothing serious. While at the coast he picked up a substantial looking and easy riding Whippet two-door sedan, and is proceeding to burn up the local roads. He also has in tow a pal, Art McRoberts, who is a hockey player of some not. He has secured work at Allenby.

OVER SEVEN THOUSAND DOLLARS' WORTH OF STOCK SACRIFICED

MacDonald Brothers Announce Sensational Clearance Sale to Open Saturday

Setting as their objective the removal by the speediest possible route of one half of their $15,000 stock of select lines, MacDonald Brothers announce a store-wide sale of boots, men's furnishings, and like lines, to commence Saturday, Oct. 27.

It is explained that the store has over-bought in general, and is faced with a surplus of goods which must be converted into cash in order that they may be paid for. In order to realize this, the store has taken the method of offering the goods at a sacrifice.

Nothing will be spared in this effort to realize this large sum, $7500, in the shortest possible time, and the public will benefit. All lines are being marked down and attractively displayed. When the sale doors open Saturday morning the store will become the mecca of bargain hunters from a wide radius around Princeton. Naturally, the early bird will profit, as it is expected that the opening sales will be especially heavy, and the best bargains will be snapped up.

NEW COAL RETORT EXPLAINED HERE BY W. O. HELEM

In view of the immense coal deposits in this district, and what their development would mean to Princeton, considerable interest attached to the visit here over the week-end of Mr. W. O. Helem, manager of the Sectional Continuous Feed Retort, Vancouver, a device, which it is claimed, has successfully solved the problem of extracting all the valuable by-products from coal, oil shale, wood waste and other carbonaceous materials.

The invention is the same as dedescribed by Mr. H. Freeman, mining engineer, Vancouver, about a year ago at a meeting arranged by the board of trade in the Princess Theatre.

A syndicate is now inthe process of organization to finance the venture, and in this connection 60,000 shares at 3 for the dollar are being sold. Later the general stock will be offered the public at a par value of $1.00 per share.

Accompanying Mr. Helem on his trip up, was Mr. L. G. Thomas of Vancouver, the largest shareholder in the new syndicate and who is slated as one of its directors. Mr. Thomas has a partnership with Mr. Wagenhauser in the Departmental Stores and it was with a view of affording some of his friends the opportunity of getting in on the ground floor in the venture that he made the trip up with Mr. Helem.

NEW MACHINE PERFECTED

In keeping with her policy to provide her patrons with the best possible service, Mrs. W. S. Garrison has had installed at a considerable expense a Sunbeam Low Intensity Reflector. While installed a few weeks ago, adjustments were not completed until this week-end, and Monday's shows were a revelation to local patrons. Tubes and bulbs had been corrected, and the machine is now in first class shape. It was provided gy the United Electric company of Vancouver. Mrs. Garrison is angling for a very well known production, and may have an announcement shortly.

CHURCH NOTES

Baptismal Service

Following last Sunday's morning service, Winnifred Pearl, infant daughter of Mr. and Mrs. Willis of Allenby was admitted into Christ's church by holy baptism. The sponsors were Mrs. Morley, Mrs. Willis and Mr. John Willis, the last named by proxy, as he was unable to come up from Saskatchewan for the ceremony. Baptisms are held in St. Cuthbert's at any time by arrangement with the rector.

* * * *

Discontinue at Jura

Church of England services being held at Jura on alternate Sundays will be discontinued during the winter season.

* * * *

Allenby Ladies Help

It was gratifying to the local ladies of St. Cuthbert's guild to see several Allenby ladies come down last week to assist in the work of the sewing circle. This helps to build up a sense of unity in such a church community, and it is hoped there will be more evidences. This week the sewing circle will meet at the home of Mrs. Butler.

* * * *

The switch to Friday nights has evidently met with the approval of St. Cuthgert's young folk. The evennig at the rectory was well patronized and much enjoyed.

* * * *

Pleads for United Church

A strong plea for loyalty to one's own church was made by Rev. W. Walkinshaw, home missionary, now at Merritt, who occupied the pulpit at St. Paul's Sunday evening, in an exchange with Rev. J. C. Goodfellow. Adherents of the United Church were too often found supporting other institutions on the excuse that they did more direct social service work.

The United Church was spending every bit as much money in home mission and service work as any other institution in Canada, he held, and went on to give concrete instances of real missionary work in foreign settlements and sparcely populated areas, citing the hardships under which home missionaries worked, and showing how in many cases they saved human life and prevented human suffering. There was no need to go beyond the United Church to contribute towards such work, he held.

* * * *

Musical Service

A complete service of music will be the order at St. Paul's Sunday. A number of choral, vocal, and instrumental selections have been arranged. There will be no sermon.

* * * *

Ladies' Aid of St. Paul's met at the home of Mrs. Jacobson Wednesday.

TWO LODGE CHIEFTAINS

Mrs. J. H. Atkins, Vancouver, president of the Rebekah Assembly of British Columbia, and J. A. McKinnon, Trail, grand chancellor of the provincial lodge Knights of Pythias, paid official visits to the respective branches of their orders locally this week. Both were appropriately entertained. Mr. McKinnon, who is a boundary old timer, left for Kamloops, while Mrs. Atkins left by Wednesday's afternoch train.

Mrs. A. McLennan underwent an operation at the coast this week, a sequel to her recent unfortunate accident here, when she was struck by an auto.

BREAKS COLLAR BONE

When his car, a Ford, left the road near Granite Creek and went over the embankment, a man whose name is given as Ray sustained a broken collar bone and narrowly escaped more serious injuries. The car was gadly damaged.

A party of local motorists had a rather nasty experience Sunday evening when the crown gear went out of commission just beyond Peterson hill, and the unfortunates had a considerable walk ahead of them.

Burns & Co. took delivery this week of the ammonia machine for their newly installed refrigerator plant. Considerable improvements have been made to the local plant recently, and it now presents a very smart appearance.

COMING EVENTS

W. Arthur Battye, piano tuner—will visit the valley, Cawston to Coalmont, about end of October. 49-2

* * * *

Balloon Dance—At dining hall, Allenby, in aid of school funds, Friday evening, Nov. 9th. Princeton orchestra. Gents $1.00; ladies 50c.

* * * *

St. Cuthbert's Guild Bazaar—Wednesday, Nov. 14th, 3 to 6 p.m. Useful and fancy articles, home cooking and candy for sale. Afternoon tea served 25c. 50-2

KEREMEOS NOTES

Mr. Tom Nicholson was over from Rutland on Wednesday to fetch the rest of his furniture. Mrs. Nicholson came over on Saturday bringing with her Mrs. Bailey, Fred Pearce's sister. They returned to Rutland on Monday taking with them Mrs. Pearce and children for a short visit.

* * * *

Miss Swanzy, who has been visiting Mrs. J. W. Lewis for the past month, left on Tuesday for her home in England. Mrs. Lewis is accompanying Miss Swanzy as far as Enderby and will visit friends there for a few days.

* * * *

Mr. and Mrs. E. C. Armstrong and small son left on Thursday last to spend a week at Wenatchee with Mrs. Armstrong's mother.

* * * *

All Mr. Mattice's friends sympathise with him in the loss by fire of his car, which he bought barely two months ago, particularly those who have enjoyed many rides in it, for Arthur is the most generous of car owners.

* * * *

The two churches celebrated their harvest festivals on Sunday when they were decorated with flowers, fruit and vegetables. Next Sunday will be "children's day" at St. John's.

* * * *

Hon. W. A. McKenzie was in town on Saturday.

* * * *

Wm. Beasley was taken sick last week and was removed on Saturday to Hedley hospital.

* * * *

Mrs. Green of Horn Lake is visiting her daughter Mrs. Allan.

* * * *

The new lighting plant is being installed in the basement of the Victory Hall.

* * * *

Mrs. Purslow's son, Jerry Purslow and her mother Mrs. Howland, came in from Vancouver on Friday to spend the week-end with her.

WOMAN BREAKS SHOULDER

Thrown off a wagon when the horse lurched forward while she was unloading apples at Keremeos packing house, Mrs. Reddick was the victim of an unfortunate accident Thursday last. An x-ray taken in Hedley hospital Friday showed that the shoulder was broken, but in spite of the pain and the inconvenience of having her arm strapped down, Mrs. Reddick was back on the job again Saturday.

FAREWEL TO MRS. DALY

Keremeos said "Au Revoir" but not good-bye to an esteemed oldtime resident of the valley when a farewell party was given in honor of Mrs. E. M. Daly Thursday night. The event, which attracted friends from far and near, was outstanding. The hall was literally packed, and it must have made Mrs. Daly feel glad to see so many of her old friends.

Owing to some mischance, the gift which had been subscribed for had not arrived, but the announcement was made. On behalf of the W.I. Mrs. Clarke, president, presented Mrs. Daly with a beautiful bouquet. Mrs. Daly expressed sincere thanks.

Following a short program, supper was served, and it was good to see Mrs. Daly at table surrounded by relatives and some of her oldest neighbors. The event was the inspiration of the following poem, improvised on the spot, and sung with gusto to the strain of "Carry Me Back to Old Virginia."

"Carry me back to old Keremeos;
"That's where the people are so very kind.
"That's where the birds warble sweetly in the peach bloom;
"That's where in dreams Mother Daly's heart would rove."

Mrs. Daly is not quite ready yet to take her departure for California and the gift will be presented at Friday's masquerade.

ENJOYABLE ENTERTAINMENT

Keremeos was treated another excellent evening's entertainment Friday evening last when a concert was given under the auspices of St. John's Guild in the hall. A large and appreciative audience was kept amused from the first rise to the final drop of the curtain.

"The Kitchen Symphony" was a novel success. With Mrs. Daly at the piano, and a number of ladies in cooks' caps and aprons, performing on glasses, bottles, lids, a saucepan, and shovel and tongs, there was no lack of discord, and the younger element of the audience were hard to satisfy. Mrs Purslow made a vigorous conductor.

"Mechanical Jane," a short play given with conspicuous success May 24th, was repeated by request, and again scored highly. So well was this done, and so well did it tickle the amusement palate that the infection spread to the stage, and one or two of the "sisters" were badly overcome. Mechanical Jane herself showed excellent control, and maintained her placid expression through it all.

Mr. Stuart Smith recited "Gunga Din" and "Hans and Fritz." Mrs. Willis and Miss Roddick each gave several songs. The orchestra selections were much appreciated.

Receipts were encouraging, and the ladies extend their sincere thanks to all who assisted.

CAR BURNS

Taking fire quite unexepctedly, the fine new Essex super-six owned by Arthur Mattice, Keremoes, was totally destroyed Saturday afternoon. Mr. Mattice had come home from a drive and put his car in the garage. A short time later he noticed smoke and flames belching forth from the garage. Willing hands rushed to the spot, but the fire had got too good a hold, and the car was beyond saving. A short circuit is thought to have caused the damage. The car was secured locally only two months ago.

WON BUTTER PRIZE

Award to Mrs. J. D. McRae, of Sterling Creek Ranch, Hedley, of first prize for her butter exhibit at the Kamloops fair is announced. This honor was gained in competition with a butter makers over a large field. Mrs. McRae's butter had to be sent by express to Kamloops. Congratulations!

GAWSTON NOTES

Miss Magdalene Felhauer returned to her home in Marquis, Sask., last week, after spending several months here with her aunt, Mrs. A. Felhauer. Miss Greta Rooney accompanied her as far as Penticton.

* * * *

Mr. George Shipton returned to Everett, Wash., last week.

* * * *

The regular monthly meeting of the Women's Auxiliary has been postponed for a week. It will be held at the home of Mrs. A. Felhauer.

* * * *

Mr. Arthur McIntosh with his grother John left last Sunday to return by auto to his home in Winnipeg.

* * * *

Hallowe'en party will be held in the Community Hall on Wednesday night, Oct. 31. Come and bring the children, a good time and refreshments. Adults 25 cents, children 10c. Ghost parade, games, etc. Under the auspices of the W.I. 50-1

Twenty-eight patients were admitted to Merritt hospital in September. The average number of patients in the hospital daily was 13.1. There was 1 death, 1 birth, 1 operation.

COALMONT NEWS

Frank Barnes had a fine five ton Caterpillar tractor and trailer arrive trailer arrive by freight last Thursday to be used in his logging operations here. M. Walford, service man for the company selling the tractor, unloaded the machine and spent several days showing what can be done. Barney Boaf was given a few lessons in driving the "cat" and took over the operating end on the departure of M. Walford.

* * * *

Miss Muriel Matheson returned from the coast on Saturday. Her sister Mrs. James Gordon left for Vancouver accompanied by Jams Jr. on Tuesday. Another sister of Miss Matheson's, Mrs. David Kydd and two sons arrivedon Monday from Lumberton, inthe Crow's Nest Pass, and will stay in Coalmont for some time.

* * * *

There was a very good turn-out at the Football Club's dance held at the Coalmont Hotel on Saturday night. The orchestra supplied some very snappy music and had to respond to numerous encores. A feature of the evening was the singing of "Dash" Milburn, and the comic skits by "Slim" Miller. The Football Club are looking for a crowd to attend their dance at Blakeburn next Saturday evening. The last two dances scheduled for Blakeburn have been postponed for one reason or another, so the people up there are looking forward to a good time.

* * * *

LOST, by Tommy Wood, from the chicken house of the Coalmont Hotel, one fat pullet. Tommy says that whoever "found" the chicken had to cut lots of chicken wire. He is putting up barb wire entanglements now and hopes to add a machine gun to the defences.

* * * *

Mr. H. H. Avery, Similkameen representative of the Manufacturers' Life Assurance Co., is in Coalmont on business this week.

* * * *

Nick Cameron has greatly improved the appearance of his barber shop in the Coamont Hotel with several coats of white enamel and new linoleum on the floor.

* * * *

Mr. D. J. Stewart formerly interested in placer ground up the Tulameen River paid a flying visit to the district during the week. He states that there will probably be something doing on the benches of the upper Tulameen before long.

* * * *

P. B. Freeland, district mining engineer, passed through Coalmont on Wednesday.

IN MEMORIAM

In loving memory of our dear son George Alexander, who died October 27th, 1927.

Inserted by his father and mother, Mr. and Mrs. E. J. Rhodes.

Memories drift to scenes long past,
Time rolls on but memories last.

MERRITT BASKETBALLERS TO INVADE PRINCETON FOR GAMES WITH LOCAL HIGH STUDENTS

(Continued from page one.)

slightly in the second half.

The confectioners were better in open play, but under the baskets the stationers had a decided edge, and this won them the verdict.

Some Good Seniors

That Princeton's first team is fairly good, and, if the seconds are as good as they seemed, very good, was demonstrated when the selects, though without one or two stars, ran the seconds ragged 54-14.

The most remarkable feature was the second half play. After being utterly routed in the opening stages the seconds experienced nothing short of a transformation, and it was an altogether different side that held the firsts even during a torrid stanza, while the winners retained a forty point first half margin.

Princess Again

Princess girls will take a lot of stopping, it was shown, when Burns' made a decided effort to check the winning streak of the actresses, only to have to accept the small end of an 8-5 count. It was one of the best games yet played in the junior girls' looped.

Teams

PRINCETON FIRSTS: Madore, g, f, (10); Garrison, g, f (8); Wilson, c, (14); Lucas, f, (12), Broderick f, (14). Total 58.

PRINCETON SECONDS: Pope, g, f, (4); Taylor, g; Coles, c; Muir, f (8); Clark, f, g, (2). Total 14.

Referee—W. Dodd.

PEG WHITE'S: Garrison, f; Oreskovich, f (6); McDiarmid, c; Cook, g; Vaydo, f (6); Johnson, f; Burr, f. Total 12.

COLES: A. Dodd, f (12); Hansen, g; W. Dodd, g; Dobie, c (3); Pughe, f (2); Gellatly, f. Total 17.

Referees—Dave Taylor and Bill Lucas.

PRINCESS: M. Garrison, f (6); E. Pughe (2); W. Iachinni, P. Edwards, E. Wardle, P. Hewitt. Total 8.

BURNS: C. Samuels, g; C. Hollands, g; D. Francis, f; G. Foster, f; L. Mitchell, c (3); P. Pughe, f; F. McDiarmid, f (2). Total 5.

Referee—Dave Taylor.

Dull in Penticton

Penticton is pessimistic. The season is away, gut Penticton has not awakened from its lethargy, according to press reports. With one of the best floors in the interior at its command in the scout hall, there seems to be little enhusiasm. For the first time since the organization came into being Penticton was not represented at this year's Vernon meeting of the Interior Association.

Executive members are discouraged. Two meetings have been called but the attendance has not been large enough to proceed. Nevertheless, the players are keen, and Penticton, it is to be hoped, will again be in the running.

Vernon has organized with A. G. Woolsey as president and G. D. Herbert as secretary.

An Okanogan league, to embrace towns around Omak, is planned, B.C. Curtis of Omak is secretary pro-tem.

Kelowna Would Come

Kelowna is anxious for a game with the local senior team, and it is likely that arrangements will be made to entertain them in the near future. Kelowna has for many years vied with Kamloops as the leading center of interior basketball.

MINISTER OF LAND REVIEWS SITUATION AT OLIVER PROJECT

Hon. F. P. Burden, minister of lands, is making a survey of the conditions under the Oliver settlement scheme. This, it is learned, was the purpose of his trip to these parts last week-end, in company with Hon. W. A. McKenzie. The investigation, it is stated, follows reports of excessive taxation, and is quite in keeping with the Tolmie administration's giving the once over to the projects of the McLean government.

Government expenditure for the reclamation of some 20,000 acres of fruit farming cost approximately $4,000,000 the construction of a great ditch being the principal item.

"There is not a person in British Columbia knows what our provincial public debt is" was a recent statement by a cabinet member in line with the government's sweeping au... of the province's books.

RECEIVES GOOD POSITION

T. J. McAlpine, recently relieved of duties in the government employ as construction engineer in this district, has been appointed construction engineer for the Canadian National Railways on Okanagan Lake. The position is an important one.

Mr. McAlpine is well known locally, and has done considerable work in this section, his last job being the extension to the Tulameen bridge here.

MARION COMES TO TOWN

"Marion" the husky girl-friend of Cammie McAlpine, George Harris, Eric Meausette, et al, recently employed on the Lynden Coal Company's railway grade above Princeton, came into town Monday and is parked near the Similkameen Hotel, awaiting further orders. It is understood that the giant power shovel will go to Penticton to be used on on the new municipal project.

POWER DISPUTE LIKELY TO GO TO PRIVY COUNCIL

(Continued from page one.)

land, but it was postponed. Another was held in Victoria.

The West Kootenay people held aloof, and claimed that the board had no jurisdiction over their contracts in these cases, as their charter empowered them to sell power only within a fifty mile radius of Rossland. Evenutaly the board decided in favor of this attitude. Meanwhile, the Granby people had sought an injunction forcing the West Kootenay Company to supply power to the Allenby and Copper Mountain plants. A prerogative writ of mandamus for a period of two weeks was granted pending the sitting of the water board, and was once renewed. But on a new application, Mr. Justice Murphy in supreme court declined to renew it, whereupon the Granby Company entered appeal, which case is now being heard. An injunction was also refused, but Mr. Justice Martin granted an interim order enjoining the West Kootenay Company from cutting off the power supply in the interim.

Cencentrates the Issue

When the final session of the water board was held the real issue became apparent. It was a question of whether Allenby would ship concentrates to Trail or not. The power rate was being used as a lever. While the C.P.R. and Consolidated went to considerable expense to handle Allenby concentrates, Tacoma is offering a cheaper rate and to date the Granby people are defying Trail and sending concentrates to Tacoma.

Meanwhile, the City of Grand Forks appealed to the minister of lands from the water board's decision. They went over the minister's head and asked the cabinet to intervene. First the minister postponed his enquiry pendipg the outcome of the appeal, and now the cabinet is doing likewise.

VISIT STILL PENDING

Nothing more has come to hand on the promised visit of Hon. Nels Lougheed, minister of works, and Hon W. A. McKenzie, local member. Further resolutions were prepared for them this week, and if they do not hurry, they will be under a regular barrage. Furthermore, a local man is holding off a perfectly good trip to Soap Lake just to show the works' head what nice sidewalks we have.

Appointment is announced in the B.C. Gazette by the lieutenant-governor in council, of Dr. A. Francis, formerly of Greenwood, and now of Hedley, as medical inspector of public schools for Greenwood and district.

When Winter Comes

You know the story of the grasshopper. He played away the summer and when the frost came he cupboard was bare, so he went to the ant, but there was nothing doing. Don't rely on your aunt. Provide NOW for winter. Our stock is the most complete in town. Come here and find what you want.
