Princeton Observes Armistice Day in Great Style With Appropriate Ceremony

Annual Smoker Proves Bigger Success Than Ever

EXCELLENT PROGRAM OF MUSIC, BOXING, AND FUN SERVED UP WITH REFRESHMENTS; ANDY JOHNSON'S STAR TURN

"Better than ever," the recruiting slogan of the Legionnaires, was capably maintained in the annual smoker of the Princeton branch Canadian Legion, held in the Princess Theatre Monday night, with an attendance of some 125.

Three good bouts, a musical program of some merit, a peppy orchestra that was willing to accommodate, and the odd refreshment, were the fortes of the annual entertainment, which has now become a local institution. These were quite sufficient to gain for the smoker the opinions that it was a big improvement over last year, and one of the best of the entire series.

Of course, there was room for improvement, but everything considered, the event was well worth while. If anyone went away disappointed, it was certainly no fault of the committee, who worked like Trojans until the last cork was drawn.

The crowd was perfectly tuned for the occasion, and was as responsive as a Stradivarious fiddle. The spirited numbers of the band found a chorus of tramping feet to help them along; the singers were cheered to the echo although at times they had difficulty in making themselves heard; when the program lagged the crowd would strike up some vigorous song of '15; and when the rations were a little long in coming round, there was an automatic registration of "How Dry I Am," which brought invocations from the harrassed committeemen, and results.

Good Program

The program itself was well worth while. In spite of the usual last minute disappointments, a fair array of local talent had been gathered, and it certainly did all that could be expected.

To Andy Johnson go the biggest bouquets of the night. Coming to the front at a critical stage, when the progam lagged, he essayed a serious effort, but blossomed out a star comedian. His revival of the famous accompaniment of the St. Lxposition, "Meet Me at St. Louis, Louis," simply brought down the house, but Andy could not be made to sing a song in his own tongue. Incidentally, he has a little hat auction to arrange with Salvation Jim.

From the point of real worth, Jno. Franc's was the man of the evening. Time after time he came on, and each time the crowd would have had more. His numbers included "The Bugler," "Stay With Me," "The Guardsman," "God Send You Back to Me."

The Francis family figured prominently, for they grouped in a quartette, with Jim Norman, in singing the Welsh national anthem and "The Soldier's Farewell." In addition, the boys, George and Bill, boxed, and Bill sang "Stay With Me," and "The Trumpeter."

Jim Norman was also charged with a big share of the program, and was a hit in everything he did. He drew on his stock of spicy yarns, giving "A Ragged Jacket," "I Was Shaving Myself at the Time," "I Don't Want to Get Well," and "The Three Brass Balls."

Other entertainers were Jack Mitchell, who sang "The Star O' Robbie Burns," Bill Madden, who gave "My Blue Heaven," and Salvation Jim, who brought back the inevitable Service flavor.

Chuck Tupper gave an excellent rendition of "The Saxophone Waltz" as a sax solo. The orchestra was Harry Knighton, piano, R. Rhodes, violin J. Rhodes, traps, and C. Tupper, sax and trumpet.

The Boxing

Four bouts—two good ones, one

(Continued on page six).

SALE OF POPPIES IN DISTRICT REALIZED SUBSTANTIAL SUM

Six hundred and twenty-two little poppies symbols of remembrance of the stormy days of '14-'18, adorned the lapels of upper valley citizens over Armistice Day. In addition, 45 large poppies were sold.

Collections were:

Princeton	$49.57
Allenby	21.05
Copper Mt.	12.00
Hedley	24.50
Coalmont	14.75
Blakeburn	2.20
Total	$124.07

Expenses in connection were $34.85, giving a surplus of $89.22. This money has been forwarded to assist in work among disabled veterans and dependents of war dead.

The poppy sale was handled very well, in spite of one or two little hitches that could not be avoided. Amistake was made in shipping the large poppies, and the balance arrived too late for sale. Due to a misunderstanding, Blakeburn sold only part of its allotment, while Princeton could have used many more ,as could have other towns, according to reports.

Miss Dolly Waterman and Miss Florence Meausette were the local taggers, and certainly handled their work with commendable success. J. A. Brown was in charge of the distribution of poppies in the local area.

Mr. Brown desires to thank the willing workers who made the 1928 sale of poppies so conspicuous a success.

PLAN BOXING BOUT

Negotiations are under way for the matching of Jim Norman, well known local heavyweight boxer and Bill Austin, an American fighter of some repute who has been engaged on the Hartman property, Granite Creek. The local Moose lodge it is understood will act as promoter.

Norman, a fighter of considerable experience, has expressed willingness to enter the ring locally, and has plenty of backing, but difficulty has been experienced in landing a suitable opponent.

Austin, it is claimed, fighting under a different name, cut considerable swath across the line a few years back, and was in the running for the middleweight championship While hardly as big a man as Norman he is powerfully built, and his work has made him as hard as nails. He, too, has considerable backing. Norman weighs about 180 at present, but believes he could make the light-heavy limit with training.

TOWN 3, LEGION 0

In the first of what is proposed to be an annual feature between the Town and Legion football teams on Thanksgiving Day, the civies emerged victorious over the soldiers 3-0. A fair crowd watched the battle, which was hot and keen.

There was more fun than football but the match seemed to be a popular one, and there is no reason why it should not become a serious fixture.

The first goal came after fifteen minutes' play on a rebound from Taylor's long shot, and the same player got the second a drive from fifteen yards after the interval, Moore running through the third just on time.

The Town boys undoubtedly had the better of the exchanges, and did everything but score. The Legionnaires were, however, dangerous on the break-aways. For the Town Jimmy Foster and Dave Taylor were the bright lights, with Charlie Watson showing a real turn of speed on the extreme right for the soldiers.

BOARD OF TRADE TO MEET

Princeton Board of Trade will meet tonight. The regular meeting should have been held Monday, but was postponed on account of the holiday. Tonight the question of action on the Hope-Princeton road will be foremost.

CHINAMAN GIVEN SIX MONTHS

A sequel to an assault Friday night, the climax to a little feud involving two Chinese, Lee Nong, local celestial, was sentenced to serve six months at Oakalla for an attack on Jang Chong, the popular "Friday" of the Princeton Hotel.

There was bad blood between the two for some time, and it seems that the accused and his clique were a little jealous, and used means, fair and foul, to get revenge. Anonymous letters sent in March were produced, making allegatoins against Chong.

Dr. McCaffrey testified as to the seriousness of Chong's wounds. The assault took place in Hop Yick Lung's store, Angela avenue. Two Chinese were called for the prosecution, three for the defense but the process of extracting evidence was painful, and the trial lasted from 3 o'clock to 10. Judge J. R. Brown presided, and H. W. R. Moore appeared for the prosecution, M. Colquhoun of Penticton for the defense.

Memorial Service Again Is Impressive Event

CHURCHES AND EX-SERVICE MEN UNITE FOR COMMUNITY GATHERING AT CENOTAPH SUNDAY MORNING

Two hundred heads bowed in silence, grouped about a truck which served for a pulpit, with the grey cenotaph in the background, and the scarlet flag idly drooping against the tall pole, for lack of breath or motion. The distant whistle screams; the echoes die away. Heads are raised, "The King" is struck up, and the commemoration of that glorious November day of 1918 is over for another year.

The annual community service held Sunday morning at the cenotaph under the auspices of both Princeton churches, and the local branch of the Canadian Legion, was a memorable event.

Fully two hundred citizens braved the frosty early morning air. School children were present in good numbers, but unfortunately did not parade. Some thirty ex-service men, wearing full decorations, were on hand, under command of H. W. R. Moore.

A War for Peace

Rev. A. J. Williams of St. Cuthbert's took the serman, and appropriately summed up the significance of the ceremony, and the principles at stake in the great conflict which was happily brought to an end ten years ago.

He recalled the dark days of the war, the fear of opression, the tremendous patriotism, loyalty, and devotion that made men lay down their lives for their friends, their country, and the cause of liberty. Mr. Williams believed that these ideas were actually foremost in the minds of those who fell. It was not a lust for blood; war was to them obnoxious; but they conquered self to serve.

It behooved those who remained to glorify the spirit of those who fell, their sacrifice brought passionately home by the inscriptions on the bronze tablet on the cenotaph. It was a struggle for the uplifting of humanity. It was not a war of might, but of right not a war for war's sake, but to end war.

It was to be hoped that a similar situation would never again occur, when the churches were used as recruiting offices, and religion turned to the support of war.

This was absolutely foreign to Christianity, foreign to humanity and if the last war was worth anything, it was in that it had hastened the day when war should be outlawed.

This was possible only in the human heart. As long as man bore avaricious thoughts, as long as he was willing to fight at the call of greedy statesmen, all the fighting in the world would never end war.

When man throughout the globe resolved that no matter what happened, he would not shed blood unless in defense of self, or in case of illicit invasion, then, and then alone, would war cease. It was more noble to strive for peace than drift into war. Perpetual peace was the true ideal of the last war; it was out post-war duty to humanity and to those who fell to strive towards the attainment of that end.

Rev. John C. Goodfellow of St. Paul's presided, and delivered the scripture lesson. St. Paul's choir, assisted by Mrs. Irwin, organ, and Mr. Charlie Tupper, trumpet, and Mr. Dave Taylor, saxophone led the singing.

Happily indeed, the two minutes' silence, observed all over the empire, was called just as the Allenby whistle announced the stroke of eleven.

Following the ceremony, Mr. John Horrocks placed the legion's wreath on the cenotaph in true military fashion.

FORMER PRINCETON RESIDENT IS DEAD AT NELSON

Word was received here yesterday of the death in Nelson of Mrs. Jno. Blenkin, for some years a resident of Princeton, who left here about a year ago to take up residence in the Kootenay town.

The Blenkins own the house now occupied by the family of Magnus Foster. Mr Blenkin was tipple boss at the Princeton Collieries. The family left Princeton September 1927.

Mrs. Blenkin's demise came suddenly at 8 o'clock Tuesday night. Besides her husband, she is survived by one daughter, married. The late Mrs. Blenkin was about 55 years of age.

CHINAMEN GETS FLUSTERED; COOLS OFF IN HOOSE-GOW

It doesn't pay to beat about the bush when under oath, Mong Ye, local Chinese learned yesterday. He evidently had made up his mind not to savvy when questioned in the Nong assault case yesterday afternoon, and by evasive methods got himself into a nasty tngle.

Judge Brown promptly ordered him charged with contempt of court, and he was locked up in the cooler for a few hours, but later released.

SEND VAGRANTS TO JAIL

Local police have been having a busy time with an influx of knights of the road, but have employed strict measures. A negro who made himself a nuisance was given a month to think it over. A man charged with vagrancy drew two months, and a charge of creating a disturbance in the liquor store brought one month's holiday.

Mortgage Decided on to Raise Loan for Railroad

LYNDEN SHAREHOLDERS AGREE TO PLAN OF DIRECTORS TO ISSUE BONDS TO COVER COSTS OF ROAD

Authorization was given the directors of the Lynden Coal Company to borrow $350,000 for the completion of the railroad from Princeton to the mine, at an extraordinary general meeting of shareholders here Saturday morning. The loan will be obtained by a first mortgage on the company's assets and undertaking, and will be evidenced by an issue of bonds bearing 7 per cent per annum, and payable in 15 years.

The result of the decision makes it certain that the railroad will be completed in the near future, and it will not be surprising, it is hinted, if work is resumed at an early date. Considerable grading was done this fall, but it was understood the project was closed down for the winter. The survey has been completed. The building of the road would eliminate the heavy cost of trucking coal to Princeton for shipment.

The meeting was attended by five directors and five ordinary stockholders.

INSURANCE HEAD VISITS

C. D. Devlin, from the head office of the Confederation Life Insurance Association, Toronto, accompanied by Howard Farrant, district manager, were in Princeton Monday and Tuesday in course of a general inspection tour, the guest of Mr. Gilbert Prideaux, general agent.

Mr. Devlin expressed himself as well impressed with Princeton's prospects, and the changes noted since his last visit. Asked if his visit had any local significance regarding the company's organization Mr. Devlin said, "Nothing doing. We leave all that to Gilbert. We don't have to worry about that at all."

The party went on to Blakeburn.

INCORPORATION COMMITTEE MEETS

Action as last! Chairman Burr announced that the long awaited meeting of the committee appointed to take charge of the local incorporation issue formed two months ago, will meet November 20, Tuesday. They will get to work preparing for the calling of a general meeting, and the situation will be brought to a head once more.

As Ever

"The sidewalks of Princeton need fixing. If they are not attended to somebody will break their neck one of these days. The Similkameen Star, Oct. 30, 1907.

WHIST DRIVE SETS RECORD

The fortnightly I.O.O.F. whist drive and dance held in the Oddfellows Hall Friday night was again a big success, the previous attendance record being broken. Awards went to the following: ladies' first, Miss N. Williams; consolation, Mrs. E. Gillham; gentlemen's first, Mr. Geo. Allen; consolation, H. H. Avery; men's travelling prize, Mr. Williams; ladies' travelling prize, Miss May Horner. Music for the dance was provided by G. Harvey, piano, and M. Foster, voilin. Refreshmen's were served, with the usual committee in charge.

W. E. Ekins, representing the Vancouver Province, is at present working this territory in the interests of his paper. A typical newspaper man Mr. Ekins is keen on subscription work, and occasionally takes a fling at reportorial work.

Kelowna Basketers Will Invade Princeton Tonight to Meet Two Strong Local Teams

Some of Best Material in Province Will Be on View on Local Floor Nonight; Association Secures Services of Experienced Referee

Kelowna basketballers, two teams strong, will invade Princeton tonight and will be the first visitors this year. Arrangements were completed only late yesterday whereby a strong senior B and an intermediate A team would perform in the Orange Hall tonight, against the best the locals can put out.

The Kelowna first team will be composed of the pick of the senior B men of last year, and perhaps a few of the famous Kelowna Hornets, who made such a big fight for the provincial Senior A title last spring. The intermediate team will also be exceptionally strong, as the age limit in that class is 21, which makes it quite the equivalent of local senior ball.

Against this array it is hoped to put out the best teams that have ever represented Princeton. It is possible that Cammie McAlpine will be over from Summerland to wear the locals' colors, while others will be here in full strength. The lineups are:

Senior—Madore, Callahan, Wilson, Lucas, Broderick, Gill, McAlpine, Bontain.
Intermediate—Muir, Garrison, Taylor, Pope, Coles, Clark.

In spite of the short notice given, it is expected this will be one of the best contests ever seen here. Kelowna basketers need no introduction. For many yars Kelowna has been the leading interior city, and Princeton fans will see basketball as it should be played.

On the other hand, Princeton has never before had such an array of talen at hand, and, in spite of the handicap of lack of team work, Princeton is expected to mke a good showing, as the players have now been in training nearly two months, and in this respect have a big edge on their rivals.

Expert to Handle Game

An added feature will be the refereeing. Wm. Meurer, Lynden, Wash., has consented to handle the major contest. Mr. Meurer has followed basketball very closely for the last twenty years, and in addition to directing the affairs of the game in the city of Lynden, where first class basketball is played, he has refereed throughout the state, and his services are in great demand.

It is possible that he will remain here this winter, and if so he has promised to coach the Princeton men. If Princeton doesn't cut a big swath this year, there will be a nigger in the woodpile.

This will be the first big basketball game of the year. The club is experiencing the usual hard battle to make ends meet, but feels that in advertising brought the town, its efforts have been well worth while. Princeton is one of the most talked of basketball towns in the interior at present, and it will be up to Princeton players and Princeton fans to maintain their claim to this recognition tonight.

Merritt Would Come

Merritt is also eager for games with Princeton. Representatives from the Nicola town were over Sunday, and were on the wire Monday. They wanted to play Monday night, but that was felt impractical. It is likely they will be here for next Thursday.

Senior Only

Because of difficulties in connection with such a scheme, the basketball association has reluctantly decided to discontinue all except senior basketball. This will mean that it can concentrate all its efforts on this branch. Membership tickets will be issued to all seniors wishing to play.

Fighting an uphill battle all the way, Princeton Star basketers were nosed out on the post 29-28 in the deciding game of the senior series in the local hoop league. Without Gill and McAlpine, the printers were set a hard task against the Hotel boys, who were at full strength, and on paper the wine vendors were worth a big edge.

As it turned out, however, the game was one of the best and keenest of the entire schedule. The Star players lacked neither skill nor effort and had a full share of the play. It was in their shooting and their play under the basket, however, that they fell down.

It was an interesting battle. The Hotel would run through a few baskets in rapid succession on puzzling plays that overwhelmed the newsies. Then the Star would fight right back hard and creep level on hard earned points.

Two baskets annulled by a referee's decision would have made all the difference. Twice Taylor ringed from close in only to have the whistle beat the shot by a fraction.

At first the Hotel were all over the Star, and ran up a lead of eight points before the inkslingers got through. When they did, however, they followed up with vehemence, and at the interval were ahead 15-11.

(Continued on page six.)

MR. WAGENHAUSER MAY LOSE SIGHT OF RIGHT EYE

His right eye badly cut as a result of the car in which he was riding going over the bank on the Coalmont road, about a hundred yards from the Tulameen River bridge, just out of Princeton, W. A. Wagenhauser, lies in Vancouver General Hospital with his many friends anxiously hoping that he will not lose the sight of the optic.

The accident occurred Friday night when the driver of the car it is said, turned over the bank in an effort to escape a deep rut. There were several other passengers, but no one else was hurt.

The car itself was badly damaged, and is now in the Princeton Garage. Damage is estimated at about $300, which is covered by insurance.

Mr. Wagenhauser's condition, according to a letter which came from Mrs. Wagenhauser to Mr. Wilson of the Departmental Store, was fair. The operation had been performed at the Vancouver General, and several stitches put in the wound. Whether or not sight will be restored is still in doubt.

Mr. Wagenhauser will have the whole community pulling for his recovery. He went down to the coast Saturday afternoon, and will have the best chance that science can give of retaining his vision unimpaired.

DINNER MARKS CLOSING OF WORK ON COPPER MT. ROAD

A "scrmptous dinner appropriately closed Angus Nicholson's model road camp at Wolf Creek, following the suspension of work on the Copper Mountain road after a most useful summer.

Some twenty-six guests were in attendance, and Angus' hospitality flowed in abundance. The evening was a neverto-be-forgotten one. The dinner was splendid, and everyone was in the very best of spirits.

Angus was roundly complimented on his ability as a road constructionist, and no less on his reputation as a host. Mr. H. C. Smith voiced the sentiments of the gathering and the community when he said that Mr. Nicholson's work on the Copper Mountain road had been a wonderful investment, and expressed the hope that the road would be kept open all winter, and the remainder of the work finished in the spring.

Has Done Good Work

Mr. Nicholson has made a surprisingly good job of the Copper Mountain road considering the time and money at his disposal. It has been considerably widened, cleared of trees, surfaced, and graded, as far as time would permit, and the work has had an immediate good effect, which will be permanent. It certainly has been money well spent.

T. DALY APPOINTED AGENT FOR SUN LIFE COMPANY

Mr. Fairbairn, interior manager for the Sun Life Insurance Company, was in Princeton Saturday, consulting with Mr. Tom Daly, newly-appointed agent for Sun Life in this district. Mr. Thornburn expressed himself as being well pleased at having secured so capable and popular a representative, and predicted big thnigs for Tom in the insurance business.

CORRESPONDENCE

Incorporate to Save

Editor, Star,
Princeton, B.C.

Sir:—Every citizen should be interested in the subject of incorporating Princeton and I crave a little more of your valuable space to point out a few more argumen's which seem to have been overlooked.

At present every water user is helping to pay for the hydrants that are on the streets for fire protection. Under incorporation the cost of the water service to those hydrants, which during a year is considerable, would be paid for by the village commissioners form the general tax, and the amount thus paid would be deducted from the water users' rates, so I am assured.

The same principle applies to the street lights, and the saving by the users would be still greater in proportion. The electric current to the street lights would also be paid for out of the general tax.

In these two instnaces the owners of unnoccupied town lots or other vacant property many of whom are outsiders, would help to pay for that to which they are now contribut'ng nothing. Under incorpora'ion the non-resident property owners would be contributing their fa'r share in paying for the above mentioned u'il-i'ies which the present users are now charged with .

It is also probable that the fire insurance rates would be reduced under incorporation by increased fire protection provided by the village commissioners.

The above three reasons alone, if there were not many others, would justify the ratepayers in voting for incorporation.

Thank you, Mr. Editor, for space.
JAMES WYDEMAN.

MINING NOTES

Investigate Olalla Nickle

The reported valuable nickle discoveries at Olalla are to be investigated. Hon. W. A. McKenzie, minister of mines, has conferred with A. B. Trites of Vancouver, whose engineers were sent out to examine the property. Following a conference between Mr. Trites, P. R. Fleming and the minister, the mining men left for Olalla, accompanied by a party of Mr. Trites' engineers. Mr. Trites and his associates have agreed to finance the whole development.

Olalla is near Keremeos on the Penticton road. A prominent engineer is said to have already examined the property and reported favorably on its potential possibilities.

* * * *

Consolidated's Output

Increases were shown for the third quarter in the Consolidated Mining and Smelting Company's Trail ou'put in lead, copper and silver but these were offset by decreases in zinc and gold. Lead, 1928 30,633 tons; 1927, 35,447 tons; zinc, 17,579 tons, 19,-843 tons; copper 2964 tons, 1991 tons; gold, 5192 oz., 7797 oz.; silver, 1,-895,219 oz., 1,845,898 oz. Cadmium production, a new metal for Trail, totalled 72 tons.

* * * *

Merritt Plans New Industry

The establishment of a plant for the manufacture of pulverized coal is providing Merritt with a live object. F. L. Freeman, secretary of the B.C. Chamber of Mines, and J. Robinson, representing an English syndicate interested in establishing a plant at Merritt recently addressed a meeting of members of the board of trade. Mr. Freeman, who is thoroughly conversant with the coal situation, is reported to have stated that $20,000 is available to launch the by-products plant. The proposed location is near the Nicola Pine Mills and Middlesboro mine.

The Merritt Herald recently devoted a large amount of editorial space to a plea for united effort in the establishment of the pulverized coal industry in the district. The onus, it claimed, was on business men and ordinary citizens as much as coal mine operators.

* * * *

Use More Coal

A plea for the use of more Canadian coal was made by Dr. Charles Camsell, well known geologist and deputy minister of mines, speaking at Toronto. In recent years, he said, the coal industry has undergone a complete change. Prior to the establishment in 1922 of a Dominion fuel board it was the consumer who needed protection, now it is the producer who needs assistance.

No anthracite whatever being imported before 1922, since that time importations from Britain had rapidly increased, and last year 135 ships entered the port of Montreal carrying three quarters of a million tons.

Increased efficiency in the use of coal, increased development in hydro-electric energy, and increased use of fuel oil were given by Mr. Camsell as the three fundamental factors contributing to the aggravation of the present situation. These factors had resulted in the displacement of millions of tons of Canadian coal.

Great Britain could produce 330,-000,000 tons of coal, but had sale for only 260,000,000 tons; Alberta had a market for 7,000,000 of the 15,000,000 tons it could produce; Nova Scotia produced 30 per cent over market requirements; New Brunswick's production exceeded sale by 50 per cent.

* * * *

Law Bonds "Last Chance"

Charles F. Law, well known B.C. mining man and interested in many properties in the Similkameen, is also turning attention to the boundary country, experiencing a new lease on life. Last week he secured "Last Chance, one of the most familiar boundary properties, for Vancouver interests.

Last Chance is on Phoenix h'll, one mile from Greenwood. When worked some years ago it was credited with a produc'ion of $50,000 of ore, values running as high as $100 a ton. Mr. Law acquired separately the interests of S'amberg, Brawders, and Poggi.

* * * *

Bond Golconda

Eastern interests have taken a bond on the Galconda group, Deadwood camp, from Robert Forshaw and Olaf Lofstad. The group includes the Server, Wild Rose, Lacoon, York Fraction, Cleveland and Golconda claims, covering 250 acres.

* * * *

Progress at Kaaba

Good progress is being made on the Kaaba, recently 'aken over by the General Metals Corporat'on of Vancouver. The water system has been installed and the compressor is running. Shaft timber'ng is well under way. Necessary build'ngs have been completed. The ore body is showing up well. The Kaaba is near Nighthawk on the Washing'on side of the boundary.

* * * *

Law Bonds Waterloo

Charles F. Law has taken a bond on the Waterloo m'ne in the famous old Camp McKinney. Wonderfully high grading was made from this property in the early days.

* * * *

Slate Creek Progresses

Similkameen Placers Limited has sunk through over-burden on the channel of upper Slate Creek and entered compact gravel, it is reported. Heavier flow of water than equipment on the ground could handle was encountered but a more efficient pump has now been nistalled.

* * * *

Work Nicola Copper

Important mining developments are foreseen for Swakum Mountain, ten miles from the town of Nicola, where three mines, the Thelma, Lucky Mike, and Almeda, are likely to be worked. Almeda and Mike are controlled by the Cameron and Hughes interests of Vancouver, promoters of various mining ventures, including the well known Snowflake.

The property covers 2100 acres, including 40 claims, with good showings of gold, silver, copper, lead and zinc.

On Lucky Mike No. 2 a twelve foot vein of copper ore has been opened. The copper outcroppings are over an area of 1000 feet wide, and nearly a mile long, showing fine known veins.

* * * *

Nelson at Phoenix

The Granby Company is holding on to its properties in the scene of its first greatness, the boundary country, and with the revival of interest in that area is keeping close watch on developments.

W. E. Nelson of Copper Mt., field engineer for the company, spent considerable time a fortnight ago in the boundary district, examining mines in the vicinity of Phoenix.

* * * *

Hope Gold Mines

Incorporation has been announced of "Hope Gold Mines, Limited," capitalized at $500,000, in 500,000 shares. The registered office of the company is at Vancouver.

* * * *

Wm. Austin has disposed of his interest in the Hartman property, upper Granite Creek.

* * * *

Hoist Breaks Down

Breakage of the hoisting apparatus caused suspension of operations at Nine Mile mine over the week-end, but the hoist has now been repaired, and the mine is working at capacity.

Good progress is being made under the new manager, S. Mottishaw, who hails from Nanaimo. Considerable outside construction work has been done under J. Dyke, who has almost completed the program.

The new bunkers have been completed but are not in use, the delay being on account of some tests to be made. The bunkers are located on the K.V. tracks about three quarters of a mile cut of town, and when in use will materially cut trucking costs from the mine.

* * * *

Smelter's Production

The output at Trail smelter for the September quarter was gold 6,192 oz.; silver 895,219 oz.; lead 71,326,000 lb.; copper 5,[illegible]8,000 lb.; zinc 31,158,-000 lb.; cadmium 144,000 lb.

LOCAL RADIO FANS TAKE INTEREST IN CONTEST

Local radio fans participated in the excitement of the opening of the new station, K.S.L., Salt Lake City, which, with a powerful transmitting apparatus is simply flooding the air these nights.

K.S.L. is running a unique competition. Fans who send in telegrams commenting on reception have a chance to win $50 in gold, all telegrams being placed in a drawing. Burr Motors, using a Marconi, sent a wire Tuesday night, and within an hour it was read out from KSL. A little later J. L. Coles despatched a similar message, and in a little over an hour an interested group heard it read over the air on a Stewart-Warner.

Messages poured in from all parts of the northwest, and the new station is certainly a popular one. One of the most interesting was a long distance phone call from Raymond, Alberta. The announcer said he could the Raymond fan most distinctly.

Dan Ferguson, now with a K.V. gang at Brookmere, was a visitor to town the early part of the week.

United Farmers of British Columbia are to be accordeod better support from prairie farmers, and more co-operation in their movement for a greater measure of direct trade. The announcement is made from Tdmonton, and is said to result from several days visit by J. E. Armishaw, provincial organizer for the United Farmers of B.C. The U.F. has a strong local following, E. E. Hardwick of Princeton being president.

VANCOUVER—Alcohol poisoning was found to bthe cause of death of Johnathan Robert Swainson who was found dead Oct. 17 in the city jail, according to the verdict of a coroner's jury.

(This advertisement is not published or displayed by the Liquor Control Board or the Government of British Columbia).

IS THE BOARD OF TRADE FUNCTIONING PROPERLY?

They say it is the only incorporated body in Princeton that can do anything.

There was a man came to town last week to meet his wife, whom he had left in the old country eight years ago. On arriving here he was unable to get a room so the two of them had to walk the treets all night. He left the town next day, and Princeton lost a citizen. The woman was following up a shipment of Stock Fish we received from Sweden.

INTRODUCING THE TEN

When the new Caterpillar Ten completes its pre-view tour of state fair and expositions, it will be the most distinguished and most widely introduced tractor on the market.

All summer and fall the Ten has been rushed across the country and exhibited at all the major fairs. It will have travelled from Atlantic to Pacific, and covered 10,000 miles when the tour is completed.

A suit for damages in Penticton court was dismissed by Magistrate T. A. Pope, a sequel to a collision on the Summerland road between cars driven by R. McInroy and D. Kirkpatrick. The magistrate held both to blame.

IN THE LEGISLATURE

NOTICE IS HEREBY GIVEN that an application will be made at the next session of the Legislature of the Province of British Columbia for an act to incorporate a company under the name of Provincial Telephone Company with an authorized capital of five million dollars with its head office in the city of Vancouver and with the following powers:

To operate telephone, wireless telephone, radio-telephone and similar services, including services for the transmission of sound, pictures, writing or signals; to hold and dispose of lands, tenements and hereditaments of any description; to provide and maintain all such buildings, works, plant, apparatus, materials, offices and exchanges as may be necessary for its business; for the purposes of its business to provide and operate steamships and other vessels; to acquire and use any privilege granted by any Federal, Provincial or municipal authority; to acquire and use patent rights; to advance money to any corporation, company or person for providing building or operating any telephone system; to do anything as contractor for others which it might do for its own purposes; to invest and deal with its surplus funds; to enter upon and break up highways, streets, and public bridges and to construct telephone lines along, across or under the same, or in, under or over watercourses, rivers and lakes, subject to the approval of the city or municipal council where the proposed works are to be situated within a city or municipality, and in other cases subject to the approval of the minister of lands; to construct works on its own property; subject to obtaining consent under the Navigable Waters Protection Act of the Dominion of Canada, to construct, lay and operate submarine telephone cable or cables in any lake, river or water to which that Act applies, also between any islands in British Columbia and between such islands and the mainland; to cut a passage for its lines where such lines pass through woods subject to compensating the owners thereof for damage, and to trim trees on or extending over highways in order to prevent interference with good telephone service; to purchase the whole or any part of the undertaking of any other company having objects in whole or in part similar to those of the company, or to amalgamate with such other company, and to transfer to the company or to the amalgamated company, as the case may be, all or any of such franchise or statutory powers as may be possessed by such other company; to enter into and carry out any agreement with any company whose undertaking is purchased as aforesaid in the nature of assuming the payment of or guaranteeing the payment of principal and interest, or either, on bonds, debenture stock or debentures, or assuming or guaranteeing the carrying out of its obligations or any part thereof; to enter into agreements for connecting its system or lines wtih those of other telephone operators; to expropriate lands under the powers of the Lands Clauses Act; to make regulations for its internal management; to fix from time to time a tariff of charges for its services, and to collect, sue for and recover the same; to borrow money; to issue preference shares, debentures or debenture stock, either redeemable or irredeemable; to issue shares with or without nominal or par value; to change its name pursuant to the Companies Act, and other incidental powers.

DATED the 1st day of November 1928.

A Bad Case of Eczema

Are you reading the weekly Canadian letters, telling stories of suffering from skin diseases and how relief was effected?

Here is part of a letter from Mrs. E. Gibson, Box 1126, Midland, Ont. Write her if you desire. "I had a very bad case of eczema on my face and neck, also scalp. Could not find anything to give me relief. One small bottle of D. D. D. gave me great relief, so then I secured a large bottle, and I am now without a blemish."

The proof of the pudding is in the eating. When a prescription for skin disease has letters of endorsement from nearly every city and town in the Dominion, surely it is enough to convince the most skeptical.

Relief from itching torment is immediate. Try one $1.00 bottle of D. D. D. today on the positive guarantee. And D. D. D. Soap, too.

The Lotion for Skin Disease

PRINCETON DRUG & BOOK STORE

Princeton Second in Customs Collections

Customs returns for the port of Princeton for the month of October were the lowest of the year, but at the same time were considerably better than for the same period in 1927. October's condition seems to be chronic.

The total collections in October 1928 were $1612.83, compared with $1511.15 for the same month last year and $5192.39 for the record month of October, 1926.

Details are as follows:

Importations	$ 683.11	$ 752.91	$3947.08
Excise duty	120.00		240.00
Excise Tax	809.72	758.24	1035.31
Total	1612.83	1511.15	5192.39

Princeton Second

Divisional returns for the past three months show the Princeton is one of the most lucrative of government customs offices in the Okanagan-Similkameen, total collections for the months of July, August and September being $7639.71.

Nevertheless, for the quarter Princeton has to be content with second place, Kelowna being almost $5,000 better, with $12,395.39. The following table gives camparative figures. The average monthly business at the local office for the three summer months was $2546.57.

July	Import Duty	Excise Taxes
Penticton	$ 712.39	$ 480.00
Kelowna	2,923.32	1,029.38
Osoyoos	1,015.65	159.87
Princeton	828.00	1,165.09
Similkameen	352.00	118.52
Summerland P.O.	3.81	1.11

Princeton excise duty, $360.00

August		
Penticton	$ 937.51	$ 911.25
Kelowna	2,558.27	1,343.24
Osoyoos	349.67	93.86
Princeton	639.20	1,341.50
Similkameen	246.45	155.51
Smmerland P.O.	19.20	3.45

Princeton excise duty, $480.00.

September		
Penticton	$1,498.63	$ 552.93
Kelowna	1,339.70	2,357.48
Osoyoos	685.72	169.98
Princeton	1,180.73	1,285.28
Similkameen	22.53	72.47
Summerland P.O.	8.28	1.72

Kelowna sundries, $837.00.
Princeton excise duty, $360.00.

PACKING HOUSES NOW BUSY WITH ANNUAL FRUIT CROP

Okanagan and Similkameen Fruit Harvest Bountiful; B.C. Fruit Scores Heavily

Payments of nearly half a million dollars are being made to fruit growers on the 1928 crop by the Associated Growers. On apples alone cheques for $451,729 were distributed to the various centers, and the soft fruit pools are expected to bring the total to over the half million mark.

Keremeos showed prominently in the apple returns, its share being $12,693.46. The distribution is as follows:

Armstrong	$ 110.10
Grand Forks	6,967.85
Shuswap Lake	4,801.95
Sorrento	3,254.90
Naramata	18,329.05
Oliver	788.10
Kaleden	13,336.50
Kelowna	124,682.31
Keremeos	12,693.46
Peachland	3,980.05
Penticton	55,247.30
Salmon Arm	46,849.48
Summerland	35,266.95
Vernon Fruit Union	108,256.65
Westbank	10,012.40
Winfield	7,151.95
Total	$451,729.00

Ninety per cent of the Macs have been cleaned up and a good start has been made with the Jonathans, though in the latter case the outlook is not very good, as Americans are competing at close prices. Late apples are coloring exceptionally well, and the condition is improving with the advent of frosty nights.

Packing Houses Busy

Packing houses are now experiencing a busy period, the later varieties coming off the trees in rapid succession. Spies, Spitz, Snows, Delicious, Rome Beauties, and Staymens are the most consistent arrivals. There is a heavy demand for boxes.

After Prizes

Seeking honors and publicity, apples from this district have been sent abroad for exhibition. Kamloops took the first prize in the McIntosh class and Oyama led in Jonathans and Newton Pippins at the great Imperial fruit show, Manchester. Quebec took the highest award for Snows, while Nova Scotia won honors for Cox Orange Pippins. The Canadian exhibit was the best ever, and surpassed all others in the show.

Co-operative Distributions

Co-operative Growers have distributed $21,000 and expect to bring the total to $30,000. This includes coverage of soft fruits. A payment is being made on Wealthies, Gravensteins, Cox Orange, McIntosh, Flemish Beauty pears, and Hyslops.

Shipping Steady

Shipping continues steady. Mixed cars are going to the prairies, and Ontario is sending requests for Northern Spy, while Jonathans are being used for export trade. Packing houses are being taxed to capacity, and fruit is being stored wherever space can be found.

At the Occidental Canners, Penticton, last week, one one run 500 boxes of Jonathans were put out. The women worked till 10 o'clock, then men till midnight. Cars are being shipped at the rate of two and three per day, and winter sales are promising.

Fruit Shipments

Interior fruit shipments this year are well in advance of those up to a similar date last year, according to a detailed report supplied by the Interior Committee of Direction:

Apples (boxes)—	1928	1927
McIntosh	579,791	450,597
Wealthy	267700	251,237
Jonathans	32,592	27,140
Other varieties	145,143	150,154
Total	1,026,226	879,128
Apples, bulk (tons	1,128	365
Pears (boxes)—		
Bartletts	45,598	30,991
Flemish Beauty	106,737	29,601
Other varieties	31,172	26,521
Total	183,507	87,113
Plums	93,496	49,624
Prunes (Italian)	168,602	169,167
Corn	4,879	1,529
Cukes	148,729	131,934
Cants, standard	16,559	17,448
Cants, flats	352	3,006
Peppers	12,811	10,957
Toms, semi-ripe	255,266	231,198
Toms, green	45,167	54,133
Silverskins	5,172	5,258
Egg Plant	697	1,012
	Tons	Tons
Cabbage	540	292
Carrots	204	117
Celery	428	430
Onions	6,499	4,695
Potatoes	2,840	2,881

Cheques totalling more than $75,000 have been issued to members of Penticton Co-operative, covering payments for peaches and advances on apples, to Oct. 27. This represents ten cents a box on all other varieties of apples.

Okanagan growers were unfortunate this year in receiving almost exactly as much for peaches as last year, though this year shipments were twice as great. The collapse of the dumping protection cost the growers practically all the difference. Penticton growers claim they might have made an additional $25,000 to 40,000 from peaches alone.

The packed box total of peaches from the co-operative in 1927 was 32,194, bringing in $29,751.48; in 1928, 79,650, bringing $29.225,17.

Market Control

Meanwhile the exact status of the committee of direction and the market control laws remain in some uncertainty. Nothing has happened, however, it is pointed out, to take away the authority of the committee. There appears to be no question in the minds of the supreme court judge as to the right of the province to enact such a statute as the Produce Marketing Act or to control the movement of fruit and produce within the boundaries of the province.

RADIOTELEPHONY WILL GIVE COMMUNICATION MEANS TO ALL

Radiotelephony has been embraced by the British Columbia Telephone Company, with an aim to supply outlying parts of the province with long distance phone service. A charter will be sought at the next session of the legislature for the establishment of the Provincial Telephone Company, subsidiary to the B.C. Telephone Company, to develop this field.

The service will chiefly benefit scattered settlements along the coast, where construction costs for wires would be prohibitive. After a thorough study of this situation and of the new radiotelephony, the company has formed plans for a complete linkage of the province. By a combination of telephone and radio telephone service it will now be possible to communicate with all parts of the province.

Commencing Nov. 11, the Cariboo Highway will be free of all toll charges for the balance of the year, it is announced by the tourist section of the Automobile Club of B.C.

LAND REGISTRY ACT
(Section 160)

In the Matter of Lot 2261 "S" Similkamen Division Yale District.

PROOF having been filed in my office of the loss of Certifice of Title No. 38112F to the above-mentioned lands in the name of Hugh Gillespie and bearing date the 14th. July 1924 I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication thereof to issue to the said Hugh Gillespie a provisional certificate of title in lieu of such lost certificate. Any person having any information with reference to such lost certificate of title is requested to communicate with the undersigned.

DATED at the Land Registry Office, Kamloops, B.C., this 19th day of October, 1928.

E. S. STOKES,
Registrar

Date of first publication October 25th, 1928. 50-5

NOTICE
of
INTENTION TO APPLY TO LEASE LAND

In the Kamloops Land District, Recording District of Yale and situate at Teepee Lakes.

Take notice that I, Gunnar Backstrom of Mazama, B.C., occupation farmer intend to apply for a lease of the following described lands:

Commencing at a post planted at the south-west corner of Lot 4539, Kamloops Division, Yale District, thence 40 chains north; thence 40 chains east; thence 20 chains north; thence 100 chains west; thence 20 chains south; thence 20 chains west; thence 20 chains south; thence 60 chains east; thence 20 chains south; thence 20 chains east to point of commencement and containing 400 acres more or less.

GUNNAR BACKSTROM,
52-9 Applicant.
Dated 19th October, 1928.

WATER NOTICE

Use and Storage

TAKE NOTICE that VANCOUVER POWER COMPANY, LIMITED, whose address is 425 Carrall Street, Vancouver, B.C., will apply for a licence to take and use 930 C.F.S., and to store 196,500 acre-feet of water out of Coquitlam Lake, also known as Coquitlam River, which flows Southerly and drains into Fraser River, about five miles East of New Westminster, B.C.

The storage-dam will be located at outlet of Coquitlam Lake.

The capacity of the reservoir to be created is about 196,500 acre-feet, and it will flood about 722.85 acres of land. The water will be diverted from the stream at a point about 800 ft. Northeasterly from the S.W. corner of Lot 11, Section 7, Township 5, Range 6, West of the 7th Meridian, and will be used for power purposes at Power Houses located in Section 10, Township 5, Range 7, West of the 7th Meridian.

This notice was posted on the ground on the 10th day of October, 1928.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at New Westminster, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The territory within which its powers in respect of the undertaking are to be exercised is within a radius of 100 miles of the aforesaid power-houses.

A petition for approval of the undertaking will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller, any interested person may file an objection thereto in the office of the Comptroller or of the said Water Recorder.

VANCOUVER POWER COMPANY, LIMITED.
(SEAL).
George Kidd, E. H. Adams, Directors.
J. V. Armstrong, Secretary.

The date of the first publication of this notice is 23rd October, 1928 50-4

Report of Minister of Mines Creates Sensation in Mines' Development

ENGINEER NICHOLL'S VERDICT IN LINE WITH STAND TAKEN BY MAJORITY OF B.C. MINING MEN ON PROPERTY

Coincident with the publication of a statement of the minister of mines which threw the balance in favor of that group of engineers condemning the property as a "wild cat" came suspension of activities at the Aberdeen mine and a climax was reached in one of the most peculiar and regrettable cases in B.C. mining history.

I. Rosenthal, president of the Aberdeen mines, is not done yet, however. Accompanying the message to the local manager to stop all work temporarily came a plea to the Merritt board of trade, which has been solid in support of the mine in its strange fight against engineering opinion to call a mass meeting in protest of the mines minister's condemning missive.

While sympathizing with Mr. Rosenthal in his white-hot anger, the board naturally replied that it could not take sides in a difference of opinion between mining engineers, but suggested that a good independent mining engineer be secured to make a report.

The board has in favor of this suggestion the information that the mine is all its owners claim for it; that already ore has been taken out to pay for work done; and the belief that what the operators claim for the property is to a great extent true. They have, too, the moral support of no less a person than E. A. Hagen, mining engineer mining editor of the Vancouver Province, and editor of the B.C. Mining Record, who, at the height of the controversy, made a strong plea for a square deal for the property. The Merritt press, too, has enthusiastically defended the mine. All of which, whether or not the original criticism be justified, is commendable, in support of a struggling mine and a home industry.

On the one hand there is the claim of the B.C. Institute of Mining Engineers exposing the statements made by the mine in a drive to sell stock false and misleading. These statements were vigorously refuted by the management of the mine, and the Institute was challenged to let a party of well known Vancouver business men inspect the mine and judge the case. This did not materialize, but the minister of mines, always keen to settle any question that involves the investment of capital, directed the resident engineer to investigate. The report presented, the minister issued a public statement on the situation, which, something akin to a privy council judgment, came in the nature of a bombshell to the Aberdeen people.

It supported the statements of the Institute in that the stock issue was not a bona fide issue, and the situation and prospects of the mine were being misrepresented. There is, it concludes no appreciable tonnage of ore developed in the mine; what work has been done has failed to give any evidence of such ore values; the new tunnel and shaft work represent expenditures that are unwarranted in the name of mining . . . surely damning statements. And there can be no doubt of the effect of such a statement on the company's aim to raise money by sale of stock. It's stated purpose is "to prevent injury to investors."

Denies Statement

The report, submitted Oct. 15, completely overthrows the leading arguments of the Aberdeen Mines, 1928, Ltd., N.P.L., used in an effort to sell shares and advertised in coast papers.

In answer to the profession that "over 30,000 tons of ore have been uncovered in the 250-foot level," the report says "the mine has not been developed to a depth of 250 feet. No commercial ore has been developed as a result of present operations. The lowest level in the mine is at a depth of 200 feet below the collar of the shaft at surface; it was driven several years ago by the first operators. Some further work was carried out on this level in a second unsuccessful attempt to locate ore bodies at this depth, by Merritt Mines, Ltd., who abandoned the property. No work has been done on this level by the present operatators, who did about 100 feet of work on an upper 150 foot level, which was named by the present operators as the 200 foot level and has been so described by them even after their discovery of the real 250 foot level, which has been described by them as the 250 foot level."

"Conservative estimates," says the advertisement, "place the ore at $10 a ton . . . further development work is proving daily the existence of a main ore body over a greater area. A new ore body of considerable worth is expected to be uncovered shortly below the depth of 265 feet in the main shaft. This will prove conclusively tonnage. Regarding which Mr. Nicholl's reports says: "The lowest point to which commercial ore was found to extend by previous operators is in a small stope that was worked to within a few feet of the 150 foot level; below this point the material that has been described as ore is of the character of a basatic dyke matter in which small amount of native copper and associated copper minerals are found to occur sporadically. This material cannot be considered as a source of commercial ore, and it is therefore apparent that there is no appreciable developed tonnage of ore at the mine.

"The extension of the tunnel on the 150 foot level carried out by the present operators failed to show any alteration in the conditions affecting ore deposition, while the two compartment shaft that is being sunk below the 250 foot level is going down in straight fractured granite that presents no encouragement for the expectation of betterment.

"In regard to further activities, a tunnel has been commenced a distance approximatley 1¼ miles from the mine workings in a crushed area that is assumed to be in continuation of the mineralized zone, but has failed to disclose any ore.

"A double compartment shaft is being sunk at a point about 1400 feet distant from the workings and several hundred feet from the line of possible continuation of the zone towards the south-east.

"The sinking of this shaft is understood to have been conceived in connection with the delivery of ore to a mill site and to have been sited as a result of dip needle observations that would be entirely unreliable under the condition."

Blasting as such statements may seem Merritt does not intend to accept defeat without a fight, it seems. Especially is the company and its advocates taking sisue with Engineer Nicholl's report. Merritt is not slow to remember that on April 4, following an inspection Mr. Nicholls, addressing the Merritt board of trade, spoke favorably of the Aberdeen as a mining prospect. His one criticism was that the management was in too much of a hurry to sell ore rather than develop the property. Mr. Nicholls, it is held, had not one derogatory word to say against the mine, and further force is brought to bear on his change of attitude by reference to a letter alleged'y written by Mr. Nicholls two months ago to the department of mines in which he is held to have said: "At the present time the operating company is doing speculative work in continuing development and as a speculative undertaking I should be sorry to see it discontinued—the main substance of Mr. Haggen's report (recently published in the B.C. Mining Record a plea for a fair deal to the mine) appears to be fair and in accordance with facts.

Wolverton and Company, Vancouver, chiefly concerned with the stock issue term Mr. Nicholls' report a "very drastic and unfair diatribe against the company," adding, "we have seen many instances of engineers disagreeing violently with one another, but this is probably the first instance in B.C. mining history where one engineer has exercised such a thorough-going disagreement with himself with the short space of three months."

Opinion Changed

Why, asks Merritt, if Mr. Nichol's views as expressed in the minister's statement be his true opinion, did he not offer some constructive criticism April 14? "If Mr. Nichol disagrees with himself it is his own concern. But when he disagrees so violently with a favorable report on the mine by A. E. Haggen, a fully accredited mining engineer of 30 years' standing, in the profession it is a matter of public concern. Especially is this so when it is recalled that Mr. Haggen spent five whole days making a minute examination of the property and submitted a very complete detailed 23-page report, accompanied by mine maps."

The situation is embarrassing. Undoubtedly, British Columbia wants clean mining and protection of investors' capital; but no one would suggest discouragement of a legitimate enterprise if it be such. Merritt urges that thousands of dollars' worth of ore have been taken out of the mine in the past, and the present road into the mine, which cost about $27,000 was paid for out of ore taken from the shafts.

It is not surprising that Merritt board of trade is urging an inspection by a competent and disinterested engineer, and in addition is also asking the minister to supply the report of J. D. Galloway, provincial mineralogist, who it is understood recently inspected the mine.

Had Planned Work

The Aberdeen mine had planned a vigorous winter campaign, and was to employ 30 men. A new camp was to be opened at Ten Mile. In the tunnel it was planned to follow the recently struck twelve-foot lead. The main shaft was to be sunk to 300 feet and ore shoots and drifts opened east and west. Nice showings were reported in No. 2 shaft. A new shoot of bornite was reported encountered, which was hoped would increase values. A 50-ton pilot mill was to have been installed, and concentration started on its completion.

The holdings comprise 10 claims and extend over some 400 acres. While the mine is 19 miles from Merritt, it is only 13 miles from rail connections at Coyle station.

COAST TO CALGARY SERVICE

An all-Canadian direct telephone circuit from Vancouver to Calgary is now in operation by the British Columbia Telephone Company, giving faster service and better transmission between coast and Alberta points.

The new line follows a route via Kamloops, Revelstoke and Field. In the past it had been necessary to route all Alberta-Coast calls over this service via Helena, Montana, and Seattle, Washington.

The acquisition of various government lines in the interior of the province no doubt played an important part in the decision ot construct the new circuit, as business formerly had not warranted this step.

The new all-Canadian line required the stringing of 500 miles of wire, and the installation of amplifying equipment at Kamloops, Chilliwack, Revelstoke and Field.

Vancouver-Merritt-Princeton

Construction is well under way of the necessary new mileage of wire for the Princeton-Merritt line, via the Kettle Valley Railway, giving Princeton direct connection with the coast. At present the service for Okanagan points is via Kamloops and Vernon.

Princeton Paragraphs

We specialize in engine work. See our mechanics. Burr Motors Ltd. 1-1

Miss Phyllis Pughe celebrated her eleventh birthday Saturday.

Mr. and Mrs. G. P. Jones of Hedley were Princeton visitors Saturday.

Mr. Wm. Filmer had the misfortune to drive over the bank near McKenzie Lake Monday morning.

Allan Clark returned Monday morning after spending the holiday week-end at his home in Mission.

Walt Gill, local provincial police constable, returned from escort duty at the coast Tuesday morning.

Batteries charged; service batterise to rent. Burr Motors Ltd. 1-1

If you haven't filled up on anti-freeze yet, this is a good time to do it. Princeton Garage Ltd. 1-1

H. Armson of Greenwood, well known to former boundary residents was a visit to Princeton Sunday.

Let us give your car her winter tune-up. Make your motor start easier. Burr Motors Ltd. 1-1

Mr. McKenzie, the "Laird of Tullochard," has a pet lynx at McKenzie Lake, which attracts the interest of visitors.

Mr. Leach's position as mechanic with Burr Motors Ltd. has been taken by W. Roberts of Vancouver, who comes well recommended.

Mr. and Mrs. Dallow entertained Thanksgiving Day. Among the guests were Miss M. Gorringe, Miss M. McKay, and Mr. Stan Mounce and Mr. Stan Pughe.

WHIZ anti-freeze is a glycerine product and will not boil away. In fact you can drain it off and use it again next year. Princeton Garage Ltd. 1-1

Miss Norma French, now employed on the teaching staff of the Port Honey school spent the Thanksgiving holiday in Princeton the guest of Mrs. Chas. Tupper.

W. C. McDougall, now of Olalla, but one of Princeton's most prominent citizens twenty-five years ago, is in town on mining business and is renewing acquaintances with old cronies.

Mr. Goldie Leach and family left last week-end for the coast, where Mr. Leach, a first class automotive mechanic, will work. The Leach's made many friends during their stay in Princeton.

A record attendance for all time was set for the Princess Theatre Saturday night. The picture was "The Noose." With pictures of the class she has been showing lately, Mrs. Garrison is sure to have packed houses.

Mr D ve Bender, bookkeeper for the Lynden Coal Co. here, and Jas. Dyke, in charge of construction work, are at Lynden, Wash., attending to business in connection with the Lynden Egg Association, in which they are interested.

Another lot of sheep were taken down by the G.N. last week to the Sterling Creek Ranch, Hedley, Mr. R. D. McRae coming up to Princeton to superintend the transfer. Mr. McRae has quite a flourishing flock, and is doing well.

Don't forget—when you change your oil and graes we have the AMALIE sub-zero oil. Pours freely at 10 degrees below zero; and WHIZ sub-zero gear grease; clings to your transmission gears in any weather. Princeton Garage Ltd. 1-1

Wm. Meurer of Lynden, Wash., is here in the interests of the Lynden Coal Co., and may be stationed here permanently. Mr. Meurer is a keen supporter of sport, and has twenty years experience handling basketball affairs. It is to be hoped he is quartered here for some time.

The masquerade ball held under the auspices of Hedley Hospital Society Thursday night was a conspicuous success, and attracted many merry makers from the upper valley. Some novel competitions added to the popularity of the function. It was, too, a success financially.

We quite unintentionally caused the ladies of the Women's Institute, Keremeos, a little annoyance last week, when in the make-up of the paper, notice of a social function, which should have appeared in the Keremeos column, bobbed up amidst the Copper Mountain notes. No doubt our Copper Mountain readers were wondering when and how their camp had acquired a Women's Institute.

The attention of Star readers is directed to the announcement appearing in this issue of Thos. Daly of Keremeos as district agent of the Sun Life Insurance Company. Tom has quit the ranch and moved his family into Mr. R. H. Carmichael's house at Keremeos. He made his first visit to Princeton last Friday in connection with his new line of work and was accompanied by Mr. H. A. Fairbairn of Kelowna, manager for the Sun Life in the interior. Tom's wide acquaintance and long residence in the valley, coupled with his genial personality should ensure his success in his new line of endeavor. We have much pleasure in introducing him to our readers as district representative of a strong life insurance company that is one hundred per cent Canadian.

Dobie; recitation; dance, Catherine Foster; solo, J. Francis; instrumental number, M. Foster; vocal trio; Scotch comedian; vocal quartett; "Southern Melodies," choir; chairman's remarks; solo, J. Francis; recitation; solo, Miss M. Dobie; dance; Scotch comedian; duet, Mrs. Dobie and H. Foster; and an amusing skit, the "Matrimonial Agent."

* * * *

Ladies' Aid met last night at the home of Mrs. G. Allen.

* * * *

Bazaar Success

The bazaar held under the auspices of the St. Cuthbert's Ladies' Guild was a great social and financial success. Everything was sold out and enough money was realized to pay off the note given for the purpose of renovating the Parish Hall. Archdeacon Heathcote of Vancouver was present and opened the bazaar with a few words.

* * * *

Meets Committee

Archdeacon Heathcote during his stay conferred with the chruch committee on plans for carrying on the work of the church for the coming year.

MODEL TRAFFIC BILL

Lights for horse-drawn vehicles; parking on Main street at an angle of 45 degrees, with no vehicle longer than 14 feet allowed to park; "no parking" in front of theatres and like buildings; a special parking street for trucks and the establishment of one stop street are the features of a new traffic by-law being prepared by Penticton council.

TAX PAYMENTS BETTER

Tax payments in Penticton prior to the falling due of the penalty on Nov. 6 have been the greatest in the history of the municipality. Approximately 90 per cent of taxes have been collected compared wtih 87.03 per cent for 1927. This year collections were $102,000 out of a possible of $114,301.35, while in 1927 collections were $99,803.15 out of $113,068.35.

With the fine weather prevailing Princeton golfers are still able to indulge in their favorite pastime. Golf in the middle of November, we believe, establishes a new record here.

PET DEER DEAD

"Billy" is dead. The affectionate pet at Echo Lodge, Paul Lake, came to a sad end recently. Billy wandered down to Kamloops junction from the lake and pending the arrival of a game warden was put in an enclosure. Hounds scented him, and when found the deer was so badly mutillated that he had to be killed "Billy" was a gret favorite with Kamloops folk and tourists alike, and stood for "shooting" by hundreds of cameras. Lately he had grown very strong and delighted in exercising his ten-inch horns with any who would engage in a tussle.

PRESS BY-LAW AGAIN

Twice lost, Penticton will likely have the $40,000 creek protection by-law thrust on them again, Jan. 19. The recent ballot fell one-fifth of a vote short of giving the necessary two-thirds majority. Five hundred out of a possible 800 voters did not vote. The council points out the urgency of he work, and is opposed to reducing the levy to $25,000 as suggested.

Every issue of the Family Herald and Weekly Star of Montreal is worth the year's subscription price to the farmers of Canada, and farmers' families rejoice in getting the addition of a superb magazine.

COMING EVENTS

Saturday Night Dances—Commencing on Saturday, Nov. 17th, the Princeton dance orchestra will hold a dance every Saturday night during the winter months, 8:30 to 12. Admission 50c. "Music with a rythm."

KEREMEOS NOTES

Mr. and Mrs. McCallum had their furniture moved over to Penticton on Thursday and on Friday went over to take up residence there. They will be greatly missed here but we hope to see them over often. Their departure following so soon after the Daly's, makes the far end of the bench more deserted than ever, there being now only three houses occupied. We hear, however, that their house will shortly be occupied again and we hope to see more people coming in to fill up the empty houses.

* * * *

Mr. and Mrs. Wallace Knowles went over the bank in their big car when descending the Nickel Plate road. We are glad to hear that while Mrs. Knowles had her ankle hurt, they escaped serious injury.

* * * *

W.I. Sale

The W.I. held their annual sale on Saturday. There was a good display of home cooking and fancy work. The fish pond did a roaring trade until sold out and most of the youngsters had one or two "fishes." The afternoon tea tables were popular and the sale proved quite a success financially. Armistice poppies were sold on behalf of the Legion.

* * * *

Mr. and Mrs. McGuffie spent Thanksgiving at Uber Villa.

* * * *

Surprise Party

On Thursday evening a surprise party in honor of Mr. and Mrs. Crooker and Fred was held at the home of Mrs. O. H. Ring and was under the auspices of the Ladies' Aid. The evening was spent in games and singing and at the close Mr. and Mrs. Crooker were presented with a silver casserole, pyrex lined. Mrs. Echlin made the presentation, while Mr. Colwell made a speech thanking Mr. and Mrs. Crooker for the work they have done during their many years for the church and expressing great regret at their departure. Mr. Crooker replied expressing their appreciation of the kindness of their friends in holding this farewell party and presenting them with such a handsome gift. The evening closed with the singing of "For They Are Jolly Good Fellows."

* * * *

Mr. Lucy, who has been managing the Dominion Canners' plant during the summer has now returned to the coast. Mr. E. C. Armstrong is in charge of the cannery for the winter.

* * * *

Mr. and Mrs. Frank Filingham are over from Oliver, the guests of Mr. and Mrs. Lorne Coleman.

* * * *

Held Service

Both churches united ni holding the Armistice Day service in the Victory Hall. The hall was crowded. Mrs. Innis presided at the organ, with Mrs. Liddicoat and George Echlin playing their violins. Mrs. Willis sang Flanders Fields" and Miss Ellice "Shipmates O' Mine." Rev. T. C. Colwell, M.C., preached a splendid sermon.

CAWSTON NOTES

The Ladies of the Cawston Women's Institute and the Women's Auxiliary will hold their annual bazaar on Thursday evening, Nov. 22nd, at 8 o'clock. There will be a sale of hand embroidered linen, cushions, aprons, etc., home cooking, fish pond, guessing contests, and refreshments will be served. 1-1

CAWSTON SCHOOL REPORT

Division I

(Miss Mildred Smith, teacher)

Grade V—1, Eileen Rooney; 2, Dorte Nielsen.

Grade VI—1, Elizabeth Advocaat; 2, Billy Tickell.

Grade VII—1, Jacoba Advocaat; 2, Kenneth McKenzie.

Grade VIII—1, Sine Nielsen.

Perfect Attendance—Elizabeth Advocaat, Dorte Nielsen, Gladys Roblin, Eileen Rooney.

Division II

(Miss Margaret Smith, teacher)

Grade I—1, Nelson McIntosh; 2, Ronald Manery.

Grade II—1, Josephine Hall; 2, Richard Shemilt.

Grade III—1, Lila Suiter; 2, Jack Cawston.

Grade IV—1, Eileen Tickell; 2, Richard Cochrane.

Perfect Attendance—Marvin Suiter, Richard Shemilt, George Carr, Richard Cochrane, Lila Suiter.

COPPER MOUNTAIN

The Ladies' Aid are planning a bazaar for Saturday, Nov. 24th. From advance reports it is assured an overwhelming success.

* * * *

Armistice Day was remember by the school children with a program on Friday, the speaker being Mr. A. C. D'Altroy. On Saturday the senior girls sold poppies, realizing $26.05.

* * * *

Rev. J. C. Goodfellow paid his regular fortnightly visit.

* * * *

Elmer Trusty had the misfortune to break his arm whilst on the play ground. To everyone's surprise he is back at school today.

* * * *

A successful whist drive was again held under the auspices of the school board.

* * * *

Mrs. Bulmer, who has been visiting at the home of her daughter, Mrs. Mahon, leaves tomorrow for her home in New Westminster.

COALMONT NEWS

Mr. Isaac McTavish has returned from a trip to Vancouver where he had gone to meet his brother, Mr. A. McTavish, who was on his way back home to Australia. The brothers had not met for over fifteen years. Ms. A. McTavish is the Australian representative of the Dearborn Chemical Company, and was over on a visit to the various branches of the company in Eastern Canada and the States.

* * * *

Born—To Mr. and Mrs. Joseph Vickers on Oct. 31st, a daughter, Ramona Rose, mother and daughter doing well.

* * * *

Mr. and Mrs. J. Armstrong have moved up from Vancouver and have taken up residence in the Bungalow. Mrs. Frank Taylor and Mrs. Albert McLean are daughters of Mr. and Mrs. Armstrong.

* * * *

George Miller has purchased Jim Smart's Durant car. Jim is getting another car, but is using a Cleveland of Bill Dailey's in the meantime.

* * * *

E. R. Mabee and bride arrived in Coalmont and have taken up residence in Johnny D'Angelo's old house. Mr. Mabee is employed on the tram crew.

* * * *

Mr. A. L. Flint has suspended work for the season on the Swan placer claim and returned to his home in Seattle.

* * * *

Mrs. C. R. Malcolm is spending the week in Vancouver.

KELOWNA BASKETERS WILL INVADE PRINCETON TONIGHT

(Continued from page one.)

The Hotelmen introduced new tactics in the second half, and opened with a deluge of points which restored to them the lead. They were ahead six points, but the Star rallied, and took the lead by two points. It was a ding dong battle, right up to the last minute, with the score in doubt to the end.

Luckless Whites

The name White must be unlucky, for the Al. representatives fared as poorly as the same male nominees and dropped their final and fourth game, 11-7. They have lost all their games by small margins.

On the play there was very little between the teams, but the Cook girls got the breaks and used their chances better.

Licked at Last

After proving themselves invincible all the way, Princess Theatre fell prey to the usual ill, and trotted out a team minus their stars, and as a result they took a nasty knock on the chin from the lowly Cash Store. It was a good contest, with the Cash Store forwards responsible for their team's success.

Coles' Win

In a fast and well handled contest Coles' again took the measure of Peg White's and thereby forced out the latter to share with A. L. White's the ignomy of being the only teams to finish without a win the whole fourteen.

Had they used their chances, the sharpers might have trimmed the leaders but they failed to work effectively and were weak under the basket. The game was not up to intermediate standard.

Tulameens Triumph

I was left to the younger boys to provide the best exhibition of the night among the youngsters. The little fellows stepped right into it and put up a remarkably fine exhibition, the best of the league series. Bill Garrison played a great game, and was chiefly responsible for his team's victory.

Similkameen got the jump but a lucky basket by McConnell gave the Johnson representatives their chance, and they were never again headed.

ANNUAL SMOKER PROVES BIGGER SUCCESS THAN EVER

(Continued from page one.)

fair, and one joke—provided the necessary blood to mix with the smoke, sandwiches, and liquid goods. Bill and George Francis, Princeton, fought a draw; Roy Carrington and Red Mills, Allenby, were also in a draw, as were Geo. Robertson and Jim Norman, while Ollie Carrington won from Tom Coles, both of Allenby, in the best bout of the night.

The Francis boys put up a surprisingly good exhibition, and while they showed many faults, and evidently lacked experience, they gave all they knew, and it was well worth while.

George, the younger and heavier, possesses a really good left, and had he used it more effectively, he would have given his big brother a lot of trouble. Bill did most of the forcing, but did not give George much trouble. Both were a little wild in their blows.

Bill landed first, but George scored three solid lefts. Bill got in a left to the head, and a body right. George started the second with two rights, and they milled. They slowed down, each scoring two good punches. They came back in the third round Bill leading and forcing George to cover up. Bill scored with a hard right. George opened strong in the fourth and last, and they swapped blows toe to toe. Bill had George on the ropes, but he broke away cleverly and landed hard. A draw was very fair.

Ollie Carrington and Tommy Coles, featherweights, put up a really good scrap. Coles has been fighting only a short time, and found Carrington too clever and too strong, but certainly gave all he had.

Carrington forced at the start, and chased Coles around the ring, landing lightly. Coles fought back in the second, and got his left working. The round was even, each scoring in turn. The effort played Coles out, however, and Carrington was all over him in the third, and was practically out on his feet.

Brother Roy and Red Mills danced and drifted through three mediocre rounds. Roy showed lots of footwork, and wanted to force, but Mills waited for him, and Roy simply couldn't get over his defense. In a longer bout, Mills would have shown much better.

Carrington landed at first, Mills retreating and poking an odd left at his chin. The second was faster, but only four good blows were landed, Carrington scoring three. Mills had three of the five solid punches in the fifth, and was giving Carrington some trouble.

In a mirth provoker, Jim Norman and Yorkie went three rounds to a draw. Jim Norman refereed the three main bouts.

Appeals for Support

H. W. R. Moore, newly elected president of the local branch of the Legion, made an appeal to all ex-service men to affiliate with the legion here. He occupied the chair.

PHEASANT SEASON CLOSES; DEER ATTRACT ATTENTION

Pheasant shooting closes today, and, while the season has been a favorable one with respect to weather conditions and the number of these splendid game birds to be seen before the opening fusilade, there does not appear to have been any heavy slaughter and there should be plenty left for seed next year. Sportsmen and ranchers alike in the lower valley complain of this year's amendment to the game act which prohibited the shooting of Hungarian Partridge, better known locally as "Huns." These attractive little game birds were very numerous this season, and why they should have been protected appears to be a mystery. Though much smaller than the pheasant they are more destructive in the gardens and orchards, and in the interest of the fruit and vegetable growers should be kept within bounds, to say nothing of the sport which is unreasonably withheld from the hunters.

The deer season continues open till Dec. 15 and with the advent of cooler weather more interest will be paid to the bucks. Killings should be more frequent. They have been very scarce to date.

BUTTERFLY FLUTTERS BUT SNOW FALLS AS WELL

A white butterfly, of the species that frequents the cabbages on a balmy June day, was seen in the kitchen of Constable Thomson Wednesday night. Constable Thomson thought that this might portend a second Indian summer but just as the message came over the first flakes of "the beautiful" began to fall.

Farming First—The Family Herald and Weekly Star, Montreal, Canada's National Farm Journal, and a home magazine included. A year for a dollar or three years for $2. Wonderful!

DANCING
Commencing Saturday, Nov. 17th
THE PRINCETON DANCE ORCHESTRA
will hold a Dance every Saturday night during the winter months in the Orange Hall from 8:30 to 12 p.m. Admission 50c each.
"MUSIC WITH A RYTHM"

Manufacturers' Goods

Our Dry Goods Department is complete in all classes of merchandise. We are prepared to give you higher class goods at less prices. The greater part of our merchandise is now being bought direct from the manufacturers. You benefit as the jobber's profit is eliminated. Better class merchandise at less prices.

Ladies' Aprons

Just received another shipment of Ladies' Mayday Aprons, guaranteed fast colors, stylish cut, newest patterns, and perfect fitting. Excellent values at 90c each. Direct from the manufacturer.

Ladies' Dresses

A wonderful range of Ladies' Rayon Dresses, varied range of colors, beautifully trimmed and perfect fitting, runproof lockstitch weave, guaranteed non stretch. Sizes 32 to 44. Good values at $15.00, buying from the manufacturer allows us to sell these at ..... $9.75 each

Underwear

We are headquarters for underwear, our stock is complete in all sizes for ladies, men and children. Separate garments or combinations in the best makes. These goods are bought direct from the manufacturers, prices lower and all lines guaranteed.

Men's Work Garments

Including Overalls, Pants, Smocks, Shirts, Coveralls, Shoes, Caps, in fact any line for the working man bought direct from the manufacturers, thereby giving you better values and lower prices.
