Police Blotter

Theft and Vagrancy

In police court this week one transient was given 30 days on a charge of vagrancy and another a similar term on a theft charge.

BIRTHS

LAFROTH—To Mr. and Mrs. F. Lafroth of Hedley, at Princeton Hospital on Friday, 10th July, a son.

OBITUARY

STADUHAR

Death occurred Friday of Stanley John Staduhar, two-year-old son of Mr. and Mrs. J. Staduhar of Coalmont. The funeral will be held Sunday from St. Peter's.

NEWS BRIEFS

☆ **THE HAY CROP** is now pretty well harvested. It has been a particularly good one this year.

☆ ★ ☆

☆ **RAGS is dead.** The faithful and sagacious old attache of the Lindsay family cashed in his checks wearily on Sunday. Rags, a big, loyal Airedale, has been a great favorite hereabouts for the past ten years or more.

☆ ★ ☆

☆ **AN EXECUTIVE MEETING** of the Princeton Liberal Association was held Tuesday night and many matters were discussed for presentation at the provincial convention at Vancouver.

JOURNALISTS VISIT

A GROUP of distinguished newspapermen are in Princeton today. The party includes Mr. J. T. Dutrizac of Toronto. Mr. G. W. Rose and Mr. R. Fraser of the Courier, Kelowna, Mr. W. S. Harris of the Vernon News, and Mr. R. J. Mc Dougall, Penticton Herald.

WEDDINGS

Crowther-Lawrence

THE home of Mr. and Mrs. H. Lawrence was the scene of a pretty wedding of wide local interest when their younger daughter Mabel Elizabeth became the bride of Mr. Freeman Seville Crowther, son of Mrs. J. W. Crowther and the late Mr. Crowther of Vancouver. The ceremony was solemnized on the afternoon of Wednesday, 22nd July, Rev. C. H. Ballard of Keremeos officiating.

The bride, given in marriage by her father, looked charming in a gown of white silk net and veil of embroidered net held in place by wreath of orange blossoms. She carried a shower bouquet of pink carnations and white sweetpeas. Her sister Miss Iris Lawrence a bridesmaid was gowned in pale green chiffon with hat to match and carried a bouquet of sweetpeas. Mr. Roy Pavey supported the groom.

The marital knot was tied beneath an arch of flowers and evergreens, from which was suspended a large white wedding bell. Mrs. Ballard provided the wedding music.

Following the ceremony a reception was held in adjoining rooms, the table being centered by a large wedding cake.

With the felicitations of their many friends resounding, Mr. and Mrs. Crowther left by motor for Seattle and Coast points. For travelling the bride wore a suit of navy crepe trimmed in gray, with gray accessories. On their return they will reside in Hedley.

Guests included Mrs. J. W. Crowther, mother of the groom, Mr. and Mrs. Fred Philbrook, sister and brother-in-law of the groom, Mr. and Mrs. Roy Pavey, all of Vancouver; Mr. and Mrs S. L. Smith of Hedley who on the previous day had celebrated the fiftieth anniversary of their wedding, Mr. and Mrs. C. V. Prosser of Princeton, aunt and uncle of uncle of the bride; and Mr. Gordon Barker.

The bride and groom were the recipients of many beautiful gifts.

TO CLOSE OUT AIRPORT AT END OF JULY

Department of National Defense Through, So Office Staff Is Dispensed With

MAY WORK HERE

Flames Sweep Acrsoo Newly Mown Field

PREPARATIONS are being completed for the closing out of the divisional headquarters of the Department of National Defense at the Princeton airport.

Materials and equipment used in various relief work projects in the district are being stored here. A carload of equipment was shipped out to the Victoria provincial headquarters this week but most of the material will be stored here.

The camp will be formally closed out 31st July, only a ceretaker or two being left. This is in line with the closing of the relief camps which for the past five years have been administered by the Department of National Defense. At one time more than six hundred men were quartered in the district with an administrative staff of ten to fifteen mantained at the divisional office at Princeton.

May Continue Work on Airport

It is believed that some work may be done on Princeton airport under the Federal government's announced plan to improve all fields in Canada on the established route. The work, however, will be undertaken by the newly established civil aviation department. As far as was known the local administrative staff would simply be "through" at the end of the month. The camp men were transferred to various railway projects a month ago

All Successful In First Aid Examinations Here

ALL candidates who wrote examinations of the St. John Ambulance Assn. at Princeton center last spring were successful in making the desired rankings. The list follows:

Certificates (1st Year)—Henry T. Cunliffe, John D. Lancaster, William Tymchuk.

Voucher (2nd Year) — John J. Gibson, Victor Long.

Medallion (3rd Year) — James Brown, Phyllis Mitchell.

Label (After 3rd Year)—J. Gillham, Gordon Gibson, Andrew Muir, John Yates.

HONORS WERE WELL DIVIDED

Princeton, Hedley and Coalmont Share Trophies In Ambulance Meet

THE three mining centers of the Similkameen shared honors almost equally in the field day of the Princeton and District Ambulance and Mine Safety Association Dominion Day.

Revived after a lapse of two years, the event was the center of considerable interest and reflected healty attitude towards this important service to a mining community.

While honors were divided with almost mathematical exactness, Hedley, as a recent recruit to the fold, can perhaps claim a moral victory—as well, of course, as a substantial load of practical satisfaction in the form of trophies and prizes of excellent quality, of which Princeton and Coalmont-Blakeburn also drew their

[Continued on Page Three]

Similkameen Folk On Pilgrimage To Vimy

SIMILKAMEEN is well represented on the veterans' trek to Vimy. Included in the list of local 'pilgrims' are Mr. E. J. Rotherham, accompanied by Mrs. Rotherham; Mr. Bob Taylor, accompanied by Mrs. Taylor and children Robert and Annie; Mr. D. S. Atkinson and Mr. T. Greenwood, all of Princeton; Mr. J. H. Innis and son of Hedley; and Mr. R. D. Carmichael of Similkameen.

GOLDEN ZONE IS REOPENED

Drilling Under Way As Vancouver Man Takes Over Hedley Property

OPERATIONS have been commenced on the Golden Zone property on Nicke Plate Mountain. Mr. James Taylor of Vancouver has taken over the claims and has a crew at work cleaning out the shaft and tunnel and diamond drilling is in progress. It is reported that good ore has been encountered in the core not far from the surface.

The property is one of the oldest and best known in the Hedley camp and is believed to have considerable promise

It was held by Mr. Dunc Woods. Mr. S M Nechiefman and associates did considerable work on it a few years ago but were forced to abandon the work at an interesting stage.

Chinese Funeral Was A Colorful Pageant

PRINCETON witnessed the rare and colorful spectacle of a Chinese funeral last week. Venerable Hop Yick, better known as "Old Sam", familiar to all as the keeper of the Chinese store back of White's hardware, went to join his ancestors in the land of shades and his country men accorded him all the mystic oriental protection that custom demands. They burned the holy prayer papers at the grave-side (but no one saw them burning any Star's).

A peculiar custom, they gave a token to every attendant, so Perley is the richer by a piece of candy and a dime. He put the candy in stock, but is keeping the dime for luck.

Everyone knew and liked old Sam. He was a familiar figure about town; of late his appearances have been rarer and on Thursday he passed on. He had been here 15 years. He was aged 55.

The Chinese are a very devout and sincere people, and the funeral service is a remarkable spectacle of Oriental mysticism.

Princeton Paragraphs

☆ **Mr. Ted Cook is down from Coalmont to-day.**

★ **Miss A. Knowlton, matron of the Princeton Hospital, is holidaying at Banff.**

☆ **Isabelle White entertained a number of her friends on the occasion of her birthday Friday.**

★ **Mr. Wes Young has relinquished his position with the Interior Contracting Co. on the Penticton city**

Mr. and Mrs. G. G. Lyall spent a few days motoring in the Boundary country.

☆ **Mr. and Mrs. W. Tymchuk motored to Hedley on Tuesday evening to visit friends.**

★ **Miss Vera Powell, now a nurse-in training at Vancouver General Hospital, is the guest of Miss Margaret MacDonald for a few days.**

★ **Mr. Bob Edwards is relieving at the liquor store, Mr. J. B. Forsythe being on vacation. He is spending a few days in Vancouver**

★ **Miss Jessie Adamson of the telephone staff is holidaying in Vascouver. Miss Iris Lawrence has taken over night duties.**

★ **Mr. Louis Schulli is convalescing here after receiving three broken ribs while at work on the city of Penticton storage dam near Naramata.**

★ **Perley Russell took his turn at the cemetary Sunday. It shows a fine spirit the way these gentlemen attend to its needs. The trees are coming along fine.**

☆ **Mrs. M. A. Kenny who has been ill for a few days is considerably improved and leaves Friday morning for the Coast, after spending the spring and early summer here. She has latterly been a guest at the home of Mr. and Mrs. Howse.**

☆ **Rev. J. C. Goodfellow has received a letter of confirmation from His Honor Judge F. W. Howay who will deliver the feature address at the annual banquet of the Similkameen Historical Society on 20th August. The topic will probably be "Historic Sites of B.C." The noted jurist-historian is now visiting in Winnipeg and will shortly proceed to Hudson Bay region.**

★ **Fishing is a popular sport these days with swimming a close second. Lightning lakes are now more accessibleth rough the road having been extended. Misezula lake, Roche river, and both the Tulameen and Similkapeen are popular with the Waltonians. while streams up Otter valley are reported on favorably. The hot weather has attracted many to all spots where there is water easy of access. The favorite spots at Princeton are the Great Northern and Copper Mountain bridges while both Hedley and Princeton natators of the more expert type gravitate to Kate's rock. Tulameen lake of course remains the best spot in the valley. The old river hole at Keremeos is drawing better than ever.**

Grasshoppers Infest Jura, Five Mile Range

A VERITABLE PLAGUE of grasshoppers is infesting the Jura range, and residents are becoming alarmed. A similar visitation occurred some years ago and was eradicated by a vigorous campaign. The provincial government has just set aside a considerable sum to cope with the Nicola scourge and it is hoped that similar assistance will be forthcoming here.

GOOD STRIKE AT GOLD MT.

Ore Encountered In New Raise Results In Stock Advance

A favorable strike of ore has brought cheer to supporters of Gold Mountain. The ore has been encountered in the new raise in the long tunnel and considerable importance is attached, as it throws important light on the extent of the ore body.

Operations under Frank Dollemore are being directed with this idea in mind, to establish the extent of the ore as a guide to future operations.

The position of the Dentonia is uncertain. The Green wood people are believed to be retaining some sort of option during the exploration period.

The recent success was reflected in a gain on the curb, the stock rising a full point to 13¾.

LATEST reports from the Golden Zone are that the drilling has disclosed commercial ore ahead of expectations. Work is continuing.

Visit Of Official Gives Hope For Placer Plan

NEW HOPE was given the Similkameen's potentially momentous placer operation when Mr. Beardon, one of the Eastern principals, appeared in Princeton Wednesday. He made no statement but his presence was significant.

A group of Easterners have taken over more than one hundred leases along the Tulameen river. A few weeks ago preparations were being made for extensive tests which would determine whether one of the biggest placer schemes ever undertaken on the continent will be proceeded with. Nothing had been heard for some weeks.

Mr. David Jennings of New Westminster is field agent for the operation.

SIMILKAMEEN SWELTERS IN HEAT WAVE

THE SIMILKAMEEN is sweltering in one of the hottest spells on record, in common with the entire mid-west and north-west. At Princeton the mercury read 98 on Tuesday while over 100 was reported at Hedley and 105 at Keremeos, with Oliver oven hotter.

The cause is indeterminate. Percy says it is due to the converse reciprocity of Venus on Mars through the longitudinal meridian, but Perley says a Liberal convention is undoubtedly in the offing.

With high temperatures comes low humidity and depressing atmosphere, the total effect being really oppressive. The relative humidity got down to 21 per-cent on Tuesday.

Prospects are uncertain. There is no mechanical sign of relief indicated, but experience suggests that in view of the sudden descent of the heat electric storms may be expected before long.

NEW ELECTION IS REQUIRED

Meeting of Ratepayers To Name Successor To A. E. Irwin Set For July 29

JUST THREE DAYS after Princeton School District had done its washing, including a little dirty linen, for the year—as it thought—it found a brand new problem presenting itself. Whether it will prove a quick machine job or whether it will require some old fashioned scrubbing remained to be seen.

The immediate business is the election of a new trustee. Mr. A. E Irwin resigned, giving pressure of business as his reason. He has taken a contract which will necessitate his absence from town for a few weeks.

The meeting to elect a successor has been set for 29th July. The vacant term has a year to run.

Mrs. E J. Avery is mentioned as a possible candidate.

Keremeos Wants A Better Showing

KEREMEOS wants a little better results from its teachers in the future. It definitely said so on Saturday evening when the ratepayers laid down certain definite commandments to the trustees. In the future, it was instructed, mere academic qualifications shall not be enough. Inspector's ratings shall be obtained, and social and athletic activities will be expected along with mere school-room teaching.

Keremeos will have three new teachers when the new term opens. Dissatisfaction has been general over last year's showing.

For the first time within local memory Keremeos finds itself with a fully male school-board. The guiding hand of woman has always been felt in the past, and more than once they have been dominant. Mr. A. M. Webb is the new appointee, going on for a three year term.

The estimates are slightly reduced from last year, with $3900 appropriated as against $4300. No changes of importance are planned.

GOLDEN WEDDING

MR. AND MRS. S. L. SMITH of Hedley received the felicitations of many friends on Wednesday, the occasion of their golden wedding anniversary. A detailed account will be given in a later issue.

Cawston Turns Down Consolidation Plan

CAWSTON is not prepared to surrender its local rights for the possible advantages of consolidation. The idea of a consolidated school was voted down at the annual meeting of the ratepayers last Saturday and Cawston will continue to administer its own affairs as in the past. No important changes are planned. Mr. Geo. Wainwright succeeds Mr. P. A. Morden on the board.

FIRE DANGER ACCOMPANIES HOT WEATHER

Three Blazes This Week Reflect Gravity of Situation As Draught Continues

HAY DESTROYED

New Department May Improve Landing Field

HOT weather of this week brought the fire menace to its gravest point of the year. Three new blazes broke out and forestry officials were on the alert as further danger threatened.

A fire that is occasioning some anxiety but has as yet caused no damage, is burning over the bluff at Cahill creek, Hedley. It is feared it may encumber mining operations in the vicinity. It is high on the hill and more or less inaccessible.

Fire Spread Through Hayfield

A fire that constituted a serious threat was efficiently fought off at the J. J. Taylor place Monday night. It is being kept well in check.

Several tons of hay were luckily saved from the path of flames which swept across stubble field at the Cox and Uhler ranch this week. The bulk of a heavy crop had just been safely put away when devouring flames swept like the wind across the 20-acre field. Two tons of hay which remained was greedily swallowed up. The fire was spectacular while it lasted but it speedily burned itself out.

FIRST FIRES CONROLLED

Lightning and Carelessness Responsible; Damage Light

FIRST FIRES of the current season found the forestry men well prepared and were quickly controlled.

Lightning was responsible for two, one at Aspen Grove and the other on Hackney Creek, near Bromley's Hedley road. Both were caught in time and neither caused much damage.

A small clearing fire broke away at the Gulliford ranch and was taken care of by a forestry crew.

Burning old ties resulted in starting a fire near Thalia on the Kettle Valley. It also was quickly controlled.

FIRE SCARE ON SUNDAY HERE

Prompt Action Stops What Might Have Been Season's Worst Blaze

THE OGRE of fire at its very worst raised its ugly head Sunday, but meekly subsided with a sickly snarl.

Sunday afternoon well on its way, the majority of the boys of the volunteer fire brigade out cooling of at scattered haunts, temperature around the century mark, a heavy domestic drain on the storage tanks, and the air like gas—smoke rises from the most feared cluster of buildings in town: the setting complete, but the biggest story of the year sizzled out beneath a couple of insignificant but timely buckets of water.

What Might Have Been

It was a big enough scare for those who realized the

PRINCETON, B.C., THURSDAY, 2nd JULY, 1936.

A Real Need

★

TWO WEEKS have passed since His Honor JudgeJ. R. ruled in favor of the employees of the Tulameen Collieries and granted them a lien on the mine to cover unpaid wages.

The formal clinching of the decision, has been deferred, either by accident or design, and it is a matter of gravity to determine which. It is now more than four months since the hard and dangerous work for which the men are suing was performed, and it is painfully evident—as the hearing itself certainly bore out—that there is something radically wrong with this legislation—surely an important deficiency.

The obvious intent of the law is to protect the workman, to see that he gets paid for his work and, naturally, promptly.

The fact that an issue could be made—and it was a point of far more legal gravity than may appear on the surface—of whether only work that enhanced the value of a mine could be protected, and the long delay in tedious stages seems to indicate that our law-makers should get busy and patch up the holes, or at least clarify the principle.

In this case it is particularly annoying, as the Mechanics' Lien Act is obviously being made a vehicle for the internal wranglings of the stockholders; and the men and the mine are being made the goats.

Coalmont Bride-To-Be Is Honored At Shower

☆

Mrs. J. Dalton and Mrs. D. P. Brown were co-hostesses at a miscellaneous shower honoring Miss K. McLeod. Miss Kathleen Sills and Master David Brown as miniature bride and groom presented the gifts H. Miller and Mrs. J. A. Miller.

Contest winners were Mrs. G. Sills

Assisting the hostesses were Mrs. Mrs. Tillery, Mrs. Lloyd Miss Mc Leod and Miss McEachern. Other guests included Mrs. Mathieson, Mrs Burlon, Mrs. J. M. Miller, Miss C. McLeod of Vancouver, Mrs. Lees, Mrs. Hayes, Mrs. Rudychuck, Mrs. Graham, Mrs. Holmes.

Two Get Citizenship

☆

TWO NATURALIZATIONS were approved by His Honor Judge Brown in County Court last week. They were: John Roznik of Princeton and Louis Nabocik of Thalia.

PROSPECT and RANDOM THOUGHTS RETROSPECT

A UNITED STATES COURT has been asked to make an unusual decision, and has responded profoundly. A farmer wants to know just where the liberty of the earth stops and the freedom of the air begins. A learned judge as decided that it does and it doesn't.

This farmer, it seems, has been vexed by one of these new fangled aeroplanes flying at too close proximity over his head. He has assailed the Constitution on the point, and democracy has let him down.

The learned judge has ruled that a man is entitled to only so much air as his stature requires. When he buys a piece of land he does just that, and he has no claim on the air above him or about him, always provided that it is not disturbed to the point where such disturbance actually interferes with his surface prerogative. For, says the learned judge, there is no saying where the earth stops and the sky begins.

A truism indeed, but hardly a satisfying one; and methinks Solomon was well relieved of a difficult responsibility.

The only provision, it would seem, that is made for man's head is a place to lay it when he returns to the lap of earth. Legally as well as as actually, he raises it in his brief sojourn above at his own risk.

☆

☆ **Const. Jack Deane returned from** Vancouver Wednesday morning after escorting two prisoners to Oakalla. He says Vancouver's Jubilee parades have nothing on Princeton's.

Hot Weather Brings Fire Scare Sunday

☆

[Continued from Page One]

danger when the siren screeched its alarm and the smoke was first noticed rising from between the Princess Theatre and the Thomas building, former "club" premises. They are in the midst of a cluster of old unoccupied buildings comprising one of the worst fire menaces in town.

Small boys playing near the building saw the fire almost as soon as it started and ran to tell the nearest adults.

A charred patch and a few boards alf torn off are all the evidence of what might have been.

The boys insist that they had nothing to do with starting the fire.

By the time the crowd gathered it was all over and the firemen departed without unwinding their hose.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

ORDER OF SERVICE

1. PRELUDE.
2. "O Canada" (One verse)
3. INVOCATION—Rev. H. H. K. Greene,
4. READING—Rev. H. H. K. Greene,
5. HYMN—"Onward Christian Soldiers."

Onward, Christian Soldiers,
Marching as to war,
With the cross of Jesus
Going on before.
Christ, the royal Master,
Leads against the foe,
Forward into battle,
See, His banners go.

CHORUS—
Onward, Christian soldiers,
Marching as to war,
With the cross of Jesus
Going on before.

Like a mighty army
Moves the Church of God;
Brothers, we are treading
Where the saints have trod.
We are not divided,
All one body we
One in hope, in doctrine.
One in charity.

Onward then, ye people,
Join our happy throng;
Blend with ours your voices
In the triumph song.
'Glory, laud and honour,
Unto Christ the King!'
This through countless ages
Men and angels sing.

6. PRAYER—Rev. H. H. K. Greene,
7. ANNOUNCEMENT—Rev. J. C. Goodfellow
8. OFFERING.
9. OFFERTORY.
10. HYMN—"Eternal Father."

Eternal Father, strong to save,
Whose arm hath bound the restless wave,
Who bidd'st the mighty ocean deep
Its own appointed limits keep;
O hear us when we cry to Thee
For those in peril on the sea.

O Trinity of love and power,
Our brethren shield in danger's hour;
From rock and tempest, fire and foe,
Protect them whereso'er they go;
Thus evermore shall rise to Thee
Glad hymns of praise from land and sea.

11. LAMENT—Piper W. Forsyth.
12. ADDRESS—Rev. Father C. A. McLeod.
13. Two Minutes Silence.
14. LAST POST and REVEILLE.
15. BENEDICTION—Rev. H. H. K. Greene,
"God Save The King"
(Two verses).

HEDLEY

Mr. and Mrs. S. L. Smith celebrated their fiftieth wedding anniversary on Wednesday, with the congratulations and good wishes of their many friends.

Mr. G. Brooke, Miss Irene Brooke and Miss Larson were Princeton visitors Wednesday night.

A goodly crowd enjoyed the dinner cohcert at the Great Northern Hotel Cafe on Sunday.

Hedley Board of Trade has not been long in getting down to work. It has prepared a goodly sheaf of requests to be laid before the Liberal convention at Vancouver.

The mine team will play the Town baseballers on Friday night. according to plans. The Hedley team played at Keremeos on Sunday and expects a visit from Penticton this week.

share.

Coalmont made a clean sweep in the five man first aid, winning all three trophies. They also took second in the boys' and girls' events.

Hedley Made Good Showing

As was natural, Hedley did better in the more limited classes, where veterans from other fields more than held their own, annexing the two and three man honors. It is only a matter of time before the newcomers develop sufficiently to make the Hedley entry a real factor in the full team events. They took second in the novice class. This was similarly illustrated in the mine rescue contest where the fledgling Nickel Plate team placed second to the skilled dragermen from Blue Flame.

The mine rescue work was particularly interesting, with a hundred yards of skeleton tunnel adding to the realism

Mine rescue judging was done by Mr. J. W. Stout of the Washington Department of Mines. guest judge; James Strang, of the Victoria inspection staff, J. G. Bigggs, district inspector, and A. Gould, instructor, both of Princeton.

Amublance contests were judged by Dr. R. J. Wride, Princeton and Dr. Cannon, Blakeburn.

Results

Mine Rescue—1. Wilson Mining & Investment Co. (A. Hilton, capt., W. Muir, A. Muir, H. Cunliffe, W. Tymchuk); 2. Kelowna Exploration Co., Nickel Plate (V. Peterson, capt.) Mines cup)—1. Coalmont Collieries

First Aid, 5 Men, Mines, (Dept. of (J. Ovington, capt., J. Greenwood, J. Vickers, W. Cartwright, R. Millar) 2. L. Samaan, Princeton. 6 entries.

5 Men First Aid, Open (Charles Bocking cup)—1. Coalmont Collerles (J. W. Cartwright, capt., J. Green wood, J. Vickers, R Millar, T. Slavin 2. L. Samaan. 8 entries.

5 Men, First Aid, Novice—1. Coalmont Collieries (R. Greenwood, capt P Dalton, M Shaw, P. Nelson; 2. T. Willey, Hedley, Kelowna Exploration (Novice cup). 5 entries.

3 Men, First Aid, Open (Charles Hunter cup)—1. Kelewna Exploration, Hedley (D. P. Williams, capt., D. B. Williams, T. Batie); 2. L. Brown, Hedley, 9 entries.

First Aid, 2 Men, Open (Coalmont Collieries Shield)—1. Kelowna Exploration Co. (D. P. Williams, capt., D. B. Williams.); 2. G. Gibson, Princeton. 9 entries.

First Aid, 5 Ladies, Open (Benj. Bowen trophy)—1. Mrs. J. D'Angelo, capt., Miss P. Mitchell, Miss E. D'Angelo, Miss J. Adamson, Miss E. Wardle (Princeton); 2. Miss C. Foster (Princeton). 2 entries.

First Aid, 5 Boys Under 16 (Granby trophy)—1. J. Mitchell, Princeton; capt.; A. Mullen, T. Pringle, M. Gould, L. Brown. 2 entries.

First Aid, 5 Girls, Under 16 (Granby trophy—1. Edith Cuthbertson, capt., Ellen Barras, Jean Holley, Peggy Bonora, Margaret Murray. (Blakeburn) 1 entry. This team gave a very good exhibition.

Wrestlers 'There' But Crowd Stays Away

SIMILKAMEEN sport fans stayed away in large numbers to further discourage the idea of doing anything to shake the dull monotony of this drab realm, greeting Saturday's fight card, but in doing so they probably passed themselves the biggest jolt by thumbing down a big bargain.

For while Chuck Charles and Ranger Nason declined to put on their act for such meagre pottage, they did show, purely on the side, enough to make it look like a whale of a good thing passed up.

Charles did a wee bit of stuff with hilarious Hans, the Keremeos baker boy, and while there was nothing to it, he showed enough class and color to vindicate his record. They locked them out in Shanghai and Tokyo where they rushed to pay $5 a head and where they know their wrestling but you couldn't give him away in Princeton at forty cents per each.

Charles sat back and played by turn while the one man circus from the windy hamlet talked a whale of a show.

The card started off in great style, but to an audience of empty seats. It was purely a co-operative affair and the main and semi main eventer's did not relish the idea of selling out for nothing, so declined to go on. The customers were accordingly aid off, and the kids who had sneaked in presented themselves with great enthusiasm for the pay-off. But a few faithfuls stayed and desite the scraping off of all the cream, agreed they had had their money's worth.

Gib McIntyre and Chuck B'arneson ejected plenty of horseplay into their three rounds of squirm which went for a draw.

Billy Sim and Billy Tymchuck went a whirlwind three-rounder with the mitts to a draw, while Joe Muir got the nod over John Huey.

The Prairie Kid turned out to be the Prairie kidder by declining to go on and thus breaking up the show.

Hedley Baseballers Nickel Platers Defeat

NICKLE PLATE boys came down the hill last Saturday to knock the bottom out of Hedley town baseballers' winning streak. With plenty of power at bat they eased out on top 12-5 after an interesting battle. Weakness in the field was Hedley's downfall. The boys, it seems, have grown careless on too many wins.

They will have to be digging them out of the dirt a little more effectively when Penticton's crack Intermediates play at Hedley Sunday.

Hedley got away to a flattering start against the hill-billies but suddenly awoke to find the despised miners ahead 10-4, and after that the miners were giving nothing away. Edwards was in good form on the mound for the hillmen, with Charlie Hambly receiving. Bill Corrigan, who burned them in at Calderoni for the Town was touched freely.

Cards of Thanks

THE family of the late Mrs. J. Mayoski wish to thank all friends for the kind expressions of sympathy and floral tributes.

WANTED—Lead, small quantities. Box K, Star.

LOST—Brown leather suitcase between Tulameen and Merritt—Mrs. Phillip McLean, Merritt 30-2

WORK WANTED—painting, wood cutting, gardens, lawns, repairing fences, roofs, screens, doors, etc. Any odd job. Cliff Johnson c-o Burr Cabins. 30-4p

Cash

IT was very early in the history of EATON'S that the principle and practise of buying and selling for Cash only was laid down. With certain exceptions we shall mention later, this is still the EATON way of doing business.

Today we still pay cash ourselves for our purchases, because by so doing we are able to buy to the very best advantage. And we confine our selling activities largely to the same basis for exactly the same reason—because Cash Merchandising offers the customer the lowest possible pricing on whatever she buys.

On certain items of furniture, furnishings and other equipment we do, as a convenience to customers, offer the terms of the EATON Budget Plan. But the Budget Plan prices are higher than the Cash Prices. They have to be, because it does cost more to sell merchandise "On Time." The alternative of paying Cash is always offered, however—and there is always a worth-while saving when you do!

COAL AND PETROLEUM ACT

NOTICE

TAKE NOTICE that the undersigned intends to apply for a licence to prospect for coal, petroleum and natual gas over the following described lands: Lots 962 and 1132, Yale Division of Yale District, said to contain 480 acres, more or less.

DATED this 9th day of June, 1936
WILSON MINING & INVESTMENT COMPANY, LIMITED,
506, Pacific Building,
26-4 Vancouver, B.C.

SIMILKAMEEN ELECTORAL DISTRICT

Public Notice of Intention to discontinue and close portions of the lane in Block 12, Subdivision of Portion of Lot 706, S.D.Y.D., as shown on Registered Plan No. 55.

PUBLIC NOTICE is hereby given that it is the intention of the undersigned, after four weeks from the date of first publication of this notice, pursuant to Section 11 of the "Highway Act", to discontinue and close portions of the lane above referred to, which said portions may be more particularly described as lying between Lots 11 and 16, between Lots 12 and 15, and between Lot 13 and the right-of-way of the Kettle Valley Railway Company, and containing two one-hundredths (0.02 of an acre, more or less, as shown outlined in red on a plan dated June 1st, 1936, and deposited in the Department of Public Works at Victoria, B.C., under "Road Surveys No. 2047."

A copy of the said plan, of "Road Surveys No. 2047 may be seen at the Department of Public Works office at Penticton, B.C.

F. M. MacPHERSON,
Minister of Public Works.
Department of Public Works,
Parliament Buildings,
Victoria, B.C., June 11th, 1936 27-4

WATER NOTICE
DIVERSION AND USE

TAKE NOTICE that David Jennings, whose address is 1111, Edinburgh St., New Westminster, B.C., will apply for a licence to take and use 40 cubic feet per second of water out of Eagle Creek which flows southerly and drains into the Tulameen river about twelve miles up the river from the town of Tulameen.

The water will be diverted at a point about one-half mile up Eagle Creek from the Government Road Bridge and will be used for hydraulic mining purposes upon the leases described as Numbers 872 to 881 inclusive and Numbers 896-897-669-153 and others, which are placer leases.

This Notice was posted on the ground on the 23rd day of April, 1936. A copy of this Notice and an Application pursuant thereto and to the Water Act will be filed in the office of the Water Recorder at Princeton, BC.

Objections to the Application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, within thirty days of the first appearance of this Notice in a local newspaper.

DAVID JENNINGS,
Applicant.

The date of the first publication of this Notice is 5th May, 1936. -18

BUSINESS FOR SALE

MR. MERCHANT—your ad should be in this space. You want Your Message in every home in the Similkameen Valley; you want every potential buyer to be attracted by it, just as this has attracted you. There is no other way. No other medium professing to circulate in the Valley or any part of it can give you adequate representation equal to that of your valley newspaper. You need this space—it is yours for the taking.

A Camp With A History — A Mine With A Future

Hedley Gold Hill

Mining Company, Limited (N.P.L.)

DIRECTORS of the Hedley Gold Hill Mining Company, Limited have decided to proceed with a conservative and well-considered development programme recommended by the company's engineer. For this purpose the Directors have authorized the release of a limited number of shares. Here is an exceptional opportunity to get in on the ground floor. No better investment in the mining field to-day. A small amount of work should reveal sufficient ore to make your stock worth many times its present value. This operation has been organized and will be directed by local men who have full confidence in their enterprize. The recent success at Gold Mountain has focussed attention on this section of the Hedley camp.

CAPITALIZATION

To be outstanding: 950,000 shares, (of which 750,000 are deposited in escrow.)
In Treasury: 1,050,000 shares.

A limited number of Shares only at
10c
per Share

EXTRACTS FROM A REPORT ON THE GOLD HILL MINING COMPANY'S PROPERTY MADE BY W. S. BACON, M.E., Dated Oct. 16 '34

PROPERTY

THE PROPERTY, consisting of eight full claims, is situate on Gold Mountain on the south side of the Similkameen River above the Great Northern Railway. From the railroad to the Gold Mountain group, which adjoins the Gold Hill group, is a good wagon road; from there to the property is a pack-trail.

GEOLOGY CONDITIONS

AS one ascends the mountain along the road and trail leading to the Gold Hill group of mineral claims, most of the rocks are of sedimentary origin, highly metamorphosed by igneous intrusions. From the base of the mountain is observed a broad belt of rock of various colors that appears to have been altered by chemical action. This is traceable to the top of the mountain, about 4,000 feet in elevation, crossing the Gold Hill group on the north-east side of the property above Henry Creek. To the west of this a few hundred feet lies a mineralized zone several hundred feet in length, with a strike a little west of north magnetic.

ORE BODIES

AT the intersection of Mineral Claims 5, 7 and 8 a mineralized zone several hundred feet in length assumes a dome-like shape. This dome topping the mineralized zone is 91 feet wide in an east-west direction and has been uncovered by cross-cuts and drifts for a distance of 130 feet, exposing the ore, which assays show to be of good value. From what can be seen at present this might be classed as a shear zone; the fractures are closely spaced and to quite an extent parallel. Values at the surface are excellent, and one may look for higher values at depth. It is the calcium silicates, impregnated with arseno-pyrite and pyrite that carry the gold values in the Nickel Plate and Mascot mines.

DEVELOPMENT

MOST of the development has been done on the Gold Hill mineral claims Numbers 5, 7 and 8, consisting of a large amount of drifting and cross-cutting to expose a large ore body.

PLAN OF DEVELOPMENT

IT is planned to construct cabins and a blacksmith shop and commence tunnelling operations forthwith. A tunnel will be driven at the base of the bluff on which the ore zone has been exposed. This tunnel will be driven towards the apex of the ore on the hill and will be 210 feet in length. The ore will be cut at about 250 feet of depth and 125 feet from the portal. By commencing these operations at once the ore body can be explored at considerable depth before winter.

CONCLUSION

"THERE is no doubt in my mind that the property merits intensive development, and I feel certain that if cognizance is taken of the origin and character of this ore deposition, no doubt can be entertained as to a successful operation."

W. S. BACON, M.E.

RESULTS OF SOME OF THE ASSAYS:

DESCRIPTION OF SAMPLE	GOLD Ounces per Ton	GOLD Value per Ton	SILVER Ounces per Ton	SILVER Value per Ton
Body from South Wall (across 12 feet)	.05	$ 1.50		
Under first sample at 8 ft. depth (across 7 ft.)	.35	10.88	.30	$ .15
Sample taken by P. B. Freeland, arsennopyrite taken from shaft	.26	8.84	.50	.25
Sample taken by P. B Freeland, 6 inches of oxidized ore from same shaft	.34	11.56	.20	.10
Samples taken by W. S. Bacon	.30	10.20	.10	.05
Samples taken by W. S. Bacon across 7 feet of open cut	.14	4.76	.42	.21

GEOPHYSICAL PROSPECTING

Electrical indications across this body show that conductivity increases greatly at fifty feet depth, indicating considerably more mineral at that depth.
Below are the electrical readings in ohms resistance for each ten feet down:

5 feet depth	55,000 ohms	30 feet depth	8,200 ohms
10 feet depth	25,000 ohms	40 ftet depth	4,000 ohms
20 feet depth	11,000 ohms	50 feet depth	3,300 ohms

P.O. BOX 125, PRINCETON
