The Similkameen Star

Forty-Sixth Year, No. 28 | PRINCETON, B.C., THURSDAY, JUNE 20th, 1946 | $2.00 Year, 5c per Copy

Annual Field Day Mine Rescue, First Aid Competitions

The weather man was in a good mood on Saturday, when the annual competitions of the Similkameen Valley Mine Rescue Association, and St. John Ambulance, held their annual field day in the Princeton Athletic Park, across the river from town beside the curling rink. The shady flat proved an ideal spot for the events of the day. The attendance was less than in former years, but all events were run as planned, and when it was all over local and visiting officials were congratulated on a very successful field day. E. R. Hughes, Princeton, is president of the Mine Safety Association, and E. D. Norman, Copper Mountain, secretary. Judges for the Mine Rescue competitions were James Dickson, Chief Inspector of Mines, and E. R. Hughes, Inspector of Mines, Princeton. Judging the First Aid competitions were Dr. Paul Phillips, Dr. G. A. Badger and Dr. W. T. Hall.

R. S. Douglas, Copper Mountain, was field manager, who made sure that all events were run on time. T. H. Cunliffe, Princeton, was in charge of the mine rescue competitions, and his careful preparation contributed much to the success of the day. The reception committee consisted of A. S. Baillie, F. A. McGonigle and C. W. S. Tremaine.

Prizes were awarded on the field, immediately following the last event, by Chief Inspector of Mines, James Dickson of Victoria. The annual dance was held in the Elks Hall with Leander's orchestra in attendance.

NEW APPARATUS

T. H. Cunliffe, mine rescue station instructor, has supplied the following notes about the new breathing apparatus:

The new M.S.A. "Chemox" Oxygen Breathing Apparatus was used during the competition in Princeton this year. The B.C. Department of Mines, ever ready to add to its stock of safety equipment for the benefit of saving life now has five of the machines in the province, one being in the Princeton Rescue Station. The captains of three teams wore the new apparatus during the competition.

The Mine Safety Appliance Company "claim": "The apparatus is an extraordinary advance in the field of respiratory protection the culmination of a search extending over many years for a means of evolving oxygen from chemicals that could be replaced in a replaceable cannister."

During the war, the apparatus was used by the American Navy, and has only recently been released from the secret list. It weighs only 13½ pounds complete, generates its own oxygen, giving one hour's protection in unbreathable air. Has no high pressure cylinders or fittings, and has fog free lenses.

Exhaled air passes from facepiece of apparatus through exhalation tube into cannister where CO2 is removed. Evolved oxygen flows into breathing bag reservoir, and back to facepiece, where it is consumed as required by the wearer. Before the cannister is exhausted a pre-set alarm bell rings as a warning to replace the used cannister.

During demonstrationg of the apparatus, great interest was shown to the chemical reaction.

Prizes for mine rescue and first aid cmpetitions were awarded as follows:

Mine Rescue Competition

First: Copper Mountain Team No. 1—E. Pickard (Capt.), F. Burges, F. Chase, L. Empey, A. Rebblin (vice-captain), D. Ogren (inhalator man).

Second: Copper Mountain team No. 2—G. Halinan (Capt.) L. Rash, P. Brunner, P. Shellan, D. Parsons (vice-captain), J. Forsythe (inhalator man).

Third: Princeton Team—J. Fairley (Capt.), G. Bosnich, G. Angstadt, D. Crater (vice-capt.), A. Hilton (inhalator man).

Fourth: Hedley Team, Nickel Plate Mine—J. Kelley (Capt.), R. Allan, B. Woodin, J. Forgaard, R. Kelley (vice-captain), W. Cartright (inhalator man).

Granby Cup—Junior Boys, Girls

First: Copper Mountain—N. Kirby (Capt.) G. Kirby, S. Kennedy, A. Tappay, A. Wanke.

Second: Copper Mountain—G. Gabry, E. Howe, A. Byers, D. Ashe, M. Howe.

Third: Princeton—F. Antonich, J. Ray, R. Miller, J. Cunliffe, W. Antonich.

Bennett Cup—5 Ladies

First: Princeton—Mary Bryden (Capt.) A. Johnston, L. Harman, I. Rines, E. Fox.

Second: Copper Mountain—R. Schwoerer (Capt.), I. Olson, D. Stewart, M. Konigseder, K. Kirby

Roller Bandage—1 Lady or Gent

First: Princeton — Mrs. A. Johnston.

Second: Princeton—Miss L. Harman.

Third: Princeton — Miss I. Rines.

Novice Cup—5 Ladies or Gents

First: Copper Mountain—V. Negrin (Capt.), R. Negrin, J. Kukuc, A. Olson, M. Howe.

Second: Copper Mountain—G. Gabry (Capt.), N. Kirby, A. Byers, D. Ashe, E. Howe.

Third: Copper Mountain—Miss I. Olson (Capt.), Miss E. Bey, Miss M. Bey, Miss D. Stewart, Miss N. Kirby.

Dept. of Mines Cup—5 Men

First: Copper Mountain—L. Empey (Capt.), L. Rash, F. Chase, H. Day, patient.

Second: Copper Mountain—G. Hallinan (Capt.), D. Parsons, E. Pickard, F. Burgess, P. Shellan.

Third: Allenby — T. Blake (Capt.), J. Morrison, G. Hingley, R. Miller, C. Ceccon.

Bocking Cup—5 Men

First: Hedley — R. Maddison (Capt.), D. Oxley, L. Portman, T. Calderoni, T. Knowles.

Second: Allenby—G. Hingley (Capt.), T. Blake, J. Morrison, R. Miller, C. Ceccon.

Third: Copper Mountain—D. Ogren (Capt.), A. Reblin, P. Brummer, J. Forsythe, E. Howe.

Coalmont Shield—2-Man Event

First: Copper Mountain—H. Shannon, R. Reblin.

Second: Copper Mountain—G. Hallinan, F. Burgess.

Third: Allenby—R. Miller, M. Carrington.

LOCALS

A. O. Johnson left Monday for Vancouver where he will spend a few days before travelling to th Eastern States to visit friends and relatives there.

* * *

Last week a slide at the tunnel six miles east of Romeo made it necessary to route K.V.R. trains via Spences Bridge for several days.

* * *

S. Langford, on his way home from Clinton two weeks ago saw a full grown cow moose about four and a half miles north of Merritt. This is reported to be the first time a cow moose has been reported so far south.

* * *

George Aldous returned on Monday after a visit to Belcarris and Regina, Saskatchewan, where he visited friends and relatives. He left here on May 16, and returned on June 17 after a pleasant holiday.

ANNOUNCEMENT

to all Daily Province Subscribers

Publication of **The Vancouver Daily Province** has been unavoidably and temporarily suspended. At present it is not known how long it will be before publication is re-started. You may rest assured that every effort will be made to resume this service to you at the earliest possible moment.

In the meantime, if you change your address, please advise your Carrier, or the Circulation Department of The Vancouver Daily Province.

So that you may have the latest news regularly, special arrangements have been made with Radio Station C.K.W.X.—980 on your dial—to broadcast latest bulletins at the times listed below.

In addition to the news, the advertising department will maintain a battery of phones (Pacific 4211) and will accept your advertisements as usual. Also, they will be pleased to give you information from advertisements. Out-of-town subscribers may take advantage of this service by writing to The Vancouver Daily Province, Vancouver, B.C. Your calls and letters will receive the usual courteous treatment and no effort will be spared to render you **Service.**

Consul Tells Local Rotary of Empire

Mr. Jock Ridland, British Vice Consul at Spokane, Washington, was the guest of honour at a Rotary banquet in the Travellers' Hall last night. Rotary members, their wives and friends were present, and President Dr. W. T. Hall was in the chair. It was an informal affair, but none the less enjoyable for all that. Members were invited to hang their coats on the chairs so that they would not suffer from the heat, and during the supper period the Lewis-Conn boxing match was broadcast. As soon as the knock-out round was finished, the President turned the attention of the gathering to more serious business.

Even the address of the British Consul was delightfully informal. It was more like pleasant conversation, full of information, and spiced with humour. In introducing the speaker, Dr. Hall said that Rotarian Jock Ridland was born in Edinburgh, Scotland. After a few years banking in Scotland, he went to India, where he remained 30 years in the service of the Imperial Bank, and acting as Chief Executive Officer of Bombay. Ten years ago he came to the U.S.A. on "a short visit", which still continues. While at Los Angeles in 1939 he was asked to join the British Consulate, and in 1943 he opened the British Vice Consulate at Spokane. He is at present making a tour of Rotary centres in Okanagan and Similkameen.

Mr. Ridland described the scenery he had seen on this side of the line as "very much like that of Scotland", and spoke of the principles of Rotary, experiences in Britain and India's struggle for independence.

Among other things, Rotary seeks to cultivate international friendships. He described the Rotary Club he knew in Bombay, and told of how it included many nationalities and almost every Indian caste was represented.

Thrilling episodes of Dunkirk were told. Now the Old Country is going through an "economic Dunkirk". We need not fear for the future of Britain. In spite of much social legislation it will not drift too far to the left. It is not communist. The spirit of the people guarantees the future.

Mr. Ridland was hopeful of the future of India, and he believed that all the problems incidental to the granting of independence would be solved.

This forenoon Mr. Ridland is the guest of the Granby Company, visiting Copper Mountain. This afternoon he leaves for a fishing trip in the direction of Kamloops.

At the L.O.B.A. meeting on Wednesday night Mrs. Thomas, Junior Deputy - Grand Mistress, was presented with a token of esteem in recognition of her election to high office at Grand Lodge.

E. B. Mayon, Editor Merritt Herald, Died Last Thursday

We learned with regret that Mr. E. B. Mayon, for many years editor of The Merritt Herald, died in the Nicola Valley Hospital last Thursday. He was three weeks in the hospital following a severe cold, and a heart attack. With his passing, Merritt has lost one of her most public spirited citizens.

Born in Liverpool, England, in 1886, Mr. Mayon came in 1914 to manage the Nicola News in Merritt, where he met his wife who was then on the local school teaching staff. In 1916 he returned to Vancouver and was employed as news editor and city editor on the "World", and later on the Sun. He was a past president of the B.C. Institute of Journalists, and held high office in the B.C. Weekly Newspapers Association.

Returning to Merritt in 1928, he purchased The Herald from J. W. Ellis, and conducted that paper till his last serious illness.

BASEBALL

A large crowd turned out in Penticton on Sunday to watch their Senior "B" Baseball team lose to Princeton, 9 to 2. Pitcher Bill Syne of Princeton practically won his own game as he got two tripples and a single while striking out ten Penticton batters and allowing only three scattered hits. Princeton could gather only five hits off three Penticton hurlers but took advantage of every break to win handily.

Princeton's next game will be on Sunday, June 23, against Cawston at the Wallace Field.

FASTBALL

The High School Fastball team finished strongly to win top place of the local league and the right to play in the finals. Cosmos and Scotts battled during the week in the semi-finals with Cosmo taking two straight, 12-9 and 13-11. Cosmo now play High School a best three of five series for the championship. Ike Mullin of Cosmo won the individual batting championship with an average of .424. Art Thomas of High School was close on his heels with .406.

Final Team Standing:

Team	GP	W	L	Pct.
High School	11	8	3	.727
Cosmo	12	6	6	.500
Scotts	11	3	8	.273

Final Big Six:

Players	Club	AB	H	Ave.
A. Mullin	Cosmo	33	14	.424
A. Thomas	H.Sch.	32	13	.406
Skuratoff	Cosmo	29	11	.379
Cody	Scotts	32	12	.375
T. Kovich	Cosmo	35	13	.371
A. Schulli	Cosmo	39	14	.358

Princeton Fire Brigade was called out on Monday night when an incipient fire in the Princeton Suites created alarm. Quick action on the part of the fire brigade prevented a serious fire.

All Set for Barrel Derby July First "Roll Out the Barrel"

Preparations for the Barrel Derby are almost complete, and sportsmen are eagerly waiting the big day when they will roll out the barrel. Tickets are reported selling well. The barrel may be seen any day at the Princeton Billiard Hall. Cash prizes amounting to $400 are offered. The Derby is sponsored by the Princeton and District Fish, Game and Forest Protective Association, and all proceeds from the Derby will be devoted to the worthy object of providing better fishing and hunting for residents and visitors in Similkameen. The undertaking is one of the biggest things yet undertaken by any organization in the valley. Those concerned are positive that it will pay big dividends in increased business and tourist trade.

WORK PROGRAMME NOW UNDER WAY

Fred Green has been busy constructing fish traps. These are big affairs, such as are necessary for the business of trapping coarse fish. One man watching Fred at work described the traps as works of art, and said that Fred was a master builder.

On Thursday of last week a trap was installed at Lorne lake. The work party consisted of Game Warden A. Gill, T. O. Lessard, Fred Green, Bob Jameson and Nils Leed. The job proved bigger than was anticipated, but was successfully concluded, and Nils Leed is to look after it. Already a large number of coarse fish have been trapped.

The following day another trap was installed in the incoming creek at Wolfe Lake. The place selected is not far distant from the home of Al. Johnson, formerly district road foreman. Coarse fish are already running in this creek, and encouraging results are expected in the near future. It is understood that Al Johnson will be in charge of this trap, which was designed and built by Fred Green. It is a two-way trap of light construction, and promises to be very effective.

A larger trap was installed in this lake also by the club on Tuesday, June 18th, situated at the lake outlet.

Lorne and Wolfe lakes are quite close to Princeton: as the crow flies, the respective distances are only six miles, and eight and a half miles. In former years both these lakes offered excellent fishing, and if the coarse fish can be controlled, or eliminated, they will again become producers of big, fighting Kamloops trout.

An additional trap at Lorne Lake will be necessary. The work is costing a lot of money, and every Barrel Derby ticket you buy will help the good work along. Every ticket bought will help the boys help you.

Valley Anglicans Hold Joint Meeting

A joint meeting of the Anglican Church committees in the parish of Princeton was held in the Parish Hall Wednesday, June 19th, at 8 o'clock.

Matters of interest to the whole parish were discussed and plans for the future were made. It was regretted that, due to conditions beyond their control, Copper Mountain was unable to be present. The following members were present: Mr. J. Taylor, Mr. G. G. Lyall, Mr. E. Dallow, Mrs. French, Mrs. Guinan and Miss McCurrach, of Princeton, and Mr. H. Wainwright, Mr. J. Moore, Mr. H. S. Nye and Mrs. Smith, of Hedley. The vicar, Rev. P. J. Brownlee was in the chair. The members were servd a lunch in the vicarage after the meeting.

The Princeton Ladies Ski Club members held their final meeting for the season on Tuesday at the home of Mrs. James Brown.

Mr. and Mrs. Gaare were among the spectators at the Mine Rescue field day on Saturday. Mr. Gaare is not yet a hundred percent well after his recent illness.

Keen Contest In Elks Queen Contest For First July

The first official count in the 1st July contest for the Elks' Queen of Similkameen was made on Monday, and results showed Princess Doreen Schisler leading by a narrow margin. Only a few votes separate the four contestants, the others being Connie Pollock, Lindy Harman, and Shirley Bloom. Don't forget to place your votes when making purchases at local stores. Votes will be counted again on Saturday, and latest results spread on the bulletin board.

Plans are progressing for the big celebration. Softball teams are expected from Summerland, Oliver, Hedley and Copper Mountain; and baseballers from Keremeos and Rutland.

Leander's band will be in attendance at the dances on Saturday and Monday nights.

The ladies of the Royal Purple have the kiddies' sports well in hand, and promise plenty of hot dogs and cold drinks for both days of the celebration.

Teen Town will be canvassing for sale of booster buttons starting next Saturday. The buttons are good for two dances and all sports events.

Langford To Handle Real Estate in P. W. Gregory's Office

P. W. Gregory announces that Mr. Langford will in future handle Real Estate business from the Bridge Street office. In anticipation of the opening of the new highway, many enquiries for property have been received lately.

The Garrison Ranch on Stevenson Creek has been sold this week to Elof Granberg. A veteran of the Canadian army, Mr. Granberg recently arrived from the East, accompanied by Mrs. Granberg.

Copper Mtn. Briefs

Mrs. Luxton, Mrs. R. McKinnon and Margaret were Vancouver visitors during the weekend.

* * *

School closing takes place on June 26. Hikes and parties are being arranged for the various rooms.

* * *

Mr. A. S. Matheson, Inspector of Schools, visited the Copper Mountain school on Tuesday of last week.

* * *

The smoker held under the auspices of the Copper Mountain Veterans on Saturday, June 8, was a great success.

* * *

Geo. W. Anderson travelled to Guelph, Ontario, by plane, on June 11, to attend the funeral of his father.

* * *

Jerry Ritchie has left Granby office and is at present holidaying in Penticton. Stag parties were held for him, and also for Keith Fahrny, who will be married in Vancouver shortly.

* * *

Miss F. Henderson, Primary teacher, leaves on Wednesday for her home in New Westminster, and later will attend summer school. Mr. T. McMeekin is also leaving for summer school.

Hospital Contracts

Hospitalization contracts with the Princeton General Hospital have been revised, and will be renewable at the beginning of next month. It will be in the interests of the individual citizen to identify himself, or herself, with the new scheme as quickly as may be convenient. It would be unwise to allow any time to pass without coverage. That would be equivalent to declaring an open season for the imps responsible for all kinds of unfortunate accidents. We have learned to know by this time that rain is less likely to fall if we carry an umbrella. If we are insured, and suffer neither sickness nor accident, so much the better. If we suffer one or the other before we have renewed our insurance then we must pay the piper.

In view of the increased costs of hospital overhead and operation it was inevitable that contract rates be raised if the scheme were to continue. It may be true that some plans advertised elsewhere offer hospitalization for less than the Princeton contract rates, but in all such cases the coverage is correspondingly less. We know of no other contract that offers so much, or as much, for so little.

It should be emphasized that the Princeton scheme is not a profit-making one. It is based merely on a foundation of service. It stands to reason that insurance is based on a given number of participants. The contributions of many make it possible to focus service on the unfortunate few who may be sick, or suffer accidents. You may be one of the few tomorrow. You never know till the time comes. For this reason all should share in the costs, thus making the scheme actuarially sound. It is a responsibility as well as a privilege.

The Barrel Derby

The Tulameen River first annual Barrel Derby is sponsored by the Princeton and District Fish, Game and Forest Protective Association. The prominent advertisements in recent issues of the Star have been sponsored by public spirited business men. The Barrel Derby is a big venture of faith on the part of a few. It is a most unselfish venture, for those taking part in the Derby have no personal gain or emolument in sight. They have contributed both brain and brawn so that the undertaking may justify itself. All they have in mind is more and better fishing and hunting for residents and tourists in Similkameen.

It really doesn't matter whether you win a prize or not. What does matter is that you are helping a worthwhile organization in a worth-while undertaking.

Some have wondered about the name of the sweep. The title namesake was once described as "that most deserving earl of Derby". The original Derby, of course, was the celebrated horse-race in England, founded in 1780 by the twelfth Earl of Derby, and run annually at Epsom, near London. Hence, by analogy, the name has been used to describe any big race, whether of automobiles, aeroplanes or river barrels.

The Barrel Derby will be one of the big events on the 1st July. Guessing is already keen, for prizes are attractive. It is safe to say that the Tulameen River will be twice as famous as before, and that the fishing and hunting facilities and opportunities of Similkameen will be widely advertised as a result of the Barrel Derby. Surely that is a "most deserving" objective.

While the Sun Shines

Tomorrow, or next day, will be the longest day in the year. Such a thought must give us pause, for we cannot escape the river of Time. "Time, like an ever-rolling stream, bears all its sons away". But such sombre thoughts are soon banished by the still, small voice that speaks of wood and coal for next winter. Perhaps that should be attended to while the sun shines.

It is a disturbing thought that so many are on strike while the sun shines. This has been described as "holidays without pay", but no one with insight or understanding will think for a moment that any man on strike is enjoying a holiday. He would sooner be working, making hay while the sun shines.

Mine Rescue Field Day

The weather man was really on his best behaviour for the mine rescue and first aid field day. Both associations made the most of the day, and all events were run on time, even though rain did threaten for a few minutes during the afternoon. The day was well planned, and plans made were well carried out.

Some sensed a lack of the enthusiasm, characteristic of the day in former years. Perhaps this is a reflection of the uncertainty of mining operations. Coming events cast their shadows before. But it was well that these shadows were disregarded, and the field day held as usual. We must continue to be hopeful about the future. It may well be that coming events will give the lie to the fears that so many have entertained. This must not be merely wishful thinking. We must work towards that end.

Labour News

The Honourable G. S. Pearson, Minister of Labour, has announced that on July 1, a 44-hour week would come into effect for coal miners and that on August 1, legislation passed sometime ago granting a 48-hour week for firemen would be proclaimed.

New Industry Established

The Department of Trade and Industry has added another new industry to British Columbia's growing list of manufactures. Through the agency of this department, a felt and textile industry has been established in Victoria, it was announced by the Honourable L. H. Eyres, Minister of that department.

The Honourable Mr. Eyres also announced that a banner year in the tourist industry and greater recognition of British Columbia as a playground could be expected. The prediction is based on reports brought back by Mr. Ernest Evans, of the B.C. Government Travel Bureau, who has just returned from a contact trip in six Western States.

MUCH ADO ABOUT A LOT

In Minneapolis Harry Goff complained to a clerk that he had not received the driver's license which was supposed to have been mailed to him. The clerk said the license had been sent, but returned by the post office because the address given for him was a parking lot. "That's right," said Goff. "There was no mistake . . . that's where I live."

B. C. AGRICULTURE, GREAT IN WAR,
MUST BE GREATER STILL IN PEACE

Soils and Fertilizers Service to Farmers

SOIL ANALYSIS SERVICE:

The Department of Agriculture maintains a complete soil testing laboratory in Victoria. Here, B.C. agriculturists may obtain free expert advice on soil analysis, suitability for proposed crop growing, and fertilizer mixture necessary.

SOIL SURVEYS:

Soil surveys, mapping and reporting on over 4,000,000 acres in various sections of B.C. have been continuously conducted by this Department, since 1931, in co-operation with the Dominion Government.

FERTILIZER COMMITTEES:

The B.C. Fertilizer and Agricultural Poisons Committee acts in an advisory capacity between consumers and producers of fertilizers and maintains supervision over recommendations and informative literature issued to the public. This Committee is a composite group of men drawn from the Federal, Provincial and University Agricultural Departments and the Fertilizer industry in British Columbia. Copies of the Committee's recommendations are available on application to the Publications Branch, Victoria.

The British Columbia Lime Committee clears applications for subsidy on transportation charges of lime. The Department of Agriculture pays the farmer $1.00 per ton, when such application has been passed through this Committee. In the period 1944-45, 434 applications totalling 5,554 tons of lime, for agricultural purposes, have been received by this Committee—showing a marked increase over totals when first this Committee was organized. Farmers are urged to take advantage of this subsidy.

The Department of Agriculture is consistently striving to improve the scope of its services to B.C. farmers and so help to increase production with a maximum of efficiency.

Beginning July, New Hospital Contract Will Be Attractive

Previous contracts for hospitalization with the Princeton General Hospital were made to terminate at the end of this month. This became necessary when it was seen that rates in force did not cover services rendered. In view of increased costs of goods and services, the Hospital Board decided reluctantly that the old contracts must be cancelled, and new ones issued. The costs for the new contracts are slightly higher, but the contract is still a very attractive one to all who desire peace of mind born of a sense of security so far as sickness and accidents are concerned.

The new rates will be in force on July 1st, and copies of the new contract are being mailed to all who were formerly covered under the scheme. Others interested may secure copies from the Hospital secretary. Contract rates are payable quarterly, or annually if desired, in advance. It is suggested that it will help if all contracts are made to coincide with the end of a quarter.

For the benefit of subscribers the provisions of the new contract are listed below. It will be to the benefit of all concerned to allow no time to lapse, after the old contract is out, before signing the new contract, and coming under its provisions.

THE NEW CONTRACT

The Princeton General Hospital, will provide, suitable hospital care, under and subject to the following conditions:

Section 1—Rates:

The Contract rate payable shall be as follows: For Single Persons, sixteen dollars and twenty cents ($16.20) per annum. For a Family, twenty-seven dollars ($27.00) per annum. Such rates shall be paid in advance quarterly.

Section 2—Benefits:

(a) Proper hospital treatment in a public ward of the Princeton General Hospital, stock drugs and medicines as are usually provided by the hospital and included in the public ward rate, use of Operating Room and Table, and X-ray equipment, while a patient in the hospital.

(b) Out-patient service as may be required and recommended by the attending physician.

(c) In the event that any subscriber or eligible dependent, incurs a necessary hospital account in a public hospital, other than the Princeton General Hospital, either emergent, or upon the advice of his local physician; The Princeton General Hospital will pay such subscriber an amount up to the sum of twenty dollars ($20.00) for such hospital care, providing proof of payment to such other hospital is given. Such payment to a subscriber shall be limited to once in each contract year.

(d) Should the Princeton General Hospital receive any payments on behalf of a subscriber, from any Society or Insurance Company in payment for hospitalization given under this contract, such amount will be paid to the subscriber.

Section 3—Exemptions:

(a) Patients suffering from any chronic disease manifesting itself prior to entering into this agreement, alcoholic excesses or conditions arising therefrom, acute venereal disease, infectious or contagious diseases requiring isolation, tuberculosis and any other disease for which care is provided by the Provincial Government either wholly or in part, are not covered by this agreement.

(b) W.C.B. cases and any other cases for which payment is provided by any Government Department are not covered by this agreement.

Section 4—General Provisions:

(a) This Contract becomes effective Two Calendar Months after the date of the first payment, except in case of accident or injury, which shall be covered as from the date of such first payment.

(b) However, no subscriber or dependent shall be eligible for maternity treatment or for treat ment for conditions directly allied to pregnancy occurring before term, (i.e. toxemia, miscarriage, abortion, etc.) until after a period of ten months stated, have elapsed. However, the two months waiting period mentioned in Sub-section (a) and the ten months waiting period, in Sub-section (b) of this Section shall not apply in the event of the subscriber being covered by a subsisting contract with the hospital at the time of entering into this agreement.

(c) Dependents are limited to resident wife and unmarried children, under eighteen (18) years of age, wholly dependent on such subscriber.

Dependents other than the aforementioned, if registered with, and accepted by, the Board of Management of the Princeton General Hospital will be eligible for benefits.

(d) Any subscriber or dependent may have accommodation other than public ward accommodation upon payment to the hospital of the difference between the public ward rate and the rate for the accommodation actually selected.

(e) Persons over 60 years of age are not eligible to become subscribers to this agreement.

(f) The Princeton General Hospital may terminate this agreement, by giving two months notice in writing to that effect, and refunding to the subscriber any fees paid in advance, as at the date of the expiration of such notice.

Amazingly quick relief from pain of indigestion, heartburn, dyspepsia with Wilder's Stomach Powder. Also in tablet form. 50c and $1 at all druggists.

C.P.R. CRUISES

Vancouver, June 20.—The fun and entertainment of shipboard life—missing since liners donned the drab grey paint of wartime—have appeared again aboard the Canadian Pacific cruise ships on this coast, as the first big postwar season gets under way.

The summer ships on the Inside Passage route to Alaska and the vessels which cruise to the West Coast of Vancouver Island have brought back all the old attractions missing during the war—the traditional "captain's dinner", concert party and deck games.

A social hostess will be employed aboard each of the Canadian Pacific's Alaska ships this season to be in charge of entertainment. New motion picture equipment has been installed in the vessels, while the lifting of one of the last wartime bans—wireless silence—has permitted daily press bulletins to be printed aboard, so that passengers may be kept informed of world happenings.

The Alaska ships, newly painted in the familiar company colors, will mark another "first" since the war. On July 1 they will break out their bunting and "dress" for Dominion Day, and on July 4, if in Alaskan harbors, will similarly honor the United States.

Your Friends....
The Retail Merchants

YOU rely on them as friends, neighbours and active participants in the life of your community. If anyone is sick your druggist hurries up the prescription; and often, if a doctor is not immediately available, he can and will render first-aid in an emergency.

And isn't it marvellous the way your local grocer and butcher cater to your wants and whims? What would you—could you—do without them? Your hardware merchant, too, has everything you need from tin tacks to wheelbarrows.
And think of the scores of specialty merchants whom you rely on for shoes, wearing apparel, kitchen ware and the thousand and one other things that add to your comfort. Life simply could not run smoothly without Canada's obliging retail merchants.
Ninety-nine out of a hundred retail merchants own life insurance and thousands of them are valued policy-owners in the Confederation Life Association.
In this Seventy-Fifth Anniversary Year, the Confederation Life Association is glad to pay tribute publicly to the retail merchants of Canada.

Before you insure consult—

Confederation Life Association

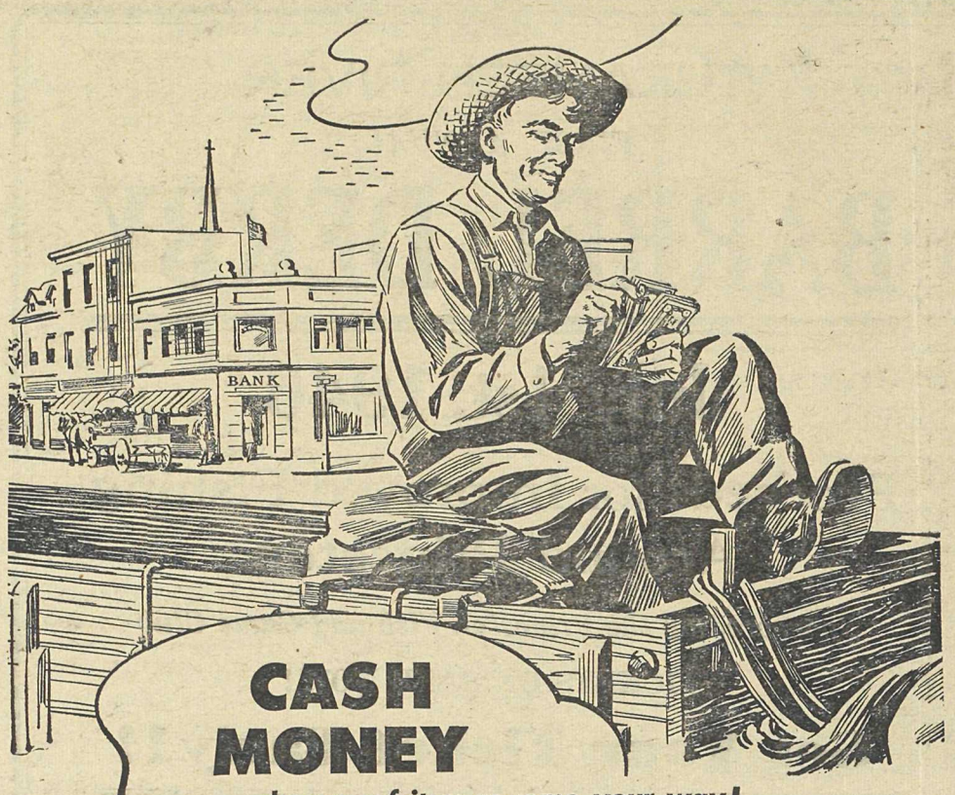
WESTERN CANADIAN GREYHOUND



CASH MONEY

-and some of it may come your way!

Yesterday Farmer Neilson got over $800 cash when he sold his grain. Through the processes of trade and commerce, some of that money may come to you. Banking service enabled him to obtain his money quickly.

The farmer doesn't have to wait for his money until his grain reaches the consumer . . . this is important to you, no matter where you live or what your work.

Farmer Neilson, and thousands like him, spend money for household and farm equipment, food, clothes, radios, paint and a hundred other things. This helps keep people busy all over the Dominion.

Your bank advances credit also to help farmers plant, cultivate and harvest crops of all kinds, to buy and raise livestock. Banking service is something like the good oil in fine machinery, you never notice it. But it is a prime factor in your prosperity . . . in the Canadian way of life.

This Advertisement is Sponsored by your Bank

The infants and children who have no more to wear than this little babe run into the hundreds of thousands in the war-devastated areas of Europe. They need serviceable used clothing which can be supplied to them through the National Clothing Collection for overseas relief to be held June 17-29 under the auspices of Canadian Allied Relief. This worthy campaign will be conducted on a nationwide basis.

NATIONAL CLOTHING COLLECTION

The recently organized Princeton Rotary Club has undertaken to sponsor the national clothing collection for the millions who are destitute in Europe The drive is planned for the week beginning Thursday, June 20. We know that the drive is in good hands, and that the Rotary Club will find a ready and generous response. The need is great, and it is our privilege to be able to help, as well as our duty to be ready to help. God has made us able. We will not prove unwilling.

The pathetic victims who survived the horrors of invasion, and the squalor of life under enemy occupation, are clad in rags. We owe much to them in the name of Freedom. They are in desperate need of all kinds of clothes. Canadian families are urged to ransack their attics, wardrobes and trunks, and contribute every serviceable garment that they can spare.

What can you spare that they can wear? Your old clothes will help Europe's shivering millions. Give that they may live. The Princeton Rotary will help you to turn that noble impulse into an act of kindness. Do it now!

Help Your Hospital

Realizing what a fine job the Elks Smoke Fund did with their collecting tins, and how the odd small change mounted up to a goodly sum, the ladies' auxiliary of the Princeton General Hospital have undertaken a similar job in aid of hospital funds.

Cans will be placed at strategic points in town, and citizens are asked to remember the hospital when they receive any small change after making a purchase. The cans will bear the words, "Help Local Hospital".

More Tourists mean more dollars for her...

but...

CANADA'S TOURIST BUSINESS

is YOUR business too!

THE MONEY spent by American tourists—more than *one hundred and sixty million dollars* last year—spreads around. It means extra income for every Canadian.

It is to every Canadian's interest to protect this business, to treat our visitors with every courtesy, make them want to come again and again. We will thus be building goodwill and building for the future of this great Canadian industry.

Give them a friendly CANADIAN welcome

CBC's "Rosemary"

ALICE HILL

The role of girl friend Rosemary on CBC's "Johnny Home Show" is played by svelte Toronto actress Alice Hall. In the script, she's the heartbeat of ... ning serviceman Johnny Home whose adventures come to Trans-Canada network listeners on Friday nights at six o'clock.

Miss Hill began her acting career with the famed Hart House players, graduated to summer stock, and is now one of Canada's leading ladies of the air. She's frequently starred on CBC's Sunday night program "Stage 46".

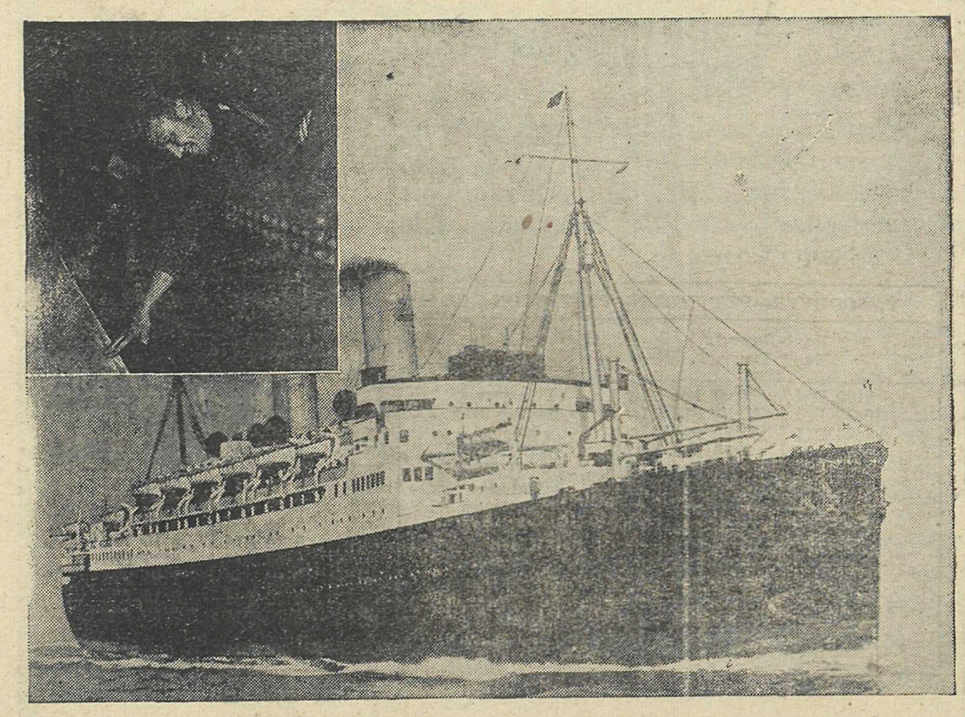
CBC Programmes are heard on CKOV –Kelowna– 630 kc.

George Aldous is visiting relatives in Saskatchewan. A letter received by Harry Gordon tells that George is enjoying his holiday.

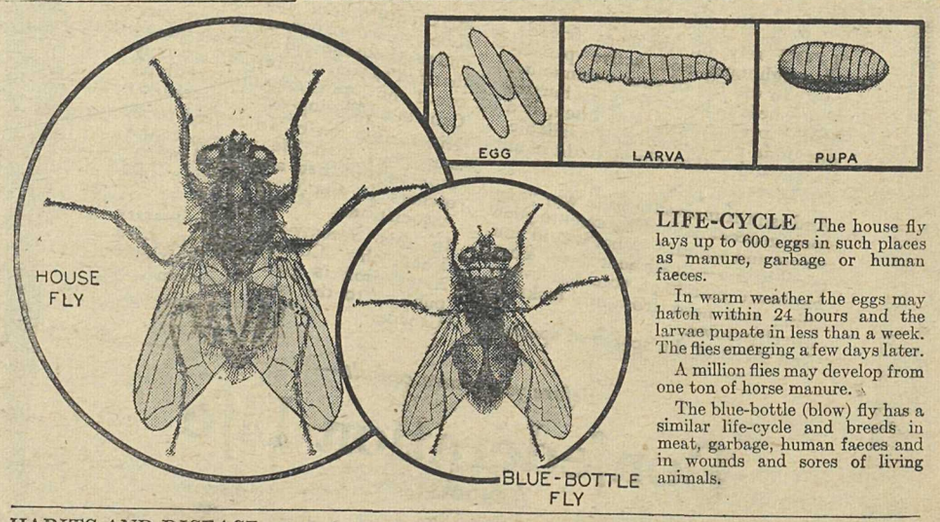
Canadian Railways Reduced Rates For Dominion Holiday

Canadian Railways are offering reduced rail fares for the Dominion Day holiday period, extending from Friday noon, June 28, until midnight of Tuesday, July 2, it was announced today by R. N. Rogers, chairman of the Canadian Passenger Association.

The special holiday fare will be based on one-and-one quarter single fare for a round trip ticket. Tickets will be good for departure from noon on Friday, June 28, until 2 p.m. of Monday, July 1, and will be honored leaving destination not later than midnight of Tuesday, July 2 for the return trip.



RETURNED TO C.P.R.: First Canadian Pacific passenger liner to be released from war and repatriation service the 20,022-ton Duchess of Richmond has been returned to her owners by the British Ministry of Transport. Upon completion of the reconditioning and modernization necessary after five years as a troop carrier she will resume her peacetime run for Canadian Pacific Steamships between Liverpool and Montreal or Saint John, N.B. The Duchess of Richmond last docked in Canada at Quebec City in August of 1945, landing 4,000 Canadian repats including the two touching Canadian soil, (inset). From January of 1941 until her last voyage on the Liverpool-to-Bombay repat run she carried 170,000 passengers and steamed 437,189 miles in the war service from which she is now honorably discharged. Still in that service are the Duchess of Bedford, Empress of Scotland and Empress of Australia, of the ocean fleet, and the Princess Kathleen of the British Columbia Coast Steamships Service, owned and operated by the Canadian Pacific Railway. Of the 22 ships Canadian Pacific turned over to the Admiralty from its two-ocean C.P.S.S. fleet, its B.C. coastal service and the Canadian Australasian Line, in which it is a partner, 1[illegible] were sunk, two lost and two taken over permanently the Admiralty.



LIFE-CYCLE The house fly lays up to 600 eggs in such places as manure, garbage or human faeces.

In warm weather the eggs may hatch within 24 hours and the larvae pupate in less than a week. The flies emerging a few days later.

A million flies may develop from one ton of horse manure.

The blue-bottle (blow) fly has a similar life-cycle and breeds in meat, garbage, human faeces and in wounds and sores of living animals.

HABITS AND DISEASE: The house fly passes directly from filth to human food carrying bacteria and other organisms. It is supreme as a simple carrier of diseases including typhoid, dysentry, diarrhoea, tuber[illegible], etc. [illegible]y larvae in wounds cause myiasis.

[illegible]: Clean up possible breeding places such [illegible] dumps and manure piles. Manure should be [illegible] in fly-proof receptacles and removed twice weekly. Spread manure thinly in fields to dry or place in compact piles with clean-cut edges to produce heat by fermentation. Spray top layer with one pound of borax to six gallons of water. Keep garbage in fly-proof receptacles and destroy by burning. Prevent flies from having access to human faeces. Screen foodstuffs and use sprays, aerosols, poisoned baits, etc. Dispose of carc[illegible]s and offal by burial or incineration.

COURTEOUS SERVICE

ERNIE DALLOW
ED. COOK
Proprietors

The National Film Board has released on its Trade Union circuits a film entitled "A Place To Live", which discusses Canada's major problem—housing.

Defends I.W.A.

Princeton, B.C.,
June 12, 1946.

Dear Sir:

As there is being an extensive campaign launched by Stuart Research Service Ltd. on behalf of the operators of the lumber industry, which with numerous half-truths and falsehoods is intended to sway public opinion, kindly permit us space in your paper to present our side of the issue.

Attempts are being made to convince the public that the operators were willing to grant concessions and make adjustments in an endeavor to avert the strike, but, according to them, all efforts failed to satisfy the ruthless executive, whose sole objective is to upset the whole economic structure of this country and bring about destruction, disorder, chaos, suffering etc.

During the negotiations held prior to the strike, the Interior Lumber Manufacturers' Association, a body which represents the interior operators, flatly turned down the union's demands. Their coast colleagues were however a little more liberal. They offered a slight increase in wages but rejected the 40 hour week and were definitely opposed to union security.

The "Voice of the B.C. Lumber Industry" insists that we, the workers in the lumber industry are the highest paid workers in Canada's heavy industry. To those who are not familiar with the rates paid in our locality here are a few examples of the wages in effect, agreed upon by the operators and the Regional War Labour Board:

	per hour
Bush operations:	
Swampers and common labour	55c-65c
Fallers and buckers	60c-70c
Teamster	65c
Top loader	70c
Truck driver	70c-80c
Mill operations:	
Labourer	55c-65c
Trimmerman	60c-70c
Edgerman	65c-75c

It may be seen from the above figures that the rate of wages is not high and it must be taken into consideration that there is considerable lost time in the woods due to snowfalls and spring thaws.

The Sloan recommendations were not acceptable to the union because:

(1) The 15 cent an hour wage increase is not sufficient to offset the already risen and still mounting cost of living coupled with a shorter work week.

(2) The 44 hour work week will not relieve unemployment sufficiently. We say "will" as it already is on the Provincial Statute books due to become effective on July 1st regardless of any recommendations.

(3) The voluntary revocable check-off unless coupled with union shop as the I.W.A. desired it to be, provides no union security whatever.

The strike is on, not because the leadership plunged the workers into it, but because the operators refused to recognize the need of a higher wage necessitated by a risen cost of living, the need of a shorter work week to create more jobs for Canada's thousands of unemployed and because of the operators' determination to maintain an open shop with the hope of eliminating the union in the future.

The workers are solidly behind the District Executive and are determined to stay on strike until their grievances are satisfactorily adjusted.

Yours for a better standard of living.

J. D. AMBROSE,
Chairman, Publicity Committee,
I.W.A.-C.I.O. Local 1-418.

APPLICATION FOR A WATER LICENCE

"WATER ACT, 1939"
(Section 6.)

I, The Director, The Veterans' Land Act, whose address for Service is 518 Rogers Building, 470 Granville Street, Vancouver, British Columbia, hereby apply to the Comptroller of Water Rights for a licence to divert and use water out of Similkameen River which flows South and discharges into **Okanogan River** in the State of Washington, United States of America, and give notice of my application to all persons affected.

The point of diversion will be located at a point on the Similkameen River where the North boundary of Lot 2755, Map 1479, projected Westerly intersects the said river. This point being approximately 2000 feet West of the Great Northern Railway.

The quantity of water to be diverted is **4000 acre feet per annum.**
(Cu. ft. per sec., gal. per day, or acre-ft. per annum).

The purpose for which the water will be used is **Irrigation.**

The land or mine on which the water will be used is **C/T No. 99975F:** Kettle River Assessment Dist., Section Three (3), Township Fifty-two (52), Similkameen Division Yale District, save and except (a) the Right of Way of the Vancouver, Victoria and Eastern Railway and Navigation Company as shown on plan attached to D.D. 8285, (b) those portions subdivided by Map One thousand four hundred and seventy-nine (1479). (c) those portions subdividd by Map One thousand five hundred and seventy-three (1573).

Certificate of Title No. 99976F: Kettle River Assessment District; Lot Two hundred and fifty-eight (258), Similkameen Division Yale District, save and except that part subdivided by Map One thousand five hundred and seventy-three (1573).

Certificate of Title No. 99977F: Kettle River Assessment District, Parcel "Z", Map One thousand four hundred and seventy-nine (1479), save and except that part shown on Plan "B" Three thousand two hundred and fifty-five ("B" 3255): Lots One (1) to Seven (7) inclusive in Block Eleven (11): Lots Fourteen (14), to Twenty-three (23), inclusive, in Block Seven (7): Lots Two (2) to Eleven (11) inclusive in Block Six (6): Lot Seven (7) in Block Four (4): that part of Lot Eleven (11), in Block Four (4), lying outside the boundaries of District Lot One hundred and thirteen (113): that part of Lot Fifteen (15), in Block Three (3), lying within the boundaries of District Lot One hundred and thirteen (113): that part of Lot Twenty (20) in Block Three (3), lying outside the boundaries of District Lot One Hundred and thirteen (113): Lots Sixteen (16) to Nineteen (19) inclusive, and Lots Twenty-one (21) to twenty-eight (28) inclusive, in Block Three (3), all on Map One thousand four hundred and seventy-nine (1479).

Certificate of Title No. 99999F: Kettle River Assessment District, Lot Seven (7) in Block thirty-six (36): Lots Six (6), Seven (7), Eight (8), Eleven (11), Twelve (12), Thirteen (13), Fourteen (14), Seventeen (17) and Eighteen (18), in Block Thirty-seven (37) all on Map One thousand five hundred and seventy-three (1573).

A copy of this application was posted at the proposed point of diversion or site of the dam on the land or mine where the water is to be used on the 22nd day of April, 1946, and two copies will be filed in the office of the Water Recorder at **Kelowna, British Columbia.**

Objections to this application may be filed with the said Water Recorder or with the Comptroller of Water Rights at Victoria, B.C., within thirty days of the date of the posting on the ground.

We Salute You, the Canadian Farmer

—grain grower, stock raiser, dairyman, fruit grower and market gardener!

During the War years you fed the armed forces and civilian population, not only of Canada but of a large part of the Allied world. That was a big job, and it was well done.

To-day you have an even bigger job. In the Old World millions are either starving or on the brink of starvation. For the bare necessities of life they must depend almost entirely on the New World. They look to the farmers in more fortunate lands to save them.

Discuss with our local Manager your financial requirements to reach your production goal. He will explain fully the Farm Improvement Loan plan and other ways in which we can serve you.

THE CANADIAN BANK OF COMMERCE 743

MEET AND MIX FROM COAST TO COAST IN CANADA

Victoria the Beautiful

KIPLING captured the gracious charm of British Columbia's capitol when he wrote: "To realize Victoria, you must take all that the eye admires most in Bournemouth, Torquay, the Isle of Wight, the Happy Valley at Hong Kong . . . add . . . the Thousand Islands and arrange the whole around the Bay of Naples with some Himalayas for the background."

Oak trees, holly, hedge-bordered homes, unbelievably lovely gardens and the great stone pile of the Legislature conspire with the ivy-wreathed walls and towers of the Empress Hotel to offer scenic attractions for visitors unequalled on this continent.

Every part of British Columbia has its own beauty spots in amazing variety, and this year the greatest influx of tourists in our history is expected.

We can all do our part in making these welcome visitors feel at home. Friendliness and courtesy cost nothing, but they are the essence of true hospitality.

The tourist industry benefits everyone.

This message is the fifth of a series supporting the efforts of our Government's Travel Bureau and Provincial Tourist Associations. Offered in the public service by . . .
