

THE PROSPECTOR.

702. III. NO. 1.

KASLO, B. C., THURSDAY, JULY 4, 1895.

PRICE TEN CENTS. \$2.50 per Year.

Travel is on the increase.

The new depot is to be located near 5th st., between A and B avenues.

Robt. Green has had a neat private office made in the corner of his store.

Bob Ewert, of the Poorman mine was umpire of the ball game at Nelson.

Mrs. H. Giegerich and children are visiting Mrs. Robt. Green and the junior Greens.

A number of mining men who haven't been here since last summer arrived this week.

Plans and specifications for a city hall are drawn and are in the possession of his worship the Mayor.

County Court convenes at 10 a.m. Friday in the Livingstone building. The judge, several lawyers and a number of litigants are present.

Chas. Laatz, of the Grady group of mines, has returned from Illinois where he invested several thousand dollars in choice real estate.

George Bent, until lately superintendent of the Le Roi mine, and Judge Geo. Turner, of Spokane, were registered at the Slocan, Wednesday.

Alderman Byers has returned from a visit to Montreal, Toronto and Hamilton. He found business improving in the east and an increasing interest being taken in the mining camps of British Columbia.

Three Forks would have water-works now, if the company that owns the town hadn't been afraid that Mr. J. K. Owen would make a dollar out of the plant that he was ready to erect, and crawfished.

J. K. Owen, representing Fraser & Chalmers of Chicago, has returned from that imperial city and is ready to erect a few more concentrators in Kootenay. Mr. Owen reports business improving in Chicago.

Neil and Bob McDonald, of the Blue Ridge Hotel (10-mile) have visiting them their sister, Miss Mary K. McDonald from Alexandria, Ontario; it being seven years since she had seen the former and ten years since she had seen the latter. She will remain with them about 3 months, enjoying mountain scenery, air and climate.

Joseph A Otto has returned from a month's prospecting in the vicinity of Trail creek. He saw a number of promising ledges, but they were on staked ground. He located a claim 5 miles from the Columbia river on the east side opposite Trail creek. He thinks there is a mineral belt running across the head of Bear and Champion creeks.

You will notice a change in the advertisement of the Slocan Store Co. This company, under the management of Capt. Moore and Major McFerran is showing the people of Three Forks and vicinity how to do business. One of the "never-advertise" merchants has been driven from the field, and no one shed a tear over his going, as the people are getting the benefit of the better prices which the Slocan Store Co is giving them.

The first consignment of rails for the Kaslo & Slocan railway has arrived at Bonner's Ferry.

Silverton has had a visit from Jas. McNaught of New York city, one of the owners of the Alpha mine.

Vacant buildings are scarce, and if the plans for new buildings are all carried out we will have a building boom within thirty days.

John Daly and Ernest Harrop came over from Three Forks to show their patriotism, and if there is any fun going that they have missed they are not aware of it.

By the terms of the contract which T. W. Gray has for the construction of one-fourth of a mile of sidewalk on the north side of A ave., it is to be completed by the 1st of August.

Jack Smith and several other Silverton people are here to attend court. The Three Forkers are conspicuous by their absence. They got enough of that kind of luxury at the last sitting.

The PROSPECTOR did not intend to hit the Tribune hard enough to knock it clear out, but it seems to have done so. The Tribune was not able to get out at all last week. We hope to look again upon its familiar but disfigured face.

Silverton Celebrates.

Sports of all kinds were indulged in at Silverton on Dominion Day. The New Denver brass band and about a hundred people from New Denver participated. Prospectors were all in from the hills. Most of the prizes were carried off by New Denverites, but Silverton won the tug of war after a hard contest.

Will be a Wave-Splitter.

The C. & K. S. N. Co., having unlimited faith in the volume of passenger traffic and the tonnage which the development of Kootenay's mines will occasion, has gone into the steamboat building business. It has no sooner completed its new steamer on Arrow lakes than it is announced that one is to be built at Nelson—that it will be patterned after the greyhounds of the Sound and devoted to the passenger business.

KILLING MINING INDUSTRY.

EDITOR PROSPECTOR:—The Provincial government never struck a harder blow at the mining industry than when it decided to tax mines according to the amount of ore in sight.

Such a law will have the effect of seriously checking development work. If the tax had been placed upon the amount of ore shipped it would not have such a paralysing effect, for then the mine owner could go on developing his property without having to pay out a large amount in taxes before realizing.

Development work is what the mining properties need. It is development work that shows up properties and induces the investment of capital, which is a benefit to the district and to the province. But who wants to develop his property just to increase his taxes? Who wants to uncover ore faster than he ships it, when he is taxed for doing so.

The law should be suspended now, and repealed at the first meeting of the provincial parliament.

L. H. B.

Keep it Quiet.

It is not for publication, but it's "on dit" just the same, that the claimants of the townsite of Cody expect to secure a title from the government in a short time, and is not improbable (we might put it stronger) that a rich corporation will acquire an interest and that a town as lively as any in Kootenay will spring into existence.

Nakusp.

The great feature of Dominion Day at Nakusp was the christening and launching of the C. & K. Co.'s new Steamer "Naktisp"—the finest steamer on Arrow lakes.

The base ball game between Nakusp and New Denver was won by Nakusp.

The foot race was won by T. Henderson of New Denver.

JUNE LOCATIONS.

- June 3. Banff, by W. M. Coan, north side of Bear lake.
- 3. Silver Reef, J. W. Smith, 2 1/2 miles west of Kootenay lake.
- 6. Yanke Boy, John Henry, 1 1/2 miles west of the lake.
- 7. Robinson, W. P. Robinson, Hot Springs camp.
- 8. Graham, E. S. Graham, at mouth of Lyde creek.
- 10. Tennie C., Jas. L. Montgomery, Whitewater creek.
- 11. Milo, A. V. Moores, Crawford creek.
- 11. Surprie, W. F. Morkelius, Glacier Creel, near Duncan city.
- 12. Caribo, Z. Montgomery, joins Skyline on south.
- 12. Homstake, E. A. Smith, at mouth of Schroeder creek.
- 13. Yuba Dam, M Walsh, on Goat creek.
- 14. Silver Idol, J S Stewart, on left bank of Goat creek.
- 15. Black Pup, Wm Hazard, s.f. of Lockheat creek.
- 15. Josie Rand McDonald, Lockheart creek 5 miles from lake.
- 15. Elkhorn, Wm Hazard, Lockheart creek.
- 17. Ready Cash, John Bough, Jackson creek.
- 19. North Branch, J R Hardie, n.b. of Woodbury creek.
- 19. Cable J Wilson, e side Kootenay lake 15 miles n. of Kaslo.
- 19. Overland, R Marpole, ditto.
- 19. Pease, E C Pease, ditto.
- 19. Rashall, G.H.R., ditto.
- 19. Partnership claim: Canyon, Hill & Speck, Jackson creek.
- 24. Sheriff, Wm P Robinson, Cedar creek.
- 24. Twilight, Joseph A Otto, 12-mile creek.
- 24. Silver Bell, S Weese, Coffee creek.
- 25. Gold Quartz, H J Warner, Mosquito creek w of Ainsworth.
- 25. Mystery, WW Warner, Krao creek.
- 27. Crown, RSGallop, east side of Duncan river.
- 27. Mascott, MHicks, ditto.
- 27. Spring Creek, John McHale, west side Spring creek.
- 28. Etta Maud, Edwin Gillis, 1 mile n.w. of Ainsworth.
- 29. Tiger, Wm Meet, Kaslo creek 10 miles from Kaslo.
- 29. Eldon, M J Goodwin, Whitewater creek.
- 29. Alberta (No. 2), J J Noble, do.
- 29. J. J. Noble, near Wellington.
- 29. Lone Star, Wm Meadows, Jackson creek.
- 29. Missing Link, Wm Matheson, Jackson cr.
- 29. Alberta, Wm Meadows, Whitewater creek.
- 29. Blue D., Thos Bennett, three miles from Pilot Bay.
- 29. Harry D., HDBeck LaFrance creek.

THE FIRST OF JULY

And How Nelson and her Guests Observed it.

From Kaslo three steamers carried excursionists to Nelson's celebration of Dominion Day. The Str. Nelson left her wharf at 4 a.m. with the few on board who were in a mood to start so early, but the way-stations probably gave her a fair load before she reached Nelson. At 7 o'clock the Alberta and the Ainsworth both steamed out of the harbor, each well laden with gay excursionists, and at every way-landing more came aboard. The passengers on the Alberta were treated to many well-rendered musical selections by the Kaslo Band, which, taken with the many comforts and conveniences afforded to those who travel on this steamer, made the trip en route down and return the pleasantest part of the day's outing. A good sized crowd and the base ball team was present from Rossland.

A foot race won by an Indian; a Chinaman's race, in which three started and only one finished; a hurdle race won by a high jumper from Spokane, and a foot-ball kicking match were all of the Caledonian sports.

The base ball match, Rossland vs. Nelson, was the feature of the day. The latter won, 12 to 9. The game was closely contested and well played on both sides until the eighth inning when the failure of one of the Rossland men to catch a ball thrown him allowed Nelson to make two scores, and evidently "rattled" the Rossland players a little for they allowed Nelson to score two more and failed to make anything themselves in the next inning. The best work on the diamond was done by Rossland's pitcher; though Nelson's pitcher did well and her players averaged slightly better than the Rossland nine, as is shown by the score. A large amount of money changed hands on bets, each team being strongly backed by admirers, and the purse played for was \$150.

The only thing of which Kasloites made serious complaint was the scant and poor quality meals served by the leading hotels; and when they returned to the boat and were started home the steward, cooks and waiters were kept moving lively for about two hours before all appetites were satisfied.

THE SECOND DAY

Was devoted to horse racing. Famous horses were present, from Okanogan, Spokane, etc. Betting ran high and considerable money changed hands.

There were three principal races—succeeded by a race not on the programme but gotten up by outsiders.

Jockeying of the rankest sort is alleged, but who ever heard of a horse race that didnt provoke any amount of kicking.

HERE AND THERE.

Silver remains where it has been for weeks, at 66 and a fraction.

The Rossland publishers are the most prosperous of any in the district.

A jury has finally been secured in Spokane that has found a murderer guilty.

Their Beauty Pleased Him.

"Wings" always has a good word for the ladies. Here is what he says in the World of the Kaslo excursionists to Balfour:

It was a surprise to your correspondent to witness such a turnout of people, well dressed and exceedingly well behaved. The stronger sex prevailed in point of numbers, yet the beauty and vivacity of many of the fair ones and the exquisite taste in which they were dressed formed a theme of general remark.

For sale By Auction,

All the right, title and interest of the firm of Wm. McEACHREN & CO.

Hotel - Slocan

Building and its Contents, Will be offered for sale by Public Auction on THURSDAY the 1st Day of August

1895 at 4 o'clock P. M., Unless in the meantime the same shall be sold by private sale.

AND OTHER KASLO PROPERTIES. Will Exchange for Mines and Good Mines, Too. WILSON & HOOPER, Auctioneers, Commission and Real Estate, Metropolitan Club Building, VANCOUVER, B. C.

THE PROSPECTOR

BY W. D. PRATT.

SHOULD MAINTAIN GOOD FAITH.

It is of great importance to the city that it keep good faith in all its obligations. It must first know definitely what those obligations are. There appeared to be a doubt in the minds of some as to the nature of the agreement with the railway company. We have no doubt that there are some who believed that the exemption from taxation was promised on condition that the railway be constructed the same year, and as the railroad was not constructed that year nor the next, these persons naturally conclude that the city is not under obligations to carry out its part of the agreement. But a little investigation shows that the promise was not conditioned on the construction of the railway at all—either that year or any other year.

Mr. Buchanan in his communication to the PROSPECTOR last week let in a flood of light upon that subject. He says, "The condition was that the Kaslo and Kootenay Land Co. should sign the petition to the Lieut.-Governor in Council asking for the incorporation of Kaslo as a city." That Mr. Buchanan is right about the terms of the agreement none, perhaps, will dispute, and as the matter stands at present the good faith of the city is jeopardized.

It seems to us that it would be well to have a public meeting of the citizens, where the knowledge which everyone has on this matter can be brought out, and each one's views compared with those of every other one, and in the end determine what is just and right toward the railway company and what should be done to maintain the good faith of the city.

WHO WILL BELL THE CAT?

The vain attempt made by Messrs. Cleveland, Morton, Buchanan and other goldbugs to find someone who will answer "Coin's Financial School" recalls one of Aesop's fables. It is in point just now and reads as follows: The mice summoned a council to decide how they might best devise means for obtaining notice of the approach of their great enemy—the cat. Among the many plans devised, the one that found most favor was the proposal to tie a bell on the neck of the cat that the mice, being warned by the sound of the tinkle, might run away and hide themselves in their holes at his approach, but when the mice further debated who among them should thus "bell the cat" there was no one found to do it.—Omaha World-Herald.

HIT THE BULL'S EYE.

International bimetalism upon a proper ratio is very much to be desired. It would add much to the stability of values and would be a great convenience in the transaction of foreign business. It would bring about prosperity not only in this country but throughout the civilized world. But international bimetalism, coupled with free coinage, is an iridescent dream. No such good fortune is likely to come to bless the masses of the old world or the new during the lifetime of anyone now living.

Every free coinage man, wherever he may reside, is in favor of international bimetalism and he hopes the time may come when it may be brought about. But in the meantime the real friends of the people are working in season and

out of season to bring about free coinage in this country. We are in favor of free coinage in this country without waiting for the co-operation of any other country on the earth. While we would rejoice at the good fortune that would result from free coinage in other countries and are willing to do whatever we can to aid and promote so great a blessing to mankind, yet we should not permit ourselves to be led away from the real issue.—Spokane Chronicle.

AN INTERNATIONAL NOTORIETY.

Last December a certain party went over to England with a Cœur d'Alene mining property for sale. This was not his first mission of the kind, and he had no difficulty in making the acquaintance of capitalists who were speculating in mining investments in the United States. The report of the property met with favor with one exception, and that proved an insuperable barrier to the sale. They told the promoter very plainly that unfortunately they already had investments in the Cœur d'Alene country, and that they didn't propose to put any more money in a district where a man could not work his own mine except at the dictation of irresponsible persons who had no interest in the property. It is unfortunate that the conditions here should warrant the unenviable reputation that the Cœur d'Alene country has obtained throughout our own country and even, as is shown above, among the mining men of Europe. It will require several years of a reign of law to obliterate the evil effects of the conditions which have disgraced the Cœur d'Alenes the past three years.—Ex.

Plated with Gold.

The czar has a palace just outside St. Petersburg, known as Tsarskoe-Selo, which was built by Catherine the Great. It is of vast extent and plated over with gold. It took nearly \$1,000,000 worth of bullion to do the work, and when, owing to the dampness of the climate, it began to peel off, Catherine ordered it to be painted instead.

Some Russian speculators wanted to scrape off the gold and melt it over again, and they offered Catherine \$500,000 for the job. She sent them to prison for insulting her with the proposition, and covered the palace with yellow paint.

This palace has rooms walled with amber. It has a parlor covered with lapis lazuli, and the walls and ceiling of one drawing room are of the finest tortoise shell. There are 500 apartments in the palace, and the ball room covers nearly half an acre.

Its floor is of wooden mosaic, and there are other rooms in which the finishing is in ivory, bamboo and in bronze. The palace must have cost millions, and it is only one of a dozen which belongs to the czar.—Boston Post.

APPLICATION FOR LIQUOR LICENSE

Notice is hereby given that the undersigned will at the expiration of thirty days apply to the Stipendiary Magistrate of West Kootenay district for a license to sell liquor at retail in his Hotel at Watson.

FACTS OF INTEREST.

It is supposed by some that when a tree is struck by lightning it is torn not by the electricity, but by the explosion of water suddenly converted into steam by the heat of the arrested current.

If a needle be inserted into the skin of a supposed corpse and withdrawn the hole will remain open if the patient be really dead. But if the patient lives the skin will close up and the hole disappear.

There are doors in some old houses of Holland which were in former days never used except for funerals and weddings. After the bride and bridegroom had passed the door was nailed up to await the next occasion.

London has maintained for many years a pre-eminence in the fur trade. American and Russian buyers both visit that city to buy fur originally taken in their own respective countries. The sales amount to \$20,000,000 a year.

In certain towns of Germany the telephone is introduced by tobacco-conists as an additional attraction to customers. Anyone who buys a cigar may, if he desires, speak over the tobacco-conist's instrument to a subscriber to the telephone service.

It is not at all surprising that women are almost burned to death when they know no chemistry. The cook who wore a celluloid corset around the range would have known had she known chemistry that celluloid is chiefly composed of camphor and gun-cotton, and that gun-cotton is one of the highest of the high explosives.

It Doesn't Work.

"Don't talk prohibition to me," said old Uncle Abel Bimley, with an oracular shake of the head. "I know better. There I had four of the likeliest girls as the Corners ever see, an' all the fellers fer miles aroun' a-lookin' up to 'em. Wot does I do? W'y, yelled an' prohibited an' kicked on' prohibited an' chased fellers all over my forty-acre lot, an' wot's the result? Ev'ry one of them girls is married an' raisin' the bloomin'est families in these parts. Does prohibition prohibit? Not by a jugful it don't."—Exchange.

FRUITS AND CONFECTIONERY ALWAYS ON HAND.

This space Engaged for the

KASLO-Kootenay Land Company.

Good Prospecting.

There is a surplus of inviting fields for the prospector this year. He would if he could investigate half a dozen localities at once. There is the well defined, tested and proved Slocan mineral belt. Enough finds have been made there within a year past to satisfy anyone that the bonanzas which it contains are not all found yet. There is the new gold field on Eightmile creek near Silverton. Its ledges promise to rival those of Trail creek. Further down Slocan lake is the Springer creek country where the ledges carry native silver and a considerable amount of gold.

Or, if the prospector is inclined to go eastward he will find the Grouse mountain country rich in copper, and just beginning to attract the attention of capitalists.

If he wants a property that he may have to hold on to two or three years but which in the end will bring him big money, he may seek for it among the large deposits of the Lardeau.

Go in any direction from Kaslo and you will find abundant territory that it will pay to prospect.

England's Cabinet.

The Marquis of Salisbury has completed the work of forming a new cabinet. The new ministry is as follows:

Premier and secretary of state for foreign affairs, Marquis of Salisbury; president of the council, Duke of Devonshire; lord high chancellor, Baron Halsbury; lord of the privy seal, Viscount Cross; chancellor of the exchequer, Sir Michael Hicks-Beach; secretary of state for home affairs, Sir Matthew White Ridley; first lord of the treasury, A. J. Balfour; secretary of state for the colonies, Joseph Chamberlain; secretary of state for war, Marquis of Lansdowne; first lord of the admiralty, George J. Goschen; secretary of state for India, Lord George Hamilton; president of the board of trade, C. T. Ritchie; president of the local government board, Henry Chaplin; lord lieutenant for Ireland, Earl Cadogan; lord chancellor of Ireland, Baron Ashbourne; secretary for Scotland, Baron Balfour of Burleigh; chancellor of the duchy of Lancaster, Sir Henry James.

Other appointments are as follows: Financial secretary of the treasury, Robert William Hanbury; under secretary for foreign affairs, George N. Curzon.

The city chain gang is being utilized in the construction of a pound for the incarceration of stray horses and unlicensed dogs.

White Grouse Mountain.

A trail has been completed from Davie, a few miles above Pilot Bay, to White Grouse mountain; and it is claimed that it will open one of the most extensive mining sections in the Kootenay country.

To Aurora and Newark.

The Str. Lytton brought up on its first trip this week 60 tons of Pilot Bay or "Hendryx" bullion, and on Thursday 20 tons. It also had in cargo on Thursday two car-loads, about 34 tons, of Silver King or Toad Mountain ore. The bullion was consigned as usual to Aurora, Ill., but the ore goes to Newark, N.J.—Revelstoke Mail.

Will Have a Hospital.

Dr. Rogers has nearly completed his arrangements for building and conducting a hospital in Kaslo. The building will be 24x40, two stories. The lots on which to erect it will be given by the city. The deed conveying the lots will contain a conditional reversionary clause, and the interests of the city will be well protected and at the same time the city will be getting a much needed institution.

Blew Up the Jam.

Early in the week a log jam formed in Kaslo creek near the old "depot" building, and it was necessary to remove it to prevent the lower part of town from being flooded. As the raging waters were about four feet deep all around the jam no one cared to undertake the job, that is, no one except Caleb Freeman. He waded through the torrent, carrying a bag of powder upon his shoulder, and, after placing it where it where it would do the most good and lighting the fuse, made the perilous trip back to the shore. This performance he repeated many times until the jam was entirely removed.
