THE PROSPECTOR.

LEGISLATIVE LIBRARY, APR 16 1895 VICTORIA, B. C.

VOL. II.—NO 37. KASLO, B. C., THURSDAY, APRIL 11, 1895. PRICE TEN CENTS. —$2.50 per Year.—

A NEW ERA

Prosperity Dawning Again upon the City of Kaslo.

THE TIDE HAS TURNED.

The Rise in Silver, and Early Railway Construction Inspire Confidence. Local News Items.

Some Kaslo-Slocan Railway Co. money is circulating in Kaslo this week. It was paid by the company to G. O. Buchanan for lumber, and by him paid to his workmen.

Robt. Irving, secretary of the Kaslo-Slocan R'y Co., is heartily welcomed to Kootenay. He has opened the offices of the company in what was formerly the post-office building.

J. H. Gray, the new engineer of the Kaslo-Slocan railway, arrived this morning and will immediately make a trip over the proposed line. He will then run the final survey for the road. It is reported on good authority that other engineers and the contractors are now on the way here from St. Paul.

A gentleman in Duluth concludes a business letter to a West Kootenay business man with the following remark: "A few weeks ago Messrs. Foley and Guthry of St. Paul, old acquaintances of mine, informed me that during the coming summer they would build the line of railway from Kaslo to Slocan lake. They have abundant means of their own to build and equip that road and I have no doubt of their doing what they say."

Work on one of the scows being built here by the railroad company is well advanced, and it will be completed in three weeks. These scows when constructed will be used to transport the locomotives and building material of the Kaslo-Slocan railroad from Bonner's Ferry to Kaslo. They will each be 75 ft. long by 26 ft. beam and have a carrying capacity of 150 to 175 tons. Malcolm MacAskell is the chief builder. He is assisted by Capt. Buchanan, T. W. Gray and several other carpenters. Geo. Newman is the oakum expert.

Travel by rail and steamer is increasing, and in another month every steamboat arriving in Kaslo will be loaded with passengers.

Louie Lebert came here from 3 Forks two weeks ago today, built a large blacksmith shop in two days and has had plenty of business since.

The Kaslo creek improvements undertaken by Kaslo's enterprising Mayor and City Council are nearing completion. We hope in a future number to give a detailed description of these valuable improvements.

Two Dromios are not more alike than are the Trail creek ore and that found in the King Solomon and Golden Rule mineral claims, onehalf mile from Kaslo. Customs Officer J. F. McIntosh is interested in the former, and the latter was located last week by Ben Finnell, a veteran prospector.

Idaho Restaurant for a good meal. *

Prof. Liddy is a close observer and a logical reasoner, and it is to these characteristics, rather than any occult powers, that he owes his reputation which is becoming widespread. His interview published in the Spokane Times two weeks ago was one of the best advertisements the Slocan country has ever received.

Col. S. M. Wharton of Spokane arrived in town Sunday morning on his way to New Denver. We feel sorry for the Col. We really do. He cannot get anything in the Slocan that is any good. Of course he owns a third interest in the Reco, but what does that amount to? If he could only get a mine that has high grade ore he would be all right. $9,260 to the carload is a bagatelle. The Cliff in Trail creek he thinks is a great mine. It goes $200 to the carload, less $250 for mining, shipping and treating; but then, it is in Trail creek district and that makes all the difference in the world. Col. Wharton will erect a hotel in Rossland, and as he doesn't do things by halves it will be a magnificent one modeled after one of the finest hotels in Spokane.

More Money for Lardeau.

Simultaneous with the rise in silver, Messrs. Wagner & Kennedy of this city received a telegram from Spokane stating that the money had been deposited to their credit to secure a bond on the Duncan and Lardo, two claims of the Wagner group. The amount of the bond is $15,000 and the purchaser is Col. Peyton of the LeRoi mine. The Wagner group is in what is locally known as the high-grade belt of the Lardeau, and is reached by way of Nakusp, Northeast arm and Trout Lake.

A Bigger Man than Leo.

Mgr. Satolli, the papal delegate, has issued a decree temporarily suspending the edict of Pope Leo, which relates to Catholic membership in the Knights of Pythias.

A Death at Sandon.

Allen McPhee, a prospector about 68 years of age, was taken sick on the morning of the 2nd inst. and died the same day. He had neuralgia of the stomach, which caused violent pains. When not prospecting, Allen McPhee followed logging and sawmill work. He was one of the discoverers and owners of a promising property on Tenmile.

Little Reuben Scalded.

Little Reuben, the five-year-old son of C. A. Woods, the steward at the LeRoi, met with a very painful accident last Friday. Racing around the house, he made a trip through the kitchen, and accidentally upset a kettle of boiling water over himself. He was badly scalded, but is progressing nicely under the care of Dr Keller.—Rossland Record.

British Columbia's Only Smelter.

Five hundred tons of silver-lead bullion have been shipped from the smelter at Pilot Bay. E. W. Herrick, president of the company and the man who furnished a large part of the capital to construct and operate it, has been viewing the property this week. He is from Minneapolis, and is greatly impressed with the limitless extent of the mineral resources of Kootenay.

East Kootenay Development.

Quite a little delegation of Spokane prospectors will start for the Fort Steele country about the middle of next month. There would be a great many more of them if money were more plentiful, but the merchants of that country have a habit of charging about five prices for supplies, and this has a tendency to discourage the prospectors who don't have enough cash on hand to buy a season's grub in Spokane and pack it with them into the hills.

Most of those who will go intend to hunt for placer properties, although there is likely to be more activity in quartz prospecting this year. This is owing to hopeful signs that the Canadian Pacific will actually extend its Crow's Nest Pass line to the Kootenay river this year, along the lines surveyed last autumn.

"There are plenty of quartz properties along the Upper Kootenay," said an old prospector today, "but they have always been neglected because there was no way to ship out the rock and ship in machinery and supplies except at enormous expense. But once let the railroad graders begin work on the C. P. extension, and quartz locations will be in lively demand. And there are good signs that the dirt will fly this year.—Chronicle.

Whom Will They Marry?

It is very difficult to get at court secrets in England, but there is every reason for believing that a difference exists in regard to eligible partners for the two remaining unmarried daughters of the heir-apparent. Princesses Victoria and Maude are very desirous of remaining English women and of living in England, and it is stated that both young ladies would welcome offers of marriage from English noblemen of sufficient rank to approach their royal state and of sufficien income to support a spouse of royal birth with becoming dignity.

Unfortunately there does not appear to be any strong desire on the part of the unmarried members of the higher nobility to become connected with the royal family. Of course only a peer of the three higher ranks, or the heir to such a peerage, could possibly be acceptable, and there are not many such gentlemen still unmarried in the ranks of the aristocracy.

The Prince of Wales, it is believed, favored the proposals of the Prince of Naples, but the Queen would not hear of it, and Princess Maude herself expressed the strongest objection to being a convert to the Papal faith, even to become a Queen of first class rank.—Cor. Examiner.

Mortgage Sale.

Under and by virtue of the power of sale contained in a certain mortgage, which will be produced at the time of sale, there will be offered for sale by Public Auction at the office of the undersigned on Fourth street City of Kaslo, B. C., on Thursday, the 16th day of May, 1895, at 11 o'clock in the forenoon, the following LANDS situate in the City of Kaslo, B. C., and described as Lot 15 in Block 3 and Lots 3 and 4 in Block 9 in the said city of Kaslo, according to a map or plan of said City of Kaslo deposited in the Land Registry office at Victoria and numbered 393.

Terms of sale: Twenty-five per cent of the purchase money to be paid Vendor at the time of sale, balance in five days with interest at 8 per cent per annum.

The conditions of sale will be made known at the time of sale.

For further particulars apply to HORACE W. BUCKE, Vendor's Agent, Fourth Street, Kaslo, B. C.

LIDDY'S VIEW

What the Professor Thinks of the Outlook This Year.

A RUSH COMING IN MAY.

Great Activity in the Mines of the Slocan and Tributary Districts.

KASLO, Apr. 5, '95.

Having returned from Spokane I have been asked the question: what are the propects for Slocan for the year?

Well, I will base my remarks on two things: 1. The present rise in silver, which will be 70 cents before the month expires. 2. The R. R. from Kaslo to Sandon.

Well up till now, I thought like a great many others: that is paper talk. But now it's a go. The lack of this road was one of the greatest drawbacks we had and, coupled with the fall of silver, kept the camp from being one of the greatest silver-lead camps on earth, that I know of, and I have been to every silver and gold camp of any note in the States and foreign countries. But at the same time there is very little scientific mining down here yet. I mean by that, getting depth—running probably a thousand feet through formation to be rewarded by large bodies of ore. This isn't idle or imaginary talk, as my remarks have come true notably on two mines, viz: the Alamo and the Slocan Star. Several mining men told me the Alamo was no good and did not go down. As soon as I examined the property I pronounced it a rich mine by getting depth, comparing with the famous Idaho; and at present writing the Idaho aint got nothing to boast over the Alamo. Reference to the manager, Mr. Jno. Vallance, will reecho my sentiments.

It is a great country and as good a breaking ground as ever I worked in. Wages are $3.50 per day for miners—not a cent too much for good men. In some they pay muckers or trammers $3 per diem. For a new country, and considering transportation of provisions, etc., accommodations for miners are all that could be desired.

I understand Jim Hill is back of the railroad project from here to Sandon, which to me is sufficient evidence that it will get there.

Of course I could go on enumerating the many fine properties here for capitalists to take hold and make pay from the start, but I will close by stating that around 3 Forks and especially Sandon there will be great activity in mining, also in the 4-mile country.

Tributary to Kaslo is the Lardo and Duncan country. Later on I will speak of that country. In it, starting in on base ore and low assays, when a depth of 30 or 100 feet is gained the grade runs up into 300 to 1000 oz. assays.

Strange but true, without being egotistical, I can and will state you will have a prosperous year.

Since I came here an old prospector took me for about 2 miles from town and showed me mineral of the very same external characteristics as Trail creek ore—no difference between it and the famous War Eagle or LeRoi ore. It is covered over with a rich iron capping. Depth can be gained by drifting on it. There is and will be for the next 2 weeks snow on this mountain. The lead is 2½ feet wide. This is something new and a new strike, and Kaslo will be the winner.

I look for a rush here by 1st May.

More anon,

PROF. J. J. LIDDY

THE PROSPECTOR

BY W. D. PRATT.

This is going to be a business year in Kootenay.

Considering the present and prospective rise in silver, the mineral belt of the Slocan still offers the best field in the northwest for prospectors.

The indefinite postponement of the Dominion election will give all an opportunity to attend to business instead of the less profitable calling of politics.

Within a year two serious steamboat fires in West Kootenay have originated in the galley, and have directed the attention of owners, insurance men and timid passengers to that portion of the steamboat.

The Manitoba school question may be, as the Tribune says, one that concerns the people of Manitoba alone, but the action of the Dominion government regarding the disposition of the school fund is the concern of all Canada.

A prime factor in the growing ill feeling between the governments of the two great English speaking nations is owing to the neglect of the United States government to pay the award for damages in the seal fisheries case. Uncle Sam should pay up promptly.

While Rambler T. Lowery was out riding the circuit, C. Encored Smitheringale, being a politician and a Conservative, has committed the Ledge to the support of John Andrew Mara. The financier and humorist is not so imbued with politics and may see neither finance nor humor in the transaction.

Living burial, by placing the victim in a dark cell, and beyond the hearing of a human voice, and keeping him there for months and years until death affords relief, is a system of torture too cruel for even the darkest ages. Yet it still exists in Belgium, and a woman has received that terrible sentence. Humanity should cry out against it.

From holding a high place in the esteem of the American people, Secretary Gresham's narrow-mindedness has sunk him to the lowest. It is because ex-Consul Waller was a friend of ex-President Harrison that Gresham refuses to extend to him the protection which every American citizen, regardless of party, has a right to claim and expect.

We have known ex-Consul Waller for several years. He is the ablest colored man we ever met—a greater orator than Fred Douglass, a greater statesman than Bruce. He is an honorable man, and we cannot believe that there are any just grounds for his imprisonment. The governments of the United States and of Great Britain should arrest the hasty court martial sentence of the French government in Madagascar.

Neither Bostock nor Mara are properly before the people as party candidates.

The matter-of-course manner in which both claim the suffrages of the members of their respective parties is an exhibition of confidence—not to say, gall—which challenges our admiration, but there is no reason why they may not both be left out in the cold by the conventions of both parties which may be called for the purpose of placing candidates in the field.

The Montana Mining and Market Reporter classes THE PROSPECTOR among "excellent papers" of the northwest country. Thanks.

Let the Ledge ask itself whether it died when it moved from Nakusp to New Denver, and whether it will be any deader than it is now when it moves back to Nakusp—the only place left for it to move to.

It is hard to keep track of the Slocan newspapers—they appear to be on wheels. The Slocan PROSPECTOR, late of New Denver, but later of Three Forks, has moved to Kaslo and will try that field for awhile.—Bonner's Ferry Herald.

THE CRITICISM IS JUST.

The conduct of the United States government since the Paris Arbitration has given its decision has not been very encouraging to the philanthropists who are agitating that nations should settle all their disputes with one another by arbitration. In order that such a system should succeed the nations must agree to carry out the decisions of the arbitrators promptly both in their letter and their spirit, and in good faith.—Colonist.

CITY OF KASLO.

BY-LAW NO. 7.

WHEREAS it is deemed expedient to impose a tax upon the owners, possessors, or harborers of dogs, and to provide for the impounding, selling and killing of dogs on the non-payment of such tax by the owners, possessors or harborers thereof:

The Municipal Council of the Corporation of the City of Kaslo enacts as follows:—

1. Every owner, possessor or harborer of a dog in the City of Kaslo shall annually, on or before the first day of May in each year, pay unto the Chief of Police of the said City of Kaslo, for the general purpose of the said City, a tax or fee of one dollar for each male dog and two dollars for each female dog owned by him, or in his possession, or suffered to remain about his house or premises, and upon payment of such tax shall be entitled to receive from the said Chief of Police a metallic plate having raised or stamped thereon the letters "C. T. P." (city tax paid), and the figures indicating the year for which the said tax has been paid, together with a number corresponding with the number under which the said dog is registered in the book kept for that purpose by the said Chief of Police.

2. It shall be the duty of the Chief of Police, the Police Constable and the Poundkeeper of the said City of Kaslo to impound any dog found running at large in the said City of Kaslo which is owned, or in the possession of, or suffered to remain about the premises of any resident of the said city, and for which dog such owner, possessor or harborer has not paid the tax or fee required of him by clause one of this by-law, in the public pound of the said City, and of the said Poundkeeper to keep any such dog so impounded for seventy-two hours, and if the owner within the said seventy-two hours produces to the said Pound-keeper the receipt of the said Chief of Police showing that the tax payable on account of the said dog has been paid, or a metallic plate in accordance with clause one of this by-law, and shall also pay to the said Poundkeeper the sum of one dollar for his fee for so impounding the said dog, and twenty-five cents per day for the expense for the keeping and feeding of the said dog, then the said dog shall be delivered to the said owner or claimant; otherwise the said dog, at the expiration of the said seventy-two hours, shall be sold or destroyed by the said Chief of Police or Poundkeeper.

3. The Chief of Police shall in the months of April and December in this year post up notices in at least six public places in the City, warning persons of the provisions of this by-law, and in future years in December only.

4. It shall be the duty of the said Chief of Police once in every month to make a return or report, in writing, to the Municipal Council of the Corporation of the City of Kaslo showing the names of all persons who have, during the preceeding month, paid the tax imposed by this by-law, together with the date of such payment, and the amount received from each such person, and also once in every month to pay over to the City Treasurer all moneys received by him during the preceeding month, under the provisions of this by-law.

5. Any person refusing or neglecting to pay such tax, or guilty of any infraction of any of the provisions of this by-law shall, upon conviction before the Mayor or Police Magistrate, on the oath or affirmation of any credible witness, forfeit and pay over, at the discretion of the said Mayor or Police Magistrate convicting, a penalty not exceeding twenty-five dollars for each offence, exclusive of costs, and in default of payment thereof forthwith, it shall and may be lawful for the Mayor or Police Magistrate convicting as aforesaid to issue a warrant under his hand and seal to levy the said penalty and costs, or penalty or costs only, by distress and sale of the offender's goods and chattels, and in case of insufficient distress to satisfy the said penalty and costs, or penalty or costs, it shall and may be lawful for the Mayor or Police Magistrate convicting as aforesaid to commit the offender to any lock-up in the said City of Kaslo or to the district jail for a period not exceeding one calendar month unless the said penalty and costs, or penalty or costs, be sooner paid.

Passed the Municipal Council the 22nd day of November, A. D. 1894.

Reconsidered, finally passed, and adopted by the Municipal Council on the 4th day of March, A. D. 1895.

Let it Follow.

The petition sent from Victoria to the Minister of Justice at Ottawa, praying that the extra three years imposed upon John Simpson by Mr. Justice Crease for replying, after the sentence of five years had been pronounced, "Thank you, sir," be remitted, has had the desired effect. Sir Charles H. Tupper, the Minister, has remitted the three years. This action on the part of the executive is very unusual, but, of course, the circumstances were unusual, and the whole press of the province endorsed the prayer of the petitioners. It would not be surprising if Hon. Justice Crease's resignition followed.—Columbian.

Not Next, But First.

Rossland Record.

Since the nations have agreed upon an international monetary conference, and it is known almost to a certainty that something will be done in aid of silver, capitalists are again turning their attention to silver investments.

If anything is done for silver the Slocan country presents an unrivalled field for investment in that line. It is almost an assured fact that the Kaslo-Slocan railway will be built during the present year, and, with the Pilot Bay smelter running, next to Trail Creek, the Slocan has a brighter future than any one of British Columbia's many camps.

CITY Of KASLO.

BY-LAW NO. 24.

THE Municipal Council of the City of Kaslo enacts as follows:—

1. There is hereby settled, imposed and levied, and there shall be raised and collected, an equal rate of fifteen mills on the dollar upon all land on the Assessment Roll for the year 1895 of the Corporation of the City of Kaslo, at its assessed value thereon.

There is hereby settled, imposed and levied, and there shall be raised and collected an equal rate of one mill on the dollar upon all land on the Assessment Roll for the year 1895 of Corporation of the City of Kaslo, at its assessed value thereon, for board of health and hospital purposes.

2. There is hereby settled, imposed and levied, and there shall be raised and collected, an equal rate of fifteen mills on the dollar upon all improvements upon the Assessment Roll for the year 1895 of the Corporation of the City of Kaslo, at their assessed value thereon.

There is hereby settled, imposed and levied, and there shall be raised and collected, an equal rate of one mill on the dollar upon all improvements upon the Assesement Roll for *the year 1895 of the Corporation of the City of* Kaslo, at their assessed value thereon, for board of health and hospital purposes.

3. The aforesaid rates and taxes shall be due and payable to the Collector of the said corporation at his office, in the Council Chamber, at Kaslo, on the 1st day of June, A. D. 1895, and all persons who pay the aforesaid rates and taxes on or before the said 1st day of June, A. D. 1895, shall be entitled to a discount in reduction of one-sixth of the amount thereof.

4. The terms "land" and "improvements," used herein, shall be deemed to have the same meaning and construction as they have in the "Municipal Act, 1892," and its amendments.

5. There is hereby settled, imposed and levied on all and every male person resident in the City of Kaslo a road tax of two dollars, payable immediately after this by-law comes into force; provided, always, that persons assessed for lands, improvements or real property, or are under 21 years of age or over 50 years of age, shall be exempt from such tax, but not otherwise.

6. There is hereby settled, imposed and levied on all persons, resident or non-resident, who are assessed for, or possess any property under the assessed value of five hundred dollars, two days' statute labour; and on all persons, resident or non-resident, who are the owners of assessed property over and above the assessed value of one thousand dollars, three days' statute labour; and one day's additional statute labour for each additional five hundred dollars of assessed value which they may own or be assessed for.

The aforesaid statute labour may be commuted for the sum of two dollars for each and every day's labour the commuter is liable for,

7. All and any by-law or bylaws containing any provision or provisions which may be or which are inconsistent with or repugnant to the provisions of this by-law is and are hereby repealed in so far only as they are inconsistant and repugnant hereto, but not otherwise, so that full force and effect shall be given to the provisions of this by-law.

8. This by-law may be cited as the "Tax By-law, 1895."

Passed the Municipal Council 4th day of March, 1895.

Reconsidered and finally passed and adopted the 7th day of March, 1895.

[L. S.] JOHN KEEN,
W. R. ALLEN, Mayor.
Acting C. M. C.

NOTICE.

The above is a true copy of a by-law passed by the municipal council of the City of Kaslo on the 7th day of March, A. D. 1895, and all persons are hereby required to take notice that anyone desirous of applying to have such by-law, or any part thereof, quashed, must make his application for that purpose to the Supreme Court of B. C. within one month next after the publication of this by-law in the British Columbia Gazette, or he will be too late to be heard in that behalf.

W. R. ALLEN,
Acting C. M. C.

GENERAL ELECTION.

To the Electors of Yale-Cariboo:

Gentlemen:—In response to the widely expressed desire of representative men in various parts of your district, I have decided to come forward as a candidate at the forthcoming elections, in opposition to the present government.

As this is such an enormous district I am, of course, personally unknown to a large number of you; but I may state that I have large interests at and around Ducks and Kamloops, and am very desirous for your welfare and mine, to see this province progress more than it has done for the last few years.

I am opposed to the policy of protection which has been pursued for the last sixteen years, as being unfitted to the requirements of the country and benefitting the few at the expense of the many.

I join in the condemnation of the corrupt manner in which the administration of the affairs of this country has been carried on during the time that the present party has been in office.

I consider:—

1. That a customs tariff, if imposed at all, should only be for the purpose of raising a revenue, not for the purpose of protection.

2. That free trade relations with Great Britain and the United States would immediately benefit this country.

3. That under existing circumstances and the peculiar nature of the country mining machinery should be allowed to come in free of duty.

4. That the natural resources of the country should be the first to be developed.

5. That in order to accomplish this end the country should be opened up, the rivers made navigable, and increased facilities for communication and transportation afforded.

6. That the mail and other contracts let by the government should be put up in public tender.

7. That the strictest economy should be observed in the administratson of the public service, and all unnecessary expenditure should be stopped.

8. That all complaints in regard to the disposal of government lands and issuing of titles should be inquired into and any grievances redressed, and the surveys in the railway belt completed as soon as possible.

As this district comprises so large an extent of country it will be impossible for me to visit every polling division and become acquainted with the electors, but I shall make a point of visiting as many as possible and holding meetings for the purpose of placing my views on public matters before you, and learning from you the local requirements of each district.

I have no objects of my own to serve by asking you to support me, but I have time that I can give to promote the interests of this district, the province and the Dominion, and I shall devote it to that purpose.

For these reasons I ask your support at the approaching Dominion elections, and trust you will see fit to give it to me.

Yours faitlfully,
HEWITT BOSEOCK.

Kootenay Land Company.

IDLER'S VIEW OF DOMINION POLITICS.

The Dominion is apparently about to make some history. The Manitoba school difficulty has reached an acute stage.

By an order in council dated March 21st, 1895, the Dominion government practically command the governmeut of Manitoba to restore to the Roman Catholics the right to maintain and control schools such as meet the approval of their clergy, such schools to receive their full share of public money.

The Manitoba legislature having received the mandate has adjourned without taking action. They propose to await the result of the consideration of the question by the parliament of Canada, which is called to meet on April 18th.

This body has power to grant the remedial legislation if the provincial government neglects to do so; and the Catholic leaders seem to be urging the Government to finish the job they have so well begun, by the passage of an act through the present parliament.

This step once taken would be irrevokable, as such an act would become a part of the constitution and could never be repealed.

The Ministers who have Protestant constituencies to face have yielded so far to a clamorous minority to avoid an immediate rupture of the party, but with the understanding that parliament would be dissolved and the people consulted before the final settlement of the question. Now that the Premier has announced a session and not a dissolution, several of his warriors are sulking in their tents. The latest rumour is to the effect that the Premier will agree to take no action during this session upon the question.

Mr. Laurier is ill and has cancelled all speaking engagements. The ties of church and race will probably impel him in this case to support the action of the Government, and thereby jeoperdise the unity of his own party.

The star of Dalton McCarthy is in the ascendent. He is an advocate of Tariff Reform as ardent and as able as Mr. Laurier, and he has been an eloquent champion of the rights of Manitoba. He is now in a position to mount the Protestant horse and ride to victory.

It is needless to remark that nothing has been heard from the representatives of B. C. at this crisis. They have simply waited for orders. They have expressed no opinion as to whether the Government should or should not interfere with Manitoba, or as to whether there should be a session or a dissolution.

Some day we may regret the attitude of selfish isolation in which our province has been kept.

Mr. Bostock has passed through the district and has taken pains to meet as many as possible of the people. To the Liberal association at Kaslo he expressed his willingness to abide the decision of any representative convention of the Liberal party of the district, as regards his candidacy. He is a man of 30, educated as a barrister, modest, unassuming, and in financial circumstances that put him above the necessity of going into politics for pickings.

If the district had been divided into "precincts" with an arrangement of "primaries" and "proxies," a la Arizona, and such a candidate had been the outcome, he would have been heralded as a Jim dandy.

In the summer of '93, just before Burke's bank broke, two Cabinet Ministers visited Kaslo and spent an hour in the city.

The Hon. J. C. Patterson met the Board of Trade and listened to their representation of hardship in customs matters and promised relief as soon as he could reach a telegraph office—a promise which was well redeemed.

The Hon, Mr. Haggart took in the sights, the Comique among the rest.

Both have had their names in print this week. Mr. Patterson is to become governor of Manitoba in July next. Mr. Haggart has punched two of his French colleagues in the nose, or noses, as the case may be.

IDLER.
