HENRY STEGE - PROPRIETOR

### Local and General.

The editor left on Monday for the east to supervise the production of a special number of the Review. This special will be produced by a Toronto firm who are making a specialty of this class of work. He will be absent about three weeks, and during his absence Mr. J. Atherton will look after the business and mechanical ends of the paper.

Rev. Fr. Jeannotte conducted services in the Catholic church Sunday. The rev. gentleman has made arrangements to hold services here every first Sunday in the month.

The raffle for the ladies' collarette was won by Mrs. H. Aylwin.

Mrs. H. Stege left for a holiday trip to Spokane, Monday.

Hermann Clever's new launch, the "Aorangi," was launched on Wednesday, and was much admired. It is a splendid craft, being 23 ft. in length, with a beam of 4 ft. 8 ins.

We thought last week when we mentioned that 500 bushels was a record for a stalk of wheat that it would go unchallenged, but Mr. Harry Angell has gone one better. Hardly had we gone to press when that gentleman brought us in an armful of rye stalks, the shortest of which was 6 ft. 8 ins. and the longest 7 ft. 7 ins. They can be seen by any doubting Thomas.

Messrs. E. Marshall and J. McGrath have embarked into the electrical supply business at Vancouver. Both men are too well and favourably known in the district to require encomiums at our hands, and we join with our many reader friends in wishing them the very best of good luck. Both held very responsible positions with the C.P.R., the former as agent at Rosebery, and the latter as roadmaster, and as both are mechanics of ability their future is assured. The district could ill afford to lose two such fine fellows and we hope they'll make a million apiece.

A. O. Osby is shortly leaving for Prince Rupert.

Mike Ryan was the victim this week of a nasty accident at the Ottawa mine. He was working in the drift when some of the roof fell and imprieted his hands which when released were minus one finger and another very badly lacerated, so badly that it is feared it will have to be amputated. Ryan was brought to dock Saturday afternoon and Dr. Brouse made the repairs.

Geo. F. Ransom and Geo. Weinant have secured lease on the Ruby Silver, a rich property in the McGuigan Basin.

The hot weather is with us and many New Denverites are having their annual in the lake. The water is still rising.

There can not be much satisfaction in "goin' around and lekin' the editor" when the latter not only makes copy out of the encounter, but pictures himself as the hero as well. The following vivid pen picture is taken from the editorial columns of an Iowa journal: "There was a blow. Somebody fell. We got up. Turning upon our antagonist, we succeeded in winding his arms around our waist and by a quick manoeuvre threw him on top of us, bringing our back, at the same time, in contact with the solid bed of the printing press. Then inserting our nose between his teeth, and cleverly entangling his hands in our hair, we had him!"

Stege vs. Thorpe and Nelson was an action for the recovery of \$42 balance of a board bill owing by the latter, brought before Justices Smith and A. McInnes at New Denver last Saturday. Both men had left the town and were arrested at Silverton but they denied any intention of jumping the country without paying their board bill. The magistrates bound them over to pay their debt in ten days.

Col. R. T. Lowery left for Greenwood Friday.

There was a fireworks display on Saturday night. The balance of the goods left over from the celebration on May 25th were ignited for the benefit of a large number of citizens.

G. W. Martin was injured on Monday last, whilst working at Wilson creek, by a rock which had become dislodged, falling down the hillside, and striking him on the knee, but beyond a severe bruising and the limb being much swollen, the injury was found to be nothing serious, and he hopes to resume work in a few days.

A fine specimen of Mason & Risch's celebrated pianofortes can be seen (by kind consent), at Missionary Baynes's residence, by appointment.

Harry Lowe, Arthur Hendrickson, and Jack Holden left on Tuesday to start work on the Silver Bell.

Jack McGrath left for Vancouver on Monday to take up his new location at Fairview, Vancouver.

Messrs. Towgood of Sandon are going strong with their pack train which now exceeds twenty quadrupeds, and will shortly comprise more.

On Wednesday evening W. Eccles saw a bear down the by-track, and although he shouted "Gee!" and "Ha!" it did not seem disturbed. Only being armed with a candlestick Mr. Eccles thought discretion the better part of valor, so allowed Bruin to depart with a whole pelt.

Mr. N. F. McNaught wishes to publicly express his thanks to the person who found a letter addressed to him, on the Silverton road, and mailed it to him.

Mrs. A. Blondin, who has been spending a holiday during the past two weeks with Mr. and Mrs. J. Weryley, returned to her home at Nakusp on Monday.

Percy Wells left on Wednesday for Carberry, Man., to join his relatives.

Mrs. A. Atherton and son, who have been spending a holiday with their namesakes, left on Saturday for their home at Calgary.

A. D. Watkins, employed at the Rosebery shipyard, is laid up in the hospital with a sprained ankle, and it will be several days before he will be able to be about.

Louis Scala had the misfortune to have his leg injured and ankle sprained by a slide of rock at Rosebery on Monday last, and although the injury is not serious, it will lay him up for some time.

The services in the Methodist churches at New Denver and Silverton will be withdrawn next Sabbath, as Mr. Gifford will preach that day at Nakusp.

The members and friends of the Methodist chuch, New Denver, will give a strawberry and ice cream festival on the lawn of Mr. and Mrs. St. Clair Brindle, on Wednesday afternoon and evening, July 8th. Further particulars will be announced later.

**HUNTING PARTY RETURNS.**

**HIGHLY SATISFIED WITH THEIR EXPEDITION. INTEND COMING AGAIN NEXT SPRING.**

On the 16th May, a party, comprising Mr. H. G. Rowe and Dr. Freeman, both from Ohio, and guided by R. M. Cook, of New Denver, proceeded to Wilson creek for the purpose of hunting grizzly. The party made for above the falls and after seven or eight days beating round came upon a bear which fell a victim to the rifle of Mr. Rowe. During the next few days three more bears were sighted and added to the bag. Of the four, two were black and two brown, all in splendid condition, one of the bears being of unusual size.

A most enjoyable month was spent, both gentlemen expressing themselves as highly satisfied with their outing. Although they were not successful in adding a grizzly to their bag, they were loud in their praises as to the district being a splendid locality for hunting, and intend coming back next spring with two more friends.

Mr. Cook, as guide and general factotum, says both were very good in the hills, being first-class sportsmen and rustlers.

A young grizzly cub accompanied the party back to the States and will doubtless be the hero of many anecdotes regarding the hunt.

For Lease or Bond—on reasonable term—The Hydrabad group of Tenmile, a silver-lead property with ore in sight in tunnel. Another tunnel in on lead 85 feet. Apply J. H. Weryley.

WM. IRVINE, Chairman. GEO. HORSTAD, Secy.

**Silverton Items.**

Mr. Morgan McGrath, of the Vancouver mine, went to Nelson on Wednesday. He returns to Silverton the end of this week.

Mrs. Malcolm McKenzie returned to Silverton last week, after spending a few days at her home at Slocan City.

Billie Mills is leasing the Preston mine and has a good showing of ore.

Billie Lawson who has been spending the past five months in the east is expected to arrive here the latter end of this month.

Pat Harding went to Sandon last week where he goes to work at the Silver Bell.

Mr. Peter McLaren, who spent last winter in Silverton, left a few days ago for his home in Prince Edward Island to join his family. Mr. McLaren has been in this country for the past five years and has made many friends who extend him good wishes for a safe journey home.

Mr. Wm. Berton, of the Vancouver mine, made a trip to Nelson last week.

Last week D. Grant shipped several tons of zinc, which he has been holding over, awaiting a good price.

The Alpha mine, under the management of White and McNaught is looking very promising. Several men are at work and it is the general opinion that it will be one of the mines in the not far distant future.

J. H. McAnlay and family intend taking a trip to his home in P.E.I., some time next month.

Thorpe and Co., photographers, are now located in Silverton and are doing a good business. They have already ordered a large canvas tent which will be to hand in a few days. They will then be in a position to give the latest photographic touches to their work.

Rev. Fr. Jeannotte spent most of last week in Silverton looking after his gardens. He has employed Bob Sutherland to do considerable repair work on his house.

Gordon McLennan, of Rosebery, made a flying trip to Silverton last week.

Mr. and Mrs. Bob Malloy are spending a holiday this week.

Bruce MacAnlay went to work in the Hewitt mill a few days ago.

D. Grant and Sam Watson went to Nelson on a business trip last week.

Charles Gill went to work at the Buffalo last week after spending a pleasant holiday in Silverton.

The Hewitt mine, which has been under course of repairs for some weeks started work the first day of this week.

Silverton is a busy spot at present. A number of men under the direction of the Silverton Progressive association are at work laying new sidewalks on both sides of Main street, and on several side streets in the town.

Silverton has decided not to hold their annual celebration this year. Owing to the town having a lot of other responsibilities in the line of repair work, it was feared that a sum sufficient to make the event equal to those of the past, could not be realized.

**The Howard Fraction.**

L. G. Kellum, representing the Wash Gas Company of Pittsburgh, owners of the Howard Fraction group, is prospecting the claims and inspecting the work that has been in progress for over a year under the management of J. M. M. Benedum. The crosscut tunnel has now reached a distance of over 700 feet, and it is expected that the rich Howard Fraction vein will be cut at a depth of about 800 feet before the tunnel shall have been driven another hundred feet. The Howard Fraction ore is quartz, carrying less than one per cent. of pyrites associated with argentic, and 150 tons of the sorted ore was sold to the smelters in 1895-6 for \$15,000, about one-fourth of the value being gold, and the balance silver. But, as the vein dips into the hill at an angle of about 80 degrees, the mining, in an incline shaft was expensive and necessarily shallow, and no mining has been done on the claims since '96, till this tunnel was started.

As there are numerous claims of the same character of ore and other conditions, in the Howard Fraction district, all of which have been held on faith and little work for a dozen years, it is expected that a revival of mining on an extensive scale would follow the discovery of rich ore in this Howard Fraction crosscut. Accordingly no work in Slocan camp is watched with more interest.

**Children's Entertainment**

The children of New Denver will give an entertainment on Friday the 26th. They are rehearsing assiduously. The following is the program:—

Chorus, "Men of the North," (H. H. Godfrey); Recitation, "Father William" (Lewis Carroll); J. Harley Burgess; Musical Drill, Free Arm Exercises; Dialogue, "Contradictions," (Agnes Leigh); Misses Cropp and McDougald; Song, "Three Little Maids from School," ("Mikado"); Misses Gordon, Ostby and Murray; Recitation, "The Dead Dolly," Miss Nettie Brindle; Solo and Chorus, "The Land of the Maple," (H. H. Godfrey); Miss Agnes Ostby; Announcement of awards and promotions, Chorus, "The Mermaid"; Recitation, "The Revenge," (Tennyson); Miss Ethel E. Burgess; Fan Drill, "The Japanese Fan," (Cowley); Recitation, "The Heathen Chinese," (Bret Harte); Hubert McInnes; Dance, Highland Fling, Miss M. Murray; Sketch, "The Irish Schoolmaster," (T. W. Paterson); Walter Ostby and Class; Solo and Chorus, "Hip, Hip, Hurray!" (Words by Mrs. Rankine); Ernest Atherton. Refreshments and dance after program.

Program will commence at 8:15 p.m.

The O. P. R. made a change which took effect on Monday that is not meeting with approval. The tri-weekly service between Sandon and New Denver has again been altered, and the company has cut off the morning service altogether. In future the train from Rosebery will make one trip a day to Sandon, and that in the evenings of Monday, Wednesday, and Friday.

The Fishery inspector, instead of bothering his head for the present about re-stocking the lakes, should pay attention to the sawmills along the shores of Arrow Lake. One in particular at Pingston creek has a huge sawdust dump that is now half under water. The effect on the lives of fish is too palpable to need farther talk.

A man, a desk, a telephone, Another man, they two alone, A big prospectus, an assay, A mine, two thousand miles away, Photos of three hydraulic muckers, Ah, gentle spring's the time for suckers!

A deer got into Mr. Harris' orchard the other day and was regaling itself on the young cherry trees when the owner was made aware of the fact and promptly proceeded to the spot with a gun and dispatched it. Venison must make a very acceptable dish just now.

The following are the assessments recorded for June:

Macot, by M. Kirlin; Elk Fraction, O. V. White; Lady Aberdeen, O. V. White; Gladstone Fraction, D. Casgriff; New York, J. H. Weryley; Hazel, D. D. Murphy; Heckla, D. D. Murphy; Thunder Mountain, E. G. B. Towgood; Moon, T. L. McAllister; Reliance, J. H. Corey; Moccasin, H. T. Twigg; El-Comino, H. T. Twigg; Tramway Fraction, H. T. Twigg; Kitty Hope, J. G. Duck; Erin, E. Cunningham; Carriock, Ed. Cunningham; Hastings, H. Woolley; Hastings fraction, H. Woolley.

CHAPTER IV.

LOUIS had walked on to his devotions in no very charitable frame of mind, as was easily to be seen from his clouded brow and compressed lips.

On the whole, his conscience acquitted him. But in this matter he had been lax. From the first coming of his gentle and forgiving young wife from Spain he had never once permitted her to be without a rival.

But he had found out where they were to be enjoyed. From the day when De Montespan had introduced the stately and silent widow as a governess for his children he had found a never failing and ever increasing pleasure in her society.

And now he knew that the time had come when he must choose between her and De Montespan. Their influences were antagonistic. They could not continue together.

Such were the thoughts which ran through the king's head as he bent over the rich crimson cushion which topped his prie-dieu of carved oak.

It was the hand of Louis as he walked back from the chapel to receive petitions or to listen to any tales of wrong which his subjects might bring to him.

"I shall do so," he said. "And offer her in return that we will promote." He bent forward and whispered into the prelate's ear.

"On my life, justice seems to be administered in a strange fashion in our city of Paris!" exclaimed the king.

"My name, sire, is Catinat, by trade I am a merchant in cloth, and I am treated in this fashion because I am of the Reformed Church."

"By embracing the only true faith," "I am already a member of it, sire."

"You do not think, then, that these people have too hard a measure?" said he. "I hear that they are leaving my kingdom in great numbers."

"And surely it is better so, sire, for what blessing can come upon a country which has such stubborn infidels within its boundaries?"

"Those who are traitors to God can scarce be loyal to the king," remarked the king.

"I can see that you are a very insolent heretic," said he.

"Your majesty's power would be greater if there were no temple, as they call their dens of heresy, within your dominions."

"My grandfather has promised them protection. They are shielded, as you well know, by the edict which he gave at Nantes."

"But it lies with your majesty to undo the mischief that has been done."

"I think," said Pere la Chaise, drawing Bossuet aside, "that your grace has made some impression upon the king's mind."

ance" breeches of the same and white woolen stockings, ending in broad toed black leather shoes cut across with a great steel buckle.

"His doubts as to what his next step should be were soon resolved for him in a very summary fashion. These were days when, if the Huguenot were not absolutely forbidden in France, he was at least looked upon as a man who existed upon sufferance, and who was unshielded by the laws which protected his Catholic fellow subjects.

"Now, Hymnbooks," said one gruffly, "get off again about your business."

"I was seated on one of the low benches and sat very still," Miss Barton remembers. "At length the majestic schoolmaster seated himself and, taking a primer, called the class of little ones to him."

"He pointed the letters to each. I named them all and was asked to spell some little words, 'dog,' 'cat,' etc., whereupon I hesitatingly informed him that I did not spell there."

"Where do you spell?" he asked. "I spell in 'artichoke,'" that being the leading word in the three syllable column in my speller."

"The schoolmaster good naturedly conformed to the little girl's suggestion, and she was put into the 'artichoke' class to hear her part for the winter and read and 'spell for the head."

"For example, I always advise the old indigestion cure—a glass of hot water—when the feeling comes on. To keep the eyes tightly closed for two or three minutes and then bathe them in very warm water often gives relief at once."

"An army examiner once had a candidate before him who apparently was unable to answer the simplest question. At last the examiner lost his temper and, with sarcastic emphasis, quite lost on the youth before him, said:

"Suppose, sir, that you were a captain in command of a company of infantry; that in your rear was an impassable abyss; that on either side of you towered perpendicular rocks of untraversable height; that before you stood the enemy, a hundred men to each of yours. What, sir, would you do in this emergency?"

THE ARTICHOKE CLASS.

Where Clara Barton Spelled on Her First Day in School.

On the morning of her first day in "regular school" Clara Barton was taken on the strong shoulders of her eldest brother, Stephen, a mile through the deep drifts to the schoolhouse.

"I was seated on one of the low benches and sat very still," Miss Barton remembers. "At length the majestic schoolmaster seated himself and, taking a primer, called the class of little ones to him."

"He pointed the letters to each. I named them all and was asked to spell some little words, 'dog,' 'cat,' etc., whereupon I hesitatingly informed him that I did not spell there."

OFFICE DROWSINESS.

It May Be the Beginning of Serious Mental Trouble.

"Some men are quite martyrs to office drowsiness," said a physician to a patient who was complaining of that feeling.

"For example, I always advise the old indigestion cure—a glass of hot water—when the feeling comes on. To keep the eyes tightly closed for two or three minutes and then bathe them in very warm water often gives relief at once."

The Dignified Course.

An army examiner once had a candidate before him who apparently was unable to answer the simplest question. At last the examiner lost his temper and, with sarcastic emphasis, quite lost on the youth before him, said:

"Suppose, sir, that you were a captain in command of a company of infantry; that in your rear was an impassable abyss; that on either side of you towered perpendicular rocks of untraversable height; that before you stood the enemy, a hundred men to each of yours. What, sir, would you do in this emergency?"

Similar Result.

There are certain delicate shades of expression of which a Frenchman is, as a rule, past master. One member of that fluent nation, stranded in New York, was setting forth his troubles to a lawyer.

The Reform He Advocated.

The editor of a British weekly journal, wishing to know what reforms well known men desired to see effected during the year, once applied to Sir W. S. Gilbert, among others.

To Prevent Taking Cold

And promptly remove Colds use Dr. A. W. Chase's Kidney-Liver Pills.

The first thought of the physician when treating a cold is in regard to the activity of the excretory organs. He gives something to ensure the prompt action of the bowels.

"Where do you spell?" he asked. "I spell in 'artichoke,'" that being the leading word in the three syllable column in my speller."

Good Intentions Gone Wrong.

"Aren't you going home?" asked a fellow club member. "Not for several days," answered Mr. Cumrox. "I'm going to give my family a chance to forget you see, mother and the girls have been trying to educate me to an appreciation of classical music."

HEALTH FOR CHILDREN, EASE FOR MOTHERS

Baby's Own Tablets will promptly and surely cure all the minor ailments of babies and young children, such as constipation, colic, indigestion, diarrhoea, worms, teething troubles. They break up croup, prevent croup and cure simple fever.

Two Lives Blighted

He was a bachelor, as bald as a billiard ball, and fifty. He had been a lifelong friend of her late husband, Robin Macarty, and this night he was to offer her his hand and heart. She knew it, and her soul went out in song; so in the twilight she seated herself at the piano and sang to him that dear old song, "Robin Adair."

Minard's Liniment Relieves Neuralgia.

"Nothing to Talk About." "Even a painful disease may afford its possessor some crumbs of comfort," a well known physician once remarked.

So Far, So Good.

William H. Crane, the actor, tells of two inconspicuous players who during a period of enforced "liberty," were compelled to dine at a cheap table d'hote restaurant on the East Side. One evening during each course of such a dinner, one of the actors kept saying:

Sure to Be Converted.

When the South sea islander said to the missionary, "I will call and dine upon you tomorrow," the missionary realized that he was bound to be converted.—Brooklyn Eagle.

The Fun of It.

"Dear, I only play poker for fun." "But you bet, don't you?" "Well, there wouldn't be any fun without a little betting."

Webster's Home Squadron.

A few days before his death Daniel Webster wished to leave his sickroom once more to look upon the little paradise which his taste had adorned about his mansion. Dressing himself with the utmost care, he went through the house on the arm of a servant and finally reached the library.

Her Exalted Position.

"You needn't think because we see me goin' an' comin' be th' back door of Mr. Malcolm Goldborough's mansion, that O'im wan in th' common sarvants in th' house," said the jaunty customer to the uncivil butcher.

"Ye'll have to go higher than that." "Not Mr. Malcolm's new wife?" gasped the little man. "I didn't have a suspicion that he—"

Signs Not Propitious.

A young fellow in Pittsburg intended to ask her father's consent the other evening, but changed his mind. He had decided to wait until the old man is disabled from a fall on the ice, or till something equally propitious turns up. It happened in this way.

Ambiguous.

A Washington correspondent who used to run a newspaper in Iowa, tells how the heavy advertiser of the town once entered the editorial offices with an anger depicted in every line of his face, exclaimed:—

Two Lives Blighted

He was a bachelor, as bald as a billiard ball, and fifty. He had been a lifelong friend of her late husband, Robin Macarty, and this night he was to offer her his hand and heart. She knew it, and her soul went out in song; so in the twilight she seated herself at the piano and sang to him that dear old song, "Robin Adair."

His Own Interest.

A Richmond lawyer was consulted not long since by a colored man who complained that another negro owed him \$3, a debt which he absolutely refused to discharge. The creditor, had dunned and dunned him, but all to no purpose. He had finally come to the lawyer in the hope that he would give him some good advice.

THE STOCK MARKET.

Accuracy of the Exchange in the Analysis of Events.

Barring the case of manipulation, which carries its own remedy and which is one of the evils of speculation, the stock market tells the truth.

Something similar happened in 1893. Brindstreet for July 29, 1893, shows that twenty representative stocks fell on an average 45 points, or more than 50 per cent, between January and July.

ROYAL SCHOOLMASTERS. Kings Who Turned to Teaching to Make a Living.

In the early part of the life of King Christian IX. of Denmark there was no prospect of his ever becoming the ruler of that country.

Being too poor to keep a servant, the Dowager Czarina Dagnar of Russia, one of his daughters, used to help her mother to do the household work and take care of the younger children.

Another instance of a similar nature is that of Louis Philippe. During the time he was exiled from France, then being the Duc de Chartres, he became a teacher of mathematics and geography in Switzerland.

Puzzling Differences in Weights. Which is heavier, a pound of feathers or a pound of lead? They weigh the same.

Which is heavier, a pound of feathers or a pound of silver? The pound of feathers is heavier, because feathers are weighed by avoirdupois weight, while has 7,000 grains to the pound.

Which is heavier, an ounce of feathers or an ounce of silver? An ounce of silver, because in the Troy ounce there are 480 grains, while in the avoirdupois ounce there are only 437 1/2 grains.

ASSASSINATION OF RULERS.

Murder of King Carlos Recalls Other Royal Tragedies.

Twenty-one rulers of civilized countries murdered in just over a century! No wonder a timid man like the Tsar shuts himself up in a fortified palace, and every one is constantly quoting Shakespeare's words, "Uneasy lies the head that wears a crown."

The assassination of King Alexander and Queen Draga of Serbia in June, 1903, is the nearest parallel to the terrible deed which has just horrified the world.

Three years previous to the Serbian tragedy King Humbert of Italy was slain by the anarchist Bresci; while in 1898 the cruel and utterly purposeless murder of the beautiful and gracious Empress of Austria took place.

Included in the twenty-one rulers already mentioned are eight emperors, four kings, and nine presidents, and it is a singular fact that three of them were Presidents of the United States; and they have all been murdered within the last forty-five years.

Always tired—"nerves jumping"—can't sleep—have no appetite—dull headaches—biting pain in the back—bearing down pains—puffiness under the eyes—swollen hands and feet?

Or perhaps your sick kidneys show in another form and you are suffering with Rheumatism, Sciatica, Lumbago or Neuralgia?

FLAX AND WHEAT. Flax the Best Paying Crop for New Settlers—It Prepares the Soil for Wheat—The Yield and Prices.

The question has been asked how does the yield of flaxseed compare with the yield of wheat per acre, and now do the prices obtained for the two crops compare.

Yield of Flaxseed per acre. Yield of Wheat per acre. 1905 15.73 bushels, 23.09 bushels. 1906 9.35 bushels, 21.40 bushels. 1907 10.91 bushels, 14.04 bushels.

Thus the average yield of flaxseed per acre for the three years was about twenty bushels per acre, while the average yield of wheat was about nineteen and a half bushels per acre.

As regards prices at the present time, No. 1 wheat and flaxseed are selling at nearly the same prices, but this is very unusual, being due chiefly to the following facts.

However the important point to remember regarding flaxseed is that it can be sown so much later than wheat that very often a farmer can utilize land that would otherwise go without any crop at all.

An Easy Task. Lieutenant Shackleton, the young Englishman who will try to reach the south pole in a motor car, is intrepid and humorous.

The following letter, from the Mc  
Naughton Fruit and Produce Exchange,  
has been received by Mr. H. Cne, Sec-  
retary of the Town Improvement Society,  
and will be of interest to shippers of  
strawberries—

Dear Sir,  
As the strawberry season is getting  
very close, we take the liberty of  
writing you in reference to methods of  
shipping.

From experience of past years we  
are in a position to tell you that  
shipping strawberries in ordinary ex-  
press cars in large quantities, when  
they have to be transferred once or  
oftener on the way, is anything but a  
satisfactory method of transportation.  
We strongly advise growers who  
have a large enough quantity to  
load refrigerator cars to do so, and  
would advise growers with smaller  
quantities to get together and load re-  
frigerator cars between them, and  
then have the cars hitched to express  
trains. In this way we believe a  
lower rate can be obtained and the  
refrigeration will mean that the ber-  
ries will land in our market in good  
condition, and if there is one thing  
that this market is famous for, we  
think it is long prices for fancy qual-  
ity of fruit. We have, during the  
winter time, consulted several times  
with the C. P. R. officials here with  
reference to a refrigerator car service  
for E.C. fruit to Winnipeg, and we  
have their assurance that refrigerator  
cars will be placed at the principal  
fruit shipping points in B.C. three  
times a week if necessary, providing  
they get reasonable assurance that  
cars will be loaded. They ask for  
about ten days' notice, and of course  
when you are ordering refrigerator  
cars you will need to state that you  
want them pulled by express trains.  
Of course if you wish to use refrig-  
erator cars with the freight trains, we  
feel that your fruit is quite safe to  
land here in good condition, as the

### TO DELINQUENT CO-OWNER. NOTICE

To John McCaskill or to whomsoever  
he may have transferred his interest in  
the Mollie Hope miners' claim situated  
near Cody, located the 4th day of July,  
1904, in the Slocan Mining Division of  
West Kootenay District.  
You are hereby notified that I have  
expended two hundred and five dollars  
(\$205.00) in payment in lieu of work  
and recording fees upon the above  
named mineral claim in order to hold  
the same under the provision of the  
mineral act, section 24, and if within 90  
days from the date of this notice you  
fail or refuse to contribute your pro-  
portion of the above mentioned sum  
together with all costs of advertising,  
your interest in the said claim will be-  
come the property of the undersigned,  
under section 4 of the mineral act  
Amendment act, 1900.  
Dated at Cody, this 11th day of May,  
1908.

situate in the Slocan City Mining Div-  
ision of West Kootenay District.  
Where located: On Tiger Creek, a  
branch of the second north fork of  
Lemon Creek.  
Take notice that I, Henri Robert  
Jorand, F. M. C. No. 54800, acting as  
agent for R. Randolph Bruce, F. M. C.  
No. B85083, intend, sixty days from the  
date hereof, to apply to the Mining Re-  
corder for a Certificate of Improvements  
for the purpose of obtaining a Crown  
Grant to an undivided four-fifths in  
each of the above claims.  
And further take notice that action  
under section 37, must be commenced  
before the issuance of such Certificate  
of Improvements.  
Dated this 28th day of May, 1908.

C. P. R. tell us that they could make  
the run in five or six days.  
In suggesting that shippers club to-  
gether to make up a sufficient quan-  
tity for a car load we might mention  
that if boxes are plainly marked, each  
shipper is certain to get the correct  
return for his own goods and his pro-  
portion of freight will be charged to  
his account.  
Hoping that the opening fruit sea-  
son will be a satisfactory one for you,  
and assuring you that we will do our  
utmost at this end to make it so,  
We remain,  
Yours truly,  
McNaughton Fruit and Prod. Ex.
