PREMIER McBRIDE PLAYING THE GAME

The Empire has information respecting the negotiations pending between the provincial government and the Grand Trunk Pacific railway which, if true, means that operations will be commenced on a large scale at Prince Rupert by the end of this year. As has generally been known for months, the provincial government alone can give title to the land purchased from the Trimpsean Indians by the railroad company, and before the 11 separate crown grants are issued for the 13,558 acres so purchased certain terms must be agreed to between the two parties. One of the terms is that the usual reservations placed in crown grants respecting the re-conveyance to the province of one-fourth of the blocks if any of the land be platted for townsite purposes, must be in all the crown grants for lands purchased from the Indians. In other words, that every reservation respecting both town lots and waterfrontage appearing in the crown grant for lands on Kaien Island purchased direct from the government by the railroad company, must also be in the crown grants for lands purchased from the Indians by Grand Trunk railroad company. As part of the land purchased from the Indians is on Kaien Island, and as it is so situated along the waterfront that it must be included in the townsite of Prince Rupert, the railroad was at a disadvantage and it is said its management came to terms with Premier McBride when he was in Montreal, en route to London, England. It is also said that the Premier insisted on another stipulation which, while it will not appear in the crown grants, will be carried out just the same as if agreed to.

As is known to the public who read and keep posted on politics, the McBride government has all along contended that the Laurier government was remiss in not insisting that construction should be commenced on the Pacific coast end of the Grand Trunk Pacific at the same time as construction was commenced at Winnipeg, and they and their friends charged that Hon. William Templeman, the only member from British Columbia in the Laurier government, had, in not insisting on the insertion of such a clause in the Grand Trunk Pacific Subsidy Act, sacrificed the best interests of the province, in order to gain favor with the railroad company. Hon. Mr. Templeman and his friends replied that insistence on the insertion of such a provision would have worked financial and other hardships on the company, because the route of the railroad across British Columbia had not been selected, and could not be for two years at least. All of which appeared a reasonable contention.

But now, after two years, conditions have changed, and the McBride government is in a position to make demands that cannot well be overlooked or ignored. One of the demands is that construction work shall begin at Prince Rupert as soon as crown grants are issued to the railway company for the lands purchased from the Indians. And by demanding this condition the McBride government is not only playing good politics, but is satisfying the thousands of people in and out of British Columbia who are chafing over the delay in opening the townsite of Prince Rupert—some of whom will be voters at the next Dominion and provincial elections.

The route of the Grand Trunk Pacific has been selected across the province, and it has been located from Prince Rupert to Aberdeen, on the Skeena river, which is forty miles by telegraph line, and two parties in charge of locating engineers, are working along the Skeena eastward from Aberdeen. So construction work could be commenced at any time at either Prince Rupert or Aberdeen, and as the work is heavy and much of it rock, it could be carried on summer and winter.

A most complete topographic survey has been made of all the land on Kaien Island likely to be needed for townsite purposes and for yards for the railway company, and a plan of the townsite has been made and forwarded to Montreal, where it has been submitted to a noted landscape and townsite engineer, and when it is approved, the surveys of blocks and lots will be merely detail work for land surveyors.

By the time construction work can be actually commenced, there will be fairly good hotel accommodations for the public at Prince Rupert, in the buildings that have been ordered built by the railway company, and which are now being constructed and will be completed by November 1st, and were lots in the townsite placed on sale at that time, there would soon be all kinds of accomodations for the public, as private enterprise could be depended on to supply the demand. Building and other operations can be carried on to good advantage in the winter, for there is less broken weather in the winter and spring months rhan there is in the fall; and there is another advantage, the ground is frozen so hard for several weeks during winter as to permit teams to do hauling.

NEWS FROM THE OUTSIDE

The passenger steamer Columbia bound from 'Frisco to Portland collided with the steam schooner San Pedro in a fog near Eureka on July 21st. The Columbia sank in five minutes with nearly 100 of her passengers and crew.

Victoria's big fire of last week caused damage to the extent of $200,000; 75 buildings were destroyed and about the same number of families were rendered homeless. Fire raged over five blocks, from Store st. to Pembroke st., east and west and from the north side of Green to the south side of Herald st. Amongst the buildings burned was Calvary church.

Joe Gans and Jimmy Burns have been matched to fight in Los Angeles August 16. Gans is to receive $8000, win, lose or draw. It looks as though he was framing to lose.

The jury in the now celebrated Haywood case has returned a verdict of not guilty, and this brings to an end one of the most sensational cases ever heard in a western U. S. court.

Thirty passengers went out on the May yesterday, bound south. They were transferred to the Princess from Cunningham's dock by the Northwest.

$500 HEAD TAX FOR JAPS

"I regard the influx of Japanese as a menace to this country, both from a national and economic standpoint."

So said Mr. R. G. Macpherson, M. P., when interviewed by The World last week.

Mr. Macpherson was most emphatic in his statement of his views and it is understood that he has been no less emphatic in laying them before the authorities at Ottawa.

This thing has got to be stopped" said Mr. Macpherson, "and the authorities at Ottawa are the only people who can stop it. The government must recognize the all-important fact that this western part of Canada is not to be delivered into the hands of Asiatics. The Japanese coolie should be placed in exactly the same position as the Chinese coolie. I certainly shall not hesitate to force the government's hands in this matter so far as it is in my power to do so."

"A $500 head-tax?"

"Yes, why not a $500 head-tax on any Asiatic coolie who comes into the country? If we were in a position to assimilate any great number I would not so strongly object, but our white population is entirely too small to neutralize the Asiatics that are at present in the country. This must be kept a white man's country."

CITIZENS DISCUSS TELEGRAPH SERVICE

Meeting Held This Afternoon With Object of Securing a Better Service.

The arrival of J. T. Phelan, inspector of Yukon telegraphs, in Essington, yesterday, had the welcome effect of stimulating the business men of Essington to a renewed effort in the attempt to secure a better telegraph system at the hands of the powers that be, than has prevailed in the past.

In consequence a citizens' meeting was hurriedly called today at 4 o'clock but unfortunately Mr. Phelan had left on the Northwest in the morning and was not present.

After convening the meeting Mr. A. G. Harris was elected chairman and Mr. M. Morley, of the Royal Bank, appointed chairman.

The discussion which followed was too unanimous to even deserve comment. In effect it was that Essington was without a parallel in inefficient telegraphic communication, and in no section of this broad Dominion was such negligence and hardship encountered by business men as was the case in the distributing point of northern British Columbia—Essington.

A committee of five, consisting of Messrs. M. M. English, A. G. Harris, M. Morley, G. A. Frizzell and W. J. Mackay were appointed a committee to prepare a petition and have the same signed by the citizens, to be forwarded to the Dominion representative and have him memorialize the the government to the end that better facilities would be appreciated by the business community of Essington.

Among those present were Geo. Cunningham, J. Cunningham, H. McKenzie, A. G. Harris, Dr. Wilson, Rev. Rushbrook, G. A. Morrow, S. A. Morley and W. J. Mackay.

Another meeting will be called on the return of the inspector from Hazelton, when matters will be more fully gone into. We want a better service, we are entitled to it, and what is more, we are going to have it or know the reason why.

News of Town and District

The Edwards party arrived at Hazelton on the last up-river trip of the Northwest without mishap or delay. Before their departure for Aldermere, the party, while on horseback, were photographed by Purser Whitney, of the Northwest, and passengers say the scene was an animated one as the horses galloped away. Mrs. Gray, Miss Gray and Mrs. Drysdale did not accompany the party to Aldermere, but returned on the same boat to Essington and left for the south on the May yesterday. The remainder of the Mr. Edward's party are expected to return on the next trip of the Northwest from the north.

"Prince Rupert is a town in name only. It has neither hotels nor lodging houses, and there is no accommodation for the traveling public. Traders can land on the wharf and sojourn in the town, provided they get friends to give them sleeping quarters and meals; but they are not welcomed and made to feel at home, or encouraged to prolong their stay, by the executive agent agent of the Grand Trunk Pacific Railway, for the reason that the time for placing lots on the market has not been fixed, and until lots are offered for sale the land is the same as any land in British Columbia owned by a private individual who objects to it being located on or occupied by trespassers. Permission to locate in Prince Rupert has been granted to several companies, and to a few firms and individuals, and the town is a town even if it is not a townsite in which lots can be bought or leased.—Empire.

FISHING HAS BEEN GOOD

"The best year since I've seen on the Skeena," said a well-known canner this week," and this sums up the canning situation in a nutshell.

The average for the week has been 300 fish to the boat.

Last week the run fell off somewhat and was not anything like what it was the previous week. This week, however, the run improved, and if the incoming week keeps up the pace a record pack will be put up.

Humpbacks have made their appearance in uncommon numbers.

At New Westminster the provincial health board has taken time by the forelock and has seen to it from the first that the canneries are obeying the health regulations and that no offal is allowed to collect around the buildings. Dr. C. J. Fagan, secretary of the board, has appointed a local representative who makes regular tours of the canneries in a gasoline launch, and at regular intervals. Dr. Fagan himself goes around to see that everything is all right, and should any packer be found offending this season he will not be given a warning except through the court.

DEEPWATER DOCK UNDER CONSTRUCTION

The most important work undertaken in years in Essington is progressing today, and when completed will settle a vexed question that has long been a bugbear to navigators, and that is the matter of dockage during the low stage of the water. Steamers arriving on a low tide have invariably anchored in the stream and transferred passengers and freight by means of boats and scows. When the present extension of the Morrow & Frizzell dock into deep water is accomplished, the drawback existing in the past, to shipping, will have passed away.

The present plans of Messrs. Morrow & Frizzell contemplate an extension of their dock one hundred feet. Fifty feet have been already added the past month by a crew of ten men who have been driving piles continuously since the contract was let.

To obviate the danger from ice something new will be attempted. There will be a 50 foot span from the end of the present extension to piling in deeper water. The object of the draw is to afford the ice flow an avenue of escape without destroying the main structure. An ice break will also be erected 50 ft. south of the present wharf.

The piles used on the work have been secured from the Hocsall river and give every satisfaction.

The firm of Morrow & Frizzell certainly deserve praise for having initialed work that will not only prove of incalculable value to Essingtonians, but likewise the travelling public of the inland north.

CONDITIONS HAVE NOT CHANGED

In its first issue the Empire advised mechanics and workingmen not to come to Prince Rupert unless they were specially employed before starting. Conditions have not changed and the advice is repeated in this, the second issue. While a topographic survey has been made of the land that will be in the townsite, and a general plan made for its sub-division, no sub-division has been made of lots or blocks, therefore no lots have been sold or offered for sale. The only construction work going on is for the G. T. P., and most of those employed are hired direct by the local representative of the company. All others are employed by the United Supply & Contracting company, or by the Pacific Stevedoring & Contracting company. The first named company is erecting two large buildings to be used for boarding and lodging houses, and the last named has the contract for extending the wharf, and both hire their own men.

J. M. Sutton, head of the Alexandria cannery, was in Essington this week. This was Mr. Sutton's second visit here this year. He was more than pleased with the showing made so far, and said anticipations formed earlier in the year had been more than fulfilled. He left on the May yesterday for the south.

Mr. A. J. Moyls, representing the well-known firm of Anderson & Co., Vancouver, has been making the rounds of the various local canneries in the interests of the firm.

F. Parker, merchant, Metlakatla, was in town today.

The arrival of sixteen hundred Japanese at Vancouver in one day recently, is good food for thought to those who cry out for Oriental cheap labor, and already efforts are being directed toward a more stringent enforcement of the lax immigration regulations that have prevailed in this section of the Dominion. In the past it was considered bad form, by statesmen, to even hint at Japanese restriction, and Premier Laurier is reported to have expressed himself strongly on this point. Today the subject is assuming another phase, and the temerity of the past is taking on the hue of resolution that will add to the many difficulties existing between the provincial and dominion governments.

British Columbia stands in no need of Oriental labor, Japanese or Chinese. British Columbia is a white man's country, and it behooves Canadians to see that the Pacific province is not Manchurianized by eastern indifference and governmental apathy.

British Columbia should re-enact the disallowed Natal Act, and furthermore, see to it that it is kept there, no matter how much disallowance Ottawa sees fit to pass—treaties or no treaties, princes or no princes.

The appointment of W. Bowser, senior Vancouver representative, to the attorney-generalship in the McBride government, is the reward for good work done the Conservative party in this province. He is a young man, an inveterate worker, a good organizer, and if Richard I. thinks seriously of chasing the bubble reputation in the federal cannon's mouth, the Little Corsican, as he has been termed, will go up another notch and land in the first seat to the right of the speaker. Mr. Bowser is a New Brunswicker, having arrived in Vancouver when Hastings street was brush from the Leland to the court house. He ran as a McCarthyite against G.Cowan, conservative, and G. R. Maxwell, independent, in the first Vancouver city election. Mr. Bowser lost his deposit. Undaunted by this, he entered the provincial arena six years ago, and got fifth place on the elected ticket. At the last provincial election, in the same city, Mr. Bowser headed the poll, and this, his friends state, has had much to do with his present popular appointment.

PORT ESSINGTON PORT SIMPSON

Mrs. Frizzell has received a letter from Miss T. Hilts, in which the latter wishes to thank the good ladies of Essington who were instrumental in arranging the basket social recently held in her behalf. Miss Hilts is still in St. Paul's hospital, Vancouver, but expects to leave that institution in a month's time.

Messrs. Bremner and Holland, both well-known in Vancouver, who have been cruising the islands, arrived in Essington last Saturday and left for the south today.

W. Ellis, a Vancouver lumberman, passed through Essington to Hazelton on Monday.

J. M. Christie, manager of the Bank of Commerce, Prince Rupert, was in Essington this week.

H. P. Jones, 15 years a resident of Rossland, went up river on the Hazelton Monday, where he becomes a fixture. He says the interior looks good to him and he is going to stay with it.

SS. Northwest came in Thursday morning.

A logging camp at Jackson Bay was wiped out by a bush fire last week.

The U. S. cutter Rush caught two Japenese sealing schooners off St. Paul island on the 22nd. The vessels had fresh skins on board and were taken to Ounalaska.

Essington seems to be a Mecca for tug captains who seem unable to withstand its manifold attractions. The last to leave a life on the wave in the north is the captain of the tug Constance. He went south on the May.

Rev. T. Keyworth will preach in the Methodist church tomorrow morning. The reverend gentleman while in Essington has been in touch with G. T. P. people in the east, and he has assurance that a permit will not be long delayed.

A B. C. toothpick recently delivered to the Pacific Coast mills, in Vancouver, contained 14,780 cut feet, and lying horizontally stood 5 ft. 11 in. off the ground. In its complete state there wasn't a single knot or flaw in the whole piece.

A Jap fireman on the Cassiar last week chased a steward all over the boat with a knife and in the struggle to capture him that followed, he bit one of the crew several times. He was finally subdued and confined for the remainder of the trip. The steward's refusal to supply whisky was the cause of the trouble.

The range finders of Fort Worden Wash., are settling the question of the relative speeds of many well-known boats. The Princess Victoria, the C. P. R. flyer, however, still has it on them all when it comes to travelling. A recent recording gave her a 22-knot clip. Her new rival, the Iroquois, has as yet only been recorded with a 19-knot gait, the same speed as the Indianapolis, another Sound boat.

The United Supply and contracting company, which has been identified in the capacity of purchasing agent with the G. T. P. operations at Prince Rupert since the start of operations at that point, will close its office at Vancouver. From now on, the United Supply Co. will carry on all its work from Prince Rupert, where Mr. Thomas Dunn will have charge of affairs. Mr. Dunn is now at Vancouver making arrangements to that end.

Mrs. W. Ellis, who has been visiting in Essington, left on the Princess May yesterday for Vancouver.

Stanley Dunlevy arrived down from Hazelton, on the Northwest Thursday. He brought out two tons ore from his Cariboo group of mineral claims on the north fork of the Twelka and will accompany it to the Tacoma smelter, where the same will be treated for copper and gold. It is the best specimen of rock that has so far percolated through the gateway of the north.

"The magistrates of Prince Rupert, both being of Scotch descent, can now form a St. Andrew's Society. Stipendary Magistrate McIntosh can propose the toasts and B. R. McDonald can reply to them. Mr. McDonald, who is collector of customs, has been notified of his appointment as a justice of the peace for the province. He bears his added honors modestly."—Empire.

Adjutant S. Blackburn, of the Salvation Army, is an agriculturalist as well as a leader in the work of his good local organization. On May 16th he planted potato seed more in the way of an experiment and last Tuesday brought in to the Sun office specimens that would put to shame the marbles Simon Liser, Victoria, sent up to Essington several weeks ago. It is in the vicinity of Mr. Blackburn's residence where the strawberries mentioned last week are grown, and coupled with this fact leads us to the belief that the ground is sanctified.

The influx of Orientals and their habitat among the people of the west is piercing the social fabrics and is affecting every feature of human relationship. Now it is the Vancouver hospital board that has spoken and their declaration is that it has become imperative that an Oriental ward be established at the general hospital.

"The first money taken in by the Empire for single copies was paid by J. M. Hawthorne of St. Paul, Minnesota, the first cash subscribed was J. R. Scott, of Metlakatla, and the first advertisement came from Arichika Ikeda, of Vancouver. Mr. Scott has resided at Metlakatla for nigh onto 18 years and is principal of the boys' school at that village. Mr. Hawthorne is a citizen of the United States and Mr. Ikeda a subject of Japan, and both are making investments in the empire of which Prince Rupert is to be the capital."—Prince Rupert Empire.

"THE PERSECUTION OF STEPHEN"

Rev. W. H. Pierce, of Kispiox, left by steamer Hazelton on the 27th for his distant home. He appeared to be in a somewhat happier frame of mind than when he passed through our town a few days earlier on his way to Port Simpson in company with some legal dignitaries of Hazelton, to answer before Judge Young to the charge of having married a dusky couple of his mission without the usual preliminaries of banns or license, as is required by statute. In consideration of the unusual nature of the circumstances attending the little wedding party, Judge Young not only exonerated the reverend gentleman from all blame, but offered some remarks highly appreciative of the spirit and purpose of his work, and added a few scathing comments which fell in quite another different direction than on the head of the defendant.

On Sunday morning Mr. Pierce addressed a good-sized congregation in the Methodist church, in his unique style in English and Tsimshean. His subject, the persecution of Stephen, seemed to come quite apropos, but he had the good taste to make no personal reference.

BOWSER NOW ATTORNEY-GENERAL

Mr. W. J. Bowser, M. L. A., was sworn in as Attorney-General in the McBride Cabinet at Victoria, on July 23rd. It had been intended to give Mr. Bowser the Chief Commissionership of Lands Works, in which office Hon. F. J. Fulton had recently been acting. But after a conference of members of the government at the capital, it was agreed that Mr. Bowser should take the other office.

IT WAS A BAD DREAM

As a sample of some of the best that a romancer with an extraordinary ability can produce, we publish the following clipped from the Vancouver Province of July 22. The captain of the tug Boynton was here a short time ago and will be remembered by many residents:

"Having winged two members of the crew of the tug Boynton, with bullets from a .38-calibre revolver, and fearing harm at the hands of the remaining eight men of the boat, Captain Goering left the tug at Port Essington and taking passage south on the steamer Princess May, he arrived here last night. The Boynton is owned by MacKenzie Bros., and Capt. McRae of the tug Mystery is now en route north to bring the Boynton down the coast.

In what appears to have been a free-for-all fight among the members of the Boynton's crew at the Balmoral cannery on Monday afternoon last, Capt. Goering states that he was assaulted by a deckhand named Spiers, who, armed with a capstan bar, desired to wipe him off the records. Capt. Goering was hit across the abdomen with the weighty handspike, and felled to the deck. As he fell, he pulled his gun and shot the deckhand in the shoulder, Spiers was put out of business,, but a fireman named Doherty, according to Capt. Goering's statement, took up the fight and started for the prostrate man. "I told the fellow to keep off or I would shoot," said Capt. Goering in relating the strenuous happenings of the fracas, "but he said he had no fear of guns, and telling me that he would decorate the pilothouse with my remnants, he started for me. I was almost done up, but managed to work the trigger on him, and he fell with a shot in the leg. By this time the people at the Balmoral cannery had heard the shots and rushed down to the tug. It was a lucky thing for me that they came as I lost consciousness just then. The men who had fight still left in them, were awed by force of numbers, and I was taken ashore by Manager English. When I recovered, I went on board the tug again and spent three nights on her but I slept little as I knew the crew would get me if they could. I was taken into court and after a preliminary hearing, allowed out on bail of $200, and the case is to be called in this city. The outbreak was caused by my refusal to give the men shore leave."

So much for the Province's account. As far as can be learned, the real cause of the trouble originated in the dance halls of Ketchikan, where it is stated the captain took on too big a cargo of joy producer and had to be helped aboard ship after spending all the ship's money, originally intended for the purchasing of supplies. The mate brought the tug to Essington. In our opinion Baron Munnchausen will have to step down and out and award the palm for artistic fabrication to Capt. Goering.

The steamer Kumeric arrived at Vancouver a week ago Thursday with 1,200 Japanese on board from Honolulu. An agitation is on foot to prevent the further flooding of the country with the "yellow plague." The Aki Maru came into the capital on the same date with another bunch of 400 Japs.

The steamer Ptarmigan with 100 passengers on board was wrecked between Golden and Windermere on the Columbia river on July 15. The crew behaved splendidly and all on board were taken ashore in safety. The steamer struck a rock; an attempt to beach her failed and she now lies at the bottom of the Columbia.
