Tenders for Street Work

TENDERS WILL BE RECEIVED at the City Hall, New Westminster, up to 4 p.m. on

Monday, May 12th, 1890,

for the clearing and grading of Halifax and Brown Streets, from Queen's Avenue to North Arm Road.

Tenders to be addressed to the Chairman of the Board of Works, endorsed "Tenders for Clearing and Grading Halifax and Brown Streets."

No tender will be entertained unless accompanied by a deposit equal to 5 per cent. of amount of tender, which shall be forfeited if party tendering refuses or neglects to enter into a contract when called upon to do so. In the event of a tender not being accepted the deposit will be returned. Tenderers to name sureties.

Plans and specifications may be seen in the City Engineer's Office, City Hall.

The lowest or any tender not necessarily accepted.

H. HOY,
Chairman Board of Works.

New Westminster, May 7, 1890. 208-td.

The Coming Elections

The Victoria Colonist says it is understood that at a meeting of the supporters of the Government held on Monday evening, the following ticket was decided upon to be brought forward for Victoria City at the approaching Provincial elections: Hon. J. H. Turner, Simeon Duck, Capt. John Irving, and William Dalby.

PUBLIC HOUSE

LICENSE QUESTION IN THE HOUSE OF COMMONS.

England, Gives Rise to a Sturdy Fight by the Radicals and the Temperance Party—The German Government Invites the Continental Powers to Participate in a Telegraph Congress to be Held in Paris.

LONDON, May 7.—The fight which the Radicals and Temperance party are making against the Government's bill for recognizing the system of licensing public houses—their opposition being directed particularly against the proposal to compensate publicans for loss of their licenses by reason of the curtailment of the number to be issued—is becoming more formidable daily. The Government is literally flooded with protests against the measure and every member of the House of Commons, without regard to his politics, has received one or more petitions from his constituents or some other source beseeching him to vote down the offensive clause. The basis of the opposition of the total abstainers is the provision committing to public authorities the purchase of licenses to be revoked, which plan they claim opens the way to collusion between retiring publicans and the authorities to the end of defrauding the treasury. The question, they maintain, is of sufficient importance to justify its submission to a popular vote, when they hope to elect a number of purely temperance candidates to parliament on the issues raised.

W. G. Wagstaff, British Consul of Tai'an-fang on the north shore of the Sea of Azov reports that there are nearly half a million tons of wheat stored in various Azov ports awaiting better prices in England to present prices. Owners assert the shipment of grain to British ports would involve a heavy loss despite the fact that vessels are easily obtained at rates very little above actual cost of carrying, owing to stagnation of the shipping trade.

Gradually the effect of the great labor agitation now prevalent is becoming manifest in involuntary or enforced concessions to their employees on the part of masters. Already the master tailors are weakening and a large number of striking journeymen are returning to work on the terms for which they struck, the result being that the strike which promised to become general yesterday is about over. The firm of H. W. Castor & Co., one of the largest type-founders in England have granted an 8 hour day to their employees at the same pay they formerly received for 10 hours labor.

The German Government has decided to request the other powers to participate in an international Telegraph Congress to be held in Paris to discuss the feasibility of reducing telegraphic tolls throughout Central Europe to a uniform rate of 25 cents a word.

It is reported in Berlin that the United States Government contemplate the establishment of a consulate at Canea.

The Tariff Bill.

OTTAWA, May 7.—The Tariff Bill increasing the customs duties was read a third time tonight before Parliament. Sir Richard Cartwright submitted an amendment declaring that considering the Finance Minister's statement that there was a surplus last year, and an anticipated one this year, the tariff should not be increased. This was voted down by a vote of 94 to 62. Hon. George Foster justifies the Government's policy.

An Honored Minister.

BERLIN, May 7.—William Walter Phelps, United States minister here, gave a dinner tonight in honor of Charles Emory Smith, recently appointed American minister to Russia. A large number of diplomats and other prominent persons were present.

Chamberlain Speaks.

LONDON, March 7.—Chamberlain addressed the Oxford University Unionist League this evening. He urged Gladstonians to favor the Government's Land Purchase Bill for Ireland and allow the question of local government to be discussed later. He would not embarrass the Government, he said, nor would he rejoin the party, which was drifting toward the principles of the Chicago convention.

Will Visit America.

BERLIN, May 7.—The Association of German Ironmasters has accepted the invitation of the American Institute of Mining Engineers to visit the industrial districts of the United States. Over 100 ironmasters have signified their intention to take part in the excursion.

Herr Von Leveteau was unanimously re-elected president of the Reichstag today.

$700,000 for Shot.

WASHINGTON, May 7.—The Navy Department today awarded the Carpenter Steel Company, of Reading, Pa., the contract for about $200,000 worth of armour-piercing projectiles. These projectiles will be made after the European method of treating the metal used for this purpose.

Battle in Progress.

ZANZIBAR, May 7.—Major Wissmann is organizing a force for the defence of Kitwa, which place it is expected the rebels will attempt to re-occupy. A report is current here that a battle is in progress at Witau.

Lee's Statue.

RICHMOND, Va., May 7.—Ten thousand men, women, and children this afternoon drew the four wagons bearing sections of the Lee statue about one mile through the city to the monument site. The streets and sidewalks along the route were thronged by an enthusiastic crowd and the whole of Richmond participated in one way or another in the demonstration.

Accepted Nine Hours.

BERLIN, May 7.—The stone and brick masons of Hamburg and 1,700 carpenters of that city struck for a reduction of hours today. The labor union is supporting them. Twenty-six masters at once yielded, the carpenters accepting nine hours.

Fire Disaster.

SCRANTON, Pa., May 7.—A fire tonight in the works of the Bloom Carriage Manufacturing Company entirely destroyed them. The fire spread to neighboring dwellings eighteen of which were destroyed. The pattern shop and boiler house of Finch & Co. and the screen works of Broch & Ross were also burned. Loss will be about $160,000. Insurance partial.

Flood Damages.

NEW ORLEANS, May 7.—The *Times-Democrat's* Jefferson (Texas) special says: The Red River has overflowed everything and is backing up into the lakes. The river here is rising from back water at the rate of an inch per hour. Many cattle and other animals have been drowned. The largest bridge in the country was swept away today.

Will be Sued.

NEW YORK, May 7.—The evening *Sun* says that William H. Guion, jr., partner of the ocean steamship firm of Williams, Guion & Co., trustee of William H. Booth, president of the Third National Bank, has confessed that he took $30,000 worth of bonds belonging to the Canadian Insurance Company, of Toronto, of which Booth and Guion were trustees, and applied them to his own use. The Insurance Company has begun a suit against the trustees to recover $21,000, the amount issued by the City Bank to Guion on securities.

Editors' Confabs.

CINCINNATI, May 7.—A number of leading newspaper men of the country are in the city today. They constitute the Executive Committee of the American Newspaper Publishing Association and the National Editorial Association. The object of the gathering was to prepare a programme for the annual meeting of the association, to be held in Boston the last week in June.

A General Wedded.

WASHINGTON, May 7.—The Marriage of Miss Lily Rowerats, daughter of General Ross rose to Governor Toole, of Montana, was quietly celebrated at the parsonage of St. Matthew's Church at 11 o'clock today. The wedding was private with only General Rowerats and four intimate friends of the bride present. The Governor and wife will leave the city this afternoon for a two week sojourn at the seashore and then go to his home in Montana.

He Wouldn't Go There.

ST. PETERSBURG, May 7.—Four Finnish delegates have arrived here for the purpose of stating grievances of their country to the Czar. The Czar positively refused to see them but the Empress received them graciously and promised that their complaints should receive consideration.

Learned Her Record.

NEW YORK, May 7.—The steamer Majestic which arrived from Liverpool this afternoon has lowered her maiden record of 6 days 10 hours and 30 minutes, five hours by present trip.

Strike Notes.

CHICAGO, May 7.—The entire force of men, 625 in number, employed by A. R. Andrews, architectural iron works, struck this morning for 10 per cent increase in wages.

About 300 teamsters employed by W. N. Eisendrath, Landrau & Sons and Mosher Brothers, struck today for nine hours and ten hours pay. Employees in other factories are dissatisfied and more trouble is expected.

Chester Races.

CHESTER, Eng., May 7.—The race for the Chester cup was won today by Tirant, Vasistas second and Silversper third.

Four Miles an Hour.

Mr. H. Abbott, General Superintendent of the Western Division of the C.P.R., has written to Coroner Pittendrigh, in reference to the verdict of the coroner's jury over the remains of the late W. L. Cusack, that it is utterly impossible for the company to prevent passengers jumping on and off trains when in motion, and as regards the rate of speed at which the trains run through the city, most superior instructions have been issued that such rate shall not exceed four miles per hour. This will in a measure lessen the likelihood of a repetition of the late fatal accident. But the City Council might go further and pass a bylaw making it a misdemeanor, punishable by fine or imprisonment, for any person to jump off or on a train while in motion within the city limits. If some sort of a law like this were passed, and notice to that effect posted up permanently at the depot, and also in the cars, generally a stop would be put to the dangerous practice.

Hotel Arrivals.

AT THE DOMINION.—R. C. Pettingill, John Campbell, James Doig, N. A. Wilson, Vancouver; William Allen, Bradenville.

AT THE COLONIAL.—P. B. Spence, Arthur J. Coleman, ss. Batavia; T. W. Dobbie, Toronto; E. W. Carleton, jr., Boston; E. Hutcherson, Wm. Booth, Ladner's; J. W. Hawthornthwaite, Nanaimo; George S. List, Seattle; H. M. Bonel, Minneapolis; E. A. Wilson, F. B. Johnson, Vancouver; Charles Sexsmith, Lulu Island; F. W. H. Wright, Victoria; D. H. McMillan and wife, Winnipeg; W. J. Broderick, North Arm.

AT THE HARRISON.—M. M. Watters, Vancouver; E. Patton, Victoria; C. E. Merritt, John B. Merritt, Lynden; J. F. Fleming, Caribou; Albert Dunn, city.

AT THE QUEEN'S.—Geo. Stevenson, Windsor; D. Walker and wife, Toronto; A. West, B. C. Blake, Vancouver.

AT THE OCCIDENTAL.—Murray, R. Winsmute, J. D. Wickliffe, M. Gilley, city; Chas. Turner, Sumas; Fred. C. Weer, Kamloopka; Wm Moore, H. Robinson, J. B. Target, W. B. Fice, Vancouver; Wm. Hickery, Los Angeles; James Conroy, San Francisco; Philip O'Donnell, Donegal; Wm. Johnson, New York; Joseph Bellveaux, B. Thompson, H. Fraser, Charles Lind, J. Montague, Honolulu; Charles Reid, Mission; D. W. Smith, Ira Smith, Blaine.

ASYLUM INMATES

TO THE NUMBER OF ONE HUNDRED AND FIFTY

Burned to Death at Longue Point, Quebec—Death by Shooting—Harnessmakers' Strike—Labor Agitation—Rifle Contests—Supplementary Estimates Brought Down in the Dominion House of Commons.

MONTREAL, May 6.—Longue Pointe Catholic Asylum, here, was destroyed by fire today. Over 150 female patients and four nuns were burned to death. The inmates numbered 1,000, and as the books were destroyed the loss of life can never be known.

Death from Shooting.

FRESNO, Cal., May 6.—J. M. Cerdick, a well-known citizen of this county, was shot and killed today by Harry Sullivan, eighteen miles from this city, at Martin's Mine. Particulars are meagre. Trouble over the above named mine caused the shooting.

Harnessmakers' Strike.

ST. LOUIS, May 6.—The harnessmakers here will go on strike today, the bosses having refused to accede to their demands for eight hours and ten hours pay. They will be backed by the Knights of Labor and the Federation of Labor.

Labor Agitation.

PARIS, May 5.—The labor agitation at Roubaix and Turcoing is abating, though the conference between the masters and delegates representing strikers was productive of no result.

The Rifle Contests.

ROME, May 6.—The King and Queen, as well as all members of the cabinet, today attended the opening ceremonies of the international rifle contests here. Twenty thousand riflemen are present to represent the provinces of Italy. The King fired the opening shots.

British Columbia Appropriations.

OTTAWA, May 7.—In the supplementary estimates brought down yesterday there is no appropriation for mail services between this city, but Sir Hector Langevin has informed the B.C. representatives that further supplementaries would contain an appropriation of $15,000 for the Victoria-Vancouver and the Victoria-Westminster services.

Of the $1,500,000 voted yesterday, British Columbia gets the lion's share. For Vancouver post-office and custom house $80,000 is appropriated; for Victoria drill hall, to city furnishing the site free of cost, $10,000; for Victoria post office improvement, $800; for Victoria post office accommodation at Victoria, customs and inland revenue purposes, $1,200; Victoria Dominion building, rent to Assistant Receiver General's office, $2,500; Victoria military buildings, artillery barracks, $16,000; Victoria guns and ammunition, $6,000; Victoria ammunition magazine, $2,500; Victoria examinatories and watch-house, $6,000; for Columbia River improvement, between the mouth of the Kootenay River and the international boundary, $6,000; Nanaimo harbor, $500; Skeena River, $2,000; new dredging plant for the Columbia, $5,000; reconstruction of the telegraph line from Ashcroft to Barkerville, $12,000; new steamer to replace the Sir James Douglas in the British Columbia service, to be purchased at a cost of $70,000; for Indian schools on Cormorant Island, Alert Bay, $2,700; Kootenay Industrial School, $2,500; W. H. Robertson, trade instructor at the Methlakatla Indian School, $1,500; Assistant Inspector of Weights and Measures at Victoria, to be appointed, salary $600. Miss Harriet Fraser receives an annuity of $250 and Roderick Fraser $150, in recognition of the services of their father in exploring British Columbia.

The total immigration vote is $200,000, and $5,000 for the Jamaica exhibition.

THE FERRY SITUATION.

EDITOR TRUTH: Sir,—A short review of this ferry question at the present time, as the mayor seems bound to try to force it on the city, would not be amiss. The other side of the river, from the present landing to the hatchery, has been loomed by speculators with the cry of bridge and ferry as a bait. From the landing down to the cannery another lot of hungry land owners exist who want something to boom their worthless bush land. They make a proposition to the Council to give the city a certain amount of swamp land for a ferry landing, and the result is that the mayor and a few members of the Council immediately shout for a ferry. They visit Portland and interview the owners of another ferry that has been loomed to the last breath ever since it was built, and their word is not worth the listening to. The mayor and his supporters shout "ferry" a great deal louder than ever on their return. They immediately force a bylaw through the Council by a tie vote to try and compel this city to give $20,000 for a ferry for the space of two years before a bridge can be built. This is about as the matter stands at present, and a few comments on this extraordinary proceeding would seem to be appropriate. Who are the principal boomers of the ferry business? Land owners and hungry speculators. What is the object in rushing a ferry through at once without ever finding out from responsible authorities whether it is going to be a success or not and whether the same conditions as exist here are to be found elsewhere? The only object that these boomers can possibly have is to get their ferry started and their land sold before the next winter freezes their ferry up. Ald. Johnson calls it an intensive measure, yes friend Johnson, I believe you are double right in the remark, $20,000 for nearly a lot of unscrupulous speculators. The people of New Westminster have been taunted by outsiders with doing some fancy things, and if this farcical scheme passes they will deserve it. The mayor says in reference to the bridge, "surely it needs no argument to show that an undertaking of this magnitude should be gone about with the greatest caution and every means of obtaining trustworthy information examined," etc. Exactly the same course should be pursued in regard to the ferry, but I claim it has not been. The Willamette River fellers are no more fit to judge ice than a mule team is fit to judge time. The ice on the Willamette is hardly ever heavy enough to bear, and on the Fraser I have seen ice cut 8 inches thick in front of this city. There is no tide at Portland, consequently no ice jams, as there is here. The Willamette freezes as smooth as glass when it does freeze, and it is an exceptionally hard winter that the Willamette or Columbia River is frozen at all. The Fraser River has been frozen solid every winter that I have been in this city, with the exception of one, and I am surprised to see a statement to the contrary.

But pshaw! what is the use of argument—"all in the game," as level-headed Johnson puts it. The N.W.S. Railway are pretty sure to have a ferry running before the next winter, and the ratepayers would be very foolish to vote away $20,000 for an experimental affair, when they can see the working of the railway ferry and not cost them a cent. I hope every ratepayer in the city will go to the polls, and then I am sure this "infamous" bylaw will be killed by a two to one vote.

RATEPAYER.

STICK TO THE POINT.

EDITOR TRUTH: Sir,—In answer to "Ratepayer" in the evening paper, who signs himself "Neither Presbyterian nor Methodist," I would say that I never questioned Mr. Brown's ability as Mayor, but I do decidedly object to his being brought forward as an expert upon the bridge-ferry controversy, when, by his own admission, he never saw either successfully operated until he went to Portland and saw a small concern operated on a stream during the most favorable season of the year. If "Ratepayer," as implied, wishes to make a religious controversy out of this, he cannot get in and dance too soon to suit me.

Yours,
LEX.

New Westminster, May 7, 1890.

THE BRIDGE QUESTION.

What two Competent Men Say—Imitating Portland's Defects.

Two practical bridge builders, men not in any way identified with Mr. Baldwin's proposal, and men who have had years of experience in their line, and notably one with railway construction in the United States Northwest (as well as in British Columbia) for a considerable number of years past, (for a certain reason I shall not say more than that a certain Fraser River crossing is to-day occupied by a railway bridge) have independently assured me that a good traffic bridge can be constructed (which will endure, without much repair for at least fifteen years) for $150,000, and at the same time allow the construction a reasonable margin for profit. They say that nearly one-third of the average depth of stream here (that is the channel of the river is on the north side, and a current prevails there which would require a ship to be towed, which could be permanently constructed for much less than is generally supposed, because current and stress is heavy at one very deep part of the river; in fact, they say, the whole expenditure could be brought within the $150,000 limit. These men are not in the habit of talking at random, but are practical men (not especially bridge) of wide study, and who speak from knowledge gained by practical experience. They are men who have travelled a bit in their time, and their knowledge and judgment is entitled to more than the average need of respect and consideration.

While upon this question we might state that TRUTH has been at considerable pains to collect information regarding the working of the Stark Street Ferry in Portland (the pet project of the Council's special committee), more for the assistance of his Worship Mayor Brown than as a leverage against his report, and can say that the data at hand, from good and competent disinterested authority is to the effect that the Stark Street cable ferry was shut down for several days during last year by reason of driftwood in the river, and that in the winter it was laid up for weeks because of floating ice, not a jam, such as we had last winter; that the current there is only one way, and, of course, the strain upon the cable is from one side only. Now, with the tide flowing up stream with an ice jam on its surface, where would a cable ferry be, both requiring an immense power to lift the cable through the ice, and to maintain its course across the river against a pressure of at least 26,000 tons of ice, for such was the computed force of one single flaw last winter, made by Capt. Peele and Mr. T. L. Briggs, both competent judges.

If the Stark Street ferry is stopped by driftwood, why, what can we expect from a similar makeshift across the Fraser, when at the very time traffic is at its height, water is the highest and driftwood the most plentiful? Even today whole trees are coming down, which, should they strike the cable or the boat, would carry it away. Then, again, in winter, an ice jam running up stream, if it did not turn the boat completely over, would crush it to atoms. Whereas, a substantial bridge, with piers covered with sharp steel ice-cutters, would split up the ice and allow it to float out to sea by the steady action of the tide.

TRUTH has no real estate on the Surrey side of the river to boom, hence it is at liberty from a clear standpoint of view to state its opinions boldly and fearlessly, and has no hesitation in saying that the people of New Westminster want a bridge, and if a bridge is possible a bridge they will have. They voted the $150,000 railway loans for this, and do not care to see this large amount of their hard earned money diverted from its proper and legitimate destination.

A Ghastly Find.

Officer Hester, of the Victoria police, made a startling discovery on Tuesday while rowing up the quiet waters of the Arm. When nearly opposite Steveston's saw mill a floating box attracted his attention. He rowed to it, and found that it was securely tied about with cords. The circumstance heightened his curiosity and he lost no time in placing the box upon a convenient boom of logs. He then proceeded to cut the bandages and on lifting the cover of the box found that it contained the partially decomposed body of a very young infant. He hastily returned the cover to its place, and took the body to the city, where it was taken in charge by the provincial officers.

The Truth

Daily Edition.

NOTES AND COMMENTS.

It is satisfactory to learn from Ottawa that Sir Hector Langevin has stated that an appropriation of $15,000 will be made by the Dominion Government to continue the subsidy to the mail boats between this city and river points to Victoria. In this case it appears that the representations that were forwarded from this city to the department have had their effect. The proposed withdrawal of the subsidy was no doubt the result of a misconception of the necessities of the case.

Our worthy Mayor is plainly out of patience that any person should be raised regarding the wisdom of his proposals to deal with civic expenditures. Now, we have no reason to believe otherwise than that the Mayor is actuated by a desire to serve the city well in the position he occupies, and we do not give credence to a view that he has personal ends to further. He may be ambitious, and he may have a blemish of disposition that makes too fatally strong-headed. Having propounded a plan of action, he may be so thirsty of the honor of carrying that plan into effect, that he will be prepared rather to subvert that which his better judgment would indicate to him to be the most course to pursue in the real interests of the city, than submit to a change of plan. The Mayor has had very much his own way in the Council so far, and we are not going to say that the interests of the city have so far suffered through it. But if it is common enough trait in humanity, to find out where a man is seldom or never prepared with in the performance of what he may claim right or politic, he presents rather the aspect that anything that is or is not inclined to do is wrong and impolitic. Now, we have no doubt but we in our turn will run the risk of his censure in this matter, but we are of opinion that his sufficient judgment would be sufficient to carry on the affairs of the city very well indeed, without any aid or assistance from either the Council or the people. He ought to submit to admit that much to his fellow-men. And even a feeling of complacency on the part of the Mayor may be a very admirable thing, seeing that it is to be the enjoyment of his devoted attention to civic affairs. But while it may be admirable, it cannot but be unfortunate alike to the Mayor and the people. There is always a rock upon which a man so governed will split, and timely warning is given to the Mayor that he is steering directly on that rock. It is the rock of public opinion.

But the TRUTH has been accused of employing an "unfriendly and unfair spirit" in this bridge controversy. If that charge be true, we can only say that we have been unconscious of any subversion. The position is simply this. It is acknowledged that a bridge across the Fraser here would be of the very greatest importance to the commerce and general prosperity of the city. It is contended that the city is not in a position to bear the expense. But before such a contention can have force, it must be shown that it is well founded. We must learn (1) what revenue can the city bear? and (2) how much will the bridge cost? That the citizens believe that the city can afford to spend $150,000 outside of what may be considered internal works and improvements is shown by the fact that they unanimously voted that sum to the Northern Railway as a bonus. That sum is at present in hand, and the Council has never made any efforts to discover whether or not that sum is sufficient to build the much-to-be-desired bridge. A competent bridge-builder says the sum is ample, and he is prepared to undertake the work at that price. Why should not the Council investigate that matter? Are they not derelict in their duty in not doing so?

The Mayor, in our estimation, occupies a most extraordinary position in this matter. He points out, with much apparent satisfaction, that he wants a bridge and that he has provided in his appropriation bylaw the sum of $1,500 "to make surveys and sound-ings of the river solely with a view of the bridge." But while he does that, is it not a very singular thing that that very bylaw is for the purpose of diverting the money practically voted to secure a bridge to other purposes? Come into my parlor" is what the spider said to the fly.

The proposition that Mr. Ralston made to the Council we are in no way anxious to see accepted. Whether it should be accepted or not will depend solely on whether a bridge of the kind he has in view is suitable as to convenience of operation and permanency of structure. An investigation should be made to that end. But our main contention in this matter is that the $150,000 now in hand should not be devoted to the purpose set forth in the Appropriation Bylaw, or to any other purpose save that of a bridge, till such time as it has been clearly shown that the city cannot afford to undertake the construction of a bridge. Let new loans be made by bylaw for such of the proposed improvements as the ratepayers think to be necessary. If it should ultimately turn out that the bridge was too big a job for the city to undertake, that $150,000 will not need to go begging for uses to which it may be put. There are the waterworks and a system of sewerage that must soon be put in if the sanitary condition of the town is to be maintained. The money could not be better spent than in these public works if it is not used for a bridge. But to get to work, simply because a large sum of money happens to be on hand, and scurry round to find a score of holes to put it into is seems to have been the case in the drawing up of the appropriation bylaw) does not commend itself as a very wise or sagacious proceeding. Depend upon it, if that money is diverted to other purposes, you may say good-bye to a bridge for ten years at least. By that time the farmers to the south will have forgotten that Westminster exists, her market will have dwindled to a shadow of what it should be, and Vancouver or some other more fortunate and more enterprising place will be doing our business for us.

A Queer Individual.

Last night about 9 o'clock a well dressed and evidently well-to-do man walked into the Pritchard House, Victoria, and paid for a room which he immediately proceeded to occupy. Before he had been in it long, however, the people on the sidewalk were surprised to see him come out of the house in an almost nude condition and make a break up Yates Street, at the same time calling out "I'm the governor of Alaska." A couple of young men gave chase and after a long run caught the unfortunate man in front of the skating rink. He evidently got over his fit for a little while as he was very quiet until he reached Brown's brewery when he broke away from his captors and ran as far as Pandora Street where he was again caught and lodged safely at the Pritchard House until the arrival of Sergt. Walker, who took him to the police station where he was quieted down. The man, who would give no other name than "Alaska," came over from the Sound last evening and is a stranger in Victoria.

Way Bye Firemen.

At the general meeting of the Hyack Fire Company, held in their hall last evening, the accounts of the May Day celebration were audited and found to stand as follows: Amount collected and taken at the door of the Opera House, $322.75; received refreshment stand at the park, $21.25; total receipts, $344.10. The expenses for bags, caskets, horse, prizes, etc., amounted to $330.14, leaving a cash balance on hand of $13.96.

JAMES LEAMY.

New Westminster, 14th March, 1890. 10s-90

A BYLAW

Respecting the Municipal Assessment Roll of the Corporation of the District of Surrey for the year 1890.

The Reeve and Council of the Corporation of the District of Surrey enact as follows:

1. The Assessment Roll of the said Municipality shall be returned by the assessor to the Municipal Council on the 20th day of April 1890.

2. All persons complaining of their respective assessments on the said roll, shall within one month after the time hereinbefore fixed for returning the said roll, give notice thereof in writing to the Clerk of the Municipal Council, specifying in such notice the grounds of their respective complaints.

3. The said notice shall be left with the clerk of the Municipal Council, prior to the time mentioned in the next section of this bylaw.

4. All complaints, of which due notice shall have been given under the last two preceding sections, shall be heard at the Council Chambers of the said Corporation on the 20th day of May, 1890, at 11 o'clock in the forenoon or as soon thereafter as they can be heard. This bylaw may be cited for all purposes as the Assessment Bylaw, 1890.

Passed the Municipal Council the 1st day of February, 1890. Reconsidered and finally passed the Council this 5th day of May, 1890.

JAMES PUNCH, Reeve.

HENRY T. THRIFT, M. C.

A MACHINE TO PICK COTTON.

Which Is Expected to Revolutionize Cotton-Picking.

[New York Tribune.]

Charles F. Mason, the inventor of the new cotton harvester, is a young man, a native of South Carolina, and has spent most of his life within sight of the cotton fields. He has been working on the cotton harvester for nine years. He said to a reporter recently:

"The extended use of my machine for harvesting of cotton will almost effect a revolution in cotton-picking, and it may bring about a considerable change in the price of cotton. It will do the work of forty men. At present it costs the planter about $2.00 to pick a bale of cotton by the use of the harvester a bale can be picked at a cost of 25c. It cost nearly $50,000,000 to harvest the great cotton crop of 1882, and one can see how great will be the aggregate amount saved when the crop is gathered by machinery. None of these harvesters have been manufactured for the market yet. We hope to have a limited number in use next fall. I am making some further improvements in the invention. The machine will be sold for about $10."

"Is your harvester the only machine of the kind in the market?"

"Quite a few patents have been given to the inventors of cotton-picking machines. I have never heard of any of these many patents except at the office in Washington. There is no cotton-picking machine in use. In Texas they have some kind of a rough machine which takes up the fiber, but it has no discriminating quality, and gathers sand, leaves, and dirt, and mixes these matters with the cotton. My harvester is a machine which resembles a rake somewhat; a large number of steel cylindrical rollers, armed with teeth which lie below the surface of the cylinder, run over every inch of the cotton, and if the boll has opened enough to indicate that the plant is ready for picking, the fiber is grasped by the rubber teeth, and all the other substances pass through the machine. Nothing but the cotton is taken. A horse may be used, and a mule can gather a crop of cotton with it. We have protected our patent in all of the cotton growing countries of the world and in England.

"What will be the effect of your invention upon cotton growers and laborers in the south?"

"In South Carolina my invention will not be welcomed. The farmers there look forward to the introduction with glowing feelings. In Texas there will be an enthusiastic demand for the harvester. The South Carolina farmer cannot raise cotton in such abundance as it is produced in Texas on an equal amount of land. They have to make use of commercial fertilizers, and with the additional expense do not begin to produce as many pounds to the acre as the Texas planters do. In South Carolina there is a large negro population and labor is cheap. The farmers there can gather their crop at a smaller expense than their competitor in Texas can. But enough field labor cannot be had later, and a large portion of the crop is always lost; sometimes fully one half of it is not gathered. There is no doubt that they will have a great advantage over the cotton growers of South Carolina and that they will be able to undersell them. The farmers will have to sow other crops. There is always enough else for them to do. other crops have been reported in the south because the negroes would do little else than pick cotton during the season it is harvested. I do not fear that the introduction of my machine will cause any distress among the colored people. I think they will find a much better class of profitable employment in other directions."

Abraham Lincoln's Diplomacy.

[New York Sun.]

Abraham Lincoln was a wonderful man in ways of which the public have known little. Joshua Bell, of Kentucky, had a rich experience with him. Bell was sent at the head of a delegation from the Kentucky legislature to request certain facts to Lincoln and secure some desired action from the executive. The committee was admitted to the White House, where Bell, who was an able and strong speaker, made a powerful representation of his case.

At its close Lincoln got up and came among the Kentuckians. He began to talk with one and the other about old Kentucky friends. Then he linked arms with Bell and walked back and forth with him for an hour, chatting, jesting and especially telling funny stories. Finally other visitors pressed for his attention, and the Kentuckians withdrew and started for home. They got as far as Cincinnati before it occurred to Bell that they had not secured a single expression from Lincoln concerning the object of their visit.

An Old Paper-Mill.

[Chicago Times.]

There is a paper mill now running in Delaware county, Pennsylvania, which manufactured the continental currency of more than 100 years ago, and afterwards furnished the greenbacks that supplied the sinews of war for the more recent conflict. Of course, improvements in machinery were added from time to time, until now the mill is entirely revolutionized.

Up in the loft of this old building had accumulated during this century a huge variety of waste paper, and this collection was recently sold at refuse, and some of it has found its way to the stationery department of a prominent Philadelphia firm, and is now being used for fashionable uses.

Religion of Greenlanders.

[New York Independent.]

Nearly all the Esquimaux of Greenland are adherents of the Lutheran faith, having been converted through the missionary enterprise of the Danish church. They have neat little churches, where they hold religious services every Sunday. To all appearances they are happy and contented people. The Moravians also have been ministering in this little outworld for about 150 years and have recently lost their leading missionary there, Pastor Brodbeck, who has labored very successfully on the eastern coast of the island. From Greenland the Moravians are now also trying to extend their labors to Alaska, and operations were will be commenced there with the new year.

Street Widening By-Law

A By-Law to Enable the Council of the City of New Westminster to Appropriate a Portion of the Sum of $133,000 Borrowed under Authority of the Railway Bonus By-Law 1889, and Apply the Same to the Widening of Certain Streets.

Whereas under authority of a By-law entitled the "Railway Bonus By-Law 1889," passed by the Council of the City of New Westminster on the 14th day of October, 1889, the sum of $133,000 was borrowed for the purpose of assisting the Southern Railway Company by a bonus and otherwise:

And whereas the said sum of $133,000 has been placed on deposit in the Bank of British Columbia, where it now remains:

And whereas the said Southern Railway Company has relinquished all claims to the said sum of $133,000, or any part thereof, and the said sum is not required for the purposes for which it was borrowed:

And whereas the streets known previous to the passing of the Street Naming and Numbering By-Law as McKenzie Street and Lorne Street, between Columbia and Carnarvon Streets, are not sufficiently wide to accommodate the present and prospective traffic, or to offer an efficient barrier to the spread of fire:

And whereas the Government of British Columbia is about to erect a Court House in the centre of the block bounded on the east and west by said streets, and on the north and south by Columbia and Royal streets:

And whereas it is desirable that the said streets should be widened as well between Columbia and Carnarvon Streets:

Therefore, the Mayor and Aldermen of the City of New Westminster, in council assembled, enact as follows:

1. It shall be lawful for the Council to appropriate $40,000 of the $133,000 borrowed under authority of the Railway Bonus By-Law 1889 and apply the same, or as much thereof as may be required, to the widening of the said streets.

2. In the event of its being found that the said sum of $40,000 is greater than is required for the purposes mentioned in Sect. 1 of this by-law, the surplus may be applied to any of the undertakings mentioned in subsections b, c, d, e, f and h (as mentioned in subsection h, c, d, e, f and h are mentioned in subsections of Sect. 2 of the Railway Loan Appropriation By-Law, 1890, which by-law is to be submitted to a vote of the electors concurrently with this by-law), and the surplus, if any, remaining after all the said undertakings have been completed, may be placed at the credit of the general revenue of the said city, and applied in any way the Council may lawfully determine.

3. This by-law shall come into force on the 24th day of June, 1890.

4. This by-law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

5. This by-law may be cited as the Street Widening By-law, 1890.

By-law read a first time on the 28th day of April, 1890.

Read a second time on the 5th day of May, 1890.

NOTICE.

Take notice that the above is a true copy of the proposed by-law which will be taken into consideration by the Municipal Council of the City of New Westminster after one month from the first publication thereof in the TELEGRAM newspaper, which first publication took place on the 7th day of May, 1890, and that a vote of the electors of the city will be taken on said proposed by-law on the 9th day of June, 1890, between the hours of 9 o'clock a.m. and 5 o'clock p.m. at the following places, namely: In ward No. 1, at the residence of S. Calbick, Fourteenth Street, in said ward; in ward No. 2, at the office of the late Dominion Sawmill Company, Columbia Street, in said ward; in ward No. 3, at the City Hall, in said ward; in ward No. 4, at the residence of Henry Hoy, Dickinson Street, near Ellen Street, in said ward.

D. ROBSON,
City Clerk.
207-21s

The Shuswap and Okanagon Railway Co.

NOTICE IS HEREBY GIVEN that a special general meeting of the shareholders of the Company will be held at the office of the Company, in the City of Victoria, in the Province of British Columbia, on SATURDAY THE 31st day of May, 1890, for the purpose of considering a resolution to be submitted to the shareholders, and, if approved of by them, of passing such resolution for the issue of bonds of the Company for a sum not exceeding $15,000 per mile, in pursuance of the provisions of the Act of the Parliament of Canada incorporating the said Company, and for securing the bonds to be so issued by a mortgage dealing with such powers, provisions and stipulations as may be prescribed in the said deed, and may be approved of by the shareholders, and also for the purpose of considering such other business as may be brought before such meeting of shareholders.

Dated at Victoria this 17th day of April, A. D., 1890.
By order,
F. LARKIN,
President.
205-5t.

NEW WESTMINSTER

WATER COMMISSION.

SEPARATE SEALED TENDERS, to be addressed to the Chairman of the Board of Water Commissioners, are invited, and will be received up to 4 p.m. of the 14th July, prox., for the supplying of

"*Material for the Main.*"

and for the work of

"*Making and Laying the Main Pipe,*"

of the NEW WESTMINSTER WATER WORKS, in accordance with drawings and specifications to be seen at the Engineer's office, City Hall.

Tenders are to be made on the printed Schedule, and Forms of Tender attached to the specifications, and are to be accompanied by the names of two responsible persons, who will agree to become bound as sureties in the sum of the amount of the tender for the due fulfilment of the terms of the contract.

The sufficiency of the sureties must be shown to the satisfaction of the Board of Water Commissioners.

Each tender to secure consideration must be accompanied by an accepted cheque payable to the order of the Secretary of the Board of Water Commissioners of New Westminster for an amount equal to five per cent. of the amount of the tender, as a guarantee that the Tenderer and his Sureties will, if called upon, enter into a written agreement, in form attached to specification, binding them to the due execution of the work tendered for, which amount will be forfeited to the Commissioners should the Tenderer neglect or refuse to enter into such agreement.

The Tenderer, or an authorized agent of the Tenderer to whom the contract may be awarded, will be required to attend at the office of the Engineer at New Westminster within six days after the time of mailing to him a notice of the award of the contract, and to execute the agreement or contract, as above mentioned; and in case of failure to do so he will be deemed to have abandoned the contract, and in such case the Commissioners, at the end of six days after the award, shall be at liberty to re-award the contract.

His cheque will be returned to the Tenderer to whom the contract may be awarded, on the execution of the agreement as above mentioned, and those of other tenderers one day after the award.

The price for each item in the schedules of quantities and the total amount of the tender are to be specified by the Tenderer with the understanding that the estimates are approximate and intended only as a basis for comparison of bids, and that payment will be made at the rates specified for the work actually performed, whether greater or less than the estimated amount.

Parties tendering for both the MATERIAL and the MAKING and LAYING of the pipe will state in connection with their offer whether their tenders must be considered together or whether they may be considered separately.

Tenders are to be endorsed with the title of the work tendered for.

The lowest or any tender will not necessarily be accepted.

By order of the Commissioners,
ARTHUR HILL,
Engineer.
New Westminster, May 1st, 1890. 203-td

NEW WESTMINSTER

WATER COMMISSION

SEALED TENDERS addressed to the Chairman of the Board of Water Commissioners, are invited and will be received up to 4 p.m. of the 24th inst., for the work of

"*Clearing the Main Pipe Line*"

of the New Westminster water works, in accordance with specifications to be seen at the Engineer's Office, City Hall.

Tenders are to be made on the printed schedules and forms of tender attached to the specifications and are to be accompanied by the names of two responsible persons who will agree to become bound as sureties in the sum of the amount of tender for the due fulfilment of the terms of the contract.

The sufficiency of the sureties must be shown to the satisfaction of the Board of Water Commissioners.

Each tender to secure consideration must be accompanied by an accepted cheque payable to the order of the Secretary of the Board of Water Commissioners of New Westminster for an amount equal to five per cent of the amount of the tender as a guarantee that the tenderer and his sureties will, if called upon, enter into a written agreement, in form attached to specification, binding them to the due execution of the work tendered for, which amount will be forfeited to the Commissioners should the tenderer neglect or refuse to enter into such agreement.

The tenderer, or an authorized agent of the tenderer to whom the contract may be awarded, will be required to attend at the office of the Engineer within six days after the time of mailing to him a notice of the award of the contract, and to execute the agreement or contract as above mentioned—and in case of failure to do so he will be deemed to have abandoned the contract, and in such case the Commissioners at the end of six days after the award shall be at liberty to re-award the contract.

His cheque will be returned to the tenderer to whom the contract may be awarded on the execution of the agreement as above—and those of other tenderers one day after the award.

The price for each item in the schedules of quantities and the total amount of the tender are to be specified by the tenderer with the understanding that the estimates are approximate and intended only as a basis for comparison of bids, and that payment will be made at the rates specified for the work actually performed, whether greater or less than the estimated amount.

Tenders are to be endorsed "Tender for Clearing."

The lowest or any tender will not necessarily be accepted.

By order of the Commissioners,
ARTHUR HILL,
Engineer.
New Westminster, May 1st, 1890. 203-td

ELECTION CARD.

AT THE REQUEST of a number of Electors of the District of New Westminster, I have consented to become a candidate for Representative of the District in the House of Commons.

I shall take an early opportunity to inform the Electors of my views on the various questions with which as their Representative in the Commons I would be expected to deal.

WM. H. LADNER.
Ladner's Landing, April 26th, 1890. 200-tf.

Parliamentary Election 1890

To the Electors of New Westminster District:

GENTLEMEN,—In view of the near approach of the election to fill the vacancy caused by the death of our late representative (the much-respected D. Chisholm) and as I have stated in my card to you that I am a candidate for that honor, I will now lay before you some of my views on the leading questions which I consider will arise in the new Parliament for consideration.

I have been asked what I mean when I announce myself as a Liberal-Conservative. I reply, "That by reason and education I am a Conservative, but a residence of over 20 years in this Province and much intercourse with our American cousins has had the effect of changing many of my views and given me liberal ideas, therefore, I claim I am a Liberal-Conservative." Owing to the fact that party lines are not defined in British Columbia as they are in the older provinces, I consider that our representatives are not in duty bound to give a strong and solid support to any party, but they should go to Ottawa prepared to give a generous support to all good measures which may be brought before them, and to consider the prosperity of the Dominion as a whole, but our own Province in particular, and should a measure come before them which they consider in any way detrimental to the interests of this Province they should take their stand like men and vote against it.

I am opposed to a serious extent to the Tariff, or National Policy, as applied to British Columbia. We are a long way from the centres of manufactures in the East, and many articles of every-day use to our Farmers and others, and which we cannot produce at home, can be obtained more readily and at shorter notice from our near neighbors over the line, and in many cases the articles are better adapted to our needs than those brought from the Eastern Provinces; in fact, much of our Farming and Mining Machinery, Wooden Ware and other articles are brought from the States, although the duties are so heavy. Again, regarding our food supply; we do not raise enough to supply our wants, and are obliged to cross the border for it, and are met with such heavy duties that heads of families in this Province pay more than ten to one compared to their compeers in Eastern Provinces. We have had example to the point during the last three months. If we had not received a good supply from California there would have been a great famine; as it is we are now and have been paying 25 cents per pound for mutton, which is more than ordinary mortals like to pay, and the same state of affairs is likely to obtain again after any long and severe winter, for in spite of "Protection" for the last eleven years our stock raisers are little better prepared to meet hard winters than they were before, and to my mind the only ones who have reaped the benefit of the N.P. are the manufacturers. As a true Reformer I would like to see "Free Trade," but as that seems out of the question, I would advocate "Reciprocity" in many articles which are at present in the Tariff list, as I think it the workingman would not have to go down so deep into his pockets to buy what he needs to eat and wear. I am aware the Government must have a revenue to carry on the affairs of the country, but I would have "luxuries pay more, and get at the pockets of the richer classes, who can better afford to pay taxes.

Owing to the long continued sickness of the late Mr. Chisholm, he was unable to be in his place this session, and very little during the previous one, so as of this District have been practically unrepresented, and our local wants have not been brought before the notice of this House. Had he (Mr. Chisholm) been in his seat, I do not think the Postmaster-General would have been left so much in the dark concerning the necessity of regular mail facilities in the Lower Fraser as he seems to have been when he proposed to cut off the mail subsidy from that important route, and there are other places in the District which need better facilities, which I consider should receive that gentleman's earliest attention.

I hope that in the near future our District will reach that point that we may look for it to be divided and receive another representative. At present I think it is the largest constituency in the Dominion, viz: being over 1,300 miles of territory, and when the census returns are in I think the necessary number of population will be found to demand such additional representation.

The protection of the river banks at Chilliwack, Sumas, Barton's Prairie and other places should receive my earnest attention, also the works for improving the channel at the Sandheads, in view of the expected increase in our shipping interests.

I consider the Province should have control over all railway charters and privileges within our borders.

Our fishing interests, being of such great importance to this District in particular I feel should receive more than ordinary attention.

I would urge the cutting of a canal through the Delta lands from the mouth of the Serpentine to Fraser River, also to enquire into the question of cutting one from the Fraser River to Port Moody, which has often been suggested to me.

Immigration, I consider, should be fostered, and encouraged judiciously. Just at present it is coming here fast enough; I would not like to see a large influx poor in at once, as many would be disappointed and go away disgusted, and probably give our glorious Province a bad name.

There are many other matters I would like to touch upon, but I would make this address too long. I hope to see as many as possible before the election, when I shall be prepared to lay my views more fully before them and answer any questions. As soon as possible after the arrival of the writ I will arrange for a personal canvass, and will send due notice of time and place of meeting.

During my long residence in the Province I have travelled through much of it, from Victoria to Carlboo, and have noted its growth and requirements, therefore, I feel fully competent to bring such matters before the notice of the House in a practical, business-like manner.

Should I have the honor to be elected, I assure you I shall watch over the interests of this District faithfully and to the best of my ability, not forgetting that I go as a true British Columbian and to do my duty as such.

Yours faithfully,
WM. B. TOWNSEND.
202-tf

WALWORTH'S STAGE

RUNS every Tuesday and Saturday from Westminster at 8 a. m., via Yale Road to Sydenham, stopping at Bradshaw's Camp. Leaves Sydenham for New Westminster on Mondays and Fridays at 6 a. m. 158-1m.

Estate of F. H. ROBSON, of Kamloops, in Liquidation.

SEALED tenders will be received up to Thursday, the 15th day of May, for the purchase of the following undermentioned property belonging to the above estate, viz:

1st. Stock of merchandise and furniture in store, a complete list of which can be seen at the office of the undersigned, or on the premises at Kamloops.

2nd. Store building, including fixtures, and lot upon which it is situated, being lot 6, block 30, town of Kamloops.

3rd. For corner lot in block 4, 100ft x 132ft, fronting on three streets, with frontage of 256 feet on First Avenue, Kamloops.

A separate tender is requested for each of the properties enumerated.

For further particulars apply to the undersigned, or to Mr. W. C. Marin, at present in charge of the premises.

The highest or any tender not necessarily accepted.

E. P. RITHET,
Assignee of the estate.
Victoria, B. C., 23rd April, 1890. 197-17

A carload of machinery for Reid & Currie arrived from the east yesterday.

J. W. Hawthornthwaite, United States Consul at Nanaimo, is on the Colonist.

Conductor Trudeau left yesterday for his new section between Kamloops and Donald.

The May term of the County Court ended yesterday, all the cases having been disposed of.

Boys suits in serge, blue and gray linens, also children's suits at J. E. Phillips.

A. Lees's new log Cottonwood took a spin around the river yesterday at a considerable rate of speed.

This is the season to have your pictures framed. Call and examine Thompson's stock of mouldings.

Keep your eye on WHITE ROCK, and for further particulars apply to McKinnon & McCall, Blaine. 180tf

The members of the order A. O. U. T. will turn out in uniform tonight for drill at Herring's Opera House.

We have a couple of fine stops in Brownsville, which we invite you to inspect. S. T. Mackenzie & Co. 194tf

About 100 tons of supplies, 20 tons salt and other canning supplies went up by the Yosemite for Moore's cannery, North Arm.

From the river it would appear that the town is growing more rapidly in the swamp reminority than in any other part.

Hon. D. H. McMillan, Treasurer of Manitoba, the well-known flour and feed, and wife of Winnipeg, are guests at the Colonial.

Last night special Officer Anderson succeeded in capturing the Chinaman who has been supplying Indians in the swamp with liquor pretty freely of late.

Spring salmon are not so plentiful since the water became high but the early run of sockeyes have made an appearance of much promise.

Petitions to the New Westminster and Vancouver boards of trade are said to be in circulation asking the attention of those boards to the fact that the North Arm is rapidly becoming unnavigable.

Everything was quiet yesterday among the carpenters. Almost all of them have gone to work under the nine-hour system, and no further trouble is anticipated.

Mr. David Walker, the well-known proprietor of the Walker House, Toronto, was in the city yesterday, and was registered along with a Walker of the Queen's. He was very much pleased with New Westminster.

Terms extraordinarily cheap to Mr. Max Metzel, secretary of the New Westminster Lacrosse Club, for a season ticket to their matches. The courtesy is not the less appreciated by many of its being the only one tendered by any organization of a similar character in the city.

At a meeting of the New Westminster Lacrosse Club, held Tuesday evening, Mr. James Cox was elected field captain for the season, and Messrs. Stewart, Mahoney, Campbell, and Cunningham appointed a committee on committees. A committee composed of Messrs. Reeve, Lemery, Reid, Trapp, and Jessop was elected to deal with all matters of importance in connection with the club.

From Victoria.

Steamship Yosemite arrived at 6 o'clock last evening from Victoria, and has on board the following passengers: Mrs. West and child, Fred. Wright, C. Woods, A. Southcott, King, J. Sidney, Rogers, P. Peterson, Moore, S. Linden, Francis, Ho Gee, Mrs. Ho Gee, Mrs. A. Dunlevy, A. J. Tilton, E. Bryan, Burns & Page, R. A. P. Co., B. C. Packing Company, Brunette Sawmill Company, Ewing Bros., Charles McDonough, D. Chisholm & Co., Dickinson, G. E. Reynard, C. H. Grant, H. F. Bryce, H. T. Ford & Co., Hill & Copeland, H. Harris, J. E. Phillips, J. D. Kelly, J. Stevens, Lucius Eaton, McLure Bros. Company, H. A. Webb, Mrs. Mary Campbell, New Westminster Woollen Mills, F. Peebles, P. Smith, First City Planing Mills Company, Hammond Cannery Company, R. Hardy, Stewart Irving, J. J. Trapp, T. A. Hall, Westminster Rowing Club, Westminster Cricket Club, H. B. Shadwell, M. M. English. Nearly all the freight consigned was tea and other necessary supplies for the season's operations.

Endangered by High Water.

The water in the river at Chilliwack is very high, and is already causing some damage. At the landing the bank is being washed away to such an extent that Henderson's large warehouse had to be moved back a considerable distance from the river in order to save it from being undermined and washed away. When the steamer Irving landed the other day she fell on the vessel, fortunately doing no serious damage. At Wilkie Landing the water is up to and around Latrevie's warehouse, situated upon quite a high bank. It is feared that much serious damage will be done to farmers and others in that vicinity when the June high water comes. Fears are also entertained that the Matsqui dyke will be broken and flood the farms in that vicinity.

The Canadian Spring Band.

Chief Uncle Tyler addressed me last night. As we sat on the river bank smoking. Did it ever occur to you, Tommy, my lad, To ask what the frogs are a croaking?

I know, replied I, what a chorus of a row They make in the evening just after supper, What a racket the cannibals are kicking up Down Tokio.

But those tiny are saving I never cared a Thought, Right from me on call you, that every night, Those frogs are croaking.

Just hear what they say. Oh, we frogs in the marsh, For the Canadian we croak, though our voices are harsh, How we wish we were in office Where we could get our share of plunder, Then we'd all the good offices, From Chilliwack to Hastings on, Of which rent and fashioned rambles.

Although we are frogs we believe in progress And to aid Kendall tones, for that's retrogress Ion, For that poor old theory, Having been tramped and made grand, Would not do as a ferry For the Canadian Spring Band.

We require a bridge—make a way for the farmer To come in and trade with our city—not harm her, By making a barrier of old Father Fraser, Tyson left and the folks that to wealth were nearer than her.

If you have a bridge built We'll come with gold, Very much to the "fall," With pleasure "Hilly."

Say poor old Connett, do you think you'll be gratified, In the future that crossing—by being ratified In crossing the railway lines? Just to have some cheap, little, Among the stranger, Away from fear of danger Of commercial ruin?

From coming to trade in the city that's beautified?

This "becoming" of terms—it savours of heartburning, This town wants a bridge and some of your learning.

If you build for the hundred and fifty—away, It's more than you'll earn in a year and a day, To re-store the city revenue a new hat, But don't let that money your senses entrap, We want more street widening our wants never stop, But before all the others a bridge would be best.

Uncle Tom.

Police Court.

(Before G. Fitzgerald, S.M., and F. McTavish, J.P.)

John Smith has lately been working for Mr. Leamy on the right-of-way for the Southern Railway. He came to town Tuesday and immediately proceeded to fill up with a concentrated quality of sawdust laughter, and was quietly reclining in the office of Leamy yesterday morning when Officer Sawyer found him, and offered him the freedom of Hotel de Pierce, and even went so far as to be magnanimous of accommodation in was charged $6, and gave the week in which to settle the bill.

Quinlan, a Fort Rupert Indian, is the possessor of the acknowledged coils of three classic specimens known to the swamp. He is also quite a gay Lothario, and many were the dusky skins of fairer maidens who he chanced to come in sight. But generally speaking he worry and their shy, modest overtures, and set about to win the affections of a dusky belle whose name was Mary Jane. Mary Jane's heart and head being plighted to another, she, as in duty bound, declined his attentions. Quinlan, to drown his sorrow at having "got the sack," immediately went and interviewed a Chinaman, from whom he obtained a quart bottle of Old Tom gin. Armed with this deadly Indian extermination, he returned to the house of his lady love and proceeded to kill himself and the girl with the contents of the bottle. They were having a high old time, Tuesday evening, when the girl's mother sought the services of Officer Sawyer, and had the duke taken to the lock-up. In the court this morning he pleaded guilty to the two charges of being drunk and supplying liquor to Mary Jane, and was fined $6.50 and one month on the first charge, and $20 and one month on the second.

Mr. Moore, who was a Tuesday fined $5 for being drunk, was let out on his own recognizance for one week, during which time he is to earn enough to pay his fine.

Fruit Growers.

At the regular meeting of the British Columbia Fruit Growers' Association, held at Maple Ridge on Tuesday, it was decided that the next annual meeting should be held in New Westminster on the second Tuesday in August next.

A New Legal Firm.

An addition has been made to the ranks of the legal profession in New Westminster. Messrs. Forin & Morrison have opened offices in the Masonic Block. Mr. Forin is a barrister of experience from Ontario. Mr. Morrison is well known in town as he has been practising here for some months past. He is a member of the Nova Scotia bar. Their card appears in this issue of TRUTH.

The Neighboring Mines.

Mr. Waters, who has recently been engaged in forming a mining organization, returned to the city yesterday. His enthusiasm in regard to the mining possibilities of this district has taken tangible form, and he, in company with notable mining men on the Sound, has arranged to develop mining property within a few miles of Westminster.

From Chilliwack.

Steamer Irving arrived down from Chilliwack yesterday afternoon with passengers and freight for the following: Gee Yuen, Buckmann & Kerr, B. Whitefield, Van Volkenburgh, Dickinson, Wm. McDonald, A. S. Malcolm, Ogle, Colonial Hotel, C. Smith, R. Ely, LaCroix.

The Wait en Route.

A telegram was received by a gentleman in this city yesterday from a member of the Government at Ottawa, stating that the writ for the Commons election would be forwarded here this week.

ANOTHER CHANCE

ANYONE SEEKING AN INVESTMENT that will give a handsome return, should call at once and inspect the following:

30 Acres, on River Front.
40 Acres.
80 Acres.
160 Acres.

All in what is known as Brownsville. Prices low; terms easy.

This is certainly a chance for someone to make a stake.

180-tf. MAJOR & PEARSON.

SCOTCH GRANITE

It is well known to be the best material in the world for monumental purposes, both for appearance and durability.

I have just received direct from Aberdeen, Scotland, another large shipment of Scotch Red and Grey and Swedish Red

Granite Monuments

which will be sold cheap.

To the Electors!

At the request of a number of prominent residents of the District of New Westminster, I have consented to become a candidate for the position of Representative of the District in the House of Commons.

I shall take the earliest opportunity to fully inform the electors of my views upon all questions affecting the District.
