Commerce to hold business institute

A three-day institute entitled "The Goals and Responsibilities of Business Education", will be held in conjunction with UBC's fall congregation.

"The object of the Institute is to ask questions about where we are going in the matter of business education", says Dean E. D. MacPhee, head of the newly-formed Faculty of Commerce and Business Administration.

Institute will begin October 21 when Mr. Harold Foley, chairman of the Powell River Co. Ltd., addresses the Ad and Sales Club luncheon in the Hotel Vancouver on "The Social Responsibility of Business".

First of two panel discussions will be held October 24, Room 100 Westbrook Bldg. Speakers on the panel which will be chaired by President MacKenzie, will be Dean S. N. F. Chant, Mr. J. F. Stewart, and Dean E. D. MacPhee. Topic is "Goals and Responsibilities for Business Education".

Panel speakers Oct. 25, will be Senator Donald Cameron, director of the Banff School of Advanced Management, Dr. J. V. Fisher, and Dean H. C. Gunning. This discussion will also be held in Westbrook 100.

"Responsibilities of professionals in business" will be the subject of the panel to be chaired by Dean MacPhee.

Topic of the congregation address by Dr. W. A. Macintosh will be "Functions of a Faculty of Commerce and Business Administration."

President goes east for meetings

President N. A. M. MacKenzie's busy fall schedule included several meetings in Eastern Canada and the United States during October.

Early in October he attended a meeting in New York with representatives from other Canadian universities to present the needs of Canadian universities to American corporations with business interests in Canada.

Following the meeting, Dr. MacKenzie travelled to Ottawa for a meeting of the Canada Council.

Key statement to set out campus development needs

Organization of the UBC Development Fund Campaign is proceeding apace under Paul E. Cooper, general chairman, and Howard N. Walters, deputy chairman. A large number of prominent British Columbia business and professional men have joined the committee and the complete slate will be announced shortly.

In accepting the chairmanship Mr. Cooper declared that a partnership of government and industry is necessary to provide the University with the facilities it desperately needs to meet present and future demands.

"I am proud to have a part in the University building development pro-

gram and I am happy that enthusiastic support is being offered by people in all walks of life," he said.

Mr. Cooper has rendered unique community service in the 35 years he has been associated with the forest industry in British Columbia. He is vice-president and former general campaign chairman of the Community Chest and director and vice-president of the Children's Hospital.

COMMUNITY SERVICE

Mr. Walters has also been active in community affairs for many years. He is a past president of the Vancouver Board of Trade, the Community Chest, and the B.C. Chamber of Commerce. He is a director of the Greater Vancouver Metropolitan Industrial Commission and the International Chamber of Commerce.

Campaign headquarters have been opened on the seventeenth floor of the B.C. Electric Building on Burrard Street in office space made available by Chancellor A. E. Grauer, who is honorary chairman of the campaign.

The key statement, which will later be published in pamphlet form, sets out the University's position and the reasons for the capital gifts campaign. It points out that UBC has never caught up with its building needs and that the expected doubling of enrolment in the next few years — 15,000 by 1965 — makes this a critical time in our affairs.

MAJOR PAMPHLET

When the major pamphlet is published it will be distributed to all members of the alumni, to leaders of business and industry and to individuals to whom the appeal is directed.

Advance canvass of key British Columbia and national firms and of special personal gift prospects will be undertaken this fall after the Community Chest effort is completed. The public appeal, including personal solicitation of all alumni, will take place in January and February.

LETTER TO ALUMNI

U.B.C. Development Fund,
October 4th, 1957.

Dear Alumni:

We know you will give your full and generous support to the U.B.C. Development Fund Campaign. Our appeal to industries and the public will succeed if we can show that alumni are doing their utmost to help U.B.C. in this crucial period of its development.

Most of you will know that a special appeal to alumni was planned for this Fall, prior to the general campaign in January and February.

However, we wish to make a maximum effort and this will require a great deal of organizing in British Columbia, throughout Canada and elsewhere.

We have, therefore, decided to postpone the alumni appeal until the first part of the new year.

The alumni personal canvass—in a very real sense the key to success of the whole campaign—will commence on or about January 6th, 1958.

We are confident that alumni everywhere will respond to this emergency call for help from the University, and we hope that regular supporters of the Alumni Annual Giving Programme will add their 1957 contribution to the extra-generous gift and/or pledge of 1958.

Yours truly,
J. M. Buchanan, B.A.'17,
Chairman, University Division.

W. Tom Brown, B.A.'32,
Chairman, Alumni Committee.

UBC to honour Six Canadians

Four leading British Columbia businessmen are among six distinguished Canadians who will receive honorary Doctor of Laws degrees (LL.D.) from the University at fall congregation October 25 at 2:30 p.m. in the armouries.

Dr. William Archibald Macintosh, vice-chancellor and principal of Queens University at Kingston, Ont., will receive a degree and give the congregation address.

DEGREE RECIPIENTS

Also receiving degrees are: Dr. John V. Fisher, economic adviser to the B.C. government; Harold Foley, chairman of the board of the Powell River Co. Ltd.; Leon J. Koerner, former president of the Alaska Pine Company Ltd.; W. B. Murrin, former president of the B.C. Power Corporation; and James Stewart, chairman of the board of the Canadian Bank of Commerce.

Ceremonies for awarding honorary degrees and degrees and certificates to 350 students completing requirements over the summer will this year centre around the newly-formed Faculty of Commerce and Business Administration.

CHANCELLOR'S INSTALLATION

Ceremonies will also be highlighted by the installation of Dr. A. E. "Dal" Grauer as Chancellor of the University to succeed Hon. Sherwood Lett, chief justice of the Supreme Court of B.C., who has completed his term of office.

Geophysics chair established

The Canadian Exploration Company has made a grant of \$5,000 to the University for the establishment of a Chair of Geophysics.

Dr. John A. Jacobs, formerly a member of the department of physics at the University of Toronto, is the first appointment to the Chair.

The grant will enable the University to develop this relatively new and rapidly expanding field of geophysics.

The work of Dr. Jacobs in the Physics department at UBC will be related to that being carried on in Physical Oceanography by Dr. G. L. Pickard and Dr. R. W. Stewart. He will also work closely with members of the Department of Geology who are interested in geophysics.

Dr. Jacobs studied at the University of London where he won several awards in mathematics. He has published many papers and one text-book on geophysics.

Business education

Institute could forge UBC-business partnership

The businessman occupies a unique position in contemporary society. On the one hand, there are publications whose entire contents are given over to his glorification, and on the other there is a plethora of magazine articles and books given over to his denigration.

This somewhat anomalous position has resulted, in recent years, in a number of conferences and round table discussions which have had as their objective a close examination of what the businessman does and what his goals should be in our society.

Now, UBC's newly-formed Faculty of Commerce and Business Administration has announced that it will sponsor an Institute, to be held in conjunction with Fall Congregation, to discuss "The Goals and Responsibilities of Business Education."

Businessmen themselves have often written that the graduates of our universities are not being properly fitted to take their place in business today. It should be interesting to hear what, if anything, they think the graduates of our universities lack and what steps are necessary to correct this situation.

Business leaders are becoming more and more aware that they carry social responsibilities. This theme will be the subject of an address by Harold Foley, chairman of the board of the Powell River Co., on October 21 before the Ad and Sales Club of the Vancouver Board of Trade. It is difficult to imagine a better audience or speaker.

Other distinguished businessmen, including Mr. J. F. Stewart, chairman of the board of the Canadian Bank of Commerce, Dr. J. V. Fisher, the B.C. government's economic adviser and Senator Donald Cameron, director of the Banff School of Advanced Management will participate in later panels which promise to be lively and stimulating.

To conclude the Institute Dr. W. A. Mackintosh, principal of Queens University and one of Canada's most distinguished economists and political scientists will describe the functions of a faculty of commerce. It is particularly fitting that he should do so in view of the fact that UBC's faculty will supply much of the trained man power necessary to make business here and elsewhere run efficiently.

The University, faced with the immediate prospect of doubling its enrolment in the next ten years, is planning for the biggest expansion in its history.

The case for a working partnership between the university and the businessmen of this province therefore takes on added urgency and relevance.

If such a partnership can be welded and business can be made aware that it must share in the task of education, the magnificent future which we are told B.C. faces is assured. If this partnership does not become a reality, the University may wither through inaction.

If the Institute, conceived and planned by Dean E. D. MacPhee, can fulfill this task it will have made a unique contribution to the future of British Columbia.

Letter to the editor

It's sheer beauty and it's all yours

Editor, UBC reports:

"There's more of beauty undiscovered than ugliness apparent."

To quieter souls—those who would prefer a somewhat less-densely-populated Stanley Park — we recommend the University Campus at sundown. No words of ours can express its silent majesty. Would you learn, it must be by presenting yourself.

No soot, no dust, no torn newspapers or other litter underfoot; no sirens, scarcely any cars; certainly no

souped-up "hotrods", and no cacophonous motorcycles.

This was our experience recently while watching sunset off The Lookout. Turning landward we came upon the local branch of the Royal Astronomical Society setting up its instruments in preparation for "keeping watch".

(We were courteously invited to look in on the planet Saturn with its faithful rings.)

If, like a lot of Vancouverites, you were brought up in a Prairie village or on a farmstead — places where night is night and means stars and silence, perhaps this is for you.

Irene Ronayne.

Commerce Faculty Result of Forty Years Effort

By E. D. MacPHEE

Dean of Faculty of Commerce and Business Administration

E. D. MacPhee

The establishment by this University, in 1956, of a Faculty of Commerce and Business Administration was the culmination of forty years of effort by various provincial groups.

Between 1917 and 1929, the Board of Trade of Vancouver, the Associated Boards of Trade of the province, the Kiwanis Club of Vancouver and other bodies persisted in representations to the Senate, the Board of Governors and the Provincial Government that a faculty of commerce and business administration be established.

The University was ready to move as soon as funds became available from private or public sources. By 1929 the provincial government agreed to provide the money, the Bachelor of Commerce degree was established, and courses in accounting, commercial law and marketing were made available to students in that session.

A Modest Beginning

The program began in a modest way. The late Mr. J. Friend Day, then in the Department of Economics and Political Science was appointed Associate Professor of Commerce and Economics. The first candidate for the degree of B.Com. was Mr. Kimball Nichols, at the May congregation in 1931.

For ten years "Commerce" was a group of courses within the Department of Economics. In 1939, Professor Ellis H. Morrow was appointed Head of a Department of Commerce. On his retirement in 1950, Professor E. D. MacPhee became the Director of a School of Commerce, still within the Faculty of Arts and Science.

In 1956, the University authorities decided that because of the size of the School and the complexity of its programme, Commerce should be given senior independent status as a Faculty of Commerce and Business Administration.

University Honours Conferred

It is the custom of the University at its Congregations to recognize significant educational developments and to honor distinguished citizens who have contributed to this growth. The establishment of a Faculty was obviously of historic importance to the business community and to those professionals whose major education derived from the work of that Faculty. It was deemed fitting to recognize the occasion by conferring University honors on some eminent Canadians and by holding a symposium on Business Education.

The student body now consists of 600 undergraduates, fifteen graduates and 1600 diploma students. It has twenty-three full time faculty members and a large number of part-time lecturers. It has become the largest degree-granting school of business in Canada. Its program has become extensive and diversified to meet the educational requirements of the many professional and technical groups it serves. It has achieved many of the goals of those who helped to found it forty years ago.

But the time has come for a critical look at the goals and responsibilities for business education in Canada with special reference to this province and this University. The purpose of the Institute is to provide an opportunity for such a review.

Is the programme becoming too professional? too specialized, are our graduates being adequately prepared for adult living?

Discussion By Businessmen

These and similar issues will be examined by a distinguished group of business and professional men. On Monday, October 21, Mr. Harold Foley, Chairman of the Powell River Company, will be speaking at the Board of Trade luncheon on "The Social Responsibilities of Business." On Thursday afternoon and Friday morning in the Westbrook Building, University Campus, Dean Chant and Dean Gunning of the University faculty, Mr. James Stewart, Chairman of the Board of the Canadian Bank of Commerce, Dr. J. W. Fisher, Economic Advisor to the Minister of Finance and Senator Cameron will present papers dealing with these questions.

Each panel will be followed by a discussion. Members of the University teaching staff, graduates and business and professional men are cordially invited to attend and participate in these sessions.

MRS. R. P. MILLER, registration clerk, is swamped but cheerful as re-registering students fill administration building. New system of distributing eligibility forms will be inaugurated next year to speed up registration process.

Registration may top 8800; Lab situation 'critical'

UBC's registration figure this year is expected to top the 8800 mark, an increase of 1100 students over last year.

At press time 8795 students had registered and it was expected that a few latecomers would swell the total to 8800 or better, the Registrar's office stated. This figure is only 574 short of the all-time registration high of 9374 students following World War II.

UBC awarded grant to pioneer adult education program

The University has been awarded a \$32,000 grant from the Fund for Adult Education, an independent organization established by the Ford Foundation, to establish a liberal arts centre on the campus.

UBC has been chosen as the first Canadian institution to pioneer a liberal adult education program under such a grant. Similar programs are now being tried experimentally in colleges and universities in nine U.S. cities.

DISCUSSION PROGRAMS

Program will be called the "Study-Discussion Program in the Liberal Arts". First project begins early in October with discussion programs one evening a week on five topics.

Initial topics will include: The Ways of Mankind, Discovering Modern Poetry, Aging in the Modern World, An Introduction to the Humanities, and Parenthood in a Free Nation.

Grants from the Fund will extend over a three-year period. At the end of that time it is expected that the program will be sufficiently developed to lead to a permanent liberal arts centre at UBC.

DR. FRIESEN NAMED

Dr. John K. Friesen, director of the Extension Department is chairman of a University advisory committee which will co-ordinate all university activities in liberal adult education and work toward the establishment of the centre.

UBC graduate, Knute Buttedahl, former executive-director of the Vancouver Civic Unity Association, a Community Chest agency working in race relations, has been appointed to administer the new program under the direction of the Extension Department.

Final registration figures will not be published until January when second term students will increase the total slightly.

Every faculty has increased its numbers but only in second year arts has the total surprised officials. This is due, they explained, to students continuing in the faculty towards a Bachelor of Science degree, which was instituted this year.

The increased number of students means that labs on the campus will be working to capacity all year. One first year chemistry section will carry out experiments from 7 to 10 p.m.

Chemistry department officials were working until midnight during registration week arranging lab schedules and trying to find accommodation elsewhere on the campus.

Lab situation was described as "critical" by an official in medicine. "Everything we have is being used to the hilt and matters are made worse by the fact that facilities are scattered over the campus", the spokesman said.

Dr. G. M. Shrum, head of the department of physics, said facilities in his department were being used to capacity. "We are also very short of lab assistants," he added.

Electrical Engineering gets unique engravings

Eleven steel plate engravings of pioneers in science and engineering have been donated to the Electrical Engineering Dept. by Mr. Alexander Riddle.

The engravings are unique in that the process by which they were made is no longer used. They have been in Mr. Riddle's possession for over 50 years.

Among scientists pictured are Herschell, Davy, Watt, Galileo and Halley.

UBC's Forest near Haney solves knotty problems

On a dense tract of forest 36 miles from UBC, the provincial government, private industry and the University are co-operating to solve the knotty problems facing forestry today.

Reward System for scientists needed

Russia is turning out as many scientists as the rest of the world put together and if we are going to catch up to them we must adopt some of their techniques in education.

These are the impressions of Dr. Cyril Reid, of UBC's Department of Chemistry who has just returned from a conference on the origins of life held in Moscow during the summer and attended by delegates from 16 countries.

Dr. Reid, who presented a paper at the conference on the creation of amino acids, said the Russians appear to be much more science conscious than the West. "Their whole society is geared to interest young people in science," he said.

Asked what the West could do to make a career in science more attractive, Dr. Reid said it might be helpful if some system of rewards was instituted. "The Russians have some very naive methods, such as medals and prizes, but these rewards do have an effect," he said.

He thought the West's chief advantage lay in the fact that our thinking was more flexible and allowed us to criticize scientific methods and techniques.

Tucked away in the municipality of Maple Ridge four miles north of Haney in the Fraser Valley, a staff of eight people are working intensively at the University Research Forest on such problems as forest management, fire protection, and disease and insects.

Almost nine-tenths of the 9774-acre block of land, a gift of the provincial government to the University in 1949, is productive land. On it are demonstrated the application of sound forestry principles.

To most people forestry simply means tree planting and fire protection. But to UBC's forestry faculty it is much more. The fight against disease and insects, increasing the yield of forests, economic harvest of the crop and intelligent use of wood products are some of the studies undertaken at the research forest.

The forest has been a boon to research in the province, and since 1949 many projects have been carried out. Private industry has provided some of the money for the projects dealing with forestry research methods, wood quality, thinning and soil science.

The forest also serves as a training ground for University students and forest engineers. Every year in May third-year forestry students attend a four-week camp. The camp includes work in silviculture, forest measurement, surveying and forest engineering.

faculty activities

UBC professors globe-trot

Dean Gordon M. Shrum is member of a four-man trade mission headed by Minister of Industrial Development, Hon. Robert Bonner, which is visiting the United Kingdom and West Europe to encourage the establishment and development of more secondary industries in B.C.

Dr. Ian McTaggart-Cowan, head of the department of zoology, will lead a Canadian delegation of ten to the 9th Pacific Science Congress in Bangkok, Thailand, Nov. 16 to Dec. 9.

Dr. C. E. Dolman, head of the department of bacteriology, Dr. R. F. Scagel, an expert in oceanography, and Dr. C. C. Lindsay of the department of zoology will also attend the conference.

Dr. Joyce Hallamore, head of the department of German has returned from a three and a half month trip to Germany and Austria where she travelled some 6000 miles by car exploring little-visited areas and towns. Dr. Hallamore represented UBC at the 500 year anniversary of the founding of Freiburg University, and attended an international conference on literature at the University of Heidelberg.

UBC graduate Jim Banham has succeeded Ed Parker as Information Officer for the University. He graduated from UBC in 1951 and has lived in England for the past three years where he was a sub-editor for the Daily Express.

Prof. Harold V. Livermore, former educational director to the Hispanic Council in London, Eng. has been appointed to the staff of the Department of Romance Studies.

Dr. Joseph Crumb represented the department of economics at the annual meeting of the Western Economics Association in Salt Lake City.

Dr. Theodore Boggs, first head of the department of economics also attended the meeting and received an honorary life membership in the association.

Dr. Gordon Jerome Chapman, who comes to UBC from the University of St. Louis, has been appointed professor and chairman of the Division of Marketing in the Faculty of Commerce and Business Administration.

JIM BANHAM
... information officer

Extension Department to give communications course

The Department of Extension will offer a course in communications, the first of its kind to be associated with a university in Canada, beginning Jan. 15.

The project resulted from discussions indicating the need for providing staff for the increasing demands of radio and television. The

Homecoming 2-day affair this year

Faculty-Alumni reunions will highlight Homecoming festivities on Friday and Saturday Nov. 8 and 9.

Homecomers will be invited to view changes in their faculties and departments and visit with members of the staff Saturday morning.

The Great Trek Dinner, celebrating the 35th anniversary of the historic trek of 1922, will be held in Brock Hall Nov. 8 at 6:30 p.m.

Annual Homecoming luncheon Nov. 9 will be followed by a football game between the Thunderbirds and Central Washington. Luncheon Price: \$1.50.

Festivities will close with the traditional Homecoming Ball in the Armouries Nov. 9. Price: \$1.50.

Classes '27, '32, '37, '42, and '47 will hold reunions at Homecoming this year.

Members of Law Faculty active at convention

Five members of the Law Faculty took an active part in the annual convention of the Canadian Bar Association held during the first week of September at Banff, Alta.

Dean George F. Curtis, who is chairman of the International Law Commission, chaired a panel discussion on the Columbia River Development.

Prof. C. B. Bourne and Mr. Leon Ladner, Q. C., special lecturer in law, were both members of the panel.

At another meeting, Prof. A. W. R. Carrothers, presented a paper citing the need for legislative action to establish a policy on the lawfulness of picketing.

Prof. R. C. Herbert acted as secretary to the Civil Justice Committee.

Victoria alumni set date for annual dance

Victoria Branch of the Alumni Association will hold its annual dance Nov. 1 at Club Sirocco.

Tickets (\$4 per couple) may be bought or ordered from Mr. R. W. Riddle, 1010 Yates St., Victoria.

ten week non-credit course, to be directed by representatives of B.C. broadcasters and the Department of Extension, will specialize in radio, television and film.

Everyone desiring to participate will be accepted, but preference will be given to university students and those now in the industry.

EVENING CLASSES

Enrolment in approximately 100 non-credit evening classes offered by the Extension Department is expected to reach a record high of more than 4,000.

Fifteen courses carrying credit toward a Bachelor of Arts degree will be given in evening lectures this year.

Some 450 students are expected to register for credit courses in English, history, psychology, philosophy, mathematics, Slavonic studies, sociology, German, French, political science and physical education.

In addition a program of "in-service" courses for teachers carrying credit toward teaching certificates and toward the Bachelor of Education Degree will be sponsored by the College of Education on the campus and in 13 centres throughout B.C.

DRAMA

Extension Department drama instructor Sidney Risk is on an extended tour of the province spending a few days or weeks in various communities to give short courses in all aspects of theatre from make-up to management.

Holiday Theatre is also touring the province with the children's play "Alladin and his Wonderful Lamp".

Students purchase Canadian paintings

Canadian art collection purchased by UBC students will be unveiled at ceremonies opening the extension to Brock Hall, Oct. 22.

Works of E. J. Hughes, John Korner, Takao Tanabe, Tom Hodgson, Jacques de Tonnancour and Lawren Harris are represented.

The paintings will be exhibited in the link which joins the old and new Brock buildings.

The collection, patterned after the Hart House collection at the university of Toronto, is financed by a ten-cent per student levy and is a continuing project.

In 1955 a joint student-faculty committee was set up to develop the collection initiated by a grant from Lawren Harris.

WAYNE AITKEN
... thundering 'Bird

'Birds beaten twice but season young

UBC's Thunderbird football team has played two and lost two. But the season's still young.

They went down to Western Ontario Mustangs in the Churchill Cup Game 54-0.

In an exhibition home game Sept. 28 against Southern Oregon Red Raider 'Birds lost 44-0. However, six first string men were out with injuries and flu.

Rugby coach Albert Laithwaite reports the best crop of players he's had in a long while.

A number of fine players from England and Australia and one star from Argentina are at UBC this year, he says.

The Varsity Soccer team will be coached by Hungarian Frank Kurac, Faculty of Forestry, Sopron Division.

Rowing crew will soon have two new work-out barges which are being built by UBC Department of Buildings and Grounds. Each barge holds 16 oarsmen with room for the coach to walk down the centre.

Alumni hunts for graduates

The Alumni Association wishes to thank UBC Reports readers for their continued cooperation in tracing missing grads.

Listed below are more Arts alumni (B.A.'s) for whom the Association lacks current addresses.

Please fill in the form at the bottom of the page if you know the whereabouts of any of the people mentioned.

(Maiden names of married students are given in brackets. Year of graduation follows name.)

Winifred B. Bingham, '36; Edward Arthur Bird, '49; Mrs. Reilly Bird (Lillian Mathers), '29; Barbara Edna Black, BA'51; Georgina M. Black, BA'33; Mrs. H. A. Black (Wilberta McBain) BA'29; Phyllis Wilbur Black, BA'37; Rev. David Wm. Blackhaller, BA'34, MA'38.
