EDITOR'S NOTE

In the hope of making this little booklet of even greater service to its readers, several changes have been made this year. Additions and revisions have brought it as up to date as possible.

New students will find the Handbook contains much valuable concise information and would do well to read it through completely. Insofar as it helps them to adjust themselves more quickly to strange surroundings will it have served its purpose.

HINTS TO THE FROSH

1. Carry a copy of the Handbook all the time. Read it right through; you need the information it contains.

2. Attend all Alma Mater Meetings.

3. Learn the U. B. C. songs and yells.

4. Use the freshman information bureau. It's there to help you.

5. Watch notice boards and the "Ubyssey" for notices of clubs in which you are interested.

6. The best way to get in touch with anyone is through the Arts Letter Rack.

7. Talk over your problems with your dean. First year women are especially urged to consult Dean Bollert on all their Varsity problems.

8. Put all your spare interest into some activity; Varsity will mean ten times more. Attend as many University affairs as you can.

9. Do your work every day. Keeping up is easier than catching up.

10. Remember: this is your University. First loyalty comes to it and its activities.

PRESIDENT'S FOREWORD

This Handbook, which is published by students for students, is issued in the hope that it will be of special service to the newcomer. It aims to provide information which will enable the new student to reach an informed decision with respect to the relative value which membership in the different teams, clubs and societies has to offer.

All too frequently students fall into the error of regarding participation in these distinctively student organizations as the antithesis of the work done in the lecture room and in the laboratory. Such activities are accordingly unduly despised by the bookworm and are excessively popular with the intellectually indifferent. The student with a due sense of proportion will never allow himself to become the victim of conflicting interests.

To all students, new and old, I extend the University's cordial welcome, and express the hope that in this Handbook they will find a guide to profitable activity and pleasant association.

L. S. KLINCK,
President.

DAVID E. CAREY
President, Alma Mater Society

A.M.S. PRESIDENT'S MESSAGE

May I, as another undergraduate, welcome you the class of 1941, to this University. As Freshmen you are entitled to all the privileges that the University offers — but at the same time in your hands rests her future reputation. Very recently Sir Edward Beatty said: "The fact that modern education is solving the problems facing our country today has long since been exploded as a myth. Canada is not producing from her schools dividends that justify the huge sums invested in them." I believe that out of this University can arise the kind of leadership that will be capable of solving the adverse conditions in our province and country, but it can only be achieved when we start thinking of other people in a totally new kind of way.

University life has everything to offer you. What you make of it is "up to you." (Tuum Est.)

DAVID E. CAREY.

HISTORICAL SKETCH

In 1890 the Provincial Legislature passed an Act establishing a body politic and corporate named "The University of British Columbia". No material progress was made, however, until 1894, when an Act was passed which permitted the affiliation of high schools in the Province with recognized Canadian Universities.

In 1899 Vancouver High School was affiliated with McGill University in order to provide first year work in Arts, and took the name of Vancouver College. First year work in Arts was offered by Victoria High School when it became Victoria College by affiliating with McGill University in 1902. In the same year Vancouver College undertook the second year in Arts.

In 1906 an Act was passed incorporating the Royal Institution for the Advancement of Learning of British Columbia, which in the same year established at Vancouver the McGill University College of Vancouver and Victoria College which was part of it ceased to exist.

Definite steps to establish the University were taken by Dr. H. E. Young, Minister of Education, in 1907, when he introduced a "University Endowment Act." This Act was followed in 1908 by an Act establishing and

incorporating the University of British Columbia and repealing the old Act of 1890-91. This Act with its subsequent admendments, determines the present constitution of the University.

A site commission, appointed in 1910, recommended the vicinity of Vancouver and in the following year the Point Grey site was granted to the University. The grant now consists of 548 acres at the extremity of Point Grey. The waters of the Gulf of Georgia form more than half the boundary of the University campus. A tract of some 3,000 acres of Government land immediately adjoining the site and lying between it and the City of Vancouver has been set aside by the Government in order that University revenue may be provided by sale or lease.

The first Convocation, held on August 1st, 1912, chose Mr. F. L. Carter-Cotton as first chancellor of the University. In March, 1913, the Lieutenant-Governor-in-Council appointed as President of the University, F. F. Wesbrook, M.A., M.D., C.M., LLD. On April 4th, 1918, Dr. R. E. McKechnie, the present chancellor, was elected.

On the death of President Westbrook October 20th, 1918, L. S. Klink, Dean of the faculty of Agriculture,

was appointed Acting President, and on June 1st, 1919, President.

From its opening in 1915 till the summer of 1925, the University carried on its work in temporary quarters on part of the site of the General Hospital in Fairview.

Construction work was commenced on the Science Building at the Point Grey site in 1914, but was interrupted because of war conditions. Work on this building was resumed in 1923, shortly after the great Student Campaign. The Science Building and the Library, as well as nine other buildings, were completed and ready for occupancy in the fall of 1925.

The inauguration of the new buildings was held on October 15th and 16th, 1925, on which occasion honorary degrees were granted by the University for the first time.

The gymnasium was completed in 1929 and presented to the University by the Alma Mater Society.

In 1931, due to the efforts of the students, largely in their "Stadium Campaign," an excellent playing field was constructed on the campus. This past summer, a fine concrete stadium, capacity 1,600, complete with showers, badminton courts and offices, together with bleachers, capacity 1,000, was erected to fulfill long-needed seating requirements.

LOST AND FOUND

The Students' Council Office, 303 Auditorium, is the office of the Lost and Found Bureau.

FRESHMAN INFORMATION BUREAU

An information bureau for the purpose of advising in-coming students on proposed courses and extra-curricular activities may be found in the Administration Building from one week before opening of the University (September 20) till three days after. The personnel of this bureau consists of eight members of the Alma Mater Society, preferably seniors; the Junior Member; the President of the W. U. S.; President of M. A. A.; President of A. M. U. S.; President of S. M. U. S.; and President of Ag. M. U. S. and two members to be appointed by Council.

Freshmen are requested to apply to this bureau for advice during the specified time although certain members will be on call for a week after the opening of the University.

The W. U. S. will also have an information bureau for women, composed of the executive and committees, in the lower hall of the Arts Building during first few days of the term.

FRESHMAN INITIATION

Freshmen will get their insignia at Room 303, Auditorium Building.

STUDENT PASS SYSTEM

This term, a student pass system is being inaugurated whereby in exchange for a slight increase in the A. M. S. fees a pass is given each student entitling him to admission to certain Varsity affairs. These include such events as major athletic meets and games, Players' Club and Musical Society productions, debates and class party. The pass is not transferable.

RADIO BROADCASTS

In an endeavour to make still stronger the link with the general public, a series of radio programmes have been arranged to be broadcast weekly this fall from a local station. The students themselves, working under the L. S. E., will be in charge of the broadcasts, which, of a half hour's duration, will include drama, debates, music, short papers and varieties. The success of such a venture is highly important, but depends largely on the co-operation and enthusiasm of the student body.

NOTICE BOARDS

Notice Boards are placed in every University building and in the space between the Arts and Auditorium Buildings (the Quad.). Students are

at liberty to use them. Some boards are reserved for the use of clubs. The official Students' Council Notice Board is on the South stairway in the Auditorium Building.

MAIL

Mail is received twice daily on the campus. General student letter racks are situated in the lower hall of the Arts Building. The letter rack for clubs and societies is at the head of the south stairway in the Auditorium Building. The official address is "The University of British Columbia, West Point Grey, B. C."

"UBYSSEY" CIRCULATION

The "Ubyssey," published on Tuesdays and Fridays is distributed in the halls of the Arts, Agriculture, and Applied Science Buildings.

TELEPHONES

Pay phones are installed in all University Buildings. The toll is five cents to the city exchange.

SCHOLARSHIPS

Information regarding scholarships, medals and prizes may be found in the calendar.

BOOK STORE

The Book Store which occupies a room in the Auditorium Building is prepared to supply all the text books required for the various courses offered in the University, also fountain pens, note books, loose-leaf refills, drawing paper and instruments. The book store is open from 9 to 5 on week days and 9 to 1 on Saturdays.

EXCHANGE SYSTEM

The National Federation of Canadian University Students has arranged a scheme whereby a Canadian University Student, without extra charge to himself, may obtain a years study at a university in another part of Canada.

A selection committee composed of a member of faculty and two students shall nominate, on application, any number of students not exceeding one per cent. of the enrolment. The student desiring to take advantage of the scheme must have completed at least two years of study, with at least second Class standing in the

second year, be an undergraduate below the final year, and be representative in a general way of the student body.

Through the co-operation of various university authorities it is provided that exchange students are exempt from tuition fees which except in extreme cases is more than sufficient compensation for the railway fee involved in effecting the exchange.

The President of the Students' Council is the representative of the N. F. C. U. S. and can give full information respecting the Exchange System.

UNIVERSITY EMPLOYMENT BUREAU

The bureau endeavours to provide students with summer employment and part time work during the winter session as well as helping students obtain employment after graduation. Those who know of vacant positions are requested to notify the bureau. All correspondence should be addressed to "Employment Bureau, Registrar's Office."

STATUTE OF PROHIBITION

April 10th, 1935

The Senate of The University of British Columbia, under the powers conferred by the British Columbia University Act and amending Acts, enacts as follows:—

WHEREAS students of one year's standing in the University have been wont heretofore to initiate new students by the practice commonly called "hazing", at times injurious, and students generally have indulged in inter-faculty clashes and other activities which had a tendency to cause injury to property and persons:

AND WHEREAS it is desirable to prohibit all such practices and to preserve order and good government within the authority of the University and the precincts of the Campus;

BE IT THEREFORE RESOLVED AND ENACTED as follows:—

1. All forms of initiation or clash of students which in any way are or tend to become injurious to any person or property, committed by any student anywhere or by any person upon property under the control of the University, are hereby absolutely prohibited.

POINTS OF INTEREST

The Canadian Jubilee Memorial Windows are situated at the western end of the main concourse in the Library. Presented to the University by an unknown donor the windows were unveiled on November 28, 1928, by the Hon. S. F. Tolmie, Premier of British Columbia.

Inside the main doorway of the Science Building are two war memorials — one to commemorate the supreme sacrifices and willing services of the members of the "'D' Co'y. 196th Battalion, C. E. F., Western Universities, in the Great War, 1914-'18;" and the other "in honor of the B. C. reinforcing platoon, 196th Western Universities Overseas Battalion, C. E. F."

The Sun Dial, with its oblong face and engravings of the Cairn and the Lions, is a familiar object to all visitors of the Botanical Gardens. It was presented to the University in 1926 by B. S. Hartley (professor of Mathematics, retired 1931) who designed it especially for the position in which it now stands.

The Library of the University contains the most complete representative Polynesian collection of curio relics in the world. It was collected

by Dr. Frank Burnett, who during a period of 35 years, sailed around the cannibal islands in the South Pacific. Bill Tansley superintends this museum.

The University Stamp Collection comprises the postage stamps of Canada and the early British North America colonies. It contains many stamps dating from the time of Queen Victoria until the present day. This collection is not yet complete and all new contributions will be welcomed. Those interested may have access to the collection through the registrar.

The beautiful memorial Japanese Lantern and Garden situated near the botanical gardens was presented by the friends of Inazo Nitobe to the University. On August 29, 1935 the University made formal acceptance of this memorial to a great student and an apostle of international goodwill.

The Totem Poles, now situated in the Botanical Gardens were presented in 1927 by the Alumni Association. They are from the Musquiam Reserve, Point Grey and are the last two of the tribe. The Pole on the right is the Capilano Pole, a carving of the famous Capilano Chief; on the

left is the Tsem-Lano Pole, symbolic of the magical powers of Tsem-Lano, a great Musquiam warrior.

A series of paintings by John Innes which hang in the Library, represent early scenes in the history of British Columbia.

The Geology Museum is located in the southern wing of the Applied Science Building. It contains valuable and interesting material illustrative of both physical and historical geology and new additions are constantly being made.

The Cairn was first set up as a memorial of the province wide campaign in 1922, when a group of enthusiastic students marched from Fairview to Point Grey in an endeavour to have the university site moved from the Fairview shacks.

The Cairn service for Freshmen which was inaugurated in 1928 has become a tradition at the University.

Through the efforts of Mr. John Ridington, University Librarian, an extensive art collection composed of 185 volumes, 200 reproductions and 40 large pictures specially framed were donated to the University by the Carnegie Corporaion in New York. This collection has been installed in the Art Room of the library.

Another gift of the Carnegie Corporation to the University is the Library of Congress Catalogue, situated in the main lobby of the Library. This Catalogue, a collection of more than 1,500,000 printed cards, is valued at $65,000. There are only two others in Canada.

This past spring, the University was made the recipient of an unique gift in the form of a valuable collection of animal heads, now mounted in room 100, Applied Science Building. The heads are exceedingly fine specimens of big game to be found in the wilds of B. C., and were collected and presented to the University by a local man, Mr. G. L. Pop, world-famed big game hunter.

A long-needed addition to the University is the Stadium, on the playing field, built during the summer months. The main section, of concrete, and seating 1,600 persons, is completely up-to-date, containing showers, chafing rooms, handball courts and offices. It was constructed with the idea of being the central unit of a modern stadium. Two wooden bleachers each seat 500. The total, costing $40,000, was financed by a bond issue.

BOOK EXCHANGE

This bureau operates to exchange second-hand books between students in the most convenient manner possible. It operates under the supervision of council who appoints its manager. The office of the exchange is located in the basement of the Arts Building, south west corner of the quad.

Applications for the position of manager and assistant manager for the book exchange will be received by council. These positions will be given to those for whom the remuneration will be the greatest value.

REGULATIONS OF THE BOOK EXCHANGE

Books are only accepted for resale on the following terms and on the understanding that the depositing of books by the student constitutes an acceptance by him of those terms:

1. The Book Exchange will be open for a period of three weeks at the beginning of each term for receiving books. Dates to appear on notice board and in the Ubyssey.

2. A Receipt will be given for all books received, but no guarantee is made that all books can be disposed of.

Care should be taken that this receipt is not lost.

3. The Receipt Number will be placed in the front page of each book and the student's name listed alphabetically in Index book provided—Receipt Number to be shown against this name.

4. At the end of advertised three weeks, Cash Vouchers will be made out for all books sold to date showing amount received for each book. A deduction of ten per cent. within the nearest five cents will be made for the service of the Book Exchange. Students may obtain these cash vouchers from the Book Exchange on presentation of the receipt, on a day to be specified by notices on notice boards and in the Ubyssey.

5. Cash Vouchers will be cashed on presentation at the General Office of the Alma Mater Society. Care should be taken that these Cash Vouchers are not lost as duplicates cannot be obtained.

6. Books not sold during the fall term can be left with the Book Exchange for sale during the spring term.

7. The Book Exchange will close for the year on May fifteenth. All books not sold must be reclaimed by

that date, also all cash vouchers must have been cashed by then, it being fully understood by the depositor at the time of depositing, that all books and money unclaimed by May fifteenth shall become the property of the Alma Mater Society.

DO NOT LOSE RECEIPT OR CASH VOUCHER.

UNIVERSITY HEALTH SERVICE

The University Health Service, located in 306 Auditorium Building, is for the prevention of communicable diseases, to render first aid in cases of accidents and sudden sickness, and to furnish advice about health matters to the general student body.

All students entering the University for the first time must report immediately to the Health Service, making an appointment for examination. Students neglecting so to do, will be disciplined by the University Health Committee.

DISCOVERY OF INFECTIOUS PERSONS

All cases of illness, including a common cold, developed during the academic year, must be reported to the Health Office at once; if on the campus, personally, otherwise by phone. After an illness, students must report to the Health Office for ins-

pection before re-admission to the University.

Students exposed to any infectious disease must report immediately to the Health Officer, who will determine further steps to be taken, dependent on infectiveness of the student.

DISPOSAL OF INFECTIOUS PERSONS

All persons reasonably suspected of infectiveness are excluded from contact with others until shown to be non-infective or if shown to be infective until the actual termination of such infectiveness.

All university contacts of infectives are to report to the Health Office for determination of susceptibility, and are to be excluded while there as a possibility of developing the infection.

In order to minimize loss of attendance, contacts may arrange daily inspection at the Health office during the period of potential infectiveness. Failure to report will result in immediate expulsion from the University.

LIABILITY FOR ATHLETIC INJURIES

The University Authorities, the Alma Mater Society, or any subsidiary club or organization do not assume any responsibility for the payment of

damages, doctor's bills, or hospital expenses resulting from injuries to players or participants in athletics. Any compensation shall be deemed to be a voluntary contribution at sole discretion of Students' Council.

All applicants for this voluntary contribution must fill out an Accident Report Form immediately, in order to receive a hearing of their request. These forms may be obtained from the University Health Service Department, Aud. 306, the office of the Business Secretary, Aud. 303, or from doctors selected by Council. Further, the applicants must be attended by those doctors selected by Council.

SOCIAL EVENTS

Freshette Supper—During the initiation period, freshettes are entertained at a supper. This function generally takes the form of a children's party to which the freshettes are escorted by their "big sisters."

Frosh Smoker—An evening with pipes, tobacco, cider and masculine entertainment welcomes the Freshmen during the initiation period.

Frosh Reception—A dance is given about the end of the second week in the fall term in honor of the incoming students. The freshmen are ex-

pected to mingle with members of the upper classes. Introductions are not necessary. One ticket only is allowed each undergraduate. During the evening the freshmen are formally received as members of the student body and until this ceremony the green insignia must be worn.

Home-coming — The Annual Home-coming week-end is celebrated early in October. It is intended to bring the Alumni in closer contact with the students and includes various entertainments in honor of the graduates.

Christmas and Spring Plays — Late in the fall term the Players' Club presents four plays (including the student prize play) in the Auditorium, for students only. Admission is free. Early in March the club also presents a Spring Play which is open to the public, and for which admission is charged.

Hi-Jinx — .During February the Women's Undergraduate Society arranges a fancy dress party for women students only. A small admission fee is charged. Any male student attending this dance in disguise does so at the risk of his personal safety.

Class Parties — Each class of each faculty is allowed to hold one class party during the year. Only members of the class holding the dance are admitted. Class fees pay for these dances.

Undergraduate Balls — Each faculty is allowed to give one general dance during the year. Of late the supply of tickets for these balls has been limited.

Musical Society Concert — Each Spring the Musical Society gives a concert in the Auditorium to which the public is invited. Several light operas have been staged. An admission fee is charged.

Co-ed Ball — During the latter part of February the W. U. S. sponsors a sports dance to which the women students escort the men.

FRATERNITIES

Fraternities and sororities are groups of students with common ideals and a liking for one another, organized into secret societies of from fifteen to forty members. "Rushing," the system whereby these organizations contact prospective members, is carried on according to rules agreed to by all the fraternities. It consists of members contacting 'rushees' through social affairs in order to become acquainted with him. At the end of the

rushing season if the fraternity decides it wants the person as a member one of its members gives him a 'bid' or invitation to join.

From the prospect's point of view the rushing season is an opportunity to form an impartial opinion of the various fraternities. It is extremely important to him if he joins a fraternity at all to join one whose members he really esteems as individuals, and whose ideals are similar to his own. Otherwise fraternity life will be a total failure. The prospect often finds it very difficult to make up his mind, particularly if a number of fraternities are rushing him. If he is not very enthusiastic about the ones that are rushing him he will be much wiser to refuse their bids as a more desirable one may rush him later. Some students are bid as late as their fourth year.

The rushee should thoroughly investigate the fraternity question before joining. Information regarding financial obligations involved — which are considerable — may be obtained from any member of the fraternity rushing him.

Whether he joins a fraternity or not he should always remember that he owes first loyalty to his university and its activities.

STUDENTS' COUNCIL

The Students' Council is the governing body, its nine members being elected late in the spring term. This body meets every Monday night during the term to discuss all motions for student welfare. The presidents of the Men's and Women's Undergraduate Societies, the presidents of the Men's and Women's Athletic Associations and the president of the Literary and Scientific Executive represent definite bodies of student opinion. A Junior Member is elected to direct the affairs of the freshman class during the first term. These members bring up matters relative to their own subsidiaries but are expected to know and discuss matters outside their own spheres.

Each of the subsidiary clubs submits a budget to Council early in the fall term. Budgets are then alloted by the council which may make additional special grants at its own discretion.

Each club has its own executive elected by its members.

Two regular meetings of the Alma Mater Society are held each year, one in the first two weeks of the fall term and one during the last week in March.

At these an account of student affairs is placed before the student body and matters of special importance are discussed from the floor to enable Council to ascertain the wishes of the majority.

The Publications Board was formerly represented on Council but is now a semi-independent body, the editor-in-chief of which holds an "A" office.

UNDERGRADUATE SOCIETIES

The Women's and Men's Undergraduate Societies are composed of all the undergraduate students, as membership is automatically conferred on all students entering the University. Subsidiary to these societies are the class organizations.

Each faculty, also, has an undergraduate society; Art's Men's Undergraduate Society, Science Men's Undergraduate Society and Agriculture Men's Undergraduate Society.

These societies are mainly social in function and sponsor faculty balls and their own special functions.

The Presidents of these five societies are members of a standing committee on discipline. (Article XII Code of A. M. S.)

MEN'S UNDERGRADUATE SOCIETY

The executive of the M. U. S. is composed of: President, Secretary-Treasurer, Presidents of the Art's, Science and Agriculture Men's Undergraduate Societies. Class Presidents are not members of the M.U.S. but of the undergraduate society executive of the faculty to which they belong.

WOMEN'S UNDERGRADUATE SOCIETY

The Executive of the W. U. S. is composed of an Honorary President,

President, Vice President, Secretary-Treasurer, President of Nursing, Vice Presidents of the undergraduate classes in Arts and Education. A representative from Agriculture and the President of Phrateres. There are also four standing committees on Reception, Finance, Entertainment and Publicity.

The W.U.S. sponsors Hi-Jinx, Co-Ed and a tea dance the proceeds of which go to the Union Building Fund.

For the benefit of the freshettes the Society assigns each new-comer a "Big-Sister" who is responsible for making her familiar with campus activities. The list of Big and Little Sisters is posted on the W. U. S. notice board during the first week of the fall term. Functions sponsored by the W. U. S. for welcoming freshettes are: the Freshette Supper, and Senior-Freshette tea, to which newcomers are escorted by their "Big Sisters" and Out-of-Town women's class teas. The executive sincerely wishes that the feeling of strangeness experienced by freshettes may be entirely replaced by one of comradeship.

The "Ubyssey" began publication in 1916 as a monthly magazine and is now entering on its tenth year as a twice weekly journal. It appears every Tuesday and Friday noon except in examination weeks. The "Ubyssey" is the official university newspaper and deals with current college events. It is managed entirely

The "Handbook" is published for the benefit of the new students and contains rules and regulations of student government and campus activities.

Athletics

ATHLETICS

University Athletics exist to prevent the unhealthy condition resulting from the indoor work of the student. The object is not to train star athletes but to develop young and inexperienced athletes. An extensive program of physical education was arranged last year under the supervision of competent instructors, and all students are urged to attend the classes provided.

There is an opportunity for everyone to take part in whatever sport he desires as teams of all calibres are organized. Places on teams are given, without favoritism or prejudice, to the best man.

Those who are not capable of active physical participation may obtain positions managing these teams.

No student is allowed during the session to take part in athletic competitions or games for any team or other organization other than a University team without the consent in writing of the Men's or Women's Athletic Association approved by resolution of the Students' Council.

Freshmen are allowed to play on any team on which they can win a place and freshman classes in the past have had men on first teams

in every sport. Watch the notice boards and turn out!

PHYSICAL DIRECTORS

Appointed last year to supervise men's and women's athletics on the campus, Maurice Van Vliet and Miss Gertrude Moore together have done considerable to stimulate student interest in physical education, appealing mainly to the large body of students who would ordinarily take no part in any form of athletics. Organized gym classes, tumbling, wrestling, badminton, archery, are all part of an attempt to promote health and physical well-being on the campus. Their offices are located in the Gym Building, where students may obtain schedules of classes.

INTER-CLASS ATHLETICS

The Governor's Cup donated for Men's Inter-Class Athletics is competed for by all the classes in almost all sports. The main events are Art's '20 relay held each spring and the Art's '30 Inter-Faculty Road Race held on the campus in the fall term.

SONGS

HAIL, U. B. C.

(Verse)

We wear the blue and the gold
of the victors,
We are the men of the U.B.C.
All other teams acknowledge us
masters.
We are strong in adversity.
Work for the day and work for
the morrow,
We are the ones who will do our
share.
Shouting in joy and silent in
sorrow,
Bravery conquers care!

(Chorus)

Hail! U.B.C..
Our glorious University.
You stand for aye
Between the mountains and the
sea;
All through life's way,
Let's sing Kla-how-yah Varsity
Tuum Est wins the day
And we'll push on to victory!

Harold King,

ALMA MATER

Alma Mater, guardian of our youth,
Fair is the laurel wreath that
crowns thy brow,
Friend of our country and the friend
of truth
Thy children hail thee now.

Alma Mater, daughter of the years,
The great of other days are with
thee yet;
Speak thou their high faith in our
duller ears,
Forbid us to forget.

Alma Mater, watcher of the hours,
Thou lookest on the mountains and
the sea,
And rulest in the might of other pow-
ers
In loftier majesty.

Alma Mater, feeder of the flame,
High hopes and noble purposes are
thine—
On us, whose pulses quicken at thy
name,
Grant that the light may shine.

Alma Mater, mother of our love,
Many the paths we tread in future
days—
Yet naught that time shall bring can
e'er remove
Thy memory or thy praise.

—H. T. J. Coleman.

MY GIRL'S A HULLABALOO

My girl's a hullabaloo,
She wears the Gold and Blue;
She goes to Varsity too
Just like the others do.

(Chorus)

And in my future life
She's going to be my wife.
How in the world d'ja find that out?
She told me so.

She goes to all the games
Just like the other dames,
I fork out all the change
Just like the others do, etc.

When we go walking
She does the talking,
I do the squeezing,
She does the teazing, etc.

As we grow older
She will grow bolder,
And she will hold her
Head on my shoulder, etc.

THERE IS A TAVERN IN THE TOWN

There is a tavern in the town, in the town,
And there my dear love sits him down, sits him down,
And drinks his wine 'mid laughter free,
And never, never thinks of me.

(Chorus)

Fare thee well, for I must leave thee,
Do not let the parting grieve thee,
And remember that the best of friends must part.
Adieu, adieu kind friends; adieu, adieu, adieu;
I can no longer stay with you, stay with you;
I'll hang my harp on a weeping willow tree,
And may the world go well with thee.

THE SENIOR

I'm tired of walking uphill
I long for an automobile;
When I get a jag on,
I need a gas wagon;
I'm tired of walking uphill.

I'm tired of living alone;
I want a wee wife of my own;
Someone to caress me,
To wash and undress me,
I'm tired of living alone.

As a beauty I am not a star;
There are others more handsome by far;
My face I don't mind it,
For I am behind it,
It's the people in front get the jar — some jar.
