Student Administration

One of the most autonomous student bodies in North America is the boast of UBC's Alma Mater Society. Charged with the responsibility of promoting, directing and controlling the extra-curricular activities of the AMS is the Student Council.

Monday night is Council night, and each week the thirteen members meet in the Board Room of the Brock Hall to thrash out the contentious issues that arise from various student activities. Any student may attend Council meetings, if he has permission from the president of the AMS.

President this year is Raghbir Basi, past president of the UN Club and active in International Student activity. Jane Banfield holds down the position of vice-president. This position was created last year to relieve the hard-pressed WUS president, who also acted as vice-president of the AMS.

Responsible for the $80,000 budget of the AMS is treasurer Gerry Duclos. His job will be to keep close tab on the expenditures of all projects sponsored by campus organizations. Kay Stewart is president of the Women's Undergraduate Society. In addition to heading WUS, Kay will have additional responsibilities on Council.

Also in dual roles as head of the large organization and as council members are Undergraduate Societies Committee chairman Geoff Pringle and Literary and Scientific Executive president Ann Choma. USC consists of the representatives from all faculty undergraduate societies, such as Engineering, Law, Arts.

Ann Willis is this year's AMS secretary. Her job is to keep the minutes of the AMS and Council

meetings and to conduct Council correspondence. Head of the Men's and Women's Athletic Directorates are Gerry Main and Jean Hood respectively. They supervise all student athletic activity.

Co-ordinating activities is Co-ordinator of Activities Danny Silvestrini. All organizations must book their activities through him in the AMS office. Bill St. John is Public Relations Officer. His job is to co-ordinate campus publicity, organize the High School Conference and represent Council on the Editorial Board of the Ubyssey.

Junior member Frank Carrol, and Sophomore Member Peggy Andreen are, in effect, members-at-large on the Council. They are given jobs as heads of special committees. Ex-officio member is Editor-in-Chief of the Publications Board, Joe Schlesinger.

AMS OFFICE

Administration headquarters of the Alma Mater Society is the AMS office, main floor, south wing of the Brock Hall, telephone ALma 1230. The president, treasurer and co-ordinator of activities each have their offices here with regular office hours for those who wish to see them.

Heading a full-time staff of four is H. B. Maunsell, the business manager. Important among his duties is administering the requisition system.

Downtown business houses have been informed that the AMS will not be responsiible for any expenses incurred by student organizations unless ex-

Students may receive reimbursement for petty amounts by presenting the bill to the business manager.

In charge of the comprehensive books of the AMS is Mavis Walton. Money, the records of all campus clubs and organizations under AMS supervision are handled through the AMS books. Receipts or expenses of any organization are credited or charged to its account.

Sheila Radcliffe is the cashier for the AMS. Club membership fees, Totems, Student Handbooks, pins, crests, sweaters and all other financial transactions are handled at the cashier's wicket. A list of merchandise sold at the AMS "College Shop" is printed elsewhere in this book.

Information is the specialty of Muriel Fleming, whose desk this year has been moved to the far end of the office. Those who wish information about student activities should see or phone her at the AMS office.

Among the many services that the AMS renders to the students is mimeographing of club notices. Playing cards for use in the Brock lounge may be rented for five cents, plus a fifty-cent deposit.

All proposed activities by campus organizations must be checked at the AMS office. The co-ordin-

Offices of the MAD and the WAD are not in the Brock Hall, but can be found situated in the War Memorial Gym and Women's Gym respectively.

BUDGET BREAKDOWN

WHERE YOUR MONEY GOES

It's always nice to know where your money goes. Some people spend their money on trivial things like liquor, dancing girls etc., but not your Alma Mater Society. Each dollar is alloted to the various campus organizations so that each and every student can get full benefit out of his invested $16.00.

And here's where your money goes:

Men's Athletic Directorate	3.25
Administration	2.95
Literary and Scientific Ex.	.90
Women's Athletic Directorate	.30
Undergraduate Societies	.40
NFCUS	.20
Publications	2.00
War Memorial Gym Loan	5.00
International Student Service	1.00
Margin	.50

These figures, are of course, approximates and are subjugated to the increase or decrease of enrolment.

Administration includes salaries for the four full time employees in the AMS office. It also includes administration of the student council, office supplies and other items that help to make your Alma Mater

INTERNATIONAL STUDENT SERVICE

International Student Service (ISS) is the only national university linking students, faculty, and graduates.

The aims of the organization are:

(a) To provide a fruitful channel of international contact for Canadian universities.

(b) To promote international understanding at the most effective level—the university.

(c) To raise funds for student relief and university reconstruction in Europe and Asia.

Through the ISS, three students from Germany and one from Japan will be attending UBC this year, while two students from UBC will go to Hamburg. This is part of the exchange scholarship plan operation throughout universities across Canada

Qualifications for scholarship are reviewed by the ISS and the Faculty Board.

Other projects of the ISS include:

The raising of funds to support D.P. students studying at Canadian Universities; sponsoring a summer seminar where international problems are discussed; university and student relief, whereby funds are raised in Canadian Universities and are used to purchase books and supplies for European and Asiatic universities.

One dollar of your AMS fees goes towards supporting the ISS and its work.

NATIONAL FEDERATION OF CANADIAN UNIVERSITIES

National Federation of Canadian University Students (NFCUS) has a program similar to that of the ISS, except in functions more readily in Canada.

NFCUS has been instrumental in bringing such services to the students as reduced student rates on Canadian Railroads; national debates;

It also operates an exchange plan with other Canadian universities by which a student, going into his third year of university with fairly good marks, can attend another university in Canada or the United States with fees paid, providing they return to UBC for their graduating year.

The chairman of NFCUS and the AMS president attend the annual NFCUS Convention which will be held this year at Laval University, Quebec. The UBC delegation intends to put forth a proposal that will revamp the NFCUS committee and make a more efficient organization.

PUBLICATIONS BOARD

Service to the students is the aim of the Publications Board. That service is seen in three publications, the tri-weekly newspaper, the Ubyssey, the year book, the Totem and the book you are now reading, the Student Handbook.

Coverage of campus happenings past and future, thought or laugh-provoking editorials and columnists, sign-board for campus activities, for student opinion are among the things to look for in the Ubyssey. The Ubyssey is issued on Tuesday, Thursdays, and Fridays. It is distributed in the bus stop, the Quad, the Campus Cupboard, the Arts Building and at other spots on the campus.

Editing the Totem this year is Al Goldsmith. A picture-packed review of campus activities and personalities, the book comes out just before final exams

The policy of printing only as many Totems as are ordered in advance will again be followed this year. There was a waiting list of over a hundred students to get copies of last year's book which were not picked up, so students are advised to order early.

Work on the Totem began long before the school term began, as plans were made, and engraving and printing contracts were let. More costly metal engravings will be used this year for better picture reproduction.

The student handbook which you are now reading is a combination of last year's student directory and the Tillicum. Its purpose is to supply students with a reference book for all University activity. A wealth of information can be unearthed by referring to the index in the back of the book.

Affiliation with all other publications produced by Canadian universities supplied by the Canadian University Press. News about college campi is distributed by a combination of mail and wire services.

Work on the Publication's Board provides experience in writing, editing, lay-out work, photography and other related fields. Students are invited to work on the publications board in whatever field interests them.

UBYSSEY

The Ubyssey, similar to any other publication has a deadline to meet. Therefore:

1. Letters to the editor must not exceed 150 words. The Editor of any particular issue in which the letter appears retains the prerogative as to whether or not the letter is to be published. Owing to issues that may be of more importance, the editor may have to delete same.

2. Under an agreement with the AMS, the Ubyssey publishes meeting notices under the heading "'Tween Classes." **All such notices**

must be handed into the Publications Board Office at 1:30 one day before the appearance of the Ubyssey it is to appear.

3. Similarly, Lost and Found notices and Classified must also be handed in **at the same time but to the receptionist at the AMS Office.**

Refusal to comply with these regulations will not guarantee appearance of the above mentioned notices.

LITERARY AND SCIENTIFIC EXECUTIVE

The Literary and Scientific Executive (LSE) is the governing body of all campus clubs embracing those phases of cultural, intellectual, religious, political and scientific life. It is composed of an inner executive consisting of the president (who is a member of the student council), the secretary, treasurer, executive member, publicity, director and chairman of the special Events Committee.

Previous to this year, the clubs under the jurisdiction of LSE were divided into Major and Minor Clubs, with the Major clubs acting as an advisory and legislative body. However, this system was unwieldly and the executive members of the organization have proposed a new system. The clubs under LSE will be divided into three major groups with each group having its own chairman. They will be Arts, Fine Arts and Science. Such a plan would facilitate a more cohesive LSE.

Each year, the Literary and Scientific Honorary Society, established to recognize outstanding members, admits to its ranks those students and Faculty members, who, as a result of their efforts, have brought special honour to the Society. Recipients for these awards are nominated by their respective clubs and the Awards Committee choose those whose achievements have been most noteworthy.

SPECIAL EVENTS COMMITTEE

Last year's undertaking of the Special Events Committee brought to the campus celebrities equal to anything sponsored by downtown theatres. Many of these events, unfortunately were not financially successful. As a result, this year's Special Events pro-

gram can not hope to attain such excellence of program due to the lack of a grant from AMS for this committee. However, the Arts Undergraduate Society will give their alloted dole under the grant given to all Undergraduate Societies to the Special Events Committee and it is therefore hoped that the presentation of celebrities on campus will appear.

At time of publication, it is not known as to what noted personages might appear this year, but that there will be three noon hour concerts and possible plans for two evening performances.

Many of the Undergraduate societies have clubs within their own sphere of influence due to the specialization of the faculty it is related to. Other campus clubs under the jurisdiction of the LSE cater to those undergraduate societies with a more general nature. This is probably one reason why the Arts Undergraduate Society is practically defunked, mainly because of the diversities of interest the students within the society have.

Foremost for individual organization and undoubtedly the two strongest societies on campus are the Engineers and Foresters. They have many clubs that students enrolled in these faculties take keen interest in. Mainly, they are:

SIGMA TAU CHI

Sigma Tau Chi, the men's honorary fraternity, is largely a discussion group dealing with an unlimited scope of subjects. Membership is by invitation from the presently constituted members and goes out to students with an honorable campus record.

UNIVERSITY SERVICE CORPS

The University Service Training Corps is open to all male students who can meet the necessary physical requirements. All branches of the service are represented on the campus, coming under the jurisdiction of a Joint Service Training Committee, consisting of the President of the university and the Commanders of the CTC, UNTD, RCAF, and the newly formed Women's Division RCAF.

Prospective officer candidates are required to write the officer commanding the service of his or her choice. Successful candidates are then appointed as officer cadets, and required to serve a minimum of three hours per week and also a minimum of three to four months during the summer. This time is spent at various Active Force Schools across Canada under Active Force Supervisors.

Upon completion of the course, they may emerge with the rank of Captain in the Reserve or First Lieutenant in the Active Force. Further information may be obtained from the Orderly Room in the Armories.

FRATERNITIES AND SORORITIES

Membership in a fraternity or sorority is by invitation. A "bid" to join one of the groups may be extended to one after a period of mutual investigation known as "rushing." During that time an effort is made to fit a person into the group where one is

most likely to be most happy. Because each person should know as much about fraternities and organizations as possible before considering to join one, and because there are scholastic standards to meet, no one may be officially rushed until their sophomore year.

INTER-FRATERNITY COUNCIL AND PAN-HELLENIC SOCIETY

Representatives from all fraternities and sororities meet in these respective groups. These groups regulate rushing and also foster intra-fraternity contests for scholarships and athletics. In conjunction, these organizations sponsor the Annual Song-Fest, where the fraternity or sorority with the best vocal group is awarded a prize, and the Mardi-Gras, which is an annual charity ball held sometime in January.

MEN'S ATHLETIC DIRECTORATE

The Men's Athletic Directorate consist of representatives from the Student Council, teams and Clubs that fall under the jurisdiction of this organization. Under the controversial "Ostrum Plan," the MAD has undergone a radical change within the last two years. Through the Ostrum Plan the MAD gets $3.25 of student funds.

Through this revolutionary plan was created a new athletic board known as the MEN'S ATHLETIC COUNCIL. This council is made up of a five man faculty and student administration alloting money in proportion to the importance and activity of the athletic clubs under its command. The MAC fills the gap in between the students and the faculty and decides all athletic policies.

WOMEN'S ATHLETIC DIRECTORATE

The Women's Athletic Directorate serves similar functions to that of its brother MAD but has jurisdiction over the women's athletics while working hand and hand with the WUS. Administration of Women's athletics and governing of intramural and extramural programs are its chief functions.

WARNING

No male student is allowed during the session to take part in athletic competition or games for any team or organization other than a university team without the consent in writing, of the Men's Athletic Directorate approved by resolution of the Student Council. Any students so doing in violation of this regulation will automatically forfeit all claim to any athletic award in any sport.

BIG BLOCK CLUBS

The Women's Club, unlike the Men's Society, is not a service club. It is set up more in the form of an honorary club whose function is mostly social.

The Men's Big Block Club is composed of those campus athletes who have won their Big Blocks in Varsity sports. The two organizations help to bolster

campus spirit for different sport activities.

Membership to a Big Block Club is judged and decided by the Awards Committee and is based mainly on favorable performance in athletics.

KICKAPOOS

The Kickapoos organized after departure of the Jokers' Club helps to bolster campus spirit in athletics and other student undertakings that need their assistance. Notable amongst their undertakings are Homecoming Week; Blood Drive; and many pep meets to support campus events.

PIPE BAND

Athletic events on campus have quite often been livened up by the appearance of the UBC's Pipe Band. Any one who can play the drums right down to the Highland dancing can obtain instruction by applying for membership in the band.

SCOTTISH DANCE CLUB

Counterpart to the American college baton-juggling majorettes is the Scottish Dance Club's enthusiastic support to athletic games by the lively skirl of pipes and the measured beats of the dancer's feet. This club also offers instruction in the rudiments of Scottish Folk Dancing at their Hut, G4, any Tuesday afternoon.

Outdoor enthusiasts have always been attracted to the ambitious VOC program. Activities include mountain climbing to such places as Mt. Baker, Shuskan, the Lions; chartering of plane to B.C's interior; and use of giant club house on Mount Seymour.

DRUM MAJORETTES AND CHEER LEADERS

Also subsidized and under the jurisdiction of MAD are Majorettes and the Cheerleaders. These two groups help supplement campus spirit by boosting athletic events.

BOBBY GAUL MEMORIAL AWARD

Before his passing away in 1935, Robert William Gaul endeared himself to all with whom he was associated by his kindly consideration and courageous spirit. Two of his teamates wishing to perpetuate his name in University athletics, invited other friends to participate in providing funds for a suitable memorial. The response was instant and a trophy of burnished copper was procured and is known as the Bobby Gaul Memorial Trophy.

Regulations governing eligibility award are that the student must be in his final undergraduate year, or if a graduate, he must be taking full time academic work at the University. Qualities to be looked for in making selection for award are; Sportsmanship, consideration and unselfishness, balance, excellence, quietly enthusiastic and cheerful, loyalty, will to win and courage.

INTRAMURALS (MEN'S)

The intramural program under the direction of the Department of Physical Education aims to provide an opportunity for all students to compete in organized athletic sports and to participate in wholesome active recreation.

Freshmen are urged to form groups as soon as possible to watch the notice boards in the gymnasium. Applications for entry should be handed in to the office of the Director of Intramurals, War Memorial Gym, sometimes during the first week of October.

Each new entry must be signed by at least twenty-five members of the prospective faculty, year or group.

Competition includes volleyball, cross-country, golf, badminton, swimming, skiing, table tennis, basketball, boxing and wrestling, softball, track and field.

The Governor's Cup, emblematic of aggregate championship was won last year by Physical Education Undergraduate society. Unofficial results show the standing to be: Kappa Sigma and Betas, tie for second; followed by Alpha Delta, DU, ex-Magees and Fijis respectively.

Women's Intramurals deviate slightly from the Men's program.

It is a striking fact that many of the outstanding athletes train on chocolate because it is a food and an energy producer.

instruction, and several noteworthy groups of materials. The collection is strong in serial publications including scholarly periodicals and transaction of learned and scientific societies; and in certain fields, notably Canadiana and forestry, the library has rich holdings. The Howay-Reid Collection, which is maintained in a separate room, comprises the combined libraries of the late Judge F. W. Howay and the late Dr. Robie L. Reid, both of whom have assembled fine collections of Canadian History, the Pound Collection of Canadian Literature, and the A. J. T. Taylor Collection of material pertaining to the Arctic. The Herbarium consists of dried plant specimens housed in cases in the Biological Sciences Building. All groups from Algae to the Flowering Plants are represented. Several thousand B.C. specimens have recently been donated by Mr. J. W. Eastham.

WOMEN'S GYMNASIUM — The building was completed in 1929 and presented to the University by the Alma Mater Society. The playing floor has an area of 6,000 square feet and is surrounded on all sides by tiers of seats which will accommodate 1,400 persons.

WAR MEMORIAL GYMNASIUM—The Memorial Gymnasium was officially dedicated on October 26, 1951. This building, which cost almost $800,000, was a result of a student campaign to honour the men and women of British Columbia who served in World War 1 and 2. It was financed by public subscription, a Provincial Government Grant, and in major degree by a special student levy. The building seats approximately 3,600 and holds within its walls, the Physical Education Department offices, MAD offices, gymnasium, weight-lifting room, lockers, dressing rooms, and a coffee shop. Proposed additions to the building are a swimimng pool and bowling alley.

STADIUM—The first section of the grandstand was erected in 1937 on the west side of the main playing field. It is a covered, reinforced concrete structure which provides seating accommodations for 1,600 spectators. On either side are two wooden bleacher sections of 500 seats each. In 1946 a wooden grandstand section providing 1,000 covered seats

was added. Underneath the present main stand are locker rooms, dressing rooms, showers, ticket booths, drying rooms and equipment rooms. Funds for the construction of the grandstand were provided through a $40,000 bond issue sponsored by the AMS.

BROCK MEMORIAL BUILDING—The Brock Hall stands today as a fitting memorial to the life and the work of the late Dean of Applied Science and his wife, killed in a tragic airplane crash in the summer of 1935. They were held in such high esteem by the students of their day that it was decided to erect a permanent student union building to commemorate the Dean and his wife. The dream of the students was finally realized in January 1940, when Lieut. Gov. E. W. Hamber officially opened the Brock Hall.

In the centre of the building is the main lounge, on the east side is the Snack Bar. Across from the main lounge on the south side of the building are the offices of the Alma Mater Society and the headquarters of the Student Council. There is a public telephone in the corridor and in the south basement are housed the club rooms of the Radio Society, Men's Washroom and Mamooks. Upstairs of the AMS office is the Double Committee Room capable of seating 200 people. Clubs may obtain permission to use it for meetings by applying to the AMS office. On the main floor of the northern side of the building is the Mildred Brock Room for women students only, Alumni Office and LSE office. In the north basement are the offices of the Publications Board, Women's cloakroom and washroom.

ART CENTRE—The Art Centre includes a work shop and an Art Gallery. The work shop is equipped for, and gives courses in ceramics, painting, sculpture, weaving and other applied arts. The workshop

The Gallery is open, under the supervision of the Curator, for five days of each week, and is under the direction of the Visual Arts Committee.

ALUMNI—The Alumni Association of the University of British Columbia is composed of Honorary, Active and Associate members. Honorary members includes all members of the Board of Governors and an honorary life member appointed by the Association from time to time. Active members include all associate members who have contributed to the Alumni-UBC Development Fund, or who have paid their annual fee or the life membership fee. Associate membership includes all other graduates of the University or former students of UBC, Victoria College or old McGill College who successfully completed 15 units during attendance. The Association magazine called "The Chronicle" is mailed to all contributors to the development fund and associate members.

All inquiries regarding scholarships, prizes, bursaries, and loans should be addressed to the Dean of Administrative and Inter-Faculty Affairs, Room 10, Arts Building, University of British Columbia, Vancouver, B.C.

Scholarships are available only for students with high standing. With a few exceptions, undergraduate scholarship are awarded automatically on the basis of the results of the final examination, and winners may hold the awards only if they continue with their studies at the University in the next regular session. Scholarships for graduates, are awarded only on application. In the case of graduate scholarships awarded directly by the University, applications should be received by March 15th.

Limited financial assistance through special bursaries is available for undergraduates who have good scholastic standing (i.e. clear standing with an average of at least 65 per cent in the work of the previous session).

It is the desire of the Dominion and Provincial Governments that no student of ability shall, through lack

of funds, be denied the opportunity to continue his or her education beyond the level of the secondary school. A sum of money has been set aside, therefore, to aid University students who can offer proof of scholastic ability and financial need. This assistance is available to regular undergraduates in any year and faculty. Successful applicants will receive 60 per cent of the total assistance as a bursary and 40 per cent as a loan. The loan is repayable commencing one year after the applicant enters gainful employment and does not bear interest until that time. Assistance is normally given only to students who, in the previous session, obtained clear standing and made an average of at least 65 per cent. Application forms must be obtained from the Department of Education, Technical Education Branch, Victoria, B.C.

Various loan funds are operated by the Dean of Administrative and Inter-Faculty Affairs to assist students who, during the session, find themselves without sufficient funds to complete the work of the session. An undergraduate whose progress is satisfactory may apply for a loan at any time during the session. The largest fund for this purpose is "The University General Loan Fund," which provides loans, not exceeding $200, which are interest-free until May 31st and are repayable the following summer. An adult guarantor satisfactory to the University is required.

Funds have also been established to provide loans of larger amounts and for longer periods of time, and are open to graduates and undergraduates with satisfactory guarantors. As the terms under which the funds are operated differ considerably, students desiring loans should discuss their financial problems individually with the Dean of Administrative and Inter-Faculty Affairs.

Employment opportunities for a limited number of students are available for work on the campus in the library, bookstore, janitorial and maintenance departments, and the food services. In order that there may

be as little interference with studies as possible, and in order to take care of the maximum number of applicants, jobs are normally limited to ten hours per week. Applicants for special bursaries may be offered employment of this kind either in place of a bursary or as a supplement to it. In all cases, applicants will be chosen on a basis of scholastic standing and need. Interested students are advised to consult the Employment Bureau, Hut M 7, before the end of August.

Certain departments employ assistants for laboratory work, marking of papers, tutorials, etc. These positions are mainly for graduates, although occasionally undergraduates are offered positions. Students should contact the Head of the Department concerned.

HAIL, U.B.C.

(Verse)

We wear the blue and gold of the victors,
We are the men of the U.B.C.
All other teams acknowledge us masters.
We are strong in adversity.
Work for the day and work for the morrow,
We are the ones who will do our share.
Shouting in joy and silent in sorrow,
Bravery conquers care.

(Chorus)

Hail! U.B.C.
Our glorious University.
You stand for aye
Between the mountains and the sea;
All through life's way,
Let's sing Kla-how-yah Varsity
Tuum Est wins the day
And we'll push on to victory.

ALMA MATER HYMN

Alma Mater, by the dwelling
There is set the western sea,
Mountains shed their benediction
On the hopes that rest in thee.
Alma Mater, to thy children
In the spring-time of their years,
Grant the faith that grows from knowledge
Courage the makes light of fears,
Alma Mater, thou hast kinship
With the great of bygone days,
And the voices of our fathers
Join with ours to sing thy praise.

She's going to be my future wife.
How in hell d'ja find that out?
She told me so.

She goes to all the games
Just like the other dames
I fork out all the change
Just like the others do, etc.

She goes to all the shows,
Wears all the latest clothes,
Powders her little nose,
What for, nobody knows.

She will grow bolder,

CASEY JONES

(Engineer's Song)

Come all you freshmen if you want to hear
The story of a brave engineer;
He started to college in the fall of thirty-three,
Why he took up engineering is a mystery to me.

(Chorus)

Casey Jones couldn't hold his liquor,
Casey Jones couldn't hold his beer,
Casey Jones never got through college
He never got through college 'cause he couldn't hold his beer.

Casey Jones was the engineer's pride
In football or hockey he always saved his side
He was a whiz in classwork, his reports were always clear,
But he never got his parchment 'cause he couldn't hold his beer.

Casey's career looked free from want or need
The dean would pat him on the back and say, "You're bright indeed."
He came to grief as all youths do, ne'er became an engineer,
And the reason for his failure was, he couldn't hold his beer.

The grand class held their dinner in the Red and White hall,
They all got pickled tight that night and Casey worst of all.
They wired to his folks next day, the message read, "Come here,
Your son cashed in his chips last night; he couldn't hold his beer."

Casey said, just before he died,
To the engineers who mournfully were standing by his side
"Erect a tablet in the halls, engrave these letters clear:
"Never come to college if you cannot hold your beer."

NOTE—There are several other popular songs on the campus (especially among the Engineers) which space does not permit us to print.

HEUCH! Glen Whorple, Hielan men!
Great strong whusky suppin Hielan men, for they were
Hard workin, hairy leggit Hielan men,

They were founded by McAdam who of a' men was fairst,

Wi' a fig leaf for a sporran, and a pairfect Hielan thirst,
Till he stole awa' the applies frae Glen Whorple!

When the watters o' the deluge drookit a' the world o'er

Sae a muckle boat he biggit and he sniggit up the door,
And they sailed awa frae drooned Glen Whorple!

And syne he sent a Corporal and gert him find the land,
Wha he returned wi' an empty whusky bottle in his hand,
Sae they kent the flood, was dryin', he was fu' ye understand,
For he found a public house abune the water!

When the good King Solomon was ruler o' the Glen
He had a hundred pipers and a thoosand fechten men,
And a might fine establishment I'll hae no doot ye ken
For he kept a sight o' wives in auld Glen Whorple!

Then there cam a birkie bangster, wha was chieften o' the clan
