AMS President's Message

Bijan Ahmadian

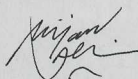

Welcome to UBC!

You have joined a vibrant and diverse community of learners, entrepreneurs, philanthropists and innovators. Everywhere you look, you will find opportunities for learning and will meet people who support you. Whether you are new or returning to UBC, you are a valuable member of our community, and I am thrilled to welcome you on behalf of your student society, the Alma Mater Society of UBC Vancouver (AMS).

The AMS represents you and over 46,000 other students at UBC and its affiliated colleges. We speak on your behalf to the University, as well as to all levels of government. In addition, we support student clubs and undergraduate and graduate student societies in delivering our mission: improving the quality of students' academic, social and personal lives. Through our strategic partnerships, we provide the U-Pass, the Health and Dental Plan, and a variety of services. We also employ more than 400 students annually in our businesses in the Student Union Building (SUB). One of the most exciting initiatives underway is our new SUB, a 255,000 sq-ft sustainable student-run space scheduled to open in 2014. You have no shortage of opportunities to engage with the AMS; and I know from personal experience that my own engagement with the AMS has made my learning at UBC more fun and more complete.

I came to UBC as a new international student, not knowing anyone in Canada. Since then, I have received a degree in Engineering Physics, and I am now completing a combined Law and MBA degree. Getting involved outside of the classroom has always complemented what I was learning within it. Whether I was helping organize a charity event or was attending a leadership workshop, I learned how to work effectively with a wide variety of people. Now, as the 101st AMS President, I have the privilege of working with amazing students, alumni, faculty, and staff, who all help the AMS enhance your student experience. My job is leading the AMS in executing our Strategic Action Plan, a living document that outlines the implementation of AMS initiatives throughout the year.

Learn more about AMS initiatives, services, highlights of student life, and how to get involved at www.ams.ubc.ca. Have fun while you are here, and take advantage of all that UBC and AMS have to offer.

UBC President's Message

Stephen J. Toope

Welcome to UBC. Whether you are beginning or continuing your studies, this is an exciting time to be here. In every corner of our campuses, students and professors from across Canada and around the world are driving creative learning and research activities. They are thinking big, and helping to propel a sense of energy and potential—for each other, and for our university.

How can we fulfill our potential? The answer is simple: we do it together. Our job, as faculty and staff, is to build an outstanding learning environment for you. That means we continue to revolutionize teaching practices in the classroom, and expand dynamic learning opportunities outside of it. Through efforts like the Carl Wieman Science Education Initiative, named after UBC's Nobel laureate, and the Coordinated Arts Program, thousands of students are benefiting from new approaches to classroom teaching.

UBC also has an astounding number of ways that you can enrich your classroom studies, including Canada's largest community service learning program, the largest student exchange program (known as Go Global), and a wide range of co-op, mentorship and leadership development programs.

These are all part of our commitment in the University's strategic plan, Place and Promise, to provide the opportunity for transformative student learning—that is, learning that can dramatically change your life.

Your job is to make the most of these opportunities. Our goal is for you to take advantage of at least two outside-the-classroom learning programs during your studies. Talk to your classmates. Engage your professors and student services staff. Find out what the possibilities are in your program of study. Push yourself, just a little bit, and you'll find a community of faculty and staff who are there to help you succeed and fulfill your own personal promise in life.

Some of the opportunities start with your own Alma Mater Society (AMS). Get involved in student government, student clubs, or vital student initiatives to make your campus community greener, more welcoming, or simply more fun. In doing so, you'll help us fulfill our potential, and yours.

VP Academic & University Affairs • SUB 238K
vpacademic@ams.ubc.ca • 604.822.3092

Welcome to yet another year of amazing potential here at UBC. As the campus comes alive for its 95th year of classes and its 102nd year of existence as a University, there is a lot to look forward to. By now, you will have no doubt walked down Main Mall and seen the whale skeleton suspended in its new home at the Beaty Biodiversity Museum; or perhaps you have seen the new residence houses being built at Totem Park; or better still, you may have seen the designs for the new SUB. With so many projects underway at UBC, the AMS is there every step of the way to enhance and improve your experience at this university.

The role of the VP Academic and University Affairs is to act as your liaison with the University and different campus groups regarding academic, planning, and other policy issues. My job has a broad set of expertise and interests, and all of them contribute to one thing—improving your student experience at UBC. I look forward to serving you this year, helping you discover all this campus has to offer, and ensuring that the University hears your voice as a student. Issues I plan to address are:

Academic Issues: Student Evaluation of Teaching, Credit/D/Fail, learning spaces, Senate, improving curriculum, budgeting, student development

Campus Development Issues: New buildings and development, UBC Transit Plan, student housing, University Town and non-institutional development, the Campus Plan process, transportation issues, student social and learning spaces, green space, etc.

Campus Community Issues: Access and diversity, health and wellness, campus crime and safety, community building, governance, UBC Greek system, residence, international students, ombuds service

What are your thoughts about campus life and academics? Feel free to send me an email or drop by my office in the SUB.

VP Administration • SUB 238G

vpadmin@ams.ubc.ca • 604.822.3961

Hi there! Thanks so much for reading the Insider. If you're a first year or just entering UBC, welcome to our campus. If you're a returning student, I'm glad you've come back. It's a great pleasure to introduce my role, my goals and a little about me to you as the Vice-President Administration.

There are two main areas I deal with: I oversee the Student Administrative Commission (SAC) and I manage the New Student Union Building (SUB) Project. If you've ever joined a club, booked a room or been in the SUB, you've experienced a little part of what I do! The NEW SUB Project is the construction of a brand new student-driven, sustainable SUB. It should be completed by 2014.

There is no lack of ambitious goals when it comes to the current or new SUB. One of our most important tasks is to keep the NEW SUB Project on track and ensure that the process is transparent and student driven. We are currently moving into the design phase of the project, so student input will be extremely valuable in the next couple of years. As for clubs and SAC, I plan to finalize digitizing all the 360+ constitutions we have floating about and making sure that clubs are given opportunities to engage with students and with each other through interesting events and programs.

A little about me:

I'm an avid lover of student government, pretentious coffee, and good music. When I'm not in meetings or in the library, I can be found sailing, sipping tea, or simply enjoying spending time with family and friends. Originally from Kiev, Ukraine, I have lived in a multitude of cities, but have fallen in love with Vancouver. Come by my office as I get pretty lonely and we can chat about clubs, the SUB, or anything else!

Elin Tayyar

VP Finance • SUB 238M
vpfinance@ams.ubc.ca • 604.822.3973

Fellow students, it is my pleasure to serve as your VP Finance for the 2010-2011 year.

The VP Finance:

As the person responsible for AMS finances, my job involves overseeing much of our spending and revenue intakes. Working alongside an amazing team of managers and permanent staff, my priorities include making sure our businesses stay competitive, our spending is under control, and that we can provide financial services to all of our clubs and undergraduate societies.

I am also responsible for our budget of about \$15 million. I work closely with our committees to make sure that we are diligent in making important policy decisions that affect the future of our organization, and future students. In addition, I work closely with our Sustainability Coordinator on several initiatives that will be introduced throughout the year. All of your questions about finances, our businesses, sustainability, as well as our Health and Dental plan can be directed to me.

My major goal for the coming year is to make sure that our student government is financially secure and fiscally responsible. I will also be working on several projects involving sustainability, our businesses, and our financial services. In an attempt to make our organization stronger and provide better services, I will be working on the fee referendum coming up in the fall.

About Me:

I have lived in the Lower Mainland for the past decade. I graduated from Killarney Secondary, and am now studying International Relations and Economics. Drop by my office any time, and you might find me there, especially late at night.

Jeremy McElroy

VP External • SUB 238J

vpexternal@ams.ubc.ca • 604.822.2050

The Vice President External is responsible for lobbying the municipal, provincial, and federal governments on behalf of the students at UBC Vancouver. The VP External also represents students to external organizations, such as Translink, and student societies at other schools. The nature of the External Office is innately political, but never partisan, advocating on behalf of the student body as a whole without agenda or prejudice.

Before joining the AMS Executive, I was a representative on AMS Council for the Faculty of Arts. Last year was particularly eventful, and the controversies and accomplishments made me want to be a more involved member, so I ran for the VP External position. I am a Political Science student with a focus on public policy; I believe my academic background suits the nature of the external office quite well and I will use the skills I have gained to better represent students.

My goals for the upcoming year are to ensure that the newly announced provincial U-Pass program remains affordable, is accompanied by increased service, and is responsive to the needs of students. I am also working to better connect with other student societies in the province to present a unified student voice to the provincial government—representing students the way they want to be represented.

In addition to lobbying the provincial government, I work with the Canadian Alliance of Student Associations (CASA) to lobby the federal government on post-secondary education (PSE) issues. The AMS has taken a firm stance on campus childcare provision, student loan reform, and dedicated federal transfer payments for PSE, all of which have been taken up by student societies across Canada. Working together we can achieve much more.

I need everyone's help in doing this, and ask that you, the informed members of the UBC community, keep in contact with me on issues that matter to you. My door at SUB 238J is always open and I look forward to working hard on your behalf. Cheers.

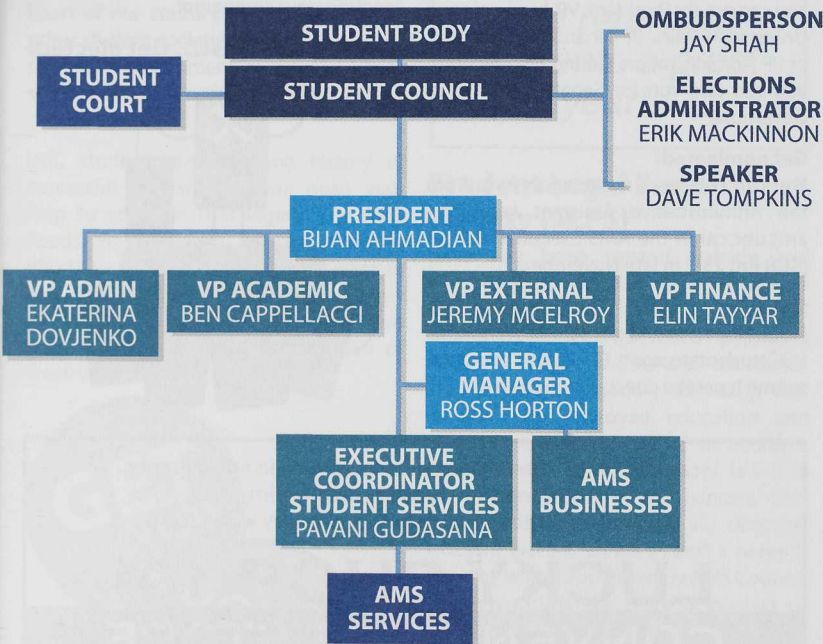

Student Council

The AMS Council is the highest elected decision-making authority in the AMS. Council is composed of student representatives from each faculty and affiliated colleges, the Executives, the Ombudsperson, and the Executive Coordinator of Student Services. From setting policy to determining budgets, AMS Council determines the AMS' priorities and activities.

AMS Council is designed to be an open and welcoming space for any student to give input on the AMS' functioning and express concerns with their student experience at UBC. The AMS relies upon active, interested students to help guide its actions.

Make it a goal to attend at least one AMS Council meeting this year, and have your voice heard by your student society. AMS Council meetings are held every second Wednesday at 6:00 p.m. in the SUB Council Chambers with food and refreshments provided.

Annual AMS Elections

Someone once said, "Bad officials are elected by good citizens who do not vote." Someone also once said, "If you don't vote, you can't complain." Who doesn't like to have a say in school matters? But before you do, make sure you vote!

Vote online at www.ams.ubc.ca or in person with your UBC student card in late January at any of the polling stations.

Run for it!

Besides voting, you can also run for these positions by following these steps:

Act fast!

AMS Elections take place near the end of January, but to run in these elections, you need to get in the game earlier. You need a campaign, promotional materials, speeches prepared for platform presentations, and so on.

Research and choose a position!

You can run for President, VP Academic and University Affairs, VP Finance, VP External, or VP Administration. During the elections, you can also run for Senate or Board of Governors.

Get nominated!

You can pick up a nomination form from the Administrative Assistant (adassist@ams.ubc.ca) in the AMS Executive Offices (SUB Rm 238) in late November.

Get 50!

Fill out the form and get 50 other registered UBC students to sign it. Once this is complete, submit it per the directions on the form.

Be campaign ready!

Spend your winter break creating your campaign, posters, fliers, and speeches.

Meet candidates!

Go to the All-Candidates Meeting in early January.

Showtime!

Show them what you've got! The process usually takes two weeks. Make sure you are familiar with the rules, because you'll want the Elections Administrator to sanction your campaign!

Last but not least... Get elected!

AMS Lobbying

The AMS has a long history of advocating on behalf of students. From the Great Trek in 1922 that established our Point Grey Campus, to the Great Farm Trek in 2008 that protected the UBC Farm from commercial development, the AMS has always been a strong voice for what students want. We meet with the University administration, the municipal, provincial, and federal governments, and other external organizations (such as Translink) to enhance the lives of UBC students.

The AMS lobbies the federal government as a member of the Canadian Alliance of Student Associations (www.casa-acae.com), a federal student lobby group that brings students' voices from coast to coast to the heart of our country. We also work with other student societies in BC to lobby the provincial government on issues such as student loans, accessibility of education, childcare, and PSE funding.

UBC students have a long history of successful activism, and we need your help to continue that legacy. The AMS needs your help in all our lobbying efforts to enact the changes we want to see. Contact your VP External, Jeremy McElroy, to get involved and have your voice heard. Call 604.822.2050 or email vpexternal@ams.ubc.ca.

Pavani Gunadasa

*Executive Coordinator of Student Services • SUB 249B
services@ams.ubc.ca • 604.822.9949*

Hello UBC! My name is Pavani Gunadasa, and this will be my second year serving as the Executive Coordinator of Student Services (ECSS). The ECSS oversees the eight Student Services offered by the AMS. I provide training, guidance, and support for the amazing team of coordinators who manage the day-to-day activities of the individual services. I sit as a non-voting representative on Student Council and the Executive Committee. In both roles, I speak on behalf of the Services and work to promote their interests within the Society and the UBC community. I am also involved with a number of ongoing AMS and UBC projects, programs, and initiatives geared toward supporting students, fostering academic learning, promoting wellness, and enhancing student life.

I am originally from the beautiful, tropical island of Sri Lanka and grew up migrating between Sri Lanka and Canada. Currently, my ambition is to pursue a career in psychiatric medicine. I believe that mental wellness is key to fostering academic success and that increasing awareness about mental health issues is as important as providing quality support services. As such, I am pleased to be involved in mental health initiatives at UBC and in the community. I am also very passionate about humanitarian and community service efforts, to which I volunteer my free time.

This year, I hope to build on the skills and experience I obtained in my first year as ECSS to further improve and enrich the AMS Services. My key priority this year is to conduct a detailed review of our Student Services. The idea for the Services Review is based on the simple premise that a thorough and well-constructed review would allow us to gather reliable and up-to-date information to aid in responsible decision making for the AMS Services in the short and long term.

If you are interested in learning more about the services that you as a student have access to on campus, please do not hesitate to get in contact with me or the service coordinators.

AMS Services

The AMS wants to help! The AMS offers a multitude of free and affordable student services to facilitate your wellbeing during your time here at UBC. To help support and fund these services, visit one of your AMS student-run businesses and food outlets. You could also apply to be a volunteer for the following services.

AMS Advocacy Office

Coordinator: Joshabelle Josephson
SUB 249G • 604.822.9855
advocate@ams.ubc.ca
www.ams.ubc.ca/services

 The Advocacy Office provides confidential, free support and representation to students who are engaged in formal conflict with UBC, regardless of guilt or innocence. Our primary mandate is to support, assist, and guide students who are preparing for, or participating in, any of UBC's formal appeal or complaint structures. Specifically, we help students with matters of academic discipline (e.g. cheating, collaboration, or plagiarism), non-academic discipline, assigned academic standing,

admissions, financial assistance, and appeals of decisions made by UBC Library, Parking, or Housing. We also connect you to resources that can help you deal with personal and academic issues. Please contact us today; do not wait until it is too late. You are not alone—we are here to help!

Dear UBC Students,
As your Member of Parliament for Vancouver Quadra, I want to wish you the best of luck in the upcoming school year.

UBC is the heart of Vancouver Quadra with its rich history, world-leading sustainability, and academic excellence. UBC students have an important role in contributing to Canada's future and I encourage you to connect with your elected representatives to have your say.

I invite you to attend my public events, correspond by email, or connect online through twitter, facebook and my website as I value your ideas.

As a Liberal MP with a background in both business and the environment, here are some key initiatives I have been focussing on: saving the UBC Farm, fighting climate change, advocating for a legislated ban on crude oil tanker in B.C.'s coast,

I look forward to hearing from you this year.

irstweek

Known at other universities as “frosh week” or “welcome week,” AMS Firstweek is UBC’s version of a week-long festival dedicated to welcoming new students to UBC and re-introducing returning students to campus life. Firstweek is designed to take a typical, year-long UBC campus experience, and jam it all into one week of fun and insanity! Starting before Imagine Day, events continue all the way until the end of the week. Firstweek is not your typical campus tour—unless your idea of a campus tour includes huge concerts, dances, live comedy, improv, a massive indoor/outdoor pool party, and more chances to meet your future best friends than you can shake a stick at! Check out our website for more info!

Why a Health & Dental Plan?

The Plan is a critical service of the AMS and GSS designed to fill the gaps in provincial health care. As a student at UBC and a member of the Alma Mater Society, you're covered by the AMS/GSS Health & Dental Plan. The cost of the Plan is part of your student fees.

Covered by Another Plan? Weigh the Costs and Benefits

Being enrolled as a dependant in a parent or spouse's employee benefit plan usually requires your family member to pay additional costs to have you covered. The AMS/GSS Plan may provide better value. You can also combine it with your other plan to maximize your overall coverage—up to 100%—and eliminate out-of-pocket costs.

Alternatively, you can opt out of the AMS/GSS Health & Dental Plan by providing proof of equivalent health and dental coverage.

Change-of-Coverage Dates

All enrolments and opt outs must be completed between **Sept. 7 - 28, 2010**. Only new Term 2 students can opt out or enrol their spouse/dependants between **Jan. 3 - 24, 2011** for coverage from Jan. 1 - Aug. 31, 2011.

Dental Network

Get Up to 90% of Your Dental Costs Covered by Visiting a Dental Network Member

Your Plan covers many dental services such as checkups, cleanings, fillings, and wisdom teeth, for 50-70% of the cost, to a maximum of \$750 per policy year. The Dental Network provides an additional 20% in savings, so your total coverage is up to 90% of your dental costs.

Allies is famous for its White Ribbon Pancake Breakfast in late November that raises funds for resources that benefit women's groups and survivors of sexual assault.

Clubs

It's easy to get involved when you have over 300 AMS constituted clubs to choose from! Pop by the SUB during Clubs Days in mid-September to see what new hobbies, interests, and friends you can gain during your time here at UBC. To see the full list of clubs or to learn how to start your own club, visit www.ams.ubc.ca/student_government.

How to Start Your Own Club with the AMS

With over 300 student clubs, UBC is one of the most active universities in Canada, but there is always room for more fabulous clubs that do amazing things. So if you think that you would like to start a club, here is what you need to do:

Does the club already exist? If you want to form, for example, the Soccer Club and there is already a Soccer Club in the AMS Clubs Directory, you may have a hard time starting up the club. If you are unsure if the club idea is already in subsidiary form, contact the clubs commissioner (clubs@ams.ubc.ca) with an outline of the club you wish to form.

Meet for a 15-minute consultation/information session.

Before filling out any documents, SAC needs to meet you and will provide you with all the necessary information and answer any questions (e.g. how to write a constitution, where to find resources, etc.). This meeting is crucial for starting a club! Before the meeting, please take the time to review the Clubs Constitution in the downloads section on the SAC web page.

Prepare documentation

Once you are confident with creating the club, it's time to prepare all the documents (all documents must be typed).

These documents are:

- Club constitution;
- Budget;
- One-year plan of intended activities, events, etc.;
- Letter of intent addressed to the SAC Vice Chair.

Present to SAC

Submit a copy of all the documents (as indicated above) to the executive secretary in SUB 238A (glass office on the left). Failure to submit all items will result in delays in the club constitution process. Your documents will then be reviewed by SAC. If no revisions are necessary, you will be invited to a SAC meeting to make a five-minute presentation followed by a short Q&A session. SAC will then decide whether or not to constitute the club. Some of the criteria used by SAC are:

- If the club's mandate furthers the mission statement of the AMS;
- If the club's mandate does not overlap with the mandates of existing AMS internal groups;
- If there are sufficient resources within the AMS;
- If the club is open to all AMS members;
- If there is adequate justification for AMS affiliation;
- Other criteria as determined by SAC.

AMS History

Historical Successes of the AMS

The AMS has always worked passionately to promote students' interests starting as far back as 1922 before there was even a proper campus, and students were crammed into the "Fairview Shacks" at 10th and Oak. That October, the whole student body marched in the Great Trek Protest and convinced the provincial government to finish building the present Point Grey campus, which finally opened in 1925.

At the time, there were only a handful of academic buildings, but not much else—no sports facilities for instance. So the students, through the AMS, took it upon themselves to raise the money needed to build a stadium, playing fields, and a gymnasium. Over the years, the AMS raised money to build the War Memorial Gymnasium, the Aquatic Centre, Brock Hall (which used to be the student union building), and of course, the current SUB.

The AMS has also been the driving force of the student experience at UBC in other ways. In the absence of a University Ombuds Office, the AMS created one in the 1960s that still functions today. In subsequent years, the AMS introduced a number of other services, which are usually run by university administration—everything from peer support (Speakeasy) and tutoring to SafeWalk and the Food Bank.

In addition, students through the decades campaigned to improve post-secondary education and promote student interests, launching two subsequent "Treks," or marching protests. More recently (through a referendum in 1999), the AMS was able to introduce a popular health and dental plan. In 2003, the AMS, again through a referendum was able to introduce the U-Pass in collaboration with the University.

The Student Union Buildings

The very first SUB, Brock Hall, was built in the 1930s when the student population reached 2,000. The AMS raised most of the money needed to build Brock Hall, and in the 1960s, raised the bulk of the money to build the current SUB. In both cases, the primary motivation was a lack of space to support student activities.

The current SUB was proposed at a time when the student population had just reached over 10,000, making old Brock Hall insufficient. The planners of the current SUB tried to anticipate future population growth and designed a building that could serve 20,000 students, but that number was exceeded the same year the SUB opened. Now, the student population hovers around 46,000.

The current SUB, which opened September 26, 1968 on the old university stadium site, has undergone numerous transformations

over its more than 40 years. Perhaps, the most notable was the addition of the Pit Pub, which opened in its permanent form in November 1973.

Over the years, a bowling alley and a listening lounge (for vinyl records) disappeared, businesses have come and gone, and a continual scramble to find space for clubs and social activities has been an issue.

So it is time to build again.

In March 2008, students voted to increase their fees to pay for a new SUB—a vote that took place 44 years after the referendum that approved funding for the current SUB.

Along with the new Alumni Centre, the new SUB will shape the heart of campus and AMS will once again raise the bar for student engagement.

NEW SUB Project

In March 2008, UBC students approved the construction of a NEW SUB through an AMS-run, campus-wide referendum. Since then, the AMS has been working around the clock to turn students' vision into reality through a student-driven process.

The NEW SUB Project is the biggest project the AMS has ever undertaken. It will be a 255,000 square foot building in the centre of campus in the University Square area. This project is under the administrative and creative control of the AMS, giving us the opportunity to expand a myriad of student amenities such as social and resource space, bookable rooms, club space, food outlets, entertainment, recreation, and more.

Sustainability is a top priority for the NEW SUB. The new building will be a pinnacle of sustainability, achieving the Leadership in Energy and Environmental Design (LEED) Platinum rating as a minimum. The ultimate goal is to reach a "standard of living building," which means our building will net produce energy rather than consume energy.

In April 2010, UBC students participated in the architect selection process for the NEW SUB. Twenty-one firms initially expressed interest in the project. The firms' proposals were evaluated based on past projects, commitment to sustainability, willingness to incorporate student input, and long-term vision for the building. Seven firms met our criteria. We asked students to select from this and shortlist three firms.

During the summer of 2010, the final selection for the architect took place and HBBH+BH was chosen. HBBH+BH will commence the design phase with UBC students in September 2010. We need you to be involved in the process. To learn more about the NEW SUB Project and find out how to get involved, please visit www.ams.ubc.ca or email subrenewal@ams.ubc.ca.

AMS/GSS Health & Dental Plan

SUB Lower Level, 6138 SUB Blvd., Room 61
1.877.795.4421 • www.ihaveaplan.ca

The AMS/GSS Health & Dental Plan is extended health and dental coverage, designed specifically for students to cover expenses not covered by basic health care plans. More detailed information about the Plan is available on the website or at the Health & Dental Plan Office on campus.

Who is covered?

All AMS and GSS members who pay AMS fees for the Health & Dental Plan are automatically enrolled, including full-time and part-time students, international students, and those auditing a course. To verify if you are enrolled in the Health & Dental Plan, check your fee statement and look for the "AMS med/dent fee" line item. You can do this online through the Student Services Portal at <https://ssc.adm.ubc.ca/>.

What is covered and how much does it cost?

The Plan includes benefits for prescription drugs, health practitioners, dental care, vision care, travel coverage, and more.

The total cost of the Plan is \$223.45 per student, included automatically with university fees each September. The policy year is from Sept. 1, 2010 to Aug. 31, 2011. Students beginning in Jan. 2011 will be assessed \$148.97 for coverage from Jan. 1 to Aug. 31, 2011.

What if I already have health and dental coverage?

If you're covered by another extended plan (i.e. parent or spouse's employee plan), you can combine both plans to maximize your overall coverage and reduce or eliminate out-of-pocket expenses. You may also choose to opt out of the AMS/GSS Plan and have the fee reversed from your student account. All opt-outs must be completed within the Change-of-Coverage Period (see below) or within three weeks of your registration date, whichever is later. If it is your first time opting out, you will need to provide proof of other health and dental coverage. Visit www.ihaveaplan.ca and follow the on-screen instructions for opting out.

Can I enrol my spouse or dependants?

Students have the option of enrolling their spouse/dependants by completing an enrolment process and paying an additional fee. Common law and same-sex couples are eligible. Visit www.ihaveaplan.ca and follow the on-screen instructions for enrolments.

Blackout Period

Claims processing is delayed while studentcare.net/works waits for complete enrolment lists, after opt outs and enrolments have been processed. Returning eligible students who were covered in 2010's Winter Term 2 will not experience a Blackout Period in Winter Term 1. All other students will have a Blackout Period during the first two months of Winter Term 1. Only new Winter Term 2 students will experience a Blackout Period in 2011's Winter Term 2.

Claims can be dropped off at the Health & Dental Plan Office, but they will not be processed until the Blackout Period ends. You may also hold your claims until this time. Remember: claims are your responsibility until received by Sun Life. Practitioners and pharmacists can't accept Pay Direct or assignment of benefits during the Blackout Period.

Tuition Fees & Financial Options

There are many issues surrounding tuition and financing your education—get informed. If you are experiencing financial hardship, there are many options to help ease your burden provided by the AMS, UBC, and the provincial government.

The Cost of Education

Post-Secondary Education is an expensive endeavor, and we live in an increasingly expensive world. Tuition for Canadian citizens and Permanent Residents is set by the university and regulated by the provincial government. Domestic tuition cannot increase by more than 2% per year (inflation). Domestic tuition accounts for approximately 1/3 of the cost of attending UBC. International students' tuition is determined by the university and accounts for 100% of the cost of attending UBC.

Co-operative Education Program (Co-op)

www.coop.ubc.ca

The Co-operative Education Program facilitates employment opportunities for enrolled students. The goal is to successfully translate students' classroom knowledge to work settings by helping students integrate paid, full-time, four-month work terms into their university degree programs.

Work Study/Learn Program

www.students.ubc.ca/careers

Work and study at the same time. To help finance your education, students can work at a variety of jobs on campus, including with the AMS. For more information, visit Career Services in Brock Hall.

Government Student Loans

www.studentaidbc.ca

The government provides loans to students who cannot afford to finance their education themselves. BC and Canada Student Loans must be applied for at least six weeks before the end of your school term and do not have to be repaid until after you graduate.

UBC Student Bursaries & Scholarships

www.students.ubc.ca/finance

Students who have maxed out their student loans and still have unmet need may qualify for UBC bursaries under Policy 72. Bursaries are based on financial need and have a rigorous application process. UBC also provides scholarships for students who demonstrate academic excellence. These come in the form of President's Entrance Scholarships and faculty recommended awards.

AMS U-Pass & SUB Fee Bursaries

www.ams.ubc.ca

The AMS also provides financial hardship subsidies. If the U-Pass or SUB Renewal Fees are causing you undue financial stress, you can fill out the application form (found on the AMS website) for a partial or full subsidy. Resources are limited, so not all applicants will receive bursaries.

Chartered Accountants are leaders in business - respected professionals who are essential to the success of the country's foremost organizations. Your CA designation will make a powerful statement about you - about the value of your abilities and ideas, the exceptional standards to which you hold yourself, and all that you stand to accomplish throughout your career.

Chartered Accountants don't just balance the books and add up numbers. They're business professionals on the cutting edge in Canada and around the world. The CA designation is like a graduate level business degree that gives you career mobility, flexibility, and opportunity. Today, Chartered Accountants are business leaders and entrepreneurs. They're in small business, big business, and e-business - everything from high-tech to high fashion. They're CEOs and CFOs. And they get there because the CA program prepares them to excel as business professionals.
