## TO REBROADCAST WEBSTER'S SPEECH

UBC Radio will rebroadcast the speech made Friday by NW's Jack Webster at 1:05 today. Webster was brought to the campus by the Ubysssey.

## Foundation Offers Money

Applications are now being received for Leonard Foundation scholarships for 1959-60.

All interested undergraduate students who wish to receive information about these scholarships should call at Dean Gage's office, Buchanan building.

## Leader Needed To Fight Rise-Webster

Student fees at UBC will rise this year.

Vancouver newsman Jack Webster made this prediction Friday in the UBC auditorium.

Premier Bennett will then match the increased revenues instead of increasing government grants.

Speaking on the campaign against a proposed fee increase, Webster said, "One of the greatest difficulties is the lack of leadership from within the University itself."

Webster told his audience that the B.C. Government would probably sell the University Endowment lands "within the next few years."

He said that they would probably be sold "bit by bit, year by year."

Webster told his UBC audience that the B.C. Government would probably "sell the Endowment lands, bit by bit, year by year."

Lands would be sold to pay the University operating grant, he said.

The CKNW newsman said the Government had received the Turner report three years ago and "were doing nothing about it."

Webster's other predictions:

UBC fees will go up—Premier Bennett will then match the increased revenues instead of increasing Government grants.

The B.C. government will go out of power if an election is held this year and the part cause will be the Briggs and Sommers cases.

Webster described H. Lee Briggs, the ex-general manager of the B.C. Power Commission, as "a babe in the woods" politically speaking.

Webster said that in Briggs' place he would have waited until the Government had actually done something before speaking out.

"You can't catch this Government on opinions, only on facts," he said.

He described B.C. as "full of corruption, particularly moral corruption."

"The crime rates in Vancouver have gone up 50% since Police

## Sign Now For Symposium

Application forms for the Academic Symposium Weekend will be available at the AMS office in Brock Hill or from the Heads of Departments from Wed. Jan. 21 till Wed. Feb. 4.

Symposium Weekend will be Feb. 20 to Feb. 22, leaving on the Friday evening, returning Sunday evening, and will be held at Parksville, V.I. The fee for the delegates selected will be \$6.50, which includes transportation, food, and hotel.

Chief Mulligan left," Webster said.

"The Point-Grey molester may be in the audience today but the police will never catch him," Webster said.

"We have 25,000 drug addicts in Vancouver today," Webster said, "and Chief Archer says 'we're lucky'."

Webster criticized the "ghastly level of political apathy in this Province."

He said the Government's "brand of doubletalk" would not deceive a "thinking third-grader."

## VGH Nurses Unsimmering

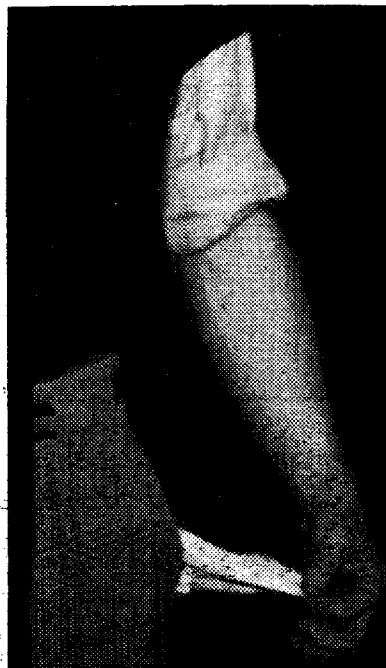

"The case of the kissing nurse" has temporarily simmered down at the Vancouver General Hospital.

The Nurses' Student Council issued a newsletter to their members Saturday stating that a student-administration meeting will be held Jan. 28th to "discuss improvements in the constitution."

Council President, Lorraine Rallison and seven Council members met Monday to discuss changes in the student constitution prior to this meeting.

Trouble flared at the Hospital last week following the Jan. 17 suspension of a student nurse for "kissing her boyfriend" in broad daylight.

Students felt the "kissing" incident was the "last straw" in a six-month student-nurses conflict over regulations governing behavior.

For other half, see page 3.

## ANNOUNCE DEADLINE FOR RAVEN COPY

Raven editor Desmond Fitzgerald announced Monday that the deadline for manuscripts is February 20.

## AMS Seeks Labour Aid

AMS president Chuck Connaghan will be a guest speaker at the next meeting of the Vancouver and District Labour Council.

The purpose of the talk will be to acquaint the Council with the fee-increase problem and to enlist the support of organized labour for the campaign.

Connaghan also reported Monday an invitation to attend the upcoming Conference on Unemployment, where he will meet representatives from Lower Mainland municipalities, church groups, and service clubs.

"These people must be made aware of the crisis at the University," Connaghan said.

## BEETHOVEN'S VIOLIN CONCERTO PLAYED BY HARRY ADASKIN AT NOON TODAY

Professor Harry Adaskin of the department of music will play Beethoven's violin concerto Wednesday at noon in Buchanan 106.

The concerto is one of the greatest works written for the violin.

Frances Marr will play the piano accompaniment.

## Who Cares?

It is time for a show of strength.

Just how strongly do students feel about a possible doubling of fees?

The Ubyssy calls for a large but orderly rally around the Cairn to commemorate the First Great Trek.

The rally would prove two things. It would show our dedication to the student heroes of the past. And it would show that we can match their zeal and initiative in fighting to maintain a university that is open to all worthy students, rich and poor alike.

We believe the rally could attract upwards of 5,000 students. This would be the largest UBC student meeting of all time.

We believe word of the students' dedication would be sent to all corners of the province through the daily newspapers and CBUT television cameras.

AMS President Chuck Cannaghan said of the plan that it "sounded good" and that "Council will consider it."

The plan would be appropriate because it would be a dignified responsible rally but at the same time it would give students an opportunity to show they really do care whether fees are doubled or not.

The Ubyssy calls upon Council to organize such a First Great Trek ceremony as soon as possible.

## Astounded

Editor, The Ubyssy,  
Dear Sir:

Upon reading the letter under the heading "God", in last Friday's paper, I was amused at first by the seriousness and the incoherence of the argument of the author. On second thought, however, I became somewhat frightened for the following reasons:

Apparently Mr. Crawford meant to be serious with his letter. If this is so, I am astounded by:

a) the ignorance displayed with respect to the objectives of scientific investigation in the field of physics.

b) the primitivity of the argument.

As far as (b) is concerned, may I just mention that if it should be true that "matter is a humming electronic nothingness" (or whatever Mr. Crawford may mean by this term), and Mr. Crawford does not like this, then he should voice his complaint to God who created matter that way and not to the physicist. The latter is merely investigating the world as it is, and the percentages of devout christians and convinced atheists are among physicists most likely similar to those among lawyers or other professional groups.

The frightening aspect is that there may be more prospective graduates on this campus similar in outlook to Mr. Crawford who will one day be leaders of our society.

May heaven help us then!  
Yours truly,  
K. E. RIECKHOFF,  
Dept. of Physics
