Campus in Throes Of Measles Scare Says U.B.C. Nurse

Severe Epidemic Threatened as Disease Runs Rampant Through Lecture Rooms And Playing Fields

The University is exposed to the dangers of a severe epidemic of measles. Mrs. C. A. Lucas of the University Health Service states that she cannot emphasize too strongly the danger to the student body arising at the present time.

An epidemic is widespread in the city, and in the last week a number of cases have appeared in the University. In order to prevent any further spread, all students have been requested to report to the University Health Service the slightest indisposition. The common cold is one of the first symptoms of the disease. For the sake of themselves and all other students, those suffering from colds should report immediately. Those however, who have suffered an attack, are generally immune from a second infection.

Seriousness Stressed

The seriousness of measles is not generally realized by the public. In some epidemics the death rate may reach 35 or 40 per cent. Pneumonia and mastoid are common complications arising from the disease.

Former Epidemic

In the 1927-28 session of the University before the establishment of the Health Service a serious epidemic ran unchecked, literally hundreds being affected. In order to prevent the serious loss that an epidemic will entail, all those suffering from indispostion, or those who have had communication with infected persons, must report immediately.

News & Views Of Other U's

"FRANKENSTEIN"

The University of Western Ontario publishes an impartial opinion on "Frankenstein:" The film is said to "stimulate thought by virtue of its unusual story," and all roles in it are admirably performed, it is stated. Some of the weak points in the picture were its incredibly exaggerated nucleus and its unnatural scenery.

OTHER U'S FAIL, TOO

From the U. of North Carolina comes the news that 1000 of their students are either below the passing mark or teetering on the border line. It seems that we aren't the only ones!

DUE TO THE DEPRESSION?

"AMAZING COLLEGIANS LIVE ON $146 YEARLY" is a startling headline appearing in the Washington State Evergreen. It appears that in Berea, Kentusky, any college student may get a meal for eleven cents and board for no more than 60 cents per week.

We're all for Berea.

MORE HI-JINXES

And the University of Washington is another institution that throws coed parties. The last one given realized $300.

HYMNFUL TEAMS

"Rugby teams of the U. of Saskatchewan always sing the Doxology in their changing rooms before playing," says W. F. Payton writing to the "Varsity."

Any statement as to what our teams sing would be censored.

INTERNATIONAL RELATIONS

The annual meeting for election of officers for the ensuing year and the report of the Reed College Conference will be held in the "Cat and Parrot" Tea Room on Wednesday. Jan. 27, at 8 p.m. All present and prospective members are requested to attend. All those intending to be present please drop a note to Miss Margaret Black, through the Arts Letter Rack.

LITERARY SUPPLEMENT

Literary Supplement to the Ubyssey will be published on February 8. Contributions are requested in the form of poems, short, short stories, book reviews, or articles of literary and artistic interest. Contributions should be handed in to the Literary Editor, Mollie Jordan, not later than Friday, February 5.

Irish Players Give Varied Repertoire During Visit Here

The visit to Vancouver next week of the Abbey Theatre Company Irish Players from Dublin will be greeted with interest by followers of the legitimate stage in the University and in Vancouver.

This company needs no introduction to students of the drama. Established in the early part of the century by a group of cultured Irish men and women, its aim was to present original plays expressing the Celtic ideal.

Among the early founders and contributors to this Irish theatre were Lady Gregory, J. M. Synge, Padraic Colum, Lord Dunsany and William Butler Yeats. The artistic work of the theatre since the war has not been neglected and such well-known dramatists as Sean O'Casey, St. John Ervine and Lennox Robinson, the present director who is now in Vancouver, have contributed their share to the advancement of Irish plays and the Irish cultural life.

This is the second visit of the company to America. Their first tour was before the war under the direction of Lady Gregory.

The Abbey Theatre Company was created as the National Theatre of Ireland by the Free State Government, and their present tour is with the express permission of the Free State authorities.

The company will present a varied repertoire during their short visit of one week at the Vancouver Theatre.

Bachelors Beware Dark Conspiracy Hinted be Coeds

Well, girls, it doesn't look as if there is much chance this year for the exercise of the traditional Leap Year's prerogative of women. Extensive research has disclosed the fact that only fourteen of the University staff are unmarried!

Many departments present a solid front to the possibility of attack from this source because they are already members of the majority. In fact only two departmental heads could be approached on the subject.

The department of Physics leads with a walk-away. Girls, they have three assistants hanging like overripe plums just spoiling to be plucked. The Department of English boasts two full-fledged professors—just imagine it! The Mathematical geniuses of the University have among their number, several unattached assistants, but rumor has it that these men will be hard to land.

Men students of the university must keep a wary eye peeled for the invasion of women members of the staff. The same research organization reports that over eighty percent of the ladies of the Faculty are donning their hunting costumes. Look out men.

"BRIGHTEST" CLUB IN THE STATES

A red headed boys' club is the most recent addition to the list of societies in the U. of North Carolina.

PROFESSER LECTURES VANCOUVER INSTITUTE ON ALLOY DISCOVERY

Great Strength in New Type Boilers Made Possible by Recently Discovered Alloys

"Due to the recent development of various alloys, enormous pressures at great temperatures may now be obtained in tube boilers," declared Prof. H. M. Thomson addressing a regular meeting of the Vancouver Institute, Monday, 8 p.m. The lecture was given under auspices of the B. C. Chamber of Mines.

As typical of boiler deveopment made possible by discovery of more suitable alloys, Professor Thomson cited the case of chromium-nickel-steel which will now permit generation of the same amount of steam as in the old style of boiler, at half the cost.

Mercury Boiler

A mercury boiler is now being constructed of similar steel. It is expected to be fifty or seventy-five per cent efficient as compared with a maximum of 34 per cent in the ordinary steam boiler. The necessarily high temperaturse for such a boiler is rendered practicable by the new type of steel.

"Iron Horse"

"A number of years ago we used to hear that electric locomotives were taking the place of the old "Iron Horse" but again discovery by metallurgists of new types of alloys has increased efficiency and decreased operating costs of the old steam locomotive," said the speaker.

"Lighter metals too have shared in improvement," he declared. "Duralinium has been made out of aluminium and copper, while magnesium metal, a still more recent discovery is strong enough to build airplanes, but only one third the weight of aluminium. Most recent of all is birillium, which has decided advantages over even magnesium," he said.

In concluding his speech, the Professor quoted "Alice in Wonderland" to refer to metallurgy: "It takes all the running you can do to stay where you are."

Famous Explorer To Lecture Here Thursday Night

One of the best known explorers in the world and a man who attracted world admiration together with a knighthood from King George for his epic dash to the North Pole last summer in the submarine Nautilus, Sir Hubert Wilkins of Australia will be a visitor in Vancouver next week.

Under the sponsorship of the Kinsmen Club of this city Sir Hubert Wilkins will deliver a lecture at the Empress Theatre on Thursday, January 28 at 8:30 p.m. on his famous submarine trip. The lecture will be accompanied by motion pictures taken during the trip.

Sir Hubert is now on the Pacific coast making plans for another polar trip and his lecture next Thursday will be more of an interesting and scientific value. Tickets are now on sale at the Kelly Piano Co. on Granville Street and special rates are being offered to students. The proceeds of the lecture will be used in the Kinsmen Club community service work.

Professor Boving To Talk on History Of Sweden's Arts

In what promises to be one of the most interesting addresses of the year, Professor P. A. Boving will trace the development of "Swedish Art" at a meeting of the Art Club at the home of Miss Muriel Christie, 1441 Mathews Avenue, on Tuesday evening, January 26 at 8:15 p.m.

Professor Boving will deal with the various aspects of the sculpture, painting, and architecture of Sweden, briefly mentioning the art of the other Scandinavian countries, from the carvings of the early Vikings to the most recent developments in Swedish architecture. His address will be illustrated by means of a collection of over two hundred beautiful photographs and prints.

All the members of the club and any others who are interested are cordially invited.

COURAGE OF NURSE CENTRE OF PAPER BY FORUM MEMBER

Mary Cook Reads Dissertation on Edith Cavell; Walpole Also Treated At Noon Hour Meeting

"Miss Edith Cavell, head of a Nursing Institute in Brussels, was secretly tried by a German court-martial on the charge of aiding English, French and Belgian soldiers to escape from Belgium, and on October 12, was hastily executed."

The story of Miss Cavell's heroic conduct during the World War was detailed by Miss Mary Cook to the Literary Forum on Tuesday noon in Arts 105.

A brief story of Miss Cavell's life and training before the war showed her high ambitions and steady capabilities. When war was declared she was the matron of the Berhendall Medical Institute, Brussels.

"During the first year of the war she nursed, without discrimination, Belgians, British and Germans. Throughout this period with the aid of friends in Brussels, she was instrumental in conveying many of the wounded Allied soldiers across the frontier into Holland where they were furnished with money, and thus able to rejoin their armies." This was the "crime" which won Miss Cavell her death sentence. Without a fair trial and separated from her friends, she faced her executioners with the utmost calm.

A memorial service was held for Miss Cavell in Westminster Abbey. The monuments throughout the world show the reverence and love which her sacrifice inspired.

The second half of the Forum's program, a review of Walpole's "Wintersmoon," was presented by Miss Jean Witbeck.

"Wintersmoon is the last of four of Walpole's books portraying a section of English society from 1900-27. This book is the story of the upper classes of post-war days."

The plot was carefully outlined and the excellent dialogue commented on. Miss Witbeck found little variety in the characters, most of them being simply types.

Large Enrollment In Horticulture Shows Popularity

Despite a raise from one dollar to two dollars in the registration fee, the annual short course in Horticulture offered by the Facutly of Agriculture continues to grow in popularity.

More people have attended the course each year, until this year the number of those registered exceeds eighty. So popular is the course that some of the students have taken it for as many as three years in succession. The enrollment includes not only men and women who earn their living from the soil but also many from the city who are interested in amateur gardening or care of house plants.

The course, which is in progress from Monday, January 18 to Friday, January 29, includes such sujects as vegetable and fruit growing of all kinds, home gardening, pruning, and raising bulbs. The mornings are occupied with lectures, while the afternoons are passed in laboratories and field practice. Lecturers include several government horticultural experts, as well as the professors of the Faculty of Agriculture.

S.C.M. to Sponsor Series of Addrsses By University Staff

Starting on January 26, the S.C.M. is sponsoring a series of lectures to be held every Tuesday at noon for six weeks, in Aggie 100. These lectures are centered round the theme of "A New Social Order," and will be given by members of the University staff.

Jan. 26, Prof. H. F. Angus, "Economic Reconstruction"; Feb. 2, Dr. H. L. MacNeill, "Christianity as the dynamic of a new social order"; Feb 9, Mr. John Ridington, "The influence of economic conditions on cultural development"; Feb. 16, Dr. P. A. Boving, "Heredity and Progress"; Feb. 23, Dr. W. Brewing, "Some developments in industrial ethics"; Mar. 1, Dr. G. M. Weir, "Education as a stabilizing factor."

Council Considers Hefty Curtailment Of Social Calendar

Favorable Public Opinion Sought in Economy Move on Part of Undergraduate Body

Discussion of measures for curtailing University social functions occupied Council for some time at their meeting on Monday night. The Senior Class Ball, scheduled for Jan. 29th, the Sc. '35 class party, Jan. 22nd, and the Freshman class party on Feb. 4th, were mentioned as being most liable to ommission from this term's social calendar.

It was held that the cutting of any one of the above functions would be unjust to the members of that class, and that only by curtailment of all three could a fair solution to the problem be obtained.

Turned Down Last Year

The student body last year considered a report drawn up by a special committee with regard to cutting down the number of social functions, and almost unanimously voted against curtailment of major dances. Council and Faculty are of the opinion that, in view of the present state of economic affairs and the uncertain conditions pertaining to University finances, some further step should be taken, with the full co-operation of the students, to reduce the number of social activities.

Council feels that such a step on the students' part would do much to influence public opinion in favor of the University, and takes the position that in the event of the rumoured reduction in funds becoming a reality, the University will be in greater need of public support than ever before.

No Science Ball?

With regard to the Science Ball, scheduled for February 12, Council discussed the deficit sustained since last year by the Facutly of Science, and made the decision that unless the amount owing were made good at once, the Science Ball could not be held this year. The alternative of allowing preparations for the Ball to go forward now, with payment of the deficit after the dance had taken place, was not considered practical.

The business of examining the expense accounts of members who travelled east during the Christmas holidays, as representatives of the University, or with the U. B. C. basketball team, was concluded satisfactorily.

Senior Class Ball To be Outstanding In Social Season

Lafe Cassidy will provide the music for the gyrations of the members of the classes of 1932 when they entertain in the Hotel Vancouver Crystal Ballroom with the Senior Ball, Thursday, January 28.

Seniors are requested to put their names and the names of their partners for the Ball on a slip and paper and deposit them in the box placed in the north end of the Arts Building for the purpose. Those who for any reason cannot attend will also place their names in the box stating that they are unable to attend.

Those who don't pair off will be drawn off, and the results posted on the Notice Board in the Quad. Entrance will be by invitation only, and these will be distributed to the women from the Box office in the Auditorium Building on Tuesday noon.

"Those who have not paid their fees will please remember that the class expenses are extremely heavy this year, and we ask all members of the class to settle with the treasurer as soon as possible if they have not done so already. Those who have not paid their fees will not be admitted to the Ball," stated the President today.

The dance will be formal. Patrons and patronesses for the affair will include President and Mrs. Klinck, Dean and Mrs. Buchanan, Dean and Mrs. R. W. Brock, Dean and Mrs. Clement, Dean M. L. Bollert and Professor and Mrs. H. F. Angus.

An elaborate supper, in keeping with the precedent established by earlier classes will be served.

C.I.P. Union Plans To be Submitted For Appropriation

Plans for the formation of a western division of the Canadian Intercollegiate Press Union as outlined by W. F. Payton, editor of the Toronto "Varsity" during his recent visit to the west, are bearing fruit.

Tentative plans were discussed at a recent meeting at Saskatoon between the editors of the Saskatchewan and Manitoba student papers. The successful fruition of these plans will greatly facilitate the exchange of intercollegiate news and ideas between Canadian universities.

The Canadian Press Union is at present operating at Toronto University, Queen's Western Ontario and McGill. The addition of the four western Canadian university papers will greatly widen the scope of its activities and usefulness.

Under the plans of the Union the Ubyssey will relay news of interest by wire to the University of Alberta paper which in turn wil pass the news eastward. In return the Ubyssey will receive the pick of eastern student news by wire from Alberta.

Final arrangements between Ubyssey and other western student papers are expected in a short time.

COMING EVENTS

Hi-Jinx: Friday, 7:30 p.m. Gymnasium.

In the Library

The following books have recently been purchased by the University and are now available at the Library:

The year's work in modern language studies. Vol. 1. Year ending June 30, 1930.

Newton, A. P. An introduction to the study of Colonial history. (Helps for students of history. No. 16).

Gooch, G. P. The French Revolution. (Helps for students of history. No. 29).

Baker, R. S. Woodrow Wilson.

Dafoe, J. W. Clifford Sifton in relation to his times.

Pringle, H. F. T. Roosevelt.

The Dalhousie review. File.

Dalton, A. C. The future of our poetry.

Canadian newspaper service, reg'd. "Reference book." File.

Hearnshaw, F. J. C. The social and political ideas of some representative thinkers of the revolutionary era.

Bergson, H. L. Creative evolution.

Curti, Mrs. M. (Wooster). Child psychology.

Palmer, G. H. The problem of freedom.

Parry, Sir Charles H. H. Style in musical art.

Boodin, J. E. A realistic universe.

Stanford, Sir Charles V. Musical composition.

FRIDAY, JANUARY 22, 1932

VARSITY VALUE

Of what value is the University to business in Vancouver? This question, in view of the downtown attitude, demands an answer.

The governmental grant to the University last year was $457,000.00; students' fees amounted to something over $250,000.00, so that the total amount spent in Vancouver by the University itself is this year $707,000.00. This amount is spent with business organizations of Vancouver for supplies, which the University uses during the college year. It includes, of course, professors' salaries, which are largely spent for food, clothing, and shelter, within the city.

The University gives employment to one hundred and forty odd professors and assistants, and about twenty-five janitors, electricians, fifteen stenographers, and other similar employees.

It gives direct employment to at least one hundred and ninety men and women of this province, and reduces the available labor supply in the province by at least two thousand. In times like these when there are already ten thousand men working in relief camps throughout the province and many others receiving direct relief in the various cities and municipalities, an added two thousand would be a very serious drain on the purse of the long suffering tax-payer.

The two thousand students spend at least fifty dollars a month for seven months of the year. That is to say, the student body gives Vancouver business trade to the value of seven hundred thousand in clothing, amusements, food and other products. Assuming that the four hundred and thirty summer session students spend the same amount for two months, it means that forty-three thousand dollars is added to the amount which directly benefits Vancouver business.

The annual turnover of the Alma Mater Society is approximately forty thousand dollars, spent for stationery, sporting goods, and other things, all of which are bought in Vancouver; besides the direct employment which it gives.

Summarizing what has preceded: $1,490,000.00 is directly spent in and around Vancouver by people directly connected with the University, or by the University itself; employment is given to one hundred and ninety men and women of the province; and the available labor supply of the province is reduced by two thousand.

Let Vancouver say whether the University is "good business" or not.

SOCIAL SERVICE

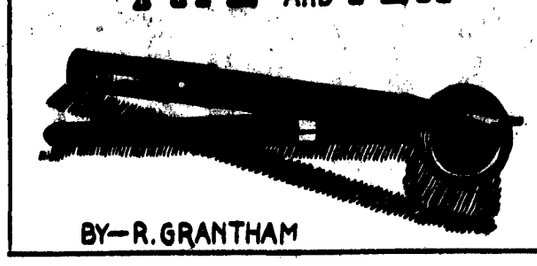
The last issue of the Ubyssey contained a prominent front page announcement to the effect that there would be an Alma Mater meeting to discuss the curtailment of social activities. Subsequent notices announced that the meeting was postponed and so at present the social program has remained unmolested.

This movement to reduce the entertainment side of University life originated at the regular Council meeting on Monday night and, while it has not materialised to any extent, due to the postponement of the Alma Mater meeting, it is interesting to consider the merits and demerits of the case.

In the first place it seems that some of the previous functions have resulted in a deficit which is a serious matter in these days of reduced budgets. The difficulty with this fact is that many of the functions belong specifically to one or another group of students and it hardly seems fair to penalize one group for the shortcomings or misfortunes of another.

The second reason given to justify the proposed curtailment is that public opinion will be favorably impressed by the sacrificial attitude of the students.—The papers will not be filled solely with reports of University dances which at present constitutes the major part of University news which gets into the public press. —The need for creating a favourable impression in the public eye, particularly at the present time, cannot be denied. However, to cut out the functions in order to avoid the reports pertaining thereto seems to be attacking the problem from the wrong end. What has happened to the press committee which at the beginning of last term was appointed to consider the matter of all University news which went outside the University.

PIPE AND PEN



BY—R. GRANTHAM

Madrigals

The singing of several madrigals by six members of the Musical Society at the last noon-hour concert was a delightful innovation.

Comments expressing pleasure were to be heard on all sides. Unfortunately, it is said that there can be no more of this group singing this year, but one hopes for its continuation whenever possible.

* * *

Freshmen Pay Their Way

At first sight, the suggestion of a graduate, writing to the editor, that the freshman class be eliminated next fall as an economy measure, appears to merit consideration.

It is true that Senior Matriculation classes are held in some high schools, but the accommodation is not sufficient to care for additional hundreds of students. Furthermore, a large proportion of the total University fees comes from Freshmen. For these reasons the idea suggested is "not so hot."

* * *

Irish Drama

Having given free advertising to the British Players, it is only fair that I should do the same for the Irish Players. This company, from the Abbey Theatre, Dublin, opens a week's engagement at the Vancouver Theatre on Monday. The Abbey Theatre, founded over twenty years ago by William Butler Yeats, Lady Gregory, and others, has been an Irish cultural centre, and is called "The National Theatre of the Irish Free State."

I am not very familiar with the subject, but I know that this is a great age in Irish literature. Such names as J. M. Synge, William Butler Yeats, James Joyce, Sean O'Casey and James Stephen are among those famous in the world of letters.

Those who are not acquainted with these plays will be delighted. Synge's work is particularly notable. The language is, of course that of the Irish characters, with their peculiarities of speech, and it is full of beauty and poetry. The Irish Players deserve as hearty a welcome as that accorded to Sir Barry Jackson's company.

* * *

Our Social Order

The S.C.M. is sponsoring a series of unusually interesting noon-hour lectures this term. They will all have something in common, for they may be said to deal with various aspects of our social order and the outlook for the future.

On January 26, Professor Angus will speak on "Economic Reconstruction," a problem of great concern to everybody at the present time. Then Dr. McNeill of Fairview Baptist Church will discuss "Christianity as the Dynamic of a New Social Order." The subject is of very great interest, and I am particularly eager to hear Dr. McNeill present his case. Mr. John Ridington has taken a fundamental topic, "The Influence of Economic Conditions on Cultural Development." Dr. Boving will deal with the confused question of "Heredity and Progress." Dr. Brewing of Wesley United Church will speak on "Some Developments in Industrial Ethics." Dr. Weir, head of the Department of Education, will conclude the series with an address on "Education as a Stabilizing Factor."

To all who are interested in the world in which they live, every one of these lectures should prove stimulating and valuable. The S.C.M. deserves a vote of thanks for having arranged such an excellent program.

Contrarycarried.

S. L. Rothafel (Roxy) — I would not have missed the experience of visiting Russia for a million dollars, but I would not take a million dollars to go back.

* * *

John Masefield—The systems of government in use are largely those of the eighteenth century.

* * *

Clarence Darrow—Man does not make rules of life and then live according to those rules; he lives and then he makes rules of life.

* * *

Elihu Root—The capacity for happiness must come from the ability to feel and sense the imponderable of beauty and truth.

* * *

Two Hamilton youths will not partake of a chicken dinner for the next two years. They are serving terms for stealing chickens.

Letters to the Editor

SPORT ON THE CARPET

Editor Ubyssey:

In an endeavor to clear up any misconceptions that may have arisen out of the Sportorial appearing in the last issue of your paper, I feel that it is my duty to express my own views on the several points brought up. Might I say that this reply results from the fact that I was the official B. C. Delegate to the W.C.I.A.U. and W.C.I.R.U. meetings in Saskatoon, and also manager pro tem. of part of the Basketball Tour.

I disagree with the Sportorial's comment that "certain of the other colleges in the W.C.I.A.U. are forming the habit of imposing upon the students of U.B.C." Such a statement, unfounded as it is, is certainly not to the best interests of Intercollegiate relationship.

In regards to the Basketball Tour, it is true that Manitoba, by their indecision, upset arrangements to such an extent that greater economy was required throughout the trip. Another factor forcing economy was indefinite guarantees posted by several of the other teams. The final arrangement with Manitoba, although not as good as we would have liked, was very fair under the circumstances. By a mutual arrangement they were to pay us a minimum guarantee of $100.

We at B. C. should appreciate Manitoba's position. They have no compulsory fee but have to rely on a voluntary fee, receipts from sale of student scrip books, and activity returns. Owing to their financial instability last year, they were faced with the prospect of being out of Intercollegiate competition this season. They, however, have found it possible to remain in this year but are still on probation. Surely, they cannot be fairly attacked for the conservative manner in which they handle their finances?

In regards to the proposed U. B. C. Canadian Rugby Game in Winnipeg next fall, as far as I am aware, there has been no official report to the effect that Manitoba cannot meet the minimum liability of $800.00. As a matter of fact, there are several definite reasons against our team making such a trip, among which are: long absence from lectures, and the high expense. The other arrangement, where U.B.C. plays Alberta and Saskatoon only, is much more suitable in respect to these two important considerations.

The Sportorial's concluding remarks, I judge, were for effect only and not meant to be taken seriously. I say this because the three other Universities say that Intercollegiate competitions costs them amounts which are at least twice as much as ours.

I would like to suggest that the author of any subsequent Sportorial be sure to confirm its substance before publication. Erroneous comments only lead to trouble. In regards to the Sportorial under question, my personal opinion is that there was no justification for the attack on the W.C.I.A.U. and W.C.I.R.U. and its members, and that an apology should be forthcoming.

Yours for better Intercollegiate Relationship,
G. A. DIROM.

Ed. Note: The authors of Sportorials and other material which appears in the Ubyssey always endeavour to confirm the substance of their reports before they are published. We agree that erroneous statements only lead to trouble. We shall be happy to present to our authority for any statement which appeared in the Sportorial under discussion. We are interested in writer's personal opinion with regard to the necessity of an apology. It is not the same as ours.

Class and Club Notes

PHYSICS CLUB

An open meeting of the Physics Club will be held next Wednesday at 3:10 p.m. in Science 200, when Bob Armstrong will speak on "Diesel Engines" and Ron Makepeace will discuss "Oxygen in the Solar Corona." All physics students and all others interested are invited to attend.

LA CANADIENNE

The next meeting of La Canadienne will take place on Tuesday evening, January 26, at 8 p.m., at the home of Miss Jean McIntosh, 5811 Marguerite Street; take No. 7 car to 41st Avenue, and Adera St.—walk one block west to Marguerite, then one-half block south. Mme. Darlington will speak.

S. C. M.

Tuesday noon lecture—Aggie 100, 12:10 p.m.
Speaker: Prof. H. F. Angus.
Subject: "Economic Reconstruction."

PARLIAMENTARY FORUM

"Resolved that the present attitude of the government concerning university credit is justified," will be the subject for debate at the meeting of the Parliamentary Forum to be held Tuesday, 26th, at 7:30 p.m., Arts 100. Leaders of the Opposition, Miss Lehman and Jack Shaneman, will uphold the resolution. Bill Cameron, Vic Rryer and Mr. Guthrie are leaders for the government.

At a business meeting to be called soon, the question of allowing outsiders to take part in the debates will be considered.

C. O. T. C.

The Corps will parade Wednesday, January 27, at Beatty Street Drill Hall, 8:00 p.m. sharp.

Dress—Drill Order i.e. Uniform, Rifle and Side Arms.

Training—The Corps as a whole will practice for the Annual Inspection in addition to the regular syllabus of training.

"A" and "B" Candidates C.O.T.C. —These men will engage in a recapitulation of practical subjects including drill, to prepare them for the Practical Examination to be held on January 31 at the Drill Hall. The condidate making the highest marks at this Examination will be awarded a prize of five dollars.

Rifle Shooting—The scores of the practice shoot held on January 20 show a marked improvement over the last practice. On January 27, the Rifle Team will be selected to fire in the first match of the Inter-University Rifle Competition.

Annual Dance—The regular annual Dance will be held at the Jericho Country Club, March 2.

FRESHMEN, ATTENTION

Freshmen class crests will be available at the Manager's office, Monday, January 25. Price 70 cents. Class pins have been ordered and should be on hand by the first of February.

Plans for the class party are under way. The date set is Thursday, February 4. The place is the Alma Academy. Notices re class fees will be posted this week.

BIOLOGICAL DISCUSSION CLUB

There will be a meeting of the Biological Discussion Club at the home of Dr. Dickson, 4649 West Twelfth, at 8 p.m. on Monday, January 25. C. Jamieson will give a paper on "Darwinism." All members are requested to attend.

DER DEUTSCHE VEREIN

The first meeting this term of the German Club will take place Monday next at the home of Dr. A. F. B. Clarke, 5037 Maple Street at 8 p.m. There will be a musical program. Members without cars are requested to be at the south-west corner of Maple and Broadway by 7:45. Those who have not yet paid their fees are requested to do so as soon as possible.

MATHEMATICS CLUB

A meeting of the Mathematics Club was held on January 14 at the home of Mr. Richardson. Mr. Tom Parker gave a short paper on magic squares and then the members of the club competed in several mathematics contests. After an enjoyable social hour the meeting broke up for the evening.

HISTORICAL SOCIETY

The Historical Society will hold a meeting on Monday, January 25 at the home of Mrs. J. S. Davidson, 3798 Marine Drive. A paper on "British Columbia and Confederation" will be given by Frank Snowsell.

Blended Right!

Sir. Hubert Wilkins

The famous Arctic Explorer, under the sponsorship of the Kinsmen Club, will deliver a lecture, illustrated with motion pictures, on his famous submarine journey in the Arctic last summer.

AT THE

EMPRESS THEATRE

Thur. Jan. 28

at 8:30 p.m.

TICKET OFFICE NOW OPEN AT

KELLY PIANO CO.
Granville Street

$1, 75 cents and 50 cents

—Special Rates for Students—

Make your reservations early. Sponsored by the Kinsmen Club

A prominent national advertiser of tobacco is anxious to find out the preference of University of British Columbia students in the matter of cigarettes.

Many students who send in their name and address with the name of the brand they prefer, will be given free samples of a popular make. This survey entails no obligation on the part of the students, and a coupon blank is listed below.

NAME .....

ADDRESS .....

Cigarette .....(Brand preferred)

Pipe Tobacco .....(Brand Preferred)

Roll Your Own .....(Brand Preferred)

Kindly deposit your slip in boxes provided in Arts Building and Auditorium.

Last Night - -

Last night I had a dream. Thus: There was a rap at the door, and in walked a man, saying, "Yea, I am H. G. Wells. Wouldst like a trip in my time-machine?" And in the same courtly spirit I replied, "Uh-huh."

Next we found ourselves transported to his Time-machine.

"Where would you like to go, sirrah?"

"Anywhere, O most munificent one."

So the mad genius twirled a knob three times. "We are going back," he said, "to ten thousand B. C. And," he continued, "the place is in Mexico."

He adjusted several contraptions, and finally pulled a switch. A tremendous roaring filled my ears. "Fight! Fight! Rah! Rah!" I whispered in spite of myself. Everything went black. . . . .

I woke up to find myself lying on a bit of grass, and several stones by the feel of it. A man in a flowing purple robe was bending over me.

And then, in the fashion of dreams, I found myself in the court, with the King ordering the execution of his Grand Vizier.

"Hast thou never heard, miserable, of the Divine Right of Kings?" he hissed. "Darest thou to question my right to order thee to dress the flagpole in spats?"

"Let me tell you a fable," he continued, as he munched a piece of pomegranate pie. "Grand Viziers have always been a nuisance. Hearken.

"There was once a King of this country who, having heard of King Suleiman Isaac McCohan de Ginsberg, decided to go him one better. He married one thousand and one wives. His offspring, to put it bluntly, were numerous.

"When these children were nearly twenty years of age, he decided to continue their education. Going on a far journey to a place called Chile Wak, he left many tutors to instruct his sons and daughters in many arts and sciences.

"But the Grand Vizier, by name, Patrick Algernon McFarlane, was a relation of King Suleiman Isaac McCohan de Ginsberg, and had inherited some of that worthy man's parsimoniousness. In fact, he had inherited it all.

"So first he refused to give moneys for the King's Royal Bird Bath, which was in need of its Annual filling of water.

"And then he refused to buy a new button for a member of the Dishwashing fraternity. And then, with a scream, he decided to cut the fees of the tutors for the King's children!"

But just at this point the dream faded, as dreams will. I heard Wells beside me murmuring, "Too much static." The inventor was struggling with the dials, trying to get back in time to hear the end of the story. He made a slight mistake, and we landed twenty years later.

All around us were men digging ditches. "The unemployed," whispered Wells.

There were no engineers to direct them. But wait, there was one, evidently a Russian, just around the corner, probably looking for Prosperity. The Palace was closed, for there was no one civilised to inhabit it. There was no King, for no one knew enough Economics. We could not account for this; we guessed it was the advent of Communism, and let it go at that.

H.M.S. "PINAFORE"

WHAT PEOPLE ARE SAYING

Dr. Clark: "Being merely one of those who eat the crumbs from the MINISTER'S table, I suggest that as our crumbs are diminished, so also ought we of French 3 (a) diminish our readings."

Dr. Ashton: "I come in here and babble like a lunatic."

Prof. Robertson (to Mavis Rich): "You'll never make a farmer's wife."

Mavis in reply: "That's all right, I have no such intention.'

Prof. Sedgewick: "Economists don't know what the words they use mean.

Betty Gourre: "I came as a complete surprise to our family."

Dr. Clark (as lights dim and then go out): "Ah! The university is closing."

Ronald Grantham: "I like thimplithity."

Frances Lucas: "I was talking about Council Members—not men."

Marion Hamilton: "Who is Mr. Payton?"

Day Washington: "Hey, let go of my wife!"

A Tragedy

There was once a little measles germ by the name of Honnerrinch. He was a very good little germ, most oft the time, but he wouldn't listen to his momma's words of warning.

"We are now," she said, "living in the throat of a very nice and peaceable janitor. Don't run away to anybody's home."

But the little Honnerrinch wouldn't listen. One night he got out of his nice little bed and looked out the window. He saw a nice big moon shining far up above him. How was he to know that it was just the tip of the janitor's cigarette? He had never smoked a cigarette himself in his life before.

So little Honnerrinch wrapped up all his treasures, including the bit of cheese that had got stuck in the janitor's throat, and fared forth.

He landed in the throat of a politician's son. By and by, when he was getting quite old, the son grew up to be another politician.

And he made a speech.

And after two hours of it, Honnerrinch died.

Which just shows you.

The Fishsoup Mystery
By M. E.

The great Blowout lighted a cigarette, and throwing it away, continued. "It is obviously," he said, "a murder. Now someone must have committed that murder. In all my vast experience," he murmured, "I have never yet seen a murder that did not reveal a murderer, nor have a ever seen a murderer that had not committed a murder.

"The only point is, who committed the crime? It's a very subtle point, and one that I must solve for the aesthetic entertainment it will give me. Come," he said, throwing away the piece of toast he had been munching, "let us go."

We moved out of the Chinese gambling den that we had been eating in; absent-mindedly Blowout forgot to pay his check.

A long, low Packillac, seventeen cylinders, was purring at the curb, much as a hungry mouse does. Blowout leaped in; the car swept away, when suddenly Blowout jammed on the brakes. The car skidded to a standstill. "I've forgotten the ignition-key," he explained. He was back in a minute—no, two minutes—and once more the car swept majestically on.

As we whizzed round a corner, I asked where we were going.

"Don't know," replied the mastermind, "but something always happens in these stories."

Almost immediately something did happen. There came a rattle. "Fisher's Ford, "I gasped, as memories of that magnificent contraption came tumbling back. "Machine-gun!" yelled Blowout, "Duck!"

I ducked. Blowout lit a cigar. Throwing it away, he threw the car into high. Round another corner we swept on one wheel. Prosperity wasn't there. We tore round another corner; faster and faster went the car. Fourteen—fifteen—fifteen and a half— "Faster, faster," shouted the Red Queen. No, that's the wrong story.

Suddenly, above the roar of the kiddie-cars behind us we heard another sound. Dim forms loomed up in front of us, mounted on scooters. "Ping!" and another redskin bit the dust. No, no, my mistake. The ping was caused by a knife of Oriental design that was now quivering in the glass of the windshield.

"Chang Suey and his tong men," burbled Blowout as he lighted another cigarette and threw it away.

"Caught between two fires," I hissed, and not a service station in sight. I want some fish and chips," I remarked as I hadn't eaten for six weeks.

Blowout jumped out of the car, and stopping just long enough to stroke a stray kitten that had wandered up, I joined him. "Where are we?" I asked.

"Hogan's Alley," shouted my companion in a low voice. We could not hear a sound, except the squeak of shoes as the Chinamen surrounded us.

"In here," snarled Blowout, smashing a window. In we went. The room was dark; Blowout lit a cigarette, and as he threw it away, we saw a door in the corner. Through it we rushed stealthily. We found ourselves in a corridor. A peep-hole was open at the other end, framing the face of Chang Suey. It slid shut. Desperately we tried to open the door we had just come through. It was locked! Chang Suey's evil laugh whizzed slowly round us.

H.M.S. "PINAFORE"

Measley Nuisance Reported

Five out of four may have them! You may have them next! Gangway! The germs of ghastly horror are floating around the University AT THIS VERY MINUTE! Have you got them?

If you have, we, Co-Co and Co., strongly advise you to drown yourself. But not in the Lily Pond. Wherever you do it, not, of all places, in the Lily Pond.

Another very good method is to dip your head in a bottle of India-ink. Hold it there for half an hour. This is guaranteed to cure measles, writer's cramp, athlete's foot, gout, unfortunate love affairs, and something else, which I have forgotten for the moment.

Go to your dentist twice a day. Brush your teeth once a year with the very best boot-blacking. Remember that, it must be the VERY BEST BOOT POLISH.

Be careful how you go around corners. I am not suggesting that you might see Prosperity, in which case you would die of fright, and you wouldn't like that, would you?

But you might bump into a measly measles germ. They are very liable to get lonely, and they attach themselves to the first person with a tenacity that must be seen to be believed.

I remember once how a little measles germ, by the name of Honnerrinch—but that, as Kipling so tritely remarks, is another story.

COURAGE OF NURSE CENTRE OF PAPER BY FORUM MEMBER

(Continued from Page One)

"To all, the theme of this novel is not pleasing. Can a progressive society be built upon such marriages as these that have expedience rather than love and devotion as their motives?"

The tradition, hopes and fears of the typical Englishman Miss Witbeck felt were particularly well presented.

The report of Miss Gourre on a skit for Hi-Jinks was heard and approved. Work on this is now well under way.

In conclusion, an amendment to the constitution was unanimously passed to the effect that all members must pay a fine of fifty-cents for every meeting missed without excuse, and must resign after missing two consecutive meetings.

Members are asked to read "Jalna" by Mazo de la Roche before the next meeting as it is to be reviewed then.

NEWS AND VIEWS OF OTHER U'S

(Continued from Page One)

MARS DISTINCTLY UNPOPULAR

Evidence of the feeling of students on the subject of disarmament was plainly seen in Yale College when 92 per cent. of those who voted, favored reduction of armaments. Compulsory military training was also overwhelmingly opposed.

CHAPERONES NEEDED

Co-eds of the University of Missouri have recently been forbidden to visit the dentist unless accompanied by a chaperone.

"Many a slip 'twixt drill and lip."

NOON HOUR TALKS ON CHOOSING A PROFESSION

Speaker: Dean Brock.
Subject: Occupations open to the Applied Science Graduate.
Date: Tuesday, January 26.
Place: 102 Applied Science Bldg.
Time: 12:25 noon.

A CORRECTION

In the Ubyssey of January 15, a member of the Musical Society was quoted as saying that the society was not allowed to have the auditorium heated for its last recital. This statement was inaccurate. The fault in the matter lies with the Musical Society, and not with the Superintendent of Buildings. The Society neglected to inform him in time for him to have the heat turned on from the power house. —G. Cuthbert Webber.

LOST—Pipe on compus. Finder please return to Pub. Office.

PEP CLUB

At a meeting of the Pep Club held Thursday in Arts 100 a temporary executive was appointed to reorganize the club and to plan definite activities for the term. The activiles will probably include a Pep Meeting in the near future. The Executives are requested to watch for a meeting to be held soon.

A general meeting will be held next Monday.

Alleged Jokes

Mrs. Richly was preparing for the great banquet.

"Janet," she said to her maid, "did you get the flowers that I'm to wear in my hair tonight?"

"Yes, ma'am, but—" commenced the girl.

"Well, well, but what?" she asked.

"I've mislaid the hair, ma'am," the girl informed her.

Mr. Cubicle—What do you think of my new son? Fine kid, eh? His head's shaped just like mine.
Mr Frankish—You're right. It's a chip off the old block.

CAMPUS SPORTS

Intermediates Lose in Basket Fray Wednesday

Varsity's Intermediate "B" team went down to defeat once more on Wednesday night at the New Westminster Arena when they lost to the fast-stepping McKenzie and Fraser five by 38-9.

For the first five minutes of the game it looked as though there might be some competition. Norm Hyland sank the first basket of the game, New Westminster retaliated with two baskets and then Jack Richardson of Varsity tied the count at 4-4. From that time on the game had all the earmarks of a first-class slaughter. Little Charlie Holmes of the McKenzie and Fraser gang sneaked in for basket after basket and Cy Phillips of Science '35 is reported to be chasing the diminutive flash yet. A veritable shower of baskets rained on the Varsity net and half time found the count 18-5.

The second half proved even worse than the first, about the only time Varsity players getting their hands on the ball being for throw-ins. The New Westminster boys showed how they got to the top of the league with fast breaks and good shots. Norm Hyland, Varsity captain, relieved the tension, or perhaps it was the embarrassment of the Varsity five when he sank a nice shot from well out. With but five minutes to go, Varsity scored again on a nice play. Although all reports are not in on the McKenzie and Fraser score statisticians have assembled below the efforts of the Varsity five:

Hyland (6), Richardson (2), Keate (1), Harper, Phillips, McLellan, McIntyre, Aqua.

Soccermen To Engage Point Grey

Varsity Senior Soccermen will complete their postponed engagement with Point Grey United, on Saturday at 2:30. The scene of the battle, McBride Park (east). The Varsity boys are out for scalps this week, as the Point Grey team has won their protest against the playing of a junior player in the cup game during the holidays, and Varsity intends to show them that, even if they cannot call in Junior aid, they can still take the verdict.

The line-up is as for last weeks game. Capt. Kozoolin will try his hand at centre-forward, Ernie Costain taking his place at centre-half. Jock Waugh will hold down the right wing position, while the rest of the team is the same as for previous games.

The team: Frattinger, McGill, Grant, Wright, Costain, McDougal, Munday, Kozoolin, Todd (D), Todd (L).

The Junior line-up is still uncertain, but will be posted soon. The game is with Victoria Road at Fleming School. The boys, after their recent showing, are confident of taking the game and raising their total a little higher.

MEN'S GRASS HOCKEY GAME

Varsity will meet Crusaders on Saturday at 2:30 p.m. at Connaught Park. The match is of double importance counting both for place in the Mainland League and entry in the O. B. Allan Cup series. The game is eagerly anticipated and according to Coach Black, the following will represent Varsity: Selder, Ritchie, Delap, Jakeway, Semple, Bans, Barr, Punnett, Knight, LePage, Snowsell. Reserves, Boisglieu, Scott.

SPORT EVENTS

ENGLISH RUGBY:
Miller Cup:
Varsity vs. Rowing Club
(Brocton Oval, 3 p.m.)
Second Division:
Varsity vs. Marpole
(Marpole, 2:45 p.m.)
Third Division:
Varsity vs. Ex-Normal
(Renfrew Park, 2:30 p.m.)
SOCCER:
Varsity vs. Point Grey United
(McBride Park, 2:30 p.m.)
GRASS HOCKEY:
Varsity vs. Crusaders
(Connaught Park, 2:30 p.m.)

Miller Cup Team Meets Rowing Club

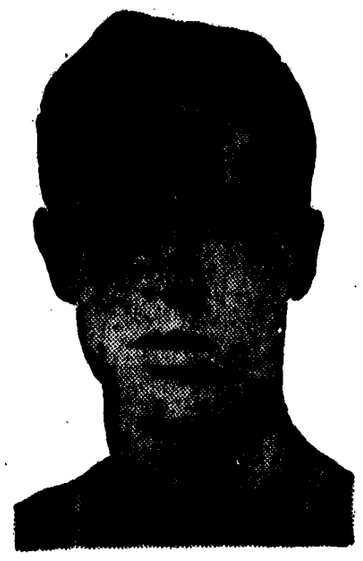
Varsity's Miller Cup English rugby machine will get into action tomorrow afternoon when they play the league-leading Rowing Club fifteen at Brockton Point at 3 p.m.

The Blue and Gold squad will be "all-out" to win, as a victory for the Rowers will give them the Miller Cup.

Varsity is fielding a stronger team than before, and all members of the team have been turning out regularly for practice. The increased strength of the team has bolstered up the morale considerably, and a close game is to be expected.

In the Second Division Varsity plays Marpole Athletic Club at Marpole, Saturday 2:45 p.m.

Varsity and Ex-Normal will clash in the Third Division at Renfrew Park, Saturday 2:30 p.m.



BOB OSBORNE

Bob is the new captain of the Blue and Gold basketball quintette, and got that position by popular choice. He has played Senior "A" since his freshman year and was one of the strong cogs in the basketball machine that won the Canadian championship last April.

SOCCER CUP

In an endeavor to rescue the inter-class soccer competition from the tender mercies of our so far exceedingly rigorous climatic inclemencies, the Soccer Club has decided to abandon the leagues and to substitute a knockout series for the Varsity soccer championship and the Soccer Cup. With nearly seventy per cent of the league games yet to be completed and with interest falling off owing to the increasing number of postponed games, the above proposal appears to be the only method of determining the winners of the Cup before the expiration of the term.

Sc. '34 hold this handsome trophy at present, but the Arts representatives prophesy a change of ownership before the end of the knockout series.

NOTICE

The first round draw in the new knockout series for the Soccer Cup will be announced in next Tuesday's issue of the "Ubyssey." Games will probably start next Wednesday.

BASKETBALL CLUB

A general meeting of the Basketball Club will be held in Arts 108 at 12:15 today, Friday. All members are requested to attend.

H.M.S. "PINAFORE"

VARSITY CAGEMEN SUFFER DEFEAT BY EXCELSIORS SQUAD

Blue and Gold Team Take a 28-19 Trimming on a Small Floor—Churchmen Open Up in Second Period and Leave Varsity Squad Flat-footed

Bob Osborne Elected Captain of Team

Varsity's senior A basketball team, the squad that manages the unusual, pulled another fast one by taking a 28-19 trimming from the First Church Excelsiors at King Edward Gym on Wednesday night. After battling on even terms for 36 minutes, the collegians let the church squad through for 11 points in the last part of the struggle.

Undoubtedly the Blue and Gold squad was bothered by the small floor, but the boys from Point Grey looked less like a Canadian championship squad than they have before this season. Excelsiors took the lead at the start and while the students were getting under way, ran in nine points. At half time the U. B. C. squad had started into action running in four baskets and a foul shot to tie the count at nine all.

Varsity opened the second period with a strong attack and for several minutes looked something like a senior squad. Campbell broke through to sink two pretty baskets and Laurie Nicholson added another. The burst, however, did not last and toward the close the church squad began a spurt that left the collegians flat-footed.

With four minutes to go and the score tied U. B. C. took time out. The rest seemed to break up the Varsity morale, and the Excelsiors ran wild to cinch the contest.

Throughout the fixture the Blue and Gold squad showed the effect of the loss of Bob Osborne and Ed Armstrong, who are on the injured list, while the absence of Cy Lee, Wally Mayers and Harold Straight did not aid the student cause materially.

In a meeting held at noon Tuesday, the Varsity Basketball team unanimously elected Bob Osborne as captain of the Senior "A" squad for the present season. Playing his second season for the Canadian Champions, "Tony" was a big reason for the Blue and Gold victory over the St. Catherines Grads in the title series last April.

Prospects of a two game series with the Oregon State Teachers College is looming following a telegram received from the Oregon squad asking for games on January 27-28 or January 29-30. So far no action has been taken on the campus but a definite announcement should be made before the end of the week.

Varsity—Walmsley, McIntyre (2), Wright (6), Root, Nicholson (4), Campbell (7)—19.

Excelsiors—Henderson (2), Garf, Hunter (1), Leach, Donnelly, March (8), F. Main (4), A. Main, (9), Andren (4)—28.

POT SHOTS
FROM THE PRESS BOX

At the University of Washington the student council is having more than a little trouble in balancing its budget for the coming year. It all centres around the football season, which last fall was not the vertiable gold mine that it has been in former seasons. And it is likely that it will not be for some time to come. The people of the United States, it would seem, are losing much of their admiration for college athletic heroes. Price reductions for seats in the games of the Coast conference next year have been general .

* * *

In another section of the "Ubyssey" there appears a letter suggesting that the statements made in the sportorial on intercollegiate sport were at variance with the facts. We would like to advise the writer that anything which appeared in the sportorial was either vouched for by the president of the Alma Mater society or was taken from the financial report of the University of Manitoba Rugby Club as it appeared in "The Manitoban."

* * *

At the University of Oregon in 1926 the student body floated a bond issue of $150,000 to build a pavilion. Recently the entire issue was redeemed and the building is now clear of debt. Such is the advantage of a commercialized football team.

* * *

University of B. C. is not the only college to suffer because of scholastic standing. At McGill the senior hockey squad is now playing without the services of a star forward because of eligibility rules.

NOTICE—Intermediate "A" and "B" Basketball teams be at Artona Studios for the team picture for the Totem on Monday, January 24, at four p. m. sharp. Both teams bring sweaters, shorts and shoes.

H.M.S. "PINAFORE"

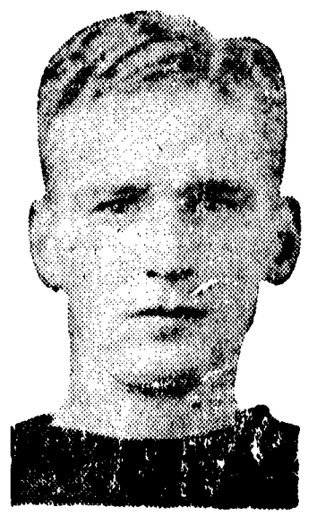
NOTICE

Scrimmage practices of the Senior 'A' Basketball team will be open for student spectators. Notice of these practices will be posted on the Men's Athletic Notice Board. Students are requested not to attend other pracices. This regulation is for the good of the team, not to prevent students watching work-outs.

HOOP MEN WIN FROM RICHMOND

Varsity Intermediate "A" basketball team on Monday night took the Richmond team to camp to the tune of 29-19 at King Edward Gym. Although severely handicapped by loss of players through the elegibility rules five boys took the floor and played clean, fast basketball as they had to, being the only men in stay. These men collected only three personal fouls the entire game. At the half Turner, a boy from Kamloops who is showing lots of go these days, was able to find the basket often and along with his team mates ran the score to 14-9 in their favour. During the second half the game became much faster and it was in this half that the three personal fouls were called. Richmond were in the game all the time and with a string of substitutes tried to use them to advantage but failed. Hope, as usual, played a very fine game for the losers, accounting for eight of their points. Ridland played a very fine game and was in every play, and Turner usually ionverted the play into two points. Prior worked well at centre and was always a great threat. The guard combination of Hardwick and Crowder was unbeatable and had much to do with keeping the score down.

Teams: Hardwick (3) Ridland, (5) Crowder, (2) Prior, (5) Turner, (14) —29. Richmond: Mason (6) McCuish (3) Tamanito, Morphett, Gilmore (2) Hope (8)—19.



ART MURDOCH

Art made a name for himself in 1931 playing on the Big Four squad, and now has determined to play English Rugby and is doing quite well. He will be in the full-back position when Varsity opposes Rowing Club in a Miller Cup fixture.

H.M.S. "PINAFORE"

Ambassadors In Hockey Tilt With Varsity

The Varsity ice-hockey team will have a rest from league encounters this Friday, but meet the Ambassadors at the Arena one week from tonight at 8:30 p.m.

The Blue and Gold squad beat the Ambassadors in their last encounter, and with the additional experience gained in competition and practice, they hope to trim them by an even larger margin.

Jack Walmsley, well-known in Vancouver amateur hockey circles, and a U. B. C. student, has consented to giving his services as assistant coach to the team, and is working the boys hard trying to perfect a passing system that will baffle the opposing defence.

Varsity shares first place honors with the Maccabees in the Intermediate League, and stand a very good chance of winning the top place. Apart from the League is the Intercollegiate game against the University of Washington, which takes place sometime in February, so that the boys have plenty to think about.

The line-up for the Varsity-Ambassadors game one week from today will be: McGregor, Falconer, Kirby, Ramsden, Goodfellow, Horsman, McLeod, Mathews, Carswell, and Coventry.

B. C. Regiment Beats Varsity At Badminton

B. C. Regiment eked out a 9-7 victory over Varsity's B section badminton squad. The battle was closely contested all the way with Paul Kozoolin and Margaret Wilson starring for the students. The army team were a bit too dexterous for the collegians with their racquet handling.

Those indulging in the shuttle game for alma mater were Ian Campbell, Paul Kozoolin, Terry Holmes, Ken Atkinson, Margaret Moscrop, Ellen Gleed, Bunny Pound and Margaret Wilson.

U.B.C.'s team made a clean sweep of the doubles taking the opposition quite handily. The Point Grey squad were without the services of three of their regulars and played nobly to hold the Regiment to a close score.

The Club executive wishes the following to turn out for practise Monday night at the U. B. C. gym—Ralph Moore, Tony Langton, Joe Wrinch, Bill Tremaine, John Savage, Fred Bogardus. A team is to be chosen for the C2 match, January 27, while the B squad plays February 3.
