PREPARING GRAINS FOR FALL FAIRS

There is no better advertisement than to be a prize winner at the Fall Fairs and no crop on the farm can be exhibited to better advantage than the cereal crop. To attain the best results a special plot should be maintained and kept thoroughly clean, free from weeds and all impurities. Harvesting should be done by hand, keeping the sheaves as neat and as straight as possible.

First and foremost the grain in the shoaf must not be weathered, it must be perfectly dry and of good color The best results are obtained by the use of slightly immature straw, as it will be found to be less brittle and easier to handle. The straw should be spread in layers in the sun to dry; the sun will bleach the straw as well as dry it. Use only straight, uniform straws to make the sheaf; two or three sheaves should be collected in the field to allow for waste.

The majority of persons have the idea that all the straws should be the same length and the heads all placed on the same level. This would give us the square head in which, when tied, the majority of the straws would break off below the head. The ideal sheaf has a rounded head with a gradual curve. This rounded head is procured by allowing the central straws to stand a little higher than the surrounding straws and each layer of heads that are added, to gradually slope away from the centre. The large sheaf may be conveniently formed by first making a number of small sheaves and then placing them together as though they were indivdual heads, gradually sloping them off in the same manner. To finish the sheaf a layer of indiviual heads should be placed around the whole producing a finished exhibition sheaf. All the loose leaves should be plucked off the outside of the sheaf with a jackknife leaving only the white shining straws, and all heads that do not conform to the symmetry of the head may be cut off, leaving a perfect sheaf Colored ribbon about 1-2 to 3-4 inches wide may be used with good effect to cover the binding strings.

The remainder of the plot should be threshed by hand. This will form the bulk sample for the Fair. If the plot was kept pure in the field there will be very little that will need to be done to the threshed sample. A good fanning mill will remove all the shrunken and small kernels, all chaff and dirt. The fanning mill must be clean, many an excellent sample has been ruined by a dirty fanning mill. Thoroughness is the secret of a good example, the fanning mill should not be spared even if it means fanning away 50 per cent of the original sample

The bulk sample may be double bagged for shipping to the Fair. The sheaf should be shipped in a box, 3-4 inches longer and 1-2 inches broader and deeper than the sheaf.The sheaf should be wrapped in paper and tied fitted into the box and kept in position by supports.

With our present day standards always improving, great care must be taken in preparing the exhibits for by the farmer who puts up a rough sheaf or a poor sample. Th esecret of success is thoroughness.

SETTLERS DESIRE LIGHT AND POWER

Matsqui, has a long standing grievance between residents along the power line of the Western Canada Power Company, in this municipality, and the company, regarding the provision of light and power to settlers on the route It is asserted by residents that a condition of the company's erecting their power line was that they would furnish light and power to residents along the route.

The matter has been taken up by the Matsqui council, and after long correspondence with the company a conference has been arranged for Saturday, at the Matsqui hall, on the subject It is expected that at that gathering the company's atitude will be clearly defined, and the conditions outlined upon which the wishes of residents along the power line route will be met.

SUCCESSFUL FLOWER SHOW

Despite many difficulties the flower show promoted by the Matsqui Women's Institute was held on Wednesday last and proved very successful.

It was almost cancelled because of mosquitoes, it almost perished under the objection of drought. The ladies in charge were weighed down by their inexperience, and the high lights who should have gracde the opening ceremony were unable to appear with their beams and blessings, yet every stroke was successful, every table a scheme of beauty.

Mrs Phinney, as president, in graceful little speech mentioned the difficulties and made no apologies because none were necessary. Huge banks of flowers against the wall, of every hue and variety a garden can offer, represented the inter-institute display competition, where Mission led in mass of color and number of flowers. Both Mission and Hatzic contributed largely to the success of the show.

For the best display of the institute colors, yellow, white and green, Hatzic gained the honors, with a pretty display of daisies and yellow carnations shown by Mrs. Fripp.

Mrs. Solloway of Misison iCyt took firsts in both annual and perennial blooms, with a fine collection arrayed in mossy trays. The queen of the show, however, was the sweet pea, where every conceivable shade was arrayed with a rare taste for color harmony along the big table, the prize for this most popular class going to Mrs. Millar for an epergne of lovely four-bloomed stems.

Mr. Dean of Aldergrove had a table of superb roses, both old favorites and new wonders. In the blooms for competition those of Mrs. White won distinction.

Several delightful decorated tables, showing sweet peas, carnations scarlet runners and other blooms were given much commendation by the visitors, the judges choosing that of Miss Cruickshank for the first pric. Evidently the soldiers were too shy to show their floral products, there being no entries in the soldier-settler classes. Nor were any dahlias in evidence.

The schoolrooms gave excellent accommodation to the show. Two rooms being occupied with the flowers, and a third making a very convenient tea room. Here the gentlemen failing in terms of sufficient admiration for the flowers were able to do themselves justice, and made very good use of their opportunities A large number of enthusiastic visitors testified to the success of the undertaking. A social evening and dance terminated the flower festival.

CALL FOR AIR MEN CHANCE FOR AIR MEN

Canadian Air Force requires Aeroplane riggers and engine fitters for service at Camp Borden. The men, if satisfactory will, in all probability be employed permanently on a three year apapointment renewable. The rate of pay is $1080.00 per year plus bonus of $420.00 for the head of a household.

Anyone wishing to take advantage of this offer to join the Air Force will please communicate with J. H. Fieldhouse, Secretary, Aerial League New Westminster.

Mr. Fieldhouse has been asked by Major MacLaurin to select twenty men from this district for the service.

G. W. V. A. ELECT OFFICERS

The G. W. V. A. held their monthly meetiug in the club rooms on Monday August 9th with a good atendance. Business: Election of officers which resulted as follows:

President—F. J. R. Whitchelo, re-elected.

1st. Vice-Pres.—T. Bennett re-elected.

Second Vice-Pres.—R. DesMazes.

Sec.-Treas.—W. H. Aieland.

Executive—E. A. Barrett, K. H. Weir, Thos. Kirkby, Alex. A. Ker, Jas. Downey, with the officers.

Entertainment committee—Geo. Hayes J. Aitken, Jas. Downie, R. H. Weir and Geo. Hayes, pianoist.

Comrade Doe, a visitor from North Vancouver asted as scrutineer and there were three members transferred from the Victoria, branch, Mr. J. Rowley, J. Aitken and W. H. Aieland.

It was the feeling of the meeting that the members of the G. W. V. A. that there was a lot of work to be done by the association which will be in the interests of the district if carried out. The association is now a strong one here and the members are for the most part interested in the progress of the district and a great many have their investments placed in the district.

ABBOTSFORD FLOWER SHOW

Under the auspices of the Abbotsford-Sumas Agricultural Society, Abbotsford will hold its first Flower Show in the Masonic Hall, from 1.30 to 6 p.m. An admisison fee of 10 cents will be charged.

Afternoon tea will be served for which a charge of 15 cents will be made.

The committee in charge request that those wishing to help by donations of sandwiches and cakes will notify Mrs. E. A. Barrett, who is convener for the Afternoon Tea.

All persons wishing to enter owers will consult Mr. Shore, the energetic secretary of the agricultural society No entry fee will be charged this year for exhibits and these must be in place by 12 o'clock noon.

The Society would like every one to enter into the spirit of this enterprise by bringing owers. Do not be afraid that some one else will have something better than yours; bring them along and help make Abbotsford's first Flower Show a success.

ANNUAL COMPLAINT ABOUT POORLY FILLED BASKETS

The annual complaint on poorly filled baskets of cherries and apricots are now being registered. We had our attention called to Bing cherries from Nelson which are about half the size of the Okanagan cherries. These are under ripe, unpacked, ill filled and of little commercial value. We notice some coming from Willow Point of good size and fairly filled baskets although the facing could be improved and a little more placed in the basket. We notice a shipment of Royal Apricots from the Okanagan Valley without anything in appearance to recommend them; the 4-lb baskets are about three-quarters filled. We would like to show some B. C. packers the fruit coming from the South in 4-lb baskets; they are filled to from one-half to three-quarters inch over the top and cleats are used under the lid to prevent bruising. Our shrewd neighbors know that the baskets of fruit mean money, so they get all they can for the amount they spend, and buyers pay top prices for well filled baskets.

One would suppose that with fruit selling at a good price packers would naturally think that buyers wanted something for their money. The express, basket and freight costs are the same for whole filled ones. It is strange that we have to impress this point every year. All this week's offerings of currents in 4-lb bskts are a bout three-quarters filled. — Fruit Markets Bulletin.

PERSONALS

Mr. and Mrs. Clarence McCallum of Mission City are spending their holiday with Mrs. Ryall.

Miss Margaret Ross of North Vancouver is visiting Miss Muriel McCallum.

Mr. J. Walker and family spent Sunday with friends at Ladner.

Mrs. Sutherby and children are visiting friends in town.

Mrs. A. McInnes is home again after visiting with her sister in New Westminster.

Mr. Gilbert Hayes has purchased two houses from Mr. James Higginson and has brought his family here from New Westminster.

On Friday night the Canadian girls played the American girls a game of basket ball the score being 3 1-2 in favor of Canada; then on Tuesday evening they played again and the score was 34-3 also in favor of the Canadians, then all went up to the Alexandria Hall and had a pleasant dance.

Miss Ina Fraser returned home Friday evening after a pleasant stay in Vancouver for two weeks.

Mr. James Gilmore spent a few days in Vancouver.

Mrs. M. Fraser left on Monday evening on an extended trip to the east

Mr. Arnett of Matsqui spent Sunday with Mr. and Mrs. Vanetta.

Mr. N. Authier has been spending a few days in Vancouver.

Mr. and Mrs. Currie with Mr. and Mrs. Matt Nelson spent Sudnay at White Rock with Mrs. Murphy.

Mr. James Barber of Alton Ont., is visiting his son in Chilliwack and he spent Tuesday with friends in Abbotsford.

Mrs. A. Taylor spent the week end in Vancouver.

Mr. Ellis McMillan is visiting his parents here.

Mrs. McMenemy and family have returned from camp at White Rock.

Mr. C. Smith of Vancouver was a visitor in town the guest of Mr. Fred Sutherby.

Mrs. W. J. Creelman and two daughters of Brandon Man. are visiting Mr. and Mrs. F. J. R. Whitchelo.

Mr. and Mrs. Skinner anddaughter of Vancouver were visitors at Mr. J. Vanetta's on Sunday.

Mrs. Wright is spending the month at White Rock.

We publish the prize list of the Matsqui Fair to be held on September 9th and 10th this year. The special prizes will appear next issue.

FALL FAIR NOTES

It is rumored on very good authority today that the new agricultural buildings will be started next week giving accommodation for between 50 or 60 head of cattle.

The prize money for the fall fair is coming in fairly well and our secretary when we called on him today was figuring up just what was needed and what was required yet.

The Sumas council has not yet given its annual donation but is waiting for the chairman of the finance committee to touch them up. Just one more meeting of the council before the big fare takes place.

Many more of the people are interested in the fair this year than last and it looks as though it were to be a grand success.

The following prizes have been added:

By White and Carmichael, $5.00 for the best beaf steer, and $5.00 for the best beaf cow.

$5.00 given by W. H. Fadden for the best heavy filly between one and two years old.

$10.00 given by A. H. Harrop for winning most prizes in all the classes; 1st prize to count 2 points and 2nd prize to count 1 point.

A SIGN OF GROWTH

Misison and district are in future to have the benefit of the services of a permanent legal practicioner. Mr. Harry E. Bond of New Westminster has opened offices in the Catherwood block on the main street of the town Mr Bond who served with the 72nd Regiment, Seaforth Highlanders, was badly wounded in the final drive of September, 1918. He served his articles with McQuarrie, Martin, Cassady and Macgowan, of New Westminster, and took his final year's course and examination at Osgoode, Toronto, being called to the B. C. bar in June, 1919.

August Clean-Up Sale—

of all SUMMER GOODS—

BOYS' BOOTS—Your chance to fix up your Boy for School with good solid school

Boots, Sizes 1 to 5 ..... $3.95

A few Pairs Ladies Shoes, odd sizes
To clean up at $1.95
Values up to $5.50—just a few pairs.

ALL CANVAS SHOES $3.95

Balance of Straw Hats to Clear Up at HALF PRICE.

Don't forget when comparing our grocery prices to take into consideration our CASH DISCOUNT; you'll find quality considered that this is the place to satisfy your requirements.

BEING A BOLSKIE—

"We will all soon be Bolskies", says the young man. He does this without thinking what he says or does not know what it means in the true sense as it is carried out in Russia at the present day. Every man is at liberty to think what he likes so long as it is not contrary to the law of the land or does not hurt his neighbor. But in this country we almost feel like saying that if a man wants to be a Bolskie he had better hike for Russia and find out for himself a thorough knowledge of the conditions ast hey exist before he says Bolskie. Lenine should have a fair idea of what Bolshevism means, and here is what he says: "Freedom is a borgeois notion, devised as a cloak under which to hide the spectre of economic slavery. Russia must get rid of the notion that happiness is to be attained by letting every man do as he likes. An iron government composed of a few unshrinking men with clear minds and emphatic class consciousness is what Russia wants and what, happily, Russia has . . . Shirking and grumbling are as bad forms of treason as intriguing with the White reactionaries, and one treason will be as sharply punished as the other."

If grumbling were punishable in Canada where would half or more of us be at the present time? We ought to get at the genuine Bolshevist idea. Even if it were admitted that he were right about Russia, Nero could excuse himself in exactly the same fashion, wherefore determine to impress the rest of the world into a habitual state of massacre? It would be intensely funny if it were not so tragic. Imagine sane men and women on this continent advocating a system which these leaders admit is a tyranny, is only fit for children and uneducated people, and can only be carried on by an iron government of a few unshrinking men—unshrinking because they do not hesitate to murder and massacre and who consider any criticism and shirking or grumbling at their iron-handed methods, treason fittingly punished by death.

Presuming these leaders of the new system are perfectly sincere, surely the rest of the world, accepting their sincerity, must take steps to guard itself against the "unshrinking few" who openly advocate war in order to force their system on others outside Russia. Yet if any attempt is made by the Allies to interfere with shipments of arms from Germany to Russia, the cry of "blockade" is raised.

Things in general may not be just right these days but the main idea is to keep on driving ahead. Some uncertainty as to the immediate future seems to have entered the mind of some of the public, but there is no danger, it is declared, if the people will keep their heads cool and their bodies hot from labor. Stay on the job and do all you can, is the immediate task for the average man—and the average man is about everybody.

We have learned to really understand the meaning of morale during the past few years, as applied to warfare. Unfortunately, we have not quite accepted it as a necessity of a peace time program. Today our restlessness is partly due to the low morale existing. Because nerves are frayed, because there is more of leisure, because work is looked upon as something undesirable, because extravagance is rampant, production curbed, and strikes continue to disturb any trend to more normal conditions, it is easy to say, with morale low, "What's the use?"

Of course that is just the state of mind desired by those who take joy in creating or continuing feverish and restless conditions. Real men will fight hardest when hardest pressed. There is no need of panic to effect return to sanity. There is no need for shut down of industry and unemployment to restore ourselves to a sound basis. In fact, such a programme would invite grave results at a time when men's minds are filled with the poisons of unrestricted propaganda, of destruction, and of revolution, so freely introduced during the past few years.

The proof of our morale will be in an intensive effort to work harder to keep things going. Credits are restricted but no wise and necessary business operation will be compelled to cease. Strikes in basic industry, and restricted production, with consequent apparent expensive, but determination and sacrifice will enable us to continue. Of course, sacrifice must be universal. It can not be made to apply to part of the people only. Instead of constantly increasing wages in an effort to overtake the cost of living, we must halt the onward march of money wage and secure the balance through efficient production and consequent higher real wage. Instead of struggling to increase production by using more people we must do more work with less people.

The morale of the nation and of the world is low. It will not be raised by a "don't care" attitude. It can be raised by encouragement and by the determination of all the people to think right do right, and work right.

It is the individual effort that is going to count in these days The getting while the getting is good will prove a bomerang and some of us are already feeling the effects of it. It is time for us to quit talking about profiteers big business and profits, and get down to fundamentals, put our feet on the ground and consider whence come our bread and butter.

It is to be regretted that we still have among us some who would try to bring us to the verge of disaster, and who continue their efforts to arouse unrest and dissatisfaction and to create strife and distrust by talking about some system not yet out f swaddling clothes comparing it with a system thousands of years old Likewise, it is unfortunate that the policy of "do as little work as possible for the greatest amount of pay you can get" seems still to be preached in certain circles. Let us all use honest common sense and the best judgment we have, combined with strict attention to the work in hand and the world will soon be back on the old job again—everything working as near perfect as any human devised system can be expected.

UNIFORM PACKAGES

We notice currants of different kinds and Gooseberries come on this market in 2-5 quarts, pints and 4-lb baskets. The pint is regulated in price, bringing the same amount as the 2-5 hallock. Values are established on the crate in the different stores and the difference of 3 lbs. of fruit in each crate is not taken into account in the advt. The need of a given weight of fruit in crates and a uniform crate is evident. We cannot quote intelligent market values on produce that is not standardized in grade or uniform in packages. If we find ourselves in this position, what about the buyer or consignee? The regulating of crates and weights is fully as much in the interests of British Columbia as in the interests of fair traders on the prairie. It is want of uniform packages and regulor weight of fruit that is reseponsible for the unsatisfactory returns to the growers in the above products. Fortunately in our staple lines we have staple methods. It is time to extend the same methods to currants and to gooseberries.—Fruit Markets Bulletin.

Entries Close not later than 5 p.m., September 8th, 1920

64

Matsqui Agricultural and Horticultural Association

RULES AND REGULATIONS

1. All entries must be made not later than 5 p. m. on Wednesday, September 8th. The Secretary will be on the grounds on the afternoon of that day, or entries may be sent to his address at Gifford Station, B. C. All entries to be made on the proper form to be obtained from the Association. Entry fees for non-members; horses and cattle 50 cents each entry; all other entries 25 cents each.

2. All exhibits of Fruit, Vegetables, Field Produce, Flowers, Ladies' Work and Children's Work to be in position by 12 noon Thursday, September 9; Live Stock and Poultry exhibits to remain in place till 5 p.m., September 10th.

3. Members of the Society are entitled to free entries and admission to the grounds.

4. The price of membership tickets is $1, or life membership tickets $10.00 and they may be obtained on application to the Secretary.

5. In horses, cattle, sheep, pigs and poultry classes, the entry must in every instance be made in the name of the bona fide owner, and unless this rule is observed no premium will be awarded, or if awarded will be withheld. If any person shall exhibit any animal or bird of which he is not the bona fide owner, he will forfeit any premium which may be awarded him.

6. In all other classes entries must be made in names of producers or manufacturers only, and by such producers themselves or their agents, who must have special authority for doing so, and produce their authority in writing if so required by judges. Those who are not manufacturers or authoried agents may exhibit, but cannot compete for the prizes offered.

7. If any person other than the authorized agent shall enter an article for competition as produced or manufactured by himself when it has not really been so, he shall forfeit any premium which may be awarded the article.

8. No person shall be allowed to enter for competition more than one specimen in any one class of a division, unless the additional article is of a distinct named variety or pattern from the first. This rule not to apply to animals, but to all kinds of grain, vegetable produce, fruit, manufactured articles, etc., of which each additional specimen would necessarily be precisely similar to the first.

9. Every article must be entered under some one of the headings in the regular list.

10. On the entry of each animal or article, a card will be furnished exhibitor specifying the class, division, and number of entry, which card must remain attached to the animal or article during the Exhibition.

11. Horses must be shown uncovered and in such a manner as the Judges may require or allow, and if their exhibitors refuse to submit to the proper requirements of the Judges their animals will be ruled out, but the exhibitors will have the privilege of showing their animals in hanress, bridle, or under saddle, as they may prefer.

12. All animals competing for prizes must be brought out for inspection of the Judges; or for exhibition whenever called out by the official appointed for that purpose.

13. All exhibitors of stallions shall produce a certificate signed by a duly qualified veterinary, showing that the animals are free from hereditary unsoundness, said certificate to date not more than three months previous to the opening of Exhibition.

14. No person shall be permitted in the horse or cattle rings during time of judging except Judges, grooms or persons in charge of animals and members of the press.

15. No animal or article shall compete for more than one prize unless in case of special prizes or sweepstakes.

16. The President and Board of Managers shall have supervision of Grounds and Exhibition generally.

17. Should there arise any dispute or misunderstanding not governed by the by-laws or rules and regulations of the Society it shall be referred to the Board of Managers whose decision shall be final.

18. All protests and appeals must be in writing, must state plainly cause of complaint, and must be delivered to the Secretary on day of show, accompanied by a fee of $2.00 which will be returned if appeal is sustained, and forfeited if protest is disallowed.

19. Judges shall have the power of classifying stock and shall not award a prize to any article against which there is no competition if such article is unworthy of a prize.

20. All manufactured articles must be the work of the exhibitor, and must not have been awarded a prize before at any exhibition of the society; but any manufactured article may be shown for exhibition only without complying with this rule.

21. All special prizes shall require a special entry unless classed as a sweepstake.

22. No person shall be allowed in exhibit rooms while judging is in progress except Judges and their assistants.

23. The Board of Managers will use every precaution in their power for the proper preservation of articles and stock on exhibition, but will not be accountable for loss or damage. Exhibitors must attend to their articles or animals during the exhibition and to their removal at its close.

24. Should there not be funds enough on hand to pay prizes in full they will be paid pro rata.

25. The Association is not responsible for payment or delivery of special prizes offered by others.

CONSTITUTION

NAME

Sec. 1. This Society shall be called the Matsqui Agricultural and Horticultural Association.

OBJECT

Sec. 2. The purpose of this Society shall be to encourage the cultivation of the soil and the general development of all the agricultural resources of the province.

Sec. 3. To foster every branch of mechanical and household arts calculated to increase the happiness of home life.

MEMBERSHIP

Sec. 4. Any person may become a member by the payment of an annual fee of $1.00 or any person may become a life member by payment of a fee of $10.00 which shall also entitle members to compete for any prize of the Society without any charge or entrance fee.

Sec. 5. The names of all members shall be registered in a book kept by the Secretary for that purpose.

Sec. 6. Any person being a member of this Society shall be eligible for office, entitled to vote, receive a printed copy of Constitution and such other printed matter as the Society shall publish and have free admission to all exhibitions of the Society.

OFFICERS

Sec. 7. The officers and directors of this Society shall consist of President, three Vice-Presidents, Secretary-Treasurer and twenty-five Directors.

Sec. 8. The officers and directors shall hold office for one year and shall be elected at the annual meeting of the Society, to be held at 11 o'clock a. m. on the second Tuesday in December.

Sec. 9. Each candidate for election must have at least a majority of the votes cast.

Sec. 10. At any meeting of the officers and directors five members shall constitute a quorum to transact business.

EXHIBITION

Sec. 11. This Association shall hold an Annual Fair and Live Stock Show.

WANT COLUMN

Advertisements under the above heading cost 25 cents per issue. Leave copy and money at The Abbotsford Garage.

LOST—In Aldergrove white fox terrier answers to "Sport"; black ears andone black eye black mark on back one ear partly gone, scar on shoulder. Reward. G. A. Kay Marpole, B. C.

Printers Ink makes millions think. Wannamaker blames advertising for his success in business. Wannamaker's success should make any merchant think twice, scratch his head and conclude to advertise. KEEP your name before the public by advertising and backed by the good values you have in your store. A wise old fellow once said 'If your business is not worth advertising, advertise it for sale; advertise anyhow. Many a young man with no capital has won success through the columns of newspaper advertising.

JAPANESE NOT TO LEASE LAND

British Columbia and California conditions are much the same. A law will go into effect in California this fall prohibiting Japanese from leasing land for a longer period than one year and which will abrogate those leases already made for 99 years and under. It has been the prevailing custom in California for theJapanese to make 99 year leases, which to all intents and purposes is equivalent to buying the land outright. Under this system the wily boys have succeeded in getting control of the greater portion of the most productive land in the state. It is also being noted by the secret service department of the government that the Japanese have control of nearly all the vantage points such as tops of hills and other places where high power cannon could dominate the surrounding country, much the same way as the Germans carried on their nefarious work among the French. The state of California is now thoroughly aroused and the law that goes into effect this fall will in all probability, cause an open break with Japan.Thus it will now be clearly seen why the United States could not curtail her naval construction programme upon the signing of the armstice and why she would not commit herself to a policy which practically places China under the domination of Japan. It transpires that Carranzza, former president of Mexico sold or gave to the Japanese many rights and privileges that are frowned upon by the United States government, and which at the present time are under scrutiny. Owing to the fact that Great Britain has just concluded a new treaty with Japan calling for many concessions, the Washington government and Britain are now conferring in an effort to smooth out the ruffled surface. The wily Japs have played one nation against the other until they have placed themselves in position to pursue an aggressive policy without molestation. They have assumed control of the Chinese Eastern railway and have occupied Saghalien and much of the maratime province of Siberia. It is quite evident to all those who read that the Japs are preparing to carry out a program of expansion and they are not particular whose territory they invade, and it is easy to see that the United States will, before very long be called upon to defend her rights in the Pacific.

Japanese should take no greater privileges in any other country than they are willing to give in their own country to aliens Who ever heard of a white man being allowed to hold land in Japan.—Exchange

HANEY BERRY CROP IS DISAPPOINTING

Taken all around the berry crops this year have been disappointing. An index of conditions is afforded by particulars furnished by Mr. E. M. Gilland, manager of the Pacific Berry Growers' Association. Ten cars of strawberries have been shipped this year and so far three cars of raspberries have been sent out against 19 and 10 cars respectively last year. The full tally for rasps will not reach last year's figures as the shipping season is more than half over. The shortage is also reflected in the figures for jam fruit, 100 cars of which will be the total for this year, against 150 cars last season from this district The climatic conditions have been unfavorable for small fruits this year —the same tale is told at Sardis and Hatzic, and in fact everywhere where berries are the main crop.

Everything was prepared for the handling of bigger shipments than ever this year, but the new plant at Haney, previously described in these columns, was not taxed to anything like capacity this season. The total acreage now planted in berries by members of the local organization is 470 in strawberries and about 180 in raspberries. More than half the area in straws has been planted this year so that with good conditions there should be record output next season.

LAST SAD RITES

The funeral of the late Soffia Moi of Matsqui, took place from the Lutheran church last week, Rev. O. Borge of Vancouver, officiating at the service. There were a large number in attendance at the church; and Mr. J. H. Jones, funeral director of Mission City, had charge of the funeral arrangements.

Flowers were sent by: Mr. and Mrs. Cecil Mills, wreath; M. Aish and Minnie, wreath; Wreath, Mr. and Mrs. A. J. Emery, Vancouver, and others with no card attached.

The deceased was twenty-three years and four months old.

The pallbearers were: Messrs H. G. Mykle, C. Gilbertson, E. Alverson B. Ebberson, J. Jacobson and Sig Jacobson.

C. O. D. SHIPMENTS

We hear complaints from B. C. shipers who are shipping to private individuals and petty fruit dealers that when goods arrive at their destination they are refused by buyer The real reason is not far to seek. From the date the order was placed until the time of arrival the market price had dropped, the order being placed at the last of the season and delivered at peak when equal or superior goods could be bought retail for less than the C. O. D. We do not approve of C. O. D. shipments, but some of our budding fruit growers need this experience to make them good co-operators. The express companies forced sales of C. O. D. parcels becomes a bargain counter for the watchful bargain hunter. We cannot adjust refusals.—Markets Bulletin.

What is the animal that comes from the clouds?—The reindeer (rain dear).

WARNING

Keep the tail lights burning
For fines the cop is yearning,
He's watching for them turning.
When they head for home.
There's a flashlight shining
On your number climbing
So keep your tail lights burning
Till the cop goes home.
