ANNANIAS ABROAD

The modern Annanias has taken a horrible dislike to Abbotsford and takes opportunity to do a little knocking every opportunity he can. His latest fad in the way of knocking the town and district appeared in the Vancouver and Westminster papers about the death of a baby caused by the biting of mosquitoes.

Upon investigation this paper positively denies that any baby in or near Abbotsford died from mosquito bites this week, last week or the week before, or at any time this summer.

Several citizens have asked this paper to ask the papers at the coast to deny the false statement about Abbotsford appearing in their papers, as it is considered that it is an injustice to the town and district to have such statement appearing in their papers, when there is absolutely no truth in the report.

It is reported that at the next meeting the Board of Trade will take the matter up with each of the papers and ask them to publish a denial.

MET HIS DEATH

A Jap met with an accident at the Abbotsford Timber and Trading company's mills, that cost him his life. It appears that he attempted to pass in front of the buzz saw and had his left side cut off. He was taken to the Sumas hospital where he died.

Mr, and Mrs. E. P. Ruthig, and family are spending a few days with friends at Blaine, Wash

THE MARKET.

New Westminster, July 14th—In the early hours of the morning the market was very dull, but towards noon it picked up considerably and was not a bad day, all things considered. Haying kept a number of the farmers away and the buyers were not so numerous as usual. The auction market was poorly attended.

There were quite a number of new pitatoes offered for sale and the price went down fifty cents a sack from last week. This was the greatest change noticed in the prices of products of any kind. Potatoes sold at $3.50 per sack, as against $4.00 per sack a week ago.

Strawberries stiffened in price and sold at 50c per crate more than they brought last week. Two crates of red currants made their appearance and they sold quickly at ten cents per box. There were no changes in prices of vegetables and the only ones offered were carrots and beets, and these sold readily at five cents per bundle.

There was only one reduction in the price of wholesale meat, and that was in pork which went down a point. There was no change in the price of retail meats, and the supply was large.

The feature of the wholesale meat market was the large supply of veal.

The supply of fish was large, but there were no smelts offered for sale. There were no changes in the price of fish.

Early in the day it looked as though the poultry market was

Matsqui Council

The matsqui council held their regular monthly meeting on Saturday July 8th in the municipal hall. All members of thecouncil were present.

Minutes of the previous meeting were adopted as read.

The following communications came before the council and were dealt with;

From James Merryfield, sr., requesting the council to open up the west end of the Harris road stating that he intended fencing his property which would close any running into it. Coun. Satchell was requested to report at the next meeting.

From A. J. Hill and the Alliance Trust and Investment Co., re sub division plan of west half section 10 and west half, n.w. quarter, section 3, township 14. The company ageed to pay Mr. Hill's account for profile plans and on motion the reeve and clerk were authorized to sign the plans on receipt of a plan of diverted road and a properly signed agreement re the agreement upon the said company making fresh arrangements to the approval to the present council.

From C. O Bradshaw enclosing proposed plan of sub-division of E one half of s. e. one-quarter section 19 township 16, asking if any objections would be made. He further stated he had 400 acres one one-half miles from Abbotsford which he proposed sub-dividing, but if he were required to open and rough grade all the roads he would allow he would not care to proceed with the sub-dividing. The clerk was instructed to inform Mr. Bradshaw that he would be required to sign the regular agreement regarding roads through subdivisions but in the plan submitted if he had each of the lots facing on one of the roads already constructed that that would suffice.

From W. G. McElhanney re the request of a 66 ft road allowance through block 4, 5, 6, 7, 8. and 9 of s. e one-quarter section 12 t. 14. The clerk was instructed to inform him that the location of the road that leaves the section line and runs through the n. e. one-quarter of s. 1, being in a ravine and not easily accessible from the port of the n. e. one quarter of section one to the north of said road, it is necessary to provide an outlet road along the section line. Hence the requirement of a road allowance on the plan.

From the B. C. Telephone Company stating that they would remove their pole at the new ferry on Matsqui dyke in the course of a few days.

From Canadian Bank of Commerce acknowledging deposits; Municipal account $3133.70; school board account $968.35; filed.

From D. K. Campbell re the moving his fence north of the Mt. Lehman school house, stating that he engaged Mr. Lehman to find the survey posts and run the line in the proper place. When he located the line he went up and got Mr. Merryfield and showed him the line. Mr. Merryfield as reeve approved of the line and stated that if at any later date the municipality wished to widen the road, they would have to remove the fence at the expense of the council and pay for extra land. Mr. Campbell further stated he would not remove it or allow any other person to remove it until a satisfactory settlement was first made. The reeve repudiated the statement of Mr. Campbell as applied to him and Councillors Cruickshank and Lundeberg were appointed a committee to inspec tthe fence and report at the next meeting.

From inspector of dykes stating on demand he would be compelled to issue a tax sale deed for the property of John Bengston

From Deputy Attorney General corroborating the statement of the inspector and further adding that the cost of the maintenance of Mr. Bengston would have to be borne by the province

The reeve reported that an official administrator had been appointed to look after the property

From Major Pottinger asking for a road. The clerk was instructed to inform Mr Pottinger that the only feasible route lay in Sumas municipality and that on previous occasions the taxes from this property had been offered to Sumas municipality if they would undertake the construction of this road which they had declined to do.

From R. M. Taylor, C. E., Canadian Northern Pacific Railway Co. asking refund for himself and party, of money paid as statute labor commutation, claiming they were non residents. Referred to solictors.

From J. C. McClure stating that if the Glenmore bridge were not moved forthwith he would close that portion of the road which passes through his private property. Councillor Satchell stated that the work was now underway

From Mr. Maclure on behalf of the Maclure estate claiming payment for one-half of the strip of land used for road purposes along the B. C. E. R. No action was taken by the council

From G. Purver asking payment for services as quarantine guard at Clayburn having been appointed by Dr. Stuart of Mission City. The clerk was instructed to inform Mr. Purver that Dr, Stuart is not the M. H. O. for Matsqui and therefore the Matsqui council cannot take cognizance of his appointments.

From J. B. Miller on behalf of the Clayburn Company asking that the statute labor of that district be put on the Wright road and that the bridge there was in a dangerous condition. Coun. Cruickshank reported that the bridge would be built as soon as the pile driver was available and no further expense could be considered on that road.

The following resolutions were properly introduced and passed; That the reeve and clerk be authorized to sign a promissory note for $1000 in favor of the Canadian Bank of Commerce, sign the subdivision plans of n. e. 1-4,s.4, t. 14; and n. w. 1-4, s. 4, t. 14 on receipt of the usual agreement duly signed on the construction of the roads shown on the plan and referred to in said agreement to the satisfaction of the reeve and Coun. Satchell that cheques No. 210, 201, 211, 212, 213 and 214 be cancelled and new ones be substituted for the same amount, $409.50.

The clerk was instructed to write to the engineer of the Canadian N. P. R. Co requesting that proper culverts be put in the crossings of the Glen Valley and Mathers roads; also to do the following work made necessary by the diversion of the Mt. Lehman road at the Fraser river; crib the river wharf, the cribbing to be of the bank from the lower end of the wharf to the approach of the same height as the railway grade and the space thus formed to be filled with gravel. This will enable the logs to be dumped into the river from the wagon trucks as has been the custom for many years. also that planks be laid for an approach from the wharf instead of the present earth approach.

Mr. McNeil on behalf of the W. C. P. C. addressed the council re the building of the Fore road south to the Clayburn road between sections 10 and 11, t. 17, and 72 and 3, t. 17. This road is needed by the company in getting supplies in for a pole line. The council estimated the cost ofc onstruction and appropriation damages at $3600 and Councillors Aish and Cruickshank were given power to complete negotiations on this matter with the company.

The usual monthly accounts were passed.

The council meets again August 5th.

Public Meeting

The trustees have called a meeting for the 28th to be held in the school house.

It appears that there is some dissatisfaction in regard to the salary voted the principal of the school at the annual meeting. The trustees at their regular meeting voted the principal the sum of $90 per month; while at the annual trustee meeting, which is where the salary is really set, he was voted the sum of $1000 per annum There are a number of the ratepayers, not realizing the importance of the annual meeting, did not attend, and now they hasten to remedy the difference in salary at a public meeting of the ratepayers.

In conversation with several of the ratepayers this week it was learned that there is a strong feeling that the salary of the present principal should be at least $100 per month. Excellent work is being done as shown by the result of the entrance examination. Good teachers, especially principals are difficult to obtain for small country schools, and when once obtained, every effort should be made to retain such services.

It is understood that Abbotsford has enough pupils who have passed the high school examinations to place the school among the superior schools to take up first and second year high school work will require a teacher who is qualified to carry out the regular curriculum of such schools; and a good salary is the only means of securing a teacher for such a school.

It is not anticipated that there will be any objections raised at the meeting on behalf of the ratepayers to increasing the salary.

As man was created for health, so was mankind created for happiness; and to speak of its misery only, though that misery everywhere seemed everlasting, is only to say words that fall lightly and soon are forgotten. Why not speak as though mankind were always on the eve of great certitude of great joy? Thither, in truth is man led by his instinct, though one may never live to behold the long-wished-for to-morrow.—Maeterlinck

—o—

Lawyers stand up in courthouses before jurers, in the presence of large audiences and denounce men as liars, scoundrels, thieves and perjured villains, and when the court adjourns the men appear to harbor no ill-will against them. But let a newspaper faintly intimate that a man's character is blemished and he has to face a horse pistol, stand trial, or suffer what the people think to be the greatest of all mortifications—lose a subscriber. Why we would like to ask has a lawyer any more right to tell the truth about a man than an editor.—Ex.

Editor,

Dear Sir,

As the representative in B. C. of the Colonial Intelligence League I beg to send you our leaflet and would earnestly ask your interest and sympathy in this Imperial and practical movement.

We aim not merely, nor even primarily, at the immediate benefit of the educated women for whom we hope to find suitable careers in the overseas Dominion but quite as sincerely at that of their employers on this side, and at the ultimate advantage of the countries which have been calling upon the Motherland to send over its daughters.

There are waiting in England now over one hundred women and girls of the very best type, sifted by this League from among (at present) four times the number of applicants who share the eagerness of their brothers to find scope for energies and abilities in new lands; Home-helps, Nurses, Dressmakers, Teachers, Secretaries, Typists, etc. These are of two main classes, those who have money of their own, and those who are entirely dependent on their earnings. In either cases each of them is not only thoroughly qualified in her own line, but is also able and willing, if necessary, to undertake successfully domestic work of any kind. We pledge ourselves to supply only the most capable, and impress on each applicant that efficiency is essential and that the incompetent and amateurish are utterly useless here. We propose to deal chiefly with the country districts, but shall send girls to posts in towns whenever the conditions are suitable.

We therefore invite applications to us for women-workers of all sorts, besides those already enumerated, dispensers, expert poultry and flower farmers, dairy women milliners, governesses. confident that our guarantee as to their ability and general character will prove wholly justified.

And in thus finding work for our applicants, we pledge ourselves only to posts we have investigated and can guarantee reliable and offering adequate remuneration.

I shall be most grateful for any help in this work and information as to reliable openings.

Yours faithfully,

DOROTHY DAVIS

A FLY CATECHISM

In Noreth Carolina the following "Fly Catechism" is distributed to the children;

1.—Where is the fly born? In manure and filth.

2.—Where does the fly live? In every kind of filth.

3—Is anything too filthy for the fly? No.

4.—(a) Where does he go when he leaves the vault, the manure pile and the spitoon? Into the kitchen and dining room; (b) What does he do there? He walks on the bread and fruit and vegetables he wipes his feet on the butter and bathes in the buttermilk

5.—Does the fly visit the patient sick with consumption, typhoid fever and cholera infantum? He does and may call on you next.

6.—Is the fly dangerous? He is man's worst pest, and more dangerous than wild beasts or rattlesnakes.

7.—What disease does the fly carry? He carries typhoid fever, tuberculosis and summer complaint. HOW? On his wings and dirty feet. (What is his correct name? Typhoid fly.

8.—Did he ever kill anyone? He killed more American soldiers in the Spanish-American war than the bullets of the Spaniards.

9.—Where are the greatest number of cases of typhoid fever, consumption and summer complaint? Where there are the greatest number of flies.

10.—Where are the most flies? Where there is the most filth.

11.—Why should we kill the fly? Because he may kill us.

12.—How shall we kill the fly? (a) Destroy all filth about the house and yard; (b) pour lime on to the vault and on the manure; (c) kill the fly with a wire screen the paddle, or sticky paper, or kerosene oil.

13.—Kill the fly in any way, but kill the fly;

14.—If there is any filth anywhere that you cannot remove, call the office of the board of health, and ask for relief before you are stricken with disease, and, perhaps, death.

Auction Sale

I have instructions to sell a carload of carriages, consisting of Buggies, Democrats and Road Carts. This is a chance of a life time to secure a rig cheap, as this lot must be converted into cash.

These are all first-class rigs and they have not yet been unpacked.

TERMS OF SALE—Cash, or negotiable joint notes for three months at 8 per cent.

Sale will take place at Abbotsford, B. C., commencing at 11 a. m. on JULY 22nd, 1911
