WEEKLY NEWSPAPER EDITORS HOLD MEETING AT JASPER

For the second time a joint meeting of the members of the British Columbia and Yukon Press Association and Alberta Press Association was held on Thursday and Friday, June 7th and 8th. Last year the meeting was held at Vernon, in the heart of the peach belt of the province, while this year it was held at Jasper Park, Alberta, just over the height of land of the Rockies on the line of the Canadian National Railways. A very representative gathering was present to take part in a well arranged programme of business, and the discussion of subjects of interest to newspaper men.

Col. Rogers, park superintendent, gave a most hearty welcome to the two associations. This was followed by addresses by the two presidents after which excellent papers were heard and discussed, from Mr. W. A. Buchanan, of the "Lethbridge Herald", Mr. G. H. Saults, secretary of the Manitoba Press Association, on "Co-operation Through Organization"; Dean M. L. Spencer, director of the School of Journalism, University of Washington, and others.

The following officers were elected for B. C.:

President—Mr. Hugh Savage, Cowichan Leader, Duncan.

1st Vice-pres.—Mr. J. A. Bates, Fraser Valley Record, Mission.

2nd Vice-pres.—Mr. R. E. White, Review, Summerland.

Sec.-treas.—Mr. Ben Hughes, Comox Argus, Courtenay.

Executive Committee—W. A. Elmtson, Miner, Rossland; H. M. Walker, Commoner, Enderby; R. D. Cummings, Journal, Ashcroft; J. G. Quinn, Citizen, Prince George.

Parliamentary Committee—Hugh Savage, Ben Hughes, R. R. Hindmarch, F. J. Bird and Thos. Collinge.

B. C. members present at convention:

Those present from B. C. were: Ashcroft Journal; B. D. Cummings, Courtenay Argus; Ben Hughes; Duncan Leader, Hugh Savage; Enderby Commoner, H. M. Walker; Golden

(Continued on Page Three)

LOCAL DELEGATES ATTEND BAND ASSN. CONVENTION

Mr. R. S. Wright, master of the Abbotsford band and Mr. W. J. Grey, sargent of the band, attended the convention of the Amateur Band Association held in Vancouver the first of the week. Representatives were present from Victoria, Nanaimo, Ladysmith, Vancouver, Mission City and Abbotsford. This meeting was held for the purpose of arranging for the band contest to be held at the Provincial Fair at New Westminster this fall; and at which only bands that are members of the Association are allowed to compete.

It is the intention of the Abbotsford band to enter this competition, and with this end in view will hold extra practices from now on. These practices will be in the open air, and as soon as the band are fortunate enough to have a proper band stand, they will give open air concerts every evening.

Three new cornets have been purchased lately, and add materially to the appearance and efficiency of the band.

The band has been engaged to attend the big celebration in Chilliwack on July 2nd.

ELECTED PRESIDENT

Mr. Hugh Savage, of the Cowichan Leader, Duncan, B. C., is the new president of the B. C. and Yukon Press Association.

Mr. Savage is from the Old Country, and came out to Canada in 1906. After a few years in the Eastern provinces, he came to Vancouver in 1910, where he was associated with The Vancouver Province, and other papers.

In 1914 he became editor of the Cowichan Leader, and from that time the paper has steadily grown, until to-day it stands as one of the most progressive weeklies in the province.

Besides being president of the local Newspaper Association, Mr. Savage has been a director of the Canadian Weekly Newspaper Association for the past two years.

Nearly every newspaper in the province belongs to the B. C. and Yukon Press Association, and this year it is hoped that there will be a hundred per cent. representation; and the president with the able secretary, Mr. Ben Hughes, of the Comox Argus, Courtenay, and an aggressive executive committee will work very hard to attain this very desirable state of affairs.

MISS WATERS IS HONORED WITH SHOWER BY FRIENDS

Mrs. R. Gilmour was the hostess at a very pleasant affair on Thursday evening, when friends of Miss Faith Waters, gave a miscellaneous shower in honor of her approaching marriage. The evening was spent in playing five hundred, prizes being won by Mrs. Brown and Mrs. C. L. Miller. Dainty refreshments were served after which dancing was enjoyed on the porch.

Miss Waters was the recipient of many very lovely presents.

W. A. OF HOSPITAL HOLDS FINAL MEETING OF SUMMER

The last meeting of the W. A. of the M.-S.-A. Hospital, which will be held during the summer months, took place in the Bank of Montreal Chambers on Wednesday, with the president, Mrs. A. George in the chair. The passing of accounts and general business were the chief business of the afternoon.

PRIZE WINNERS UPPER SUMAS W. L. FLOWER SHOW

A very successful flower show was held in the Watcom Road Hall last Saturday afternoon, under the auspices of the Upper Sumas Women's Institute.

Some especially fine specimens of flowers and plants were exhibited, which showed that the ladies of Sumas Prairie know how to raise flowers. Mr. J. H. Dean of the Aldergrove nursery acted as judge. Prizes were won by the following:

Roses—White, Mrs. Alan Brokovski; red, Mrs. Rudge, Mrs. F. B. Fadden; yellow, Mrs. J. L. Starr, Mrs. J. W. Winslow; pink, Mrs. M. McAdam, Mrs. F. B. Fadden; three red, Mrs. Rudge, Mrs. F. B. Fadden; three yellow, Mrs. J. L. Starr, Mrs. W. J. Winslow; three pink, Mrs. M. McAdam, Mrs. F. B. Fadden; display with foliage, Mrs. M. Fadden.

Peonies—Red, Mrs. J. L. Starr; white, Mrs. A. Brokovski; pink, Mrs. A. Boley, Mrs. Rudge; display, Mrs. P. Starr; collection, Mrs. M. Fadden. Pansies—Collection, Mrs. Brokovski, Mrs. J. L. Starr; display, Mrs. M. Bowman.

Any other garden plant—Mrs. A. Boley, Mrs. Peyton.

Collection garden flowers—Mrs. Peyton, Mrs. Brokovski.

Table bouquet—Mrs. A. Boley, Mrs. F. B. Fadden; buttonhole bouquet, Mrs. Brokovski, Mrs. A. Boley; corsage bouquet, Mrs. Rudge, Mrs. J. L. Starr.

Poppies, Mrs. J. L. Starr; geranium, Mrs. F. B. Fadden; fuchsia, Mrs. A. Boley, Mrs. F. B. Fadden; fuchsia, Mrs. F. B. Fadden; ornamental plant, Mrs. M. McAdam, Mrs. F. B. Fadden; any other house plant, Mrs. M. McAdam; collection house plants, Mrs. F. B. Fadden; hanging basket, Mrs. F. B. Fadden.

Collection wild flowers, Theon Boley, Reynolds Peyton.

Mrs. F. B. Fadden of the advisory board presented the books donated by the agricultural department.

Book prizes were given to winners in the following varieties: Display of garden flowers; display of roses with foliage; display of pansies, and collection of wild flowers.

Special mention is made of the bouquet of wild flowers exhibited by Theon Boley, which won the first prize. This bouquet contained thirty-seven varieties of wild flowers, and showed the ingenuity of the lady in selecting the assortment.

The show was well attended and much interest was taken in the fine displays.

HUNTINGDON

The regular meeting of the Huntingdon Women's Institute was held at the home of Mrs. Courtman, on Thursday afternoon, with the president, Mrs. W. J. Winslow, and the secretary, Mrs. Symonds, in attendance.

During the afternoon Mrs. M. Curtis gave a splendid paper on the "Making over of Children's Clothes" and gave demonstrations of same.

Those present included, Mesdames Purvis, Curtis, Frith, Finlay, Yarwood, McGillivray, Murphy, Fitzgerald, Bennett, Fern, Crawford, Murand, Dawson, Davis, Millard and Waterson.

Mrs. Winslow, the president, is leaving on July 1st for a three months' trip to England, and to show their appreciation the members of the Institute presented her with a beautiful Ebony brush and comb. Mrs. Murphy made a very fitting address to which Mrs. Winslow replied, thanking the ladies for their kind thoughtfulness.

Appetizing refreshments were served at the close of the meeting, Mrs. Courtman, the hostess, being assisted by Mrs. Fitzgerald and Mrs. Curtis.

The next regular meeting will be held at the home of Mrs. M. Curtis on October 4th.

The fine large barn on the farm of Elmer Murphy, on Vye Road, was totally destroyed by fire on Thursday night. The fire, the origin of which is unknown, started about 12 midnight, and so fiercely did it burn that it was with difficulty that the out-buildings and house were saved. The loss is practically covered by insurance.

MR. McMULLEN SUCCEEDS AT MILL ON THURSDAY

The death occurred very suddenly on Thursday evening of Mr. George McMullen, an employee of the Abbotsford L. M. & D. Co.

Mr. McMullen had gone to his work as usual in the morning, and about noon was seized with a severe pain in the back of the neck. He was conveyed to his home and medical assistance was immediately called, but so serious was the nature of the ailment that he passed away a few hours later.

The deceased was sixty years of age, and is survived by a wife and two sons, residing here, and a brother and other relatives in Vancouver. The family had only been resident here for the past two months, and sincere sympathy is extended to the bereaved in their sudden sorrow.

C. G. I. T. ENTERTAIN MOTHERS ON MONDAY

A very pleasant evening was spent at the Parish Hall on Monday last, when the girls of the C. G. I. T., under direction of Miss Weatherbee, their leader, entertained their "Mothers." A nice programme was given by the following girls: Irene King, piano solo; May Stady, recitation; vocal duet, Eva Ware and Ruth Olsen; violin solo, Jessie Coogan; piano solo, Freda Nelson.

Mrs. J. Parton, by special request gave an interesting talk on the "Girls' Place in the Home."

Refreshments were served by the girls and games and dancing brought an enjoyable evening to a close.

ANNUAL CELEBRATION WILL BE HELD HERE

Preparations are well in hand for the holding of the big 12th of July celebration in Abbotsford.

A fine programme of sports will be carried out, and the parade is expected to be very large. In the neighborhood of eight hundred people are intending to spend the day here.

POPLAR LOCALS

A special meeting of the Clearbrook Women's Institute was held in the Community Hall, Poplar, on Thursday afternoon, when it was decided by the members to hold a lawn social at the home of Mrs. J. Aitken, on Thursday evening, July 5th.

GARDEN PARTY IS VERY SUCCESSFUL EVENT

The garden party and lawn social held at the residence of Mrs. H. Peck on Tuesday, in aid of the M.-S.-A. Hospital was a very successful affair. The attendance was large, and games and other pastimes were enjoyed on the spacious grounds. At the tea-hour music was rendered by the Juvenile orchestra, and was much appreciated. Later, selections were splendidly given by the Abbotsford band, after which music was given by Wood's four piece orchestra, and dancing on the green was indulged in. Between sixty-seven and sixty-eight dollars was cleared by the holding of this enjoyable fete.

MISS WALTERS AND MR. FRASER WIN PRIZES

The Hard Times Dance held in the Orange Hall last Friday evening under the auspices of the Loyal True Blue Lodge was a very pleasant affair. The attendance was not as large as usual but everyone enjoyed themselves. Prizes for the most delapidated costumes were won by Mrs. Doris Walters and Mr. Johnnie Fraser. Mrs. T. York and Mr. T. Walters won the prizes for those who were able to dance the most old time dances when the music was played.

Music for dancing was provided by the Juvenile Orchestra.

A representative of the Board of Trade interviewed the Provincial Labor Department this week with a view to insuring that the district will have enough berry pickers to take care of this year's crop.

The West has wheat for the world this year if the world has money to pay for it.—Canadian Finance.

J. A. BATES, Editor and Proprietor

FRIDAY, JUNE 22, 1923

Elsewhere will be found a letter from Mr. Lothian, formerly of the S. S. B. in the central Fraser Valley, who writes from Edmonton that he is engaged in assisting to locate the Hebrideans in Canada. These immigrants are being located as speedily as possible, he says, which would indicate that no home had been provided for these people before they left their home in Scotland. Much has during the past few weeks been written regarding these new settlers, and it does seem a pity that such a bungle has been made in placing these settlers on the land.

To our mind it would appear strange that Red Deer, Alberta, or any part of Alberta should have been chosen to locate them permanently. These people have been used at home to be near the salt water, and are expert fishermen, in which case Vancouver Island would have been a wiser choice. It would have been more in keeping with the conditions in the Hebrides Islands. And there is plenty of available land on Vancouver Island, and with its excellent climate, should have been an ideal place for them.

THE FRASER RIVER—ITS PRESENT AND FUTURE

Over 64 years ago a man named Colonel Moody named New Westminster as a site for a great city. Then it was predicted that in later years the city would become an important industrial and commercial centre. This prophecy has not yet been fulfilled. More than half a century has passed during which time the Royal City has been eclipsed by her neighboring sister city, Vancouver. The growth of Vancouver has been considerably aided by the Canadian Pacific Railway, which has its terminus in that city, and it has tended to detract, in a measure, attention from the Fraser Valley. Now, however, residents and people of this district are beginning to notice the immense natural advantages of their favored location. The Fraser Valley and New Westminster in particular have unrivalled advantages for commercial and industrial development.

The Royal City, situated on the right bank of the mighty Fraser river, sixteen miles from its mouth, commands an extensive view of the fertile Delta lands and the Gulf of Georgia to the west, while stretching eastward to the Coast Range are the upper reaches of this wonderful valley. Any discussion of the industrial development of the Fraser Valley must necessarily deal with the commercial and business activities of New Westminster, the natural marketing and shipping point of this richest and most productive district in British Columbia. It has good fresh water harbor. Its water frontage is 17 miles in length. These things contribute greatly to the advantage of the city.

New Westminster is the agricultural market of the Valley, and for that reason, a great Provincial exhibition is held here every year.

It has admirable transportation facilities, including the Great Northern Railway, the Canadian Pacific Railway, the Canadian National Railway, and British Columbia Electric. The junction of the two is here. Tugs and steamboats are continually plying up and down the river, carrying freight and passengers. The great Fraser River bridge, built in 1902, and one of the finest in the world, carries steam, electric, and vehicular traffic, with approaches whose total length is 11,985 feet, the bridge itself, being one-half mile long. The Fraser Mills adjoining, one of the largest mills in the world, has loaded vessels of over 3,000 tons, and is shipping lumber to all parts of the world including Alaska, South America, Australia and Europe.

The Fraser Valley can support an immense industrial population. There are 2,000,000 acres of good arable land, 50,000 approximately, being cultivated. Over \$2,000,000 worth of produce every year is raised in the Valley. New Westminster's individual output is over \$8,000,000 annually, its payroll \$2,500,000. The proceeds from the lumber trade equal \$3,000,000 a year, the fish trade \$300,000. It is the third industrial

city in Western Canada, and by far the greatest for its size.

The Royal City is rapidly increasing its industrial output, and trade is being attracted here because of the splendid commercial sites, the fine transportation facilities, and the abundance of electrical power for factory purposes. The opening of the Panama Canal has greatly influenced shipping by boat. New Westminster is prepared to take special advantage of this. Grain elevators might be constructed here for the handling of wheat from Alberta, which can be shipped by way of the Panama Canal at a saving of from five to eight cents per bushel over the Fort William route.

New Westminster, with the Fraser Valley behind it, is destined to exert an important and more or less controlling influence over the surrounding country, and it stands out pre-eminently as the only district in British Columbia in which development on municipal lines has taken place to any great extent. It will soon have a terrace garden along the river front which will aid in advertising the Royal City as the beautiful "Scenic City of British Columbia." Prize essay written by Miss Elva Shortreed of New Westminster.

VACCINATION IS 2,000 YEARS OLD

"Vaccination is an outgrowth of man's effort to protect himself from pestilence by using nature's methods of defense," says Dr. G. W. McCoy, director of the Hygienic Laboratory of the U.S. Public Health Service. "Primitive man noticed that recovery from a first attack by most diseases gave immunity against other attacks; and some 2,000 years ago he began to inoculate his fellows with smallpox when conditions seemed propitious instead of waiting for nature to do it at some time when conditions might be very unpropitious.

Inoculations against small pox were made in India and in China as early as 300 B. C. Later, when the disease reached Europe, inoculation went with it, supplemented by a new method called "selling smallpox"—exposing a well person to contact with one ill with the disease so that if he survived he would be proof against it.

Inoculation differs somewhat from vaccination as devised by Jenner, but the principle is the same. Moreover, long before Jenner's day it was known that an attack of cowpox gave immunity from smallpox; and records show that men who had recovered from cowpox had themselves inoculated with smallpox to make the proof conclusive. Jenner, however, as he himself says, "placed vaccination marks on a rock" where he knew it would be immovable.

Before the days of vaccination conservative estimates show that one-tenth of all deaths were due to it. Today smallpox is rare; many physicians have never seen a case; and, where vaccination is consistently practised no deaths from it occur. Formerly smallpox was considered a children's disease; and it still is a child's disease—where infantile and school vaccination is neglected. Witness the Philippines, where four or five years ago, after years of neglect of vaccination, an epidemic swept away nearly 5,000 persons, a large percentage of whom were children under ten years of age.

In the United States well vaccinated communities show low smallpox rates—Maryland with one-tenth case per thousand population; New York with one-fortieth per thousand, and the District of Columbia with 0.14 per thousand. Poorly vaccinated states tell another story; Oregon with 1.45; Washington with 1.2; and Kansas with 2.0 per thousand population.

Some communities wait till an epidemic breaks out and then rush to vaccinate. These stop the disease—after it has caused many deaths and has "branded" many survivors. Sixteen months ago, in Kansas City, an epidemic of smallpox began, yielding 25 cases and 123 deaths; and a

few months later another started in Denver and yielded 55 cases and 288 deaths. Such epidemics always end the opposition to vaccination in the community—for a time.

CONTROLLING THE MOSQUITO

The discomfort produced by the mosquito during the early summer months leads not only the scientist but the man on the street to consider whether the pest cannot be controlled. The question often asked, "Of what value is the mosquito?" has not been satisfactorily answered. Fortunately, methods of controlling this insect have been discovered and are being applied with greater or less success. Portions of the tropics would, perhaps, never have been made habitable for the white man had not successful mosquito control methods been discovered. The means employed in the tropics have been found applicable to other places.

It has long been understood that the multiplication of the mosquito depends on pools or areas of water, more or less stagnant. In these the mosquito deposits its eggs, which soon develop into larvae and then into adult insects. The larvae, it has been discovered, are destroyed by contact with an oily substance. The remedy, therefore, is found in applying oil to the breeding places of the insect. A very small amount has been found sufficient to spread itself over a considerable area of water. This extremely thin layer is sufficient to destroy all of the larvae that come in contact with it.

The Entomological Branch of the Federal Department of Agriculture has for several years been working on this problem in British Columbia. Last year the district surrounding the town of Banff in Alberta was dealt with. An area of several miles in extent was surveyed and breeding places were treated. The area treated included both open ponds and marshy spots clothed with dense willow growths. The work was done during May and June, when 2,800 gallons of oil were applied. Watering cans and knapsack sprayers were used in spreading the oil, which was sprayed on all water where larvae were found. Coal oil alone was used, as it was feared that, owing to cold nights, heavier oil would not become distributed. Although a number of inaccessible places were missed, the results of the oiling were very marked. It is estimated that seventy-five percent of control was realized. In an article describing this work, in the May-June number of The Agricultural Gazette of Canada, the author states that the town of Banff and vicinity was rendered comparatively free from the pest.—Dominion Department of Agriculture.

PROCEEDS OF DANCE IN AID OF HOSPITAL

The Women's Auxiliary to the Mission Memorial Hospital wishes to extend its thanks to Mrs. Hitchin for the use of Bellevue Lodge for a dance on June 12th, the proceeds of which were as follows:

EDMONTON

EDMONTON, June 15.—Within the past two or three weeks we have had lots of rain and a lot of good growing weather and crop conditions are better on this territory today than they have been at the same period for many years.

There have been very few American berries brought on this market this year so that there should be a pretty fair chance to market a big lot of B. C. berries. First Washington Bing cherries arrived in this week and were in excellent shape. Old apples are now cleaned up and we are now awaiting arrival of new

THE INCREASING VALUE OF YOUR TELEPHONE

Your telephone is of greater value as each month goes by. With a steady increase in the number of new telephones you are constantly able to talk with a larger number of people. This applies to different parts of the province.

It means to the business man that he is in close touch with more people. As every telephone is a long distance telephone, anyone on the Lower Mainland or Vancouver Island may be reached at a moment's notice. The conversation is direct, the reply instant.

Don't overlook the cheaper night rates. Between 7 p. m. and 8 a. m., you get three times the day period at the same price.

British Columbia Telephone Company

Concerning Style in Printing

When you order printing you buy something more than paper and ink. The best advertising talk in the world looks vulgar and commonplace if printed without distinction.

STYLE in printing is an art. You cannot buy it just anywhere.

Concerning Cost of Printing

The cost of printing depends upon something more than the profit which the printer puts upon it.

Much depends upon his plant, his organization his technical ability and experience.

MORAL—For the best printing, something distinctive and original, get an estimate from us.

J. A. BATES, The Printer

REGINA

REGINA, June 14.—The Wholesale Market since the first of the month has been fairly active on nearly all lines. B. C. Strawberries are beginning to arrive on the market, one car arriving in very fair condition, being distributed over the province and a few L. C. L. shipments. The market is not quite finished with American berries. Tomatoes are entirely cleaned up and a car of B. C. hothouse is expected to arrive shortly.

Strawberries, 24 pt. \$5.00
Gooseberries, 24 pt. \$2.50
Potatoes, cwt., \$1.50 to \$2.00
Strawberries, pt., 25¢ to 30¢
Gooseberries, lb. 35¢

MEDICINE HAT

Heavy rains all over this district during past two weeks. Crop prospects best since 1915. Hot house tomatoes very scarce, price advanced from \$5.50 to \$6.00 F.O.B. to jobbers.

B. C. strawberries mostly arriving soft sold at job prices, account condition.

Few gooseberries arriving from Okanagan showing mold evidently picked during wet weather.
Strawberries, B. C., \$3.50 to \$5.50
Gooseberries, B. C., 4 bskt., \$2.00 to \$2.50
Rhubarb, B. C. \$2.75

MAP OF FRASER RIVER DELTA

The Geological Survey has just published a geological map of an area extending from the north shore of Burrard inlet south to the international boundary and from the Strait of Georgia east as far as Port Haey and Fort Langley. The map is published on a scale of one mile to one inch, and in addition to showing the areas underlain by the different rock formations shows the elevations by contours. Copies may be had by applying to the Director, Geological Survey, Ottawa, or to 510 Pacific Building, Vancouver.

Constipation's Remedy

must come from nature. Celery King is a mixture of medicinal herbs and roots that rids the system of impurities in a gentle, natural way. An old and well tried remedy—30c and 60c packages.

A Salesman's Cough

Irritates his customers—and makes him inefficient and miserable. Shiloh is the ideal remedy—it is not a bulky cough mixture but a special formula proven successful for many years. A few drops brings immediate relief. 30c, 60c and \$1.20. All druggists.

WEEKLY NEWSPAPER EDITORS
HOLD MEETING AT JASPER

(Continued from Page One)

Star, H. G. Parsons; Ladysmith Chronicle, Thos. Collinge; Mission City Record, J. A. Bates; Merritt Herald, J. W. Ellis; Nanaimo Herald, R. R. Hindmarch; Penticton Herald, John Power; Prince George Citizen, J. G. Quinn; Rossland Miner, W. K. Elliston; Summerland Review, R. E. White; Vancouver Farm and Home, W. A. McDonald; Vancouver Province, F. J. Birde; Vanderhoof Chronicle, Next year a joint convention will be held in Vancouver, Mr. F. J. Birde of the Vancouver Province, extending the invitation to be guests of the Vancouver publishers. The date to be arranged by the executive.

All arrangements for the entertainment of the delegates were in the hands of the Canadian National Railways under the able guidance of Mr. C. W. Higgins, of Winnipeg, and Mr. Walter McNichol, of Vancouver, and it goes without saying that no better programme could have been arranged. There was motoring, riding, golfing, boating, etc., for those who desired any one of these amusements, and of course were enjoyed.

The scenery at Jasper Park is delightful, and when the park becomes more widely known, will be visited by a very large number each year who wish a short holiday and pleasant outing.

Jasper Park was made a national playground and a big game reserve by the Canadian government in 1907 although it was not until seven years later that the boundaries were fixed. The name selected was derived from that of Jasper Hawes—denominated by French traders, because of his hair, Tete Jaune—an employee of the North-West Company in charge of Jasper House, created by that company in 1808 near the northern tip of Brule Lake as a trading post.

The area of the Park is 4,400 square miles—the largest in the Dominion. Some conception of this vast area may be gathered from the fact that it is more than double that of the province of Prince Edward Island, is almost as large as the state of Connecticut, a little over the half as large as the size of Ulster (Ireland) and nearly double that of Devonshire—one of England's largest counties. On the west it extends to the boundaries of British Columbia, and on the east to where the foothills of the Rockies slope towards the great prairie country, while from north to south it has a length of about fifty-five miles.

The main Lodge contains a large lounge, dining room, ballroom, billiard room and twelve bedrooms, with all modern conveniences. A beautiful screened veranda encircles the lounge and dining room with an octagonal rest room. The rotunda of this lodge is 120 feet long by 40 feet wide, with a dining room 98 x 40 opening into it. The veranda is 16 feet wide and about 220 feet long. The bedrooms in the main lodge are 115 x 35 feet, the kitchen covers 140 x 42 feet, being fitted with all modern electrical machines and appliances.

There are 18 bungalows 24 x 36 each with four rooms, each with bath and sitting room, and veranda; two bungalows 26 x 70 with 12 single rooms; three double suites, 32 x 30; four single suites, 16 x 30 feet, each with bedroom, sitting room, toilets and bath, and two staff buildings 66 x 24. The laundry and boiler house is 28 x 65 feet. All these buildings are supplied with water from a steel tank of 50,000 gallon capacity.

All the buildings in the Park, except the hardware, are built of rustic from the Park, and are most luxuriously furnished. It is an ideal place for a convention, or a holiday.

CALGARY CAR ARRIVALS

From June 7th to 14th.

From B. C.: 1 strawberry; 1 mixed vegetables.

From Alberta: 2 potatoes.
Imported: 1 cabbage; 1 melon; 1 tomato; 1 mixed vegetables; 1 deciduous fruit.

Calgary Wholesale Prices

Strawberries, B. C., crate \$4.50
Gooseberries, B. C., 4 bskt. cr. \$2.25
Rhubarb, B. C. and Wash., 40 lb. crate \$1.75

VANCOUVER

VANCOUVER, June 13.—The Vancouver wholesale produce:
Strawberries, B. C., crate up to \$2.75
Rhubarb, 4 lb. box, \$1.00 to \$1.25

During the past week American berries have been prohibited from coming into Canada, which should certainly help some.

International Note

Oregon hops are being shipped to France, but it is not expected that they will affect the French hop market.—Seattle Argus.

APPROVE REPAIRS TO
MATSQUI BRIDGES

An adjournment was made from the Matsqui Council meeting on Saturday in the Agricultural hall for the reeve and councillors to view the bridges in the district. A tour was made along the Glenmore and Township roads. Coun. Mutch will have the Slough bridge strengthened near Glenmore school, and Coun. Keary will shorten and lower the bridge over the stream on the Township road. Further work was discussed for other crossings, to be done at a later date.

Permission was given to the neighboring land-owners for pasturage on the lands owned by the municipality just west of Abbotsford.

Coun. Mutch promised immediate attention to the outlet requirements made by Messrs. Purley and Horn. Mr. J. Murphy and Mr. J. Smith were given a hearing on their particular cases.

The rock-crushing plant at Clayburn will be inspected by Reeve Merryfield, Councillors Mutch and Bell. They will report to the next meeting on its output and facilities.

The government is to be asked to consider the adoption of several roads in the municipality as "secondary" highways, in which the department of public works pays half the upkeep. The council proposes the taking over of a route including the Bradner road, interprovincial highway and Harris road to Riverside road.

MATSQUI HAS A
BOARD OF TRADE

Matsqui village formed a board of trade on Friday evening last, which will deal with public problems relating to the village. Mr. Charles O'D. Bell is secretary and Mr. V. Bray treasurer. A doctor is required by the board and also a station agent at the C.P.R. station and communication to the respective authorities were sent.

GRAVEL ROAD TO
MAINTAIN SURFACE

The commencement of operations under the new Bradner road contract shows the Matsqui Council that they may lose one road to gain another. The mile of interprovincial highway which lies between the gravel pit and Bradner is breaking down under the heavy haulage. Coun. Keary is therefore authorized to call for tenders immediately for the graveling of this stretch; tenders will be asked on a yardage basis.

The reeve and councillors had complimentary reference to the manner in which the Northern Transfer Co. were handling the gravel in the Mt. Lehman pit.

Well Known Traveler Dies

The business section of the district were shocked on Thursday last to hear of the death of Mr. Clarence Colpitts at Murrayville. Mr. Colpitts had travelled for fifteen years for the Western Grocers of Vancouver, and was well known and highly respected throughout the Fraser Valley. His presence and visits will be missed by the businessmen of the district.

There is a greater number of orders of nobility in Italy than in any other country.

MT. LEHMAN

Mr. and Mrs. Suttie motored from Vancouver and spent the week-end with Mr. and Mrs. Jas. Forrester.

Mrs. Gamsby, Dennison, attended the funeral of her sister-in-law, Miss MacPhail, Vancouver, on June 13. Miss MacPhail had been ill for many months with tuberculosis.

Friends from all parts of the district paid their last respects to the late Mrs. T. H. Lehman when they attended the funeral services in the Presbyterian Church and at the grave on Sunday afternoon, June 10 at 2 o'clock. Rev. Harding Pries conducted the impressive service of the Anglican church. Two of Mrs. Lehman's favorite hymns, "Lead Kindly Light" and "Nearer My God to Thee" were sung during the service. Mrs. Leach of Bradner presiding at the organ. The pallbearers were Mr. R. Owen, Mr. Malcolm Morrison, Mr. John Morrison, Mr. D. McDougall, Mr. Dan Mc Nicholas and Mr. Wm. Merryfield.

Many and beautiful were the floral tributes laid upon and around the casket—tributes of love and sympathy from the many friends. The sympathy of the entire district is extended to the bereaved ones in their hour of sorrow.

On account of the very wet day the regular meeting of the Mt. Lehman Women's Institute held in the home of Mrs. Bell was not as well attended as usual. The president, Mrs. Fearn, referred to the break in the ranks caused by the death of Mrs. T. H. Lehman, who was a charter member and who had been a most interested worker—and out of respect to her memory the members stood in silence for a few minutes. Matters in regard to the garden fete to be held at Mrs. Coglan's in July were completed. The Institute expressed itself as agreeable to having the district conference in the second week of November instead of in October as formerly. Plans for the library were laid over. Mrs. Gamsby, the secretary-treasurer, who expects to be away for some months, tendered her resignation, which was most regretfully accepted. No one was appointed as secretary. The treasurer for the rest of the year will be Mrs. Thos. Oswald. "My Favorite Recipe" with a sample of the finished article formed a programme both theoretical and practical. Miss Bell was hostess for the afternoon and Miss Forrester acted as secretary pro tem.

Entrance and High School examinations will begin June 25 at Mt. Lehman. Mr. Dunbar will be presiding examiner, while Miss M. Stafford will be supervisor at the Dennison High School.

Tenders are being asked for the building of a High School at Dennison on property purchased from the S. Larmon estate. During the past year high school work has been carried on in temporary quarters on Mr. John Dennison's farm.

Lazy and Critical

Soon the lazy man who lies in bed and listens to the Sunday morning sermon by radio will be complaining of, or approving, the acoustics of the sky.—Saskatoon Star.

The waist line is to be moved again according to late fashion notes.

Wishes to Say
Goodbye to Friends

Mr. Daniel Lohman, formerly of the S. S. B. of the district, and who is now stationed at Edmonton for a short time, writes that he wishes to be remembered to his friends as follows:

"I would have written, sooner but have been busily concerned with lebridean emigrants since coming here. These emigrants would appear to have been coaxed out here by the old and now defunct Colonization company. The Soldier Settlement board here is settling as many as is possible, and settling them as speedily as suitable places can be secured.

I was sorry that due to the above mentioned matter that I was called away from my supervisor's post too suddenly to permit by being able to bid good-bye to each and all of the fellows with the Board. Considering the slump and agricultural marketing depression covering practically the whole period of Soldier Settlement they have entrenched and consolidated their farming position in a manner by no means less creditably as compared with their courageously war period. I feel sincerely that the time is not now far distant when they will again be in a position to go again "over the top" to success. As you know in the Fraser Valley we look for much of our success from the wealth of the prairie provinces and I want to tell you this from first hand experience that all Alberta since the recent adequate rains, has been smiling all over its face because a bumper crop is assured so far as the necessary moisture is concerned. I do not believe I am over stating the case when I say that both grain and feed from the prairie provinces will this year far surpass all record in history.

I will be deeply appreciative if you can see your way to convey to all soldier settlers and civilian friends, as well, my thanks for their friendliness, and my heartfelt wishes for a more adequate prosperity. An immigration agent (Great Britain) hope to hear from everybody.

P. S.—Address at present, Care of J. D. Lohman, Dick Place, Edinburgh, Scotland.

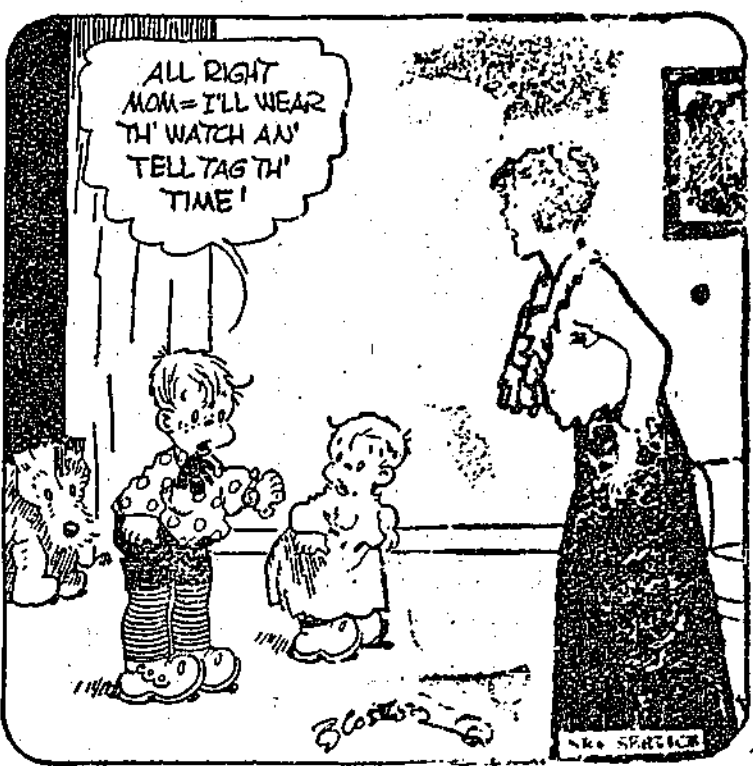

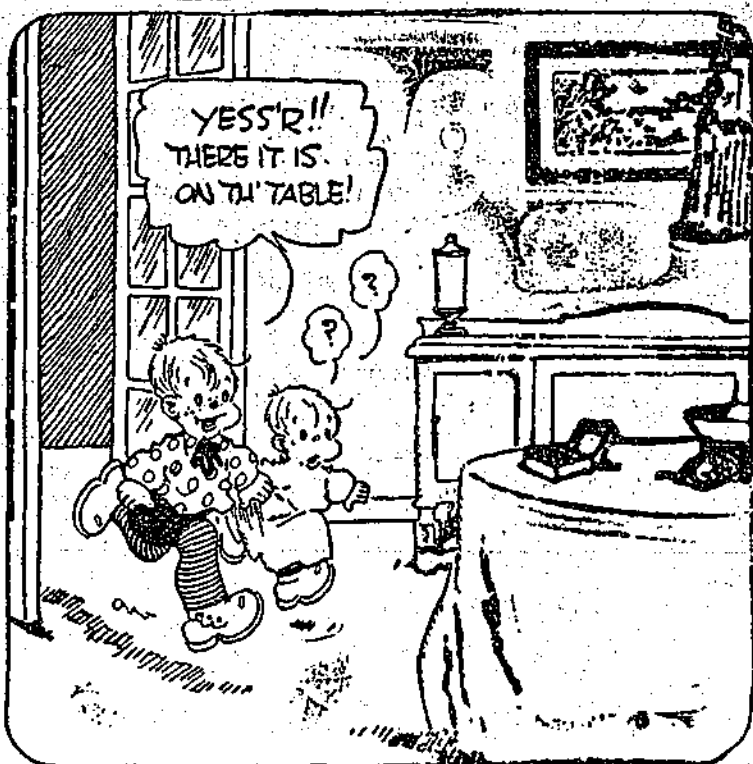

"HORNETS" IS LATEST
MALADY IN LOS ANGELES

LOS ANGELES, June 16.—In an effort to combat "hornets," the strange spring malady which causes its motorist victims to toot the horns almost incessantly, for the simple pleasure of hearing the honk, the Auto Club of Southern California has requested its membership to do everything in its power to abate the Tooter Bug nuisance.

Club observers report that there is more unnecessary honk-honk in southern California than in most any other section of America. They think it because the Tooter Bug thrives more luxuriantly in the California climate. The coming glorious spring and summer weather along the boulevards seems to aggravate the pest, they say.

Times Have Changed

Political picnics are not like what they were in the old days, when the "boys" were served with something more substantial than tea and lettuce sandwiches.—Brantford Expositor

ABBOTSFORD, B. C.

PERSONALS

Mrs. G. N. Zeigler was the guest of her sister, Mrs. Thompson of Vancouver during the week.

Mr. and Mrs. J. A. McGowan, Mrs. M. M. Shore, Mrs. W. Roberts and Mrs. Wright attended the Grand Chapter of the Eastern Star, held in North Vancouver Tuesday and Wednesday of this week.

Mr. W. Hutchinson of Sedro Wooley is visiting his home in Abbotsford.

Mrs. Dave Stafford of Boundary Bay is visiting her mother, Mrs. Everett of Sumas Prairie.

Mr. and Mrs. S. Bedlow and family are the guests of Mrs. Bedlow's sister, Mrs. Burdell of Union Bay. Mrs. A. McPhee and two children are spending a week as the guests of Mrs. McPhee's sister, Mrs. Moore at Alta Lake, on the P.G.E. Ry.

Mrs. Malcolm Morrison of Mt. Lelman was the guest of Mrs. H. Fraser on Tuesday.

Mr. and Mrs. Williams of Vancouver spent the week-end at the home of Mr. and Mrs. R. Gilmore.

Mr. Ford of Vancouver has accepted a situation in the grocery store of A. Lee.

Mr. and Mrs. A. Munroe of Vye Road were week-end visitors to coast cities.

Mr. James McGowan, who has recently come to B. C. from Scotland, is the guest of his uncle, Mr. J. A. McGowan.

Miss Richmond and Miss Switzer of Port Arthur, Ont. are the guests of Capt. and Mrs. F. J. R. Whitehead. Mrs. Miller, Sr. has returned from visiting Mrs. R. Beaton of Matsqui.

Mr. J. Downie visited Strawberry Hill on Wednesday, and sang solos and played drums at a garden party there.

In a game of baseball between Ladner and Clayburn played at Clayburn on Wednesday evening, the Clayburn team was defeated by a score of 14 to 1. Some of the men of the Clayburn team were laid up with various injuries, and were unable to defend their team, which accounts in part for the badly unbalanced score.

Mr. Leslie Tretheway visited his home at the week-end, from Harrison Lake.

Arrangements are well under way for the holding of the annual garden festival of St. Matthews Church, which will take place on July 6th. Many special attractions will be provided and the Kiwanis Glee Club of Vancouver will take part.

Mrs. J. Aitken of Poplar spent Wednesday as the guest of Mrs. P. Wilson.

The Misses Steede spent the week-end at White Rock.

Mrs. H. Peck attended the Baptist convention in Chilliwack on Friday last.

Miss Wilson of Vancouver is fulfilling the duties of relief nurse at the M.-S.-A. Hospital during the absence of Miss Spencer.

A song service will be held in the Presbyterian Church on Sunday evening, commencing at 7:30 p. m.

There was a small attendance at the Men's Club on Tuesday evening, on account of the garden party being held the same evening.

Mr. J. R. Vannick spent the week-end in Vancouver.

Mrs. Griffin of Bellingham, has come to Abbotsford to reside. Mr. Griffin is in the employ of Mr. E. A. Hunt.

Mr. A. C. Salt of Vancouver visited

his home here last week-end.

Mr. E. S. Estlin has returned from Vancouver, and drilling operations will be resumed at the Home Oil Company's well.

Miss Horler of Vancouver visited the Misses Tretheway during the week.

Under the auspices of St. Margaret's Guild of the Bradner Anglican Church a very successful garden party was held last evening.

Mrs. A. C. Salt is visiting in Vancouver for the week-end.

Mr. and Mrs. Beresford were visitors to Vancouver on Sunday.

Mr. and Mrs. C. Sumner and family motored to Vancouver on Sunday. Among the members of the Abbotsford W. B. A. of the Maccabee Lodge who attended the Pageant held in Vancouver on Tuesday were, Mrs. C. L. Miller, Mrs. Brown, Mrs. Smith, Mrs. R. Thompson and Miss F. E. Tretheway.

Mr. F. H. Brydges Sr., who has been a resident of Manitoba for many years is the guest of his son, Mr. J. Brydges of Abbotsford.

The game of football played last Saturday afternoon between the high school boys of Matsqui and Abbotsford, resulted in a victory for the Abbotsford boys.

The Caledonian and St. Andrews Society are planning for the holding of their annual picnic in the near future.

Miss Jean Alanson of Mission City is visiting Miss Gwen Sumner.

Miss Annie McPhee of Vancouver visited her home here on Saturday.

Mrs. Hilton of Alberta is the guest of her sister, Mrs. H. Gibson.

Mr. T. Bennet visited Vancouver and Burnaby at the week-end.

Mr. and Mrs. Hooper and family were the guests of Mr. and Mrs. J. Vannetta over Sunday. Mrs. Vannetta returned to Vancouver with them and spent a few days holiday there.

Mr. Stanley Cook visited his home in Vancouver on Sunday.

Mr. P. Buchanan spent the week-end in Vancouver.

Mr. and Mrs. T. Perks left on Thursday to take up residence in Vancouver.

Messrs. C. Weir, E. Snashall and G. H. Kerr attended the Provincial Grand Lodge of the A. F. and A. M. held in New Westminster this week.

Mr. and Mrs. A. Duncan of Calgary are the guests of Mr. and Mrs. W. Reyburn.

Mrs. T. L. Gray of North Vancouver was the guest of her sister, Mrs. A. Taylor over the week-end.

Messrs. Stewart and Lorne McPhee of New Westminster spent Sunday at their home in Abbotsford.

A meeting in the interests of the milk shippers, is being held in the Whatcom Road Hall this evening (Friday).

Mr. and Mrs. D. Smith, Mrs. Hicks and Mrs. J. McPhee motored to Vancouver on Tuesday. Mrs. Hicks will spend a few weeks' holiday there as the guest of her daughters, Mrs. Robb and Mrs. Campbell.

Mrs. R. Thompson attended the Provincial Grand Chapter of the Eastern Star Lodge, held in North Vancouver this week.

Among the members of the Abbotsford Lodge who attended the Provincial Grand Lodge of A. F. and A. M. in New Westminster on Thursday and Friday, were Messrs. R. H. Eby, M. M. Shore, E. T. Weir and R. H. Weir.

Switzerland leads the world in electric railways.

Father Fraser is Getting Considerate

It is gratifying to note that the Fraser River is gradually lowering this week, with the prospects, that although it does, again rise that this year there will be no high water, dangerous to the low lands along the banks of the river.

A few days ago it looked as though there might be high and dangerous water, but the cool weather of the past few days has almost decided the matter—at least for the present. The high tide of the season comes shortly when if the river is low it is not considered fatal, but when the water is high, it brings with it an anxious day or two.

The water rose to considerably over 18 feet, but with the last week has fallen some two feet, and with cool weather the 15 foot mark is expected at the end of the week, at least.

FOREST INCOME OF 500 MILLIONS MENACED BY FIRE

By Dr. Clifton D. Howe, Acting President, Canadian Forestry Association.

In the last analysis, adequate fire protection resolves itself down to the question of whether or not the people of this country wish to save their wood-using industries. Let us look into the service of these to the country. The value of the manufactured pulp and paper products is \$250,000,000 per annum. The various companies have invested in the business some \$375,000,000. They employ 33,000 men in the mills and in the forest and they pay them each year \$40,000,000 in wages. Isn't that business worth saving?

The value of lumber, lath and shingles produced in one year is \$150,000,000. Lumber means boards and deals, dimension stock—not the finished product, as in the case of paper. I can't find out just how much is added to this value by the various minor wood-using industries. With reservations, I will say that the minor industries, which depend entirely upon wood, produce products to the value of \$60,000,000 annually. They have an invested capital of over \$50,000,000. They employ 13,000 people and pay annually in wages around \$14,000,000. Is it not worth some effort to keep these industries going?

Are these worth while? To these should be added the industries that depend in essential part but not entirely, upon forest products. These, such as the horse drawn and motor-drawn vehicles produce each year products valued at \$86,553,314. The capital invested totals over \$65,000,000. The employees number over 9000 to whom are paid wages amounting to nearly \$12,000,000.

Going back to the lumber industry proper, we find that its invested capital reaches \$250,000,000. It employs 55,000 men, and gives them \$600,000,000 in wages annually. That business is worth saving too, is it not?

There are more than 100,000 people in Canada at work converting the forest product into wealth in some form or other. They are chiefly heads of families or the bread winners of families, thus they represent probably a half million people dependent upon the forest for a livelihood. Are they worth while in their work? Are they worth while to the country?

FINDS THINGS GOOD IN NORTH

VICTORIA, June 21.—Hon. E. D. Barrow, minister of agriculture, after his three weeks' inspection trip of agricultural conditions in the Bulkley and Nechako valleys and Cariboo country.

Creameries at Vanderhoof and Quesnel are doing well this year and are increasing their output of dairy products, Mr. Barrow said. He declared the country is gradually opening up, with new settlers coming in all the time.

"This has been an exceptionally favorable season for the growth of all grains, grasses and fruits," he said. "The farmers who have been having a hard time of it expect to pull out this season in better shape than for years. Beef cattle are in better condition in the Bulkley valley than last year."

"Farmers have had great difficulty in the past in marketing their livestock at the Coast owing to the fact that Prince Rupert and camps along the Coast have been using beef from Edmonton. We are arranging with the Board of Trade at Prince Rupert for the establishment of a public slaughterhouse in that city, which will solve the problem of marketing cattle from north British Columbia."

A meeting of those interested in securing a second bank for Abbotsford again was held in the Abbotsford Theatre Saturday afternoon last. After discussing the matter a committee was appointed to deal with the question.

Fruit Prospects Looking Brighter

It was thought that if the recent rains continued that the fruit crop would be an entire failure. But the past week has put a new phase on the situation, and now it is thought that with favorable conditions there will yet be a bumper crop.

The strawberry crop has been somewhat of a failure, although some very excellent shipments have been made since fair weather started in; and also at the beginning of the season. It might be estimated that there was a one-third crop.

The raspberry canes are showing up well during the past week, and where the canes were not partly or wholly destroyed last winter, the prospects are looking bright for a most excellent crop. A trip around the district this week showed that the berry patches were generally speaking in an excellent condition. All that is required now is more fair weather and good marketing conditions. The weather has every appearance of doing its part, and the rest is left to the various organizations to do their level best for the growers and themselves.

The prairie people want our berries and the bright prospects there for a bumper crop makes them hopeful, and willing to spend their money for some of the dainties of life, in which the Cuthbert raspberry plays an important part.

She missed her friend, and in the end she missed a trip to Vancouver. 'Twas all because, John rules the law, And kept the Ford key from her.

Services will be held in St. Mathew's Anglican Church at Abbotsford every Sunday night at 7:30. Rev. A. Harding Priest, vicar.

THE ONLY FORD THAT WON'T RUN

SPRINGFIELD, June 18.—Henry Ford stated today that he would not be a candidate for president, as he had no desire to run for the office. He characterized the talk about his possible acceptance of nomination as a newspaper yarn.

Referring to the Ku Klu Klan Mr. Ford said: "I never belonged to any organization. I think the Klu Klux Klan is un-American."

JUST THE FEMINE HABIT

They were bound for the Wembley Stadium, and could think of nothing but the cup final until the hooded two-seater overtook them. Then the vision of a blue-eyed flapper at the wheel made football seem of secondary importance.

So soon as it was ahead of the coach, the little car zig-zagged wildly from hedge to hedge, then pulled up right across the road.

On went the brakes, and 28 stalwarts rushed to see what tragedy the hood concealed.

"Are you hurt? What's the matter?" they panted.

The flapper stared in bewilderment. "There's nothing the matter," she said coldly. "I was only powdering my nose."—The Commercial Motor.

Germany Then and Now

Germany asks for a moratorium, but plundered Belgium and France had to pay without delay.—Wall Street Journal.

The Gasoline Age

Every nineteenth person in Canada owns or has paid an instalment on an auto. The flivverless remnant is kept busy dodging them.—Woodstock Sentinel-Review.
