WILL LECTURE ON HIEROGLYPHIC WRITING

In this lecture Prof. Hill-Tout traces the history and development of epigraphy from the earliest times down to our modern alphabets—from the rude etchings and picture writings of the cave-men of ancient Europe to the formation of our own phonetic symbols, incidentially dealing with the results of recent archaeological research in its bearings upon the antiquity of man and his primitive cultures. His slides will give illustrations of picture writings gathered from all parts of the world. examples of the hieroglyphic system of the ancients and of the recently discovered Minoam scripts of Crete, which epigraphical scholars now regard as the true source of the Greek and Latin alphabets, and through them of our own. They also include copies of th eRosetta stone and the Behistun tablet, which respectively furnished th ekeys which unlocked for us the long lost knowledge of the ancient civilizations of Egypt and Mesopotamia; the Moabite stone, the Siloam inscription, Hittite inscriptions and other interesting historic documents of the ancient world not commonly accessible to the general reader.

ELECTRIC LIGHTS FOR ABBOTSFORD STREETS

The Matsqui Sumas Board of Trade held their regular meeting on Monday evneing last with a good working attendance, and there was considerable business done that was of local interest and will be for the future benefit of the town and district. The board has had several good meetings now and it is expected that some good work will be accomplished.

Mr. A. M. King was appointed as a committee to entice new members to join the board, and as an inducement for new members to come in and help along a good cause the fees were reduced to $2.50 per year. The matter of monthly dues was cut out entirely, the board believing that it was easier to collect $2.00 per year than a certain amount each month.

Mr. Higginson reported that he was getting along fine with the collection for lights for the town and he thought that instead of five or six lights there would probably be three or four more. He said the popular opinion was that it was better to pay 50 cents per month than to walk in the dark. The Western Canada Power Company will instal the lights in the course of a few days.

The secretary was asked to write to the provincial surveyor in regard to block 33 of the townsite in order to see what discrepency there was.

Mr. C. Hill-Tout was appointed as the board's representative at the next meeting of the railway commission, re Hazel street and other important matters.

MATSQUI COUNCIL

The regular meeting was held in the municipal hall on Saturday, October 26th with the reeve in the chair and Councillor Roberts absent.

The minutes of the two previous meetings were read and adopted

Communications were received from—

William Elliott giving permission to divert the Downes road through a portion of the N. W. ¼ of Sec. 28, Tp 16 so as to make a fill and build a culvert and thereby do away with a bridge at that point. The clerk was instructed to write and ascertain if Mr. Elliott were willing to allow this diversion without making any claim for compensation.

W. D. Magee, stating that in March 1905, the department at Ottawa reserved Lots 8, 9, 15 and 16, Sec. 1, Tp. 17. E. C. M. from homestead entry, upon application of Mr. A. Cruickshank, in connection with the Matsqui water supply and asking if anything further has been done in the matter. Laid over for investigation.

G. E. Graham superintendent C. P. R. stating that the Hallert road crossing would be given attention

C. K. Burnett accepting the position of municipal engineer to act under the "Ditches and Water courses Act, 1907." Filed.

From the returning officer as to the result of the voting on the Power and Light By-law, and also on the Water By-law. Power and Light by-law, for 72; against 13 majority 54. Water by-law, for 77; against 11; majority 66.

From T. J. Trapp & Co., stating that there was a balance due of $12.25 on the half ton shipment of stumping powder as half ton lots were not sold for the same rate a ston lots. Laid over.

R. W. Mercer, forbidding the council, its servants or contractors from entering on his premises, being a part of D. L. 44, Group 2. until such time as the station on the C. N. P. R. Co. is located, he being of the opinion that there was no certainty that the station would be built at that point. Councillor Bell informed the council that there was no doubt that the station would be erected there, and as the council had paid for the improvements last year to Mr. Brotnov, the establishing of the road would be proceeded with.

From W. G. Swan, divisional engineer, C. N .P. R. Co. promising that the road crossings would be placed in proper condition shortly, when the work trains complete the work in that vicinity, also that he would examine the position of their fence at Mt. Lehman crossing and do what is right in the matter.

From G. Rummel asking that steps be taken to settle the road diversion at the corner of the White road and the Mt. Lehman road as the plan suggested of an exchange of property with the owner of the adjoining ¼ Sec. had failed of execution. The reeve stated that steps would be taken by means of a by-law gazetting the diverted portion and the issuing of a quit claim deed.

From William Knox asking that the cheque for $50 be issued in the name of John Knox be altered.

FRIDAY NOV. 8, 1912

The result of the presidential election in the United States was a surprise to all who took part in the election. No one expected that the Democrats would win although it was a foregone conclusion at the start that the Rpeublican party was doomed to sit in the background for the next four years. But no one thought that the Republicans would vote Democrat in order to defeat the Progressives. Anything, however to defeat the wing of the Republican party.

The Democrats are happy of course because they won. The Republicans are happy because the Progressives were defeated, and the Progressives are still happier because they have shown that their leader was a stronger man than the candidate chosen for president by the Republicans at the Chicago convention.

It is a great thing when all are happy.

Watch Abbotsford grow.

The Democrats will probably reduce the high tariff wall, a thing which the Liberals of Canada at the last election attempted to do at the expense of the Canadian people. Now the shoe will be on the other foot.

The Dominion House meets in a few days and then all will have a chance to see what the naval policy is like. It would be well for all to read carefully that policy in order to be able to vote intelligently at the forthcoming election should the government decide to submit their policy to the people.

Several weeks ago we published an article in regard to the survey of several blocks in the town of Abbotsford. It appears now that there are a number of property owners in the block who are perfectly satisfied with the present survey. Although the same is not quite correct it is possible to make it satisfactory to all by having the survey confirmed.

What are you doing these days to boost for the home town? Is it worth boosting for and what will be the result if the merchants and citizens of the town all organize to have a booster club and everybody boost for all he is worth for just six months.

THE MARKET.

Showing no sign of relief, the price of eggs remained at 65 and 70 cents a dozen at the New Westminster weekly market on Friday morning. The price was advanced last week to 70 cents and is still stiff, showing no sign of abatement. One ranch reports that only 15 dozen eggs were received during the past week from 300 hens which is falling off from the previous week. and even at the present prices the rancher is not making a sufficient profit owing to the expense of feeding.

Butter by the pound sold at 40 and 45 cents with a rebate of five cents wholesale, although there was little offered at the latter rate.

Nearly all the butter and eggs on the market were sold to local consumers, the demand for eggs far exceeding the supply.

The potato market was quiet, buyers holding off. The price remained at $13 to $15 a ton, although in some instances the price went as low as $11 a ton.

The usual crowd gathered at the poultry section and business in this department was good, the prices remaining about the same as last week. Two dozen extra fine looking ducks sold at $12 per dozen, but the average price was about $7 to $9 per dozen. Young birds and broilers were in demand and laying hens are at a premium.

Cabbage by the sack was offered at one cent a pound and this commodity was readily disposed of. Carrots brought $1 sack.

The prices in the fish and meat departments showed no change and local householders were busy buying up the numerous choice offerings.

MATSQUI COUNCIL

(Continued From Page One)

On motion the cheque was cancelled and a new one authorized for a similar amount to W. Knox.

From Thos. Adair asking for a refund of the overcharge in the taxes against the east half of the N. E. ¼ of Sec. 22, Tp. 14, this property being wrongfully assessed as wild land, and as he did not receive the assessment notice he had no opportunity to enter an appeal. On motion the council decided to refund the difference between wild land tax and the real property tax.

From Joseph Campbell enclosing letter and postal notes sent in payment of his taxes in July, but which had gone astray and reached the collector after the date of the rebate. The council resolved to allow the rebate.

A similar resolution was passed concerning C. T. Purver and Mrs. N. Purver for their taxes for the current year as the circumstances were similar, and also Mrs. H. McCallum.

In the case of E. G. Walters, who had paid the rebate, the council resolved to refund this amount.

Mr. Business Man

How are you fixed with your supply of stationery for the Fall Business? Remember, there is an old proverb which says "A man is known by the company he keeps." To this has been added the following, which is equally correct and meant especially for you "A merchant is known by the quality and style of his stationery." Of course you wish to rank among those who have reputations as good business men. Well then, get your printing done at this office, where firstclass material and workmanship are combined with right prices. The busy season will soon be here, so get your orders in before the rush.

The Abbotsford Post

Though Senator Casgrain has been in many a political fight and dealt some hard blows to his opponents, he has always played the game squarely, with the result that to-day he hasn't an enemy, and now the worthy senator sits amongst the select and practically out of the fighting line, his popularity increases each session.

Senator Casgrain, who is a land surveyor, was born in Quebec in 1856. His family on both sides had for generations taken a prominent part in the public life of Canada, so that young Casgrain early in life imbibed ideas of public work.

His scholastic training at the Seminary of Quebec was followed by a hard training in Engineering and surveying; after which Mr. Casgrain took up his profession in Montreal.

Senator Casgrain was called to the Senate in 1900.

SENATOR CASGRAIN

Since Baden-Powell originated the boy scout movement in South Africa during the Boer war, when he had an opportunity to test the value of boy's work in the Mafeking siege, the organization a success — the pioneers civilized world. And there is no country better adapted to take up the idea than Canada where a backwoods training is easily obtained. Capt. R. J. Birdwhistle the Dominion secretary was one of the first men in the Dominion to take up the proposition. He realized the splendid possibilities of the movement amongst the healthy boys who would be willing to undergo

CAPT. R. J. BIRDWHISTLE

When [illegible] Dr. Carman, delegated the [illegible] ous duties of superintending the Western work to a younger mind, it was realized at the conference that there was no better man to take up the work than Dr. Chown who had already shown executive ability of no mean order.

REV. S. D. CHOWN, D.D.

Since his appointment Dr. Chown has so ingratiated himself to the Westerners with his earnestness and aptitude for work that the members of the Methodist church feel that in the genial doctor they have one in whom they can place the utmost confidence.

You may be paid $50 in Cash for improving your walk like this

108 Canadian farmers will receive cash prizes (twelve in each Province) in our big

1912 FARMERS' PRIZE CONTEST

WE held a contest last year in which 36 prizes were offered. This year there will be three times as many prizes (108) and therefore three times as many chances for you to win one of them. You do not have to use a large quantity of cement to win a prize. Many of last year's prize-winners used comparatively little cement.

THE contest is divided into three classes and in only one of these (Class "A") does the amount of cement used count in deciding prize winners. Class "B" is for doing the *best* concrete work (the size makes no difference). Class "C" is for sending in the best and clearest *description* of how any piece of concrete work was done.

THERE will be four prizes (First, $50; Second, $25; Third, $15; Fourth, $10) in each class in each Province. Thus you have only to compete with other farmers in your own Province, and not with those in all parts of Canada. This gives you the best possible chance to win a $50 prize.

IT COSTS NOTHING TO ENTER—There are absolutely no "strings" to this offer. There is no entry fee or red tape to bother with. You cannot lose, because the improvements you make of concrete in competing for the prizes will be more than worth their cost. We have a book, *"What the Farmer Can Do With Concrete,"* that will give you all the information about the use of concrete you can need. It will be sent to you free when you ask us for complete particulars of the Prize Contest. Ask for particulars to-day. Just say "Send me, free, your book and full particulars of the 1912 Prize Contest," on a post card and mail it *to-day*. **Address Publicity Manager,**

Some complaint is made by some of the citizens in regard to the electric pole on Gladys Avenue being so near the centre of the street. It is claimed that the street is 90 feet wide and that the new poles erected this week will tend to confine the street to 60 feet, a thing that is not to be desired. It is a matter that should be rectified if wrong. Nothing should be done to make the streets of a town any narrower than they really are, and if the contention is right—and this paper has it from very good authority—the matter should be taken up by the board of trade at its next meeting.

It was decided to have a suitable place erected on Railway St for the proper housing of the fire apparatus which was ordered for the town. A full quota of ladders and buckets arrived and when those who have subscribed to the fund have all paid up the building and the fire fighting apparatus will be a good start towards safeguarding of the town, and although not all that is really required will be a fine start for a small town. The secretary is in line for receiving of all subscriptions when those who have subscribed feel that they can part with the needful. There are just a few collections to be made.

Mr. J. Heath was made a new member.

After the discussion of other important matters, which bear particular interest to the town, the board adjourned to meet on December 2nd.

The clerk was instructed to write requesting the attendance of the chief official of the Western Canada Power Co and of the Matsqui Dyking District Water Works Co.

Now is the time for the Purchasing of the

Winter Stove

be it a heater or a new cook stove. The winter may be cold.

Just arrived a fine consignment of toilet sets at remarkably low prices. Also a fine line of linoleums. These are the best ever offered in Abbotsford. The prices are right.

How about a Lantern for dark winter nights?
