Building in Greenwood.

Four things of importance.

**BRIDGE ACROSS BOUNDARY—
Mr. EHRLICH'S HOUSE—RUSSELL
Co.'S BUILDING—A NEW
BLOCK.**

The bridge across Boundary Creek for the New Mother Lode road is completed all but the approaches and filling in of these is rapidly being done.

The new bridge is solidly built with a curved bottom to drain off the wet. The bridge is supported by heavy timbers brought from Phoenix, and by a truss above. The piers are built of six inch timbers and are pointed upstream.

The bridge will be ready for use in about two months.

Julius Ehrlich is building a new house near the Fisher residence. They are now putting up the roof.

A stone retaining wall is built around the base of the yard. It promises to be a beautiful cottage.

A stair will lead up the front of the terraced lawn. The Editor hopes that

more such houses will be built in Greenwood.

The Russell Hardware Co's building now promises to be a beautiful structure when finished.

Foundations are being laid for a new block, all of which makes Greenwood lively.
