

THINGS DOING AT THE

SUNSET SMELTER.

AT BOUNDARY FALLS.

At Boundary Falls work is being pushed on the enlargement and improvement of the smelter.

A new engine room is being built; it will be 130 feet long and 40 wide. The walls are of thick stone masonry and one will serve as a retaining wall for the ore bin level. One end of the building will hold the blowers, the central part is for the electric light and the large engine, while the boilers will have the remaining space.

Two new coke bins have been built in between the tracks on both ends of the main building. These will have a capacity of 300 tons each.

The new furnace is expected to arrive within 30 days and will find everything in readiness to be put in immediately.

WEDNESDAY, NOVEMBER 5, 1902.

ABOUT TOWN

The first snow of the season, in the valley, fell on the fourth of November. It has been creeping down the hills for over a week.

On the second trip to the Mother Lode yesterday the shay engine 1901 broke down shortly after leaving the smelter.

Mr. Waterman, of the geological survey party, is over from Princeton on a visit.

Rev. Robins returned on Monday from his vacation trip to England.

The "News" will soon show a new style of type in its add columns.

CULTUS HEHE

Magistrate—Now, I'll let you off this time, but it should be a lesson for you not to be in bad company again.

Prisoner—Gee whizz! it ain't my fault that I'm here: the cops made me come.
