## A CHANGE IN THE COURSE OF BOUNDARY Creek. At trestle 92 A.

The C. P. R. have been building a dam to protect the piles on the lower side of trestle 92 A.

The dam is of solid cribbing, filled in with stone, and crosses the creek where it has been running in a channel cut recently between the piles of the bridge.

This will force the creek into its old channel, or it may have to cut a new one.

This old channel is now filled with slag, deposited there because of the log jam just below. As the log jam has not been removed, it is likely when high waters come that a new channel will be cut.

Mr. W. H. Thomas arrived in town on Monday.

.35 buys a 5lb package of Wall Finish. It beats kalsomine. .35 buys a brush and any one can do the rest. O. I. C. Second Hand Store.

## ABOUT TOWN

Next Sunday is Easter.

Both furnaces at the smelter are being repaired, previous to starting.

The court house is under roof, and promises to be a beautiful building.

On Friday last Mr W. G. Gaunce and Mr. F. Keffer returned from Fernie.

Mrs Cragie is selling her fine window plants. They expect to move to Cranbrook in a few weeks.

Mr. J. W. Ellis accompanied by Mr. A. Taylor from the Knob Hill visited the News office last week.

The Boundary Falls smelter is rushing construction and repairs, and expects to start with both furnaces.

## V. V. & E. NEWS.

The final survey for the V. V. & E. through Anaconda has been made, and construction begun between Curlew and Midway.

The line to the smelter runs along the mountain west of Anaconda, crosses Copper Creek near its mouth, and comes in on a level with the ore bins and furnace floor.
