HOW CARS ARE RERAILED.

ON THE C. P. R.

As Seen by the Editor.

Last week when three cars ran off the switch at the Mother Lode, the process of rerailing them proved full of interest.

The first two were clear off and the third had its front truck off.

When the engine arrived, they pulled the first truck onto the track. After vain attempts with rerailing frogs they had to take the car to the safety switch, about 100 feet below, where by running the car partly over the switch, they opened the the switch, gave a gentle pull which easily put the car on the track. This car was then taken to the Sunset switch. The next was treated in the same way. A push rerailed the front truck of the third car.

Altogether it was the work of about three hours.

ABOUT TOWN

Mrs. Westwood of Grand Forks is visiting the Miss Gibsons. On her arrival she came near losing a valuable dog. At first he was nearly run over, and then he made his escape by way of Deadwood and the Crown Silver, where he was found on Sunday nearly perished in the snow.

The nominees for mayor of Greenwood were Messrs D. J. Sullivan, G. R. Naden and R. Smailes. The election will be on Thursday if the candidates do not withdraw.

The untrodden snow in the valley now measures $18\frac{1}{4}$ inches.

Mercury has gone below zero for the first time this season.

Skating is fine.
