THE MORRISON.

THE AH THERE.

And a siding.

At the Morrison preparations are being made to ship the present ore dump to the Anaconda smelter. It is supposed that there are over 1000 tons of ore on this dump. This ore will be hauled by wagon to a point above the Deadwood mill where a railway spur will be put in.

The top four feet of the dump can be put into the present bin, but for the rest of the ore a new bin will have to be built.

The Ah There dump is also under examination, and a man at work upon it. This could easily be hauled to the siding at Deadwood.

Cyclist—I always get nervous when I see a woman crossing the street ahead of me.

Second Cyclist—So do I. They have so many pins in their clothes, that if a fellow collides with them he is almost sure to puncture a tyre.

Wheelman—The bicycle is no longer a toy. Ordinary Citizen—No, sir, it isn't. I've been run into by one myself.
