LOCOMOTIVE FOR DUMPING. Molten slag.

The new locomotive for hauling molten slag will soon arrive at the Anaconda smelter, and within a few weeks the new system of removing slag will be in operation. The steel rail is here, and the smiths are busy making switches and frogs.

The melted slag will run from the settlers into cars fitted with bowls which will hold about 50 cubic feet.

When a bowl is filled it will be hauled to the edge of the dump and poured out by means of a worm gear.

At night the glowing slag will be an interesting sight, and will help light the city.

This morning the matte shed at the smelter was cut in two and the outer half lifted bodily by about 30 men and carried to the north end of the engine room. This was a novel method of moving.

DON'T FORGET---

That our market will be closed during the big Labour celebration on August 19th.

ABOUT TOWN

Mr. F. Keffer returned on Monday last.

School will begin here on next Monday.

It is about the right time of the year for forest fires.

Mr. O'Brien of Anaconda and family left town yesterday.

At Banf B. C. it has been raining every day for the last three weeks, and the hotel people are disgusted, as are the tourists.

Greenwood and Anaconda men and their families to the number of about forty picniced on the hill west of here yesterday afternoon, and had a fine time.

FRUIT & HAY.

This section of British Columbia has had an unusual amount of rain this season. This is bringing on a fine fruit crop. It is necessary to thin out the apples on the Midway fruit trees to prevent branches from breaking. Other fruit is equally plentiful.

The hay crop has suffered from too much rain and ranchers are heavy losers from this source.

“It is true the saving of a few dollars may in itself be of little moment, but if the habit once becomes fixed, the accumulation will go on and be ultimately successful.”
