## Grand Wedding.

Celebrated in town today.

Mr A. Rendell was married to Miss Manahan at high noon today. The wedding took place at the Presbyterian Church. Rev. McKee officiated.

The bride, who was beautiful in the conventional bridal costume of white satin lace and orange blossoms, was attended by the tiny Miss Grierson as by a dainty fairy.

Both the bride and groom having lived in Greenwood for years, were popular and well known to every one. Mr. Rendell came to the Boundary along with the first prospectors. A large and representative audience gathered to witness the ceremony and thereafter to wish the happy couple a future of bliss. A wedding breakfast was served later at the residence of Dr. and Mrs. Spinkie.

## Gold Production.

Colorado, in 1903 produced \$28,468,000 in gold, and California \$16,792,100.

Colorado retains first place in gold production, California being second.

## Liberal-Conservative.

Both the Liberal and Conservative Conventions for the Yale-Cariboo district met at Kamloops last week. Mr. Ross of the "Times" was nominated by the Liberals, and Mr. Burrell of Grand Forks by the Conservatives.

Both are well known Boundary men, and there will be a great fight.

## Wanted-a Crossing.

The use of the new bridge across Boundary Creek, which has been finished for some time, would be greatly increased if a crossing were put in over the railway at a point to make direct connection with the new bridge. Some

Continued on page 6.

### ABOUT TOWN

Skating and sleighing are fine.

At the B. C. Copper Co's office nearly the whole force was on the sick list last week. Both Mr. Paul and Mr. Merritt are again at the desk.

The Greenwood curlers are represented by Messrs W. G. McMynn, K. C. B. Frith, W. Cookson, and H. W. Falconer at the Kootenay Bonspiel, which opens at Revelstoke on Monday.

Mr. & Mrs. English arrived in town last Wednesday. They were delayed by the big snowslide near Field. The great steel bridge being swept out it was necessary to transfer on foot.

The bridge had been fairly wiped off the earth, nothing being left of it.

## MINING NOTES.

At the Lakorn there are two experts at work sacking up the nuggets. This rich ore is being shipped to the Anaconda smelter.

On the Dynamo the tunnel is in about 95 feet. They expect shortly to strike the main lead. A rich stringer has recently been struck. It is likely to become a regular shipper in the near future.

CROSSING.

From first page.

work has been done on this crossing some time ago, and it could be finished for a slight cost. A crossing here would mean a saving of a long detour which all teamsters crossing the new bridge are now forced to make.
